

Peerless 4711

[Chapter 4711: Do your part! Cause and effect!](#)

He looked at Chen Feng and said with a low smile: "This is your revenge, your ideal, and even your big aspiration!"

"At the same time, it's also the temptation you can't refuse, right?"

The night watchman is right, this is a temptation that Chen Feng can't refuse!

For yourself!

Chen Feng wants to cultivate and seek long-term victory.

Chen Feng wants to find Master Yan Qingyu!

Chen Feng wanted to know what exactly the words said by the Great Demon Yanyang before his death meant! What is the secret of his birth?

For others, Chen Feng wants to resurrect those relatives and friends, he must be able to protect all the people he wants to protect!

As far as Yu Dahongyuan is concerned, he wants to fulfill those wishes, the oath he made!

Chen Feng has countless things to do!

Chen Feng wants infinite things!

And all of this has one of the most important premise: become stronger! Become extremely powerful!

Even, let's not talk about these long-term, just talk about the most urgent thing.

At the top of the sky, Chu Pingsheng had already threatened Chen Feng with death.

Next, Chen Feng had to face Chu Pingsheng, who was praised by many terrifying powers on the top of the sky, and was probably the first person on top of the sky to be the first horrible existence a hundred years later!

Chen Feng is struggling to survive in his endless pursuit!

Then, he needs to greatly improve his strength in a short time!

For this reason, he will become stronger in a short time!

But he has no foundation in Xuanhuang in the thousand worlds, how can he become stronger?

If you can inherit the treasures of the Yuxu Fairy Gate, those martial arts and martial arts, then it is of great significance to Chen Feng!

It can even be said that it determines his future!

However, Chen Feng has not been blinded by greed.

He said lightly: "You don't have to seduce me. To enter there is my long-cherished wish."

"Don't tell me, I will do my best."

"As for the treasures, inheritance, and everything of your Yuxu fairy gate, since Chen Feng, I, have avenged you and inherited all of them, I will naturally do my part!"

The night watchman was startled first, then laughed.

Pointing at Chen Feng, he laughed and said: "Okay, very good, what a good one!"

He looked at Chen Feng and his eyes became more and more appreciative.

Chen Feng's attitude is very different from others.

Those who have seen him before are all committed and respectful, treating him as a god-like existence.

It is extremely flattering.

But Chen Feng is neither humble nor overbearing, but confident.

Even, there is so much condemnation for him, face it boldly, without fear!

When the voice fell, an extremely thick line of cause and effect quietly originated from Chen Feng, and then connected to the night watchman.

However, after reaching the night watchman, it did not stop.

This line of cause and effect has become countless times bigger in an instant!

The line of cause and effect is generally illusory, almost insensible.

It can be transformed into a nearly substantial line of cause and effect, which is already implicated in a very huge cause and effect.

The line of cause and effect between Chen Feng and the night watchman is already like hair.

This is already a very terrifying and huge causal line!

However, the causal line that fell on the night watchman suddenly became countless times thicker, almost like a river of heaven, flowing wantonly!

The long river crisscrosses into the sky.

In an instant, this line of cause and effect, which turned into a long river, flows into the deepest part of the universe, leading to the unknown.

Chen Feng was shocked, feeling very obvious.

He sighed lightly, knowing that this line of cause and effect started from himself, reached the night watchman, and then was firmly connected to the Yuxu Immortal Gate!

Now, the two have the deepest relationship in the world!

"Let's go! I will show you to the ground."

The night watchman said, flicking his finger.

A flame quietly flowed out, covering Chen Feng's body.

The night watchman moved forward and hurried away, and the flame that enveloped Chen Feng's body quietly circulated, turning into two huge flame wings.

With a light fan, you can fly far away.

Chen Feng followed the night watchman all the way to the depths of the void.

From time to time, Chen Feng saw huge meteorites whizzing past.

It may seem small, but when you get closer, you will find that the size is often more than tens of thousands of miles.

It was even more terrifying than the tallest giant mountain in the Dragon Vein Continent.

Its shape is rugged, mountain-like and spherical.

More pimple, irregular shape.

The speed may seem slow, but in fact it is reaching the extreme.

This immense weight, wrapped in this extremely fast speed, its power is terrifying to the extreme.

Chen Feng felt that if he was rubbed a bit, he would be shattered.

As he moved forward, the night watchman said in a slow voice: "This major event once in a million years, I used to describe it as a catastrophe before, and it is not imagery."

"A million years ago, when the Great Seal just sealed the Dragon Vein Continent, it was indeed a catastrophe."

"However, if this big formation is not opened this time, then this once in a million year opportunity is a carnival for the Dragon Vein Continent, the best opportunity to improve one's level."

Chen Feng thoughtfully.

He slowly said: "Because the great array is loose, there will be endless spiritual energy in the void of the universe floating into it."

"So, will the Dragon Vein Continent's level be improved, the spirit will be abundant, and the martial artist's strength will be improved?"

The night watchman nodded, "Also, there will be other things that enter the Dragon Vein Continent with the endless aura."

"All kinds of opportunities, all kinds of treasures, even some relics floating in the void of the universe, monsters, etc..."

"What huge benefits will this bring to Longma Continent?"

He looked at Chen Feng and said lightly: "This is also a compensation for the Dragon Vein Continent being sealed for millions of years!"

However, even though he said such words, his expression was still indifferent and his emotions did not fluctuate.

I don't know how long it has passed, nor how long it has moved forward.

However, Chen Feng had a faint feeling that he was getting closer and closer to his goal and the destination.

The night watchman seemed to feel his emotions and said lightly:

"Here, it's not far from the edge of the void, that is, the big formation."

Chen Feng nodded lightly.

Suddenly, his pupils shrank.

It turned out that at this moment, a corpse suddenly appeared not far in front of Chen Feng.

A huge body!

This is a giant dragon.

It's just that they are all different from the dragons that Chen Feng had seen before. The whole body is like multicolored metal.

The surface of its body is even more condensed with a layer of colorful thick metal heavy armor, as if it can resist all attacks!

Chen Feng hadn't seen a corpse for a long time.

Most of the corpses he had seen before were just off the Longmai Road, not far from breaking through the blue sky.

Generally dense there.

It is normal to think about it.

After all, their strength is limited, and in this void of nothing, they can't last long.

[Chapter 4712: Nine Star Conferred God Array!](#)

Therefore, there will be a lot of deaths there.

And now, in this place, I don't know how far away from the gap of the blue sky.

Already approaching the edge of the void.

To be able to come to this place, one can imagine how terrifying his strength is!

Chen Feng asked softly: "Who is this man?"

"This..."

The night watchman glanced indifferently, and said lightly: "He was the strongest in the Dragon Vein Continent a million years ago."

"It is also the first existence to come here after the Dragon Vein Continent was banned."

"Because the Dragon Vessel Continent had just been sealed at that time, the aura is still sufficient."

"So, his strength has reached the fifth heaven of the Star Soul Martial God Realm."

Star Soul Martial God Realm fifth heaven!

Chen Feng was shocked: "This is an existence comparable to Fairy Yuheng!"

The night watchman shook his head slightly, and said faintly: "This inferior dragon from the Little Thousand World, it is really good to be able to do this step."

There is a lot of information in his words.

Obviously, there are many kinds of dragons.

The dragons that Chen Feng had seen in the Dragon Vessel Continent before were just a few of them and extremely low-end ones.

There are many more high-end and powerful dragons.

But this scene had a great impact on Chen Feng.

After leaving the corpse for a while, Chen Feng remained silent.

Suddenly, he asked: "Those who have been here, have they ever seen you?"

Chen Feng's words were indifferent, but they contained indescribable sharpness.

Somewhat aggressive.

If the night watchman says yes, then there is no doubt that he has seen those who broke through the blue sky and came here.

In the end, those people died again.

What it means is self-evident.

The night watchman did not hesitate. With his cultivation level, people with great minds would not care about this.

Just smiled: "I have seen it."

"In fact, all the corpses you have seen, they have seen me before they were alive."

"It's just that I didn't see your potential and future in any of them, so..."

"and so....."

Chen Feng said, "You met them and gave them hope, but you watched them die, didn't you?"

"Yes."

The night watchman said lightly: "They don't deserve me to pay a huge price to open up this big formation for them."

"Moreover, with their ability, after going to the Xuanhuang Zhongqian World, it is also a dead end."

Chen Feng said word by word: "Then you, can't you send them back to the Longmai Continent?"

"What's the point of sending it back?"

The night watchman glanced at Chen Feng, his tone still calm:

"They return to Longmai Road, are they waiting to die?"

"good very good."

Chen Feng smiled slightly: "It's very good, it really is your Yuxu Immortal Sect's behavior."

The night watchman's face was calm: "Chen Feng, I know you are upset, but there is no way, it is the case."

Sen cold and cruel in the words came to his face.

Chen Feng sighed lightly and said nothing.

No words all the way, keep going.

Soon, he came to an extremely dark place.

Here, there is no difference from other voids.

But when the night watchman stopped here, he suddenly shouted and raised his arms.

Suddenly, there were countless lines of flame floating in his hands.

In an instant, two complex arrays were formed.

He slowly pushed the circle forward.

In an instant, it was branded in front of him.

In the void in front of him, a shadow slowly appeared, as if a door was being pushed open.

Chen Feng felt a powerful force from it.

This force, even he estimated that Fairy Yuheng or Chu Pingsheng could not stop it.

And this power is just the power used by the night watchman to open the formation, not the power he really uses to destroy the enemy.

And at this time, the night watchman still had only one remnant soul, and his strength was much worse than that of the peak period.

This scene gave Chen Feng a new understanding of the terrifying power of these Yuxu fairy gate powerhouses.

Want to avenge the Yuxu fairy gate, the road ahead is long!

The next moment, a black vortex appeared in front of him, leading to the unknown.

The night watchman took Chen Feng and set foot in it.

After a brief sense of weightlessness, Chen Feng's face lit up.

The next moment, he whispered.

There was an extremely shocking color in his eyes.

It turned out that what appeared in front of Chen Feng was a sky.

Covering in front, it spreads to the end of the line of sight, as if it is infinite and infinite.

This sky dome is like a huge black lid, which is fastened on top of Chen Feng's heads.

The lid seems to be infinite, and there is no way to see the edge.

As soon as he raised his head, there was this huge black lid above his head, exerting tremendous pressure, as if to suffocate one.

Chen Feng took a deep breath, calmed down, and looked up carefully.

The huge black lid is completely black.

It has an extremely heavy and hard metal texture, just like metal casting.

However, there is still a little temperature and elasticity inside, and in that hard metal, it is mixed with flesh and blood from time to time.

On top of it, there are huge veins that are extremely large, thousands of miles long, and more than a few hundred meters in diameter.

These veins are blood red throughout the body.

It seems that the metal is mixed with flesh and blood.

The huge veins are like metal castings and blood veins in the human body.

It is full of unparalleled strong vitality, with powerful force surging.

Of course, what shocked Chen Feng even more was the power revealed in it.

Chen Feng felt that the power surging in a random vein inside seemed to be able to easily destroy himself.

This big array is infinite.

There are countless such lines!

When facing this formation, he really had the feeling of being an ant facing the vast ocean.

"Is this a big formation I want to break open?"

The night watchman's dreamy voice sounded: "This is the body of the Nine Star Conferred God Array!"

Nine Star Conferred God Array!

The night watchman continued: "Different from the general magic circle, its pattern is already deeply imprinted in the body of the magic circle, and it is integrated with it."

"It's even more difficult to crack."

"Because this magic circle incorporates the flesh and blood of those powerful sects, it is even more different from the general magic circle."

"It is both dead and alive."

"Continuous life, drawing strength in the void, so it can sustain itself and live forever!"

Chen Feng's eyes were deep, and he said slowly, "This is why they have lasted for a million years without being affected, and can still last for more than a million years?"

[Chapter 4713: A door!](#)

The night watchman nodded and said, "If nothing happens, this formation can even last for countless millions of years."

"Even, longer than the existence of the Dragon Vein Continent."

Chen Feng was shocked: "This, is this a formation created by a warrior? It can live the same life as the world, longer than the lifespan of a world!"

"However, precisely because this is a living thing and a dead thing, it is necessary to draw strength in the void."

"and so....."

The night watchman smiled and said: "This big formation will have a trough of power every million years."

If Chen Feng has realized something, "It's like people are tired. You have to take a break."

The night watchman brought Chen Feng directly to this formation and drifted forward slowly along one of the veins.

He is obviously very familiar with this place, and this extremely complicated formation is as transparent in his eyes.

And this formation did not react to the arrival of the two Chen Feng.

Obviously, as long as it doesn't want to forcefully break this big formation, I'm afraid it will disdain to take care of others.

In a blink of an eye, Chen Feng estimated that he had walked at least more than 100,000 miles.

The more he walked forward, the more Chen Feng could feel the vastness of this circle.

This is a huge circle that can't even be described by distance.

If you really have to say how huge it is, then it may be more than tens of millions of miles, even hundreds of millions of miles or even billions of miles!

Big enough to enclose the entire Dragon Vein Continent.

Suddenly, Chen Feng's eyes lit up, and a bright white light appeared in front of him.

He squinted his eyes and looked forward carefully.

He saw that a huge star array appeared on the black sky dome not far in front of him.

This star array has a radius of tens of thousands of miles, and there are thousands of stars inside.

Each star is actually a huge gem inlaid on the black sky dome.

This gem is hundreds of meters in radius, and it's a bit weird.

Each gem is set in a different position, and thousands of gems form this huge star map.

Chen Feng sighed slightly: "This is the so-called sky full of stars we saw when we were on the Dragon Vein Continent, right?"

The night watchman nodded.

Chen Feng laughed at himself: "Fake, all fake!"

"just....."

He frowned: "I remember, I could sense the power of stars before."

"If it's fake, how can we sense it?"

The night watchman said: "If you want to say something false, it may not be true."

"Above this nine-star Conferred God Formation, there are countless star maps and countless stars."

"These stars do not come out of thin air."

Chen Feng listened, thoughtful.

The night watchman smiled and said, "This area where the Longmai Road is located is originally somewhere in the universe."

"It was originally able to see many stars in the universe..."

Chen Feng suddenly said: "So, when you built this nine-star Conferred God Array, you also engraved the stars that could have been seen in the Dragon Vein Continent?"

Night Watch Humanity: "To be precise, it is not what we carved on it, but it was generated naturally."

"The mystery of the Nine Star Conferred God Array is here, which coincides with the number of the sky and can sense the stars of the heavens."

"When it is formed, the stars of the heavens will naturally be sensed, and the stars of the heavens will also form a projection on the Nine-Star Conferred God Array."

"These projections will turn into these stars after a long time and their power condenses."

He pointed to the top of his head.

Chen Feng knew it.

"Because this is the condensation of the power of the heavens and stars, it should have a trace of the power of the heavens and stars."

"So, we can feel a little bit of the power of the stars."

"Yes. But..."

The night watchman shook his head: "The power of the stars is extremely weak."

"It's okay to feel it, it's a dream to rely on this condensed star soul."

The two continued to move forward.

Looking all the way, countless stars.

However, Chen Feng frowned at this moment, as if he was worried.

He felt a little uncomfortable in his heart, as if there was a very important thing, a very important thing that he should have thought of, but he has never thought of it.

It flashed in my mind, but I couldn't grasp it anymore.

Chen Feng frowned and tapped his head lightly: "What the **** is it?"

"I feel that I have overlooked a very important thing! What the **** is it?"

He racked his brains, but couldn't remember.

He always felt that something was wrong, but he couldn't figure out why it was wrong.

Finally, the two reached a star map.

The night watchman pointed to the star map with a radius of thousands of miles, and said meaningfully:

"From the sight of the Dragon Vein Continent, there is a huge star at the location of this star map."

"There is Xuanhuang Zhongqian World."

"So, of course, you need to come here too, to be able to open up the road to the Xuanhuangzhongqianworld."

When Chen Feng heard this, he suddenly felt an unspeakable sense of wonder.

He suddenly thought of his childhood, when he was still unable to cultivate.

Every night, he would sit quietly outside, lying on the roof.

Looking at the sky full of stars, there are infinite questions in my heart.

"What does it look like on the star I am watching?"

"Is it a dead place, barren like ruins? Or are there rushing rivers and countless mountains and wild fields?"

"Is there a fairy flying sword in the vertical direction? Or is this star, just a hazy air? Or is it just like the big sun, with only bright light?"

"Above this star, is there someone standing there quietly at this time, watching the direction of the Dragon Vessel Continent?"

"Does my two eyes travel through time and touch each other?"

From then on, Chen Feng knew what he wanted.

I want to take a look at the heavens and worlds! That sky full of stars! The various worlds!

Take a look, what is there, what a magnificent and fantastic picture!

I want to see the true meaning of this universe, the end of the universe!

The star map has a radius of thousands of miles, and the big one is like a continent.

The night watchman took Chen Feng all the way forward. Between the stars under the two of them, there was a striped road connecting them, like an ancient starry sky.

As I walked, my eyes suddenly opened up.

Chen Feng saw a door, a door too huge to describe.

The height of this door has reached three thousand li, the whole body is iron and black, it is extremely thick and stable!

Just stand there, as if it existed forever!

This door is located right in the center of this star chart!

When he came to this door, Chen Feng felt that his breathing would be stagnant and his whole body was suppressed and unable to move!

Moreover, Chen Feng vaguely felt that behind this door, there was even more magnificent waves!

[Chapter 4714: This day has finally arrived!](#)

It's shocking, but at the same time it is extremely hopeful and yearning.

"This is it."

"Behind this door is the Xuanhuang Zhongqian World!"

Behind this door is the Xuanhuang Zhongqian World!

Chen Feng's heart pounded wildly. He was lingering in his dreams and wanted to enter, and he was the only Xuanhuang Zhongqian world he could enter!

"With your current cultivation base, there is absolutely no possibility for you to completely open the Nine-Star Conferred God Formation."

"Don't say it's you, even me, even the head teacher of my Yuxu Immortal Sect did not necessarily have such strength!"

"However, it is still possible to open a door and allow you to enter the world of Xuanhuang Zhongqian!"

"Open it now?"

Chen Feng asked.

He felt a little caught off guard, he didn't expect to step into the world of Xuanhuang Zhongqian so soon.

The night watchman shook his head: "No, it's not the time yet."

"First, today is half a month away from the one-million-year node."

"Secondly, it is one thing short of opening this door now."

Chen Feng frowned and said, "What?"

The night watchman said word by word: "That is the jewel of Guanlongmai Continental Motors!"

"That treasure?"

This is not the first time Chen Feng has heard of that treasure.

That treasure is something that the Six Great Hidden Sects aspire to obtain, and it is also something he aspires to obtain.

However, he did not expect that the original treasure had a deep connection with the opening of the door to the Xuanhuang Middle Thousand Worlds!

Chen Feng whispered, "What is that thing?"

The night watchman shook his head: "I don't know either."

"Actually, only my outstanding genius from Yuxu Immortal Gate knows what that thing is."

"Because he is the only one who has seen him and came back alive."

Chen Feng's heart was instantly bright, and he exclaimed:

"Could it be that after you first discovered the Dragon Vein Continent, those young talents who came to the Dragon Vein Continent, but ended up dying bizarrely, and only the super genius went back alone."

"It's not because they encountered some ancient fierce beast, a powerful warrior, but because they encountered that treasure?"

The night watchman nodded: "It's very likely."

"So, we speculate that the treasure was born only once in a million years!"

"And with his death, no one even knows what that thing is!"

"and so!"

He stared at Chen Feng and said word by word: "You must get that treasure when the once-in-a-million-year opportunity comes in half a month!"

"Otherwise, I will lose everything!"

Chen Feng nodded solemnly, his eyes deep.

Chaoge Tianzi City, an unobtrusive house.

The house is not big or luxurious, but it is extremely delicate and ingenious.

Every step is scenery, and the design is very elegant.

There is a small lake in the middle, with a winding path leading to the quiet.

On the two-story pavilion by the lake, a window was suddenly opened, revealing a slender figure.

Today is a big cloudy day.

The black plume cloud piled up on the sky, as if piled in people's hearts, making people's hearts unspeakably heavy.

Although it was still morning, the sky was already dark.

There is a cold wind howling, blowing on people, a little cool.

In that pavilion, walk through the woods.

The weeds by the lake are already withered and yellow, and the bamboo is cultivated in the jungle, and it is also a bit dark yellow.

This late autumn in the North Land has already brought indescribable coldness.

The man in front of the window leaned on the railing and looked out, his eyes swept over the lead cloud piled up in the distance, and he sighed softly: "The rain is coming and the wind is all over the building."

As soon as the voice fell, a loud noise rang out in the clouds in the distance.

A huge blue lightning flashed across the sky.

In an instant, the rain poured down.

At a glance, it seemed that the whole world was shrouded in this torrential rain.

In the courtyard, the bamboo repairing in the jungle was smashed and slanted.

The world is groggy.

Behind him, the door was pushed open with a creak.

A slender figure walked in.

She stood there quietly, watching the young man by the window, her eyes full of nostalgia and sadness.

The person by the window turned around when he heard the movement and looked at the beautiful woman, with a slight tick at the corner of his mouth: "This kind of weather is most suitable for reading and drinking tea at home."

"It would be nice if you could sleep in the dark."

"In the end, I didn't expect to go out and fight with others, which is really unbelievable."

The person who came in was Ziyue.

She looked at Chen Feng, her eyes filled with dismay.

It turned out that after Chen Feng returned from the nine heavens, he had not been idle for about half a month.

He first went to the winner of the Eastern Wilderness, and personally picked up Ziyue.

Then came the news and sent out invitations.

All my friends on the Dragon Vein Continent to date are gathered here.

Within half a month, Chen Feng let go of everything and feasted with them every day.

Many of them have not seen Chen Feng for several years.

At first sight, all kinds of flavors were mixed.

Chen Feng lived like this for half a month.

And he seems to be deliberately indulging.

Because Chen Feng could vaguely feel that after he broke through the Nine-Star Conferred God Formation and entered the Xuanhuang Middle Thousand World, life would definitely not be easy.

Maybe it will be a **** storm for a long time.

Before that, let's enjoy it first.

The road ahead is vast and unknown.

In the darkness, dangers are everywhere.

Of course, there are still a few people who know Chen Feng's intentions and what to do next.

It naturally includes Ziyue.

She knows exactly what day it is today.

Ziyue's eyes were filled with dismay, but she didn't say anything to discourage her.

Yingying just smiled, walked to Chen Feng, trimmed his clothes, and said softly:

"Brother Chen Feng, just go, I'll be waiting for you in Longmai Continent."

She paused and looked up at Chen Feng, her eyes full of longing and hope for the future: "Wait for you to come back and pick me up."

However, tears faintly flashed in his eyes.

Thinking of not knowing how long to be separated from Chen Feng on this trip, thinking of the dangers in the future, Chen Feng didn't know how many dangers he would encounter, thinking of this life, he wondered if he could meet again.

There was worry, fear, and sorrow in my heart.

The eye circles were red in an instant.

Chen Feng opened his arms and hugged her into his arms for a long time without speaking.

Then, he stood up straight and rubbed Ziyue's little head vigorously.

"You little guy, why are you crying? You have a little confidence in your brother Chen Feng!"

Ziyue nodded vigorously and forcibly held back the tears welling up.

Chen Feng smiled slightly, and the two opened the door and walked out.

In the hall outside the door, there were only a few people sitting there.

The foremost among them is Mei Wuxia and Tiancun Beast Slave.

[Chapter 4715: underground](#)

And most of them are friends and relatives before Chen Feng.

Among Chen Feng's old relatives and friends, some were killed by Chu Shaoyang, and most of them were captured by him.

Use the colorful poisonous spider trapped to threaten Chen Feng.

And now, all of these people have been rescued by Chen Feng.

There was a dead beast slave, and the spider was extremely docile, so he sucked the poison back obediently.

These days, everyone has been getting along, continuing the feeling of parting in the past.

When Chen Feng came out, everyone stood up and greeted loudly. The atmosphere was very warm.

After that day, they remained in a coma without knowing what happened afterwards.

When the poison of the giant multicolored spider subsided, and there was the mouth of the beast slave, I knew what had happened and I was grateful to Chen Feng.

Because the previous companions were killed by Chu Shaoyang, everyone was very sad.

Later, Chen Feng said that they could be resurrected, and they were relieved.

Chen Feng bowed his hands to the crowd, smiled and said, "Everyone, there are other things below, so I can leave."

"May not come back for a long time, you guys just stay here."

"When Chen Feng returns, maybe it will bring you a great opportunity."

Everyone laughed.

"Chen Feng, just go."

"Now you are so famous, no one in the entire Dragon Vein Continent dared to take us."

"That is, this time you left us a lot of cheats and treasures. I will be busy waiting for the next practice!:

Those who were particularly close to Chen Feng all stepped forward to say goodbye.

Chen Feng planned to put them here, in this Chaoze Tianzi City.

Now, the entire Longmai Continent has been shocked by Chen Feng.

His people stay here, no one dared to move.

Chen Feng now has strong self-confidence and can protect them better than before.

What Chen Feng was going to do, did not tell them.

Apart from Ziyue, only Mei Wuxia and Tianchou Beast Slave knew about it.

Some things, knowing more, are not good for them, and they may get angry.

They only knew that Chen Feng was going to do a big thing, and they were afraid that they would be able to return in three or five years.

It took a full half an hour before Chen Feng bid farewell to everyone and walked out.

In the courtyard, the rain was pouring.

The power around Chen Feng's body revealed that the rain could not fall on them at all.

At this time, beside Chen Feng, only Mei Wuxia, Tianchou Beast Slave and Ziyue were all.

"Okay, come here!"

Chen Feng turned around and smiled: "Wait for my good news here."

None of them were the kind of chirps, they all nodded.

Chen Feng patted the shoulders of the three of them, then turned and left, and walked freely into the mist!

He vaguely felt that this trip might not be so simple, saying that there should not be considerable danger.

So leave everyone here and go alone.

Almost at the same moment.

In the big house where the six hidden sects are quietly entrenched.

At this time, the mansion was already empty.

The mansion has a radius of a hundred acres, and the number of servants, servants, householders, etc., is no more than a thousand people.

It was quiet at this time, and it seemed that everyone had disappeared at the same time.

If it is normal, it will definitely attract the attention of others.

But today, the heavy rain is pouring, but no one can notice.

In front of the hall, there was a thin black figure standing with his back to the door.

He is also the only person in this mansion at this time.

After standing for a long time, he slowly turned around.

This person is the Venerable Giant Whale.

With a somewhat sly look on his skinny face, he raised his eyes to look outside, then turned and walked into the hall.

With a casual wave of his hand, the table of the Eight Immortals in the hall burst open, revealing a hole.

Venerable Giant Whale climbed down the level.

This tunnel is obviously very deep, slanting all the way down.

He walked inside for a full half an hour, I'm afraid he has reached a few kilometers underground.

Later, it was no longer a tunnel dug by hand.

It is a natural cave.

Winding around, all the way to the center of the earth.

Soon, a shallow red light appeared in front of him, and the temperature was getting higher and higher.

It seems to be leading to a place where lava flows underground.

Finally, a door appeared in front of him.

It is hundreds of meters high and closed tightly.

Venerable Giant Whale flicked his fingers, and the door opened with a bang.

In an instant, the endless heat wave surged crazily from the inside out.

Even more intense red light emerged, like a huge volcano bursting out in front of you!

The moment the door opened, it suddenly changed from extreme silence to extreme noise.

Behind the gate, there was a huge space.

There are tens of thousands of meters high, and there are tens of thousands of meters around.

At this time, tens of thousands of people were busy inside, and from time to time someone shouted loudly, commanding something.

There are many warriors carrying precious materials of various colors and so on, and some are sitting cross-legged, instilling strength into the gems of various colors.

Perform their duties.

Although the number of people is extremely large and it may seem chaotic, it is actually methodical.

Seeing Venerable Giant Whale coming over, several leading people came to pay respect.

All are the masters of the six hidden sects and so on.

Obviously, now they are all worshiped by Venerable Giant Whale and listen to his orders.

"How's it going?"

Sect Master Duanmu looked excited, and his voice was trembling: "Everything is ready, and in time for another cup of tea, the last bit of material can be poured into the formation!"

"The formation will be completely completed!"

"At noon today, before the most critical moment arrives, we can do it all!"

Venerable Giant Whale nodded solemnly and looked at everyone: "Everyone, hundreds of thousands of years of accumulation, forbearance, just for today!"

"Don't make any mistakes!"

Everyone suddenly promised.

Venerable Giant Whale waved his hand, and everyone went to busy themselves.

After he entered, the door behind him closed suddenly.

The entire hall is as bright as day, and all sides are carved extremely flat.

The walls are as smooth as a mirror, with numerous reliefs carved on them, and even inlaid with precious gems and jade of various colors.

And it is full of ancient meanings, obviously not built by modern people.

The most conspicuous thing is that there is a huge magic circle above the ground.

This huge magic circle almost filled the entire hall.

Venerable Giant Whale's eyes fell on it, and his eyes immediately became hot, and he took a breath.

"Since the Six Great Hidden Sects discovered you, it took hundreds of thousands of years to collect countless precious materials!"

"Just to fill you up!"

"You, don't let us down!"

"Whether that treasure can be born or not will fall on you!"

His eyes were full of longing.

At this time, tens of thousands of people are also busy on this array.

[Chapter 4716: Evil array!](#)

Some of them re-completed some of the broken lines on the magic circle, while others placed various precious and incomparable materials at the key points of the magic circle.

The whole circle has not been filled yet, but there is already a vaguely terrifying aura inside.

In fact, the reason why the six great hidden sects knew of this huge opportunity once in a million years, knew that there would be a great treasure, and even knew the time when that great treasure was born, was because they discovered this underground palace!

Hundreds of thousands of years ago, the six great hidden sects at the time discovered this place by accident.

At that time, this underground hall was already dilapidated and abandoned for a long time.

And that crucial magic circle has already suffered a lot of damage.

It seems that most of it was blown up.

It seems that this magic circle has been activated once. After this time, not only the circle has been destroyed a lot, but the entire hall is in danger of collapse.

The six hidden sects discovered this place, and after knowing the preciousness of this place, they used countless manpower and material resources.

Restore this formation.

However, to open this magic circle, extremely harsh conditions are required.

For example, a large number of various treasures!

These treasures are both rare and precious, and at the same time extremely scarce on the Dragon Vein Continent.

For example, the debris polished from the horns of a certain seven-star monster emperor...

All these things.

So how many people would die if only to obtain such a material? How much energy is spent?

In fact, the reason why the entire six hidden sects dormant for hundreds of thousands of years is not willingly.

Instead, they put all their energy on collecting all kinds of treasures.

Moreover, they are also afraid that the six hidden sects will continue to occupy the Dragon Vein Continent, and the trees will attract the wind, and then this secret may be discovered by others.

Therefore, simply withdraw from the Dragon Vein Continent.

It can collect treasures without attracting attention.

Just leave a team of elites of various schools to guard here.

Sure enough, no problems occurred in hundreds of thousands of years, and they waited until this most critical day!

In other words, they have been preparing for today for hundreds of thousands of years, and they are all working hard for today's things.

For hundreds of thousands of years, his perseverance is awe-inspiring!

If anyone is quite familiar with Chaoge Tianzi City, they will know that the location here is almost directly below the center of Chaoge Tianzi City.

Chaoge Tianzi City, on the whole, is close to a circle.

And this place is just below the center of this circle.

Moreover, the midpoint of the height of Chaoge Tianzi City from the bottom to the top is also here.

In other words, the location of this huge underground cave, whether it is up, down, left, or right, is the center of Chaoge Tianzi City!

At the time of a cup of tea, the entire circle was filled.

The moment the magic circle was filled, there was a violent tremor.

At this moment, all the lines of the magic circle were bright for a moment.

The whole array is brilliant, and everyone's eyes can't be opened!

Then, Guanghai disappeared again.

Venerable Giant Whale looked at all this with excitement and anticipation.

And many of the six hidden sects, tens of thousands of strong, are also full of excitement!

Time is getting closer!

After another hour!

The whole world seemed to tremble slightly.

Venerable Giant Whale's eyes lighted up, and he laughed loudly: "The hour has come!"

"I am waiting for the day I have been waiting for millions of years, and this moment has finally arrived!"

It turned out that it was noon!

The great opportunity that happens only once in a million years has arrived!

Everyone was extremely excited, and many of them even let out a low growl.

For them, today is of great significance.

The six hidden sects have endured hundreds of thousands of years for this moment!

After today, they will be able to get that peerless treasure, and their strength can be increased crazily!

They can live in the sun again, and they can dominate the Dragon Vein Continent!

Venerable Giant Whale, raised his right hand heavily and fell heavily, roaring all his life: "Bring them all up!"

Everyone responded.

Then, behind everyone, many stone gates were suddenly opened.

One huge prison after another was dragged out.

Each huge prison has a radius of 100 meters, but inside it is actually a lot of warriors and monsters.

These warriors and monster beasts are already in a coma, and they are there.

But they are still alive.

Moreover, the strength of every warrior and monster beast turned out to be very powerful!

Experts in the Martial Emperor Realm and Demon Emperor Realm are everywhere!

Everyone seemed to have been fed a lot of elixir. Although they were unconscious, each one had a red complexion and was full of blood.

The overflowing is almost exploded!

Hundreds of thousands of warriors and powerful monsters were all brought to the edge of that formation, and a large area was crushed in darkness.

The blood and energy are fused together, almost overturning this hall!

I don't know when the Six Great Hidden Sects caught so many warriors and monsters!

Venerable Giant Whale's eyes flashed fiercely, and he screamed: "Throw it!"

"Yes!"

After everyone should be, they opened those huge cages.

Then, those warriors and monsters were directly thrown into the magic circle.

When these warriors and monster beasts, these existences with powerful blood, entered the magic circle.

In an instant, the magic circle felt.

It was like a living creature came alive.

There was an emotion called extreme excitement inside, and it came out suddenly!

The entire magic circle squirmed gently.

Then, countless black smoke appeared on it.

Every black smoke envelops a warrior or monster.

The moment of darkness enveloped these warriors and monsters.

In the next moment, these monsters and warriors turned directly into endless transpiration of blood energy and melted into the black smoke.

Everything about them was absorbed by the black smoke.

In an instant, the black smoke grew countless times.

After absorbing the blood essence of these powerhouses and monster beasts, the black smoke seemed to have spirituality, quickly recovered and returned to that formation.

Quickly blend into it.

In an instant, the lines on the formation were lit up.

A wave of black power traversed through those formations.

The black transpired, and there was a strong blood.

In an instant, the entire huge hall was filled with an extremely strong smell of blood, and it was vomiting.

It turns out that this magic circle can only be opened at the cost of devouring the flesh and soul of countless powerful creatures!

I don't know what a terrifying evil formation it is!

I don't know what evil stuff is sealed inside!

But what they don't know is.

At this moment, outside the Dragon Vessel Continent, above the nine heavens, that huge nine-star Conferred God Array!

[Chapter 4717: The treasure appears!](#)

There was also a slight tremor!

It seems that the power has declined a lot!

Even, many places began to loosen, just like a tight bowstring, which became a little loose at this time.

An old man sitting cross-legged in the formation suddenly shook his whole body, and flames surrounded him.

He raised his head, looked down at the Dragon Vessel Continent below, and whispered softly: "Chen Feng, the hour is here!"

In the underground hall, everyone was looking forward to this scene.

The vitality and vitality of hundreds of thousands of powerful warriors and monster beasts are integrated into it.

Those lines are all lit up for the second time.

This magic circle has countless nodes.

Each node is connected to dozens of striped roads.

And when all the lines connected to a certain node are lit up!

In an instant, this node has a black beam of light, transpiring!

There are countless **** smells surging inside.

Around, there is a huge amount of evil spirits roaring, roaring, ghostly!

One after another black beams of light lit up, bang bang bang, it seemed like a black forest here.

In the end, all the lines are gathered in the center of the magic circle!

But at this moment, all of a sudden, those rays of light stopped there and did not continue to move forward.

Seeing this scene, Venerable Giant Whale trembled all over, and shouted sharply: "What's the matter? What's the matter?"

"Why stopped!"

Sect Master Duanmu also had a gloomy face, and said in a low voice, "I'm afraid, these vitality and blood energy have been exhausted!"

"Why run out?"

Venerable Giant Whale turned his head abruptly: "We calculated so accurately before! Why did we run out?"

Sect Master Duanmu was speechless and was silent.

Venerable Giant Whale is trembling all over, seeing these lines move forward an inch, they can be connected together!

The entire array will be completely opened!

But now, it is here, abruptly stopped!

It fell short!

Seeing, it will fall short!

"What to do? What to do? What to do now?"

"My ancestors' hundreds of thousands of years of accumulation and foundation, and my six hidden sects' efforts of hundreds of thousands of years, should they be ruined?"

"How to do!"

The Venerable Giant Whale muttered to himself there, shaking his hands.

The whole person is like a madman.

He stared at the big formation steadily: "Not enough, not enough! The blood food is not enough!"

Suddenly, he turned his eyes strangely, and his eyes fell on the disciples of the Six Great Hidden Sects.

Suddenly he smiled miserably and muttered to himself: "Isn't there so much blood here?"

"Here, isn't there so much blood to eat, can it be consumed by the magic circle?"

"Why didn't I think of it! There are still them!"

His eyes scanned these tens of thousands:

"My six hidden sects have accumulated hundreds of thousands of years of strength, and all the masters and powerhouses I have cultivated are here!"

"Each of them is powerful, full of blood and tough!"

His gaze moved slowly over the six masters of the hidden sects!

Sect Master Duanmu next to him saw this scene and suddenly understood what he wanted to do.

With an exclamation, he roared in a low voice: "Whale, you are crazy!"

"This is my disciple of the Six Great Hidden Sects, this is our person! Are you going to attack them?"

Venerable Giant Whale Jiejie gave a weird laugh, and stared at Sect Master Duanmu: "They are our disciple disciples, and our lives are all given!"

"Now, it's just taking my life back!"

After that, he suddenly let out a weird laugh, passing the crowd like a black bird.

He grabbed a doorman from the Ten Thousand Beast Islands and threw it into the formation.

The disciple was caught off guard and was struck by a black smoke. Before he even screamed, he was directly dead.

Turned into a black light!

This scene shocked everyone and backed away!

"What did the ancestor do? Is he crazy?"

Venerable Giant Whale grabbed another person and threw it into it.

Then, staring at Sect Master Duanmu with a strange smile: "I throw my disciple, you throw yours!"

"Now I do it! If you don't follow, then the treasure will be born, but you won't have your share!"

Sect Master Duanmu's face changed!

However, after all, he was also a hero, and soon made a decision.

With a loud roar, he also grabbed his disciple and threw it in.

Many top senior masters of the Six Great Hidden Sects gritted their teeth and threw their disciples in one after another.

At this time, they are more ruthless than anyone else.

Others were in an instant mess, screaming endlessly, and begging for mercy, roaring one after another.

These disciples, as soon as they gained a lot of prestige, did not dare to do anything with their senior masters.

Second, even if you do it, you are not an opponent at all.

At this time, he could only evade in a panic, but did not dare to resist.

One after another was thrown in!

In the blink of an eye, hundreds of disciples were thrown into the circle!

At this point, the line finally began to move slowly forward.

Half inch, seven minutes, one inch...

Finally, when all the lines moved forward an inch.

All the lines are connected together instantly!

As a result, with a boom, everyone's eyes were black.

A piece of scorching heat to the extreme, brilliance to the extreme, dark to the extreme, and at the same time the black that was evil to the extreme, suddenly burst in front of everyone!

At the center of the magic circle, a black beam of light flashed out.

The height is a hundred meters, straight into the sky.

There is an incomparable evil inside, as if opening the entrance to hell.

In the next moment, an extremely greedy emotion emerged from it.

In the void, there seemed to be a low roar of the Demon God: "So much fresh blood!"

"So delicious!"

"Ah! I haven't seen it in years..."

The low roar suddenly became louder.

Like a demon, quietly waking up!

"All these fresh blood food, come to me!"

At the next moment, in the eyes of everyone with horror, a huge suction suddenly surged.

It directly covers the whole hall!

The suction power was so great that none of these top powerhouses could resist, they actually flew up and fell into the big formation!

It was directly sucked in by the huge black beam of light in the center!

Not only the ordinary disciples of the sect, but even some of the top sect seniors could not resist.

The shouts, the shouts of despair are endless.

Suddenly, the whole hall was in chaos.

Even when someone was sucked in, they stared at Venerable Whale and others and shouted.

"If it weren't for you, we would not die!"

"I will haunt you even when I turn into a ghost!"

In an instant, tens of thousands of people were sucked in.

In the void, there was a sour chewing sound.

[Chapter 4718: One, hand bone!](#)

The Venerable Whale and the others also changed in amazement, and one after another they used their strongest moves to resist, their feet as if nailed to the ground.

This stabilized his figure slightly.

The huge suction force swept wildly, like a tornado blowing through this hall!

The walls of the main hall collapsed and rocks flew everywhere.

The warriors kept screaming and being sucked in, a mess.

After half an hour, the suction finally became smaller and stopped.

The boulder fell and the dust settled.

The Venerable Whale and the others also saw clearly the situation in front of them.

They found that even the six hidden sect masters had been sucked in.

Only the Venerable Giant Whales survived!

The few people were shocked and looked at each other, but they all saw a bit of excitement and greed in each other's eyes.

The fewer people who survive, the fewer people involved in dividing the treasure.

At this time, it seemed that he was finally full and fully absorbed.

The black beam of light fell silent instead.

However, there is an extremely surging force surging in it.

Just like the silence before a volcano erupts, it makes people fearful!

Venerable Giant Whale and others all instinctively retreated several steps back.

They vaguely felt that the next moment would be extremely dangerous.

This silence did not last long.

After a while, the black beam of light suddenly shrank sharply, shrinking to a height of less than ten feet.

All the light beams on those formation nodes also gathered in its body.

The beam of light in the center of the formation became smaller and smaller, and finally became only about three feet

Although small, it is extremely condensed.

It's as if all the power is shrinking to one point, shrinking and collapsing continuously.

Its power is extremely strong!

The next moment, the black beam of light burst into pieces!

With a huge earthquake, the sky and the earth are cracked!

The entire beam of light was blown up directly.

The incomparably powerful force surged out crazily at this moment, spreading throughout the entire hall!

Spread over a hundred miles, a thousand miles, a thousand miles!

Even spread throughout the huge floating mountain where the Chaoge Tianzi City is located.

Even, spread to all the floating mountains in the surrounding millions of miles!

This insane power is arbitrarily torturing within a huge range!

At this time, if there is a sufficiently powerful warrior who looks outside not far from Chaoge Tianzi City, he can see a huge scene that scares him!

Chaoge Tianzi City, which was originally stable, suspended in the air, suddenly trembled violently!

Then, it was like being dropped by a giant hand!

The incomparably powerful force burst out frantically, centering on Chaoge Tianzi City.

This power was so strong that it had become the essence, and in an instant, the power spread out, covering the floating mountains in a radius of millions of miles.

Boom boom boom...

Affected by this force, countless floating mountains exploded to pieces at the same time, turning into powder.

Dust came out all over the sky and covered the earth.

In the next moment, the Floating Mountain where Chaoge Tianzi City was located was finally overwhelmed, and it broke into several large pieces with a boom!

Chaoge Tianzi City, which has been standing for millions of years in the Dragon Vessel Continent, has experienced many winds, frost, rain and snow, and has never suffered any damage!

At this moment, it broke apart!

The sky fell apart for a while, and finally, the authorities stabilized again, and the Venerable Whale and the others also saw the situation in front of them clearly.

They were originally in the center of the earth, and now there is pouring rain above their heads, plumes like ink!

The floating continent where Chaoge Tianzi City is located has shattered, and the main hall has disappeared!

Only that huge formation was still floating there, undamaged.

At the center of the formation, the black light gradually faded.

In place, there is only one thing floating.

After seeing this thing clearly, the Venerable Giant Whale and others couldn't help but exclaimed.

It turned out that there was a phalanx floating there!

A curved finger bone!

There is one, three sections on the top, twists and turns.

There is no doubt that it is a human finger bone!

There is an incomparable evil, cold and cruel meaning on it, as if it could slaughter everything!

However, the thing with such a breath is as white as jade.

It looks like the most elegant white jade carving, only with a light yellow.

That extreme holiness and extreme evil are mixed together, and it is uncomfortable to see it.

The voice of Sect Master Duanmu trembled: "Is this the treasure we are looking for?"

"It's this thing, it's about the luck of the Longmai Continent? It turned out to be a phalanx?"

Venerable Giant Whale was silent, but suddenly stepped forward, trying to grab the finger bone.

This person didn't talk much, but he was extremely vicious, and he wanted to take this thing as his own.

Sect Master Duanmu and others changed their colors and shouted sharply: "Great whale, dare you!"

At this time, there was also a loud laugh outside the distant sky:

"Venerable Giant Whale, for a long time, I finally saw it today!"

Hearing this, Venerable Giant Whale instantly looked gloomy.

Staring at the sky, he shouted sharply: "Chen Feng, it turned out to be you?"

Above the sky, black clouds broke open.

In the pouring rain, a figure slowly fell.

The green shirt is outstanding, it is Chen Feng.

It turned out that after Chen Feng came here, he followed that tunnel forward.

He broke through countless traps all the way, and just when he was about to reach the gate, a loud noise came.

The entire Tianzi City was directly blown to pieces!

However, for Chen Feng, these explosions naturally had no effect, and he escaped from life if he was lightly and skillfully.

Chen Feng ignored the Venerable Giant Whale and the others, only his eyes fell on that phalanx.

The moment Chen Feng saw this thing, Chen Feng was shocked and his face appeared in a trance.

Seeing this moment of this phalanx, Chen Feng felt that his spirit trembled, and his spirit fell rapidly downward.

As if falling into the **** of endless blood and fire!

In front of him, a scene like **** appeared!

Countless blood, countless corpses, vertical and horizontal Shura slaughterhouses, endless killings, **** aura rising from the sky!

The blood merged into a huge river, and the bones were like woods!

And in this endless **** killing, there was a huge figure standing proudly there!

This is a demon!

A huge demon god!

This ancient Shura field was extremely large, and from a distance, one could see the sun, moon, and stars hanging above the sky.

These sun, moon and stars are all spinning around the waist of this huge demon god.

One can imagine how big this huge demon **** is!

Suddenly, as if feeling Chen Feng's prying eyes!

The huge devil suddenly turned around and looked over!

Suddenly, Chen Feng trembled violently, and with a roar, he woke up instantly!

After a few steps back, with a wow, a mouthful of blood spurted out, and his whole body trembled, and he was seriously injured!

Chen Feng was shocked!

[Chapter 4719: Yin evil hand bones, was surrendered?](#)

"What is the origin of this phalanx?"

"What kind of horror is left behind?"

"Just taking a look, they were all seriously injured?"

But the next moment, Chen Feng's eyes became hot.

He had long known that this thing was the supreme treasure, the condensed of the luck of the dragon vein continent.

But seeing it in person now, the feeling is even more well-deserved!

"This treasure can only be mine, and it must be mine!"

However, Chen Feng is vaguely strange.

"This treasure is the result of the aura of the Longmai Continent, and it is logically a treasure of the aura."

"Such a treasure of luck, in any case, it should be majestic, and the spirit of authenticity is right!"

"Why is this thing so insidious?"

This is too weird!

It's just that now is not the time to think about this, how to get this treasure is the right way.

Chen Feng stared at the evil hand bones, and suddenly frowned, as if he had sensed something.

Then, the corners of the mouth showed a smile.

He stood there with his arms folded, watching the show.

Venerable Giant Whale stared at Chen Feng: "Chen Feng, you really came!"

Chen Feng smiled: "It seems that it's not too late to come."

"Chen Feng, I know that you have been in Tianzi City, and I also know that you have a great covetous heart for this treasure that my six hidden sects want to dig!"

"I even know that you will definitely come to **** today!"

"But, do you know why I seem to be defenseless against you?"

Before Chen Feng could answer, the laughter of the Great Whale Venerable was a bit louder.

"Because I know that this treasure is enough to easily destroy you!"

"Because I know that I can control this treasure!"

As he laughed wildly, his right hand stretched out.

Suddenly, a metal glove appeared on his hand.

This metal glove is completely cast from a faint blue metal, and there is still a lot of nothingness in the metal texture.

If it is looming, it doesn't seem to exist in this world.

The Venerable Whale directly stretched out his hand and slipped the blue glove in.

For an instant, his face was extremely painful, and he looked particularly hideous.

In the next moment, his whole body lost his blood and became extremely pale.

It was like the blood was directly absorbed in an instant!

It turned out that at the moment he brought it into the glove, countless spikes emerged from the glove and plunged into his hand.

In an instant, he almost sucked up his blood.

The Venerable Giant Whale was panting heavily, and it took a long time to relax.

At this time, the gloves had already turned blood red.

Venerable Giant Whale forced himself to resist the severe pain and weakness, slowly stretched out his hand, and shouted wildly: "Return! Come back to me!"

It is strange to say that with his roar, the evil hand bones actually seemed to react.

Floating slowly, without any fluctuations, it fell on the position of his little finger!

Everyone saw that it turned out that the position of the little finger of the metal glove was empty.

It seems to be reserved for this phalanx.

With a light click, Yin Xie's hand bones settled firmly in it.

From beginning to end, Chen Feng did not stop him at all.

On the contrary, it was an expression with a good show, with a little pity in his eyes.

The Yin and Xie hand bones fell into it, and the Venerable Giant Whale laughed triumphantly:

"Since our ancestors knew about this treasure, and since we laid such a big game, we paid such a big price!"

"Do you think we will be unprepared?"

"Tell you, this treasure is now mine!"

He was shaking with excitement and his face flushed.

"With this treasure, you will die today!"

"The nine forces will be easily crushed by me! I can only be the overlord of the Dragon Vein Continent!"

"Furthermore, I can break through the constraints of Emperor Wu realm and reach that unknowable higher realm! Hahahaha..."

The next moment, he suddenly turned around.

The right hand was aimed at Sect Master Duanmu and the others next to him.

Sect Master Duanmu and the others changed their colors: "Whale, what are you doing?"

Venerable Giant Whale laughed: "Of course I killed you!"

"The purpose of your existence is just to take out this treasure for me. Now that the treasure is in hand, what use do you need?"

"Now, let me die!"

So instantly, above the Yinxie's hand bones, there was a black light flashing out.

In an instant, these people were enveloped.

And they didn't even come back to their senses, did not make any resistance at all, and turned directly into fans.

All the blood and vitality in the body were also pulled out!

Entered into that Yin Xie hand bone.

Chen Feng's eyelids twitched: "This thing is terrible!"

He felt that he would be killed directly when he was facing this thing!

Venerable Giant Whale was even more proud, laughing wildly: "Chen Feng, have you seen it! This is the power of this thing!"

"Now, it's your turn to die!"

Chen Feng touched his nose: "It's just that it doesn't seem to want to be driven by you!"

Hearing this, Venerable Giant Whale's face suddenly stiffened.

At this time, he felt that no blood had penetrated into his body.

It turned out that although this Yin Xie hand bone absorbed all the blood and energy of Sect Master Duanmu and others, it was only used by himself.

It was not transmitted into his body.

No matter how you look at it, it doesn't look like it is really for yourself!

Venerable Giant Whale's expression changed, and suddenly, he raised his right hand.

Yin Xie's hand bones pointed at Chen Feng and screamed: "Kill him for me!"

He didn't care about that anymore, he was going to kill Chen Feng first, and then he could study this evil hand bone.

However, this time, this Yin Xie hand bone did not listen to his orders.

Instead, the breath avoided Chen Feng.

It seems that he does not want to be an enemy of Chen Feng.

Venerable Giant Whale urged fiercely again: "Have you heard! Kill him for me!"

With his urging, Yin Xie's hand bones became impatient immediately, and with a swish, they flew out of the metal glove.

Then, he turned his direction and aimed at Venerable Whale.

Venerable Giant Whale suddenly had a face full of horror, and shouted, "What are you going to do? You killed Chen Feng! What are you going to do?"

Chen Feng flicked his finger beside him, and said leisurely:

"With your ability, still want it to take orders? Wake up..."

As soon as the words fell, the evil hand bone slammed into the Venerable Giant Whale.

Venerable Giant Whale screamed frantically, playing all his trump cards, and the metal gloves were also fiercely grabbing at the evil hand bones!

But it's useless!

With a 'pop', the metal gloves were directly smashed by Yin Xie's hand bones!

Then, it was deeply pierced into the body of Venerable Giant Whale.

Venerable Giant Whale suddenly trembled violently.

He stopped for a moment before slowly lowering his head: "Impossible, impossible, why would it kill me?"

[Chapter 4720: Don't escape!](#)

"Why does it do it to me?"

He suddenly let out a crazy and unwilling shout!

"I am not reconciled! I am not reconciled!"

"Our six hidden sects have been planning for hundreds of thousands of years. I have counted everything. Why did it end like this!"

"I'm not reconciled!"

Following his crazy roar, the next moment, his body directly turned into a black smoke.

Then, disappear!

Lord Whale, die!

At this point, the six hidden sects have disappeared!

From top to bottom, it's dead clean.

At this moment, the only thing left in front of Chen Feng was the evil hand bone.

The cloud of lead was overwhelming, and the rain was torrential.

From far away, there was a screaming sound, which seemed remote and empty.

In the huge space in front of him, it seemed that only Chen Feng and this evil hand bone were left!

One person, one thing!

Chen Feng looked at Yinjie's hand bones, and all the power in his body was already quietly surging.

Behind him, the power of the stars is also looming.

Just now, although Chen Feng was at ease, he was already extremely alert in his heart.

This yin and evil hand bone is not only extremely powerful, but also extremely cruel, killing anyone who wants to kill.

Moreover, no one can resist!

Chen Feng knew that he was extremely terrifying, and he also knew that with his own strength, it was extremely possible that he could not be able to stop this evil hand bone!

But Chen Feng's eyes flashed with determination.

Can't stop it, also stop it!

If you can't beat it, you must beat it!

Here is the opportunity to break through the Nine Star Conferred God Formation at the periphery of the Dragon Vein Continent!

Without this, there is no hope!

If you miss today, you will have to wait another million years!

Neither he nor the Dragon Vessel Continent can wait a million years!

However, that yin and evil hand bone didn't seem to be very interested in Chen Feng in front of him.

He quickly turned around, but aimed at a huge mountain range facing the east of Getianzi City.

Chen Feng knew that huge mountain range was named Ziyu Mountain Range.

It is the largest mountain range within a million miles of Chaoge Tianzi City.

It is said that it was formed by a large piece of land falling on the floating continent during the battle between gods and demons.

At the beginning, the gods and demons fought, and the floating continent collapsed.

Most of it turned into Chaoge Tianzi City.

Those bits and pieces turned into floating mountains around Chaoge Tianzi City.

In addition, a large piece, which accounted for 40%, fell to the ground and turned into this purple jade mountain range.

The reason is that it was transformed by the floating continent, and it was contaminated with the extremely powerful aura of gods and demons.

Therefore, the spiritual energy in this purple jade mountain range is extremely huge, vigorous, and extremely chaotic.

Possess the blood of ancient gods and demons, there are countless space cracks and so on.

Crisis is everywhere, but countless extremely powerful monsters have also been nurtured.

The Ziyu Mountain Range is the most dangerous place around Chaoge Tianzi City. When Chen Feng had just walked around Chaoge Tianzi City, he couldn't even enter it.

Here, it is also the first choice for many powerful people in Chaoge Tianzi City to explore various materials.

Now, this evil hand bone is aimed at this purple jade mountain range that is hundreds of thousands of miles long and contains trillions, even tens of trillions of monsters!

In the next moment, Yin Xie's hand bone flew over the Ziyu Mountain Range.

Then, Chen Feng suddenly shrank his pupils, and his eyes showed extreme amazement.

It turned out that he saw when this evil hand bone fell on the Ziyu Mountain.

In an instant, all the trees within a thousand miles around it died!

Chen Feng heard the hobbies of countless monsters before they died.

In the next moment, among the mountains and forests, there were countless dense black qi flying out one after another, and merged into the evil hand bone above the sky.

In the next moment, all the trees, all the monsters, all the trees and all the monster beasts disappeared into fly ash.

Only a piece of rock remains.

It has turned from a lush place to a dead place.

Then, Yin Xie's hand bone continued forward.

Then, the land with a radius of a thousand miles turned into a dead silence!

Its speed is extremely fast, almost in an instant, most of the purple jade mountain range has become a dead place!

Chen Feng's color has changed!

He finally knew why even those geniuses from the Xuanhuang Zhongqian World who joined forces to enter the Dragon Vein Continent would suffer heavy casualties and only one person returned.

This yin and evil hand bone is really terrifying to unimaginable!

In an instant, just an instant, all the creatures in a mountain range of hundreds of thousands of miles long were destroyed!

Inhale all the blood into your body!

In almost half an hour, this Yin Xie hand bone had absorbed the entire Ziyu Mountain Range.

The purple jade mountain range, which is hundreds of thousands of miles long, turned into a dead place and ruins!

Chen Feng looked at this yin and evil hand bone, and his eyes were shocked to the extreme, and there was a hint of trembling!

"What kind of evil thing is this? How vicious and evil is it? How can it have such power?"

In the next moment, this yin and evil hand bone seemed to be still unfinished.

Suddenly the direction was another turn, it was aimed at a certain place.

When Chen Feng saw there, his expression suddenly changed.

After Chaoge Tianzi City collapsed, it turned into several large pieces.

Now, the place where this evil hand bone is aligned is the biggest piece.

There is the main body of Chaoge Tianzi City, and it has not suffered much loss in this overturning explosion.

There are still dense mansions and pavilions on it, at least tens of millions of people live.

Moreover, those old friends of Chen Feng's relatives, Mei Wuxia, Luo Zilan, Win Ziyue, Tianchou Beast Slave... Wait, they are all there!

And in the next moment, they may be directly destroyed by this evil hand bone!

Now, Chen Feng can escape!

I don't know why, but this evil hand bone has no intention of dealing with Chen Feng!

If Chen Feng wants to escape, he can leave!

but!

Chen Feng took a deep breath, a look of determination flashed in his eyes.

The figure flashed, blocking the yin and evil hand bone.

Now, Chen Feng is the strongest in the Dragon Vein Continent.

And his friends and relatives were all there.

In public and private, he is duty-bound!

Chen Feng will never escape!

This evil hand bone seemed unwilling to be an enemy of Chen Feng.

It actually bypassed Chen Feng.

Chen Feng's mind flashed in an instant: "Could it be that I have something that I am afraid of?"

There was a movement in his heart, and his figure flashed, once again blocking the evil hand bone.

Suddenly, on the Yinxie's hand bones, there was an emotion called impatience, which was even more angry.

It seems that it was irritated by Chen Feng!

Yinxie's hand bones aimed at Chen Feng!

And just here, several figures appeared in the distance.

It is Tianchou beast slave, Mei Wuxia and others!

It turned out that they had been waiting very anxiously, and seeing that the sky was turned upside down outside, after all, they were uneasy about Chen Feng, so they looked for it.

Then, I saw Yinxie's hand bones easily slaying Venerable Giant Whale.
