

Peerless 441

[Chapter 441: Excellent talent!](#)

She is far from being stretched, but she can see that between her eyebrows and her eyes, the delicate Athens is already a beauty, and she will definitely look beautiful in the future.

Chen Feng has been taking Jiang Yuechun to practice here these days. The reason why I practice here instead of in the cave is because at the acquired realm, the body is still unable to touch and cannot absorb too much spiritual energy from the heavens and the earth. At this time, it is better to practice in a place that fully interacts with the natural world.

In Chen Feng's body, aura rushed like a big river, rushing through the various orifice points in his second major meridian, the Foot Shaoyin Kidney Meridian, washing over and over again, removing all the last of the entire meridian. A little bit of impurities, all cleaned up.

Chen Feng has not absorbed new spirit stones recently, and his total amount of qi has not increased, but it has become more pure. Chen Feng is doing the final exercise for his second building.

He has made up his mind that in just a few days, he will devour Tian Er Dan, open the Tian Er Divine Orifice, and enter the third building.

And beside him, Jiang Yuechun, who was sitting cross-legged, had a faint white air enveloping her body, following every pore of her and entering her body.

And in her body, filthy air was constantly being discharged.

Chen Feng knew that she was absorbing the spirit of heaven and earth.

At this time, Jiang Yuechun did not even enter the first layer of the day after tomorrow, and could not directly absorb the spirit stone. Of course, Chen Feng could also choose to infuse him directly with his huge Gang Qi.

But this is to attract external forces into the body. It is a forced breakthrough, which will bring endless troubles, because the foundation is very unstable.

So Chen Feng decided to use the most orthodox and safest method.

Suddenly, Chen Feng felt the aura around Jiang Yuechun fluctuate. Chen Feng immediately noticed something. He opened his eyes and looked over there, and saw the aura around Jiang Yuechun, like a wave, tumbling together.

Then Chen Feng saw it, and Jiang Yuechun opened his eyes and slowly exhaled a turbid breath.

On the left hand side of Jiang Yuechun, there is a big tree with the thickness of a person.

Jiang Yuechun walked to the big tree and patted out with her small tender hand like green onions. She was on top of the big tree, and the big tree trembling suddenly. On the bark, a small, shallow palm print was left. Although the palm print was less than half a centimeter deep, and was not even clear, Chen Feng's face was already showing joy.

This means that Jiang Yuechun has already stepped into the first day after tomorrow.

Jiang Yuechun was overjoyed, came over cheering like Chen Feng, and said with a smile: "Master, I can feel that I have condensed my true qi. Now my body is warm, like a little mouse jumping everywhere. ."

Chen Feng looked at her with a trace of relief in his eyes.

In ten days, it took Jiang Yuechun only ten days to change from an ordinary person with no foundation to an acquired warrior.

Although the day after tomorrow is first heavy, the realm is very low and humble, and belongs to the lowest level among the warriors, but it is also a warrior after all, and Jiang Yuechun only took ten days.

Chen Feng knew that some geniuses were nothing more than that.

Chen Feng held Jiang Yuechun in his arms, pinched her finger on her little nose, and said with a smile: "Chun'er is awesome. You are the fastest person I have ever seen. It only took ten days. The breakthrough has reached the first level of the day after tomorrow."

Jiang Yuechun didn't believe it, her small eyes rolled around, and smiled: "How is it possible? I don't believe it is faster than Master."

Chen Feng smiled: "You are really much faster than the master. I think back then, your master could never practice until the day after tomorrow, but it took several years!"

Jiang Yuechun didn't believe it even more. She shaved her jade-like face with her green fingers, and said, "Master is so old, I don't know how to be ashamed, and I'm a lie."

After these twenty days of getting along, all of Jiang Yuechun's original restraints have disappeared, and he also showed the liveliness and innocence that a child of this age should have.

And she and Chen Feng are extremely intimate, not only always sticking to Chen Feng during the day, but even practicing in a training room with Chen Feng at night, making Chen Feng a little bit dumbfounded.

Chen Feng said in a voice: "Chun'er, your realm is progressing so fast that it is beyond my estimation. You have now entered the first stage of acquisition, so many plans can be put on the agenda."

"Before you entered the first layer of the acquired day, you could not directly absorb the aura in the spirit stone, but now it is possible, and I can also make some medicinal soup made from the heavenly spirit and earth treasure, and drink these A lot of spiritual energy will be added after the medicinal soup."

Then Chen Feng took Jiang Yuechun back to the cave. Just when he arrived at the door of the cave, he saw that the door of the cave was opened with a creak, and then Tang Manjin staggered back out from the inside, stumbled on the stone, almost Sitting directly on the ground.

It looks very embarrassed, and it seems to be pushed from the inside.

Tang Manjin hurriedly said to the door: "Girl Flower, listen to my explanation, listen to my explanation!"

An angry voice came from inside the door, but although the owner of the voice is angry, she is indeed well-educated, and the words are very gentle and obscure: "Tang, please come back, I am not big today. Comfortable, I don't want to talk anymore."

Chen Feng could hear the voice of Hua Ruyan.

Tang Manjin laughed and said, "Okay, okay, okay, girl Hua, I'll go now, this will go."

[Chapter 442: One more female apprentice!](#)

Turning around and seeing Chen Feng, his face was suddenly embarrassed.

Chen Feng laughed and said, "Why? Junior Brother Tang has eaten behind closed doors again?"

"Isn't it?" Tang Manjin laughed bitterly and said with a mockery.

Chen Feng smiled and said nothing. For these twenty days, Tang Manjin still came every day, obviously he came to talk to Hua Ruyan.

But Hua Ruyan didn't seem to mean anything to him. At first, he said something courteously. But then Tang Manjin came more and more frequently and stayed longer and longer. Hua Ruyan was somewhat very Impatient, it seems that Tang Manjin was directly blasted out today.

Chen Feng didn't insist on this kind of thing, and didn't just ask, everything just depends on Hua Ruyan's wishes.

And he said this to Han Yuer. Han Yuer said to Hua Ruyan what Chen Feng meant.

Chen Feng did this to prevent Hua Ruyan from having to feel wronged because of her own face.

However, Chen Feng found that since Han Yuer and Hua Ruyan said what he meant, Hua Ruyan was cold or cold towards Tang Manjin, and immediately became cold.

Chen Feng sighed secretly, it seemed that Hua Ruyan really didn't mean anything to Tang Manjin, otherwise it wouldn't be the case.

He was also fortunate that he had to say this to Han Yu'er, otherwise Hua Ruyan might really wrong her for her own face.

Tang Manjin suddenly mysteriously pulled Chen Feng aside, lowered his voice and said, "Brother Chen, you see that we have known each other for so long, and we have some friendship. Tell me, how can we please? People like it?"

Chen Feng couldn't help but laugh when he heard it, "What's the use of you asking me? I won't either."

"How could it not?" Tang Manjin said with an expression that I didn't believe at all: "Look around you, your senior sister is stubborn at you. Needless to say, even a person like Shen Yanbing is very interested in you. "

Before Chen Feng had time to speak, a cold snort suddenly sounded from the cave mansion: "Tang Manjin, you are a fat man, do you want to get rid of it? Get out!"

It was Shen Yanbing's voice.

As soon as Tang Manjin heard this, he immediately hugged his head and ran away.

At first, Chen Feng thought this guy was dull, but later discovered that he was actually not dull, but a little afraid of strangers and a little shy.

In fact, it would be unscrupulous to talk to someone after getting acquainted with someone. Yesterday they even ridiculed Chen Feng and Shen Yanbing openly, only to be beaten immediately by the flushed-faced Shen Yanbing, and he was very clean.

Seeing this scene, a smile appeared on the corner of Chen Feng's mouth: It's really happy!

Then Chen Feng walked in with Jiang Yuechun and came to the cave. Then I saw that Hua Ruyan was sitting on the railing by the pool, sulking, her face was swollen and flushed.

Chen Feng smiled, and walked over and said, "What's wrong? Are you still angry with Tang Manjin? I see you are angry."

Hua Ruyan didn't say a word, but turned her small face aside. Chen Feng didn't care when she saw it. He asked and asked: "Ruyan, when I was out, I told you to make the century-old blood ginseng soup that night. Yet?"

After hearing these words, Hua Ruyan's face became even more stiff, nodded, and said in a low voice: "It's done."

Her mood was obviously very low, and Chen Feng didn't pay much attention, and said, "Then go and serve it. Chun'er has already entered the first stage of the acquired day. She can now directly drink these heaven, spirit and earth treasures that contain a lot of aura. Kind of medicinal soup or something."

"Yes." Hua Ruyan replied respectfully, respectfully, but very distant.

Chen Feng frowned: "What's the matter? As for being so angry? Why are you angry with me?"

Hua Ruyan stood up and walked to the cave behind. She wiped her tears as she walked. Later, she couldn't stop crying, and ran into the pavilion behind, leaving behind all the crying.

Her emotion made Chen Feng a little depressed, sitting in a chair, silent.

Chun'er looked cautiously beside her, afraid to speak.

After a while, Hua Ruyan just came out of the pavilion behind, carrying a bowl of ginseng soup, and came to Jiang Yuechun and handed it to her.

She had wiped her tears, but her eye circles were still a little red and swollen, and there were still tears in the corners of her eyes. Chen Feng looked at her and said, "Ruyan, what's wrong with you? Just tell me if you have anything."

Hua Ruyan walked in front of Chen Feng, lowered her head, her face flushed red, as if she had done something wrong.

She didn't speak for a while, and then suddenly raised her head and said, "My son, can I also worship you as a teacher?"

Chen Feng was amused by his words, and said, "Why do you suddenly have this idea?"

Hua Ruyan said: "All of you are cultivating, but I am not practising alone. It is very boring to be alone every day. I am afraid to disturb you if I want to find you or sister Yuer." *NovelUsb.com*

"And..." She paused, took a look at Chun'er, and said, "Chun'er can practice with you, and I want to practice with you, and I don't want to be a weak woman without the power of a chicken. I want to embark on the road of warriors."

She then hurriedly added another sentence, saying: "If I can follow the master's practice, I will have an excuse to send Tang Manjin away. Now he comes to me every day to talk to me. I am really troubled and I don't want to have any contact with him anymore. ."

[Chapter 443: new Year](#)

"If I have practiced, I can use the excuse of practice to tell him not to disturb me."

Although she added something later, Chen Feng heard it, and Hua Ruyan seemed to be a little jealous of Chun'er.

Jiang Yuechun is not stupid. On the contrary, although she is young, she is very smart, and children actually feel more obvious and strong about the emotions of the outside world.

Because she was simple in mind and keenly felt that Hua Ruyan was not quite right, the little guy's eyes rolled around, suddenly broke free from Chen Feng's embrace, and walked to Hua Ruyan's side, pulling her clothes Just climb up along her clothes.

It's like a clumsy little bear.

Hua Ruyan was in a bad mood, seeing this scene, she couldn't help but laughed, with a smile on her face, and then she hugged Chun'er in her arms.

Jiang Yuechun opened her arms to Chen Feng and smiled: "Master, Master, you should also become an apprentice Sister Hua, I want to practice with Sister Hua."

Chen Feng couldn't help but secretly praised: "Chun'er, this kid, don't look at his young age, he really has eyesight and can speak."

With a single word, the slightly embarrassing situation of the matter was resolved.

Chen Feng did feel that during this period of time, he had neglected Hua Ruyan a little. Since bringing her back to Qian Yuanzong, he has not asked any more, and some have not worried about her feelings.

Moreover, Chen Feng also felt something at this time, Hua Ruyan seemed to regard Chun'er as her competitor.

Chun'er embarked on the road of warrior because of the great aspiration she issued, and Hua Ruyan wanted to embark on the road of warrior, I was afraid that there were more reasons, for fear that I would ignore him!

Chen Feng nodded slightly and said, "Okay, Ruyan, since you want to do this, then you will practice with me and Chun'er in the future!"

"Huh?" Hua Ruyan did not expect Chen Feng to agree so swiftly, and said with great surprise: "My son, did you agree?"

Chen Feng smiled slightly: "Why, you are not happy? If you are not happy, then I will take this sentence back."

Hua Ruyan said, "Don't, don't, son, I promised."

Chen Feng nodded and said: "But there is a word, we have to say that the road to the martial artist, the hardships, are far beyond your imagination, and once you set foot on this road, you can't look back."

Hua Ruyan's face was firm: "I don't regret it."

Since Chen Feng has agreed to Hua Ruyan, he will naturally not break his promise. Moreover, he has the kind of resolute temperament. Since he has agreed, he will do it immediately.

Chen Feng pondered for a while, and found that the practice technique of the Hou Tian realm he found in the martial arts pavilion seemed to be quite suitable for Hua's appearance, so Chen Feng simply taught Hua the things in that technique. The appearance makes her a good practice.

Hua Ruyan was taught by Chen Feng, and felt that she was also valued by Chen Feng. She was so happy that she quickly returned to her room to practice.

Soon, the new year is here.

On this day, Chen Feng went to see Mr. Xu and talked with Mr. Xu.

Old Xu glanced at him, raised his eyebrows slightly, his eyes were a little surprised, and said, "Okay, you kid, this progress is very slow. Now you are the peak of the second building in the Divine Door Realm, right? ?"

"I think your aura is very unstable, rising and falling, you may break through the Tian'er Divine Aperture and enter the third floor at any time, presumably you have been at the top of the second floor for a while."

Chen Feng nodded and said, "Yes, I have been staying for almost a month. I feel that I have completed the second building's peak and finished it completely. I have laid a solid foundation, so I plan to In the past few days, I swallowed the Heavenly Ear God Pill and broke through to the third stage."

Old Xu shook his head and said, "You kid, capable, skilled, and lucky, you can often get a lot of things that no one else can get. Take your two breakthroughs as an example, once you take Tianer Shendan. , Take Tianyan Shendan once. For others, it is normal to be blocked in the first half of the year, or even three to five years."

"Because this pill is too precious, it is almost impossible for them to get it, but you kid, you have been sleepy for half a month and a month on these two levels, and it will come through."

Chen Feng smiled and said: "Old Xu, you are wrong. The reason why I can have this day is to thank Master for training back then, and also for those who have been supporting me and cultivating me like you after Master left."

Old Xu looked at him with a gentle look in his eyes, and said lightly: "Knowing that gratitude is a good thing, but don't be too arrogant. You have to know that I am willing to help a young sapling that grows upright and beautiful. Put it."

"If he was crooked, I would be polite if I didn't kick him away, let alone ignore him."

Chen Feng laughed and said, "Thank you for the praise."

Old Xu said, "If I remember well, after you participate in the Zongmen New Disciple Competition and win the first place on the rookie list, you should be eligible to enter the third floor of the Inner Zong Martial Arts Pavilion and choose a few cheats. But this qualification, You haven't used it."

"I think your own martial arts should basically be practiced to the realm of Dacheng, so let's come and choose when you enter the third floor!"

Chen Feng nodded and said: "I think so too. I can't be too eager for quick success. I have to practice these martial arts on my hands first, and I have to study them to the realm of great achievement before I learn other things."

[Chapter 444: breakthrough!](#)

Chen Feng and Xu Lao chatted a few words, spoke with him well, and then played a few more moves.

Of course, Chen Feng was finally killed and lost, and finally fled in embarrassment.

Chen Feng left the martial arts pavilion and heard Xu Lao's hearty laughter from behind, and his mouth also showed bursts of smiles.

But soon, he couldn't laugh.

After Chen Feng returned to the Ancient Cave Mansion, Shen Yanbing happened to see him, so he said farewell.

"Chen Feng, this time I am here to say goodbye to you. I have been delayed for a long time, so I want to leave Qian Yuanzong after the New Year is over today."

"I originally planned to go directly to the depths of the Aomori Mountains, but now thinking about it, it seems that I should first go back to the place where my father and mother used to live, and first go to my house that has been razed to ruins. There may be The relic left by my mother."

Chen Feng nodded: "It should be so, you are leaving tomorrow, right? Just so, I have everything ready for you."

With that, Chen Feng handed her a mustard bag: "Look at it?"

Shen Yanbing opened the ring and looked at it again, and his eyes were immediately dazzled by the light inside.

A large number of elixir, dozens of heaven and earth treasures, and a huge number of spiritual stones, etc...

Shen Yanbing looked at it roughly, and he knew that if his net worth was multiplied by a hundred times at this time, it would not be worth the value of the mustard bag.

She hurriedly handed the meson bag to Chen Feng and said, "Chen Feng, no, this thing is too precious, I can't ask for it."

Chen Feng showed an unhappy look on his face: "Yan Bing, I regard you as a friend. I am afraid that you will have an accident in the Aomori Mountains. I will worry about you so much. Do you treat everyone like this?"

"Since I treat you as a friend and you treat me as a friend, you have helped me a lot, and I have also helped you, so don't turn away these things. These things are after all things outside of the body, no matter how expensive they are, they are also valuable ."

"And your life is priceless!"

After hearing Chen Feng's words, Shen Yanbing looked at him blankly for a long time, and finally showed gratitude on his face, put it away, and said, "In that case, Chen Feng, then I won't be hypocritical with you."

Chen Feng smiled and said, "That's right!"

Then he handed another jade talisman to Shen Yanbing's hand, shook the other jade talisman in his hand, and said: "This thing is called a communication talisman. If you encounter any danger, just crush the jade talisman in your hand. You can feel it and know where you are."

"If you encounter any danger, don't hold on to it, I will save it."

Shen Yanbing nodded and said, "Farewell to Yue'er and Ruyan for me."

Then, turned around and decided to leave, even without his head.

Seeing Shen Yanbing who was leaving, Chen Feng was a little bit stunned. He sighed softly, returned to the valley cave and told the people the news, everyone was naturally reluctant.

In fact, Chen Feng expected that Shen Yanbing would definitely be reluctant to bear them. Otherwise, with Shen Yanbing's temperament, even if he was waiting for these things for her, he would not stay here for so long.

After all, she is the kind of character that doesn't want to waste any time in her practice.

On the third day, half of the moon, the moon was bright outside and the stars were sparse, and a full moon hung in the night sky, shining on the earth, and the moonlight was gentle, sprinkling through the entrance of the cave in this space.

Chen Feng was sitting in his training room, and moonlight could even spill into the room through the windows of the training room.

At this time, there was only Chen Feng in the training room. Jiang Yuechun had been sent to Han Yu'er by him, and Han Yuer was watching.

Because Chen Feng is going to swallow the Heavenly Ear Divine Pill today, breaking through the third level, the aura will fluctuate very greatly.

The aura fluctuates too much, it will affect Jiang Yuechun and even hurt him.

Chen Feng slowly opened his eyes. He just practiced Hunyuan Yi Qigong, letting Gang Qi be in the meridians, especially in the orifice points and meridians of the Foot Shaoyin Kidney Meridian in the second floor. In a circle.

He felt that his state had reached its peak, and it was the best time to make a breakthrough.

Chen Feng took out the entrance of Tianerdan, and the entrance of Tianerdan melted into a warm current and merged into Chen Feng's body.

The extremely large warm current melted into Chen Feng's limbs and hundreds of skeletons, and then turned into a torrent, converging together in the second meridian of his second floor, the foot Shaoyin kidney meridian.

After swallowing Tian Er Dan, Chen Feng immediately concentrated all his attention, checked himself and felt all the hidden acupuncture points throughout his body.

The warm current of Tianerdan seems to have the function of detecting hidden acupoints.

Finally, he felt a hidden acupuncture point, hiding deep in his body.

This hidden acupuncture point is much larger than the ordinary acupuncture point, and it is also hidden ten times deeper than the ordinary acupuncture point.

If it hadn't swallowed the Tian Er Dan, it would not be felt at all, and even the Tian Er Dan that had been swallowed could only be vague and looming.

Chen Feng felt that as soon as Chen Feng relaxed his attention on this acupuncture point, he would immediately disappear from his conscious perception.

This is the effect of Tian Er Pill. After swallowing this precious pill, you can vaguely feel the location of your Tian Er Divine Orifice. And if there is no Tian Er Dan, then you can only fumble bit by bit, maybe how long it will take to find out its true position.

And if you fumble for the wrong acupuncture point, you may even get into trouble, your organs will be disordered, and your meridians will be broken and you will die.

[Chapter 445: Submerged lightning strike, great success!](#)

Chen Feng did not dare to neglect the slightest, immediately concentrated all his attention, and directed all the spiritual power to the position of the Tian Er Shen Aperture.

Finally, gradually, in his consciousness, the blur became gradually clear, and after clear, it gradually became larger. In the end, it was already like a full moon on the other side of the day, obviously in his eyes, there was no more secret.

And Chen Feng can also vaguely feel that there is such a hidden connection between Tian Er Dan and his Foot Shaoyin Kidney Meridian.

Chen Feng continued to spread his spiritual power toward the connecting channel, and soon this connecting channel became clear.

Chen Feng took a deep breath, mobilized all his strength, swept all his qi and the round air currents brought by the Tian'er Shendan, and then through this hidden meridian, it impacted towards the heavenly ears. go with *NOVELUS&.com*

The accumulation in Chen Feng's body has reached an extreme point. It is very strong, not reluctant, so this meridian was rushed through by him, just like a small river ditch being washed away by a big river, directly sweeping all the blockages, and All waste is discharged.

Then, a huge amount of qi like a squally wind and turbulent wave poured into the heavenly ears orifices.

At this time, the surrounding area was clearly silent, and the four fields were silent, but everyone who was practicing in the cave mansion in the valley heard clearly. The sound of the stormy waves hitting the shore was very powerful!

Everyone was suddenly awakened from the practice, and then suddenly realized that this was Chen Feng's breakthrough.

They all have some understanding of Chen Feng's realm, knowing that he is about to break into the third building.

So now it is also clear that this should be some abnormality that Chen Feng will have when he breaks through the third building.

Everyone kept quiet and did not make any movement, for fear of disturbing Chen Feng.

And Han Yuer hugged Jiang Yuechuncheng in her arms, smiling in her ear and whispering: "Xiao Chun'er, have you seen it? When your master cultivates, it can cause such an abnormality in the world, like a stormy sea. It's usually swept, we can all hear it."

"In the future, you must be as good as your master, do you understand?"

If it is an average child of this age, it must seem to understand, but Jiang Yuechun understands it very well, nodding firmly, her eyes are very clear: "I will definitely."

At this time, Chen Feng didn't have any awareness of his own situation. His entire mind and attention were focused on the heavenly ears and divine orifices in his body.

That extremely huge and mighty aura poured into the Tian'er Divine Orifice, and the Tian'er Divine Orifice was completely choked at this time, and was completely blocked by all kinds of waste.

Chen Feng commanded the seemingly endless wave of qi, and forcibly exploded the heavenly ear orifice. This time, the process of Chen Feng opening the heavenly ear orifice was much easier than the process of the heavenly eye orifice.

Because Chen Feng made more preparations this time.

It took Chen Feng about half an hour to clean up all the impurities in the Tian Er Divine Aperture.

After another time, I don't know how long, at this time, the sky has already revealed a white fish belly, and Chen Feng slowly opened his eyes and exhaled a foul breath.

At this time, a lot of impurities appeared on his body surface. It was the waste that opened new acupuncture points, new meridians, and discharged.

"My Hunyuan Yi Qigong finally entered the third floor. It's just that the level of the Dragon Elephant Potian Jue is lower, and it still stays in the second floor. But the second floor has already opened up 18 tricks. Hole, entering the third building is not very far away."

Chen Feng's arms shook, and there was a creaking sound. It was the explosion of bones. Chen Feng slowly stood up and let out a sullen breath. He felt very relaxed all over his body, and the whole person seemed to float a little more lightly.

He feels that he is now several times stronger than before.

A smile appeared at the corner of Chen Feng's mouth. Now, it's time to temper my martial arts!

Chen Feng left the cave and came to a cliff in the valley. This cliff faces the big lake and leaned against the mountains.

Standing here gave people a sense of the vastness of the world. Chen Feng sat cross-legged here, not drinking or eating, and meditating with closed eyes.

Soon, two more days passed. Han Yuer and others were quite worried, but no one dared to disturb him.

Two days later, one early morning, Chen Feng suddenly opened his eyes and let out a long laugh.

With a bang, the Purple Moon Knife in his hand was suddenly unsheathed, and then jumped up in the air, cutting out nine knives one after another.

Chen Feng's nine knives, it seems that they are not fast at all. Every knife has a clear trace, which makes people see clearly. It is very clear from cutting out to closing. It seems to be a bit slow and gentle. feel.

But in fact, the nine knives are as fast as lightning, and the total amount of the nine knives is only an instant.

It seems to be slow, but in fact it is extremely fast. This kind of strong contrast will definitely make you dizzy and nauseous if someone is watching.

After Chen Feng cut out the nine knives one after another, he retracted the knives into their sheaths, standing there quietly, with a calm expression.

And the direction in which his nine swords were cut was the stone wall in front of him, but after the stone wall in front of him was cut out by his nine swords, there was no slight difference, just like the nine swords that Chen Feng just didn't exist.

But the next moment, there was a muffled sound from inside the stone wall, like an explosion inside. After a while, it stopped.

The explosion sounded nine times in succession, and then Chen Feng gently slapped the stone wall in front of him. Only then could he see that the inside of the stone wall had already been blown out.

The cave that was exploded in the stone wall was also a spherical shape, the same size as the cave that was exploded when Chen Feng used submerged lightning for the first time.

But the key problem is that behind the first cave, there is a second, and the third to the ninth, like a bunch of candied haws, nine caves are worn.

A smile appeared at the corner of Chen Feng's mouth: "My sub-lightning strikes have already reached the Dacheng state, which also means that my Thunder Tyrant Sword has reached the Dacheng state. There is no further advancement in front of me!"

"The thunder tyrant sword's third knife submerged lightning strikes the Dacheng realm. Compared with before, its power has not improved much, but it can cut out nine knives one after another. And the dark energy of these nine knives are accumulated together, and wait until the last one. It just broke out after being cut out."

"Now, you can choose to gather the dark energy of these nine knives at one point, so that the power of the submersible lightning strike can be expanded several times. You can also choose to spread it at different points, so that it can have a larger range of effects! At this time, I chose to decentralize."

[Chapter 446: Everything is great!](#)

Chen Feng took a deep breath and ran Hunyuan Yi Qigong. With a bang, the Ziyue Dao came out again.

This time, Chen Feng cut nine knives one after another. The nine knives were all submerged lightning strikes. What is different from the last time is that Chen Feng's nine knives were cut in the same place and drawn the same arc. The line, even the strength and measure, are not bad at all.

Each of the nine swords was cut on the same point of impact, and it seemed to be indistinguishable, just like the same sword.

After the nine swords were cut out, Chen Feng retracted the sword into its sheath.

Then, a few moments later, the stone wall in front of Chen Feng made another explosion, but this time there was only one explosion, but the sound was much louder than before.

Chen Feng opened the stone wall again, this time only a round hole appeared in the stone wall, but the size of this round hole was more than three times the original stone cave.

A smile appeared at the corner of Chen Feng's mouth. It seemed that if the secret strength of the nine knives was used on one point, it could at least increase the power by three times.

Then Chen Feng began to practice broken gold and jade fingers again.

His right hand has completely turned into the color of purple jade, this purple color is very strong, and it looks like a purple qi from a distance, noble and tyrannical.

As soon as Chen Feng pointed it out, on the stone wall in front of him, a deep small hole suddenly appeared, the surroundings were extremely smooth, as if it had been carefully cut out by the most superb stonemason.

It can be seen from this that Chen Feng's control has reached the level of superb and consummation, and there will be no leakage and waste of qi energy.

The next step was a misty step. Chen Feng had already appeared on the other end of the cliff with a thought.

Then, his figure flashed continuously, and every time he moved, he was able to move a full five meters away. This was a sign that the misty step had reached the realm of Dacheng. *NoVelusb.cOm*

Moreover, his speed is so fast that his eyes can only catch his afterimages.

Chen Feng shining one after another, it looked like a constant flashing, and then soon came to the shore of the big lake.

At this time, Chen Feng had used at least a dozen misty steps to teleport.

The teleportation of the ethereal step was extremely exhausting. At this time, he also felt that his qi was a little unsustainable, his face was flushed, and he took a few breaths.

A smile appeared at the corner of Chen Feng's mouth.

"At this time, my realm has entered the third floor of the Divine Sect realm, and the few martial arts I have cultivated, such as the misty step, broken gold and broken jade fingers, and Thunder Tyrant Sword, have reached the highest realm. It's time to go to the Martial Skills Pavilion to choose a new martial skill."

"But before that, I still have to do one thing, that is, practice the body-building exercises and cultivate the golden body and bronze body to the realm of great achievement."

When Chen Feng returned to the cave mansion, everyone was waiting for him in the hall. After seeing him, they asked with concern.

Han Yu'er asked: "Junior Brother, how are you? How is your breakthrough?"

Chen Feng smiled and said, "Sister, don't worry, the results of cultivation are very good."

He suddenly shook his whole body, his aura suddenly increased, and he climbed to the highest level before stopping.

Han Yuer and others cheered in surprise and said, "Chen Feng, have you cultivated to the third building?"

A smile appeared at the corner of Chen Feng's mouth, and he nodded slightly and said, "That's right."

Everyone was overjoyed, and Han Yuer said: "Junior brother. You should be the first among all the new disciples of the Nei Zong to break through to the third floor, you know. Many people who have entered the Nei Zong for five years and ten years have not made a breakthrough. Enter the third building."

Chen Feng smiled and said, "There is no need to compare this. It's not interesting to compare in the past. After all, I still have to see the real chapter under my hand. Although I am only the third building in the Divine Sect Realm, I face the fourth in the Divine Sect Realm. Those in the heavy building will

definitely not fall under the wind, and those who face the fifth building in the Divine Door Realm should also have the power to fight."

"I really can't beat it, I should still be able to run away."

Everyone was shocked by what Chen Feng said: "What? The third floor of the Divine Sect Realm, he is now able to force the powerhouse of the fourth floor and fifth floor of the Divine Sect Realm?"

Their first reaction was that they couldn't believe it, but they all knew Chen Feng's character very well, knowing that he was not the kind of person who talked, so what he said must be the truth, and everyone was naturally happy again.

Chen Feng returned to his practice room, took out the four-legged dragon ding from the mustard bag and placed it in the center of the practice room.

The Four-legged Flood Dragon Ding is very big, as tall as Chen Feng, and it has a very majestic and powerful aura on it.

As soon as the four-legged dragon ding was taken out, Chen Feng felt that the cultivation room was filled with a strange aura. The atmosphere in the whole cultivation room became cold and brutal, as if there was a bloodthirsty monster in the room. This place is the same.

This monster beast did not know how many people it had killed or how many other monsters it had killed. The murderous aura was almost condensed into substance. At this time, the murderous aura permeated the training room, and the temperature seemed to drop suddenly, and Chen Feng felt a trace. Coolness.

There was a smile at the corner of Chen Feng's mouth. This four-legged dragon ding, really had some strangeness. As soon as it was taken out, it was initially extraordinary.

Chen Feng took out various medicinal materials, prepared all the medicines, placed them in the cauldron, and poured clean spring water.

Chen Feng took out the new Qingteng Qi smelting charcoal, put it underneath, and ignited the charcoal fire.

[Chapter 447: Alchemy](#)

Soon, a flame appeared leisurely on the charcoal fire, and the flame was not fiery red like it used to be, but with a faint cyan color.

The cyan flame is generally a ghost fire, very strange, it makes people feel horrible when you look at it. It is the kind of oily green color. When you look at it, it is like a snake rubbing against the body, wet and slippery. It's terribly uncomfortable.

But this time is different. If there must be an analogy, the flame is like the color of sapphire, pure and noble, but at the same time it is very hot.

As soon as the flame appeared, Chen Feng felt a little special.

The temperature of the flame was too high, reaching nearly 3,000 degrees. After a while, when the flame became more and more vigorous and completely burned, Chen Feng felt that the temperature of the flame had even risen to more than 3,000 degrees.

A smile appeared at the corner of Chen Feng's mouth: "Sure enough, it deserves such a special charcoal fire, such a high temperature, and only such a high temperature can smelt the liquid medicine needed for the fourth level of the golden body."

After the flame reached its maximum, it stabilized at a relative temperature, no longer continued to rise, the fire no longer continued to increase, and the flame burned beepingly.

The liquid medicine in the four-legged dragon cauldron was also gradually heating up. Finally, a few bubbles gradually floated up from the bottom, and then shattered with a bang. The smell, with an extremely strong medicinal fragrance, let People feel refreshing when they smell it.

Then more and more bubbles came up, and finally became gurgling, as if the water was boiling, the water made a gurgling sound, the liquid medicine churned, the original pure water, at this time, has become emerald green. .

Chen Feng knew that the heat was almost over.

He took off his clothes and prepared to jump in.

At this time, suddenly the door of the training room opened with a creak, Jiang Yuechun shook in curiosity, Chen Feng instinctively turned around when the door opened, and then Jiang Yuechun just saw the naked Chen Feng .

"Ah..." Jiang Yuechun screamed, and quickly covered her face with her hands.

Chen Feng stretched out his hand, took the clothes in his hand, and he was fully dressed when he turned around.

At this moment, Han Yuer rushed in and hugged Jiang Yuechun.

Chen Feng looked at Jiang Yuechun with a wry smile and said, "Chun'er, why did you break in suddenly?"

Chen Feng was too embarrassed. After all, he was an apprentice who was only six or seven years old. This was really not a glorious thing.

Han Yuer quickly apologized: "Junior Brother, sorry, I'm not optimistic."

As he said, he glanced at Chen Feng with a flushed face, and walked out holding Jiang Yuechun.

Chen Feng smiled bitterly and shook his head, closed the door, calmly.

He soaked himself into the four-legged Flood Dragon Cauldron, and as soon as he touched the liquid medicine, Chen Feng's body quickly shrank back and returned to the sky above the liquid medicine.

It was not until his right foot retracted that Chen Feng felt the extremely severe pain and burning from his toes. This was a reaction of his body. His body felt that the liquid medicine was so hot that it even caused He couldn't resist, so he responded instinctively.

Chen Feng smiled bitterly, the temperature of the liquid medicine was too high, so the body would react like this.

Chen Feng hadn't encountered it the previous few times. Chen Feng took a deep breath and showed this reaction in his body, indicating that this thing may indeed have a very large destruction to the body. This time it may be quite dangerous.

But Chen Feng was resolute and forced himself to step his right foot into the hot medicinal solution. An extremely strong pain was heard from his right foot. This pain was heart-piercing, indescribable, and seemed to be straightforward. Touching the soul, Chen Feng instantly felt that he had lost consciousness of his right foot.

It seemed that the entire right foot had been melted away, and when he looked down, he found that the skin on the right foot was spattered and blood spurted out.

But the blood, before leaving the body, was directly melted by the heat.

The strange thing is that although Chen Feng felt that his right foot was numb and even lost consciousness, the pain continued to come.

Chen Feng's mind is so firm, it can be said that he is like a rock and steel. Without any hesitation, he just sat in and let the liquid medicine completely soak it in.

At this time, Jiang Yuechun was also taken by Han Yuer and left Chen Feng's room, turned the corner in front, and returned to Han Yuer's own training room.

During the period of Chen Feng's breakthrough, Jiang Yuechun will follow Han Yu'er to practice in the same practice room.

As he walked to the corner of the corridor, Han Yuer suddenly felt Jiang Yuechun trembling violently in his arms, as if shivering violently.

Han Yuer asked, "Chun'er, what's wrong with you? Why are you shivering suddenly!"

The martial artist is strong, not to mention invading all kinds of diseases, but he rarely suffers from colds, and trembling for no reason is rare.novel.us3.com

Jiang Yuechun stared at a pair of dazed uncles, and said: "Sister Yue'er, I don't know either!"

Han Yu'er didn't take it too seriously, and rubbed her head with a smile: "You little guy!"

After Chen Feng soaked his whole body in the liquid medicine, he felt violent pain.

The pain is so huge and strong, it hits like a tide, and there is nowhere to resist it. Can only be swept by this big wave.

[Chapter 448: Dragon Soul](#)

It stands to reason that Chen Feng should have fainted for such a severe pain, but what is wrong is that Chen Feng just couldn't faint, and the pain became stronger and clearer.

Moreover, every point of every slightest pain was so clear to Chen Feng that he couldn't avoid even the smallest pain and had to bear it.

The pain was so severe and obvious that Chen Feng couldn't even feel it at thousands of degrees, and slowly, Chen Feng became numb, and he couldn't even judge how high the temperature of the liquid medicine was.

But according to his speculation, at least it will not be less than 2,500 Baidu, which is already more than 500 degrees higher than the temperature of the third stage of the golden body.

Faced with this situation, Chen Feng did not panic. He had encountered this situation many times. This was not the first time he had practiced the Golden Body Jue. His previous experience told him what to do at this time.

Chen Feng took a deep breath and closed his eyes, and tried his best to concentrate all his spirit and will to feel his dantian. Feel the meridians, feel the acupuncture points, and feel the presence of qi in your body at this time.

Sure enough, it didn't take long for Chen Feng to feel the dots, which were the acupuncture points, the lines and the meridians, and the light waves flowing in them were the qi.

Although Chen Feng could not feel his body yet, he could feel it. That's enough.

Chen Feng circulated the Gang Qi, flowing through the meridians in his body, and then absorbed the power in the liquid medicine at a speed visible to the naked eye.

His golden body tactics run wildly, starting to run at the highest speed and the strongest power.

The qi rushed madly, and at this time Chen Feng's body also turned into a bronze color, and the power in the liquid medicine began to penetrate into Chen Feng's body as the golden body determined.

A trace of strength gradually penetrated in, and the speed was still accelerating. The bronze color on Chen Feng's body became heavier, thicker and deeper.

I don't know how long it took, Chen Feng suddenly opened his eyes. At this time, he had vaguely felt the existence of his body.

The violent pain that seemed to tear his soul had also weakened a lot. Chen Feng's body, which had been burned in the liquid medicine and scalded, stopped and continued to be injured, but slowly recovered and absorbed The power of the liquid medicine will repair itself.

Chen Feng could clearly feel the improvement of the golden body decision, bit by bit, although slow, but very firm.

In fact, his slowness is only relative to before, if it is relative to others, it is almost inconceivable.

You know, even the most talented people in the Vajra Gate practice the Golden Body Judgment, and it will take almost a year for the fourth stage, no matter how fast it is.

And Chen Feng overnight. Can match them for a year! Every second of Chen Feng's improvement is equivalent to their improvement of several hours!

Chen Feng knew that this was the most critical moment. Before this moment, the liquid medicine was harmful to him, but after that, the effect of the liquid medicine on him became a benefit.

So Chen Feng held his breath, concentrated all his attention, and put all his mind on it.

But at this time, he had never noticed that on the four-legged Flood Dragon Cauldron, above the open mouth of the Flood Dragon, the eyes of the Flood Dragon suddenly blinked, seeming to flash a humane, awkward light.

If Chen Feng opened his eyes at this time, he might find that on the Jiaolong Cauldron, a phantom was slowly coming off the cauldron.

This phantom was actually a flood dragon that had shrunk many times.

This dragon, about one meter long, with thin arms, separated from the cauldron and turned into a phantom, just hovering above the four-legged dragon cauldron.

Although I know that the size of the dragon is small, the aura emanating from it is quite tyrannical, and there is an extremely demon, evil and poisonous aura hovering in the dragon.

After the phantom of the flood dragon hovered a few times above the four-legged flood dragon cauldron, he saw that Chen Feng was unprepared, and his eyes were extremely proud and vicious. He hovered in a circle and suddenly fell down. He rushed hard and rushed directly at Chen Feng's body.

It was just a phantom, so it rushed into Chen Feng's body without hindrance.

At this moment, Chen Feng is sitting cross-legged, trying to absorb the power in the liquid medicine, and at the same time trying to sense his body. He can almost sense half of his body, which shows that the power in the liquid medicine is basically already Absorbed a little more than half.

And as long as it absorbs the upper third again, reaching the level of more than half, then Chen Feng will pass through the Golden Body Jue this time without any danger.

But at this moment, Chen Feng suddenly felt an extremely cold and evil aura invading his body.

Then, he felt that he was drawn into the sea of knowledge.

After arriving here, Chen Feng found that not far across from him, in the air, there were a phantom with a length of one meter and a thickness of arm.

Looking at the shape of this phantom, it was clearly a shrunken dragon.

At this time, Jiaolong saw Chen Feng, he let out a cold and vicious laugh, and even uttered: "Haha, little bunny, I didn't expect your sea of consciousness to be so vast, and your soul realm so vast!"

"It's simply a top-quality product. If I crush your soul and occupy your body, and practice again, I don't know how many times faster than my previous life practice is!"

"God is really good to me. I have waited for thousands of years, but I didn't expect that when I awakened, I would encounter such a superb body and such a superb soul! Little bunny, I really want to thank you very much. !"

As he said, there was another burst of arrogant laughter, it seemed that the matter had already been won, and Chen Feng was not taken seriously.

At this moment, Chen Feng felt a stormy sea in his heart. Listening to the meaning of the dragon, this is an old demon who has experienced thousands of years.

Chen Feng sneered: "How do you want to thank me?"

This dragon's language is extremely vicious and cruel: "I will tear all your soul to pieces, but there will be a fragment of the soul. This soul fragment will retain your consciousness and retain you. For the painful sensation, I will temper your soul fragment at a temperature of several thousand degrees every day."

"But every time, I will refine it with the last breath, but it is not completely refined, and then put it in the heaven, spirit and earth treasure to nourish it, so that you will recover the next day."

"Practicing like this once a day will cause you to endure endless pain, but you are helpless, unable to break free, and you can't even die!"

[Chapter 449: Not an opponent at all](#)

"I have to practice for ten years, three thousand six hundred and fifty days and nights, before I can relieve my hatred, you say, am I the best reward for you?"

Jiaolong let out an extremely arrogant laugh: "You little bastard, do you know that every trace of flame under the tripod is burning on my body, causing me to endure endless pain!"

Chen Feng suddenly said, "It turns out that you were sealed in a four-legged dragon cauldron!"

There was a flash of light in Chen Feng's mind, and all the problems were found out.

It turned out that in this four-legged flood dragon cauldron, there was a real flood dragon sealed, and this flood dragon was sealed in it for many years. No wonder Sun Hua told himself before that every time in the night of wind, rain and thunder, there would be screams in the four-legged dragon cauldron.

Think about it, the soul body is naturally extremely afraid of natural forces.

Chen Feng also understood why many people used the four-legged dragon cauldron before, but only experienced this fate. It must be because those people used only the four-legged dragon cauldron to make alchemy, but their bodies did not Enter the tripod.

And their bodies were sturdy, and their souls and bodies were not as severely hit as their own, and they didn't give this flood dragon a chance.

But at this time, he was in the cauldron, his body was broken, his soul was damaged, and his mind was completely open without any precautions, so this flood dragon would suddenly take advantage of it.

Jiaolong let out a ferocious laugh: "If you want to understand, right? If you want to understand, then you should die now!"

With that said, the Flood Dragon rushed towards Chen Feng at an extremely fast speed. Chen Feng instinctively wanted to avoid resistance, but he found that his speed could not be compared to this Flood Dragon.

Even Chen Feng had just thought about it, his arms had just been raised, and his feet were about to exert force. The Jiaolong had rushed in front of him and bit his throat with a big mouth.

Chen Feng felt a sharp pain. Although Chen Feng only needs the existence of the soul body, the battle between the soul bodies can also injure the opponent, destroy the opponent's body, and make the opponent feel pain.

Jiaolong easily tore a fist-sized soul fragment from Chen Feng's neck.

Then Jiaolong quickly backed away and returned to 30 meters away from Chen Feng. At this time, he was biting the fragment of Chen Feng's soul in his mouth.

If Chen Feng was attacked on his body at this time, I am afraid that half of his neck would be torn off, blood would spurt out wildly, and he would die because of his inability to breathe.

But at this time Chen Feng was in the state of soul, and that situation would not happen, but the severe pain did not abate at all, on the contrary, it became more intense. Because this was an attack directly on the soul, Chen Feng couldn't help trembling in pain.

Moreover, Chen Feng clearly felt that after this piece of his soul was torn off, he became weak. If such an attack continues, he will eventually be attacked and die, and his soul will be destroyed.

Chen Feng discovered a terrible fact that his speed was far worse than this dragon, and he was not above the same level at all, and the gap was huge.

"The strength of this dragon during his lifetime is definitely not under the fourth and fifth floor. It has stayed in the cauldron for thousands of years, and has been tempered and grown continuously. Therefore, the soul power is extremely powerful. I can't compare it!"

Just as the dragon tore off this piece of soul fragment, and then drew back, he even just reacted, no, it should be said that he has not reacted yet, his arm just raised to the position of his elbow.

The Jiaolong gulped through Chen Feng's soul fragments, his eyes showed extreme surprise: "You little bastard, the soul fragments are so wonderful!"

"Ah! What a mellow taste, after I swallowed your soul fragments, my strength must have improved even more."

He looked at Chen Feng with greed in his eyes, just like looking at a baby.

He knew what was going on, which meant that Chen Feng's bloodline must be flowing with a very high-level bloodline, which even affected his soul.

He had encountered this kind of thing during his lifetime, but he had never encountered such a sweet soul.

He swallowed Chen Feng's soul shards, tearing it up in twos or twos and then swallowing it in. Chen Feng took a few steps back and watched this scene with a sneer, his eyes calm and unhurried.

Chen Feng still remembers the tragic situation encountered when the Soul Eater swallowed his soul. He realized that after he was immersed in the dragon blood, there seemed to be a trace of the blood of the dragon in his soul.

Therefore, after being swallowed by a monster like the Soul Eater, it will be directly burned to death.

Chen Feng estimated that the flood dragon in front of him should almost have this problem.

But it is a pity that this situation did not occur after the dragon swallowed. Chen Feng was not in a hurry, knowing that he might have to wait a while.

After the dragon swallowed this large piece of soul fragment, he was still a little bit unconscious, and suddenly he jumped up again, but Chen Feng couldn't keep up with his speed, and there was no resistance. This time Chen Feng was torn from his shoulder. A large piece of soul fragment.

After swallowing this piece of soul fragment, Jiaolong laughed arrogantly: "Haha, you little bunny, you still want to beat me faster, do you know that I have existed in this state of soul for thousands of years, early I'm already very familiar!"

[Chapter 450: Extremely powerful!](#)

"How long have you been? You have never fought like this before, have you? At this time, in my opinion, you are simply extremely slow and unable to adapt to the current way! And you can try your martial arts, and see if you can use!"

Chen Feng remained silent, but secretly circulated the qi, but there was no reaction in his body, and his heart sank suddenly.

It is normal to think about it. The root of the martial arts technique is Gang Qi, and at this time it is just the state of the soul body, and there is no even the dantian meridian orifice points. How can you use Gang Qi?

It can be said that Chen Feng, in the state of the soul body at this time, can only rely on the soul body to attack the dragon. To put it bluntly, it is like two people who do not know martial arts or exercises at all, using teeth and hands. Use your claws to bite each other.

In this regard, there is no doubt that Jiaolong has the advantage.

But Chen Feng still didn't panic, because he felt that time was almost up.

Sure enough, Jiaolong pounced in front of Chen Feng again, this time he almost pulled Chen Feng's left forearm down, and then swallowed it into his belly. At this moment, a burst of golden light suddenly flashed in the dragon's body. This golden light looked extremely domineering, and obviously it had caused huge damage to the body of the dragon.

Because the Jiaolong made an extremely stern and miserable howl, and his body seemed to melt suddenly. The place where the golden light shone, like ice and snow meeting the sun, seemed to be melting little by little.

Jiaolong trembled in pain, constantly twisting in the void, he screamed at Chen Feng: "What kind of ghost is this? How could something like this suddenly appear in my body?"

Chen Feng sneered, but did not speak. Instead, he rushed forward and bit the dragon with a fierce bite, and then tried his best with both hands to tear the body of the dragon.

Taking advantage of his illness to kill him, it was Chen Feng's purpose to kill the dragon while taking advantage of this time. For this reason, he even used a crude and simple attack method like biting and tearing.

Because Chen Feng really had no other way, but it was a pity that Chen Feng found that the soul body of the dragon was much stronger than him. Chen Feng had just passed by, and the tail of the soul body of the dragon just flicked Chen Feng. Fly out.

A deep sense of powerlessness surged in Chen Feng's heart. He felt that his soul was absolutely powerless to fight back in front of the soul of the dragon. As expected, he was an old ghost who had lived for thousands of years. The power of this soul was extremely powerful. Strong, and, as a dragon, his soul should be very strong in his early life!

Chen Feng's heart suddenly moved. The soul of this dragon is so powerful that if it is swallowed by himself, or if it can be swallowed by the martial soul, it will definitely bring me great benefits.

But this was very difficult for Chen Feng at this time, unless...

Chen Feng looked at the dragon who was still struggling desperately and the golden light that flickered in his body, unless these golden lights could disperse the soul of the dragon.

Unfortunately, Chen Feng was soon disappointed.

Because the dragon was convulsing desperately, and his stomach twitched, it looked like vomiting, and soon, he opened his mouth and spit out a few pieces of soul fragments, which was actually swallowed just now. Yes, the soul fragment torn from Chen Feng's body.

Jiaolong's soul looked at Chen Feng with a horrified expression on his face: "Screamed, what is the origin of you little bastard? How can the blood in your body be so high that even the soul becomes inviolable?"

"I swallowed your soul, and I couldn't digest it! Not only could I not blend into my soul, but it was almost eaten back by it!"

"It's just..." He looked at Chen Feng, his face turned savage again: "Although I can't swallow your soul fragments now, but if your soul fragments are ripped off by me, they are ripped off by me. Melt into your body again. I can't swallow you, but I can crush your soul. By this time your body will still be mine!"

With that said, he attacked Chen Feng again.

But Chen Feng was still unable to fight back.

In this soul space, the difference in strength between the two should be calculated by a hundred times.

This flood dragon constantly launched extremely fierce attacks on Chen Feng, but within a short period of time, Chen Feng's body was already fragmented.

Both his arms were torn off, both legs were bitten, and even his body was broken, Chen Feng felt a burst of pain, and the unprecedented sense of weakness was also Hit his heart.

Chen Feng knew that if this continued, it would not take a while before his soul would be completely shattered, and when the soul was broken, he would naturally die!

Chen Feng was extremely frustrated at this time, unable to use exercises, unable to use martial arts, and relying solely on the fighting ability of the soul, he was not an opponent of Jiaolong at all!

But Chen Feng is not desperate. He is not the kind of desperate person, even if he is in trouble, even if death is imminent, but as long as he is still alive, as long as he is still awake, even if there is only one second before the end of life, He will think about how to solve the dilemma before him.

Suddenly, a flash of light flashed in his mind, and he remembered the Dragon Claw of the God Extinguisher!

He remembered the origin of Dragon Claw, which seemed to be understood by him in the sea of consciousness, and then used it in reality.

Chen Feng immediately lifted his spirits. If the dragon claw is understood in the sea of consciousness, can it be used in the state of his soul body now?
