

## Peerless 5301

### [Chapter 5301: Get out!](#)

As far as I can see, there is nothing but a piece of bronze!

Chen Feng tried his best to look up.

All the bronze barriers around the edges extend all the way up.

In the end, they converged and formed the present...Chen Feng felt that he was more like inside a bronze hall.

Suddenly, there seemed to be a soft cry from the entire bronze hall.

It seems to be an attack from outside.

At this moment, although Chen Feng did not fully refine the large Xiu Luohong furnace, he immediately noticed one thing-inside the large Xiu Luohong furnace, it is extremely safe!

No matter how hard Yu Nanhua and others attacked, they would not be able to penetrate the Great Asura Honglu.

Chen Feng's heart suddenly moved, thinking about it.

He immediately urged the large Xiu Luohong furnace that was wrapping himself.

Aiming directly at Nanhua, rushed directly!

Dare to compare physical strength with top magical artifacts?

Even in Nanhua, there is no contrast!

"You have to get out of here!"

Even now, I am safe.

But the blood was consumed excessively, and he was seriously injured and was dying. It was already the limit to be able to survive until now.

Do not leave again, in case he falls into a coma next.

But when Yu Nanhua and others broke in again, Chen Feng was really defeated!

boom!

To repair Luo Hong furnace, the tripod body moves!

Under Chen Feng's control, he rushed forward.

Although only 70% refining.

However, at present, Chen Feng's basic manipulation of the Luohong Furnace has been able to reach the level of arbitrary heart movement.

Yu Nanhua, whose eyes were red, gritted his teeth.

To the three Luo Miaoyin beside him, hissed loudly: "Finalize!"

"Never let this person run away again!"

"Today, this place will definitely become his burial place!"

What greeted them was a giant Fangding that was instantly magnified dozens of times.

The heavy cauldron body continuously releases billowing air waves outwards.

The beast lines engraved on the four corners are shining under the light.

It always feels like you want to express it!

They are roaring, their eyes are god!

Anyone who meets the line of sight will even have a kind of deterrent force that will be shocked by the soul in an instant.

Big Shura oven rampage!

Regardless of it, rushing towards Yu Nanhua, quite a posture of indomitable progress!

Even Yu Nanhua himself, when he faced the giant cauldron that rushed into it!

The pupils shrank suddenly and roared.

"Stop it! Hurry!"

Luo Miaoyin still hesitated when talking about the previous confrontation with Chen Feng.

Then, when she only faced a top-level magical weapon full of fierce aura.

Even, it is not necessary for Yu Nanhua to say that she is not willing to just let it go.

The four of them shot at the same time, and the dazzling sword light shot up into the sky from each of them, straight into the sky.

The sword light is intertwined in the void!

Under the cooperation of each other, a dense giant net really formed!

In this regard, the giant Ding's body was \*\*\*\* brilliance, shining brightly.

A thick ink mist lingers around.

Hidden in the thick black fog, there seem to be countless demon shadows brazenly spreading their teeth and claws.

With this terrifying and terrifying atmosphere, the Great Asura Baker rushed straight into the sword net that illuminates half of the sky!

The sound of metal collision sounded one after another!

Immediately afterwards, there was the sound of metal and metal scratching each other.

Everyone in the room was horrified.

The space shook violently, and the giant tripod plunged into the sword net.

Constantly resisting and pulling.

That huge sword net has been pulled and deformed at this moment.

At this moment, Chen Feng in the giant cauldron was almost overdrawn.

He almost held his last breath, and made the last let-off stroke-the giant tripod suddenly changed direction and rushed towards Yu Nanhua.

The giant tripod, which was originally a giant, is shrinking rapidly!

Juding's flexibility has increased rapidly, and it has even increased its speed by a level.

Even Yu Nanhua and others have not been able to fully react at all and made relative measures!

boom!

The one-man big Shura oven slammed into Yu Nanhua.

A mere physical body, how can it be a strong opponent of the top magic weapon!

When the Great Asura oven ran into Nanhua's body!

The people present such as Luo Miaoyin could almost hear the sound of broken bones in Nanhua's body.

In this way, a dense sword net was immediately greatly affected.

Almost in the next instant, Chen Feng controlled the Great Asura oven without stopping!

Directly away from the four people, they quickly killed them!

Without the immediate control of Nanhua, Luo Miaoyin and the other two true biography disciples did not even consider whether to attack and block, or to avoid and protect themselves.

It was this state of chaos and no tacit understanding that gave Chen Feng an excellent opportunity to escape.

The Great Asura oven flew towards the distance, and soon disappeared from their sight.

Given that it itself is a top-level magic weapon, even at this moment Chen Feng has almost fallen into confusion of consciousness.

However, as long as there is a thought, it will explode extremely fast.

Luo Miaoyin and others couldn't keep up.

Even if I keep up, there is no alternative.

San Ye Jin desperately shouted in his mind to remind Chen Feng to hold on!

The Great Asura oven quickly passed thousands of miles of water, and when the last glimmer of glow was swallowed by the sea horizon, it lost control and fell into the deep sea!

The size of the large Shura oven can be changed, but the weight remains the same.

Once in the deep sea, it is continuously falling and rushing towards the endless seabed.

I don't know if it was caused by Chen Feng intentionally or accidentally.

Not long before the sea surface, a huge submarine volcano appeared in front of the Great Asura oven.

This is an active volcano, the crater can even see the boiling water constantly squeezing out endless bubbles.

This seabed seemed to be boiled by this volcano, and no signs of life could be seen for thousands of miles.

The Great Asura oven sank straight into the underground magma without a trace of struggle.

I do not know how long it has been.

When Chen Feng regained consciousness again, the world was blank.

For a moment, he didn't even know where he was, or what year and month tonight.

I don't even know who I am and why I am here.

After a long time, consciousness slowly returned.

In order to forcibly refine and control this great Asura oven, Chen Feng consumed too much blood.

As a result, his current recovery ability is much weaker than usual.

Even now, after regaining consciousness, his body is still seriously injured.

If you move a little bit, you can feel severe pain all over!

The broken ribs were pierced fiercely on the flesh and blood body!

Those shocking wounds did not even heal!

It has been a long time, and it has been a long time since no one can push him to such an embarrassing situation!

Chen Feng at this moment is mad with hatred!

"Yu Nanhua!"

That ordinary face that had almost no memory came to mind in Nanhua!

[Chapter 5302: Conditions for promotion to the ninth building!](#)

Chen Feng breathed fire in his eyes and hated the sky.

He didn't even know why Yu Nanhua had to face him with swords since he was a fellow disciple of the Galaxy Sword Sect.

If it weren't for him, Luo Miaoyin alone would not be a threat to Chen Feng.

He is now. It would not be so embarrassed and painful.

The backlash caused by the interruption of refining and refining the Great Asura oven in the past still exists.

At this moment, Chen Feng couldn't even breathe hard, otherwise it would cause a series of coughs and aggravate his injuries.

"Chen Feng! You guy scared us to death."

Jin Sanye's voice appeared in his mind again.

Even Jin Sanye at this moment has a tone of irritability!

Just listen to it bursting swear words one after another, cursing the four people.

When he got tired of scolding, he said to Chen Feng again: "You consume too much blood, so it's best to take the elixir of life forever now."

No matter how precious the pill is, it is ultimately given to people.

Chen Feng didn't struggle too much, and sat up with difficulty on the spot.

Give yourself the golden pill that is endless.

Hum!

That round, endless golden pill with intricate patterns on it, as soon as it entered, it burst out with vigorous repairing power!

At this moment, Chen Feng's whole body was instantly wrapped in a red golden light.

In the entire space of the Great Asura oven, the concentration of aura is incredibly high.

Within a radius of thousands of miles, the entire interior of the large Xiu Luohong furnace similar to the interior of the bronze hall!

The golden light is bright, dazzling!

Countless golden rays of light quickly covered Chen Feng's flesh and blood, emerging and immersing in any gap.

At this moment, Chen Feng could not hear any sound at all, and could not see any picture!

It can almost be said that the five senses have been lost.

Inside the Endless Golden Core, the healing power contained in it is too strong, and the repairing power is extremely fast.

Chen Feng's body was almost firmly held up by the golden light, lying flat and floating in the air.

He couldn't move, but he could vaguely feel that his body was making creaking sounds.

It was his dislocated, broken, and damaged bone, which was being repaired quickly.

I can hear the crackling sound of every inch of meridian in the body in the process of strengthening,

I can even feel that the heaven and earth aura is fully immersed in his body!

The physical body is being further strengthened and transformed.

With the fierce golden light soaring into the sky, under the combined action of the violent healing power, Chen Feng could feel that the dim star map once again shined!

The big sun spewed out the breath of life, and the surrounding ten big moons released bright white light.

A magnificent golden ocean wonder appears again in the dried-up spiritual world!

It seems more powerful than before.

When Chen Feng felt his own strength again, his injuries were not only healed, but his cultivation was completely restored.

Even the strength is faintly improved.

Right now, Chen Feng's cultivation realm had already infinitely approached the ninth floor of the Star Soul Martial God Realm.

Given that at some point, Luo Miaoyin, Yu Nanhua and others may catch up again.

Taking advantage of the time and opportunity, Chen Feng made a decisive decision-and began to break through!

However, I really started to try to break through to the ninth floor of the Star Soul Martial God Realm!

Chen Feng realized that the situation didn't seem as smooth as he thought.

Although Chen Feng at this moment can be said to be at the peak of his strength.

But even though he tried to break through to the ninth floor of the Star Soul Martial God Realm, he always missed the door and only stepped into it with one foot.

"How is this going?"

Chen Feng was puzzled.

Chen Feng's injuries have long since healed after taking the Golden Elixir of Endless Life.

There can never be any more hidden diseases.

But that layer of barriers, like a mask, was truly felt, and there was no way to break through.

Even Jin Sanye was attracted.

Chen Feng tried his best to rush to the ninth building again.

However, this time, he was stopped by Jin Sanye.

"Stop it."

Listening to its tone, it should have discovered some clues.

Seeing today's hopeless breakthrough, Chen Feng was a bit disappointed, but still calm.

After stopping to run the repair base.

He looked down into his arms, as if waiting for Jin Sanye to give him an answer.

Jin Sanye got out of Chen Feng's arms. The old \*\*\*\* looked at Chen Feng and patted him on the shoulder with his wings:

"This is good news and bad news."

"Being like you is too special."

"Obviously, I just want to break through the realm of the ninth floor of the Star Soul Martial God Realm, but already has the ability to compete with the masters of the eleventh and second floor of the Star Soul Martial God Realm."

"I remember, it is said that at your height, every time you want to make a breakthrough, you may have to absorb and refine a treasure."

At the end, Jin Sanye added: "The worst, it has to be the Ninth Grade Treasure."

Chen Feng frowned, and it was still difficult to understand such an explanation:

"Why do we have to absorb the treasure?"

Jin Sanye said: "In your current state, the entire star map has developed into the scale of a complete galaxy."

"But have you discovered that the stability of this complete galaxy is relatively poor?"

Hearing this question from Jin Sanye, he couldn't help but suddenly realized.

It is true.

Chen Feng already felt something when he played against Nanhua this time.

Although, it doesn't affect his strength, but he always feels that there may be hidden dangers in the future.

I didn't expect it to be exposed so soon.

Jin Sanye continued to say in front of him: "The refining treasure has the effect of a condenser."

"It can be said that it is the best way to stabilize galaxy space."

"In addition, your strength itself is quite against the sky. Therefore, to absorb the refined treasures, you need at least the 9th grade treasure."

Listening to these words, Chen Feng couldn't help but smile.

"Speaking lightly, but where do I go to find the Ninth-Rank Treasure Refining?"

Nine products!

Even if it is the ordinary Star Elder Gate of the Galaxy Sword Sect, they may not have the Nine-Rank Treasure!

Not to mention him?

At present, there is only such a top magic weapon as the Grand Xiu Luohong furnace.

Is it possible to absorb the Luohong furnace of the major repair?

As soon as this idea emerged, it was immediately shot out by Chen Feng.

impossible!

The effect of the great Xiu Luohong furnace is far better than being used by him to refine and absorb!

Used for breakthroughs, it is really overkill and completely wasteful!

In desperation, the idea of breaking through to the ninth floor of the Star Soul Martial God Realm could only be temporarily stranded.

Chen Feng returned to his senses and controlled the large Xiu Luohong furnace to leave the magma.

After staying away from the crater, Chen Feng reappeared next to the large Xiu Luohong furnace.

Previously, because of Luo Miaoyin and others, Chen Feng could only be forced to interrupt the refining of the Luohong furnace.

Even later, he relied on burning his own essence and blood to quickly refine and control this giant cauldron in a short time.

#### [Chapter 5303: People who return to the market?](#)

At this moment, there is no one around.

It is a good opportunity to completely refine the remaining 30%!

Chen Feng was not polite, and took the large repair Luohong furnace, heading for the sea level to rise again.

However, just when he had just finished refining the last 30%!

The tips of Chen Feng's ears moved slightly, and the smile on his face suddenly disappeared.

At this time, we still have to deal with him.

In that case, don't leave!

In the next second, murder will come!

Chen Feng has learned from the experience of the previous war and is no stranger to this kind of sneak attack.

He put away the big Xiu Luohong furnace for the first time, and instantly disappeared in place.

The murderous aura immediately appeared where he had been standing, like a gust of wind.

Chen Feng's figure appeared in the void, standing with his hands behind him, looking at the group of people who suddenly appeared.

Those were strange faces, not Luo Miaoyin and others.

Especially the leader of the team, he has never seen it before.

However, when he saw the dark red robe behind the leader, he had a slight guess in his heart.

"People who return to the market?"

Chen Feng's tone was casual, but he always stared at their subtle expressions.

Sure enough, when I heard the name Guixu Sea Market.

There was a man in a dark red robe behind the leader, his complexion slightly changed.

Chen Feng nodded, basically understand.

It seems that he was still making a lot of noise in the Guixu Sea Market before, which attracted the attention of those behind him.

"it's him."

A group of people in dark red robes whispered to the blue-clothed man in the lead.

I saw the blue man nodded slightly.

Looking at Chen Feng, there was no concealment of contempt in his eyes.

"I said, what a powerful character, but a waste of the eighth floor of the Star Soul Martial God Realm."

As the man said, he raised his chin even more proudly:

"Going back to the market, it's really getting worse by the day."

"I have to deal with even this kind of stuff."

Hearing this person's cynicism, Chen Feng hadn't reacted yet.

The group of people in dark red robes took the lead to speak: "Master Wen, the master said, this person is quite capable."

"I hope my son will not take it lightly."

Hearing this, look at their eyes again.

It seems that nothing is known about his identity.

Chen Feng can basically determine that it should be the "master" in the mouth of those dark red robes, who has already been eyeing him in Guixu Sea.

And, I don't know what secret method was used to mark him.

The blue-clothed middle-aged man is Yuxuan, full of murderous aura.

For the reminder of the person behind, I sneered back.

"A man with the eighth building, no matter how capable, can he turn the tide?"

With that, he took a step straight in the void.

The majestic coercion swarmed out of him instantly, whizzing towards Chen Feng.

This Young Master Wen exhaled a breath that was as high as Xiaocheng in the twelfth floor of the Star Soul Martial God Realm.

It seems that the people behind the scenes of returning to the market place great importance on Chen Feng.

Had it not been for the present Chen Feng had subdued the endless golden pill, his strength had improved.

I am afraid that in this battle, Chen Feng is really helpless.

Even now, he can only guarantee that he can fight this Young Master Wen.

If the opponent rallied and attacked, with Chen Feng's current strength, he would still be at a disadvantage after all!

This makes him irritated.

However, this is the end of the matter, it is useless to think more!

In a moment, Chen Feng's eyes suddenly widened!

Facing the powerful pressure pushed from the side like a copper wall and iron wall, not only did he not regress, but instead took the initiative to face him.

Heaven and earth repeatedly reincarnate in heaven and earth, and suddenly gain power!

Hum!

In the vast space of repeated cycles of heaven and earth, the dazzling white light instantly lit up the entire space.

In the center of the giant eye on the far left, countless rays of light erupt from the pupil.

The dozens of people who returned to the market could only see the white in front of them.

At the next moment, everyone was shocked. What's more, they hugged their heads and screamed.

A mental attack of the level of the twelfth floor of the Star Soul Martial God Realm.

For the weaker cultivator, even if it is difficult to kill, the impact is huge!

Even Young Master Wen, who was standing at the forefront, was in a halt and his complexion changed drastically.

good chance!

Chen Feng was thinking of a fast break, and was caught off guard!

This kind of opportunity will naturally not be missed.

The next moment, a warm white light flashed in his hands.

The broken knife was swung high.

Too high to punish the gods, smash them down!

Goal, blue boy Wen!

Among those people, it is obvious that this Young Master Wen has the strongest strength.

The threat to Chen Feng is also the greatest.

Amidst the fading white light, a silver wire appeared so inconspicuous.

It cut through the void silently and headed towards Master Wen.

At this moment, he saw Young Master Wen's seeming instinctive warning and moved his body.

However, it is still a step too late!

boom!

The destructive and terrifying Tai Shang Zhu Shen Zhan, although he was accidentally avoided the key points such as Dantian.

However, it still slashed on Master Wen's body.

All the introverted murderous aura and sword intent finally burst out after entering the flesh.

"puff--"

The blue-clothed Young Master Wen's face suddenly turned pale!

On his chest, from the left shoulder to the right waist and abdomen, a knife mark with deep bones appeared instantly!

Blood dripping!

Even the internal organs can be seen.

The picture is extremely bloody!

The burst of stamina is too strong!

Moreover, far beyond the expectations of all the dark red robes behind him!

The impact was too strong, and even beat them one by one.

Those with the weakest strength could not even maintain the ability to travel from the sky.

Staggering and shaking his figure, he almost fell into the deep sea.

However, this is far from over!

"Soul Blade, now!"

With Chen Feng's violent drink, the world even began to vibrate wildly.

For a time, the sky was covered and the sun was hidden, and the soul of Qingqiu's sword suddenly appeared, with murderous aura.

Even Young Master Wen in blue clothes was in a trance for a moment, and all his eyes were bloody!

That is the glorious history of Qingqiu Soul of Sword!

Chen Feng's star map world had already gone crazy, and it was about to explode once.

The power of the endless stars, along with the mighty golden spiritual power in the golden spiritual world, poured all from Chen Feng's right arm into the broken knife.

Buzzing--

For a moment, the magical weapons or weapons in the hands of the people on the opposite side!

It was uncontrollable and shivered spontaneously.

"kill!"

boom!

The blazing qi raged wildly above the sky, and even burst into thunderous sounds.

After the knife was cut, Chen Feng's body had just recovered and fell into a state of serious injury again.

A trace of blood ran down the corner of his mouth.

However, the successive attacks did give him a great opportunity!

Above the void, the two sides confronted each other.

Although Chen Feng's face was pale and his body was seriously injured, the situation of the people on the opposite side was even worse.

[Chapter 5304: Don't break, don't make a golden pill!](#)

There were originally a dozen people in dark red robes, but now there are only four or five people left.

And Young Master Wen, who is the most threatening to him, is seriously injured at this moment!

After all, from the beginning, Chen Feng's main target was him.

I also blame him for underestimating the enemy.

Under normal circumstances, it is true that no one would have thought that Chen Feng's realm was only the peak of the eighth floor of the Star Soul Martial God Realm.

But the real burst of power can reach the twelfth floor of the unbelievable Star Soul Martial God Realm!

"Ahem... Very good! Very good! I didn't expect you to give me such a surprise."

At this moment, Wen Ruohua was already in a panic.

Not only was he ragged, but a terrifying scar almost cut him away!

The subsequent destruction caused by Supreme Zhu Shenzhuang was even more shocking.

As a result, even now, the wounds on his body are still dripping with sparkling blood.

By now, he had long dared not to despise Chen Feng again.

But on his face staring at Chen Feng, a cruel smile suddenly appeared.

At this moment, Chen Feng's heart sank.

He can be regarded as having experienced many battles in his life and has encountered countless opponents. People who react like this are not uncommon.

Whenever they have such an expression, it often means that there is something to come!

As a master of the twelfth floor of the dignified Star Soul Martial God Realm, it is not surprising that he is behind.

Chen Feng forcibly endured the feeling of powerlessness surging up, and once again tightly grasped the handle of the broken knife in his hand!

Ready to rush up at any time.

At this moment, as expected.

I saw that Young Master Wen turned his hand and took out a pill.

The two were not too far apart, and Chen Feng could almost instantly feel the endless fragrance of medicine from that pill.

Its body is crystal clear, and it continuously releases abundant and abundant aura outwards.

Although I don't know what this pill is, and what effect it has, it's obvious that it is an extraordinary product!

At almost the same time, Chen Feng's mind suddenly rang the voice of Jin Sanye.

It screamed, its voice was a little distorted.

"Hurry up and grab that pill!"

Even Jin Sanye would have such an excited reaction.

Chen Feng didn't even need to think about it any more, without hesitation for a moment.

Immediately gritted his teeth and released the power of the few stars in his body madly.

Heaven and earth reincarnation magic, rise again!

This time, the dark, mysterious light replaced the previous light.

At the center of the pupil of the third giant eye, a fist-sized demon heart suddenly formed and was sent out instantly.

Hum!

With its current state of embarrassment, it is absolutely impossible for this demon heart to be successfully implanted in the depths of the spiritual world of the opposite Master Wen.

However, what Chen Feng asked for was not the case.

He just wanted to take advantage of the devil's heart and delay dealing with it for a moment.

Interfere with taking that pill.

The two are of equal strength and are currently injured more severely.

This can still be done.

At the moment when Lan Yi Wen's body stiffened.

The men in the dark red robes behind him also reacted.

"Stop him!"

The man in the red robe who had spoken to Master Wen before immediately shouted!

Several people rushed towards Master Wen's direction.

However, they are still one step too late!

Everything happens between the electric light and flint, the speed is incredible.

Chen Feng snatched the pill that was still glowing with golden light in Master Wen's hand!

At the same time, in his mind, Jin Sanye's tone was extremely excited.

"Good things, good things."

"Unexpectedly, this guy still has such an unbreakable gold pill!"

Hearing the famous word, Chen Feng shook slightly and asked secretly how effective it was.

"It's because you grabbed it."

"Otherwise, we might have to explain here today!"

"You know, if this thing is swallowed by him, he will break through a whole realm on the spot!"

"Then isn't this the same as the sixth grade \*\*\*\* pill given by Yuan Changfeng before?"

Jin Sanye immediately refuted his words: "That's a \*\*\*\* pill, this is a golden pill, can it be compared?"

"Furthermore, that Sixth Rank Divine Pill can only last for about an hour, and it is said to be a level of improvement."

"Actually, it is shoddy, and there is no such thing as a big improvement."

"And this unbreakable and unreliable golden pill is to reduce the life force of five hundred years, to ensure that it is absolutely full of money and raises a whole realm."

Chen Feng got it!

The two are indeed completely different medicines.

At least the method of refining, this unbreakable and unreliable golden pill is more complicated than the sixth grade \*\*\*\* pill.

After just one breath, the Demon Heart was almost uncontrollable.

Chen Feng could even feel that even if he didn't swallow this unbreakable golden pill.

Just holding it in his hand, he could draw a powerful repairing power from this pill.

This refreshed him briefly.

And it was this sudden shake, the domineering appearance of the ink hair dancing wildly behind the head!

The dark red robe and the others who rushed over could not help shaking violently.

"Not good! Retreat! Retreat quickly!"

The man in the red robe who gave orders before yelled again.

Hearing this, Chen Feng almost laughed.

Dealing with such misjudgments is simply opening the door for him!

Seeing that Devil Heart was about to lose its effectiveness, Chen Feng waved his hand again unceremoniously.

This time, he didn't need to work hard to use any magical martial arts!

Relying on his physical strength, he aimed at the position of his dantian and stabbed it in with all his strength.

The broken blades all plunged into the counter.

"you....."

The blue-clothed Young Master Wen's eyeballs burst, staring at Chen Feng in disbelief, his mouth full of blood squirting out wildly.

The breath on his body suddenly wilted at a speed visible to the naked eye.

The pubic area has been abandoned, and the killing intent rages in it.

With his terrifying injury right now, he lost his cultivation base to support it, and it was a dead end!

Chen Feng's face was extremely cold, and he simply pulled out the broken knife and flew out.

The blue boy Wen shook twice in the air.

In the end, maintaining a desperate and horrified appearance, he looked back.

Falling straight towards the deep blue sea below.

Above the void, only Chen Feng and the impassive dark red robe men remained.

Perhaps it was Chen Feng's crazy attack that easily killed Young Master Wen in a very short period of time, which made this group of people returning to the market feel great fear.

The person with the strongest cultivation level right now is just a cultivator at the peak of the tenth floor of the Star Soul Martial God Realm.

Even now Chen Feng can be said to be empty.

But the five or six people on the opposite side simply couldn't notice it.

In their eyes, Chen Feng still stood proudly above the void, holding a golden core in his left hand.

Domineering and bloody, like a murderous god!

For a time, no one dared to take a step forward.

That's right!

#### [Chapter 5305: Enter the market of Guixu!](#)

Chen Feng immediately recovered on the spot calmly.

At the same time, he still maintained a murderous posture.

His eyes were rather cold, and he keenly stared at the previous man who had spoken in succession.

In fact, from the very beginning of their appearance, Chen Feng had a feeling.

In this group, there is also an extremely hidden breath.

Although he has just adopted the mode of quick fight and quick decision.

But in fact, it was also secretly exploring where the breath came from and whether it would cause him harm.

At this moment, he could be sure that the source of that breath was the man in red robe giving orders!

It should be someone who passed some secret method and "borrowed" the person's eyes.

Chen Feng has always responded extremely fast.

Since each other has reached this point, the other party still has not appeared.

Well, most of the countless possibilities have been ruled out.

The only truth left came to mind.

The person behind the scenes in the Guixu Sea City is now spying on everything here through the eyes of the man giving orders through the red robe.

Chen Feng suddenly laughed.

He put away the golden core, through those eyes, made an extremely arrogant throat cut.

Somewhere in the market!

Shen Yanghui, seeing Chen Feng's provocative appearance, was so furious, he directly kicked a counter in front of him!

"Good boy, you dare to provoke me!"

Shen Yanghui's complexion was somber as ink, he stood up immediately and walked out.

"A mere casual repair dare to provoke me to return to the master of the market!"

"Huh, why, I still plan to come back and kill me!"

"Come on, keep chasing this person for me! Never die!"

At this moment, Chen Feng has only one living mouth left.

Taking advantage of the short recovery, and relying on coercion, the five or six red-robed cultivators had long been scared to death.

Where is the power of a war!

Chen Feng put away the broken sword and unceremoniously operated the heaven and earth's reincarnation magic, directly exploring his spiritual world.

Soon, he learned everything from the mind of the man in red who gave the order.

"Shen Yanghui, I remember you."

Chen Feng slapped the man in the red robe to death.

While restoring his strength, he told Jin Sanye the whole story.

"That Shenyang Hui managed the market for many years, I'm afraid it has made a lot of benefits."

You know, the underground trading market of Guixuhai Market is originally disorderly.

It's even easier to reap the benefits than some famous sects.

Jin Sanye also deeply agreed with this.

"It is estimated that his wealth is more generous than many elders of your Galaxy Sword Sect."

However, looking at Chen Feng's contemplative look, Jin Sanye suddenly felt bad.

"You're not going to turn back now and go straight to Huanglong, do you?"

Chen Feng tilted his head, his face looked like he was really considering this plan: "Why not?"

This reaction was really shocking Jin Sanye gasped.

"You don't want to kill you? Just kill it with your current strength?"

"The Guixu Sea Market has existed for so many years, the guards must be strict, you are going to die!"

Chen Feng disagreed, and turned his hand to take out the unbreakable and unreliable gold pill that he had just grabbed.

"Isn't it still there?"

He looked down at Jin Sanye with his head poked out: "How many years do I have to live?"

"...It should have been around five thousand years..."

Hearing five thousand years of life, Chen Feng frowned slightly: "Is it only five thousand years..."

This reaction almost left Jin Sanye speechless.

"You guy really has no idea, it's been more than five thousand years!"

"You know, long ago, after the monk reached the peak of the Star Soul Martial God Realm, his life span could reach ten thousand years!"

"But the aborigines of the Xuanhuang Middle Thousand Worlds are no longer as good as the monks in the past!"

"Don't look at some of them also breaking through to the peak of the Star Soul Martial God Realm, but who doesn't know, many of them have risen by speculation."

Regarding the life of a monk, Chen Feng really had no idea.

It is rare to hear Jin Sanye's explanation, but Chen Feng listened very seriously:

"How many years can a monk who comes by opportunism live?"

Jin Sanye lost his eyes: "Often even if you reach the peak state, you will have a thousand years of life."

"A little bit again, even only a few hundred years."

Hearing this, Chen Feng burst into laughter: "So, I can have a life span of 5,000 years at the peak of the eighth floor of the Star Soul Martial God Realm, which is pretty good!"

Seeing Chen Feng's reaction, Jin Sanye was very discouraged.

But it still tried to persuade him with all his heart: "Chen Feng, we still think your attitude is wrong."

"Suddenly losing five hundred years of life, this matter is not trivial!"

Chen Feng lowered his head and asked again: "Then the loss of life, in addition to the loss of life, what kind of loss will there be?"

This question, on the contrary, stopped the question of Jin Sanye.

After a long while, it suffocated a sentence: "It seems that there is really no loss now...but what if it will happen in the future!"

Seeing its reaction, Chen Feng laughed again.

"I can't care about the future."

He was energetic and looked in the direction of Guixu Haishi: "As long as I, Chen Feng, have a 'after', I can never stop here!"

"The loss of five hundred years of life is nothing to me! I can make it up sooner or later!"

Seeing his posture, Jin Sanye had to sigh.

It knew in its heart that Chen Feng had already made a decision in his heart and that it would not change because of the five-hundred-year life span.

"That's it, just go as you like."

Three days later, Chen Feng recovered from his injuries again.

There is no trace of Luo Miaoyin and others for the time being.

Chen Feng carefully condensed his breath again, and quickly hurried towards Guixu Market.

He is not a persimmon for bullying.

I never provoke that Shen Yanghui in Guixu Haishi, but since this person has to take the initiative to provoke him, he has to bear his revenge!

In view of the previous, Chen Feng searched the spiritual world under the dark red robe.

Today, once again returning to the market, Chen Feng's mastery of it has long since been different.

He has mastered the secret method of secretly entering and leaving the market!

Landing from high above the clouds, below the white fog.

The huge crater was once again displayed in front of Chen Feng.

Returning to the market remains the same as before.

The crater has an unbreakable barrier seal, preventing outsiders from prying and entering.

Only pay a certain amount of stars before you can enter.

However, this "only channel" has long lost its original mystery in the eyes of Chen Feng today.

Before reaching this volcanic island in the sea, he plunged into the deep sea and quickly approached the volcano.

Sure enough, after diving to a certain extent.

An extremely hidden small teleportation formation appeared in front of him.

#### [Chapter 5306: Siege!](#)

According to the secret information obtained by Chen Feng, through this small teleportation array, you can directly enter the core area of Guixu Sea City!

And all the law enforcement officers of Guixu Sea Market, including Shenyanghui, also live here forever.

These are things that most cultivators have never known.

They originally thought that the entire "Guixu Sea Market" was nothing more than a vast area inside the huge crater.

Actually, in the center of the crater.

Below the magma passage that seems to have been blocked by the cooling magma, there is an island in the depths!

And there is the real core of Guixu Sea Market!

Just when Chen Feng was about to set foot on the small teleportation formation.

Jin Sanye couldn't help but persuade again: "Chen Feng, do you want to think about it again?"

"You are so presumptuous, what if there are people like blue clothes?"

"Will you go to death?"

"You are dead, even we have to bury you. We want to live a few more years."

However, this point has already been reached.

Although Jin Sanye persuaded him, he knew in his heart that Chen Feng would not change his mind.

In the end, it could only sigh and disappear into the deep sea with Chen Feng's figure.

Hum!

The feeling of weightlessness appeared and disappeared instantly.

The transmission distance of this small teleportation array is extremely short, and it hardly consumes much time and energy.

As soon as he opened his eyes, a few breaths around him immediately locked Chen Feng himself.

Even if it is a small teleportation array, there are no guards on the outside.

But this end of the core area must be guarded by someone.

"who!"

With a low growl in his ears, the corners of Chen Feng's lips curled up slightly.

A silver light flashed.

The sound of the flesh falling to the ground sounded in his ears.

"sure."

Jin Sanye's voice sounded in his mind.

Chen Feng did not hesitate to praise for the skill that Chen Feng showed as soon as he came in.

The knife flashed, and the broken knife was put away.

Chen Feng's face was serious and cautiously observing the surroundings.

At the same time, I still didn't forget to joke with the third master Jin in my mind: "This is a boast? The front foot said I was going to die."

"It's all here, and then it's a complaint."

"However, if you come, you will be safe, but we still have to say, you have to take us out alive!"

According to previous news from the spiritual world of the man in the dark red robe.

The teleportation array is located in a remote place on the west side of the core area of Guixuhai City.

At this moment, in addition to the teleportation formation at the feet of Chen Feng, there are several other similar teleportation formations around.

"Those law enforcement teams go back to the market to patrol the surface of the market. It is estimated that this is what they rely on.

Jin Sanye hurriedly said: "I said they didn't know where they were going because of how they were so mysterious before."

"Now I know it! But that's it!"

Chen Feng nodded.

"It should be the time for those people to go out on patrols. I have to hurry up."

The voice did not fall, and the warm white sword light reappeared.

Several small teleportation arrays related to the surface of Guixu Sea City instantly turned into a pile of waste arrays.

Jin Sanye couldn't help sticking out a wing from Chen Feng's arms.

It seemed that he wanted to give him a thumbs up.

However, there is no finger, nothing can be seen.

"Wonderful! This way we will have fewer opponents to meet."

After doing all this, Chen Feng did not relax much.

"Every other hour on the teleportation array, there will be a shift guard to take over."

"The one who just brought it down doesn't know how long he has been guarding here. Time is still limited."

He quietly left the teleportation array scene.

According to the memory of the man in the dark red robe, he successfully arrived at the core island of Guixu Sea City!

I thought it was a small island hidden under the mouth of the magma cave.

It is very possible that, just like the Shura world, there is darkness everywhere.

Unexpectedly, there is light overhead, trees on the island, and lush greenery.

Everything looks no different from ordinary islands.

When I first learned of this situation from the memory of the man in the dark red robe.

Chen Feng could not even imagine.

It is only now that I see it with my own eyes.

"It seems that the so-called volcanic craters blocked by magma are actually just a huge blindfold."

"The magma channel is not blocked at all, so the sun can reach the small island below smoothly all the way."

However, this is not the time to think about this.

Just when he was about to sneak towards the mansion where Shen Yanghui was located!

Suddenly, above the sky, a shrill voice made a loud noise!

"Enemy attack—"

When the overwhelming exclamation and sharp sound sounded, Chen Feng basically had a number in his heart.

This is to find him.

How much time has passed since then?

Even Jin Sanye couldn't help teasing him about his luck, which was simply the best.

"Most of your whereabouts have been exposed! What should we do now? Shall we withdraw quickly?"

"The most dangerous place is the safest place. We estimate that there should not be many people there now."

"It won't be too late next time."

However, it said let it say.

Without hesitation, Chen Feng's figure rushed towards the core island at an extremely fast speed.

Jin Sanye, who failed to lobby several times, finally gave up the struggle and shut up completely.

Although the core island is not big.

However, it still took some time to sneak into Shenyanghui's mansion.

Obviously, as the current person in charge of Guixuhai City.

Shen Yanghui did not intend to give him such ample time.

He had just stepped into the space area above the core island, in the lush forest below.

Almost at the same time, countless breathtaking breaths appeared, directly at Chen Feng!

"Who is here!"

In a blink of an eye, in the void in front of Chen Feng, many monks wearing dark red robes appeared again!

"What nonsense, whoever invades the island, kill him!"

Before the words fell, Yuankong rushed in a particularly fierce attack.

Above this world, the dazzling light almost obscured the scorching sun.

What's worse! The number of monks with dark red robes flying out of the front island is still increasing.

The void, which was originally empty and spacious, was filled with people in an instant.

"Didn't it mean that many of those subordinates have gone out on patrols, why are there so many?"

Seeing about thirty or fifty dark red robes in front of him, Chen Feng lost his thoughts for a while.

He can know that there are a lot of people in the core area based on his previously learned memory.

But I still didn't expect that so many people would rush out in a blink of an eye.

Even Jin Sanye, who had already shut up, couldn't help but speak again when seeing this posture:

"Either there are other teleportation arrays, or it means that the protection in this area is pretty good."

When is it all, I can still tease.

Chen Feng didn't want to return anything, the form at the moment was not optimistic, and there were already countless attacks on him.

#### [Chapter 5307: Horrible opponent!](#)

It can only be the Guixu Sea City Law Enforcement Team with the dark red robes in front of them.

Its cultivation base basically only looked like the eighth and ninth floor of the Star Soul Martial God Realm.

At present, the highest is only the peak of the tenth building.

"kill--"

The fighting spirit was everywhere, and the blood suddenly rose above the sky.

Now that the whereabouts are exposed, then rush all the way to the end!

Thinking of the almost fatal attack on himself three days ago, Chen Feng's heart became cold.

Heaven and earth reincarnate magically, suddenly gaining power!

This group of mental attacks is most suitable for this situation.

In the next moment, the blue light flourishes!

All the dark red robes cultivators who came towards Chen Feng changed their expressions.

Some have low-level cultivation, even holding their heads directly with both hands, screaming frantically.

Today's Chen Feng has the strength equivalent to Xiaocheng, the twelfth floor of the Star Soul Martial God Realm.

The pressure to deal with these influential cultivators is not too great.

The warm white light in his hand lit up, and the knife was in his hand.

From Chen Feng's body, there was a sudden burst of endless fighting intent!

kill!

The sharp blades rose up into the sky and swept forward!

Some dark red robes that didn't react fast enough were cut off on the spot.

For a time, the \*\*\*\* wind here is like Shura hell!

In less than a cup of tea, Chen Feng, like a flash of lightning, quickly rushed out of the dark red encirclement!

The goal is directed at the mansion where Shenyanghui is located!

The core island is neither big nor small, but this mansion can almost be said to account for more than half.

According to the memory of the previous person.

Chen Feng learned that although Shen Yanghui now lives in the magnificent mansion below.

But this mansion is not Shen Mansion itself.

It should be the powerful mansion that established the order of the market.

It's just that the great power has been gone for a long time.

For a long time, this vacant mansion has become Shenyanghui's dominance and kingship.

Before Chen Feng dived towards the mansion below, there was a sharp explosion.

"Little thief dare!"

The moment Chen Feng heard this voice, it became clear that the person he was looking for had finally appeared.

A middle-aged man with a sword eyebrow star leaped into the sky with his hand in hand.

At the same time, behind him were ten monks in dark black robes.

Those monks in dark black robes, although not more than the number of dark red robes before.

But for each one, a very powerful aura burst out in the body.

They originally followed Shen Yanghui behind.

After reaching the same height as Chen Feng, this group of people took the initiative to stand out and guard Shen Yanghui behind them.

Upon seeing this scene, Chen Feng's expression turned gloomy.

Shen Yanghui's own cultivation is not superb. After so long, he is only the eleventh floor of the Star Soul Martial God Realm Dacheng.

However, those guards with dark black robes that protected him all have the peak of the eleventh floor of the Star Soul Martial God Realm.

Even the strength of the twelfth floor!

It's normal to think about it. If there is no such strength, how can you conquer those strong who return to the market?

With Chen Feng's current strength, at most he could only fight alone against an opponent in the twelfth floor of the Star Soul Martial God Realm.

There are obviously no chances of winning with a few more people of equal strength.

Seeing Chen Feng's ugly expression, Shen Yanghui, standing behind the guards, sneered triumphantly.

"You have the courage to kill you directly."

"As expected of the leader of this broken jade conference, Chen Feng."

When his name was spoken from Shen Yanghui's mouth.

Chen Feng knew that the other party already knew who he was.

Also, Guixu's sea market is a mixed bag with many people.

Regardless of whether it is a famous family or an overseas casual repairer, as long as there is a demand, they will come here to trade.

Information exchange is the fastest in this kind of place.

Shen Yanghui, as the currently behind the scenes owner of the market, is surprised that he still doesn't know that.

Chen Feng coldly shouted: "I have no grievances with you. If you want to kill me, then I will kill you."

"Only you?"

Shenyang Hui Yangtian laughed: "Boy, do you know what overweight is?"

"Winning a broken jade conference laurel can actually make you arrogant to this point."

"The Galaxy Sword Sect, it looks like it's going to decline..."

He shook his head with regret, raised his hand at random, and turned around.

"It's boring, you can handle it."

"Yes!"

Ten guards in dark robes responded in unison.

Everyone looked serious and showed their magic weapon to Chen Feng.

Chen Feng frowned.

He can deeply feel the horror of these ten people.

These ten people are not only comparable to him in their own strength.

From the unison response just now, Chen Feng was more keenly aware that the tacit understanding between the ten of them was far beyond imagination.

Chen Feng was a little bit chilled, after several short investigations.

He realized that there was even some kind of connection between these ten people.

This connection made Chen Feng feel that it was not ten people who stood opposite him at this moment, but one person!

A terrible pressure surging from the opposite side!

The next moment, ten people shouted at the same time, their voices were as neat as the same person.

If there are others watching here at this moment, you will definitely be tempted to get a chill from your back.

how did you do that?

A total of ten people, tacit understanding with each other like one person!

Even in the void that rushed towards Chen Feng, a formation appeared quickly!

Simple, neat, and fluent, it's like rehearsing countless times.

From the memory of the dark red robe monk.

There is no introduction to the origins of these ten people, only their existence.

But when I really saw it, Chen Feng still had a tingling scalp.

Heaven and earth reincarnation magic!

In any case, since the opponent has ten people, whether you are attacking in groups or fighting alone.

It's always right to use heaven and earth to repeatedly reincarnate magical powers and perform indiscriminate mental attacks.

But, the next step depends on instinct.

Now that there is no way to go back, Chen Feng can only choose to go forward.

His goal is always Shen Yanghui!

Hum!

The faint blue light suddenly lit up in the space of the repeated cycles of heaven and earth, almost flooding the huge space with the faint blue light.

The three giant eyes were all trapped under the blue light at this moment.

At the moment when everyone was stiff, Chen Feng lit up the knife!

Without hesitation, he slashed at the two dark black robe monks closest to him.

Too much to kill God!

Yin Si converged all murderous aura and sword intent to a trace, and quickly omitted it.

Chen Feng didn't dare to hesitate for a moment, and at the same time he slapped the other person with a palm, and stepped back.

Flew in one direction, and pointed again.

Buddha's angry eyes and roaring power!

To seize the opportunity, this is a strategic method that Chen Feng has always used.

Since they don't have any advantage, they can only use the fastest means to reduce the gap between themselves and the other party at the very beginning.

When Taishang Zhu Shenzhan's staying power broke out, the ten-person formation was instantly broken.

[Chapter 5308: What is the most precious treasure here?](#)

Of the two nearest monks, one of them was hit hard in the world of Dantian and lost his combat power almost instantly!

And the other person is not much better.

The waist and abdomen were almost pulled apart, and the picture was extremely bloody!

At this moment, another person was shot by Chen Feng into the team!

The other person, under the influence of the Buddha's angry lion roar, was pointed at the center of his eyebrows!

Cannot move for at least three breaths.

However, the number of opponents is still too much!

Even if he seizes the opportunity and temporarily makes the four of them lose their combat power, the remaining six are already approaching quickly.

boom--

Charged almost at the same time from all directions.

Even if they could barely avoid one or two, they would inevitably meet the remaining few.

When several surging attacks hit Chen Feng on the spot, he could even hear the sound of a few ribs breaking.

The severe pain hits quickly, and a lot of cracks appeared in the internal organs.

Even the hand that had been holding the broken knife tightly was almost cut off by a crimson light!

The huge galaxy almost made a creaking sound at this moment!

It is clear that he has suffered a very strong and severe injury.

The day was dim, and even in the golden spiritual world, some obvious cracks began to appear.

This is just a face-to-face encounter!

"Hahahaha...Chen Feng, you really don't cry without seeing the coffin."

Shen Yanghui in the distance seemed to be watching a play, raised his eyebrows, his face was joking and arrogant:

"Hurry up and kill him! This kid's head is said to be quite valuable."

"Yes!"

The few people who were still able to fight again responded in unison!

At the same time, more severe coercion broke out on them again.

In his mind, Jin Sanye was already anxious, and Ula Wula called out:

"You can take the golden pill that is not broken or made! If you refuse to accept it, there will be no chance!"

"understood."

Chen Feng replied awkwardly.

He watched the remaining seven guards on the opposite side quickly form a special formation.

And he flipped his hand to take out the unbreakable and unreliable golden pill, and swallowed it directly without looking.

Two completely different beams of light rose into the sky against each other.

At the moment when he took the golden pill that was neither broken nor established.

Chen Feng could feel that a mysterious force that was difficult to capture quickly penetrated into every corner of his body.

To the depths of the soul!

The Supreme God Demonizing the Dragon Art, suddenly choked at this moment.

It seems to want to operate on its own, but it does not actually operate.

That's because this golden pill that is neither broken nor established has quickly harvested five hundred years of Yangshou.

This directly affected the origin of his life.

At the moment when the five-hundred-year life was consumed, Chen Feng could feel his limbs and limbs, and there was a momentary weakness.

It's like the feeling that you can only feel when you are old.

However, there is only this moment.

Even if five hundred years are missing, he is still in prime of life!

And the power gained in those five hundred years was finally covered and poured into Chen Feng's body.

boom!

He was in the air, the ink was frantic, and his body burst into a dazzling warm white radiance!

An unprecedented terrifying force quickly swept around with Chen Feng as the center.

The broken ribs quickly healed, wrapped in a layer of shimmer, and became more and more indestructible!

The almost shattered body healed quickly at a speed visible to the naked eye.

Even the star map world that was originally trapped in the gloom, the big sun is scorching at this moment, and it is constantly spitting out the light.

The big moon is bright, turning fast!

The power of the endless stars gathered together, and then all rushed towards Chen Feng himself.

Chen Feng was quickly surrounded by pure white smoke, and a huge force swept him.

In an instant, Chen Feng's eyes suddenly sharpened, and two lights burst into his eyes!

Clang!

The divine light blasted into the opponent's camp, and suddenly sparks burst out.

The next moment, Chen Feng raised his hand to interrupt the knife!

The dazzling white light almost stung everyone's eyes to tears!

I saw him wave his hand down, directly piercing that solid formation!

The surrounding void began to vibrate violently!

"how is this possible!"

Shen Yanghui let out a loud cry.

He was completely stunned by the scene before him.

Originally thought Chen Feng would definitely die.

But he never expected that the golden core that Chen Feng snatched from Wen Ruohua earlier would be used here directly by him!

He didn't even expect that Wen Ruohua would have such a golden core!

In the current situation, Shen Yanghui has no time to scold Wen Ruohua, who has died, for hiding his hole card.

He turned around and left.

Chen Feng's aura skyrocketed, and he had already reached the peak of the twelfth floor of the Star Soul Martial God Realm in a moment!

The guards couldn't stop him at all!

High above the sky, blood is overflowing!

Chen Feng could almost hear the roaring buzzing in the broken knife in his hand.

The stronger his strength, the more he can display the true strength of Qingqiu Soul Sword!

boom!

No matter how powerful the magic circle and cooperation are, it is useless in the face of absolute crushing strength.

In the golden spiritual world, the golden waves fly wildly!

The endless spiritual power is almost inexhaustible and inexhaustible.

Chen Feng disappeared into the sight of the guards.

As far as I can see, I can only see countless afterimages around, disappearing and reappearing.

Screams sounded one after another.

At this moment, this is a reverse unilateral massacre...

With the rain of blood pouring, Chen Feng slaughtered the Quartet!

Shen Yanghui hadn't escaped far, a meteor-like light came quickly behind him.

The next moment, Chen Feng's voice was like a whisper of a devil, exploding from his ears.

"Do you know what it means to be overweight?"

Use Shen Yanghui's own words to slap him in the face.

Chen Feng stretched out a hand and grabbed his neck firmly like iron tongs.

He directly carried him in the air.

"Say, what is the most precious treasure here?"

Chen Feng came back, first to fight back, and second to make a profit.

Shen Yanghui would never have thought that he took the initiative to send someone to provoke this master.

Not only is it hard to bully, but he even made up his own family's ideas early.

At this moment, Shen Yanghui, in Chen Feng's hands, was like a little chicken, without the strength to fight back.

The terrifying pressure released by Chen Feng alone was enough to make him tremble, unable to move at all.

However, in this situation, he did not honestly explain.

On the contrary, when he saw Chen Feng asking such questions, he was relieved instead.

Recovered a little calmly.

Shen Yanghui bowed his head with difficulty and met Chen Feng's gaze.

"The most precious thing, how... how can I tell you, hehe..."

Seeing the smugness in his eyes, Chen Feng sneered.

"Do you think that as long as you don't say it, I can't kill you?"

[Chapter 5309: A plain piece of wood?](#)

In the space of his repetitive reincarnation, black light suddenly formed from the pupil of the third huge eye, quickly forming a magic heart.

When Shen Yanghui lifted his chin and laughed hard.

The devil's heart was silently implanted into the depths of his spiritual world.

"My patience is not very good. If you don't tell me, you can only let me do it myself."

Immediately afterwards, Chen Feng received all the thoughts from Shenyanghui's spiritual world.

I don't know, I was shocked at a glance!

Good guy, just thinking about it, there are countless pictures of treasures in my mind.

With a quick glance, Chen Feng could see many rare treasures in the almost blurred picture.

Over the years, Shen Yanghui, who is behind the scenes of Guixu Market, has really gained a lot of benefits!

Just after those pictures flicked past!

In the end, in Shen Yanghui's mind, the picture was finally fixed on a fist-sized piece of wood.

Say it is wood, it looks exactly like ordinary wood, without any special features.

However, Shen Yanghui's consciousness reminded Chen Feng that this thing definitely has a great background!

This thing was specially handed over to his wife and brother Shen Yanghui by Taoist Changning before leaving!

The Changning Taoists were the mysterious overseas powers that pioneered the Guixu Sea Market and established the order of the Guixu Sea Market.

It is the real controller of the entire Guixu Sea Market.

Although he is a casual cultivator, his strength is almost comparable to the great elders of the great sects of the Eastern Desolation!

The strength of Daoist Changning before he left had already surpassed the Star Soul Martial God Realm and reached the Shifang Dongtian Realm.

However, Shen Yanghui only thought of the piece of wood, and did not continue to think about where it is.

Chen Feng asked directly, "Where is that piece of wood?"

This question caused Shen Yanghui's eyes to show shock on the spot.

Although he didn't speak, he didn't say anything.

But in my mind, the answer was quickly given-before Daoist Changning left, he gave him the shameless piece of wood for safekeeping.

And let him, in the depths of the core island, in a secret realm of magic circle, cultivate rituals.

It has been standing there for so many years.

Chen Feng easily got the news he wanted.

Dang Even grabbed him and strode towards the mansion below.

With Shen Yanghui in hand, no one dared to stop Chen Feng, and smoothly entered the inside of the mansion.

Looking down from above, those mansions are already impressive enough.

But after really entering, Chen Feng still had to sigh.

It's not an exaggeration to say that this is a mansion of ordinary people!

Extremely extravagant!

It's nothing more than using the star primordial stone as decoration, and there are many materials and magic weapons that others can't ask for!

Here, it is just used as a decoration.

Moreover, there are also many small teleportation arrays that are usually fine and will not cost.

Chen Feng came to Shenyanghui's study.

According to the thoughts in his mind, the entrance to the dark room was easily found.

Looking at the small teleportation arrays in the dark room, Chen Feng sneered and glanced at Shen Yanghui in his hands.

"Save in categories, you have Yaxing."

Seeing Shen Yanghui frowning, all his underpants were stripped off.

Chen Feng stepped in and searched one by one.

No matter how stupid Shen Yanghui is, he still knows what method Chen Feng uses to learn what he thinks.

And this cognition was naturally explored by Chen Feng.

After he cleaned up all of Shen Yanghui's belongings, Chen Feng finally walked out of the dark room and came to the study.

When Shen Yanghui saw Chen Feng walking towards the study, his face immediately turned pale.

"No! You can't pass!"

Without saying a word, Chen Feng cut him off with one palm.

By now, this person is no longer useful.

When I came to Shenyanghui's study, there was a special quiet room in the innermost. Entering it, there is another teleportation array.

Chen Feng used the Xingchen Yuanshi he found to spur this special teleportation formation.

Suddenly, the world revolved.

When Chen Feng came back to his senses again, the surrounding temperature suddenly became cold.

But what is surprising is that the vitality here is quite strong.

Open your eyes, and you can see a huge volcano!

He looked around, his complexion changed slightly-he should be at the bottom of the deep ocean now!

The gloomy sea water outside was tightly isolated by an extremely strong barrier.

And this piece of land underfoot should be a crater.

The reason why Chen Feng didn't dare to be sure was because there was another sea in front of him!

In the very center of the sea, there stands a volcano of much smaller scale alone.

Otherwise, there is nothing around!

Even in the sea water, there is no marine life at all.

"strange."

Chen Feng muttered to himself.

Since there is no marine life here, it is located at the deepest part of the seabed.

It stands to reason that it should be the place with the most barren vitality.

Why is there such a strong vitality here instead?

Could it be that little piece of wood?

According to the memory Shen Yanghui got, Chen Feng quickly came to the mountains in the sea.

However, after entering, in the crater in front of you, there is another vast ocean!

There are still no signs of life.

However, the vitality is obviously richer!

In this way, it continuously crossed the sea in the sea and entered the mountains in the mountains, forming a chain of seven rings.

Finally, Chen Feng set foot on the edge of this small volcano, and finally there was no mountain inside.

This is the most central location under the Guixu Sea Market!

It is also the most vibrant place!

The deep sea is very dark, and no light is visible.

But here, there is a different kind of light.

The enchantment radiated bright light, allowing Chen Feng to see at a glance, the clear water in front of him.

This is the last mountain in the sea.

The scale is not large, but at first glance, it still seems to be bottomless.

However, this is not the point.

Chen Feng turned his attention to the center of this blue sea.

There is the destination of his trip-a special magic circle!

It was silent all around, and Chen Feng's own heartbeat and breathing could even be heard clearly.

It can be called the most barren place in the deep sea.

There were no signs of life in the seven layers of mountains and seas.

However, in the magic circle in front of him, the fist-sized wooden block that had appeared in Shen Yanghui's mind was suspended.

From the small piece of wood, Chen Feng felt the infinite source of vitality.

In an environment full of vitality, Chen Feng could even feel that every pore of herself was so comfortable that it sprang up.

Greedily absorbing the surrounding aura.

He could feel that his whole body was extremely comfortable, and his spiritual world was more like a divine enlightenment, and he felt like a sudden opening.

[Chapter 5310: Soak up the aura of the ocean! Amazing seedlings!](#)

Even closer to the magic circle, the more you can feel the power of that terrifying life.

This strength even surpassed the large Xiu Luohong furnace he had just received.

And that gold pagoda that cannot be opened for some reason at present.

Obviously, that magic circle can prevent the leakage of vitality to a certain extent, and has a spiritual gathering effect.

But the leaked heaven and earth aura still reached this terrifying scale.

It can be seen that it is extremely special!

It can even be said that this place, which I don't know if it can be called the sea, is itself full of extremely rich aura of heaven and earth!

At first in Shen Yanghui's mind, Chen Feng had no idea about this shameful piece of wood.

At that time, he only felt that since this piece of wood was in Shen Yanghui's memory, it was the most important treasure.

Then he wants to get this treasure!

Until now, he realized that this is really a remarkable treasure.

"What a good baby?"

Jin Sanye's voice also rang in his mind again.

Then, there was movement in Chen Feng's arms again.

A plump, three-eyed bird poked its head out, squinted comfortably, and took a deep breath.

"What a powerful heaven and earth aura!"

Then, Jin Sanye opened his eyes and saw the piece of wood floating in the center of the front array at a glance.

But its line of sight did not stay in that circle, but instead looked around.

Immediately afterwards, Jin Sanye's entire face was red, and he was extremely excited.

"You guy is good enough to find Ocean Heart!"

"Ocean Heart?"

Chen Feng was a little confused for a while, and looked at the wooden block ahead.

I don't know if Jin Sanye was talking about this piece of wood or something else.

"It's not that thing, it's the place where we are standing now, called Heart of the Ocean."

Jin Sanye explained.

"What the \*\*\*\* is Heart of Ocean?"

Chen Feng looked down at Jin Sanye.

Jin Sanye jumped out comfortably, and happily somersaulted in the rich aura of heaven and earth.

The feathers all over his body fluttered twice before taking back his gaze.

Looking up, Ye Feng lost a look.

Seeing that Chen Feng was asking questions sincerely, he explained patiently: "The heart of the ocean is the mysterious zone deep in the ocean."

"There is such a saying that the entire ocean is like a human body."

"There are skeletons, meridians, acupuncture points and nodes."

"And every heart of the ocean is like a node of the human body."

"The ocean we live in in the Eastern Wilderness is too big."

"The heart of the ocean here can directly mobilize the power of the ocean in a radius of ten million miles."

Hearing this, Chen Feng couldn't help taking a breath.

Looking again at the wooden block in the blue sea in front of him.

Chen Feng didn't even know what to say.

What kind of treasure is this?

Actually want to put it in the heart of the ocean, which has the power of the ocean for thousands of miles, and set up a magic circle to nurture it!

The small piece of wood that seemed to be shameful at first now became extraordinary.

However, now is not the time to sigh.

Chen Feng returned to the market this time by killing Shenyang Hui and reaping many benefits.

Naturally, there is no time and patience to wait for what happens to this piece of wood next.

If he doesn't leave anymore, the law enforcement team that he stopped outside may be about to arrive.

Taking advantage of the fact that the cultivation base has not regressed, and the efficacy of the Golden Pill is still maintained without breaking.

Chen Feng immediately flew to the front of the circle.

He stretched out a palm and pressed it on the circle in front of him.

The warm white light in his hands instantly lit up here like daylight.

Shen Yanghui is a slacker.

Chen Feng seriously suspected that the magic circles that can be seen everywhere in Guixu Sea Market are basically his ideas.

As long as there is enough aura to motivate, it can run on its own.

Including this gathering spirit circle.

When the circle was urged, the void seemed to shake suddenly.

There was an endless breath of life from all directions, the rich aura that was originally in the air.

At this moment, they are all swarming in the direction of the magic circle!

The power of the ocean, which can be mobilized by the heart of the ocean, swarms in mighty tens of thousands of miles.

On the most surface layer of Guixu Sea Market, there were many practitioners who lingered in various stalls.

Suddenly, as if sensing something, they all looked towards the outside of the crater.

"Do you feel..."

Someone looked at the companion beside him, with a hint of doubt on his face.

However, when they saw each other's expressions, they were obviously exactly the same as themselves.

The sea seemed to be just now, the invisible earthquake trembled!

Some practitioners reacted extremely quickly.

Flew directly beyond the crater, overlooking the sea below from a high altitude.

Then, their faces all changed, and they looked into the distance in disbelief.

A tiny wave generated from below them, as it spread outwards, it quickly expanded from a ripple to a wave flower!

Then, it spread out again and became a wave.

Until this wave gets higher and higher and spreads to the sea level!

As if, there is already a silver white thread!

This is the tsunami!

Beyond the sea level, I am afraid I will suffer!

"What the \*\*\*\* happened? Did something change below?"

At the top of the Guixu Sea Market, many cultivators were anxious and quite frightened.

As for Chen Feng, who caused all this, his eyes were straightened at this moment.

He stood in the middle of the heart of the ocean, watching the magic circle in front of him concentrate the endless aura of heaven and earth in the wooden block of fist.

Then, in a bright light.

A tender green sprout grew out of that plain piece of wood!

When this tender green bud appeared.

The power of the ocean and the aura of heaven and earth that were almost full of the magic circle disappeared in an instant!

All were swallowed up by this sharp bud!

At the same time, the shoots slowly grow and branch at a speed visible to the naked eye.

When the arrangement of the Spirit Gathering Array suddenly shattered!

A verdant sapling replaced the previously inconspicuous block of wood.

Its roots are crystal clear, shaking slightly in the air.

A thin seedling is upward, with a drop of water.

Just like the dew in the morning, the seedling is embellished to make this seedling more lovely and vibrant.

Chen Feng looked down at San Ye Jin who was hiding in his arms again: "What is this?"

It doesn't look much different from ordinary young saplings, but the variety is not visible at all.

However, when looking at it, there is a feeling that even the soul has to be absorbed.

The height of this seedling is only the size of a palm, and it is a circle larger than the wooden block with the previous fist size.

But for some reason, the more I stared at it, the more Chen Feng felt that he was so small in front of this seedling!

Obviously, Jin Sanye would definitely feel the same way.
