

## Peerless 4741

### [Chapter 4741: Buddha's angry eyes and lion roar: first glimpse of the way!](#)

Chen Feng's face was solemn, and there was a light golden light on his body.

And behind his body, an ancient Buddha phantom also closed his eyes and hung down.

With the golden sutra of Avalokitesvara Bodhisattva, Chen Feng's body is recovering rapidly.

Buddhism practices such as the Golden Sutra of the Great Bodhisattva of Buddhism are far more capable of restoring than others.

At the same time, the mental consciousness of the Buddha's angry lion roar gong flowed through Chen Feng's heart.

This mentality is extremely profound.

It is extremely difficult to comprehend one sentence or two, and it is difficult to understand.

However, Chen Feng did not feel discouraged, studying each word carefully.

I don't know how long it took, suddenly, in Chen Feng's golden spiritual world, the earth was turned upside down, violently shaking!

In the next moment, there are strands, countless golden spiritual powers flying out of his spiritual world.

Then, hovering here.

But no one controls it and it's messy.

But the next moment, Chen Feng's mind sank into it.

Then, the Buddha's mentality of the angry lion roaring power flowed in his mind.

After being manifested into this spiritual world, that mentality actually turned into huge words one after another directly in the sky.

And when the profound meaning of these Buddha's angry eyes and roaring skills appeared here, the situation changed drastically.

When a font fell, there were countless golden mental powers adsorbed on it instantly.

Then, after the font absorbed the golden spiritual power, it turned into a thin purple-white light.

The fonts continued to fall one after another, and countless mental powers were absorbed into it.

One after another purple-white rays of light took shape.

Just as in this golden spiritual world, there is an invisible existence.

Holding a paintbrush, stroke after stroke, outline a general outline.

Finally, the silhouette took shape.

It was a huge lion head!

Of course, it's just a very rough outline, and it can only be seen roughly, without any finesse.

At this point, there are no more words left.

Because the profound meanings that Chen Feng had penetrated are now exhausted.

The rest have not been penetrated yet.

Only words that Chen Feng has penetrated and thoroughly understood can appear here.

But even so, at this time, the purple-white rays of light in the golden spiritual world have already turned into a huge lion head silhouette!

A chuckle appeared at the corner of Chen Feng's mouth.

"Even though this Buddha's angry lion roar technique, I haven't practiced it yet, and I haven't even done it at first.

"But, it has gradually touched a trace of the doorway."

Chen Feng's gaze condensed: "The Buddha's angry eyes, lion roar, the first realm, is the first glimpse!"

"Next, I will enter the first state!"

"The speed is still a bit slow. I think once I enter the world of Xuanhuang, I will have enough power to protect myself."

"And this Buddha's angry lion roar skill, obviously can become a hole card for me, and it will play a role at critical times."

"In this case, we still have to speed up!"

Chen Feng was not very satisfied with the speed of his cultivation.

But if it were to let others know, even those geniuses in the Xuanhuang world would be shocked and speechless.

Powerful cultivation techniques such as the Buddha's Angry Eye Lion Roar Technique, placed in the top sects like Yuxu Immortal Gate, are enough for a true disciple's skill at the bottom of the box.

Even if it is such a super genius, it may take more than ten years or even decades to cultivate!

Only by fine polishing can you feel a trace of the doorway.

However, Chen Feng has achieved such a harvest in just a few days.

The rapid progress is jaw-dropping!

During these few days of digging the passage, Chen Feng has not been idle either.

When I have a little leisure time, I painstakingly practice the Buddha's angry lion roar.

He also progressed extremely fast.

This Buddha's angry eyes, lion roaring technique, there are two points in the practice.

First, how is the basic exercise?

The more basic exercises conform to the Buddhism origin, the faster the practice will be.

The second is mental power.

The stronger the mental power, the faster you can cultivate.

I have to say, Dongji Qingxu God, his eyes are really vicious enough.

At a glance, Chen Feng has great advantages in both aspects.

His spiritual power is extremely powerful, and even more powerful after the golden spiritual world has swallowed those hundreds of thousands of soul-eaters.

Vaguely opening the second floor.

But even if the second floor hadn't been opened yet, his mental power was enough.

Compared to warriors of the same level, or even warriors who surpassed his several realms, Chen Feng's mental power is stronger!

At the same time, because Chen Feng cultivated the Golden Sutra of the Great Bodhisattva of Comprehension and Freedom, it is the highest method of Buddhist cultivation.

Therefore, he used the Golden Scriptures of the Great Bodhisattva Avalokitesvara as the foundation to practice the Buddha's angry eyes and lion roar, which is naturally more effective and extremely fast.

Chen Feng has been walking through the hard soil for three days and three nights.

He felt all the way, and went diagonally upward.

Still white as snow, lightly young.

But there was also unstoppable fatigue between the eyebrows.

For him, this consumption is also extremely huge.

All the way forward, finally, a portal appeared in front of him.

Above the portal, a stone gate.

On the stone gate, there are countless magic circles engraved.

A layer of light dark black power covers it.

If you want to go out, you have to penetrate this circle.

Obviously, this is exactly the Seven Tribulations Formation of Xuansha Soul Punishing Soul laid down by those sects mentioned by Dongji Qingxu God Venerable!

As if perceiving the arrival of Chen Feng, there was strength in the Seven Tribulations Formation of Xuansha's Soul Punishment in an instant.

Then, in the magic circle, one after another soul devourers flew out, reaching nearly a million in an instant.

Furiously rushed towards Chen Feng.

This Xuan Sha Zhu Soul Qi Jue Formation is now a general formation that seals the entire tomb of the East Extreme Qingxu God Venerable.

It was much stronger than the Seven Jues Formation of Xuansha Soul Slaying in a single coffin he faced before.

Therefore, Soul Eater is also several times more numerous.

But if Chen Feng has a golden spiritual world, how can he be afraid?

The more he came, the better, and Quan should add his mental strength.

Chen Feng let out a long laugh: "Good job!"

Chen Feng followed suit.

It was just a cup of tea. These hundreds of thousands of soul-eaters died cleanly in Chen Feng's golden spiritual world.

The golden spiritual world turned these soul-eaters into the purest spiritual power.

In the next moment, the golden spiritual world will absorb these forces.

But at this time, the outline of the huge purple-white lion head suddenly opened its huge mouth and sucked hard.

Suddenly, this infinite original spiritual power was directly absorbed by him.

The spiritual power of these soul-eaters is extremely pure, and the amount of millions of heads is also extremely large.

After being sucked in, an infinite purple-white light burst out in an instant.

Almost in an instant, countless purple-white rays of light emerged.

[Chapter 4742: Embrace the world of Xuanhuang!](#)

Just like that empty brush, it depicts, outlines, and perfects every detail in extreme speed.

Almost in an instant, this purple-white lion head changed from the initial outline of the previous one to extremely delicate.

Lifelike.

A huge lion head with a radius of 100 meters stands tall in Chen Feng's golden spiritual world.

The eyes are full of fierce light and piercing.

Every mane, every detail, is extremely real.

And what surprised Chen Feng most was the power that came from it!

That power is thick and huge.

Chen Feng was shocked by this force.

He raised his head, his eyes were inexplicably blank and majestic: "My Buddha's snarling lion roaring power is already!"

"First look at the doorway!"

The first realm: first glimpse of the way!

After absorbing this enormous spiritual power, Chen Feng's Buddha's angry eyes lion roaring skill directly stepped into the first realm!

Chen Feng withdrew from the golden spiritual world.

He felt that there seemed to be a huge force in his body, about to wake up!

This strength is heavy and steady, but indestructible!

At the same time, it has both the liveliness and flexibility of spiritual power, which is extremely mysterious.

This is the power of the Buddha's angry lion roar!

At this time, he also understood.

The Buddha's angry eyes and lion roar skills are divided into three realms.

First stage, first glimpse of the way!

The second stage, enter the hall!

The third level, perfect!

Every time it crosses a realm, there is an extremely terrifying improvement.

Chen Feng still doesn't know what the effects of the latter two realms are, but now he has a first glimpse of the realm of doorway...

Chen Feng perceives it carefully for a moment, and the corner of his mouth shows a smile: "As long as I shout, and my strength is higher than my three realms, my whole body will instantly become stiff, and I will not be able to control it!"

"The duration is a moment!"

Don't underestimate this moment, this moment is enough to do a lot of things.

Even the distance between life and death, victory and defeat!

One moment is enough to change everything!

Chen Feng almost couldn't help it, so he wanted to experiment.

But he knew that this was not the time.

If you test in this dangerous fairy tomb, you can't say it will cause any accidents.

Chen Feng abruptly held back!

Originally, these spiritual powers were absorbed by the golden spiritual world itself.

Now, it was cut from the middle by the Buddha's angry lion roar.

The golden spiritual world is obviously quite dissatisfied.

A strong anger waved from the depths of the golden spiritual world.

But soon it calmed down again.

The Seven Jues Formation of Xuan Sha Zhu Soul has already dispersed.

Looking at the Shimen in front of him, Chen Feng took a deep breath and threw a punch!

So, in an instant, there was a cold wind blowing in front of you.

In the icy cold, there was unspeakable freshness. .

At this moment, the aura in the cold wind made Chen Feng feel unspeakably refreshed!

It seems that every pore opens up.

In front of him, there was already a ray of light!

Chen Feng trembled all over.

Then, a smile suddenly appeared at the corner of his mouth, his sleeves shook, and he strode out!

At the moment when he came out, Chen Feng stretched out his arms unconsciously and took a deep breath.

Close your eyes and immerse yourself in it.

Chen Feng could feel that in his body, there are 840,000 cells, every one, every place, every minute, every second, they are throbbing with excitement! Cheers!

After a long time, Chen Feng opened his eyes and let out a sigh of breath!

"This is the Xuanhuang World!"

Following his own perception, he vaguely saw that there were so many powers in the air that were like a light veil.

Just knowing that that is the power that belongs to the Xuanhuang Zhongqian World.

He saw that there was an extremely empty and lonely in front of him.

And the sky seems particularly bright.

Although it was nightfall at this time, it was not dark.

Above the sky, there are three big moons moving in the sky!

The moonlight splashed down, and it was uncomfortable.

There are countless stars, shining brightly.

Above the head, there is a huge Tianhe!

The brilliance ran across the sky.

This Tianhe, gorgeous to the extreme, gorgeous to the extreme, but also spectacular to the extreme.

The moment Chen Feng saw it, the whole person was shocked.

After a while, he opened his arms as if to welcome and embrace all this!

His voice was trembling: "This, this is the real star!"

He looked around and repeated: "This is the world of Xuanhuang!"

Chen Feng felt that his body was cheering, extremely happy, and his whole person floating like an immortal.

The whole body is extremely comfortable.

The power above the body, keen to the extreme, is moving rapidly.

The power around the body seems to be cheering, active, jumping for joy, impatient, wanting to pour into my body!

This feeling is so comfortable!

Very abundant, extremely high-level, extremely high-quality, ethereal like a fairy-like aura, rolling around his body!

Chen Feng could feel that this power was similar to the power of stars.

Or to be more precise, the power of the stars faded slightly after entering the Xuanhuang Middle Thousand World, and after it merged with the power of the Xuanhuang Middle Thousand World itself.

A kind of power turned into.

It can be said that it belongs to the Xuanhuang Middle Thousand World, unique, and the power of the stars!

This power is slightly inferior to the power of the stars that Chen Feng absorbed in the Big Dipper Land, but the key is that the number is infinite!

Everywhere!

Everywhere!

Like air, everywhere!

Chen Feng felt as if he had fallen into a sea of spiritual energy.

It's like a person who has been poor for eight lifetimes, and one day suddenly takes revenge!

"This feeling is so cool!"

Chen Feng suddenly laughed, almost couldn't help but explode!

He suddenly yelled!

Without roaring, it is impossible to express Chen Feng's ecstasy and shocking mood at this time!

"If you practice here, how fast? How much can the upper limit be increased?"

"I'm afraid, those warriors above the Martial King realm on the Dragon Vein Continent, if they come here, no matter their talents, cultivation resources, martial arts and techniques, everything will remain the same!"

"At least it can raise many big levels!"

Chen Feng finally truly understood why Fairy Yuheng said that he had no hope of breaking through on the Dragon Vein Continent.

But once you come to the Xuanhuang Zhongqian World, then the absolute breakthrough speed is extremely fast! Advance by leaps and bounds!

Because the aura here is too abundant!

To put it bluntly, the richness of the aura here is even thousands of times that of the Dragon Vein Continent!

Of course, the speed of cultivation is also very different!

Entering the world of Xuanhuang is even stronger than when he enters the top of the sky and feels the power of those stars.

Because, no matter what the top of the sky, it is not a world after all.

No matter how powerful the stars are in Beidou Fortune Land, it is just a valley with a radius of several hundred miles.

[Chapter 4743: The man who walked out of the fairy tomb!](#)

And now, what he embraces is the whole world!

A whole, truly huge world with extremely rich aura!

This world gave Chen Feng an unlimited future.

Chen Feng knew that he would grow up here, rise up, take revenge, and realize his dreams.

In front of him is a sky full of stars, each star is huge, and the light is extremely hot and gorgeous.

Chen Feng felt that the distance from them seemed extremely close.

It seems that if you use your eyesight, you can see the above situation.

Of course, Chen Feng knew that this was his own illusion!

Chen Feng settled his mind and looked around.

But when he saw the situation around him clearly, he was shocked.

Here, it turned out to be an ancient battlefield.

An extremely huge ancient battlefield!

There are huge pits everywhere, and the ground is brown.

The thick blood of evil spirit gushes out.

I don't know how much blood was shed here.

Of course, the time has passed very long, and even the soil has become a deep brown.

Above the ground, there were pits smashed out everywhere, tens of thousands of meters deep.

The huge hills that can almost split the ground...

A ruin!

Among them, there are scattered broken armors, broken swords, collapsed palaces, etc...

In it, the blood and brutal air rushed to the face.

As if there is a remnant soul roaring in the ear!

Chen Feng sighed slightly, remembering what Huang Bird said before:

The Yuxu fairy gate was flattened and the fairy mountain turned into an abyss!

"Here, it must be the Yuxu Fairy Mountain back then!"

Chen Feng looked away.

I saw that there were several towering huge peaks in the distance, standing alone there.

It is like a piece of wood that has been charred after a fire, with smooth and abrupt edges, as if it was split by life!

Chen Feng was shocked: "Those people back then had the power to destroy the world!"

And on this ancient battlefield, the most conspicuous are the huge graves one after another!

At a glance, I'm afraid there are no fewer than hundreds!

Each one has a height of several kilometers.

What's more, the construction is extremely strict, all made of huge hard jade with metallic light.

Before each one, there are trees with tall tombstones.

And whether it was on the tomb or on the huge tombstone, there were many scarlet runes posted.

It looks shocking!

This rune is Chen Feng old, I don't know how many years it has gone through.

At this time, Chen Feng naturally knew.

These huge tombs were built by those who destroyed the Yuxu Immortal Gate.

Naturally, they were not so kind enough to collect corpses for the strong in Yuxu Fairy Gate.

They are just building tombs for these powerful men, and then planting the Seven Definite Forms of Xuansha Soul Punishment in them, completely locking the souls of these powerful men!

Let them never live beyond life!

There is no way to avenge these enemies.

Hundreds of huge tombs were connected together to form an extremely fierce ten-fang Yinsha array, which completely suppressed the Yuxu fairy gate!

Let them have no chance of revenge!

And Chen Feng didn't know yet.

Here, in the mouth of the nearby empires, dynasties, and sects, it is an out-and-out human forbidden zone, a terrifying place!

Legend has it that people who enter this place come back and forth.

Here, it is called: Fairy Tomb!

This is a tomb of immortals!

When Chen Feng saw it, he felt infinite emotion in his heart.

"Yuxu Immortal Sect, to what extent are you jealous of these sects?"

"Even if you don't have a lifetime after you are destroyed, you will still be like this!"

"Just for fear of your resurgence!"

However, he suddenly laughed at himself: "The Yuxu fairy gate is so powerful, you should know Chen Feng!"

"Aren't you just the resurgence of dead ashes?"

Chen Feng turned around and looked around.

I saw the tomb I came out of.

This mausoleum is the largest of all tombs, like a huge mountain of incomparable height.

Its height surpassed other mausoleums by ten times, and it was as tall as the sky.

And the material used is obviously better, it turned out to be made of pure white jade.

Each piece of beautiful jade is carved and square, and it is shining with blue and golden light.

From a distance, the golden light is dazzling and extremely prominent.

And the formation talisman on the top of this fairy tomb has been slightly loosened.

Obviously, it was because Chen Feng broke through the Seven Definite Forms of Xuansha Soul Punishment from the inside.

Next to it, there is a huge tombstone with several fonts as big as a mountain: The Tomb of Dongji Qingxu God!

The pen walks the dragon and snake, as if imprinted on it.

Chen Feng glanced at it and realized that every stroke seemed to be turned into a ray of sword light, severely chopped down!

This handwriting has been written for millions of years. At this time, it still has such power!

It can be seen that this person who writes is also terribly powerful!

And Chen Feng saw a few small characters in the lower right corner of the tombstone.

He didn't know this font, but when the font came into view, Chen Feng knew what it meant.

"Venerable Nati Kaya, handwritten by Yi Simian."

Venerable Nati Kaya!

Chen Feng nodded slowly, keeping the name in his heart.

There was an old monster of this level a million years ago, I don't know how terrifying it is now.

He looked up and looked at the towering mausoleum, with infinite emotion in his heart.

This dazzling is a million years.

Chen Feng filled the soil back into it, and as soon as the soil was filled in, the light of the magic circle flashed by.

Here it is back to normal again, as if no one has ever been here.

Obviously the force of the big formation is at work.

Chen Feng smiled slightly: "This saves me trouble."

At this time, Chen Feng suddenly had an extreme impulse and desire to break through, and it surged!

For an instant, he felt the power surge in his body.

It also draws the huge star power outside!

The extremely strong and powerful force, the feeling of breakthrough, can't be suppressed.

Chen Feng was ecstatic in his heart: "Am I going to break through?"

It is normal to think about it.

He had just arrived here, and his realm was inspired by the huge power of this place, so it was naturally difficult to control.

But this is obviously not a good place for breakthrough.

Chen Feng took a deep look at the tombs that were huge like mountains, and when he turned around, he sank into the endless darkness!

Thousands of miles away, at the edge of the fairy tomb area.

The top of a hidden cliff.

Chen Feng closed his eyes and focused, and the Golden Sutra of the Great Bodhisattva Guan Zizhen was activated instantly.

A faint golden light showed through the surface of its body.

The golden scriptures of the Great Bodhisattva of Avalokitesvara quietly turned.

The shadow of the ancient Buddha suddenly appeared.

The next moment, around Chen Feng's body suddenly turned into a huge whirlpool.

The immense suction power came in an instant, centered on his body, and spread far away.

The endless force is collapsing inward.

[Chapter 4744: Eight-star Emperor Wu! Forty stars!](#)

It seems to form a black hole with huge suction power!

The power of the huge free stars around was absorbed in an instant, and was sucked into it by the huge vortex.

In an instant, there was a crackling sound.

The power of these stars was directly smashed into pieces, turned into the most original power, and absorbed into Chen Feng's body.

Behind Chen Feng, thirty star veins suddenly appeared!

The power of the stars is absorbed by the huge vortex, and then through the Golden Scriptures of the Great Bodhisattva Avalokitesvara, a rudimentary star vein is condensed behind Chen Feng.

This is about to become the thirty-first star vein of Chen Feng.

The huge and incomparable attraction instantly covered the area of thousands of miles.

In the void, the power of stars was drawn one after another, came here, and entered the whirlpool.

They struggled to escape, but how could they escape?

It has been quiet here for millions of years, so they have long lost resistance to the power of terror.

However, Chen Feng didn't know that it was not every place in the Xuanhuang Middle Thousand Worlds where the power of the stars was so dense and huge.

In fact, the concentration of aura in the thousand worlds in Xuanhuang can be compared with this fairy tomb, and there are only a few caves and blessings.

Since this place was once the Yuxu Immortal Mountain, it was originally the land of Zhong Tiandi's spiritual energy.

Secondly, I don't know what the considerations of those sects that destroyed the Yuxu Immortal Gate back then were. For millions of years, other people were prohibited from entering this place.

Therefore, the power of the stars here can only be accumulated and not consumed for millions of years.

It was already huge to unimaginable, and the abyss was as deep as the sea.

Although it is slightly more complicated than the Beidou blessed land on the top of the sky, it can't hold up enough, and it is almost endless!

At a glance, it is endless, let Chen Feng refine it!

Anyway, there is the Golden Sutra of the Great Bodhisattva of Avalokitesvara, and even the power of the noisy stars can be purified!

Suddenly, a star vein formed directly behind Chen Feng!

The sun rises and the moon sets inside, and the stars rise and fall.

It is like a universe, indescribably magnificent.

Then, in the Golden Sutra of the Great Bodhisattva, there was a little golden light splashed out in the scripture, and penetrated into the star veins.

Suddenly, there was a little golden light in this newly condensed star vein.

Like golden stars undulating among them.

With these golden Buddha lights, the power and breath of Chen Feng's star veins instantly increased a lot.

The promoted is stronger and more condensed!

This is the magic of the Golden Sutra of the Bodhisattva Avalokitesvara.

The star veins condensed by the Golden Scriptures of the Great Bodhisattva Avalokitesvara are stronger than the star veins condensed by other warriors.

The thirty-first star vein appears...

Then there is the thirty-second path, the thirty-third path...

After an hour!

With a loud bang, Chen Feng shocked all over, opened his eyes abruptly, and exhaled a foul breath!

In the eyes, the brilliance is inherent.

The body's breath has become more powerful, but it is somewhat restrained.

If you don't perceive it carefully, you will definitely not be able to feel his strength.

It gave people the feeling that he seemed to have taken away his sharp edge and was as gentle as jade.

Behind that calm is as powerful as the waves of the angry sea!

Chen Feng's arms shook, feeling the power surge in his body!

"I, have broken through to the Eight-Star Emperor Wudi!"

Chen Feng has already broken into the realm of the Eight-Star Emperor Wu!

And his true combat power is already comparable to a half-step Star Soul Warrior!

It may even be slightly exceeded!

Of course, you have to try it before you know the details.

At this time, behind him, Chen Feng once again condensed ten star veins!

At this time, the number of his star veins had reached a full forty!

But his forty star veins are at least equivalent to the power of hundreds of other star veins!

After all, every one of his star veins is condensed from the Golden Scriptures of the Bodhisattva Avalokitesvara, which is several times stronger than others' star veins!

After carefully perceiving his current state, Chen Feng slowly exhaled a suffocating breath. This time, the speed was more than twice as fast as before!

And what delighted Chen Feng the most was not a breakthrough.

It's how he felt after breaking through.

Every time he broke through before, Chen Feng felt as if he had come to an end.

It takes a long time to stabilize the state and break through again.

The feeling of exhaustion goes deep into the bones.

But not this time.

This time, after Chen Feng broke through the Eight-Star Martial Emperor, he felt that his strength continued to flow, and his meaning was still unfinished.

It seems that he can break through to the Nine Star Martial Emperor at any time, and then the half-step Martial God!

There is no lag, no pause, and no such extreme fatigue and powerlessness.

To put it bluntly, Chen Feng found that the breakthrough was easier than before.

Chen Feng looked far away, his eyes deep.

"Actually, it was not me that changed, but the surrounding environment changed!"

"This Xuanhuang Zhongqian world has a lot of spiritual energy and there is no ceiling for cultivation."

"In other words, my current cultivation level is just the beginning for Xuanhuang Zhongqian World."

"It's like when I was in the acquired realm, when I was in Qian Yuanzong, it was very easy to break through, even breaking through several realms in a day!"

"The closer you get to the ceiling, the harder it is to break through."

"And now, I'm standing at a starting point again! Naturally fast!"

"Of course, it is impossible to have the same speed in the Houtian realm as in Qian Yuanzong's time, but it must be much faster than before!"

Chen Feng was refreshed, he saw the infinite possibilities in the future!

And it was almost the moment Chen Feng crawled out of this fairy tomb!

Suddenly, the air around his body waved slightly.

This kind of turbulence does not mean that Chen Feng triggered some mechanism.

It is not that Chen Feng has stepped on any trap or that there is any fluctuation that only appeared when he made a mistake.

It's a natural fluctuation.

Because, Chen Feng is not a person of this world!

After he entered this world, it was like a drop of oil dripping into a sea.

Although this drop of oil will be very fast, almost negligible, it will disappear into the invisible in the entire sea, and completely blend into it.

It only takes that moment, and he will be completely integrated into it.

No one can see!

No matter how strong the ancient power is, it will not be discovered.

But the fact is, it is true, at the moment when this drop of oil hit the surface of the water.

In that extremely short moment, for an instant, it still maintained an oily form.

It is completely different from the surrounding water!

After all, Chen Feng, from strength to aura to source and so on, does not belong to the Xuanhuang Zhongqian World!

Therefore, the moment he entered the Xuanhuang Middle Thousand World, there would be so abrupt!

This is abrupt, very small and very weak!

Not to mention that ordinary warriors can't feel it, even the top powerhouse of Yuxu fairy gate like Night Watch can't feel it!

But there are people who can feel it!

[Chapter 4745: Scary old man!](#)

This time the fluctuation was extremely slight.

Even Chen Feng didn't notice it, nor did anyone notice it.

Then, he fell into the vast night, among the stars.

But this time the fluctuation is like a butterfly, gently flapping its wings, quietly spreading to infinite distance.

Spread all the way!

Everyone failed to find out.

But for someone!

This movement is as huge as a storm! Conspicuous!

And at this moment, somewhere far away from this area is unknown.

This is a fairy mountain.

An uncompromising fairy mountain.

It is not floating on the nine heavens, its foundation is still on the earth.

However, its foundation is extremely huge!

I'm afraid there are tens of millions of miles away!

This mountain is also extremely high, towering into the sky.

Its height exceeds tens of thousands of miles.

This mountain is so high that it pierced endless clouds and endless wind.

It makes people feel whether it will directly pierce the Xuanhuang Zhongqian world and come into the void of the universe!

The top of the fairy mountain is surrounded by white clouds.

It is like a fairy residence.

In fact, this is indeed an out-and-out fairy residence.

The mountains are full of all kinds of magical plants, and each kind of plant exudes powerful spiritual fluctuations, and the breath is terrifying.

It is covered with precious fruits of various colors, adorned with all kinds of heaven, spirit and earth treasures.

There are springs everywhere in the mountains.

Every mouthful of spring water is filled with extremely huge spiritual energy.

This is not simply water, but a source of strength after another.

Between the hills and gully, among the dense forests and hundreds of flowers, from time to time, colorful and colorful fairy beasts fly up.

In the dense forest, various beasts roared and roared.

A white crane about a hundred meters in size, with a white feather and a vermilion beak, is extremely handsome.

There are naturally countless ancient lines on the wings, and they gather into a huge totem of the fate of the mysterious bird, which landed from above the nine heavens and issued a crisp cry that shook the sky.

A fairy mountain!

And halfway through this huge mountain, there is a huge ocean.

The blue waves are mighty, turbulent, and extremely magnificent.

The whole ocean is floating above the sky.

And just the height of the fairy mountain above this ocean has reached tens of thousands of miles.

Above the ocean, above the main body of the fairy mountain, there is a palace at intervals.

Or sit on a separate mountain peak, or sit beside the valley, beside the cliff.

The scenery is beautiful.

The area surrounding each palace is extremely large, and the surrounding valleys and lakes are all-encompassing.

The higher the palace, the more magnificent and gorgeous.

Above the sky, from time to time I see immortal cultivators passing through the sky, with a strong aura, like splitting the sky!

The highest point of this entire fairy mountain seems to have reached a height beyond the sky!

The height here has reached a limit, almost beyond human imagination.

Standing here, it seems that the stars in the sky are within reach.

The surrounding scenery does not seem to be in this mysterious and yellow world, but in the void of the universe!

Being here, a barren and lonely.

At the top of the mountain, there is only a lone boulder with a radius of about 100 meters.

It looked like a huge egg.

On the boulder, there is a small cottage.

This straw stove, but three rooms, is extremely simple.

It looks like it was built by people with hundred-year-old bamboo, but it shows some ingenuity in its simplicity.

There are clear and shallow green grass around the Cao Lu, with a radius of ten feet.

There are several clusters of bamboo, swaying in the wind.

There is nothing else.

It is in sharp contrast with the luxurious and magnificent palaces down the mountain.

But this cottage stands at the top of the fairy mountain!

It's more like standing in the void of the universe.

It is not only obvious, but it also blends with the surrounding environment.

Around the Caolu, there was a faint cyan mist that kept lingering.

The cyan mist is not the power of the stars, but seems to be stronger than the power of the stars, with a touch of fairy aura.

At the moment when Chen Feng stepped out of the tomb of Dongji Qingxu God!

In the grass cottage, there was a presence, and suddenly opened his eyes.

There was nothing in this cottage.

Only in the middle, there is an old man sitting cross-legged.

The elderly cannot see their age or even their faces.

There seemed to be countless faces flashing past his face.

Just wearing a linen robe, floating there quietly.

And around him, the whole world seemed to stop moving.

In that time and space, here, the rules have even changed slightly.

And if you take a closer look at him, you will find that he does not seem to exist in this world.

All power, all time and space, began to change around him!

That feeling makes people feel extremely uncomfortable.

It seems that here, the rules of the familiar world before him are completely useless!

The sky may not be above, and the earth may not be below.

The water does not necessarily flow down, and the heavy rain does not necessarily fall from the sky.

Even time is not necessarily directed towards flowing...

Strange, uncomfortable, but extremely powerful!

But at this time, this powerful and terrifying old man couldn't help but twitched!

A look of surprise appeared in his eyes, and he suddenly snarled: "Where is the ruins of the Yuxu Immortal Gate, there is something abnormal?"

If it were seen by his disciples, he would definitely be shocked!

This old man has no idea how many years he has not had such an expression!

In their eyes, the ancestor of the sect, the top powerhouse with terrifying strength, has never been in a hurry.

As if nothing can start the waves in his heart!

But if what the old man said out of his mouth, they would be even more shocked if they heard it!

The ruins of Yuxu Immortal Gate are more than a hundred million miles away from here?

Moreover, it has been annihilated for a million years!

What happened there was shocking enough.

But what is even more shocking is that the ancestors could sense it so far away!

In the next moment, he will be back to the original.

However, when the palm of his hand turned, a roll of bamboo slips appeared.

This roll of bamboo slips has been damaged in many places, and some places have decayed and are almost broken.

I don't know how many years have passed.

The old man slowly unfolded the ancient bamboo roll with both hands.

Although his face was as usual, his hands were trembling slightly, showing how agitated his emotions are now.

But when the bamboo slip was unfolded, there was nothing on it!

A cold color flashed in the old man's eyes: "Is it a variable that I didn't expect?"

The next moment, the old man suddenly let out a low growl, and a mouthful of blood spurted out!

In that blood, there is actually a shining star! The sun rises and the moon sets! White Rabbit Ascends!

It seems that the entire universe is contained in it!

And this is just a bite of his blood!

When the blood was spilled on it, the bamboo slips, which were originally blank, finally changed!

[Chapter 4746: Hunt down!](#)

Above, the blood condensed, and it actually slowly condensed into two tiny ancient seals!

The old man stared at the bamboo slips for a long time.

Then, he slowly read out the two characters on the bamboo slip: "Chen Feng!"

"Chen Feng!"

He chanted the name carefully.

There was a strange flash in his eyes!

He closed his eyes and pondered for a long time.

Then, suddenly his finger flicked a bell hanging next to him.

This clock is about half a person tall.

The whole body was shining with colorful divine light, and the finger tapped lightly on it, and no sound came out.

But there was an invisible fluctuation quietly diffused.

But after a while, suddenly the door creaked and was opened.

In this space, a black robe middle-aged appeared.

The middle-aged in the black robe came closer and whispered, "Master, what's your order?"

The old man Mai said a few words in a low voice.

The face of the middle-aged black robe showed a strange color that could not be concealed, but did not ask much.

He just said in a deep voice, "The disciple will do it now!"

The old man Mai said in a faint voice: "Don't go there for those who are too strong in the sect, and even those who have shown faces among outstanding disciples."

The middle-aged black robe was taken aback when he heard the words.

But he was a very clever man, and he understood in an instant.

Slowly lowered his head, and said softly, "Master, don't worry, there is an excellent candidate for the disciple."

"This person is not very old, but about one hundred and thirty, but the origin is quite complicated."

"I used to stay in a few small sects, but later went out of the sect, and destroyed those small sects and became a casual repairer, which caused a lot of trouble."

"Later, he was accepted by one of the disciple's grandsons, brought back, and accepted as a servant."

"Recover, the other sect forces don't even know that he is ours now."

"According to what you said, Master, Chen Feng's strength should not be very strong either."

"He will deal with it, enough!"

"Should not let any other sects, judge any clues from this."

The old man in Mai nodded: "You have always been careful, I'm relieved."

He then dropped his eyelids and stopped talking.

The middle-aged black robe understood and resigned respectfully.

However, when he came out, his face was full of shock.

He saw the bamboo slip and the writing on the bamboo slip.

He followed the old man in sackcloth for thousands of years, and he knew what the bamboo slips meant to Master!

I also know how much it will cost Master to do so!

There may not be many things that can make this old man pay such a price!

And he was willing to pay such a price, only for this name!

It can be seen how important he is!

What a prudent!

"This matter is so important, there must be no difference!"

Soon, the middle-aged black robe returned to his luxurious and magnificent hall and issued several orders.

After a while, there was a figure eagerly entering his space.

But an hour later, a figure cut through the sky and left this fairy mountain.

Going far away.

When this figure jumped out of the sky, suddenly, there were countless flame powers in the sky condensing instantly!

A huge sea of flames with a radius of thousands of miles was formed directly in the air!

And in the ocean of flames, there are still strands of cold and black air!

Then, the power of flame turned into a behemoth of flame.

The body length reaches a hundred li, it is extremely impressive and spectacular!

Hovering above the void, it is shining with power that destroys the sky and the earth!

Then, the figure laughed wildly, and his figure flashed into the flame behemoth.

The flame behemoth shook its head and waved its tail, turned around, and flew towards the distance!

The aura on this figure is extremely powerful, even hotter and overbearing.

The turmoil was very loud, but on this fairy mountain, no one paid any attention.

Because of such things, I don't know how long it will take place here every day.

In fact, his level of strength is nothing at all above the fairy mountain, and it can almost only be regarded as just getting started.

Many people read it as a joke, and don't even bother to care about it.

Before, the night watchman had said that Chen Feng entering the world of Xuanhuang Zhongqian might be perceived by the power of the world of Xuanhuang Zhongqian.

But at this time, it seemed that the situation was much worse than Chen Feng and the Night Watch had expected.

In front of this ancient power, the word Chen Feng appeared on this and the ancient bamboo slips!

This means that he not only knows that the remnants of the Yuxu Immortal Gate reappear in the Xuanhuang Zhongqian World!

I also know that this person is named Chen Feng!

Even sending someone to find it! Hunt down!

As the sun sets, two huge suns hang in the west.

These two big days are hard to separate.

The distance between the two is extremely close, and the light shines, especially bright.

On a huge wasteland, a figure is racing forward.

Dressed upright in white, calm and unhurried.

It is Chen Feng.

This is already the sixth day since Chen Feng left the ruins of Yuxu Immortal Gate.

Chen Feng has been here for the past six days.

And the more you move forward, the more emotion is in your heart.

It turned out that he discovered that the original battle between Yuxu Immortal Gate and other sects a million years ago had a huge impact, and almost a radius of one million li was beaten.

There are powerful forces left over everywhere.

Moreover, perhaps because this is the ruins of the Yuxu Immortal Gate, many very powerful forces remained in the war of the year.

There are a lot of space cracks appearing.

There are also very dangerous areas, densely scattered around.

Generally speaking, this extremely dangerous area will be extremely attractive to warriors.

Because generally extreme danger is accompanied by great gains.

Dangerous areas, there must be reasons, most of them have all kinds of exotic treasures, as well as the relics of seniors and so on.

However, the dangerous zone in the ruins of Yuxu Immortal Gate was just the opposite.

After being beaten up here, and before the big sects retreated, they had already taken away all the benefits they could get.

Therefore, there is no benefit at all.

At first, after the war subsided, not long after, some people came here to search with all kinds of thoughts.

As a result, nothing was gained except to take his life.

As time passed, everyone knew the reputation of this place, and no one would come here.

Therefore, Chen Feng came all the way, but did not encounter any figure at all.

For six days, Chen Feng finally came to the edge of this war zone.

After coming here, Chen Feng finally saw a touch of bleak green.

Various plants have begun to appear here.

It's just that, under the influence of those residual powers, one by one, it is distorted and twisted, which is very strange.

The grass on the ground is also half dead.

Chen Feng also tried to fly faster, but he soon discovered that the Xuanhuang Zhongqian World was indeed different from the Dragon Vein Continent.

#### [Chapter 4747: Encounter! Da Chu!](#)

The aura here is too rich, the concentration is too high, and the world is too big.

Therefore, what is brought is that the suction power of this world is very large.

The pressure on the sky is also very high.

Chen Feng found that he was above the sky, first, not flying high, and second, not fast.

And it's easy to notice.

Therefore, he simply walked above the ground honestly.

After walking forward for another half day, Chen Feng suddenly felt the ground tremble slightly.

He raised his brows and looked back.

The next moment, I saw a huge team approaching here behind him.

It seems slow, but in fact it is extremely fast.

That team hasn't arrived yet, but it already has a strong breath.

In the team, there are more than a dozen quite powerful auras very obvious.

As soon as Chen Feng perceives it, he perceives clearly.

The dozens of powerful auras were between the seven-star Wudi and the nine-star Wudi.

The strongest is probably around the early stage of Emperor Wu Xing.

Chen Feng naturally didn't care about this strength.

He was able to clean up these dozens of powerful people together.

However, when Chen Feng first came here, he was unfamiliar with the place of life and was unwilling to cause trouble.

Moreover, even if he wanted to inquire about the news now, he wouldn't be looking for such a brigade.

Instead, he would go to a certain city and take a closer look in the restaurant.

Or simply grab a personal question.

Therefore, seeing these teams coming, and there were obviously many strong players inside, Chen Feng went aside and prepared to let this team pass first.

Soon, that team was here.

There were about a hundred people on and off, of which more than 70 or 80 were cavalry wearing uniform armor.

Their strengths vary, but the weakest is Samsung Wudi.

The highest one is reaching the Six-Star Martial Emperor, who seems to be a strong under the command of some powerful force.

All of them were wearing red heavy armor, and they were as hot and bright as the sunset in the distance, unspeakably brilliant.

On top of the heavy armor, a powerful magic circle is also drawn, and from time to time, powerful stars are drawn into it.

Then, it turned into red light and enveloped them all.

Chen Feng felt that every pair of heavy armor here was not weaker than the armor that Xiahou Jiuyuan wore before, which was known as the armor of the God of War, and its defense force was known as the unparalleled dragon vein continent!

The most conspicuous was the monster they were riding.

What everyone rides is a kind of red flame giant rhinoceros.

This red flame giant rhinoceros is about five meters long and three meters high.

And they were all monsters in the Demon Emperor Realm.

Compared with the monster emperors on the Dragon Vein Continent, they were much smaller.

However, the strength is extremely condensed, and all of them are shrunk in their bodies.

Every gesture has a destructive and powerful force.

After coming here, Chen Feng also discovered that the demon emperor of the Xuanhuang Zhongqian World was not that big.

The Dragon Vein Continent often has huge monsters.

Because it's not so huge, it can't contain the huge amount of power in the body like the sea.

In the Xuanhuang Zhongqian World, the aura is particularly condensed, and the physical strength of the martial artist and the monster beast has greatly increased.

Therefore, it does not need to be so huge to accommodate powerful forces.

Although the size has shrunk, it is extremely condensed, and every inch of musculoskeletal has a terrifying power!

Under the same size, the monster beasts in the Xuanhuang Middle Thousand Worlds are more than ten thousand times stronger than the monster beasts in the Dragon Vein Continent?

To put it bluntly, those on the Dragon Vein Continent are big but big and unreasonable.

The body of these red flame giant rhinoceros is also covered with red armor.

Each knight looks like a moving red metal fortress.

And these red flame giant rhinoceros are racing at speed.

But what is shocking is that these hundreds of red flame giant rhinoceros are racing at speed, without any chaos in their footsteps.

Every step, every foot lift, is neat and uniform.

Obviously, discipline is strict.

Among the crowd was a black flag.

The flagpole made of red metal shone coldly, and on the huge triangular moire war flag with a radius of 100 meters, two characters were written: Da Chu!

Obviously, they all belonged to a force called Da Chu.

"I just don't know what level this great Chu is."

"It sounds like an empire or dynasty, but I think it's not the same level as the Yuxu fairy gate."

"Before, Yellow Bird never mentioned it."

Their monster mounts are all unified.

These monster emperors are strong and weak.

But all belong to the same ethnic group!

what does this mean?

It means that it is a very normal thing for the monster emperor and even the more powerful monsters to be domesticated and domesticated on a large scale in the Xuanhuang Middle Thousand Worlds! ,

Chen Feng took a deep breath, his heart surging.

The curtain of Xuanhuang Zhongqian World was quietly opened to him.

This opened up made Chen Feng very happy!

"Xuanhuang Zhongqian World is worthy of being Zhongqian World."

"In a random team, the hundreds of powerful people in it are all in the invincible state, and the mounts are all demon emperors, and it looks like a large-scale collective domestication."

"Very docile, this force alone can become one of the nine forces on the Dragon Vein Continent."

"Even, no more than the God of War Palace!"

And this was just a small team that Chen Feng encountered after entering the Xuanhuang Zhongqian World!

Like this, I don't know how many in this world!

Say tens of billions, hundreds of billions, are all small!

In the center of this team, there is a monster like a green earth dragon.

The monster beast is fifty meters long, and its strength has reached the eight-star monster emperor, comparable to the nine-star Wudi.

On the monster beast's body, there was a small three-story building that looked like a ruby carving.

Enough to hold dozens of people.

Vaguely, Chen Feng saw that on the pavilion, there seemed to be someone leaning on a railing to look away.

Beside this cyan earth dragon, there are a dozen knights.

He didn't wear a standard armor, but dressed in various costumes, and the monsters he rode were different.

Those with the lowest aura are also in Qixing Wudi.

The powerful aura that Chen Feng had sensed before, thought it was them.

Chen Feng even saw that behind the cyan dragon, there were dozens of giant blue oxen.

Behind every giant green bull is pulling a giant metal cart.

The above is sealed tightly, and I don't know what treasure is inside.

But Chen Feng could feel an extremely precious and terrifying breath from it.

Obviously, absolutely extraordinary.

The red red flame giant rhino cavalry in front had naturally seen Chen Feng.

Their cold and indifferent gaze swept across Chen Feng's face, but there was no response.

Then, they galloped past.

[Chapter 4748: Take me to Liwei?](#)

Seeing that this team will soon pass by Chen Feng.

However, Chen Feng did not want to cause trouble, but trouble would come to him.

Behind him suddenly a loud and arrogant shout: "You untouchable, haven't you seen us coming?"

"Dare to stand in the way here? Get out of here!"

Chen Feng suddenly turned around and saw that a knight was covered in purple metal armor.

Only his face was revealed, and it seemed that he was young, about twenty years old.

His face was full of flesh, arrogant and arrogant.

Behind the heavy armor, two huge wings were created, complicated and gorgeous, but they looked indescribably pompous.

Add up to a height of seven or eight meters.

Chen Feng had clearly stepped aside, but he still came straight at Chen Feng.

Obviously it is deliberately looking for something and provoking!

Chen Feng really didn't want to cause trouble, so he sighed softly and stepped aside.

Chen Feng stepped aside, and the arrogant young man let out a burst of laughter.

He glanced at Chen Feng.

Chen Feng's white clothes were chic, and he became shabby and humble in his eyes.

Suddenly, the look in that eyes became particularly contemptuous.

He thought he had seen Chen Feng's identity: just an ordinary pariah.

Chen Feng has already recognized it once.

However, this person hasn't finished yet, raised his chin and sternly shouted:

"You untouchable, not only didn't you kneel when you saw my Princess Da Chu, but you dare to block the way?"

"Really so brave!"

At this time, the team also stopped and looked over here.

There were about seven or eight, a small group of red, heavy-armored and red-flaming giant rhino knights, mobilizing their mounts to move forward.

Obviously, they are quite familiar with this arrogant young man.

In other words, they are all under the jurisdiction of this arrogant young man, so they all treat him very much.

One of the great rhino knights looked at Chen Feng, his face was full of contempt: "This countryman is humble and has never seen a big man."

"Presumably, you were scared to be stupid by Lord Shizi just now!"

"Yes, Lord Shizi, you are so strong. In the collision just now, you could almost smash a mountain. It is normal for this kid to be frightened!"

That arrogant young man was actually the uncle Wu Yang of this great Chu.

Hearing their compliments, he laughed proudly.

Princess Da Chu!

Uncle Wuyang!

When Chen Feng heard this, he was taken aback for a moment, and then a playful smile appeared at the corner of his mouth. He probably guessed something.

"I want to come, this uncle Wuyang, should he be interested in this princess Chu?"

"At this time, deliberately show yourself in front of the beautiful woman."

"Want to rely on suppressing me, holding it to be prestigious? Fortunately, in front of a beautiful woman, more face?"

Chen Feng looked at Wuyang Bo Shizi with indifferent eyes, like watching a joke.

This Wuyang Bo Shizi was nothing more than Qixing Wudi.

Among the dozen people other than these red heavy cavalry, the strength is the lowest.

With such strength, Chen Feng was crushed to death with a single finger.

And he is still here to show off his might, threatening to clean up himself?

Still want to rise by stepping on yourself?

How ridiculous!

The look in Chen Feng's eyes made Wuyang Bo Shizi very uncomfortable.

A stern look turned: "You untouchable, what do you look at?"

"Presumably your Excellency, among those people are bullied every day, right?"

"So, I just want to take it down to earn some face? Save some face?"

Chen Feng said with a smile but a smile.

As soon as this remark came out, Wuyang Bo Shizi was taken aback for a moment, and then his face turned red in an instant!

Suddenly furious!

A crazy yell: "You untouchable, I've abolished you!"

Chen Feng's words were hitting his sore spot, making him angry!

The spear in his hand slammed into Chen Feng's knee.

Obviously, he would break his legs and force him to kneel down!

The six or seven-meter long spear, as thick as a human arm, shone with a bright blue light, and was extremely hard.

Above it, even more powerful force is contained, as if it can directly interrupt Chen Feng's leg!

There were cruel smiles on the faces of the giant rhino cavalry around.

A cold color flashed in Chen Feng's eyes.

He didn't want to cause trouble, it didn't mean that Chen Feng was afraid of trouble.

This team is not enough for him to clean up.

How could he put these people in his eyes?

Since this uncle Wuyang was so provocative, Chen Feng didn't mind teaching him a lesson!

"You want to break my leg, right? Okay, then I will break your bones!"

In the next moment, Chen Feng will shoot!

But at this moment, suddenly, a voice suddenly came from the blue earth dragon in the distance.

"Wait!"

The next moment, a big earthquake trembled.

The cyan earth dragon galloped toward this side, and in a blink of an eye it came close.

The strong men who had originally protected the cyan earth dragon also rushed over.

Although these people have different strengths, their mounts and battle armors are also different, but behind each of them are several family members who are dressed almost the same.

And in the hands of a certain family, it is bound to hold a big banner.

On the banner, large characters are written, or a complicated and gorgeous badge.

Obviously, this symbolizes their family and origin.

Each of these seven or eight people is from a different family.

But it can be seen that they are all quite prominent, and they are obviously from famous families.

Chen Feng saw that they were generally not too old.

Then contact the so-called Princess Da Chu who is surrounded by everyone, then Chen Feng has already guessed something.

At this time, those famous family members, looking at Wuyang Bo Shizi, were all bloodthirsty.

When looking at Chen Feng, his face was indifferent.

Whether he is dead or alive, it is not worthy of them to see more.

Above the cyan earth dragon, on the second floor of the pavilion, the door was pushed open with a creak.

A Tsing Yi maid walked out.

But she was a girl who looked only seventeen or eighteen years old, tall and very cold looking.

She looked at Chen Feng first, smiled and said, "My lord of the county wants to ask, what do you call the son?"

Chen Feng said lightly: "Yan Changfeng."

The Tsing Yi maid nodded with a smile.

His eyes turned to Wuyang Bo Shizi again, and said leisurely:

"The lord of the princess has an order, Mr. Wuyang, if you still have such a troublesome temper, then go back to the capital of the Great Chu by yourself now."

"Otherwise, you will die there."

"Wu Yang is over three hundred years old, and you are the only one, if you die there, I can't afford it."

The words of the maid in Tsing Yi were obviously accusing Wuyang Bo Shizi of causing trouble.

Suddenly, those aristocratic children made a low laugh.

Uncle Wuyang's face was flushed.

His lips trembled for a long time, unable to say a word, but after all, he dared not talk back.

Holding a fist and saluting: "Thank you, the lord of the princess, for his teaching, I won't dare to go after!"

#### [Chapter 4749: Come, drink!](#)

The Maid of Tsing Yi didn't answer the question, just glanced at him.

He said again: "As for the word untouchable..."

"The princess of my family said, you Wuyang Bofu were also untouchables three thousand years ago."

"But after a big battle, Uncle Wu Yang was sealed, and he kept calling others a bitch, and he didn't take a pee to show himself as something!"

When the voice fell, all the children of the aristocratic family around him burst into laughter.

Even some of the red red flame giant rhino cavalry can't help but laugh.

The laughter came one after another.

Uncle Wuyang was stupid.

In an instant, his face swelled like pig liver.

Then, there was a sigh, pale.

He was shaking all over, his face was extremely ugly.

There is no doubt that this is humiliation!

A huge humiliation!

The Lord Princess is in front of everyone, humiliating him!

What he said was extremely ugly, and made him completely disconcerted!

The laughter around him made him want to find a place to get in.

It's just that those family members are stronger than him and their status is not inferior to him, but he dare not attack at all.

A playful smile appeared at the corner of Chen Feng's mouth: "This princess, your words are cruel!"

Then, the maid of Tsing Yi turned to Chen Feng again and smiled and said: "My lord of the princess also said."

"This Young Master Yan, since we met, we are destined."

"It's also quite dangerous here, why don't you be as good as the son and me?"

Chen Feng's heart moved.

They are obviously local natives of Xuanhuang Zhongqian World, and their status is not low, and their strength is also quite strong.

Presumably, I know a lot.

"If I can follow them all the way, it will be of great help to me, and I can know a lot of news."

Chen Feng nodded: "Okay, then thank you very much."

However, Chen Feng naturally would not get news from them in vain.

Give them some benefits afterwards.

Uncle Wuyang roared fiercely, pushed away from the crowd, and then went out.

He has no face to stay here any longer.

At least now there is no face.

When passing by Chen Feng, he suddenly got a hideous face and shouted sharply: "You untouchable, why are you laughing?"

He didn't dare to have a fight with others, but sent his anger to Chen Feng.

In his opinion, this Yan Changfeng is the softest persimmon.

Chen Feng let out a chuckling, and Li didn't bother to care about him, and it made him extremely angry.

Uncle Wuyang's voice was low and gloomy: "Untouchables, you wait for me, don't think that the princess is protecting you, I can't do anything to you."

The Tsing Yi maid suddenly said, "Master Yan, the hostess invites you to come over, she wants to see you."

After hearing this sentence, the faces of those aristocratic children instantly changed.

Before, they were all joking and mocking.

A look of lively expression.

They were all watching Wuyang Bo Shizi's jokes.

As for Chen Feng, they did not take it seriously.

I just felt that it was the princess lord who was on a whim, and he was kind enough today, so he just presided over justice for him.

In his bones, this person is still a pariah.

Although he can appear here, he should have some strength.

They all think so.

But at this time, the lord of the county was going to summon him.

Then this thing is not right at once.

Suddenly, many people have speculations in their hearts:

"Could it be that there is something special about this kid that we can't see?"

"Could it be that the Lord Princess is interested in him?"

The expressions they looked at Chen Feng changed.

With unspeakable jealousy, coldness, and viciousness!

Many people are also secretly wondering how to deal with this untouchable.

All the way, the princess has lived in a simple way, and they have not been able to see a few sides.

But this kid has the opportunity to be alone with the princess today!

Only one of them has deep and thoughtful eyes, not as hostile as the others, but plain eyes.

This person is not so handsome, his face is fair, and he is quite majestic and calm.

There is a breath of Shen as a mountain.

There are the most people around him, and everyone is quite respectful to him, obviously the highest position.

This person is the strongest, and it is the only nine-star martial emperor Chen Feng has sensed before!

Chen Feng nodded, following the maid in Tsing Yi, calmly stepping into the small building.

On the second floor, it was a small hall.

The area is not large, but it is quite delicate, with a fragrant fragrance that lingers in it.

The materials used are all extremely precious, and even more elegant.

It is not a simple stacking of such vulgar objects.

If someone else can set foot in this noble lady's scented boudoir, I'm afraid they will be nervous and speechless.

Chen Feng was very indifferent.

He has seen the big scene, what is this?

Suddenly, a voice above his head that was as crisp as an oriole screamed: "I'm on the third floor."

Chen Feng smiled, shook his head, and walked up.

And he just walked out of the stairs, and suddenly there was an extra arm in front of him.

There was an amber luminous cup between the slender and white fingers, and there was a \*\*\*\* wine in it.

"Come on, drink."

Chen Feng couldn't help but stunned, then smiled and looked forward.

The third floor is not big, and after the railing, there is a window next to it.

At this time, there is a small table by the window, and a few side dishes on the small table.

Beside the little boy, there was a person drinking alone.

This woman was wearing an extremely complicated and gorgeous gown.

The robe is all black, but it is inlaid with various precious treasures into gorgeous and complicated patterns, which looks extremely solemn and solemn.

The back of the robe dragged far behind.

Only at this time, the gorgeous robe was turned upside-down by her, and it was wrapped around her waist twice.

As if afraid of trouble, he tied a knot, showing two big long legs.

This woman is tall, beautiful in appearance, proud, and even more heroic.

At this time, her face was a little dizzy, her eyes were a little blurred, and she obviously drank a lot.

At this moment, she was holding the wine glass in her left hand to Chen Feng.

Looking at Chen Feng, with a smile, his hand moved forward again.

Chen Feng bowed his head.

The wine was as red as blood and quite viscous.

There was a little golden color in it, and a rich fragrance came in instantly.

Chen Feng felt that there was a tremendous amount of power in it.

He closed his eyes and sniffed gently.

Suddenly, the sound of aura tide rang in the ear, as if this is not a glass of wine in front of him, but a sea of aura!

Chen Feng smiled slightly, took the wine glass without hesitation, and drank it in one gulp.

No matter how strong it is, with Chen Feng's current cultivation base, even drinking for ten days and ten nights, and drinking a lake, may not be drunk.

But when the glass of wine fell into the throat, it turned into a line of fire and fell into the belly.

Chen Feng suddenly felt as if a volcano had erupted in his stomach.

[Chapter 4750: Li Qinghan!](#)

Endless, fierce bursting power swept wildly in his body. **novelusb.com**

As if to cut his throat to pieces!

It was the extreme pain, and even the brain was dizzy, almost immediately drunk.

Then, this endless heat turned into endless and rich spiritual energy, rolling in the body.

Then, the aura transforms the rain and spreads everywhere in the body.

Lazy and uncomfortable.

However, after this laziness passed, endless drunkenness surged.

Chen Feng's eyelids were as heavy as iron instantly, and he almost went to sleep.

He naturally knew now that this glass of wine was extraordinary.

However, this is nothing to Chen Feng.

The power in the body surged, and the wine was completely wiped out in an instant.

He slowly opened his eyes, put down the wine glass, and let out a long breath: "Good wine!"

The heroic girl looked at him: "You are not drunk?"

"Good drink!"

"This wine is made from the blood of a demon \*\*\*\*\* that ravaged the Chu 30,000 years ago."

"Extremely strong and fierce, extremely hot and extremely hot, even if the Emperor Wu is strong, you will get drunk!"

"When I first drank it, I slept for seven days and nights."

"Unexpectedly, you were fine."

Chen Feng looked at the woman with a smile.

She is naturally the so-called Lord of the Sheriff.

Chen Feng thought that she might be a savage woman before, but she didn't expect this woman to be generous, hearty and cute.

"By the way, I am the princess lord they said."

"Da Chu Dynasty, the three daughters of the current sage, Liyang Princess!"

Chen Feng smiled and said: "Then have I met the Lord Princess?"

He smiled, but he didn't seem to bow at all.

Princess Liyang was taken aback, then pointed at Chen Feng and laughed: "You really are a wonderful person, I will be drunk with you for three days and three nights!"

"But a pity..."

She seemed to think of something the same: "It's a pity that this kind of wine, even if it's my Da Chu Royal, is just hiding a pot, just twos and threes."

"Before, I begged my father many times, but he refused to give it to me."

"This time, I left Beijing, and after a long period of time, I begged again, and my father gave it to me."

"It's a pity, it's a pity, only three or two!"

"You just had the last drink."

She patted her head, a little annoyed.

I shook the jasper jug vigorously, and there was no sound of water inside, and it was even more regrettable immediately.

Chen Feng couldn't help but smile when she saw her like this: "In the future, I will bring you better wine!"

Princess Liyang's eyes lit up: "A word is sure?"

Chen Feng laughed: "A word is a deal!"

This princess Li Yang is really a wonderful person.

"Also, the steel material is..."

Princess Liyang waved his hand indifferently: "You don't need to worry about it."

"I just can't see Wuyang Bo Shizi bully people with these dog things."

She snorted coldly, and she was very dissatisfied in her eyebrows: "If it weren't for this time, I would go to Linglong Xianzong to practice."

"The big families in the imperial capital all went to the emperor's father to beg for mercy, but the emperor's father was not affectionate and had to order me to take them."

"Otherwise, I won't bring any of them!"

"These dog things are annoying to look at them!"

She did drink a little too much, and she talked more.

Talking about it there.

Chen Feng listened for a while before he understood what was going on.

It turned out that the Xianjia sect, Linglong Xianzong, had just selected a group of disciples to enter the sect half a year ago.

And an aunt of Princess Liyang is a strong one in Linglong Xianzong.

Princess Liyang was able to participate in the test.

She is also extremely talented, so she is favored by Linglong Immortal Sect and can go to practice in it.

When the news came, the Da Chu Dynasty was ecstatic.

After hearing this news, the aristocratic families in the imperial capital were also ready to move, and they went to intercede.

Let your children follow Princess Li Yang to the Linglong Immortal Sect.

Every official disciple who enters Linglong Immortal Sect can bring a group of servants into it.

These servants, although they are not disciples of Linglong Immortal Sect, and their status is not high, but they are business that makes people lose their heads.

Linglong Xianzong, rich in spiritual energy, far surpasses any cultivation holy land of the Da Chu royal family.

Cultivation is more effective.

Moreover, in it, there are a lot of opportunities to be able to come into contact with those strong, top-level martial arts!

Even, given the opportunity, some elders will be favored and accepted as disciples!

That's good luck!

Therefore, each family had their heads out of the competition for more than three months before deciding ten places and following the lord Liyang.

This is how Chen Feng met them today.

Chen Feng pondered and said nothing.

He also spied a trace of secrets in the world of Xuan Huang Zhong Qian through the words of Princess Li Yang.

Xuanhuang is in a thousand worlds, divided into immortal family and ordinary.

Xianjia martial arts, high above.

Those who do not reach the Star Soul Martial God Realm are all ordinary people.

In the ordinary world, these powerful empires all regard their children as the greatest honor to participate in the cultivation of the sect.

This is not only about face, but also the strongest support for the family!

The Great Chu Empire was able to establish Great Chu.

It is because fifty thousand years ago, a child of the family, who jumped over the dragon gate with amazing talent, entered the cultivation of Linglong Immortal Sect!

After that, he who has achieved success in his cultivation will lead the family with one sword and one man, and lay down this foundation!

The immortal is high above, supported by the immortal, there is no power in the ordinary that can shake it!

If a child of an ordinary family can enter the Xian family sect, even become one of the strong.

This ordinary family jumped up and could become a top family.

Even, he can overthrow his imperial dynasty in one fell swoop and become a new royal family!

The power of the Xianjia school is so great!

"I just don't know, what level of school is that Linglong Xianzong? How does it compare with Yuxu Xianmen?"

"do not worry."

She patted Chen Feng on the shoulder, her elder sister's style: "Don't care about them, no one can bully you with me."

She thought Chen Feng was jealous of Wuyang Bo Shizi and others, for fear of their revenge.

Chen Feng smiled and didn't say much.

Obviously, in the eyes of both Princess Liyang and Bo Shizi Wuyang, Chen Feng is just average.

Princess Liyang is just an eight-star martial emperor, not to mention protecting Chen Feng, Chen Feng is pretty much protecting her.

However, she was kind, and Chen Feng couldn't bear it either.

On the contrary, I am still very grateful.

Chen Feng smiled slightly: "If nothing happens, I will go out."

Princess Liyang waved his hand.

Chen Feng was about to leave. Suddenly, Princess Li Yang said, "Yan Changfeng, have you ever seen Li Qinghan?"

Chen Feng suddenly turned his head, with a little doubt on his face.

He keenly observed that Princess Liyang was wrong at this time.
