

Peerless 5671

[Chapter 5671: Impossible to complete!](#)

At this point, the Lord of Heaven has revealed the task of this trial world.

"Everyone's regular task for this trial mission is to mix into the team dedicated to Cong Jingzhu after half a month to protect Cong Jingzhu from humiliation."

"Lost, kill!"

Chen Feng was not surprised by the routine tasks dominated by the heavenly path.

He was aware of it from the previous trials.

The top of the sky seems to always let everyone kill each other.

A team of only twenty people means that there are fewer than twenty people who can get into it.

The rest will be obliterated by the Lord of Heaven!

"What is this Gu mode?"

Chen Feng thought about it.

After the regular mission was announced, the huge voice continued to sound.

This time, it was given a separate mission with the title of "God-level villain".

There were three separate tasks for Chen Feng this time.

However, not all three are mandatory tasks this time, and one failure is allowed.

One, naturally needless to say, is to complete the requirements of choosing the world of the failed mission—

Kill the giant black flame demon named Gama Stema.

This is a mandatory task and must be completed.

After completion, you will get all the rewards that you saw in the fourth layer for choosing this task.

Second, it was actually helping Lang Kang to restore his sanity.

This was completely beyond Chen Feng's expectations!

While no one was around, Chen Feng lowered his head and asked Jin Sanye:

"Xiaojin, how much is possible for the demonized monk to restore his sanity?"

Before he finished his words, he saw Jin Sanye flash out, flapping his golden wings straight towards Chen Feng's door.

"What Xiaojin, we are Sanye Jin!"

However, it still gave its own opinions.

If nothing else, the demonization here is the same as what Chen Feng had seen in the Demon Sect of Ten Thousand Desires.

Shura's bloodline is extremely powerful, and it is definitely not something that ordinary human monks can resist.

"Why do you think so much? Since the Lord of Heaven gave this task, it means that the guy is likely to recover."

"Find him first and talk about it!"

Jin Sanye couldn't help but flew around Chen Feng a few times, and couldn't help but look at Chen Feng's tongue.

"You guys should get back to being human."

"The Demon Race is too hot-eyed, it blinds our three eyes..."

Chen Feng ignored him.

Never expected this second task to be so difficult.

"It deserves to be the nightmare level in the nightmare level, this is too difficult."

However, when the Lord of the Dao of Heaven said the third task, Chen Feng was stuck in place.

"Thirdly, open the core area of the human secret realm!"

Even Jin Sanye shook his head straight after hearing it.

"You guy will suffer this time. You have to finish at least two out of three."

"The first one must be completed."

"This is an impossible task!"

"No matter which one I choose, it seems that I have to go to the secret realm left by the powerful human being."

After all, Lang Kang is now guarding outside that secret realm.

Chen Feng sighed lightly, but didn't worry too much.

The number of people entering the world of this trial mission is considerable.

Only Chu Taizhen and Zhong Li Tansheng brought many triumphant generals.

In addition, Zhong Li Yaoqin's slaying order on his back also attracted many immortals to venture into this place.

A conservative estimate, there must be at least thirty or fifty people!

Thinking of this, Chen Feng couldn't help but let out a long sigh of breath, with great emotion.

"It's another **** storm!"

Compared with other people who entered this trial mission, Chen Feng knew the world better.

The vast majority of those that the Lord of Heaven introduced just now, he already knew about them.

He even knew that the Secret Realm of Human Race was located in the northernmost part of the world.

The last human monk team in this world, Chen Feng has no idea where he is at this time.

Instead of going around around, it's better to go to the secret realm first.

Chen Feng immediately set off and hurried to the north.

The void only left Jin Sanye's helpless sigh:

"Unsightly, unsightly!"

The sky and the earth are gray, and there are demons everywhere.

Although Chen Feng has the Shura bloodline in his body, even if it is displayed in a human body, he will not be suppressed, but he will still be quite unaccustomed.

Therefore, he ignored Sanye Jin's dislike, and went all the way north like a Demon of Shura.

As a demon burial technique, the greater the asura burial technique, the longer it is urged, both the comprehension ability and the improvement of strength will improve.

But also because of Shura's demon body, Chen Feng was temporarily unable to use the Taishang Yuqing Nine Shou Zhen Art at the same time.

It would not be able to stimulate the golden Dao Yun, and instantly appeared thousands of miles away.

He was quite dissatisfied with this, and kept trying to transform as he moved forward.

The Taoist Wuya, Tiancun Beast Slave and Zhong Li Yaoqin are still missing, and Chen Feng is not in a hurry.

He kept trying, using the Shura Demon Body to stimulate human skills and techniques.

But all ended in failure.

It seems that although the two are close at hand, they seem to be separated by the horizon.

Sometimes, Chen Feng can almost feel it, it's just a layer of window paper, but it can't be broken anyway!

This made Chen Feng a little discouraged.

Jin Sanye stood on his shoulder and raised his chin proudly.

"If the gulf between humans and demons could be resolved so easily, half demons in this world would have been raging."

After hearing the word "half devil" again, Chen Feng couldn't help asking.

"Why is the Mozu so obsessed with making half-devil?"

"Does this physique integrate all the powers of humans and demons?"

Jin Sanye nodded and shook his head.

"Yes, nor is it."

He looked at Chen Feng, shook his head, and talked freely:

"For the same parents, some of the children born may resemble fathers, some may resemble mothers, and some may resemble fathers and some mothers."

"And this third kind of children, with good luck, is like a place where parents are good, and those with bad luck are miserable."

"The combination of humans and demons is also true in theory."

"It may be born a demon, it may be a person, or it may be a half-devil."

Chen Feng understood a bit.

There are unique advantages and disadvantages between the human race and the demons.

Of all the races in the world, only the human race fits best with the way of heaven, and is most likely to achieve the supreme supreme.

This is why, after many demons and monsters have reached a sufficient level of cultivation, they can't wait to transform into human forms and continue to practice.

But the physical strength of the human race is the bottom of it.

Not only that, once a powerful monster beast is born, there will be a heritage flowing in the blood, and there is no need to look for other ways of mind.

The reason why the Mozu is so interested in "Half Demon" is precisely because of ambition.

Their ambition is to break the barriers and let the Asura demons have human flesh.

Then, the achievement of peerless supreme!

Thinking of this, Chen Feng was quickly relieved.

"It seems that the harder it is to achieve the attempts that I have just made, the better."

[Chapter 5672: Wan Momeng](#)

How can he allow others to break a barrier that is difficult for him to break!

Chen Feng gave up the attempt of Taishang Yuqing's Nine Shou Zhen Jue and began to run the great Shura burial art with all his strength.

As a Hong-level ninth-rank exercise, the great Asura burial of the gods cannot be unsurprising.

With Chen Feng's current mental power and talent, it will not be long before he just started.

The profound meaning of this practice method is mainly to condense the power of the whole body into a mouthful of Asura Demon Qi in an instant, and then into the body of the human monk!

Anything that can penetrate, all the opponent's flesh and blood power will be transformed into death in an instant!

Then, these dead gases will corrode the remaining vitality.

As for the human monks who were recruited, even if there was no vitality in their bodies, their appearance still remained unchanged!

It is equivalent to turning the body into an extremely hard corpse, but at the same time, the cultivator's soul will also be trapped in the flesh.

Corrupted together until it disappears completely!

Chen Feng tried to swallow a sigh of magic energy, and poured power into it in an instant.

At this moment, his eyes suddenly became bitter.

"somebody is coming."

As soon as the voice fell, Jin Sanye on his shoulder instantly turned into a streamer, rushing into Chen Feng's arms and disappeared.

Very far away, a figure quickly approached in Chen Feng's direction.

Surprisingly, the visitor was a foreign Asura demon!

This Shura demon is only about fifty meters long, with blue-gray skin, rough and chapped, just like an old mud wall.

It has three heads, each face is blue and fangs, and there are only a few sparse hairs on the top of the head.

On the head in the middle was a pair of huge horns that looked like horns.

However, apart from this, it is no different from a human being.

Chen Feng had never seen such a foreign demon, and couldn't name him for a while.

It's just that I can perceive that, judging from the demon aura released outside, the cultivation base of the outside demon in front of him is at the tenth hole of the Tenth Cave Heaven.

The comer is not good!

Chen Feng could have this feeling instinctively, but strangely, from the other's face, he saw something like a smile.

"Wu Wei Hu..."

The three horns Shura opened his mouth wide and whispered Shura.

Fortunately, there are some instincts in the blood of Shura.

Coupled with Chen Feng's strong enough mental power, communication is not difficult at this time. *novelusb.com*

The three horns Shura is actively trying to win him:

"Looking at you, are you exiled from the Demon King City?"

"It's better to submit to our Ten Thousand Demons League."

Ten thousand demons?

It was the first time Chen Feng heard this.

In an instant, his mind moved quickly, thinking a lot.

It seems that in this world of Xiaoqian, the line of the giant black flames does not completely dominate the world.

However, even so, the term "submission" made Chen Feng particularly disdainful.

He looked at Shura with the three horns in front of him, and his sense of consciousness quickly leaned out towards the surroundings.

Within a hundred miles, there is no one!

well.

Chen Feng nodded at the three horns Shura, and then vomited:

"I can join the Ten Thousand Demons League, but..."

As soon as he spoke, the three-headed horned Shura instantly swelled with devilish energy, and his whole body suddenly shook. It seemed that he had never expected that the "shura demon" in front of him was actually a human monk posing!

But now it is too late to realize this!

When Chen Feng spoke, the Shura bloodline in his body quickly concealed back to the Dantian world.

The huge demon body of nearly a hundred meters dissipated in the void, and a body less than two meters shot out.

"Heaven and earth reincarnate in heaven and earth!"

When it was said that it was too late and then it was fast, the third huge vertical pupil in the space of repetitive reincarnation suddenly burst out endless black light.

In that pupil, it quickly condensed into a fist-sized magic heart.

At the same time, Chen Feng flipped his hand to reveal the Qingqiu Tianlong Sword, and slashed forward fiercely.

In the majestic sword intent, accompanied by a monstrous roar, rushed to the three horns Shura.

The complexion of the three horns Shura turned from shock to panic.

He wanted to resist again or flee, but was dazed to realize that his physical body had lost control.

In the next moment, a madly growing magic strain rose from the depths of the spiritual world.

Almost directly runs through its entire spiritual world!

"what!!"

The screams broke through the sky!

Huh--

In the Demon King City to the west, above the Demon Temple, Gamma Stema instantly flicked his sleeves and got up.

In an instant, the entire magic temple was completely covered by the rolling demon energy!

And in that dark black magic energy, two almost materialized red eyes shot out suddenly.

"Chen Feng! It's really him!"

The devilish energy seemed to be boiling, surging and retreating continuously.

Then, Gama Stema was inhaled all the time.

"Come on!"

It screamed, and the entire Demon Temple and even the entire Demon King City almost shook.

"Take this thing and go and kill Chen Feng immediately!"

A ten-meter-high Shura demon quickly entered the magic hall, knelt on one knee, and received a magic bead with both hands.

Although this Shura Demon is only ten meters tall, no one would have thought that it would be one of the most powerful generals around Gamma Stema!

Super-Order Shura Demon Lord!

Compared with the cultivation base of the human race, that is, the powerhouse of the twelfth cave of the Shifang Dongtian realm!

After giving the magic orb, Gama Stema was worried and spoke again.

"Remember, what you want to kill is to rob the treasure of my clan and kill the person of my nephew."

"Be sure to take back the major repair Luo Hong furnace in his hand!"

"Then, smash him into pieces!"

The ten-meter super-level Shura Demon Zun solemnly nodded his head: "Yes!"

It immediately turned around and hurried away.

Gamasturma watched his men leave the magic temple, her face full of hatred and solemnity.

After thinking about it, it was still uneasy and whispered.

"I have to let the eldest brother know at this time, hurry up and bring things over..."

With that, he turned around and left the Demon Temple, disappearing quickly.

As for all this, Chen Feng still knew nothing.

At this time, he had once again restored the appearance of the Asura demon, and accompanied the three horns of Asura to the camp of the Ten Thousand Demons League.

Through the implanted demon heart, Chen Feng already knew that it was a member of the Yanniu three-headed demon clan.

The Yanniu three demons are a weak clan in the Ten Thousand Demons League.

And this Ten Thousand Demons League is mainly an organization initiated by the forces of Qiantian Flying Dragon Demon in this small thousand world.

At first, tens of thousands of demons, such as Qiantian Feilong Demon, sent teams to enter this newly opened human world of the human race.

The purpose is to get a share.

But who knows that afterwards, the extremely powerful Great Black Flame Great Demon directly occupied the passage.

In this way, it is equivalent to directly cutting off the way back for these ten thousand demons who came here.

In recent years, since the demons defeated the human race, on the one hand, the demons invaded the human race's territory.

On the other hand, the struggle between the demons has intensified as they grab territory.

In the beginning, all the major demons were dead and alive.

[Chapter 5673: Join!](#)

But later, they had a common enemy-the giant black flame demon.

Some time ago, Gamma Stema sent out several invitation letters with teleportation symbols on them.

However, the content of this invitation letter is quite arrogant.

Gama Stema ordered the demons in this small world to enter the city and come!

The demons who come here to compete for resources have always been combative and cruel, how can they be the poorest people who can surrender to their race?

Therefore, relatively speaking, the strongest dry sky flying dragon demon clan began to call on the ten thousand demons to form this ten thousand demons alliance.

They plan to be invited to the Demon King City after fifteen days.

But it is not surrender, but war!

In this regard, Chen Feng will naturally not let go of this "helper" from heaven.

Anyway, he and their purpose are temporarily consistent.

Kill Gama Stema!

Chen Feng sneered in his heart.

Each of these demons has a strong bloodline and physical talent, but the overall situation is still lacking.

Before Chen Feng and the others arrived, Gamma Stema could be regarded as the strongest demons in the world.

After killing it, and fighting with the giant black flame giant demon clan, their scattered sand alone gave the human race a great opportunity to survive in the Jedi!

In that case, why not do it!

After half an hour, the mountains and rivers beneath him finally appeared flat.

In Chen Feng's eyes, a city finally appeared.

This obviously used to be a human city.

Only half of it is still hanging on the huge plaque at the gate of the city, and the word "ink" can still be seen vaguely.

Chen Feng called it Mocheng for the time being.

Just a glance from mid-air, Chen Feng's heart contracted.

This city of ink is in the human race, and it must have been a very prosperous place in the past.

From the ruins of the broken walls, some well-preserved pavilions can still be seen.

Restaurants, casinos, these places of eating, drinking, playing and living are the most complete.

And the most complete of them is the Yingchun Tower!

There are exquisite and gorgeous eaves cloisters, red Zhumen, and even red lanterns hanging high.

Even in daylight, there is still a sound.

It's just that it's not Yingsheng Yanyu, but screams one after another!

It makes people scalp numb!

Chen Feng couldn't help but clenched his fist, an anger rose in his heart.

According to the memory of the three-headed Yanniu named Kaohide, this is the camp of the Ten Thousand Demons League.

Time is tight, and the Ten Thousand Demons League is also a team that has just been united.

It's a mess inside.

As soon as Chen Feng and Kaohide entered the city, they felt the consciousness and hostility from all directions.

"stop!"

As soon as he entered Mocheng, a deep sound wave rushed towards Chen Feng.

And among them, there is no concealment of the murderous intent!

boom!

With a dull loud noise, a dark shadow appeared instantly.

The sudden billowing demon energy turned the emptiness into reality, condensed into countless sharp blades, and came straight to Chen Feng.

There is no room at all!

"Roar--"

Chen Feng's eyes dazzled, and the Great Asura's burial sacred art immediately began to run wildly.

At the same time, countless suns, moons and stars in the Xinghai World burst into radiance.

As the Asura bloodline was constantly being stimulated, the power of countless stars was quickly concentrated into a mouthful of Asura Demon Qi.

Huh!

The fleshy wings behind him opened instantly.

The next moment, a strong mouthful of devilish energy was severely knocked out, and he faced the indestructible blades.

The world almost changes color!

Loud noises sounded in the ears one after another, and the earth was shaking uncontrollably.

Chen Feng had fire in his eyes, neither humble nor overbearing, and turned his hand to take out a huge long knife.

Qingqiu Tianlong Sword!

At this time, the Qingqiu Tianlong Sword was filled with devilish energy, and the roar of countless resentful spirits continued to be revealed in the body.

It is simply a peerless magic knife!

Chen Feng gripped the handle of the knife, ready to shoot at any time.

However, one person stepped forward and stopped between the two.

"Wait!"

It was Kaohide who came forward to stop it.

I saw it turned around and looked at the people inside the city gate, with a little cramped and smile on his face.

"Bronthas Demon Lord, this is a member of the black wisp giant flame great demon clan who has been expelled, is here to join our ten thousand demons alliance.

Only then did Chen Feng have the opportunity to take a closer look.

In the city gate of Mocheng, a ten-meter-high dry sky flying dragon demon clan stands on the main street.

Since this dry sky flying dragon demon named Brionthas was called Demon Venerable, the strength it had just released was enough to prove its cultivation.

This is a Shura at the twelfth peak of the tenth cave world!

According to Kaohide's memory, Brunsas was a prominent figure in the League of Demons.

The main initiator of the Ten Thousand Demon League, the leader of the Qiantian Flying Dragon Demon in this small world, Lamia Demon Sage, is the eldest brother of Brunsath.

All demons recruited into the League of Ten Thousand Demons must be approved by Brunsas. *NoveLusB.Com*

The silver dragon's horns on his head were still shining, and he was full of pride.

The light bursting from its eyes swept across Chen Feng without concealing its hostility.

Seeing that he hadn't acted immediately, Khaohide hurriedly said.

It's just that what he said was naturally instructed by Chen Feng.

The Shura bloodline in Chen Feng's body gradually escalated after absorbing many remnants of the demons.

And the form manifestation when it is stimulated is no different from the giant black flame giant demon.

In the eyes of the outer demon, he is now a member of the giant black flames.

Therefore, it is no wonder that the people of the Ten Thousand Demons League looked at him, and wanted to kill him when they came up.

"Master Demon Lord, the overall strength of our Ten Thousand Demon League is probably not enough. Therefore, I wonder if we can win over these exiled giant black flame giants, then we should cooperate from the inside and outside..."

However, before it could finish speaking, Brunsaz slapped it and shot it out.

Boom!

A pit suddenly appeared on the wall.

Bronzas didn't pay attention to Cawhead at all.

It strode towards Chen Feng and sneered.

"My Ten Thousand Demons League will not fall to this level! The inside should be combined with the outside, huh, who can guarantee that it will not come to our Ten Thousand Demons League to combine with the outside!"

As soon as this remark came out, many demons behind him responded.

All the demons looked at Chen Feng with murderous intent.

In this regard, Chen Feng was still calm.

He didn't retreat but moved forward, amidst the overwhelming killing intent, he steadily stepped forward, staring calmly at Breon Sass.

"If the Ten Thousand Demons League are simple-minded goods like you, and still want to bring down Gamma Stema?"

"It's ridiculous!"

Hearing this, Brunthus immediately burst out with a monstrous killing intent, his face distorted, and instantly covered by demonic energy.

"Dare to look down on us and look for death!"

Before the voice fell, it instantly stomped on the ground with one foot, and its flesh wings opened instantly.

In the next moment, the two figures intertwined in midair outside Mocheng.

Chen Feng unceremoniously waved the "magic knife" and calmly challenged.

boom! boom! boom!

Outside the Mocheng gate, many demons looked up, their expressions becoming more solemn.

[Chapter 5674: Prove the strength!](#)

No one thought that the giant black flame giant that Kaohide brought back could be equal to Bruce Sass!

In less than a cup of tea, Chen Feng caught a flaw and tried again to seduce Tai Shang Zhu Shen Zhan.

But this time, he succeeded!

In the body of Shura, Chen Feng urged the supernatural powers of the human race!

In the roar, endless murderous aura and fighting spirit converged in a silver light.

Go forward, go quickly!

boom!

At this moment, the dark magic energy around it seemed to be divided into two by this knife, and it was difficult to close it for a long time.

No matter how fast Breonthas reacted, he immediately avoided it, but he was still a step slower.

The fleshy wings were almost cut off, sending out a series of dazzling sparks.

It fell straight from the void, and it was about to hit the ground severely.

However, Chen Feng appeared at its side like a ghost and dragged it.

The two landed firmly on the ground.

This move gave Brunsas enough face, but it was also enough to prove Chen Feng's strength.

For a moment, there was silence outside of Mocheng.

All the demons present were shocked by Chen Feng's strength.

Chen Feng had no expression on his face and hadn't spoken for a long time. Instead, he turned his head and looked at the magic pit on the wall.

Kaohide crawled out of the inside and explained in embarrassment.

"Bronthas Demon Lord, this is Gama Giganti, who has a **** feud with Nagamama Stema."

"It was cursed by Gamma Stema, his cultivation was limited, he was seriously injured, and he couldn't speak."

"If it weren't for this, I wouldn't dare to easily bring it to our Ten Thousand Demons League."

This is also the pseudonym and rhetoric that Chen Feng prepared in advance.

He could of course imitate the language of the Demon Race, but when he was in the Demon Sect, he discovered that the language of the Demon Race had some subtle changes.

If you speak rashly, it is easy to reveal your stuff.

Hearing what Kaohide said, and thinking about Chen Feng's powerful skills just now, Breon Suston fell into silence.

Many demons outside the Mocheng Gate also made noise.

"Being cursed, injured, and having such strength!"

"It's no wonder that Gama Stema will be targeted, what magical power this Gamaji Gunti should have!"

"It must be a Shura Demon Saint!"

...

However, Breon Sass looked at Chen Feng again, still showing some suspicion on his face.

Chen Feng released his spiritual consciousness:

"I am indeed here to join you."

At this moment, his spiritual consciousness moved slightly, and he felt two figures suddenly appearing in the distance.

Immediately afterwards, his expression spoke sincerely.

"If you still don't believe me, and there is no way for me to prove it, then I won't make it difficult for you."

"I'm leaving!"

After all, he turned around and left without hesitation.

Just as he opened his flesh wings, and not long after he soared into the air, Breon Sass's voice came from behind him.

"Hold on!"

The moment Chen Feng heard this, an imperceptible smile flashed across Chen Feng's mouth.

I saw that Brunthus also spread his fleshy wings and leaped towards him.

The original figure of more than ten meters quickly rose against the storm, and when he came to Chen Feng, his figure was already comparable to him.

After all, Mocheng was once a city built by the human race, and all scales are measured according to the human figure.

The vast majority of Shura is inside, usually compressing his body to less than ten meters.

But at this time, Breon Sass, who was restored to his original shape, was nearly a hundred meters tall, showing his nobleness as a Qiantianfeilong Demon Race.

The whole body was covered by silver-gray dragon scales, still faintly reflecting the dazzling light in the dark void.

The silver dragon horns on the head grow savagely and savagely, and the long and strong dragon tail is extremely explosive.

The dragon's breath spit, and the dragon's whiskers tremble.

Breon Sass stared at Chen Feng with a pair of gray-green dragon eyes, and spoke with a natural aloft.

"Since you want to prove yourself, you have a great opportunity right now."

After that, it lifted its chin and motioned to Chen Feng to look into the distance behind him.

And in its eyes, the depth of inquiry burst out.

"Go and prove it to us."

With the spread of these words, many of the Asura demons at the gate of Mocheng released their divine knowledge and moved towards the distance.

After a while, more and more demons became aware of the scene that Chen Feng first detected--

On the far away wasteland, there are two figures one behind the other, quickly approaching here.

Among them, the one who flees in embarrassment is a human monk!

And the one who was chasing after was a huge black flame monster!

Just looking at it, Chen Feng had a general judgment on the strength of the two in his heart.

The human monk who flees should have the level of the eleventh cave of the Shifang Dongtian realm.

Moreover, this person is not a completely strange face to him!

If I remember correctly, this person should also be an immortal from the top of the sky.

It was to follow Zhong Li Yaoqin's impulse to kill Ling.

I thought that after he entered this world, his luck was not too good, and it didn't take long for him to be caught by a demon.

The huge black flame giant demon that immediately followed, seemed to have the cultivation base of the twelfth cave of the ten-square cave world!

At this time, it has a hideous face and makes no secret of bloodthirsty and pride.

Brunsz's meaning is very clear.

Chen Feng calmly met his gaze, raised his eyebrows, and showed a smile.

"Wait."

After all, he turned around.

The next moment, the surrounding demonic energy rippled, and the figure disappeared in place.

Chen Feng has gradually adapted to his demonic form.

Probably because of the existence of the Supreme God Demonizing Dragon Technique, he reached a certain balance between the human race and the demons.

At this time, while running the great Shura burial technique, he can gradually use the supernatural powers of the human race.

The Qingqiu Tianlong Knife in his hand consciously "spouts" with devilish energy, looking like a peerless magic knife.

But, hidden in the billowing black magic energy, there is also his Dao Yun!

The golden Dao Yun of the past is now dim, even faintly gray.

Without deliberate observation, these abnormalities will not be found at all.

Tai Shang Yuqing Nine Shou Zhen Jue urged, Chen Feng almost instantly appeared in the extreme distance.

The human monk who was trying his best to flee suddenly went black.

Before he raised his head, a huge clutch of demon came from the sky, engulfing the billowing demon energy.

In an instant, Chen Feng put all his strength into the great Shura Burial Art!

A mouthful of Shura's devilish energy started from the palm of his hand and shot directly into the man's heavenly spirit cover.

"Uh....."

The head of the celebrity monk was easily pinched in the palm of the palm by Chen Feng.

He tried to make a scream from the depths of his throat with difficulty, but how could he have time?

Just after the Shura Demon Qi, which had condensed a lot of power, was penetrated into the Sky Spirit Gai, all his flesh and blood powers were all transformed into death Qi in an instant!

Subsequently, the dead energy eroded in his body wantonly, eating away the remaining vitality.

A strong man in the eleventh cave of the ten-square cave, under this devilish breath, there is no room for struggling!

[Chapter 5675: how is it?](#)

Even the soul can't escape from the body, it can only be corroded together by the sound of the throat purring!

Then, it disappeared completely and turned into an extremely hard corpse!

"This is the state of the Great Asura's funeral burial technique to the fourth level?"

Chen Feng secretly marveled.

I have to say that the powerful person in the Shura world who created this set of exercises is really terrifying.

Even though Chen Feng's current strength is comparable to Yijie Dixian.

But just now, he did not reveal his full strength.

He even only pulled his own cultivation base to be no different from that human monk.

In other words, under the same strength, the Great Asura Divine Burial Art can easily kill the human monks in seconds!

let go.

The mummy fell straight to the ground.

Chen Feng raised his eyes to look at the "kind" who was chasing forward.

The giant black flame demon was astonished at the unexpected visitor, and then, his eyes breathed fire and thunderous.

"Dare to steal the head with Lao Tzu, do you **** know who Lao Tzu is!"

With that said, its devilish energy surged wildly, actually planning to make a move.

But before his words fell, a silver light suddenly lit up in front of his eyes.

"Too high to punish God!"

The next moment, Qingqiu Tianlong Sword kept trembling with excitement.

Shenhua is introverted and concealed just right.

Chen Feng slashed out without hesitation, the speed is extremely fast!

It even seemed casual.

However, it contained endless killing intent and sword intent!

Between the electric light and flint, the pupils of the giant black flame giant on the opposite side shrank suddenly, breathing still.

There is an instinct to remind it that the situation does not seem right!

This seemingly random knife might be a hidden secret.

But it was too late.

It wanted to escape, but its body seemed to be suddenly out of control, unable to move at all.

As if in the dark, a pair of supreme magic pupils stared at it.

The blood in his body was instantly cold and bitter.

boom!

The blade light flashed by.

Chen Feng turned his hand and put away the long knife, and took a step forward.

The five claws spread out and grabbed the giant black flame on top of the head in front of him.

This was the last scene that the Great Black Flame Great Demon saw during his lifetime.

As if a giant hand exterminating the sky came over the sky.

puff--

The corpse is separated!

Chen Feng grabbed its head and turned around.

Letting the blood flow down from the neck of the truncated body behind him.

The jet black blood shot out and fell on the ground below, quickly making a hissing sound of corrosion.

Wherever the devil's blood passes, there is no life!

In this way, under the gaze of the eyes of Mocheng in the distance, Chen Feng strode back to Breon Sass.

After throwing it casually, his head was thrown on the ground.

Chen Feng was too lazy to talk nonsense, staring directly at Breon Sass, using his spiritual knowledge to say:

"how is it?"

The whole process was vivid, and there was a brief silence in the audience.

All Shura saw Chen Feng killing people and killing his "kind" like slaughtering chickens and dogs, without hesitation or effort.

Absolute strength and courage!

Brunsz always stared at Chen Feng, and finally nodded slowly.

"You can join the Ten Thousand Demons League."

Upon hearing this, Chen Feng nodded slightly.

But, shortly afterwards, he looked at Bronzas again.

"Since I have proven myself, then, the invitation letter, I want a copy."

Hearing Chen Feng's words, even Brunzas was stunned.

Then, he laughed, his contempt and ridicule were not concealed in his eyes.

Outside the gate of Mocheng, many of the Asura demons who were originally shocked by Chen Feng's performance also laughed.

In response, Chen Feng was expressionless.

Through Kaohide's spiritual world, he could immediately understand why these Asura demons laughed.

They felt that Chen Feng was too naive.

With the Shura bloodline of this giant black flame giant demon, the Ten Thousand Demons League would never have his place!

From beginning to end, the reason why they kept him was nothing more than treating him as a pawn.

After all, for the Shura Demon Race, the inheritance of blood is the most important.

Even if Chen Feng was "exiled" or "expulted", as long as he was shed with the blood of the giant black flame and great demon, the Ten Thousand Demons League would never be able to accept him.

"Hahaha...Jamaji Gunti, your reaction makes us have to guard against it."

"The invitation letter in the Ten Thousand Demons League is limited, only the strongest Shura is eligible."

As he said, it kicked the head under the foot and sneered:

"To join the Ten Thousand Demons League, this surrender is enough."

"But asking us to give you an invitation letter, your surrender is far from enough."

The implication is beyond words.

Chen Feng frowned slightly, and without any other reaction, asked directly:

"What do you want?"

A pair of gray-green dragon eyes stood up suddenly, and a cold light flashed quickly in his eyes.

"It's very simple. Since you have been expelled from the Black Wisp Giant Flame Great Demon clan, you must be at odds with Gamma Stema."

"It just so happens that we are planning to form a team to win a stalking castle thousands of miles away."

"It's better for you to go there, take it down in one fell swoop, use the head of the monster guarding there, and exchange for an invitation letter, how about?"

"Since you were a clan of the giant black flames, you probably don't know how the castle is going, right?"

With Kaohide's memory, Chen Feng understood for the first time that this was a trap set by Brenzas for him.

There is indeed a huge stalking castle on a high mountain just miles away.

There are a total of four such castles in this small thousand world, which are located in the four directions of the east, west, south and north of the Devil City.

Among them, they are guarded by the four most powerful demon generals under Gama Stema.

And this one near the east is the most powerful of the Four Demon Generals, Gapelamia!

According to rumors, Gapelamia had already broken through the twelfth cave of the Shifang Dongtian realm five years ago.

At this time, Brunsz asked him to take down the head as a surrender, which was basically pushing him to death.

If Chen Feng is really at this point, I'm afraid he would really cheat.

He raised his eyebrows and nodded without hesitation.

"can."

Hearing such a quick and straightforward answer, the corners of Breon Sass's mouth twitched slightly.

For some reason, there is an instinct reminding it that everything is going too smoothly.

After thinking about it for a while, it suddenly laughed, strode forward, pretending that it wanted to hug Chen Feng with enthusiasm.

"However, since you have joined the League of Ten Thousand Demons, I am not a villain."

"My subordinates' demon soldiers have come up with a report. The demon general who guards in that castle is not to be underestimated."

"You can pick anyone in the city as a helper."

Hearing this, Chen Feng sneered in his heart.

helper?

I don't think he can rest assured, I have to send someone to stare at him.

However, Chen Feng didn't care.

He glanced towards the inside of Mocheng, and suddenly his heart moved slightly, and then he looked at Brunthus.

"Only pick one?"

Bronzas was taken aback and changed his words immediately.

"Choose whatever you want, as long as they voluntarily accompany you."

[Chapter 5676: Save people!](#)

Hearing this, Chen Feng relaxed himself.

He made no secret of his arrogance, with a wicked smile on his face.

The next moment, I saw him stretch out his hand and point to a tall corridor in the city:

"Can I pick the human race there too?"

The demons looked in the direction of his fingers, and their eyes fell on the brothel where screams were heard from time to time.

Bronsace was a little surprised at Chen Feng's reaction.

However, more onlookers of the demons realized it and laughed in unison.

Even looking at Chen Feng, the hostility in his eyes faded a lot.

There are many types of Asura demons, including militants and sexually obscene ones.

Unlike the human race, the demons are not ashamed of the latter.

At this moment, Chen Feng's style of bringing a few women to kill the enemy suddenly narrowed the distance between each other.

"Unexpectedly, he is still a fellow man."

"Since I'm an ally in the crusade against Gamasturma, I can still afford a few human races."

A demon with a snake head laughed loudly.

Its whole body is wrapped in blue-black snake scales, and a pair of vertical eyes are full of green and oily colors.

There was an introduction of Mozu soon beside him.

Since the Ten Thousand Demons League occupied this place, that brothel has belonged to this snake-headed demon clan.

Chen Feng nodded, and strode in unceremoniously.

Before long, more than a dozen women were brought out by him.

These women were covered with scars.

Some even staggered, supporting each other, looking at Chen Feng's back trembling.

Bronthas brows wildly, stepping forward and asking:

"Jamaji Gunti, this is a dangerous trip. Are you sure you just need to bring these human races?"

Chen Feng glanced at him obliquely, and exhaled unsaltedly.

"If you still don't worry, you can send someone to stare at me."

At this point in time, although Breonças was annoyed in his heart, he persisted in the apparent hypocrisy after all.

Chen Feng's figure returned to nearly a hundred meters, and he waved his hand to embrace the women in his palm.

The next moment, he opened his flesh wings, flew up straight, and quickly disappeared from the eyes of the demons.

Above the void.

The expected cold wind did not appear.

Instead, there is a pile of male clothing that fits the human size.

Just when the women were in doubt, Chen Feng stopped and landed on the ground.

"Xiaojin, come out and help me stare around."

After a word, all the women held their clothes and looked at Chen Feng with wide-open eyes.

What he said... is clearly the human language!

In the pile of ashes in his heart, a trace of warmth ignited again.

An almost whimsical possibility suddenly appeared in the minds of all the women.

"Just know to call us."

A golden light lit up, and Jin Sanye appeared with flapping wings.

It quickly opened its third eye between its foreheads, and shook down ten golden feathers.

In an instant, the feathers turned into golden crows, and in an instant they hid in the gray devil energy around them.

And the tall demon body was also in full view, and in a blink of an eye it returned to its adult appearance.

Chen Feng casually injected the spiritual energy into those women.

In the next moment, all the wounds on the women's bodies will be restored!

Only at this time, those shivering women finally confirmed that this was not a dream.

These dark days, when life is worse than death, finally ushered in a ray of dawn!

A woman knelt down immediately and looked at Chen Feng with tears in her eyes.

"Fairy, our human race... is there any hope?"

A woman knelt down, and all the women knelt down.

All of them burst into tears, and in the eyes that had lost their brilliance for a long time, a light called hope burst out again.

That kind of desire made Chen Feng had to move.

Came here in just one day, but he saw an unprecedented purgatory on earth.

The catastrophe after being invaded by the demons was presented naked in front of him.

Humans are animals, livestock, and fish. They are easily trampled, killed, and even eaten.

Chen Feng is a human race, how can he remain indifferent?

Moreover, his main task this time is to kill the demon and restore the opposition between humans and demons.

He immediately raised the woman in front of him.

But when Chen Feng was about to speak to comfort him, suddenly his complexion changed drastically.

Before he could react too much, the golden Daoyun around him instantly lit up.

boom!

With a loud and deafening noise, a huge demon body suddenly appeared!

Where Chen Feng and others were, a deep pit was instantly smashed.

For a time, rubble splashed everywhere.

The ink black magic air spreads outward!

A few miles away, golden Dao Yun flashed, and those women appeared here together with Chen Feng.

"what happened?"

Chen Feng's heartstring tightened instantly.

His face was serious, his brain was running at high speed, and his eyes were staring at the unexpected guest who was suddenly attacked.

That is a giant black flame demon!

Only by the unexpected move just now, Chen Feng was enough to conclude that this demon must be a super-level Asura demon.

It is equivalent to the twelfth peak of the human race's Shifangdongtian realm!

In this world where the cultivation base is restricted, the strongest strength that humans and demons can exert is only below the celestial immortal. *NoVeLUsb.com*

It can be said that the Super-Order Shura Demon Venerable in front of you can almost run rampant here!

"who are you?"

As soon as he heard the voice, the giant black flame giant flame moved instantly, and he attacked again.

There is no room for talking!

Chen Feng frowned immediately.

If you are fighting alone, it may not be difficult to defeat this super-order Asura Demon Lord.

But right now, he has saved so many women who have no power to bind the chicken.

At the same time, it is a bit difficult to use enough strength to protect these people.

However, despite this, Chen Feng did not feel that the act of saving people was a move to hit him in the foot.

One person can be saved.

What he is mainly worried about is the origin of this giant black flame!

Was it coming all the way from the Ten Thousand Demons League, or just passing by?

But now I can't think about it too much, the devilish energy is surging, and Chen Feng can only run the Taishang Yuqing Nine Shou Zhenshu again.

The golden Dao Yun rose in a flash, encumbering all the women to change their positions again.

After doing so several times, Chen Feng's complexion became more and more gloomy.

This is no way!

This world is inherently thin, far less than one-tenth of the top of the sky.

In addition, after being invaded by the demons, the power of the stars is even rarer.

Even if the star map in Chen Feng's body connects hundreds of stars in the depths of the vast universe, distant water can't quench the near thirst.

What's more, mortal enemies such as Chu Taizhen, Zhong Li Tansheng, and Gama Stema are still staring at them in unknown places.

No matter who sent the Shura Demon Lord in front of him, there is only one thing to do now--

Quick decision!

Hum!

After teleporting again, Chen Feng flipped his hand and took out the large-scale Luo Hong furnace, waving his sleeves and quickly zooming in.

Plan to cover those women in it.

But, at this moment, an abnormal change suddenly occurred!

[Chapter 5677: Demon!](#)

As soon as the silent Super-Order Asura Demon Sovereign in the distance saw the Great Asura Hong Furnace, his eyes immediately burst out with two almost substantial **** rays.

"It's really you who stole my clan's treasure and killed my clan's direct relatives!"

Around the Shura Demon Venerable who was originally calm, the devilish energy suddenly went violently!

The overwhelming devilish energy madly gathered towards this sky.

Chen Feng's complexion changed abruptly and suddenly felt something was wrong.

The great Xiu Luohong furnace, who originally thought he had been refined into a Taoist weapon, was not under his control at this time!

A red light was blasted out of the billowing devilish energy, locking it precisely.

Chen Feng's complexion changed drastically.

I saw a magic orb glowing red in the hands of the Super-Order Shura Demon Lord!

It was this weird magic bead that controlled the great Xiu Luohong furnace!

He gritted his teeth immediately.

The Taoist artifacts you have obtained must not be taken away like this!

Chen Feng no longer retained his strength, and immediately controlled the Grand Asura Luohong Furnace with all his strength, hoping to regain control.

Screams sounded one after another!

Without the blessing of the great Xiu Luo Honglu, Chen Feng tried his best to fight the magic orb.

The strong magical energy penetrated more than a dozen mortal women almost instantly.

Coupled with the extremely overbearing cultivation base collision, for them, it is tantamount to the most violent storm!

The woman who had just recovered from her injury, in a blink of an eye, her naked arms and face seemed to have been cut by a knife, and her face was instantly bloody!

Chen Feng is itchy with hatred!

If this continues, these women will undoubtedly die!

But he rescued them, not to send them to death.

Obviously, he is clearly to save people!

At this moment, a shout came from behind.

"Fairy!"

"You can save us from the fire and water, this great kindness, we prostitutes do not repay us, we must not be a burden to the immortals again!"

"Death is a relief for us."

"Please don't care about us anymore, please protect yourself!"

More female voices sounded.

Chen Feng didn't look back, but his spiritual knowledge was clear.

These young and beautiful women were covered in blood at this time, and they knelt behind him like this.

Obviously they are the delicate bodies of the weak Liu Fufeng, but their backs are straight at the moment.

There were tears on their faces but a smile.

"I just hope that in the coming days of the Human Race Rejuvenation Day, the immortals can sprinkle a glass of wine for me on this land!"

After the conversation, all the women faced Chen Feng and kowtow!

After this worship, he never got up again.

Chen Feng's heart twitched fiercely.

He stared at the giant black flame giant in front of him, his eyes bursting with hatred.

The next moment, a loud shout sounded.

"The gentleman's promise will be fulfilled in the future!"

Wow----

There was a loud noise!

The golden rhyme lights up.

Chen Feng appeared in front of the Super-Order Shura Demon Venerable.

Turning his hand, Qingqiu Tianlong Sword in one hand, and Golden Daoyun Long Sword in one hand.

Swinging high, he slashed forward.

"Give, me, go, die!"

Rumble!

An extremely dazzling thunder light suddenly struck Chen Feng.

Incidentally, there is the super-order Shura demon in front of him!

It was too late and then soon, the golden Dao Yun lighted up, and the third huge vertical pupil in the space of heaven and earth repeated reincarnation lit up with black light.

When the sky thunder disappeared, the golden Tao Yun lighted up again.

Chen Feng reappeared on this scorched land and reached out to retrieve the great repair Luo Hong furnace.

A half-fisted magic ball rolled down on his feet.

Chen Feng slowly bent his knees and reached out to pick up the magic bead.

Without its devilish energy, it looked inconspicuous, and only the fine lines could be noticed by the bottom.

The bronze material is the same as that of the Luohong furnace.

Apparently, this object was probably part of the Great Asura Hong Furnace.

Hum!

The Supreme God's Demon-Transforming Dragon Art was operating, and Chen Feng's figure disappeared and turned into a tall, large black wisp of giant flame demon.

The devilish energy that was constantly filling around seemed to have emotions instantly, cheering and rushing over.

In the next moment, the magic beads in the palm shot out red and black divine lights again.

Like fine sand, endless resentment and killing intent burst out.

Chen Feng lowered his eyes and felt that the closed Great Asura Honglu faintly resonated with this magic bead.

It seems that the Super-Order Shura Demon Venerable used this to determine his trace.

Above the wilderness, the cold wind rushes like ten thousand horses, whistling through the vast scorched earth.

He turned his head and didn't even look at the huge demon body that fell in the scorched mud pit in the distance.

The Super-Order Shura Demon Venerable had already passed out at this time, and he didn't know his life or death.

Chen Feng just withdrew the repair base at the last moment, took out the major repair Luohong furnace and escaped the sky thunder initiation.

At the same time, a demon heart was implanted in the depths of the spiritual world of that Shura Demon Venerable at an extremely fast speed.

"Gama Stema has sensed that I am coming..."

His heart sank slightly, and his eyes fell forward.

Her thin lips pressed tightly, and she remained silent for a while.

On the blood-stained soil, the delicate bodies in casual clothes of large men lay quietly.

Even with the bitter wind, it is still difficult to conceal the beauty of his lifetime.

Among them, the leading woman fell to the ground, her pair of beautiful eyes staring at the gray sky.

Chen Feng reached out and closed those eyes gently.

After half an hour, Chen Feng's figure disappeared on this land.

There were only more than ten tomb bags left in the same place, as well as an ordinary treasure knife stuck in the front.

There are two characters engraved on the treasure knife——

Loyal!

...

boom!

The dark black magic slammed hard against a huge closed iron gate.

With a deafening loud noise, the huge gate that reached a height of one hundred meters broke apart!

The bitter murderous aura was unscrupulously placed outside.

A figure more than ten meters tall put away its fleshy wings and strode towards the blasted castle gate.

Here is the destination of Chen Feng's trip.

Gaperamia, one of the four great demon generals under Gamasturma, is guarding this place!

What Chen Feng had to do was to cut off Gaperamia's head and bring back the Ten Thousand Demons League as a gift of surrender.

But after arriving at the black magic castle on the top of the mountain, the situation has changed.

Click, click.

The footsteps constantly echoed in the magic castle.

The surrounding area was dark, and the cyan flame was supposed to light up the magic castle.

But at this time, the candlesticks were all extinguished for some reason, and scattered all over the place.

The magic fort, which is thousands of meters high, stretches forward, followed by the front hall, the main hall, and the apse.

At this time, Chen Feng was standing outside the magic castle, holding his chest with both hands, his eyes focused.

It was the Super-Order Shura Demon Venerable who had previously wanted to drive him in instead of him.

Through the perspective of the Super Asura Demon Lord, Chen Feng was enough to see everything in it clearly.

Walking in all the way, long time no living person.

Some are all Shura demon soldiers who died all over the place.

Moreover, many of them have just died not long ago.

"It looks like someone has already taken the lead."

Chen Feng meditated silently in his heart, and his divine consciousness continued to extend toward the depths of the magic castle.

[Chapter 5678: Mystery man!](#)

At this moment, his heart suddenly alarmed.

The instinct of a strong man was madly warning, and it made Chen Feng control the Super-Order Shura Demon Venerable to flash to one side for the first time.

But something surprising happened!

A pale human hand suddenly appeared from nowhere, and silently pressed it on the chest of the Super-Order Shura Demon Lord.

Chen Feng's heart shuddered and immediately stood up straight and looked in.

boom!

Even if a sneak attack had been foreseen in advance, for some reason, the body of the Super Ultra-Order Shura Demon Venerable was still a step slower.

When that pale little hand was pressed on its chest, an unexpectedly huge demon energy exploded!

There was no time to react at all, and the line of sight suddenly turned around.

The sternum of Super Asura Demon Lord is almost completely shattered!

It coughed up blood, hated and startled, and looked up.

The next moment, I saw its pupils suddenly enlarged.

A petite human figure stood in front of it without knowing when.

Through the vision of Ultra-Order Shura Demon Lord, Chen Feng could only catch the two red lights.

Boom boom boom!

Super-Order Shura Demon Lord lost contact with Chen Feng.

It is completely dead.

The devil heart rooted in the depths of the spiritual world dissipates naturally.

Standing outside the magic castle, Chen Feng looked surprised and shocked like never before.

"That... is... a person?"

However, this surprise cannot last long.

Almost at the same time, the figure less than two meters raised its head and looked beyond the magic castle.

Chen Feng almost felt a sense of being locked into a target by a beast in an instant!

Hum!

When it was said that it was too late, the two figures disappeared in place at the same time.

Chen Feng flipped his hand and took out the Qingqiu Tianlong Knife, and ran the Taishang Yuqing Jiushou True Art with all his strength.

Golden Dao Yun took it away and came to the sky above the magic castle.

Without a breath, the mysterious strong figure with red eyes appeared where Chen Feng was standing.

After rushing into the air, it suddenly raised its head and stared at Chen Feng above the sky.

The two looked at each other, and both were taken aback.

But the next moment, the figure at the gate of the magic castle disappeared again.

Chen Feng frowned suddenly, and clenched the Qingqiu Heavenly Dragon Sword in his hand with a furious wave.

Clang!

Fire is everywhere!

The sound of Jinshi suddenly rang in my ears.

Sure enough, the figure was so fast that it appeared in front of Chen Feng in the blink of an eye.

But what is even more surprising is that the figure that appeared in front of Chen Feng is a person!

He is nearly two meters tall, with disheveled hair and ragged clothes.

But it is truly no different from the human race, with prosperous hands and feet.

Through the unkempt long hair, one can also see a dirty face.

At this moment, the mysterious powerhouse's eyes were red, staring at Chen Feng.

"dead!"

After a violent drink, the mysterious man rushed over like a mad dog.

There was a stranger roar deep in the throat.

"Roar--"

The thick, rugged sound is completely different from that scream!

Ever since Chen Feng stepped on the road of cultivating immortals, he had never heard such a weird roar from a human race.

It's more like the roar of a beast.

What was even more bizarre was that the next moment, all the devilish energy around seemed to be under some control.

In an instant, a vacuum zone appeared around Chen Feng.

All devil energy can't be approached!

Between the lightning and flint, Chen Feng's mind suddenly popped an idea.

The body of this mysterious strong man is harder than ordinary humans.

Upon closer inspection, the red and glowing eyes are also different from ordinary people. The pupils are lighter and even have a tendency to erect.

More importantly, the strange changes in the surrounding demonic energy must be caused by this strong man.

Not only is it not suppressed by the impression of demonic energy, but on the contrary, it can easily control the demonic energy, plus the roar like a beast from above.

Thinking about it again, this mysterious strong man has never used any of Human Cultivation Techniques or Supernatural Powers since the meeting.

Compared to the human exercises, what he showed was more like an instinctive offense.

The golden Dao Yun around Chen Feng appeared instantly.

boom!

There was a loud noise, but the attack of the strong fell through again.

At the next moment, a leisurely voice came from inside the magic castle gate:

"Are you... a half demon?"

Although it is a question, it is a statement.

At the moment he heard this, the mysterious strong figure suddenly turned around and stared at the reappearing Chen Feng.

Such a reaction has almost confirmed Chen Feng's guess.

This mysterious strong man is probably a half-devil!

However, Chen Feng said that it was a half-devil move, which seemed to anger the mysterious strong man.

In an instant, those eyes that were slightly different from the human race turned into crimson vertical pupils in an instant!

"Roar--"

With this roar, the surrounding demonic energy seemed to be ignited, and it began to stir frantically!

"not good!"

Chen Feng immediately changed color and retreated frantically.

But it still doesn't work!

The strong man who was suspected of being a half-devil seemed to be in a violent state. Both the body shape and the breath are better than before.

In one fell swoop, he broke through to the Lingxu Land Wonderland!

Suddenly, the sky above the magic castle was covered with dark clouds, and the thunderclouds began to surge, constantly pressing downwards.

Chen Feng's complexion became extremely ugly, and he immediately urged the great Shura burial technique with all his strength.

But to no avail!

The mysterious strong man seemed to have entangled him completely.

No matter how he retreats, the opponent can chase him.

What surprised Chen Feng even more was that after he had entered the Avenue of Gods and Demons, he had a deep understanding of Taishang Yuqing's Nine Shou Zhen tactics before he could release his Dao realm and his golden Dao rhyme.

It can be said that in terms of speed, he should be invincible at the same level!

Even if he is stronger than a few ranks, he may not be faster than him!

But the mysterious strong man kept up.

After paying attention for a moment, Chen Feng understood how the mysterious strong man did it.

Simply put, the opponent is just like Chen Feng, teleporting!

Moreover, he regarded the devilish energy everywhere as the golden rhyme used by Chen Feng for teleportation.

Compared with Chen Feng's stimulating golden Dao rhyme every time, the magic energy around him is naturally faster!

Rumble!

The thunderclouds are getting lower and lower, and the mysterious powerhouse Mo is dancing wildly, and the aura that erupts from his body is still strengthening.

Seeing that he was going to break through to the level of the immortal of a catastrophe.

Chen Feng had to react-it was not a joke to be smashed by the tribulation!

Soon, an idea came to his mind.

No matter what, try again.

He stopped his evasive figure, looked at the mysterious strong man who was rushing forward, and shouted:

"If you are a half-devil, then we are the only one of our kind in this world."

Boom!

At this time, the thundercloud above his head sent a fierce thunder light outward, illuminating the sky.

However, Chen Feng did not wait for the oncoming demonic energy.

He was right!

The mysterious strong man seemed to have recovered a bit of his senses and temporarily put away his offensive.

But the face is still on guard slowly.

[Chapter 5679: Half devil!](#)

He stared at Chen Feng, constantly looking at his expression, and wanted to judge the truth of this statement by Chen Feng's expression.

Chen Feng let out a long sigh of relief.

The next moment, he put away the great Shura burial art, and restored his human form in the presence of the mysterious powerhouse.

The thundercloud above his head quickly dissipated, and the sky and the earth returned to their gray appearance again.

The red light in the eyes of the mysterious powerhouse has long since disappeared.

Instead, shock!

"you....."

Chen Feng took the initiative to meet the mysterious strong man and stood still hundreds of meters away from him.

"I thought I was the only half-devil surviving in this world. I didn't expect to see you again today."

There were tears in his eyes, and he looked particularly excited.

But immediately afterwards, the breath on his body suddenly became extremely harsh.

Chen Feng looked at the strong man in front of him.

It seemed that this person was only seventeen or eighteen years old, with pale skin exposed in his rags, as if he had never seen the sun before.

And the body is even more devastated.

Especially his wrists and ankles, it was even more horrible.

Chen Feng can conclude without even guessing that this person was afraid that he had been imprisoned since he was a child and suffered all kinds of torture.

A half-devil who can successfully survive!

A brand-new killer created by all Shura demons!

Without waiting for Chen Feng to speak again, suddenly, the half-devil youth in front of him stagnated.

The next moment, he actually knelt on his knees, holding his head and shouting.

Puff!

Then he curled up and fell to the ground, his hoarse roar filled with pain.

That tragic cry sounded like being cut by thousands of knives, terrible!

Chen Feng's complexion changed immediately, and he just wanted to come forward to help.

But I didn't want to, the half-devil youth in front of him began to change drastically!

He began to grow bigger, his fair skin was covered with crocodile skin-like bumps at a speed visible to the naked eye.

The devilish energy around is violently turbulent.

It didn't take long for a huge black flame demon about ten meters long to appear in front of Chen Feng.

At this point, Chen Feng can finally be sure.

This is a real half demon!

Unexpectedly, he would have such a reward during this trip.

For a while, Chen Feng didn't know if he should be lucky.

No, it seems that although this half-devil youth has survived and gained unprecedented talent, his state is very unstable.

Even just now, when the two played against each other, Chen Feng also noticed that this person's usual cultivation base should not be that high.

But once he falls into a violent state, he can even break through his own limits, directly breaking through several realms!

In an instant, Chen Feng had two choices in his mind:

Either take the opportunity to kill the killer, and directly eliminate this time bomb.

Or, just continue the trick and help immediately!

After thinking for a while, Chen Feng had already made a choice in his mind.

Without saying a word, he fully mobilized all three hundred and sixty-five stars in Xinghai World!

Compared with the overbearing power of the Asura demon, the power of the stars of the human race is obviously more flexible.

It is extremely soft and pure when it needs softness, and it is indestructible when it needs toughness!

"Let me help you, don't reject me!"

Chen Feng spared no effort to penetrate all the power of the stars into the half-devil youth.

Who knows, as soon as he entered, a more raging force burst out directly on the face!

After the violent power seemed to rush in the half-devil youth, he finally found a catharsis and directly followed the direction where the power of the stars came, and invaded Chen Feng's star-sea world aggressively!

Hum!

An unprecedented amount of violent violence is raging.

They rushed across Chen Feng's star sea world, and wherever they passed, even the stars were affected and became bleak.

This is the pain this half-devil young man has to endure every day!

Thinking of this, Chen Feng became more and more disgusted with the demons in the Asura world.

Use oneself and alien races to breed the next generation, just to get stronger strength.

Tiger poison does not eat seeds!

However, at this moment, Chen Feng could only calm down and fully urge the power of the stars in his body to fight against those raging outside auras.

Fortunately, although those forces are coming violently, Chen Feng's Star Sea World is extremely vast!

Even if the incident happened suddenly, he still controlled the situation as quickly as possible.

Two hours after the big moon, the amount of violent violence from the half-devil youth was gradually suppressed.

Until then, Chen Feng was able to take the time to investigate carefully.

After this amount of violent violence was subdued, there was still an incomparably vigorous blood.

Even though Chen Feng had a very special supreme bloodline, he still noticed an aura close to the same kind.

The half-devil young man who fell to the ground struggling, was embarrassed at this time, and did not know when he would return to his human form.

While he was exhausted, Chen Feng quietly circulated the world and reincarnation of heaven and earth.

Afterwards, a demon heart was silently implanted in the depths of the half-devil youth's spiritual world.

Chen Feng didn't plan to start the evil spirit this time.

He stepped forward and lifted up the half-devil youth, frowned, and looked quite embarrassed, as if suffering a lot.

"Your blood is not easy to deal with."

Chen Feng said casually just to test the reaction of the half-devil youth.

Sure enough, he quickly received the other party's thoughts in his spiritual consciousness.

The truth of the matter is even more unexpected.

This half-devil's biological father is the master of this demon castle, that is, one of the four great demon generals under Gamma Stema, and Chen Feng is about to hunt down this time.

And the half devil has never seen his biological mother.

Shura, who was his biological father in name, had told him more than once that when he was still in the womb, he madly absorbed almost all the power of his mother.

Then, he burst out of his own mouth!

His birth means the sudden death of his biological mother.

The only thing that can be determined is that his biological mother is a monk with a very special personality.

Because of this, the Shura bloodline and the special human bloodline forcibly merged, giving the half-mob an unprecedented talent.

At the same time, the two bloodlines themselves are constantly repelling each other.

When the half-devil youth can't suppress these two bloodlines, his body will lose control!

The long-term pain caused him to be extremely irritable, even bloodthirsty.

In order to control him, the demon general imprisoned him in the underground of the demon castle since childhood.

It's just that the biological father didn't expect in any way that the talent of his own half-devil was too high!

Even if he can stay trapped for five or ten years, as long as he is alive, his strength will grow stronger.

That underground prison can't hold him up forever!

Chen Feng looked at the magic castle in front, and there were not many ripples in his heart.

In order to stimulate the half-devil youth's greatest potential, every Shura here has done something to him.

The whole body is full of shackles, and even thunder and lightning are arranged from time to time.

For the whole eighteen years, the half-devil lived here is not as good as death!

Nowadays, once freed, revenge naturally follows.

Slaughtering the entire magic castle was also expected.

Looking at Chen Feng's calm and calm appearance, the half-devil youth finally stood up, and his eyes were no longer full of hostility.

"You seem to be no stranger to these things in me."

Chen Feng nodded.

"I have experienced everything you have experienced."

"The spiritual world is sealed layer by layer, imprisoned since childhood, added by chains, and studied by the people."

"Even if I saw you later, I didn't treat me as flesh and blood at all, and killed me if I said to kill..."

To some extent, they are indeed a class of people.

Even their mother was used and disappointed.

No matter whether they live or die!

Chen Feng closed his eyes and condensed all his emotions. When he opened his eyes again, he had returned to his former calmness.

"My name is Chen Feng, what is your name?"

The half-devil youth was taken aback when he heard the words.

He keenly caught some of the emotions that Chen Feng had just released, so he believed Chen Feng's previous statement by three points.

He shook his head: "I have no name."

Chen Feng smiled at him.

"In that case, why don't you call Chen Sha from now on?"

The half-devil youth repeated the name in a low voice.

"Chen... kill..."

He raised his head and looked at Chen Feng, his eyes more determined.

"From now on, my name is Chen Sha!"

After changing into clothes given by Chen Feng, the two exchanged some news.

Chen Feng realized that Chen Sha was full of hatred for the demons, but he was not kind to the humans.

Because of the rejection of the Shura demons, they often show people in human form.

But in essence, he is a special existence without any sense of belonging.

At this moment, he was willing to get close to Chen Feng because of him, Chen Sha saw a sense of belonging.

...Your existence should not have been exposed yet, at least for the moment the entire Black Wisp Giant Flame Great Demon clan secretly pursues and kills me alone. "

Chen Feng flickered solemnly, and then told himself the purpose of this trip.

Upon hearing that Chen Feng had joined the demons, Chen Sha frowned immediately, showing strong dissatisfaction.

In this regard, Chen Feng sneered:

"I just want these demons in the Shura world to kill each other!"

He looked at Chen Sha and shot even more killing intent.

"Compared to killing all the demons on your own, isn't it more interesting to fan the wind and add some firewood to make the fire more and more prosperous?"

Looking at Chen Feng's firm eyes, Chen Sha was persuaded.

"Are you planning to let me join the Ten Thousand Demons League?"

Who knows, Chen Feng shook his head uncharacteristically. *novelusb.com*

"The two black wisp of giant flames will arouse the vigilance of the Ten Thousand Demons Alliance, but it is probably more difficult to mix them in the human form."

"As far as I know, the leader of the Ten Thousand Demons League is the Lamian Demon Saint of the Qiantian Flying Dragon Demon."

"Its strength is the pinnacle of this little thousand world."

Soon, Chen Feng had a plan in his mind.

He looked at Chen Sha and said every word:

"I have been planning all this for a long time. Even if it is you, I will never allow you to destroy all these plans."

"So, if you want to follow me, you'd better do what I say."

These words sounded extremely strong, but they just right dispelled Chen Sha's last doubt about Chen Feng.

In Chen Sha's view, no one here would help another person for no reason. Chen Feng's vigilance, strength and "selfishness" are all his true manifestations.

Since the goals are the same, Chen Sha doesn't mind cooperating with this "the only one of its kind in the world."

After a day.

Mocheng ushered in a returnee.

Puff!

A huge demon head rolled down in front of Brunsas, Chen Feng said lightly.

"I brought the head back, do I have a copy of the invitation letter?"

"You really did it!"

Bronzas stared wide at the gray-green vertical pupils, very surprised.

Then he raised his head to meet Chen Feng's gaze, his complexion became solemn.

Before that, even if Chen Feng had proved his position to them before, after all, the bloodline was there, they had no intention of letting Chen Feng really join the League of Ten Thousand Demons.

To give him this task is nothing more than to die.

Who would have thought that Chen Feng could have done it.

Chen Feng couldn't help sneering when he noticed the reaction of Bruxus and many demons in the distance, but his divine knowledge spread.

"The stalking magic castle has been slaughtered by me, and I haven't let go of one."

"This surrender, sincerity should be in place, right?"

As soon as these words came out, after a brief silence, Brunsz finally nodded.

"That's natural!"

"Follow me, I will take you to see the leader."

Afterwards, it grabbed the head and guided Chen Feng to the headquarters with him sideways.

Gamaji Gunti slaughtered the entire Stalking Demon Fort by his own power, and the news soon flew out as if he had inserted his wings, and quickly spread throughout the city of Mo.

Along the way, the Asura demons kept coming to look at Chen Feng.

The demons talked to each other and whispered.

No one has ever heard of such a number one among the black wisp giant flame demon generals led by Gama Stema.

"It stands to reason that with its strength, even if you have a bad relationship with Gamma Stema, you shouldn't have never heard of it..."

Such discussions are not rare.

But Chen Feng already had a set of measures in his mind at this time, and he didn't care about these remarks.

But Breon Sass looked over frequently, and stopped talking a few times.

Or Chen Feng took the initiative to look at it and asked it to ask.

But looking at Chen Feng's candid gaze, Breon Sass denied these discussions in his heart.

The words around this Jiana Jigang Tiding heard more clearly, but he was still calm, showing a clear conscience.

And I have tried it several times, and it seems a bit too much to ask...

But since Gamajiganti had said everything, it had no choice but to find a topic.

"Jamaji Gunti, when you left, you took more than ten human mortals. Why are you missing now?"

When Chen Feng heard this, his face immediately sank.

He did not answer, and even for a moment, the killing intent almost leaked out.

However, Bruce Sass had just forcibly searched for a topic, trying to push the previous Xiao Jiujiu over, so he didn't realize this.

It noticed Chen Feng's reaction, but came up with another answer on its own.

"It looks like it has been used on the road?"

"Those mortal women have good looks, skinny and tender meat, whether they are eaten raw or cooked or enjoyed, they are quite delicious."

"It's a pity that a mortal woman is a mortal woman, unused..."

Listening to these foul language all the way, Chen Feng cast a deep look at Brunsz.

He silently noted that when the plan is over, he will kill this dry flying dragon to vent his anger!

However, while speaking, Bruce Sass mentioned a key content.

"Half Demon Project?"

Chen Feng's spiritual consciousness interrupted it.

Buron Thaston paused, looked at Chen Feng, and seemed a little confused: "You don't know?"

"I heard it, but I don't know it very well."

Chen Feng considered it, and began to tap.
