

Peerless 4361

[Chapter 4361: Soul slave, this is a great gift for you!](#)

At this time, inside the Emperor Honglu, Chen Feng could also see clearly.

He saw the endless red flames of the heart of the earth being consumed, and that group of spiritual liquid was getting smaller and smaller.

The embryonic form of the God Stealing Pill became more and more obvious, and the surface became smoother and smoother.

The momentum is getting stronger and stronger, and Guanghai is getting brighter!

Finally, several hours passed, and the flame was no longer consumed.

Even, they couldn't get into it, they just turned around randomly.

And the Heaven Stealing Divine Pill, at this time, still hadn't finished smelting, it just wandered around in place.

It seems that the most critical step is missing.

Seeing this scene, Chen Feng was stunned: "What's the matter?"

At this moment, the Heaven Stealing God Pill was here, which made people feel particularly uncomfortable at first glance.

It's as if there is something extremely important forgotten before going out.

It was about to break through, and when it was almost a shot, the result was so stopped!

This kind of feeling makes people feel so sad that they almost vomit blood.

That uncomfortable feeling filled Chen Feng's heart in an instant.

But then, Chen Feng's heart suddenly moved, and he suddenly said: "What is my anxiety? The soul slave must be more anxious than me!"

"Moreover, since he refines this Heaven Stealing Pill, he must be very familiar with the Heaven Stealing Pill, so he will naturally solve it."

Thinking of this level, Chen Feng immediately relaxed, and carefully looked at the embryonic form of the Heaven Stealing God Pill.

And when he took a closer look, he immediately took a breath, his heart beating wildly!

Almost to take a step back, his body is unsteady.

It turned out that at this time, the breath exuding from the Heaven Stealing God Pill was extremely terrifying.

That coercion, overwhelming the sky, permeated every place in the Emperor's furnace!

With supreme majesty, infinite dominance, and extremely powerful!

However, even the Divine Stealing Pill that has not been thoroughly condensed now is just a rudimentary form. When Chen Feng faced it, his heart could not help but jump!

There is a feeling of facing a soul slave!

That's right, even if Chen Feng faced the unformed Heaven Stealing God Pill, he had the feeling of facing the soul slave, a nearly eight-star Martial Emperor master!

Chen Feng took a deep breath: "This Stealing God Pill is really amazing!"

Chen Feng sighed lightly, suppressing this feeling.

Then, it is ready to layout.

He chuckled, "Soul slave, I want to prepare a great gift for you!"

Next, he stretched out his hand.

The Nine Yin Martial Soul of the Candle, immediately returned to Chen Feng's arm.

Chen Feng looked at him, and laughed in a low voice: "Little guy, how much can you absorb the Chiyan Geocentric Fire here?"

After all, he pointed to the heart of the remaining Chi Yan.

At this time, the flames in the heart of the Chiyan Earth were still in the furnace of the Heavenly Emperor, and it was difficult to escape.

They can't go back to the volcano, and at the same time they are no longer absorbed by this thief **** pill.

A large amount of Chiyan Earth's core fire is accumulated here, spreading over the furnace of the Emperor of Heaven with a radius of several million meters.

Zhu Jiuyin Martial Spirit blinked at Chen Feng without speaking.

It was just a swam of the body and came to the top of the heart of the Chiyan Earth.

Then, **** hard!

His breath was silent and natural.

There wasn't even much noise at all, it was natural.

It happened naturally.

But its power is amazing enough!

I saw that with this inhalation of the Nine-Yin Zhu Yin Martial Soul, an extremely huge vortex was formed directly at the Shekou position of the Nine-Yin Zhu Yin Martial Soul.

The vortex was spinning frantically, and powerful suction came.

Chen Feng and the three of them were far away, and they all felt almost directly sucked in.

And the fire in the heart of the Chiyan Earth was originally strong and domineering, but at this time, under the huge suction, there was no resistance at all.

What directly involuntarily rushed into the whirlpool, was directly swallowed by the Nine Yin Martial Soul!

The suction power of the Jiuyin Martial Soul of the Candle did not cut off, but continued to absorb it.

This round, he absorbed 20% of the remaining Chiyan Earth Heart Fire before it stopped!

Chen Feng thought that the Nine Yin Martial Soul of Candle had reached its limit, and said in his heart: "It is enough to be able to absorb so many flames."

But I didn't expect that there was a burst of mischievous emotion from Zhu Jiu Yin Martial Spirit, as if he was joking with Chen Feng just now.

Then, he blinked and started to take another breath.

As a result, another 20% of the Chiyan Earth Heart Fire was absorbed!

Chen Feng was surprised: "Can you still absorb?"

In the mood of Zhu Jiuyin Martial Soul, he was indescribably proud.

He swam happily twice in the air, then switched to another direction, and took another breath!

Chen Feng was dumbfounded.

At this time, there were not too many flames in the heart of the Chiyan Earth, and the Jiuyin Martial Spirit of Zhu Yan simply absorbed it crazily.

It took about a quarter of an hour to absorb all the remaining red flames.

At this moment, Zhu Jiuyin Martial Spirit returned to Chen Feng, paused and burped.

It seems to be full.

Chen Feng looked at the belly of Zhujiuyin Martial Soul, and exclaimed, "This is also a bottomless pit!"

Chen Feng still doesn't know exactly what ability the Nine Yin Martial Soul of this candle has.

But at least, it has a very strong swallowing power, and an almost infinite amount of belly.

"A ninth-rank heaven-level martial arts soul is a ninth-rank heavenly rank, too powerful!"

A chuckle appeared at the corner of Chen Feng's mouth: "A big event can be expected!"

It turned out that what Chen Feng is doing now is also the first step of a very important thing next!

If the Chi Yan Earth Heart Fire was ten percent, then about ninety percent was used to refine the Heaven Stealing Pill, and the remaining ten percent was all swallowed by the Nine Yin Yin Martial Spirit.

Don't underestimate this achievement.

What the Nine Yin Martial Soul of Candles swallowed was the highest level and strongest volcano in the Dragon Vein Continent, all the power of flames and the power of the center of the earth accumulated over millions or even tens of millions of years!

This power burst out, it is extremely terrifying.

At this time, the soul slaves outside naturally discovered that the Heaven Stealing God Pill had stopped refining.

It's just that he didn't have any panic, on the contrary, instead, a smile appeared on the corner of his mouth and said softly:

"Sure enough, that old thing didn't lie to me, it really is!"

He raised his head and looked towards the sky, seeming to be waiting for something.

Finally, the setting sun sets and the moonlight rises.

But the people in Soul Destruction Hall were surprised to find that the moonlight today is more prosperous than usual.

Today's moon is exceptionally big and round.

I don't know how many times it is bigger than before.

The moon hovered in the sky, it seemed to be within reach, and even gave people the illusion that they could see the scenery above.

And the moonlight was falling down, like water, splashing everywhere in the Soul Destruction Hall, splashing on this world.

At the same time, it was also spilled on, this piece of ruins, which seemed to be after the end of the world, was spilled on the emperor furnace that day!

Then, the moonlight disappeared!

The moonlight within hundreds of thousands of miles disappeared.

[Chapter 4362: Stealing God Pill! Finally made it!](#)

It's as if the moonlight here was cut off forcibly!

And if you look closely, you will find that they have not disappeared, but have been absorbed by the Emperor Honglu that day!

In almost an instant, all the moonlight within this hundreds of thousands of miles was absorbed by the Emperor Honglu!

The soul slave clenched his fists in an instant, his face was full of excitement, and the muscles on his face burst and burst, extremely excited:

"The big thing is done! The big thing is done!"

It turns out that this thief **** pill is the treasure of heaven and earth.

It is not enough to refining by the extremely masculine red flames of the earth's heart, but it also needs this yin to soft moonlight!

The moonlight soaked in and entered the emperor's furnace that day.

Chen Feng and others also saw that Yuehua splashed in.

And this huge amount of moonlight infiltrated every part of the Emperor's furnace.

Then, without the drive of the Emperor Honglu, the embryonic form of the Stealing God Pill, he started to turn around.

Then, it is like a long whale absorbing water, instantly absorbing these moonflowers!

Finally, as Yuehua entered, Stealing Heaven God Pill finally completed the last step of refining.

At this moment, Chen Feng felt that the world seemed to be still.

And the next moment, there was a loud bang!

The light shines brightly, extremely bright!

In the void, Xianle rang and petals fell.

A rainbow suddenly appeared, spreading for thousands of miles!

Between heaven and earth, countless illusions appeared!

No, this is not a fantasy, but a scene that really exists!

It's huge, but extremely brilliant.

The inside of the Emperor's furnace was no longer dark at all, but surrounded by various visions.

After a while, there were countless golden lotus blooming in the void.

Chen Feng opened his mouth wide and was overwhelmed.

Even with his insights, he couldn't help being shocked.

Before he made alchemy, extremely high-level golden cores appeared, for example, when the seventh-rank golden cores appeared, there were also various special scenes.

But the visions that appear today are ten and a hundred times as many as in the past!

As a result, he couldn't even count how many phenomena of heaven and earth appeared!

The next moment, with a boom, all the world visions are all shattered and disappeared!

In place, only a touch of brilliance is turning!

This glimmer of brilliance is a pill!

A burst of strong to the extreme scent, pungent!

A pill, about the size of a walnut, emerged from that boundless vision, suspended in the air.

Stealing God Pill, finally made!

When Chen Feng saw this pill, his heart suddenly trembled!

Feeling a forceful pressure, came suddenly!

He kicked and kicked, and backed a few steps before he stood still, with a look of shock on his face!

At this time, when he faced this pill, he felt like facing Xiahou Jiuyuan!

You know, Xiahou Jiuyuan is a dignified eight-star Wudi!

In other words, this pill is almost equivalent to an eight-star Wudi!

Chen Feng trembled fiercely in his heart: "This, is this the God Stealing Pill?"

"What kind of power does this stealing **** pill have? How powerful is it! Great terror!"

Condensing nine giant volcanoes for tens of millions of years to continue the power of the flame ground veins, condensing thousands of the highest-level spirit grass elixir, condensing hundreds of years of hard work in the Hall of Soul Destruction, condensing the blood of the three Chen Feng, Luck, talent... and so on!

The refined God Stealing Pill finally came to life!

Chen Feng looked at the God Stealing Pill with a bit of intoxication in his eyes.

Around the thief **** pill, the moon shines.

It seems to be countless times brighter than that full moon!

The God Stealth Pill was circling around here, seeming to want to find an exit quickly.

However, the top cover of the Emperor Hong Furnace was still not opened that day. After waiting for a while, Stealing Heaven God Pill seemed anxious.

Immediately, he slammed into the roof of Emperor Hong's furnace that day!

Then Chen Feng heard a loud bang!

The huge sound of golden and iron mingling lingered in this Heavenly Emperor Honglu, almost deafening their ears.

Han Yu'er and Qingqiu Yaoguang were directly shocked and their ears bleed, and their eyes were dizzy.

Chen Feng couldn't help but jump in his heart.

Stealing God Pill, this collision can be really serious, I am afraid that a mountain can be broken, it is estimated that the Six-Star Wudi will be directly broken by it!

Qixing Wudi can barely receive it!

Eight-star Wudi can catch it!

"This God Stealing Pill is terrifying! Where is this pill, it is clearly a peerless weapon!"

However, Chen Feng did not panic.

Instead, he immediately opened his own spiritual world and began to contact and sense that stealing **** pill.

Chen Feng never thought that he could easily control the Heaven Stealing Pill!

This is the Ninth Grade Golden Core!

It must have infinite power, where can you easily control it?

He knows very well that the most important step is to establish contact with this stealing **** pill.

For this, Chen Feng is very confident.

After all, this can be regarded as a pill that Chen Feng smelted from him.

Chen Feng's golden spiritual world trembled, and suddenly, tyrannical spiritual powers poured out, rushing toward the Heaven Stealing God Pill overwhelmingly.

After the stealing **** pill was wrapped, it stopped for a moment.

Then, a feeling of doubt was passed on.

Chen Feng's golden spiritual power wrapped it, and began to infiltrate and sense.

The God Stealing Pill suddenly became irritable, crashing crazily, and shuttled among the golden spiritual power!

Chen Feng suddenly groaned as if he was hit hard, and blood overflowed from the corner of his mouth.

But he never stopped at all, but still persevered in infiltrating and establishing contact.

Finally, after not knowing how long it took, Chen Feng suddenly felt that a connection was quietly established between himself and the Heaven Stealing God Pill.

On the Divine Pill of Stealing Heaven, a familiar and intimate emotion was passed back.

That is Chen Feng's own breath!

"It's done!"

Chen Feng was overjoyed.

At this time, the soul slave outside, looking down at the Emperor Honglu, was also extremely anxious.

He clearly heard that the God Stealing Pill was banging against the Emperor's furnace inside.

However, the lid of the Emperor's furnace has not been opened!

The soul slave tried to control the Emperor Honglu, but found that he couldn't do it at all!

The Emperor Honglu has completely lost control!

The soul slave knows why this is!

Treasures of the level of Emperor Honglu have already produced their own Gnostics, and at this time it naturally wants to take the Heavenly Stealing Pill as its own!

And the thief of the gods pounded inside, almost smashing a mountain with each blow!

Finally, Tiandi Honglu seemed unable to bear it.

With a bang, the huge mountain-like stove lid was directly flying out of the roof.

Seeing this scene, the soul slave's face was extremely ecstatic, his face distorted!

A voice in his heart yelled frantically: "The God Stealing Pill is mine!"

[Chapter 4363: That hand!](#)

He had already flown to the entrance of the Emperor Honglu that day, his sleeves stretched out, and he was ready to take the Heaven Stealing God Pill into his hands.

Sure enough, he saw a burst of bright cyan light like a moonlight, flying out towards the outside.

It is the **** pill that steals the sky!

In an instant, the soul slave was so excited that he couldn't help shouting frantically: "Perfect!"

"The appearance of the Heaven Stealing God Pill is perfect!"

That's right, stealing the **** pill, the ultimate perfection!

Even, this is not a ten percent God Stealing Pill, but a 12% God Stealing Pill!

More perfect than the soul slave imagined!

And seeing that, in the next moment, the Heaven Stealing God Pill would fly out of the emperor's furnace that day, and then he would hold it in his hand.

The soul slave's eyes were straight, and the extreme excitement and ecstasy almost drowned him!

He was trembling all over, almost fainting with excitement.

At this moment, his heart jumped out of his throat!

But at this moment, suddenly, beside the oblique thorn, there was a white and slender hand that stretched out!

With an indescribable sense of leisure.

Very firm, yet extremely relaxed, he held that stealing **** pill in his hand.

The white and slender hand shrank to the side and disappeared immediately!

That's it, I'm helpless, gone!

Under the eyes of the soul slave, it's gone!

The soul slave was stupid.

He didn't react for a long time, and the whole person froze there.

The scene that happened at this time has completely exceeded his cognition.

His whole body is dumbfounded, and his thinking seems to be stiff.

After a while, he reacted and let out a violent roar: "Which dog thing? Dare to take away my God Stealing Pill?"

But how could there be anyone in the Emperor's Furnace?

"Who is it! Who did it!"

He was almost crazy at this moment!

A frenzied and violent murderous intent, overflowing from his body!

His whole person was in an extremely manic situation, so that his thinking seemed to be frozen.

His eyes were red, and he couldn't even think about who did it and who could do it!

At this moment, he was just killing intent! Angry!

He has only one thought in his heart now: "Kill him! Kill this person who stole my Heavenly Pill!"

"Kill him, let him taste the extreme pain!"

But there was no movement in the Emperor Honglu that day, and no one rushed out of it.

So, naturally and logically, the soul slave made the most normal response:

With red eyes, he rushed into the Emperor Honglu that day!

In an instant, he rushed into the furnace of the Emperor of Heaven!

The inside of the Emperor's Furnace was naturally dark compared to the outside.

Just entering here, his eyes were unable to adapt for a moment.

In front of me, there was darkness!

In the next moment, he felt a ray of light in front of him!

Yes, a ray of light suddenly appeared.

That is a little red light!

Then, this little red light grew bigger and bigger in front of him.

Finally, it turned into an overwhelming, shocking, bright red!

The soul slave's pupils shrank instantly!

It turned out that he was shocked to discover that the turbulent red light that appeared in front of him was a flame!

A blazing flame that is extremely hot, endless, like a sea of fire!

The flames were so big, so many, spreading out in front of him until they reached the end of the line of sight.

This is a sea of fire!

This is exactly the heart of Chi Yan!

Endless red flames of the heart of the earth!

And the most important thing is that at this moment, this raging sea of fire is madly rushing towards the soul slave!

It seems that in the next instant, he will be submerged directly!

The soul slave instantly felt a scorching heat on his face, and his whole body was burning with fire.

His hair was directly burned into nothingness by the extremely high temperature.

In an instant, he felt like he was in a flame hell, his whole body seemed to be burning.

It seems to be dried in the next moment.

Even with his strength, facing the turbulent flames, it feels extremely dangerous!

In fact, these flames were enough to burn him seriously!

What's more, his body is a half soul body!

The soul body's ability to resist fire is even worse.

The soul slave stared and yelled frantically, "What is this? What is this!"

He wanted to dodge, but as soon as he came in, he was surrounded by this sea of fire, how could he dodge?

Even without waiting for him to react, this sea of flames swallowed him directly!

The soul slave felt the infinite flames enveloping him and burning himself, and he let out a scream of miserable screams, and there was no pain anywhere on his body, and nowhere was burning.

His two big sleeves swept wildly, wanting to include these flames.

This does have some effect.

The flames of hundreds of meters in a radius were sucked in by his big sleeves.

But in an instant, those new flames outside were replenished.

It was sucked in again, but almost at the same time, the flame was replenished again

And his huge sleeve, the capacity has reached the limit, can't bear it!

Those flames burned wildly in it, even burning his sleeves through!

With a 'boom', the huge sleeves burned directly.

Then, his whole clothes also burned.

The soul slave felt that his whole body was burned clean.

He feels all his power is burning!

The spirit is so!

So the soul!

The same is true for the flesh!

He can hardly bear it!

After all, this is the power of a whole volcano.

This is one of the largest volcanoes in the Dragon Vein Continent, which has accumulated the power of the Earth Vein for millions of years and tens of millions of years.

How can it be resisted by a human warrior?

At this time, the soul slave's head was still muddled, and he had not recovered from the huge shock of stealing the **** pill just now.

Therefore, there was no effective resistance at all.

However, in his body, faint blue mixed with cyan powerful soul power, constantly gushing out, instinctively resisting these red flames.

However, Chiyen Earth's heart is endlessly fired, resisting one wave after another.

Surrounded him like the stormy waves hit the shore.

Seeing the soul slave, it was already in danger in an instant, and it seemed that it might be burned into nothingness at any time.

At this time, in the corner of the Emperor's Honglu, Chen Feng looked at Zhujiuyin Martial Soul, and laughed: "Little guy, good job!"

The Nine Yin Martial Soul of the Candle, now spit out fiercely.

Spit out all the red flames in the heart of the earth.

It was praised by Chen Feng and seemed very happy.

[Chapter 4364: A fatal blow!](#)

In Chen Feng's soul, he felt a crisp chuckle.

After that, Zhu Jiuyin Martial Spirit circled Chen Feng, rubbing him around, feeling indescribably affectionate.

At this time, the interior of the Heavenly Emperor Honglu was almost completely filled with Chiyan Geocentric Fire.

The temperature here is also extremely high.

Chen Feng laughed: "Let's go!"

After that, with the Jiuyin Martial Spirit of Zhuo Yin, Han Yu'er, and Qingqiu Yaoguang, the figure flashed, and then the Emperor Honglu flashed out of that day.

Standing outside the Emperor's furnace, looking at the soul slave struggling in the endless red flames of the heart of the earth.

Chen Feng laughed loudly: "Soul slave, have you ever thought that you will have today?"

It turned out that this was Chen Feng's long-planned fatal blow to the soul slave!

It is also the most important means to weaken soul slaves!

Everything before was in Chen Feng's calculations.

The reason why he couldn't come out after taking this Heaven Stealing God Pill was to attract soul slaves and rush into the furnace of the Heavenly Emperor!

And his purpose of drawing the soul slave into the furnace of the Emperor of Heaven was naturally to make the Jiuyin Martial Soul of Zhu Zhu give him a fatal blow!

Just now, Chen Feng was prepared for this soul slave to let Zhu Jiuyin Martial Soul absorb so much Chiyan Earth Heart Fire!

If it were outside, Zhu Jiuyin Martial Spirit would launch an attack, which might be detected by the soul slave in advance and avoided.

But the moment the soul slave rushed into the furnace of the Emperor of Heaven, the brightness outside turned into the ultimate darkness.

In addition, his head was dizzy and he couldn't help but it was impossible for him to avoid the blow of the Jiuyin Martial Soul of Zhuo!

It turned out that at the moment when the Emperor's furnace lid was opened, Chen Feng finally established a connection with his own wisp of luck and soul in that thief **** pill, and completely recovered it!

Otherwise, Chen Feng wouldn't be able to take this Heaven Stealing God Pill in one fell swoop.

Then, he immediately let Zhu Jiuyin Martial Soul release the Chiyan Earth Heart Fire that he had swallowed before.

Chen Feng planned this blow for a long time!

And this blow is also a crucial key to Chen Feng's success in completing his plan!

The soul slave was still struggling in the fire.

Now, his body has become looming, even a bit emptiness.

He burned his body amidst the flames of the Chi Yan Earth, and he had almost become transparent.

It is the soul body, and the soul body is the most vulnerable to serious damage from forces such as light and fire.

Therefore, for him, the damage of this Chiyan Earth Heart Fire is stronger than that of ordinary warriors!

It seems that in the next instant, it will be directly burned into nothing by the red flames of the earth's heart, and it will be wiped out and burned out!

However, the soul slave is the soul slave after all.

He just didn't react normally because he was unconscious and confused.

At this time, Chen Feng's sneer came, and he suddenly became stiff.

He didn't care about the red flames, he just turned his head back abruptly, staring at Chen Feng, his eyes cracking, and he shouted sharply: "It's you?"

"Chen Feng! It's you? You're doing all this?"

His hideous face was like a ghost under the flames of the Chiyan Earth!

Chen Feng laughed loudly: "Yes, it's me, what's wrong? Are you surprised?"

When Chen Feng said these words, it was nothing more than a few big slaps and slapped the soul slave's face fiercely.

The soul slave felt qi and blood surge all over his body, embarrassed that he couldn't tell!

He initially dismissed Chen Feng, did not put him in his eyes at all, and wanted to refine him into a pill!

As a result, he did not expect that Chen Feng, who was dismissed by him, would tidy up a meal!

Suddenly he woke up suddenly, staring at Chen Feng, and sternly shouted: "You didn't have enough strength before, are you all pretending to be?"

"Yes!"

Chen Feng smiled slightly and said softly: "Come on, soul slave, then think about it, see what else you haven't thought of."

The soul slave seemed to be unable to hear the sarcasm in Chen Feng's words, and his voice was extremely stern:

"You, you have a way to resist the flames of the Chiyan Earth, so you deliberately fell into my hands? Came here deliberately? You deliberately entered the Emperor's furnace, didn't you?"

His voice is extremely crazy.

Chen Feng laughed loudly:

"You know, it's not too late!"

He laughed, staring at the soul slave, and sternly shouted: "Old dog, let me tell you!"

"First, I knew that Kong Yangyu's actions could not hide from you! I knew long ago that if I came to rescue Senior Sister and Yaoguang, you would stand by your side!"

"So, I will do my best and enter here!"

"Secondly, I have a way to resist the flames of the Chiyan Earth's heart, and I can smelt my spirit after entering here!"

"Hahaha, did you see who breathed flames at you just now? It's my martial soul who advanced!"

"Third, I have long thought about how to make this pill without dying three of me!"

"Now, this pill has been refined, but the three of me are safe and sound!"

"You old dog, I made three calculations, but you didn't even notice it!"

Chen Feng's laughter echoed in this world: "Soul slave, soul slave, your old dog has lived for hundreds of years, and you really live on a dog!"

"As for the fourth, this Heaven Stealing God Pill, to me, it is an unexpected joy!"

"I didn't expect to be able to reach such a powerful **** pill before!"

He stretched out his right hand, and the elixir, which was as bright as the moon, slowly rotated in his hand.

Exuding a powerful and bright breath: "Old dog, didn't you expect it?"

"You worked so hard for more than a thousand years, but in the end you made a wedding dress for me!"

Chen Feng looked up to the sky and smiled, and his heart was extremely happy.

The previous repression, the pain between life and death, the exhausting pretense, the crazy suppression and restraint of oneself!

All of that!

Amidst this laughter, it radiated out!

Chen Feng's heart was extremely refreshed!

In contrast, the soul slave trembled, his eyes were red, and his mind was extremely confused.

I believe that if he is not a soul body, he will be vomiting blood for three liters of anger by Chen Feng at this time!

However, although he did not vomit blood, he was trembling with anger and his brain stiffened!

Under the turmoil, even the power can't be controlled.

Suddenly, the red flames invaded his body frantically!

It burned rapidly from the inside out!

His five senses, seven orifices, red flames and earth fire burst out everywhere.

It seems that the next moment will be burned to death!

It can be said that Chen Feng's remarks at least caused the strength of the soul slave to drop by about 10%!

This strength may be between life and death!

Just now, the soul slaves were crazily eroded by these red flames, and their strength had already fallen crazily, and their injuries were extremely serious.

Probably only about 80% of the peak period.

[Chapter 4365: Seed beans](#)

Now because of Chen Feng's words, he has fallen sharply by 10%, leaving only about 70% of his strength at his peak!

In fact, Chen Feng did not just do it for mockery.

On the contrary, he did so with foresight.

If Chen Feng were to run away, he would never show up, he would run away quietly.

It's best not to let the soul slave find out that he is still alive.

In this way, the time for the soul slave to chase and kill can be delayed.

But the problem is that Chen Feng has nowhere to escape!

It is impossible for him to escape!

He has nowhere to go!

He wants to flee now, but there is only one direction, which is to flee outward.

If you escape, you will enter the ghost forest.

After entering the ghost forest, they will be besieged by those ghosts.

Then, Chen Feng is equivalent to entering an unfavorable home court.

Of course, he can also choose to escape to Soul Destruction Palace.

But those masters in Soul Destruction Hall would not listen to him, but would listen to soul slaves.

In other words, as long as Chen Feng chooses to escape, no matter which direction he flees, he will actually fall into a more disadvantaged situation!

Instead, staying here is the best choice.

The soul slaves accumulate so much power, no one in the Soul Destruction Hall dares to come here.

The ghosts even dare not come here to find death.

Chen Feng will go to other places and face more enemies.

If he wants to be here, he will only face a soul slave!

What's more, Chen Feng had planned for a long time before, in order to treat this place as a decisive battle!

He still needs to be here, waiting for someone to arrive!

Therefore, instead of telling the soul slave, he is here now!

He wants the soul slaves to consume these red flames and come out of the furnace of this heavenly emperor!

Then, come find yourself, chase yourself!

In the meantime, there is still a question: that is, how will the soul slave choose?

After all, the soul slave is an old monster who has not known how many years he has lived. Its scheming city government and its mind are hard to predict.

Maybe, he would give up his hatred when he thought about it calmly and take the next step more rationally.

That way, Chen Feng would never want to see it.

Chen Feng said this now to make the soul slave hate himself even more!

There are two goals in doing so.

First, it is natural to let the soul slave chase and kill him frantically, and don't stop.

And the second purpose is to reduce his strength!

He hates himself even more, so naturally he will chase himself!

And if he wants to hunt down himself, then of course he can't delay here too much!

If he can't delay more here, he will naturally get out as soon as possible!

He wants to get away as soon as possible, it is necessary to compare, he is here to slowly resolve the red flames, and pay a greater price!

For example, if he paid 50% of the power loss as a price, he could slowly deal with these red flames.

But if he wants to get out as soon as possible, he will have to consume 70% of his strength as the price!

Because, only in this way can he have time to hunt down!

Chen Feng's plan is one after another.

If it were not for planning the next step, he would not do these things here!

After speaking these words, Chen Feng looked at the soul slave and smiled coldly.

The hand stroked gently on the neck and made a throat cut.

After that, he laughed wildly: "Soul slave, you are here, enjoying these red flames!"

"Let's be transformed into nothingness by these red flames!"

"Excuse me, I can't accompany you!"

After all, he disappeared with Han Yuer and Qingqiu Yaoguang!

Chen Feng pretended to be escaping far away, but in fact, he didn't leave that far.

Chen Feng stood beside the Emperor's furnace, looking around.

Before, when he came, he was thrown directly on the platform after he came.

Then, he was thrown into the furnace of the Emperor of Heaven.

There was no time to look at the surroundings.

At this time, Chen Feng flew at the height of tens of thousands of meters, looking around.

At the end of the line of sight in the distance, there is naturally an endless gray cloud.

And above the head, there is also this gray cloud.

It showed that they were still in the Soul Destruction Hall at this time, within the scope of the ghost forest.

However, it should be the core of this.

And where they are, there is no gray mist in a radius of tens of thousands of miles!

Here is a huge mountain basin.

The radius is as large as tens of thousands of miles, extremely vast and vast.

On the periphery of this ring-shaped basin, there are nine huge pits and abysses.

In the abyss, there is still lava flowing out.

There are billowing smoke, flames, etc., splashing out.

The smoke formed nine extremely huge towering pillars, which went deep into the gray mist, with no end in sight.

Obviously, these nine abysses were once the nine huge volcanoes.

Nine volcanoes guard the basin.

And beyond the edge of the basin, it was the ghost forest again.

However, there is no ghost forest in the basin.

There was smoke everywhere, and the air was filled with choking smells.

Above the sky, there are countless huge flames like the rain of meteors and they continue to fall.

There is smoke everywhere, flames flying everywhere, like the end of the day.

However, to Chen Feng, this is nothing.

He glanced at it, then took Han Yu'er and Qingqiu Yaoguang and flew towards the edge of the basin.

Soon, he came to the edge of the basin, in a small valley.

This valley is located at the highest point on the edge of the basin, behind the mountain is the ghost forest.

However, this mountain did not reach the scope of the ghost forest.

Therefore, I am not afraid of ghosts.

On the front side is a huge gap, which is quite wide.

Moreover, this place is facing the huge Tiandi Honglu.

He was able to see clearly what happened in the furnace of the Emperor of Heaven.

More importantly, the land in this valley does not know how many layers of volcanic ash have been covered in these tens of thousands of years.

Therefore, it is extremely fertile and soft.

You know, Chen Feng has to grow something next!

If the soil is fertile enough, then things will naturally go smoother.

He smiled slightly, his figure flashed, and he turned behind a mountain col.

That mountain col hides behind this valley.

If you look directly from the angle of Emperor Honglu, it is invisible.

You need to go into the valley and turn inside to see it.

Chen Feng nodded in satisfaction, and immediately took out the Qibao Yuanyang Shendou.

After that, he was buried directly in this fertile volcanic soil without hesitation.

And the moment Chen Feng buried the Qibao Yuanyang Shendou, Chen Feng suddenly felt a tremor under the ground.

Just like an earthquake!

[Chapter 4366: The terrifying Qibao Yuanyang Shendou!](#)

But Chen Feng knew that this tremor was not caused by the volcanoes, not the earth-shaking sight as before.

It was caused by the Qibao Yuanyang Shendou that he buried at this time!

Chen Feng closed his eyes and felt attentively.

Then, he heard a crisp crack.

It was like the buried Qibao Yuanyang Shendou seeds quietly taking root and germinating, brewing power.

Then, after a moment of silence, Chen Feng heard a rustling voice.

There seemed to be countless insects crawling around.

But Chen Feng knew that it was not the crawling of insects, but the movement of every tiny piece of soil under the ground.

And the reason they are moving is because...

Chen Feng looked under the ground.

His gaze penetrated the ground, and he saw that the seeds of Qibao Yuanyang Shendou were already taking root.

It grows extremely fast. This

When Chen Feng just looked over, only tiny white roots grew on it.

In just a few breaths, those roots have spread to a full ten meters in length.

Then, it was still growing crazily, spreading crazily outward.

But in just a hundred breaths, Chen Feng was shocked to see that those roots had grown to several kilometers in length.

Moreover, the number has to be as many as hundreds!

Each one has the thickness of the water tank.

At this time, these hundreds of thick root systems, densely packed towards the surroundings, towards the bottom, towards all directions, pierced fiercely!

In an instant, a large net spreading over tens of thousands of meters was formed!

Moreover, Chen Feng also saw at this time that the size of the Qibao Yuanyang Shendou was also slowly growing.

At the beginning, it was only the size of a finger.

Now, it has grown to about a foot long!

These roots are almost an extremely greedy and fierce posture, desperately absorbing the power of the earth.

And this Qibao Yuanyang Shendou did not appear on the surface of the earth.

In fact, if you stand on the surface at this time, you will find that the surface is no different from just now.

All its root systems have penetrated deeply into the depths of the earth.

Desperately spreading crazily inside, desperately, doing everything possible, absorbing the infinite power in the earth!

Chen Feng waited here for about a cup of tea.

Those roots are already tens of thousands of meters long, and the number has reached thousands!

And Qibao Yuanyang Shendou has become as thick as a human forearm.

At the same time, Chen Feng felt that the ground was clearly shaking!

That's right, just shaking!

This trembling was not because of the eruption of the volcano, nor was it because of the roots in it.

But because...

After Chen Feng took a closer look, he couldn't help but jump in his heart.

It turned out that he was actually in the veins of the earth at this time, and he felt an emotion called fear.

Yes, it's just fear!

This land, this land, is in fear, in fear!

Chen Feng knew why.

Because the power of the earth absorbed by Qibao Yuanyang Shendou is too much!

The absorbed power is terrifying!

As a result, this vast land is worried about whether he will be absorbed by the Qibao Yuanyang Shendou to absorb all the power!

But Chen Feng knew that this was just a collection of wills in this land of tens of miles, hundreds of miles, or even thousands of miles.

In fact, how could this Qibao Yuanyang Shendou **** up the Dragon Vessel Continent?

Thousands of tens of thousands of Qibao Yuanyang Shendou will not be able to do this.

This is just an instinctive reaction of the land within this range.

After all, the land is already a spiritual thing!

At this point, there seems to be nothing unusual on the surface.

But underground, in fact, an extremely huge root system has formed.

Chen Feng shook his head, did not stay here, he still has things to do.

"If you continue at this speed, the time I estimated before should be enough!"

Chen Feng whispered in his heart.

In this way, Chen Feng has a bottom line in his heart.

Chen Feng turned back from this mountain col and returned to the valley.

Then, looking at Han Yu'er and Qingqiu Yaoguang, he stretched out his right hand.

Suddenly, the Heaven Stealing God Pill was whispering in the palm of his hand.

It slowly floated from Chen Feng's right hand and hung in front of everyone.

Suddenly, a second moon appeared in the sky.

Above the stealing **** pill, the bright blue brilliance sprinkled down, illuminating the place brightly and translucently.

Even, the light is reflected circle after circle.

The basin of 30,000 li is transparently photographed.

At this moment, if you look down from the sky, you must be able to see a huge cyan aperture appearing here.

Layer by layer, spread out.

Sprinkling like water, the basin that is reflected is like a vast ocean of cyan moonlight!

When Chen Feng saw it, he couldn't help being drunk!

"This is the Ninth-Rank Golden Core!"

He looked at Han Yu'er and Qingqiu Yaoguang, and said softly, "Senior Sister, Yaoguang, have you remembered all the absorption methods I taught you before?"

The two women nodded together.

Especially Qingqiu Yaoguang, biting her lip, with a serious appearance, like a little adult.

Chen Feng smiled slightly: "No need to be nervous."

"Just follow that method."

The two nodded.

After that, the three sat cross-legged.

Chen Feng took a deep breath and stretched out his right hand.

Suddenly, the thief **** pill returned to his palm.

Chen Feng looked at the two of them and said in a deep voice, "Now, let's start!"

Han Yuer and Qingqiu Yaoguang closed their eyes and held their breath.

The same is true for Chen Feng.

Come to him, now is to absorb the power of Stealing God Pill.

Stealing God Pill, the Ninth-Rank Golden Pill, of course, can't be directly stuffed into the mouth like an ordinary pill, chewed and swallowed.

In that case, even Chen Feng would be torn to pieces by this force.

The body simply cannot bear it!

If you want to absorb the God Stealing Pill, you need a special method for refining and absorption.

And, little by little, absorb power from above.

Chen Feng didn't start to absorb it immediately.

He wants to help Han Yu'er and Qingqiu Yaoguang start to absorb them first, and make sure they are safe and sound.

Han Yu'er sat cross-legged, hands stretched out.

As her power quietly operated, suddenly, a miniature vortex appeared in her hands.

Suction surged over.

Immediately, he wrapped the thief **** pill inside.

However, for this stealing **** pill, the suction is extremely weak, and it can't even affect its operation at all.

This is also normal.

It is estimated that even Chen Feng would do it.

After all, this thief **** pill is equivalent to an almost eight-star martial emperor master!

[Chapter 4367: Absorb the God Stealing Pill!](#)

However, this suction force began to slowly adapt to the rotating rhythm of the Heaven Stealing Divine Pill.

As a result, finally following the rotation of the God Stealing Pill, this suction took out a trace of power from it.

This power came out quietly, and for the Heaven Stealing God Pill, this power was insignificant.

However, for Han Yu'er, this power is extremely terrifying and huge!

This is equivalent to Han Yu'er stealing a trace of power from his body without paying attention to the stealing **** pill.

This force, like a moon, was long and peaceful.

Very bright, yet gentle as water, quietly entered the miniature whirlpool in Han Yuer's hand.

Suddenly, Chen Feng was shocked when he saw Han Yuer.

There was a hazy mist around her body.

In this hazy fog, there is also a shallow moonlight light, which looks hazy and bright, extremely beautiful.

And more importantly, her aura is increasing crazily!

Her strength increased wildly.

In the next moment, she suddenly made a bang all over her body, and then she broke through!

Chen Feng was dumbfounded: "Breakthrough? Just such a breakthrough? Just such a breakthrough?"

Moreover, Chen Feng saw that Han Yuer's absorption momentum had not stopped at this time.

She is still absorbing continuously, and her aura is constantly improving.

Seeing that, it won't take long before she can rise to the realm of Samsung Martial Emperor!

Chen Feng couldn't help but shook his head and sighed: "Stealing God Pill, the Ninth Grade Golden Pill, it's really amazing!"

Moreover, breakthroughs are generally quite difficult.

It takes some painful struggles to succeed.

But now, Han Yuer's expression was extremely peaceful and comfortable, and even a smile appeared at the corner of her mouth, extremely calm.

Obviously, she broke through directly in a state of extreme security.

This is the most precious!

Chen Feng turned his attention to Qingqiu Yaoguang.

It was discovered that Qingqiu Yaoguang's situation is better than Han Yuer

It seems that because Qingqiu Yaoguang is the reason for the natural spirit grass to become a fine physique, it is more harmonious with this stealing **** pill.

The rate of absorption is also faster.

In a short period of time, she has already improved two levels.

Chen Feng felt relieved when he saw this situation.

With a slight smile, he also cross-legged into a state of concentration.

Then in the next moment, Chen Feng felt like the sky was spinning.

When he woke up again, he found that he was already in a vast void.

He seemed to be in the starry sky of the universe, surrounded by stars and shining stars.

Bright light!

At a glance, there are many stars.

At this moment, if Chen Feng suddenly felt something, he suddenly raised his head.

Then I saw that above his head, a bright moon was rising.

However, this moon is beyond imagination.

Hanging above his head, it is countless times larger than all the surrounding stars.

Tens of millions of times bigger!

Compared with the huge moon of the surrounding stars, it is really the fireflies competing with the bright moon.

Moreover, at this moment, above the huge moon, the moonlight shed and fell on Chen Feng, uncomfortably comfortable.

He even felt that this Mingyue had an inexplicable but extremely deep connection with himself.

Chen Feng knew what was going on.

This round is extremely huge, like a moon that fills the void of the entire universe, it is naturally a god-stealing pill!

Chen Feng took a deep breath.

Then, raising his arms, he felt towards the bright moon above the sky.

Since Chen Feng had already been in touch with this Heaven Stealing God Pill, it was easy to absorb it to the extreme.

Even, there is no need to re-sensing at all.

He just raised his arms and moved his heart.

Then, in an instant, the huge moon slowly revolved.

As the huge moon revolved, there were also moonflowers splashing out and infecting Chen Feng.

Then, it penetrated into his body.

Chen Feng felt that his strength was growing crazily, and his aura was also increasing crazily.

Moreover, this feeling is extremely smooth, naturally.

Without the slightest reluctance and lag, Chen Feng felt that his strength should be so improved!

Chen Feng fell silent, his heart still stopped.

He just felt the Yuehua-like power of the Heaven Stealing God Pill, invading his body.

The situation of Chen Feng, Han Yuer, and Qingqiu Yaoguang was even different.

Han Yu'er and Qingqiu Yaoguang only got power from this stealing **** pill.

After Chen Feng absorbed it, in addition to feeling the incomparably powerful and surging power in the Heaven-Stealing God Pill, he felt a little strange in an instant!

An inexplicable power penetrated into his body!

It made Chen Feng feel that there was a tremor all over his body!

In an instant, his body became lazy.

And his spiritual wisdom is developing endlessly outwards.

He doesn't seem to feel his existence anymore, it seems that his body has disappeared.

But the next moment, he felt that he was everywhere.

Chen Feng is no stranger to this feeling!

This is the kind of magical feeling of accommodating yourself in the world!

When he was in the small world, he had already encountered it once!

Chen Feng knows what this is!

"This is the power of luck!"

"wrong!"

Chen Feng's heart suddenly moved: "This is not the power of air luck, although it is very similar to the power of air luck!"

"And, this kind of power is trying to imitate the power of luck!"

"But still not!"

Chen Feng himself had felt luck, and had such a trace of luck, so he could tell the difference.

If it is another Wudi strong, I am afraid that he will be deceived.

A voice in Chen Feng's heart roared: "This is not the power of luck! This is just the power of disguising luck!"

However, although this power is the power of imitated luck.

But it seems that it can indeed play some role in luck.

After this power entered Chen Feng's body, Chen Feng actually felt it, as if the force of Qi Yun entered the body.

"Has the strength of the Qi Luck condensed by the Heaven Stealing God Pill begin to melt into my body?"

Chen Feng felt that his body, this piece of sky, this piece of land, and everything between this sky and earth seemed to merge into one.

In an instant, Chen Feng could no longer feel his body, but then he felt that he was everywhere!

It seems that he is the Dragon Continent, and the Dragon Continent is him!

Of course, Chen Feng also knew that this was actually an illusion.

Because his current strength is far from being able to integrate with the Dragon Vein Continent.

His consciousness is still spreading outward, spreading outward.

Soon, Chen Feng entered the mysterious feeling of melting oneself in the world.

[Chapter 4368: absorb! Dragon vein mainland luck!](#)

Chen Feng felt as if he could see the world, but the scope was limited.

There is an end in his sight.

Chen Feng found that the area where he blended himself into the world was about a few thousand miles in radius.

Although it is far less than in that small world, being able to accommodate yourself as a world, with a radius of 100,000 miles.

But, you know, this is the Dragon Vein Continent!

And there is just a small world!

The Qi Luck of the Dragon Vessel Continent is far stronger than that of the Small World!

The backlash of the Dragon Vein Continent is also countless times stronger than that of the small world!

At this time, Chen Feng can tolerate himself in the world for thousands of miles, which is already very impressive!

Chen Feng found that after his sight extended to three thousand miles, he stopped moving forward.

Obviously, with his current strength, he can only achieve these three thousand miles!

At this moment, at this moment, suddenly, a ray of power quietly poured into Chen Feng's body.

Naturally, it seemed that this was Chen Feng's stuff.

Chen Feng suddenly trembled, and his heart was extremely shocked: "This, this, this is the real power of luck!"

"This is the power of real luck!"

It turned out that at the moment when that ray of power entered the body, Chen Feng was aware that this is the real power of luck!

It's not simulated by Stealing God Pill.

Rather, it is a ray of luck that belongs to the Dragon Vein Continent!

At this moment, a light flashed across Chen Feng's mind, it was bright, and he understood everything!

"I know, I know why this is!"

"The power in the God Stealing Pill is not the power of air luck, but just a simulated power that is very similar to air luck!"

"It simulates this power to let me absorb it."

"Then, it can directly put me into a state that is similar to integrating myself into the world."

"And its real purpose is to deceive the power of the real dragon vein continent!"

Chen Feng took a deep breath!

"It turns out that this is the true meaning of Stealing God Pill!"

"This is the real reason why it is called the God Stealing Pill!"

The God Stealing Pill, the reason why it is called the God Stealing Pill, is because it can steal the most root power of this dragon vein continent!

The root cause is luck!

The method of stealing is also extremely clever.

First disguise the power operation form of Qi Luck, and then let the person taking it enter the state of integrating himself with the heaven and earth, thus stealing the real Qi Luck in the Dragon Vein Continent.

If you change to someone else, it will take at least more than ten years to enter the initial process of 'bearing yourself in heaven and earth'.

Even a strong man like a soul slave!

Because the false is false after all.

They need a long process to explore before they can truly absorb the luck of the Dragon Vein Continent.

But Chen Feng is different!

Chen Feng himself has a trace of luck from the dragon continent.

And, I have experienced the feeling of melting oneself in the world before.

Therefore, he easily got real luck.

In an instant, Chen Feng sorted out these things.

He couldn't help being shocked: "Stealing Heaven God Pill, it really deserves to be the Ninth Grade Golden Pill."

"I'm afraid that on the Dragon Vein Continent, there is no pill that can be compared with it."

At this moment, Chen Feng felt that he existed in the void and merged with this world.

Moreover, it is expanding outwards with a very fast momentum.

Chen Feng hurriedly stopped this momentum.

Before he was in that little world, after he merged with that little world, he was seriously injured and almost died.

If you come here again with Longmai Continent, then I am afraid that you will burst into death on the spot!

His current strength simply cannot reach this level.

At this time, his body, or the world he melted into, was already controlled by Chen Feng.

Chen Feng continued to expand his control range outward at a very slow and very slow speed.

At the same time, I also felt the movement of Qi Luck.

Thinking little by little, experiencing.

I don't know how long it took, Chen Feng finally slowly opened his eyes.

No, to be precise, he should finally feel a little bit of his body.

At this time, his body is this world!

Chen Feng could see at this moment that there was a vast land beneath him.

This large area is about a thousand li round.

So Chen Feng knew that the range he now controlled by air transport was about a thousand miles away.

Chen Feng continued to look.

He could see that there was a fertile black volcanic ash under him.

This is just a small corner of this huge basin.

Chen Feng saw the three of himself who were cultivating cross-legged there, saw the slowly rotating dazzling Heavenly Stealing Pill, and saw that behind the mountain col, Qibao Yuanyang Shendou was continuously and desperately extending his root system!

Huge power is converging towards it.

Chen Feng's sight continued to spread forward.

He even saw some weeds on the wasteland, using this short peaceful time, desperately stretching his body and growing.

I saw some monsters fighting and devouring them.

You can even see that at the edge of the ghost forest, some ghosts are looking at the ghost head and ghost head here, watching the situation here.

However, they dare not leave the ghost forest.

Chen Feng knew it.

At this time, the area where I allowed myself to be in the world was just about a thousand miles in the area where I and others were.

And this range is slowly expanding forward!

With each expansion, whenever the scope expands to a certain extent, strands of extremely mysterious power pour into his body.

Chen Feng knew that this is the power of luck!

Every time the force of Qi Yun entered Chen Feng's body, it probably accounted for less than one ten thousandth of the Qi Yun of the Dragon Vessel Continent.

But you must know that the Qi Luck of the entire world of Dragon Vein Continent, even if it is one ten thousandth, is extremely terrifying!

As time goes by, I don't know how long it has passed.

But Chen Feng could see the moon slowly moving that day.

He estimated that the time should be about an hour later.

At this hour's time, Chen Feng has already integrated himself into the scope of the world, from a radius of a thousand miles to a radius of about three thousand miles.

At this time, the strength of Qi Luck in the Dragon Vessel Building he received was probably about three ten thousandths!

"About three ten thousandths!"

Chen Feng felt deep in his heart: "Could it be said that every time I increase the distance of a thousand miles, I can get one ten thousandth of the Dragon Vein Mainland Qi Luck?"

But then, he denied this.

"Impossible, there must be more or less luck in the Dragon Vein Continent."

"The place where the Soul Extinguishing Hall was chosen is an extremely important place!"

[Chapter 4369: Condensate the stars!](#)

"The power of luck here must be far more abundant than other places."

"It is possible that in other places, such as on a desert Gobi, even if it covers hundreds of thousands of miles, it may not get a trace of luck."

At this time, Chen Feng suddenly felt like he wanted to laugh.

He wanted to laugh at himself.

Because at this time, he discovered that the energy of the Dragon Vein Continent that had entered his body, which was about three ten thousandths, was almost the same as the energy in his body before.

Chen Feng couldn't help but smile.

"I originally thought that I accounted for at least 10% of the luck in the Longmai Continent."

"Unexpectedly, Chen Feng, you really overestimate yourself!"

"It turns out that the Qi Luck of the Dragon Vein Continent in your body is only three out of ten thousand left!"

But Chen Feng didn't know, in fact, this was already high enough.

Most of the Qi Luck in the Dragon Vein Continent was sealed in his body by the Dragon Vein Continent, but a very few points were separated and fell on the creatures in the Dragon Vein Continent.

Or martial artist, or monster.

It may even be a small grass.

For example, Chu Shaoyang, the Dragon Vein Mainland Qi Luck in his body may not even reach one ten thousandth.

This is enough to be regarded by that extremely terrifying existence as the son of Qiyun from the Dragon Vein Continent.

Chen Feng sighed lightly and put these distracting thoughts behind him.

"Next, I need to sense my body, ontology!"

"Now I can only sense the illusory me who is in heaven and earth, but I can't sense my body!"

"That does not work."

If he can't feel his own body, he can't cultivate at all.

At this time, Chen Feng could clearly see that in the valley, his body was sitting there.

And it's still cultivating, and it's not a dead thing, it's full of life.

But Chen Feng just couldn't perceive it.

It seems that his soul and body have been separated.

This is not the first time Chen Feng has encountered this situation.

Last time, it was the same in the small world that the emperor's evergreen lantern turned into that day.

Chen Feng recalled how he returned to his body the last time:

His strength was really unable to support himself in the world, and his spirit was hit hard before he returned to his body.

But now, Chen Feng obviously doesn't want that.

Therefore, he desperately condensed his spirit.

After a long time, this thread of thought finally condensed successfully.

Then, Chen Feng controlled this ray of thought and slowly approached his body.

And began to sense his body!

Chen Feng tried his best and used all methods.

Finally, another hour has passed.

Chen Feng only felt, with a boom, he felt a huge shock in his soul and body!

Almost can't maintain the state of cultivation, just break free!

After a long while, it stabilized.

But at this time, Chen Feng was surprised to find that he felt his body again.

To be correct, his spirit has returned to his body.

And above the sky, that consciousness can be regarded as a strand of Chen Feng's separation, used to control this piece of heaven and earth.

Chen Feng laughed in his heart, and he was full of comfort.

"You still have your own body, the real body is the most comfortable."

"Even this physical body is gone, it is really nihilistic and uncomfortable!"

Just now, Chen Feng felt that he was as if his body was broken, with only one soul floating in this world.

But now, he is really real and feels his own existence!

More importantly, when Chen Feng was in the world before, although he could feel the existence of Qi Luck and the power of Qi Luck entering his body, he was very empty.

Now, after he felt his body.

Suddenly, the power of luck, as far as Chen Feng was concerned, suddenly became real!

He clearly felt his physical body, and felt that there were indeed very slight but very mysterious and huge powers entering his body.

This kind of strength is strong and high quality.

Chen Feng felt it for a while, and he was immediately palpitated.

Even a strand of power that is extremely slight and invisible like cow hair is even stronger than all the forces in Chen Feng's body combined!

Chen Feng couldn't help but sucked in a cold breath: "Is this the power of luck?"

Moreover, he not only perceives it, but more importantly, he can now practice!

He can now use the power of Qi Luck to practice!

Chen Feng only left a ray of consciousness to control the self who tolerated himself in the heavens and the earth, continuously expanding in this space.

The rest is to focus all his attention on the cultivation of his physical body.

The force of Qi Luck entered into Chen Feng's body without even needing Chen Feng's control, and it was automatically running in Chen Feng's body.

Quietly stroked through his body, and then all concentrated in his left hand.

Chen Feng found that he could not control all of this.

After all, the power of air luck is too powerful!

And he doesn't want to control it either!

There must be reason for the operation of air transport.

Chen Feng also wanted to see what kind of surprises he would bring to himself after the power of Qi Luck entered his body!

And Chen Feng was surprised to find that with the power of Qi Luck running in his body, the speed at which those Moon Blossoms entered his body instantly increased tenfold!

He even gave Chen Feng a feeling that he could hardly contain!

These Yuehua powers belonging to the Heaven Stealing God Pill, under the guidance of Qi Yun power, came all the way to Chen Feng's left hand.

At the next moment, he suddenly felt nothingness in front of him.

In front of him, a scene appeared, exactly what was inside him.

He discovered that after these Yuehua entered his body, it was actually condensed into a star!

Yes, it is condensed into a star!

This star formed in Chen Feng's left hand, becoming brighter and brighter.

In the beginning, it was just a prototype.

Then, it got brighter and brighter, and finally the brilliance was radiant and extremely thorough!

Completely shaped, slowly rotating!

This round of stars stopped in Chen Feng's left hand, extremely large, slowly spinning.

There are countless galaxies shining around!

There is a huge vortex nebula looming!

There are countless meteors everywhere!

With that comet suddenly burst out!

It was as if this was not condensed in Chen Feng's body, but a real star!

And the fact, maybe that's the case, maybe this is really a real star!

A real star has really formed in Chen Feng's body!

This big star is shining brightly.

Chen Feng was horrified: "What's going on? How can stars freeze in my body?"

"Could it be that this is an inevitable phenomenon to reach a new level?"

"Or is it related to luck?"

[Chapter 4370: breakthrough! Five-star Emperor Wu!](#)

Chen Feng felt in the dark that the reason for this situation was definitely related to the air transport from the Dragon Vein Continent that had entered his body before.

Because he knew very well that when he asked Bai Ruoxi for advice, Bai Ruoxi never mentioned such things.

This also means that, at least until the Six-Star Martial Emperor, this situation will never happen in the body!

"Then, why is this star condensed? What will it bring me?"

Chen Feng felt secretly that his own path of cultivation seemed to have undergone tremendous changes.

And this change is based on my current knowledge and the power system of the Dragon Vein Continent, which cannot be explained at all!

But now, it's not the time to think about this.

Obviously, if luck enters and the stars condense, it should be good for oneself.

And before Chen Feng recovered, the Yuehua-like power continued to pour into his body.

So, another round of stars slowly appeared.

However, this time it was not in Chen Feng's left hand, but in Chen Feng's right hand.

The power of Qi Luck has not stopped, and the power of Yuehua is still being drawn.

Then soon, a huge star condensed at the tip of Chen Feng's left arm!

At this time, Chen Feng felt that his power was almost beyond control!

Terribly strong!

The condensation still didn't stop, the next moment, another star condensed at the tip of Chen Feng's right arm!

This is already the fourth big star condensed in Chen Feng's body!

Then, the fifth star was quickly formed.

This time, it was at Chen Feng's left shoulder.

Then, the sixth star condensed on Chen Feng's right shoulder.

Then, finally, the seventh star slowly took shape!

The position of the seventh star is at the top of the spine, near the neck!

And if you look closely, you will find that the position of this star is parallel to the positions of the two stars on Chen Feng's left and right shoulders!

It just can be connected in a straight line!

At this time, Chen Feng had vaguely guessed something.

In his heart, he was full of surprises, and even more expectantly.

"I really want to know what will happen when these seven stars condense."

"Will it be the best ending I guessed?"

Finally, the seventh star in the upper part of the spine in Chen Feng's body was finally condensed!

When this seventh star, the moment when the condensing is completed!

In Chen Feng's body, light suddenly shined!

That Yuehua-like light instantly swept inside Chen Feng's body.

Then, overflowing in a crazy gesture, spinning around Chen Feng's body.

That Yuehua's power is so brilliant, radiant, and extremely brilliant!

Even within a few hundred meters of Chen Feng's surroundings, Yuehua's power had solidified, surging crazily, like waves!

Such a huge movement directly caused the Heaven Stealing God Pill to stop spinning.

Both Han Yu'er and Qingqiu Yaoguang were interrupted in their cultivation, and stood up and looked at Chen Feng with shocked faces.

However, they can naturally see that Chen Feng's body is full of internal strength, extremely vicious, and extremely surging!

This is a precursor to a breakthrough, at least not a bad thing.

Therefore, the two were not worried, but watched expectantly, waiting for that scene to happen.

In the next moment, Yuehua reclaimed violently.

All the power, fiercely, smashed into Chen Feng's body with a smash-like gesture!

Suddenly, Chen Feng felt a bang in his body, and a huge humming sounded.

Then, those seven stars shine brightly!

In the next moment, the seven stars are connected into one!

Click!

Chen Feng heard seven loud noises in his body.

It's as if the seven key points were opened instantly!

He couldn't help but stood up abruptly, screamed to the sky, his voice agitated, and the sound shook everywhere!

Chen Feng felt that in his arms, seven stars provided extremely powerful power!

That power surged in his arms, and then flowed through his body, unspeakably comfortable!

Within the body, all the dark illness injuries that were originally present were all recovered in an instant, and the whole person was extremely comfortable and lightness to the extreme!

Physical condition, perfect!

And his aura at this time is fundamentally different from just now.

More powerful than before, condensed and restrained, perfectly rounded!

It is more than one level stronger than just now!

Chen Feng suddenly opened his eyes, his eyes are like electricity!

The electric light was suddenly generated, and with a click, there was a huge thunderbolt in the sky, illuminating the desolate and bleak night!

When Chen Feng opened his eyes, there was lightning!

Moreover, such a huge lightning, not the kind of tiny lightning!

Han Yu'er and Qingqiu Yaoguang were full of surprises: "Breakthrough?"

Chen Feng laughed loudly, clenched his fists, and felt extremely happy: "Yes, I broke through!"

"I have already broken through to the five-star Wudi now!"

Five-star Emperor Wu!

Chen Feng had already broken through to the five-star Wudi state.

Moreover, he knew that he had gained a completely different power from before.

This Yuehua's power is a brand new and extremely terrifying powerful force that he has absorbed after he has absorbed the power of Qi Luck and merged with the power in the Heaven Stealing God Pill!

This is my own, no one else owns it!

This power is not only unique and rare, but most importantly, it is extremely powerful!

"This brand new power helped me break through to the five-star Wudi, and it gave me unparalleled and powerful!"

Chen Feng took a breath.

At this moment, he felt a sense of surprise.

He knew that he had already embarked on a completely different path from other Wudi strong men.

A smile suddenly appeared at the corner of Chen Feng's mouth: "The way I walk has always been different from others!"

"But, I know at least a little bit!"

"My way is the grand road!"

"My road may be the most difficult road, but it is also the brightest road in the future!"

What made Chen Feng most happy was not just that he had broken through to the five-star Wudi!

But he could feel the seven stars in his body shining brightly.

The power of those seven stars, the power of Yuehua, circulated wildly in Chen Feng's body, bringing him extremely powerful power!

Chen Feng suddenly exhaled, shouted, and slammed his punch!

Hit directly on the thousand-meter-high mountain next to it!

Suddenly, he went all over his body, and there was a burst of joints!

Seven stars in the body shine brightly at the same time!

Above the seven big stars, countless bright lights lit up, and the seven powers instantly gathered in Chen Feng's right fist!

The bright moonlight shines like water!

At this moment, it seems to be better than the bright moon that day!

With this punch, Chen Feng smashed the stone mountain!

There was a muffled noise at first, and then a loud clacking noise, all over the mountain.
