

Peerless 5451

[Chapter 5451: There is a keel at the end of Lei Chi!](#)

"After I was taken away from home, there are some memories of Elder Li Wenxuan in my mind."

"There is indeed one of the Seven Treasures here. It should be the Golden Fan of Extinguishing the World."

"In the past, Elder Li Wenxuan had been here."

"As far as he knows, the secret realm of the Dragon Tomb is indeed a secret realm created by a powerful person to destroy the world with a golden fan."

"However, there is no killing formation at the entrance to the secret realm."

He looked at the growing murderousness around him, his expression serious.

"There should be only an ordinary phantom array."

"The entrance to this secret realm must have been moved by someone."

Chen Feng nodded.

In this way, the original idea of the powerful person who left the golden fan of exterminating the world was fairly simple.

He just didn't want to make it so easy, so he took away the Golden Fan of Destruction.

But for so many years, one of the seven treasures has never been obtained.

The reason seems to be here.

"Even the entrance to a secret realm has become so dangerous."

"Not to mention the inside."

The hearts of the five people immediately cast a shadow.

Boom!

There was another loud noise.

In the great formation, thunder was actually dropped.

The powerful aura is full of the second cave of the ten-square cave realm!

Chen Feng acted decisively and took out the overhaul Luohong furnace.

"Leave this to you."

He looked directly at the direction the psychic gourd was sensing.

"If I guessed correctly, the only breakthrough should have appeared."

Everyone followed his gaze.

Sure enough, a thunder pond appeared right in front of you!

Si Konghao reacted immediately.

Chen Feng actually planned to go alone!

"You are crazy!"

The other three also reacted, and they all stepped forward and held Chen Feng.

However, Chen Feng's eyes were firm.

He looked at everyone.

"Since the Secret Realm was created for the Golden Fan of Destroying the World."

"So, no matter whether there is something wrong with the formation or rules here."

"As long as you master the Golden Fan of Destroying the World, refine it."

"The entire Dragon Tomb Secret Realm will also be under my control."

This is the only way to get out of your body!

Lei Chi is a hundred meters wide and stretches towards the unknown front.

Dense thunder and lightning continue to intersect and fall.

In addition to being able to perceive that the foreign treasure is in front of him, Chen Feng's consciousness is even difficult to pass through.

Above the head, the sky was full of clouds shaking.

Thunder light from all directions came surgingly and gathered here.

This formed the thunder pond condensed by thunder light.

Chen Feng walked forward slowly.

Did not take a few steps, suddenly stopped.

He turned his head and looked at everyone.

"If you notice, the Great Asura Luo Honglu suddenly loses contact with me."

"Don't hesitate to refine it."

"Should be able to help you leave this place safely."

Upon hearing this, the four of them changed their faces.

"Chen Feng, what do you mean by this!"

"Brothers come and go together!"

Chen Feng shook his head.

The responsibility for this incident lies with him.

It was he who wanted to lead Zhongli Yaoqin into the top of the sky.

Therefore, the Tianshu Sword Sect must first rise again.

For this reason, four people from the major sword sects came here to experience and improve their strength.

They shouldn't have to suffer this sin.

It was all to help Chen Feng win the top spot in the Zongmen Competition.

Otherwise, how could you be trapped here.

Although Chen Feng is not a kind-hearted person, he doesn't like to take care of everything.

But since the four were dragged into the water by him, he is responsible to them.

"Chen Feng, what are you doing?"

"No, you must not go there, it's too dangerous!"

Sikonghao's eyebrows were erected, and he took a step forward.

Chen Feng smiled lightly and stopped him.

"You can rest assured. This is the worst case."

"With my strength, it's not a problem to be a mere thunder pool."

The people behind him wanted to say something, but Chen Feng stopped them.

"I have decided to go, you take care of yourself."

"Don't worry, my life is hard."

Sikonghao stomped his feet in a hurry.

"I told you everything, I have the memory of Elder Li Wenxuan."

"No one knows better than me!"

Not only that, Si Konghao is now the third hole of the Shifang Dongtian realm.

He was more aware of the danger here than Que Yuanyi and others.

Chen Feng's "a mere thunder pool", even if he entered, he will die forever.

Que Yuanzhou brothers stepped forward together, trying to hold Chen Feng.

Yin Haoran on the side was even more regretful.

If I knew it, I wouldn't bring them here to experience.

However, what Chen Feng decided to do could not be stopped by anyone!

The four of them could only watch Chen Feng leave.

He was alone, with only a broken knife beside him.

Step by step, walk towards Lei Chi.

When Chen Feng stepped into the Lei Pond, the entire Lei Pond burst wildly.

Boom!

Countless shocks exploded.

The sound waves are overwhelming and majestic.

Except for Si Konghao, the three of Que Yuanzhou could not resist.

They could not urge the great Xiu Luohong furnace, and hid in.

Loud crackling noises sounded one after another.

Countless large and large electric lights of various colors, flapping their heads and covering their faces, swarmed towards Chen Feng.

The world is full of violence!

Obviously it was just thunder, but there was a shock of violent wind and huge waves.

The space was torn repeatedly under lightning strikes.

Repeatedly recover.

"what--"

The clothing immediately turned to ashes.

Chen Feng only felt that his whole body was about to explode!

The dense blade light couldn't stop the endless thunder.

The arrogant power of thunder and lightning, along with the power of the vast stars, rushed into every pore.

Dip from the skin, raging in the body all the way.

Such brutal and arbitrary lightning, the damage caused is undoubtedly devastating.

However, Chen Feng is completely fearless!

Because, after this absolute destructive power, what follows is transformation!

In the thunder light, there is also the power of vast stars.

And, the purest heaven and earth aura.

Failure to survive is death.

But if you can survive this thunder pond, it is the best tempering of the physical body!

Chen Feng hadn't taken ten steps yet, and Chen Feng was bloody.

The breath is dying to the extreme.

Life is dying!

It is possible to be smashed into pieces by the following lightning at any time!

But those thunder lights submerged behind his star sea world.

The seedling of the World Origin Tree is even more verdant!

The brilliance flickered and became brighter.

On the young leaves, there was another drop of crystal dew.

It fell slowly.

In the next moment, the dazzling Huaguang shines through the vast Xinghai World.

Infinite vitality came out vigorously, like a long drought and spring rain, washing every gap in the body over and over again.

Chen Feng, who had been dying to death, was rejuvenated at a speed visible to the naked eye!

"The World Origin Tree will give me strength when my origin dries up."

"This is equivalent to giving me a huge hole card!"

Chen Feng immediately laughed.

Lifting his eyes again, looking at the sky full of thunder, the ink danced wildly.

Then, he strode forward and rushed in frantically.

"Chen Feng!"

Sikonghao and the others could only watch him and disappear into the dense thunder.

[Chapter 5452: Dragon Soul is different!](#)

In this way, Chen Feng kept going deeper.

The deeper he went, he was sure.

Something must have changed here!

Outside the secret realm, it looks unusually calm, but the further inward, the more raging and disordered the power.

I don't know how long it took before Chen Feng finally came to the end of Lei Chi.

At the end of Lei Chi, there is an empty dense forest wasteland.

It was like an isolated world.

No thunder, no anger.

Yes, besides deathly silence, it is a huge bone!

"What is this?"

Chen Feng raised his head and looked up.

A whole piece of bone, not high!

He has seen countless giant monsters, but none of them is as huge as a mountain!

When the last thunder light fell behind him, he completely left the thunder pond.

The thunder gradually weakened.

But at this moment.

"Hey....."

A sigh trembled between the heaven and the earth, and went straight into Chen Feng's heart.

Implicated in the entire golden spiritual world, followed by a stormy sea.

And the entire thunder pond behind him trembled suddenly.

Chen Feng even felt that this secret realm was turbulent.

Everything seems to have undergone a certain change at the moment he entered this mysterious land.

"What's this sound?"

Chen Feng looked different and was extremely alert.

The hand is interrupted and the knife is held tightly, which can burst at any time.

Or, run away!

Then, his gaze slowly fell in front of him, above this huge white bone.

The mysterious voice just now seemed to come from the deepest part of the giant bone.

But after that sigh, there was a long silence in this world.

However, the thunder pond behind him seemed to become more raging and terrifying.

Chen Feng stepped into the air, wanting to find out.

However, after flying high in the sky, Chen Feng's expression suddenly changed.

He was deeply shocked.

The huge white bone in front of me is a complete dragon skull!

The dragon bows its head!

Here is the real Dragon Tomb!

Chen Feng looked down from a height.

I saw a huge hole above the extremely huge skull.

It's a hundred meters thick!

It seems that this dragon was killed by such a fatal blow.

Suddenly, Chen Feng's heart trembled fiercely.

"That hole shouldn't be..."

One finger penetrated the head!

What kind of terrible battle was it to make such a terrifying dragon fall here.

Annihilation!

Chen Feng's expression trembled.

This dragon skull is ten million meters long!

It was much larger than the heads of all the dragon monsters he had seen.

"Definitely a top demon."

He just thought about it.

"Hey....."

There was another sigh.

Behind him, the thunder in the thunder pool suddenly violent.

In the dark, even a shocking roar could be heard vaguely.

And Chen Feng in the void was shocked violently.

He almost fell from the sky.

The sigh just now was particularly deep and deep.

It seems to have come across the ages, with endless regrets.

But it was this sigh that caused Chen Feng's body to hear the sound of a mountain whistling and a tsunami!

His blood started to boil on its own!

This mysterious sigh aroused the power of his blood.

After Chen Feng stabilized his figure, his eyes once again fell on the extremely large dragon skull.

This dragon skull is a priceless treasure!

The most surprising thing is that the psychic gourd, one of the Seven Treasures, and the fragments of the artifact, are shaking.

They give a guide to destroy the world golden fan.

Amazingly, it is in the deepest part of the dragon skull!

And that sigh seemed to come from there.

After thinking for a moment, his complexion gradually became firmer.

In the next moment, Chen Feng rushed straight into the huge hole above his head.

Go deep into the dragon skull very quickly!

After a few breaths, he stopped suddenly.

Not far in front, there is a long fan with turquoise borders floating in it.

The long fan kept emitting a light blue light.

The light was shining and extinguishing, as if it would go out at any time.

Gives a feeling of dying years.

And what the psychic gourd and the artifact fragments point to is this three-meter long fan.

"This is the Golden Fan of Destroying the World?"

Chen Feng couldn't help but wonder.

The aura of this world-destroying golden fan in front of him is not even as good as a psychic gourd.

But everything is strange.

Why is there no owner floating here?

Why, in the mind of this keel?

"Hey....."

There was another loud noise.

The voice was too deafening, even with a certain rhyme.

Chen Feng's body was struck by lightning, and suddenly dizzy.

too frightening!

This force is too strong.

There seems to be a tendency to go beyond what Chen Feng can bear.

And what shocked him even more was that this time, he really found the source of the sigh.

Amazingly, it is in the golden fan of the world in front of you!

As the sigh sounded, the long fan suddenly shone brightly.

From inside, an extremely weak...dragon breath came out!

"The dragon soul of this giant dragon skull is not destroyed?"

Chen Feng almost exclaimed out loud.

What exactly is going on?

The dragon soul is not extinguished, and the golden fan of the extinction world depends on it.

The two have a feeling of complementarity.

At this moment, a low voice slowly came from the golden fan of the extinction.

"A hundred years, you are still the second person to come here."

The sound was just like a few sighs just now, generally the same.

And when this sound sounded, the long fan in front of him burst out again with a light blue light.

Chen Feng was actually prepared.

This is the voice of the Dragon Soul!

Although it is not extinguished, it is extremely vicissitudes of life.

Like a dying old man, time will pass by the wind.

Chen Feng stood in the empty giant dragon's head and looked up at the Golden Fan of Despair.

As if feeling Chen Feng's gaze, the World Extinguishing Golden Fan swayed and came to Chen Feng.

Hum!

The cyan light flashed.

At the next moment, a ghost appeared in front of Chen Feng.

That's a rickety old man!

There are two sharp dragon horns on the forehead.

Chen Feng was shocked.

This person must be the original body of the dragon skull.

Dragon Soul!

However, after the shock, Chen Feng keenly noticed.

The old dragon soul looked at him with disappointment and disdain.

"The old man has been waiting for a long time, how can you wait, but you are such a hairy boy."

These words made Chen Feng somewhat at a loss how to react.

The old dragon soul in front of him seemed very arrogant.

Even if the body died away, leaving only the last ray of dragon soul, but still standing with his hands.

The chin is lifted higher than the sky!

This calmed Chen Feng.

He stepped forward, neither humble nor arrogant.

"I heard one of the Seven Treasures was dropped by a great power here."

"It seems that the rumors are wrong."

"Senior himself stayed here, and dropped the treasure to talk about where he came."

Hearing what he said, the old man of Dragon Soul was a little surprised.

He finally lowered his head and looked at Chen Feng.

"Do you know that I am the former owner of the Golden Fan of Destruction?"

A smile appeared on Chen Feng's face.

[Chapter 5453: There is only one way!](#)

"It can be placed in the golden fan of Destroying the World, and can change the laws of the secret realm."

"Only the original owner can do it."

Hearing this, the old dragon soul finally laughed.

"It seems that the old man is underestimating you."

"You kid, you still have the ability."

Chen Feng smiled and said nothing.

In fact, he didn't expect this at first.

Before seeing the Destroyer Golden Fan, he thought that the Secret Realm had encountered some kind of accident.

However, when he saw the dragon soul old man appear, he suddenly realized.

Whether it is the illusion change at the entrance of the secret realm, or the test of the thunder pond behind, it can never be caused by accident.

If so, it should be a mess here.

There are no rules at all!

Therefore, there is only one possibility for the truth.

But at this moment, the laughing dragon soul old man suddenly coughed violently.

In an instant, the extinction golden fan shines brightly!

A majestic and supreme murderous intent burst out of it.

Chen Feng suddenly changed color and instinctively swung a broken knife to resist.

Cang!

A crisp sound of gold and stone was deafening.

Chen Feng's mouth was **** and bloody, and his figure violently withdrew, slamming against the white bones on the edge of his skull.

Blood rushed in his body, and a mouthful of fishy sweetness rushed to his throat instantly.

He looked at the old dragon soul for the first time.

Sure enough, the next moment, the dragon soul old man suddenly changed his breath and became extremely irritable.

But in a blink of an eye he recovered.

He struggled to look at Chen Feng and spoke with difficulty.

"Boy, the old man has limited time to be awake, so I will make a long story short."

"You have the ability to step through the thunder pond, and you can also be considered to have completed the old man's test."

"Next, there is only one way to obtain the Golden Fan of Destruction."

"Kill the old man!"

Chen Feng suddenly had a bold idea.

Perhaps this place is not a secret realm.

Just the old man's dragon tomb!

He just wanted to find a master for the extinct golden fan in his hand before he died.

But unexpectedly, the Dragon Soul had an accident at the end.

There seems to be another breath, blending with it!

In desperation, the old man could only take advantage of his sober time to change the law of the secret realm.

Makes the entire secret realm into a violent state.

This will not let a large number of monks die in vain!

The face of the dragon soul old man was tragic.

If you can survive, who is willing to die!

Especially his great ability, once had a glorious past.

Who would have thought that it would have fallen to this point.

The more Chen Feng thought about it, the more he felt like he thought.

He looked at the old dragon soul in front of him, and was about to speak.

Suddenly, the face of the old dragon soul in front of him changed.

The next moment, he hugged his head in both hands, roared and struggled with great pain.

"what--"

As his breath went wild, the entire void began to vibrate violently.

Within the huge keel, a fierce hurricane rose out of thin air.

The strength of this hurricane, even Chen Feng's physical strength, could not be withstood for a while.

The entire keel also kept making "crunchy" loud noises.

But the scorching wind pierced the bones, but it didn't even leave a trace.

This is the true strength of the old dragon soul in the past!

Unimaginable powerful!

The next moment, the breath in front of him suddenly changed.

The skull, which was originally empty, was completely covered by another powerful aura at this moment.

Chen Feng was so squeezed that he was bloodshot and his eyes opened violently.

He raised his head with difficulty and looked at the old dragon soul not far in front of him.

A violent breath rushed to his face.

"Roar!"

Accompanied by a roar that pierced through the clouds and cracked the sky, the dragon soul old man in front of him suddenly burst into an extremely dazzling light.

Chen Feng sighed badly in his heart.

He had no time to react, so he could only turn his cultivation base to the extreme.

"Hahahaha..."

Immediately afterwards, the presumptuous laughter sounded from the old dragon soul's mouth.

However, the sound is completely different from before.

The dazzling brilliance gradually faded, and Chen Feng was finally able to see the person in front of him.

There was a violent shock in his heart, and his face immediately sank.

The person in front of him is still the appearance of the old dragon soul.

But it's totally another kind of breath!

The truth is exactly the same as he had just guessed.

The soul in front of him is actually a combination of two souls.

This violent aura was dragged here by the dragon soul old man.

Then, in the turbid eyes of the old man, two dreadful cold lights burst out.

This new breath is stronger than the old dragon soul!

But it is even more coercive.

"I said, who awakened us, I didn't expect it to be you, a brat."

Although this person is facing the appearance of the dragon soul old man, his whole body shoots out a biting murderous intent.

For some reason, Chen Feng discovered by accident.

Although I don't know what this person really looks like, he should be an individual.

That is the murderous intent of a human monk.

Moreover, when this person appeared, his blood seemed to tremble slightly.

Chen Feng looked directly at the person in front of him.

Unlike the dragon soul old man, this person is extremely arrogant and extremely cruel.

Even if he was just standing there, his whole body was filled with an extremely violent breath.

"Who are you? You killed Senior Dragon?"

Although Chen Feng's words were doubtful, they had already spoken with a certain tone.

Looking at his stubbornness, neither humble nor arrogant, the man lowered his eyes and smiled disdainfully.

"It's me, why?"

"Want to avenge that waste dragon?"

Chen Feng felt unhappy for a while.

It is true that he did not intend to avenge the dragon soul old man.

To be honest, it was only time for a cup of tea from seeing the old dragon soul to now.

Even if he emphasizes love and righteousness, he is not a foolish person.

It's just that the disdainful attitude the person in front of him looked at made him very upset.

Chen Feng was too lazy to explain what this person said.

He suddenly thought of something and sneered.

"You said that he was trash, but you were forced to fight him and have been entangled to this day."

"Speaking of which, you are nothing but that."

As soon as this remark came out, it really touched the anger of the mysterious person in front of him.

The mysterious man glanced at Chen Feng with extreme disdain.

"If I kill this waste dragon, do I need to dispatch the real body?"

"A ray of divine consciousness is enough, lift your finger to pierce through, and crush the star sea."

Chen Feng was indeed shocked when he said this.

The mysterious person in front of him must have the breath of Shifang Dongtian realm and above.

But this is just a piece of his spiritual knowledge!

With just a ray of spiritual knowledge, one can penetrate the body of the dragon with one finger!

How powerful this is!

He thought the mysterious man was already very strong, but he still underestimated it.

This person's real body is at least a top-level supreme-level powerful person!

Boom!

The thunder pool behind him is constantly expanding.

As far as I can see, the breath of all places has become extremely violent.

Everything is just because of the awakening of mysterious people.

[Chapter 5454: clue!](#)

Not only that, but Chen Feng looked behind the mysterious man.

The Desperate Golden Fan is also changing!

It exploded with a strong breath and seemed to be struggling hard.

The mysterious man slowly turned around, looked at the Golden Fan of Destruction, and smiled contemptuously.

"This kind of scrap iron can also be called a treasure."

"For this, he created such a secret before dying."

"Well, that's it for nonsense. You can go to death."

The next moment, the mysterious man turned his head back with his hand and looked at Chen Feng with a cold face.

He slowly raised his hand and hooked towards Chen Feng.

Boom!

Within the extremely distant thunder pond, a thick thunder was caused by Shengsheng!

This is the strength of a mighty one!

Even if there is only a ray of spiritual consciousness left, even if many years have passed.

But it can still rain!

Chen Feng raised the broken knife, not daring to underestimate it.

"Fairy Mo Rin, still looking forward to help!"

This is his hole card, but at this moment he can only use it as a hard fight.

The old dragon soul really looked at him highly.

The strength of this person in front of him is far above the fourth cave of the Shifang Dongtian realm.

He even struggled to protect himself.

boom!

The moment Lei Guang rushed to Chen Feng, a figure suddenly disappeared.

I saw Chen Feng rushing to the mysterious person, and in an instant, he merged with Immortal Mo Rin.

At that moment, a strong breath erupted from his body.

The printing light flashed.

The roar of the ancient battlefield rushed over.

The smile on the mysterious man's face suddenly stagnated.

After that, he was forced to take a small step back by that knife!

He raised his eyebrows, seeming a little surprised.

"You are a bit capable, and it hurt me."

"But it also means that you successfully aroused my anger."

Boom!

A more powerful violent breath came out!

He rushed to Chen Feng in an instant!

"puff!"

Chen Feng was unable to parry and was knocked into the air.

He vomited blood and his bones were broken.

In the body, the turbulent breath ran like a headless fly that had lost its direction.

It exacerbated his injury.

To make matters worse, for some reason, the world origin tree in Xinghai World suddenly remained motionless.

It seems...some fear?

"Could it be that I am going to die here today?"

Chen Feng was extremely unwilling.

Relatives and friends have never been resurrected, and many causes and effects have never ended.

Even his life experience is still unknown.

How can you die right now!

"I can't die!"

He had a hideous and contorted face, and he vomited a mouthful of blood viciously.

He looked up and fixed his eyes on the mysterious man.

At this moment, the power of his bloodline was ignited!

At this moment, the violent aura stopped abruptly.

"what?"

The man suddenly stopped attacking, with a trace of surprise on his face.

Then, he appeared in front of Chen Feng in an instant.

He stretched out his hand, grabbed Chen Feng, and blasted a breath into his body at will.

Chen Feng couldn't even struggle.

"let me go!"

He scolded loudly, only feeling extremely humiliated.

But the person didn't care at all, and looked back and forth.

As soon as Chen Feng's blood origin was detected, the mysterious man was suddenly struck by lightning.

Withdraw all power instantly.

There was a look of fear on his face!

Such a reaction is really weird.

Chen Feng's heart shuddered.

Could it be that you know your own blood and life experience?

"Hey....."

"I didn't expect to be here, I saw..."

"You are also a poor man."

Hearing these specious words, Chen Feng was excited.

He is more determined, and the person in front of him must know something.

"who are you?"

Chen Feng asked in a deep voice.

The surrounding area is quiet, and it is like two worlds with the burst of just now.

The mysterious man slowly informed him after a long silence.

"You can call me the old man in the wild forest."

"It's your little friend, what's your name?"

"Chen Feng."

The man nodded, and as expected, you are the forgotten person in the legend.

Chen Feng asked.

"Do you know who I am?"

He desperately wants to know his life experience.

Including the figure that looks like him seven or eight, including his...father.

Including the very fast fragment of memory that I accidentally saw.

At the age of three, he was imprisoned in a water prison.

There are layers of immortal cultivators around, all expressionless, watching him wailing in pain...

The strength of those people is extremely powerful!

It was so powerful that he didn't feel the strength of the opponent at the beginning.

He knows very well that even if he is now, facing those people, he can still only look up!

The stronger you are, the more you can realize the terribleness of those people!

However, the old man Huanglin looked at him with a calm expression.

"Little friends, don't be curious about these."

"You now don't have the strength to understand the truth."

"If I said it at the moment, it would have harmed you."

Chen Feng was extremely shocked.

Although the old man in the wild forest did not say any news.

However, this attitude is not a hint.

His life experience seems to have a lot to come!

For the first time, Chen Feng felt that the truth was so close to him.

"Then when do I have to wait to be eligible?"

The old man Huanglin thought for a moment, and then sighed.

"At least you have to wait for the Great Perfection of the Shifang Cave Heaven Realm."

"At that time, you will be qualified to pry into the truth."

Chen Feng suddenly set off a wave of waves in his heart.

The Great Perfection of Shifangdong Sky Mirror!

He hasn't even entered the Shifang Dongtian realm now!

Seeing Chen Feng seemed to be a little discouraged, the old man Huanglin suddenly thought of something and laughed.

He changed the conversation.

"If you can really live to the Great Perfection in the Shifang Cave, you can go to the Western Desolate Immortal Territory at that time."

Chen Feng immediately lit up.

Although only talented, the old man in the deserted forest is extremely irritable.

But since recognizing himself, he seemed... quite friendly.

"In the Western Desolate Immortal Territory, go to the Guixu Immortal Sect."

When he said this, the old man Huanglin looked a little subtle.

He seemed to think of something, and he laughed.

There is no longer the previous look of being aloof and despising sentient beings.

"Since you boy appeared here, maybe it's a chance."

"That's it, I will help you today, old man."

The next moment, the old man in Huanglin suddenly burst out with extremely bright light.

Chen Feng not only closed his eyes.

But, almost at the same time, he was terrified in shock.

The old man in the Wild Forest took the initiative to pour all his strength into his body!

"You are..."

He opened his eyes desperately.

Despite tears in his eyes, he looked forward in surprise.

The old man in the wild forest was laughing.

"I can see that you have the power of luck for a whole little thousand world."

"Not only that, there are too many fruits in your body."

"A lot of cause and effect can survive to the present, and the future is boundless."

Guanghua gradually dissipated.

Chen Feng once again saw the appearance of the old man in Huanglin.

At this moment, the old man in the desolate forest raised his head, penetrating the void and looking towards the distant sky.

[Chapter 5455: It turned out to be this sentence again!](#)

"I want to see if you can turn that world upside down in the future."

He laughed, but a touch of sadness was born.

On the dragon soul old man, the aura of the barren forest old man was quickly dissipating.

Chen Feng still had many doubts in his mind, but he also understood.

He won't say it anymore.

However, at this moment, the last sigh of the old man from Huanglin suddenly sounded in the void.

"I have an immortal heart, but I am locked up by the dust. When the dust is exhausted, I will shine through the mountains and rivers.

This is Chen Feng hearing this sentence again!

He was struck by lightning, shocked.

The voice was like that of Huang Zhong and Dalu, and the words hammered into Chen Feng's mind.

But again!

The last breath of the old man in the barren forest also completely dissipated.

He could not ask at all.

"This sentence... what does this sentence mean?"

"This is already the third person to say this."

There are all kinds of doubts in his heart, but he can only be sure of one thing.

Maybe one day.

He solved the mystery of his life experience and returned to the place that the old man in the wilderness had just said.

Everything will have an answer.

He followed the final gaze of the old man in the wild forest and looked around.

Through the boundless void, he seemed to see a magnificent strange world.

At this moment, his power is skyrocketing!

The spiritual world was turned upside down and expanded again.

In Xinghai World, it is also radiant!

In the second round of the big day, Qi Qi burst into a dazzling light.

Countless stars are shining each other, and the ten big moons ebb and flow like tides.

Finally, after the light dissipated, a new round of big sun unexpectedly appeared in Chen Feng's Star Sea World!

Three rounds of the big day, at this moment, circle around.

In the middle, there was a sapling that was not as big as a palm. *NovelsB.COM*

At this moment, Chen Feng has completely reached the peak of the eleventh floor of the Star Soul Martial God Realm!

You can break through at any time!

In the spiritual world, the Mo Rin fairy smiled and celebrated.

Chen Feng opened his eyes again, his eyes bursting into a strong breath.

"Little friend, how did you do it!"

As soon as he opened his eyes, the excited voice of the old dragon soul came in front of him.

The ray of consciousness of the old man in the wild forest has disappeared.

The dragon soul old man finally regained his consciousness.

He looked at Chen Feng in shock.

He didn't know anything about everything that happened between the old man Huanglin and Chen Feng.

Chen Feng looked at the person in front of him, his breathing suddenly became short.

Although, the old man Huanglin could not tell him the truth.

However, the senior dragon in front of him must know the origin of the old man in the barren forest!

He held back the excitement and asked with open mouth.

"Senior, I want to know, who is that old man in the barren forest?"

"Where did he come from?"

Seeing Chen Feng suddenly asking this, the old dragon soul was also a little surprised.

For a time, there was no direct answer.

In desperation, Chen Feng had to selectively tell the people in front of him about the incident.

"That's it."

The face of the old dragon soul was calm, but his heart was already terrified.

He thought that Chen Feng was just a junior with some chances.

It was a fluke to be able to find the entrance to the secret realm and hold a pool of thunder pond tempering.

But everything later seemed to be telling him.

All this is a matter of course.

"Even that person is jealous of your blood. It's no surprise to be here if you want to."

Chen Feng held back his extremely urgent mood and asked again.

"So, I hope seniors will tell me."

"What is the identity of this old man in the wilderness?"

"Where did he come from?"

What is the relationship between Guixu Xianzong of Xihuangxianyu and his life experience?

More importantly, that sentence appeared again!

He was so shocked!

However, facing the extremely urgent Chen Feng, the old dragon soul just closed his eyes and shook his head.

"I can't tell you the identity of that person."

As soon as he said this, Chen Feng frowned.

He stepped forward.

"Why?"

The dragon soul old man looked quite kind, unlike a deliberately making things difficult.

"Don't worry."

Seeing that Chen Feng's reaction was so intense, the old dragon soul raised his hand to signal.

"Since even that person speaks bluntly, with your current strength, you are far from able to get a glimpse of the truth."

"If the old man told you his identity now, wouldn't it hurt you?"

He sighed long.

"You are the first person to survive the thunder pond tempering in so many years and survive that person's hands."

"The old man is also counting on you to inherit the inheritance left by the old man."

"How could I harm you in vain."

Upon hearing these words, Chen Feng said that he was not disappointed.

However, the old man in front of him was really kind.

But he still refused to give up.

"Can't you really say anything?"

Finally, unable to withstand Chen Feng's repeated questioning, the old dragon soul still relaxed slightly.

"The old man can only tell you that he is a strong man from a certain world."

Hum!

Chen Feng's mind suddenly exploded.

Great world!

The old man in the wilderness is actually a supreme powerhouse from the great world!

A bloodline that even the strong from the great world must be afraid of.

Then what kind of identity will he be!

And why does it appear in the Dragon Vein Continent?

Does his master understand his origin?

For a time, Chen Feng's mind was filled with paste.

Too many questions and shocks are mixed together.

His breathing became hurried.

The hand holding the broken knife was loose and tight, tight and loose.

After a long while.

Chen Feng finally calmed down, staring solemnly, and looked at the old dragon soul in front of him again.

"Dare to ask seniors, what kind of world is this world?"

However, this time, the old dragon soul shook his head slowly.

"That's not something you can think of now."

"The old man has only captured a trace of the laws of the world throughout his life."

"But I don't want to, it has caused such a disaster."

Hearing the news accidentally revealed by the Dragon Soul old man, Chen Feng's heart was constantly shocked.

The old dragon soul in front of him, that is, the giant dragon covering thousands of miles, can only do this!

Even if it has fallen so far, no one will doubt it.

Before his death, this predecessor of the dragon must be a top powerhouse in the mysterious world!

Even he was completely destroyed by this, and his bones were buried here.

How terrifying this world is!

As if seeing through Chen Feng's thoughts, the old dragon soul smiled again.

"Boy, don't be impatient."

"Since that person has a high opinion of you, you must be on the avenue and you will be able to go very far."

"It's a bad thing if you are eager to get results."

By now, Chen Feng had calmed down.

Whether it is the dragon soul old man or the wild forest old man.

They are right.

With his current strength, it is far from enough!

"After so many years of searching, why rush for a while?"

Chen Feng secretly said in his heart.

[Chapter 5456: A gift from the dragon soul old man!](#)

In his eyes, the gaze narrowed and became deeper and deeper.

Although thinking like this, because of this, he wants to improve his strength even more urgently!

"I want to achieve what the old man in the deserted forest said as soon as possible, Shifang Dongtian realm is great!"

"Then, I got a glimpse of the truth."

"Perhaps in the near future, I will also be able to enter a certain world."

"At that time, all the truth will finally emerge in front of you!"

After understanding all this, Chen Feng finally returned to his senses and focused on what was in front of him.

The old dragon soul admired his character very much.

Not arrogant or rash, practical and tough.

There is a lot to do if you continue to do so.

"Chen Feng, you surprised the old man very much."

When he first saw Chen Feng rushing through the thunder pond, the old dragon soul sighed repeatedly.

An ordinary monk has not even reached the Shifangdongtian realm.

In his opinion, he was seeking his own way again.

But I didn't expect to have such a surprise.

Actually let the sense of the old man in the wild forest completely disappear, and let him completely regain consciousness.

"Chen Feng, come here."

The old dragon soul smiled and waved.

Then, he turned around and handed the shining golden fan of the world to Chen Feng.

"Now that the old enemy has completely disappeared, the old man will soon be alive."

"One of the Seven Treasures, you must keep it away."

He raised his head, his gaze penetrated the void and looked in the direction of the dragon.

"However, this golden fan of exterminating the world is nothing but an accidental result of the old man."

"The real gift of the old man is not just that."

"The entire Longzhong Mountain Range is a gift left by the old man to latecomers."

Chen Feng nodded.

It must be an extraordinary place to be able to enter the eyes of Jian Haoran Yin Haoran.

After so many years, there are naturally not a few monks who have gained income here.

After hearing the words of the dragon soul old man, Chen Feng not only raised his respect for the person in front of him.

Willing to use oneself as the way to pave the way for latecomers.

The spirit of Senior Giant Dragon is already beyond ordinary people!

"The Destroying Golden Fan will give you a gift. After you are refined, the entire secret realm will be under your control."

"But, the old man hopes that you don't swallow all the benefits."

"Give all sentient beings, more possibilities."

Chen Feng nodded solemnly.

"Seniors don't have to worry about it."

"When I came this time, my companions and I also wanted to experience ourselves and improve our strength."

At this point, the ghost of the dragon soul old man began to dissipate.

At this moment, he suddenly looked at the broken knife in Chen Feng's hand.

"This is... Qingqiu Heavenly Sword?"

Chen Feng not only raised his eyebrows.

"Senior recognize it?"

He succinctly informed the origin of the broken knife quickly.

"That's it."

The old dragon soul suddenly showed a smile on his face.

"In this case, let the old man do the last thing for you over there."

The next moment, he burst out with a dazzling light.

Actually merged into Chen Feng's broken knife!

"If you can refine the old man's corpse, you can completely repair the holes in the broken knife."

"The ancient Qingqiu Heavenly Sword...it's time to see the sky again."

Chen Feng was shocked!

He never expected that in the end, he would be able to receive such a gift from the old dragon soul!

The very inconspicuous broken knife in his hand shined brightly at the moment.

The bright radiance lit up the empty skull.

Even the owner of the broken knife, Chen Feng could still feel the incredibly sharp edge.

Qingqiu Tiandao is changing!

Boom!

In the thunder pond behind him, strong thunder light burst out again.

Chen Feng suddenly recovered.

"No! They are still in the killing line."

Time was running out, and Chen Feng made a decisive decision and began to refine the newly acquired golden fan of the world at the same time.

With the psychic gourd in hand, it didn't take much energy to refining the world-destroying golden fan.

After a stick of incense time.

The four Que Yuanzhou people trapped in the killing array suddenly stopped.

"what happened?"

"Killing formation, why did it stop?"

They looked around blankly, and subconsciously looked in the direction of Lei Chi.

Will it be Chen Feng?

At the moment when the four of them thought of it, a figure suddenly appeared!

It is Chen Feng!

"It's him!"

Que Yuanzhou exclaimed, and the other three people all turned to look around.

as predicted.

I saw Chen Feng flying quickly from the thunder pool.

However, it is different from before.

All the thunder lights seemed to have eyes, avoiding him!

At the same time, in his hand was a long green fan.

What is it if it is not a golden fan?

In the next instant, Chen Feng appeared in front of the four.

At this moment, he is full of energy, and his breath has changed significantly from before he left.

The four of them were excited and quickly noticed this.

"Chen Feng, have you broken through again?"

This is incredible.

Chen Feng smiled and nodded.

Lei Chi's tempering is extremely effective for him.

Now, his physical body has been significantly strengthened.

Enough to reach the physical strength of the fifth floor of the Shifang Dongtian realm!

The cultivation base can break through at any time and rush to the twelfth floor of the Star Soul Martial God Realm!

This made him overjoyed.

Originally, after he merged with the Immortal Mo Rin, his cultivation was slightly inferior.

Therefore, it can only be used to attract Red Eagle ancestors.

However, with his current strength, after fusing with Immortal Mo Rin, the situation was completely different.

Now they can easily crush the Red Eagle ancestor!

Chen Feng quickly and selectively recounted everything at the end of Lei Chi.

He looked at the four people.

"Now, the entire secret realm is under my control."

"I will weaken the strength of this mine pool."

"You can also refine it."

The four Que Yuanzhou immediately exclaimed.

It's incredible!

"Chen Feng, you are always so unexpected."

"It seems that what happens, for you, can turn a good fortune, there is no danger."

Looking at the four people rushing into the thunder pond, Chen Feng smiled and said nothing.

Boom!

As soon as the four of them entered the thunder pond, they attracted countless thunder rays.

After a few days, the place was thunderous.

And Chen Feng once again returned to the place where the dragon was buried.

When the other four were tempering, he struggled to refine the huge dragon skull thoroughly.

Three days later.

I saw a divine light rushing into the sky.

Accompanied by the huge dragon roar, it shocked the entire Longzhong Mountain Range.

"what happened?"

"what happened?"

"The movement seems to come from... Dragon Head Mountain!"

For a time, countless monks who were looking for the traces of the Qibao rushed over.

Even the ancestor of the Red Eagle stopped.

For three days, he felt like he was being played around.

Always spinning around in the Longzhong Mountain Range, but never saw Chen Feng's shadow again.

This made him furious!

In my heart, I hate the hairy boy who has been approved by the Qingqiu Heavenly Sword even more.

When the movement happened, he was not far away.

Looking into the depths of the Dragon Head Mountain, he suddenly thought of Chen Feng for some reason.

[Chapter 5457: Kill the ancestor of the red eagle!](#)

"Could it be that little beast made the move?"

He didn't forget.

When he rushed to the Sword God Wild Hill last time, there was only a huge abyss left there.

The mountains that stretched for hundreds of miles have completely disappeared!

Those movements were also caused by Chen Feng alone.

Thinking of this, the Red Eagle ancestor quickly turned around and rushed over.

At this moment, Chen Feng was extremely excited.

He looked at the broken knife with joy.

Above the broken knife at this time, a huge hole disappeared!

He could truly feel the sword intent contained in it, even more lingering!

"If I could refine all the bones of Senior Dragon."

"Qingqiu Heavenly Sword, it will be completely restored as new!"

This made him high in fighting spirit.

Suddenly, his heart moved.

He saw clearly from the perspective of the invisible crow.

The ancestors of the red eagles were coming quickly in the direction where they were.

"It's just right!"

He grabbed the knife and whispered to the Immortal Mo Rin in the spiritual world.

"Hahaha..."

"Chen Feng, you really do this again!"

The figure has not yet been seen, but the laughter of the red eagle ancestor has already arrived.

In the thunder pool, Que Yuanzhou's four faces changed drastically.

They rushed out quickly and came to Chen Feng.

The next moment, Chen Feng waved his hand to hide Lei Chi.

He thought for a while, and simply withdrew the phantom formation and killing formation directly.

Actually intends to face the enemy.

"It's the ancestor of the Red Eagle!"

"Chen Feng, let's run away quickly."

Before the words came to an end, a hurricane as sharp as a knife cut suddenly and stopped the five people from going.

"Want to run?"

The red eagle ancestor suddenly appeared.

The red eagle ancestor suddenly appeared.

"Old Red Eagle, what are you crazy about?"

"How does it feel to be teased by me for three days?"

Chen Feng showed a joke on his face, and easily poke the anger of the person in front of him.

"well."

"Boy, I'm still stiff when I die."

The red eagle ancestor burst out a supreme aura.

The coercion of the fourth cave of the Shifang Dongtian realm rushed towards Chen Feng.

Like a mad dragon entering the sea, causing the nearby void to tremble constantly.

"Chen Feng, don't try hard!"

The Que Yuanzhou brother behind him stomped his feet in a hurry.

However, Yin Haoran and Si Konghao beside them were thoughtful.

The next moment, only a loud noise was heard.

boom!

Chen Feng stepped up into the air, step by step, approaching the ancestor of the red eagle.

His complexion was extremely confident, and an unprecedented powerful force burst out of his body.

The peak of the fourth hole in the Shifang Cave Heaven Realm!

Steady and stable red eagle ancestor!

"how is this possible!"

Chen Feng sneered again and again, and raised the broken knife in his hand.

"Didn't you always want to make it yours?"

"Today, I will use it and look at your head!"

The red eagle ancestor immediately showed a look of horror.

But this time, he ran without turning his head.

Because, three days ago, Chen Feng also used the same method!

In just three days, is it possible that he can still make a major breakthrough?

Thinking of this, the ancestor of the Red Eagle was determined.

He laughed and shot out with murderous intent.

"This time, you don't think the old man can be fooled by you!"

Before the words fell, a huge eagle claw suddenly appeared from the void.

Coming quickly towards Chen Feng.

The supreme murderous aura came all over the world.

The huge eagle claws burst out with dazzling light.

In front of it, Chen Feng's figure was as small as a grain of sand.

The Red Eagle ancestor laughed loudly.

His gully face is full of joy and excitement at this moment.

That is the unparalleled school in their clan, the red eagle claw!

Once caught by this claw, even the strength of the fourth hole of the Tenfang Cave Heaven Realm could not bear it.

Because it not only hurts the cultivation base.

More targeted at the flesh!

"Chen Feng, don't say you really have the cultivation base of the fourth cave sky peak in the Shifang Dongtian realm."

"What if there is?"

"It's still hard to escape my red eagle claws!"

The ancestor of the red eagle sneered again and again, his expression calm.

He was almost certain that his full blow would definitely let Chen Feng reveal his true strength.

Even, in his mind, he can already see the picture of the rain of blood.

boom!

With a loud noise.

The overwhelming coercion and murderous aura obliterated Chen Feng along the river.

"Chen Feng!"

Not far away, Si Konghao and the others looked shocked.

They exclaimed, but it was too late.

Chen Feng's figure disappeared in that bright light instantly.

"Hahaha..."

The Red Eagle ancestor laughed heartily again.

However, at this moment.

His laughter stopped abruptly!

The scene in my mind did not appear.

What followed was a more dazzling brilliance!

In the next moment, an extremely terrifying aura burst out from where Chen Feng was.

Overwhelming like huge waves!

boom!

In the rushing roar, Chen Feng's voice was sonorous.

"You can't wait, you are waiting to kill."

"This red eagle claw, I'll cut it for you!"

The next moment, a silver-white light shined through the sky.

The red eagle ancestor's complexion changed drastically, and he whispered "not good."

But it was too late!

I saw that among the red eagle's divine claws, that sharp blade light cut off the giant claws easily.

He quickly rushed towards the Red Eagle ancestor.

Fast as lightning, shocking as thunder!

In an instant, even time was almost still.

The ancestor of the red eagle clearly saw the sharp blade intent, and rushed towards him.

But I want to dodge, but I can't dodge it!

"puff!"

He gushed blood and flew out dozens of miles on the spot.

There was a huge wound on the skinny chest!

Visible bones!

For a time, the blood rained.

"How could this be?"

The red eagle ancestor was terrified in his heart.

He couldn't figure it out, could it be that he guessed wrong?

Could it be that from the very beginning, Chen Feng never made him trick him?

But, after he reacted that day, he hurried back to where he was.

The monks who were onlookers also truthfully informed Chen Feng's reaction afterwards.

Chen Feng hurried away with his fellow disciples, it didn't look like a fake.

It should be fraud!

But at this time, he is not only stronger than he was three days ago.

Even the physical body is strengthened to a shocking degree.

Can easily fight the red eagle claws.

This is definitely a physical strength far surpassing the peak of the fourth hole in the Shifang Cave Heaven Realm!

"Could it be that these short three days really gave him an amazing adventure?"

"Could it be that dragon head mountain..."

Thinking of this, the ancestor of the Red Eagle couldn't hide his jealousy.

At this moment, he was in a panic and was seriously injured!

But Chen Feng, who was in the front, was already approaching him quickly.

The broken knife in his hand broke out with supreme coercion.

It made him feel palpitations.

At this point, he dare not have any doubts!

No matter how he didn't want to believe it, Chen Feng in front of him was invincible!

"hateful!"

The ancestor of the red eagle was very angry.

[Chapter 5458: This kind of potential is unique in 10,000 years!](#)

Even if he hadn't guessed wrong before, right now, he has only one way to go.

That is, escape!

There is no chance if you don't escape at this time!

The ancestor of the Red Eagle strongly endured the unwillingness in his heart, and turned and turned into a divine light.

"If three days ago, I never missed an opportunity."

"Where is this!"

Chen Feng snorted coldly when the ancestor of Chiying turned and fled.

Two scorching rays of light burst out of his eyes.

"Want to run?"

"That also depends on my knife, will I give you a chance!"

Chen Feng did not hesitate.

He took the Qingqiu Heavenly Sword in his hand and rushed up.

This time, Chen Feng did not intend to let go of this hard-won opportunity.

At the beginning, he agreed to Senior Nine-tailed Fox.

The Qingqiu Fox Clan was also kind to him, and Senior Nine-tailed Sky Fox gave it generously.

And asked him to make a promise.

We must avenge him and their people!

Right now is the best opportunity!

What's more, since seeing the Red Eagle ancestor, the Qingqiu Heavenly Sword in his hand has been trembling constantly.

It also seems to feel the enemy of the past!

The magic weapon that has been drinking blood for thousands of years to protect the people of the tribe is constantly roaring at this moment.

Trembling!

Don't kill at this time, when will you wait?

Chen Feng shouted violently.

"chase!"

In the next moment, he turned into a divine light and rushed towards the direction where the Red Eagle ancestor fled.

However, Que Yuanzhou and others would naturally not stay in place.

The four of them exploded their strongest strength without hesitation.

A few rays of light appeared in the sky instantly.

At this moment.

In the high altitude on the road to Longshou Mountain, many monks were quickly approaching.

After all, the eruption of Longshou Mountain is too great!

Everyone wants to find out.

Many of them were the monks who watched Chen Feng's battle three days ago.

When several people met again, it was natural to mention Chen Feng.

"I don't know how Chen Feng is now?"

"The posture of the red eagle ancestor does not seem to be easy to mess with.

"Yeah, it seems to be immortal."

However, at this moment, a very strong aura suddenly appeared in front of you!

"Someone is here!"

In the crowd, someone suddenly exclaimed.

Everyone immediately looked forward.

Looking closely, I saw a familiar figure quickly appeared in the direction of Longshou Dashan.

"Isn't that the red eagle ancestor?"

Those people looked surprised.

As soon as he mentioned him, he appeared in front of him.

"The ancestor of the Red Eagle is still in the Longzhong Mountain Range, so Chen Feng must have encountered an accident."

Secretly in their hearts.

However, after waiting for the next moment, everyone immediately appeared horrified.

"Look, the ancestor of the red eagle was seriously injured!"

"He seems to be...escaping?"

The appearance of the red eagle ancestor fleeing in a hurry is too conspicuous.

For a while, everyone was shocked and suspicious.

They looked at each other and couldn't help but stop.

"Could it be that there is something more terrifying in the Dragon Head Mountain?"

"Isn't the shocking movement just the result of the battle between the ancestors of the red eagle and the stronger power?"

Before the words fell, several figures appeared again behind the ancestor of the red eagle.

"That's... Chen Feng?"

At this moment, all the monks were shocked.

It was Chen Feng who chased and killed the ancestor of Red Eagle!

"Only three days..."

"What did Chen Feng go through?"

Someone screamed.

They could tell at a glance that Chen Feng's strength had soared again.

Earlier, everyone was watching Chen Feng's bluffing.

No one thought that he could beat the Red Eagle ancestor at that time.

However, at this moment, the breath erupting from Chen Feng's body really didn't look like a fake.

He has indeed reached the pinnacle of the fourth cave of the Shifang Dongtian Realm!

This shocked everyone's hearts.

"For tens of thousands of years, has anyone achieved such a terrifying rate of increase?"

"Chen Feng is probably... the first person in ten thousand years, right?"

"This kind of potential is too terrifying."

The ancestor of the red eagle did not care about these onlookers, and flashed past them.

Quickly rushed to the direction of Dragon Tail of Longzhong Mountain Range.

He could hear those monks' words clearly.

Those words that praised Chen Feng were like slap after slap in his ears.

Shengsheng slapped his face.

He was so hot that he felt extremely embarrassed.

If there is a chance, he will definitely shoot at this moment.

Crush all these multi-tongued ant chopsticks!

However, he now has no chance to shoot.

Chen Feng pressed hard behind him.

The distance between the two is constantly getting closer.

If you are not careful, he will be caught up immediately!

And those monks, who didn't even know that they were just now, had just walked through the ghost gate.

They are still shocked by Chen Feng's changes.

The ancestor of the red eagle came and passed by in a hurry.

Chen Feng and other five people behind him are even more so.

This makes them curious.

Want to follow along to find out.

But for a while, there was some hesitation.

After all, there was such a big movement in the Dragon Head Mountain, perhaps one of the Seven Treasures was born.

It's not worthwhile to miss the opportunity to watch the battle.

At this moment, someone awakened everyone with a single word.

"Chen Feng and Chiyang ancestors, they all came out of Longshou Mountain."

"If there is any benefit, they will definitely get it."

As soon as this remark came out, everyone immediately affirmed.

"Maybe, Chen Feng's sudden transformation is precisely because of the benefits."

"Most likely!"

This reason is truly convincing.

In the crowd, someone proposed.

"It's better, let's just follow it and see if we can get a bargain."

"Even if you can't pick it up, you can gain infinite benefits by seeing the strong fighting."

Everyone felt reasonable.

They immediately burst out their whole body cultivation base, and rushed in the direction where Chen Feng and others disappeared.

The distance between Chen Feng and the ancestor of Red Eagle is getting closer and closer.

Several times, the knife broke out with a sharp edge.

Want to smash on the red eagle ancestor.

However, the ancestor of the red eagle had two wings.

High altitude is where he is best at.

Chen Feng slashed out several horrible blade lights in succession, but he avoided them dangerously.

This made him a little impatient.

However, just after an hour.

They have chased them all the way to the tail of the Dragon Tomb Mountain Range.

The Red Eagle ancestor stopped suddenly.

He quickly turned around and smiled coldly.

"Chen Feng, you are fooled!"

Before the words fell, a strong breath suddenly burst out not far from the ancestor of the red eagle!

Chen Feng was shocked.

Goodbye to the ancestor of the red eagle.

Where is there a trace of panic on his face?

The corners of the slightly raised mouth are full of tricks and calculations.

Chen Feng's heart sank.

In the next moment, he suddenly came to control.

Too much to kill God!

A gleam of silver light swiftly directed towards the ancestor of the red eagle.

It seemed to have crossed the void and appeared in front of the ancestor of the red eagle in an instant.

The murderous intent that was gathered up suddenly burst out.

[Chapter 5459: Just practice with you!](#)

The complexion of the ancestor of the red eagle changed greatly.

He never expected that by this time, Chen Feng would be able to survive the danger.

The wings quickly controlled the body, trying to avoid the knife.

boom!

With a loud noise, Chen Feng stopped.

Ahead, the ancestor of the red eagle mouthed blood.

Half an arm, disappeared!

The blood is flowing like a fountain.

He immediately turned pale and the pride on his face disappeared.

"Lazi dare!"

In the distance, the complexion of the six or seven people suddenly changed.

They wear the same family pattern clothing.

There is no doubt that they are all descendants of the ancestors of the Red Eagle, or elites.

Seeing that the ancestor of the red eagle was seriously injured, they all went into anger.

Staring at Chen Feng, it seems that he can't wait to cut him a thousand times!

And their murderous aura broke out even more!

Murderous, straight to the sky!

The tribe of the ancestors of the red eagle came from all directions.

At Chen Feng, he quickly surrounded him.

The situation reversed instantly!

"Chen Feng!"

And from behind Chen Feng, a familiar voice came at this moment.

The four people from Que Yuanzhou arrived quickly.

They stopped behind Chen Feng, their thin lips pressed tightly, their complexions extremely solemn.

In front of them, these masters of the Red Eagle family almost blocked their way.

Even Si Konghao couldn't help frowning when he saw him.

The situation is bad!

Those six or seven masters have extremely high cultivation bases.

All of them are on the Shifangdong Sky Mirror!

Look behind Chen Feng.

Although after several days of tempering in the thunder pond, their physical strength has indeed increased a lot.

However, the cultivation base did not soar as Chen Feng.

"Ahem...hahaha..."

The ancestor of the red eagle took the healing **** pill handed over by a guard.

A triumphant look appeared on his face again.

In front of Chen Feng, he swallowed it in one go.

Hum!

The rich aura exploded quickly.

Chen Feng and the others watched the hideous wound on the red eagle ancestor's body.

It is recovering as usual at a speed visible to the naked eye!

In a short while, the onlookers in the distance all rushed to it.

Looking at the abrupt reversal of the situation in front of them, surprises appeared on their faces again.

"It's over..."

"Unexpectedly, the red eagle ancestor was so cautious."

"They are all deep-minded blades..."

The complexion of the red eagle ancestor, once again recovered a little ruddy.

As soon as he took his breath, his back straightened up.

"Chen Feng, Chen Feng, aren't you crazy?"

"It's fine if you don't chase."

"You have to find a dead end."

"Today, the old man told you not to survive, not to die!"

The Red Eagle ancestor shouted loudly.

Feng Shui turns, and he has to repay the humiliation he got from Chen Feng a hundred times.

Looking at the scene before him, the four people behind Chen Feng looked extremely ugly.

Even Si Konghao looked at Chen Feng and reminded in a low voice.

"Chen Feng, let's withdraw quickly."

"With the great Xiu Luohong furnace, it is better to retreat."

However, Chen Feng raised his hand to stop him.

I saw his eyes burning and smiling.

She looks completely confident.

This made the four of them hesitate again.

They know Chen Feng.

His appearance often means confidence!

The four of Que Yuanzhou quickly exchanged glances.

Then, a consensus was reached-Chen Feng should have his own ideas.

The next moment, Chen Feng turned to look at them.

"Dare to kill with me?"

As if driven by Chen Feng's war intent, Sikonghao and the four suddenly thought about nothing.

They looked forward.

"kill!"

Four fierce murderous auras rose to the sky!

The fighting spirit shot out like sparks, overwhelming the sky, and quickly ignited the sky.

boom!

A completely different breath erupted from everyone's body!

Tianquan Town immortal imprinted on Si Konghao's body, rising against the storm.

Several dazzling and vast mountains suddenly appeared in the void!

At the beginning, Chen Feng could only urge him to appear three golden peaks, but now everyone has become stronger.

What appeared in front of him was a golden mountain range that stretched into one piece!

"go to hell!"

Si Konghao laughed freely.

Like crazy!

In his hand, the huge golden mountain range spread out loudly.

On the other side, Yin Haoran also took a sharp sword out of its sheath.

The sharp sword aura is intertwined densely.

It seems that since Chen Feng went to the Broken Jade Conference, Yin Haoran's cultivation has also improved.

In particular, his sword intent has improved significantly.

Yin Haoran now has the cultivation base of the eleventh floor of the Star Soul Martial God Realm!

After tempering in the thunder pond for the first three days, his physical body and sword intent have improved.

Boom!

Only a thunder was heard out of thin air.

The monks onlookers in the distance, as well as the six or seven members of the Red Eagle family in front, all changed their expressions.

"Since it's here, naturally our brothers can't fall behind."

Brother Que Yuanzhou also stepped forward.

Compared with the three of Chen Feng, their cultivation strength is indeed slightly inferior.

However, despite this, the cultivation base of the two is still a qualitative leap compared to the previous one.

The two sword intents invaded like the wind, shaking like thunder.

There is also the cultivation base of the eleventh building Dacheng in the Shifangdongtian realm.

However, facing this situation, the ancestor Chi Ying and the six people around him laughed in disdain.

"Hahaha..."

"I thought I was capable."

"It's a dead end!"

On their side, every elite cultivation base is in the Shifang Dongtian realm.

For them, the performance of Chen Feng's five is extremely funny!

However, this ridicule and ridicule did not last long.

Because Chen Feng took a big step and rushed ahead of his companions.

"I'll stop the four."

"The rest is just used to practice your hands."

This is extremely arrogant!

Everyone in the Red Eagle family heard this and was furious.

Chen Feng's words are tantamount to treating them as worthless stepping stones.

It is no different from ants!

"Good you Chen Feng, what an arrogant tone!"

"Don't be afraid of the wind, it flashes your tongue!"

The ancestor of the red eagle was so angry that he had just regained his vitality and surged again.

This is really despising them!

Facing the thunderous rage of the Red Eagle family, Chen Feng appeared extremely calm.

Behind him, Si Konghao and the four were not afraid.

If Chen Feng stopped the four by himself, the seven masters would have gone to the four.

There are only three strong players left.

They may not lose in this battle!

Even if they are still lost, I believe that Chen Feng's tactics have already figured out a way out for them.

Therefore, the next battle is indeed as Chen Feng said.

Just use it to practice hands!

"kill--"

Want to understand this, they no longer hesitate.

The four bright rays of light suddenly rushed toward the front.

Everyone in the Red Eagle family sneered when they saw that they really dared to rush.

"Since you are looking for death by yourself, don't blame us for being rude!"

[Chapter 5460: There is Longyuan under the deep pool!](#)

boom!

With the popping sound, almost all of this sky was broken!

The squally wind blows and the hurricane cuts like a knife.

In front of the seven members of the Red Eagle family, they all rushed towards Sikonghao.

It seems that there is an intention to disarm.

But at this moment, the broken knife in Chen Feng's hand exploded with majestic killing intent!

In a trance, it seemed that he could hear the roar from ten thousand years ago.

That is a real fight!

It is the resentment that has accumulated countless years!

It is Qingqiu Tianhu's everlasting enmity against the Red Eagle Family!

Shocking!

"Your opponent is me!"

He roared and rushed forward quickly.

The body shape is like thunder and lightning, and instantly disappears in place.

Almost at the same time, he appeared in front of the seven in an instant.

The lingering warfare intent from the broken knife unexpectedly stopped the four people!

Among them, the red eagle ancestor who has recovered from a serious injury is included.

The monks onlookers in the distance were shocked to see.

"This is really shocking!"

"The four disciples of the Galaxy Sword Sect, with the exception of the reckless man, their cultivation bases are far less than the Shifang Dongtian realm."

"Even so, they still dare to kill the elite of the Red Eagle family bravely."

"If it's us..."

For a while, all the monks who were watching were a little embarrassed.

They finally realized where the gap between themselves and the strong was.

It's courage!

It is a firm belief!

It is a fearless fighting spirit anyway!

"But, did you find out."

"Chen Feng's cultivation base has increased dramatically, and even the four members of his Galaxy Sword Sect have also greatly improved."

Someone was so careful and noticed this.

As soon as this remark came out, many people immediately began to remember.

Then, everyone's complexion changed drastically.

Shocking!

Everyone looked at each other, the same thoughts in each other's eyes.

In just three days, they can collectively improve.

It must be in the dragon head mountain, what kind of treasure has been obtained!

boom!

The war is anxious and has reached a white-hot stage.

Another bright brilliance flashed, and Broken Blade broke out with high fighting spirit again.

The rain of blood flies, the world is red!

There are already three of the elite of the Red Eagle family who died in his hands!

However, at this moment, he also has many scars on his body.

Several hours have passed!

The sky in the distance has dimmed.

Chen Feng and others are almost exhausted!

Not far away, Si Konghao's hair was unorganized and his sword intent was not as good as before.

On top of Yin Haoran's plain clothes, he was already in dilapidated condition.

The originally clean and unmarked robe has long turned into a thick black color!

As for the Que Yuanzhou brothers, they were seriously injured.

There are several wounds on the body that are even more visible!

But, even though they were so embarrassed, those members of the Red Eagle family were also not much better.

However, in addition to Chen Feng, the situation on the other three battlefields is still not optimistic.

They are exhausted.

If you continue like this, you will be killed if you carelessly!

"Chen Feng, we can't hold it anymore!"

Si Konghao blasted out a punch, got a little gap, turned his head to remind Chen Feng.

"Want to escape? Not so easy!"

"Today, you will definitely die!"

The remaining three elite and the ancestors of the red eagle were even more blushing.

Chen Feng smiled coldly.

"Is it?"

The next moment, he turned to look at the four people not far away.

"withdraw!"

Following his simple and decisive instructions, this piece of Cangyu suddenly went dark.

A flying boat grew bigger in the wind, and instantly appeared in front of everyone.

In the blink of an eye, Chen Feng appeared on the flying boat.

Under his control, the flying boat is as fast as lightning.

The four of Que Yuanzhou were really born and quickly caught in the flying boat.

Then, quickly drilled into the mountains below!

This is really too fast!

The three elite of the Red Eagle family immediately wanted to chase them, but they were stopped by the ancestor of the Red Eagle.

He was really scared by Chen Feng.

What if there is fraud?

In this short period of three days, the ancestor of the red eagle was completely unsure of Chen Feng.

How long did this little child live?

Can actually count them over and over again!

So that now, the ancestor of the red eagle has lingering fears.

The sneer that looked at Chen Feng when he finally left.

The ancestor of Red Eagle hesitated in his heart.

He couldn't tell, this time he was really lost to escape.

Or is there a trap?

He didn't know how many holes Chen Feng had.

The sneer from just now always made him feel that Chen Feng has a bigger back!

The ancestor of the red eagle at this time had no idea that he was losing his last chance.

If at this time, he led others to immediately pursue the victory.

Even if Chen Feng couldn't kill all of them, at least some of them could be killed.

However, precisely because of his hesitation, from now on, it is impossible to achieve his wish!

Chen Feng and the five were on the flying boat, panting heavily.

Especially the Que Yuanzhou brothers, lying on the ground in embarrassment.

The top of the deck was quickly stained red with blood.

"give."

The two of them were originally practicing alchemy, and the fighting was not as good as Chen Feng and the others, which is understandable.

At this time, it is the highlight moment for them to play a role.

However, just as they took out more than a dozen divine elixir, Chen Feng, who was standing in the front, suddenly spoke.

"Don't rush to take the pill."

There is a confident smile on the corner of his mouth.

Following Chen Feng's control, Feizhou turned sharply, as if suffocating enough energy to blast towards the ground.

"Where are we going?"

Yin Haoran grabbed the edge of the flying boat and asked with the blood from the tip of his hair.

The other three people looked around, with the same doubts and blank faces.

This is not the best way to escape.

Obviously, Chen Feng had another idea.

Sure enough, Chen Feng's slow and slow voice came from the front.

"Now the Dragon Tomb Mountain Range is under my control."

"I will take you to enjoy a good thing."

"That is much more precious than the pill."

The hearts of the four were suddenly determined.

With Chen Feng's words, they were relieved.

With his disposition, he will certainly not do unprepared things.

Since even he is so sure, what is there to worry about?

In the next moment, a huge deep pool appeared in front of Feizhou.

The deep pool was calm and the water was clear.

However, because it is too deep, the bottom is not visible.

This vast deep pool, seemingly ordinary, is hidden in this endless mountain range.

But before the other four people reacted, Chen Feng urged Feizhou, and a fierce man plunged in.

The five people instantly disappeared into the deep pool.

boom!

At the moment of entering the deep pool, strong pressure came from all directions.

The other four were shocked.

They instinctively started their cultivation base, fully resisting the mysterious pressure from the bottom of the water.

"what happened?"

The four of them were in agreement, thinking so.

However, before they looked at Chen Feng, the scene in front of them made them stare.

There are so many things under this deep pool!

At the bottom of the deep pool, there was a faintly sealed breath.
