

Peerless 791

[Chapter 791: A broken ship! Cut a hundred people with one blow!](#)

When the water splashed, it even wetted Wei Hongshou's clothes. The soaked clothes were tightly attached to his body, making Chang Hongsheng's eyes hot, and his eyes could not blink.

And seeing this scene, above the ship, the young man in Jin Yi who mocked Chen Feng and others just now laughed and whistled very frivolously.

He shouted to Wei Hongxiu, "Hey, little girl, she looks good!"

"Come on the boat, Lord, as long as you let him play for a few days, the boat will be sent to you!"

Wei Hongxiu looked at him coldly, and said with disdain, "What are you?"

"Yo, the little girl has a very hot temper."

The Jinyi youth's expression immediately sank, and he said coldly, "Don't be shameless!"

"You don't come up by yourself now. Believe it or not, I will directly overturn your ship later. Then some of your companions will beheaded, and then you will get on board?"

"At that time, you won't be so lucky. After I finish playing you, I will reward you to the people in turn."

"At that time, I think you dare not be so spicy!"

Wei Hongxiu was furious and was about to do it.

But at this time, Chen Feng held her hand and said lightly: "Let me come."

He raised his face, his expression faint, Gu Jing Wubo, he did not put the Jinyi Youth and others in his eyes.

Just spit out four words gently: "It's really noisy!"

Speaking, rolled out with one palm.

With a loud bang, Chen Feng's palm seemed unremarkable, but after the bang, there were six giant dragons.

Six giant dragons directly hit the building, knocking the building tens of meters away.

Then the next moment, the entire building was torn apart, exploded into countless planks and debris.

Quite a few people above were blown to death, and many people were directly killed.

There were hundreds of people on the boat, and many of them were killed or injured at this time. Many more people fell into the water with a thump, one by one in embarrassment.

The smoke cleared, and the ship had turned into countless pieces of wood.

And the young man in Jinyi, caught off guard, also fell into the water and choked a few salivas.

He was chattered by several guards, coughing loudly, very embarrassed, and a few green algae on his head, which looked very ridiculous.

Upon seeing this scene, Wei Hongxiu couldn't help covering his mouth and giggling: "Like a toad out of the water!"

Hearing his words, everyone else laughed: "Isn't it? At this time, this young man in brocade clothes is really like a toad out of the water!"

Chen Feng showed this hand, and the faces of the people on the boat above the ship were astonished.

Looking at him, he was full of fear and jealousy.

One palm! Broken building ship!

An old man with a shocked expression on his face, his eyes widened, muttered to himself:

"How is it possible? It's incredible. At the age of seventeen or eighteen, this young man is already so powerful? This trick is definitely not inferior to the peak of the ninth building!"

But how did he know that Chen Feng hadn't used his truly powerful tricks yet.

And the young man in Jinyi felt that he had lost face greatly, his face flushed.

He shouted sternly: "Little bastard, how dare you destroy our Liu family's boat!"

Chen Feng said lightly: "You were the first to ridicule and provoke us."

"So what?" The young man in Jin Yi said extremely arrogantly: "If I speak to ridicule and provoke, you can only endure it! But you can't fight back!"

Chen Feng sneered: "Really? You are something!"

The young man in Jinyi was full of resentment and shouted: "Little bastard, you wait for me, I will kill all of you, and then humiliate this girl to death."

Chen Feng's eyes became colder, and he said lightly: "Why is there still so much nonsense? Isn't it enough that the face was beaten just now?"

With that said, Ziyue Knife came out of its body and cut it out in the air.

Splitting the air with a slash, it was launched suddenly, and a huge sword energy of ten meters long appeared out of thin air, passing a distance of tens of meters at an extremely fast speed.

The members of the Liu family only felt a flower in front of them, and a huge sword energy came before them.

This huge sword energy, like a knife cutting tofu, directly cut the Jinyi youth and dozens of people next to him into two!

The sword energy swept across their bodies, and many people did not react at all!

Some people who reacted desperately wanted to resist, but they were directly cut off by the extremely sharp knife.

Wielding a weapon to resist, destroy the weapon with a single blow!

Waving his arm to resist, cut off his arm with a straight knife!

In front of the sword spirit, they are basically the same, they are all fragile like tofu, and they are cut in pieces!

Suddenly, the scream sounded loudly, but then fell again.

Because they lost their vitality in an instant.

In an instant, this area of water was directly dyed red, and there were countless corpses with broken limbs and arms floating above the water, which looked quite terrifying.

With one knife, only one knife, Chen Feng killed a hundred people!

This scene made the remaining members of the Liu family even more terrified. Looking at Chen Feng, some people were shocked, their teeth trembled, and they dared not say a word.

"Young Master is really ridiculous, dare to provoke such a powerful man!"

"Didn't this cost his own life? More than a hundred people would die with him!"

"It's really blind to his dog's eyes, this young man is extremely powerful, one person is enough to crush us all!"

[Chapter 792: Arrived at the ruins](#)

An old man bowed his hand to Chen Feng from a distance and said: "This strong man, it was indeed the young master of my family who spoke badly just now."

"Now that you kill him is considered revenge, can we leave?"

His attitude is extremely humble.

Chen Feng said lightly: "Go away."

The old man was amnestied, and immediately took the remaining Liu family members and swam away in a hurry, not even the corpses!

As for Chen Feng's such harsh means, even Wei Hongxiu and Liang Guangyu and the others were shocked and could not speak for a while.

Some people even showed unbearable expressions on their faces, thinking that Chen Feng's methods were too cruel.

Chen Feng glanced at them and shook his head slightly.

These people and themselves are not a beast after all. They are either from a big family or from a big sect. They have shown strong talents since they were young, and they have come here smoothly.

Therefore, the temperament is less fierce and murderous, far inferior to Chen Feng's bumpy experience.

At this time, only Ling Xiao clapped loudly, haha laughed and said, "Brother Chen Feng, this is how it should be!"

Chen Feng said lightly: "This person dared to insult Wei Hongxiu and speak insultingly. He really deserves to be killed."

Wei Hongxiu also recovered at this time, giggled, and said, "Chen Feng, thank you for venting your breath for me."

At this time, after entering the depths of the swamp, the dense fog faded a lot, and the visibility was very high.

This swamp is huge like a big lake, from time to time you can see some small islands and dry ground.

Many people saw Chen Feng destroying a ship and killing a hundred people with one blow.

Their faces were full of jealous and shocked expressions. There were some who wanted to come over to provoke them, but at this time they all just rowed away.

No ship even dared to approach Chen Feng and others within a hundred steps!

Chen Feng showed his strength and avoided a lot of trouble.

The boat kept sliding forward, very fast.

The next morning, they finally reached their destination, a small island in a swamp.

It seems that the area is not small, with a radius of tens of miles. On the small island, there are dense forests and mountains.

On the beach by the river. Many small boats have been abandoned, and obviously many people have arrived here.

Chen Feng and others also hurried to the island.

When I came to the island and entered the dense forest, I could see that the dense forest here was originally off the beaten track, but obviously, many people had already come before, and they stepped out directly in the forest.

Chen Feng and others followed the road, all the way to the very center of the island. novelusb.com

This place is already a mountain, and when Chen Feng and others walked out of the dense forest and saw the situation in front of them, they all took a breath.

In a valley, there are ruins everywhere, exactly where the ruins are.

In the center of the site, there is a huge circular mountain bag, hundreds of meters high. The mountain bag is obviously man-made, built with huge rocks.

There is a huge gate under the mountain bag.

Chen Feng said, "Where is this ruin? It is clearly a large tomb?"

"Yes, it looks like a cemetery here." Wei Hongxiu also nodded in agreement.

Everyone hurried to the door, the stone door at the door had been pushed aside, and obviously a lot of people had already entered.

"Let's go in, too." Chen Feng said, and the other people nodded one after another, and then quickly entered the tomb.

After entering, there is an extremely wide corridor. At this time, the corridor is 100 meters wide, and the end can not be seen at a glance.

At this time, numerous corpses appeared on the stone paved corridor.

The death of these corpses was very miserable and terrifying. At first glance, at least thousands of people died here.

Chen Feng and the others were quite astonished, and what shocked them most was that there seemed to be nothing but the corpse in this corridor.

It's as if these corpses died here for no reason.

Chen Feng immediately said in a deep voice: "Everyone, be careful. I have a body-building exercise and a strong defense. I am at the forefront and you are all behind me."

Everyone nodded slowly.

Behind Chen Feng is Wei Hongxiu. On the left and right sides of Wei Hongxiu are Liang Guangyu and Li Zhipeng.

Next to Wei Hongxiu is Suyun, and Chang Hongsheng at the back.

A few men kept the two women inside, and Ling Xiao, because of his low strength, took the initiative before entering the tomb and found a hidden place to hide.

After Chen Feng and the others went back, they would come out and meet again, and Chen Feng agreed.

Quietly in the corridor, it seems that there is no living thing, and on both sides of the corridor are full of various sculptures.

These sculptures are hideous and terrifying, one by one vividly, and their faces are very hideous and seem to be cannibalistic expressions.

The atmosphere in the team was very heavy and seemed to be stagnant.

Wei Hongxiu adjusted it intentionally. She pointed to the nearest sculpture next to her and chuckled: "Look at how realistic this sculpture is. There is blood in the corner of her mouth!"

Before she finished her words, she suddenly noticed that the monster beast suddenly opened its eyes and opened its big mouth, revealing its fangs and teeth.

Then, he let out a fierce cry and rushed towards her directly.

Wei Hongxiu was actually quite courageous, but he didn't take any precautions for a while, so he screamed in shock and stepped back.

And this seems to be a prelude.

With this scream, the other monster beasts that had fallen on the stone platform suddenly came back to life.

[Chapter 793: Broken Star Iron!](#)

They let out a terrifying cry, and they besieged and killed Chen Feng and others.

Around Chen Feng and the others, there were more than 30 sculptures, all of which came alive, forming an encircling circle, enclosing them.

Chen Feng and others were surprised.

Chang Hongsheng exclaimed: "What the **** is this?"

Chen Feng said lightly: "Don't worry about what it is, kill it first."

With that said, Jing Hongbu launched, a teleport, and came directly to Wei Hongxiu.

Then, the Purple Moon Knife in his hand slashed towards the sculpture that leaped at him.

This sculpture is not tall, but in fact all the sculptures here are not tall, only about two meters high.

The whole body is pitch black, it looks like it is made of stone, fangs and claws, and there are two small wings behind him.

In Chen Feng's expectation, this move was definitely enough to cut this demon sculpture in two pieces.

But a scene that shocked him appeared. After the knife was cut out, it was as if it had been cut into a huge piece of metal. It was only cut in half, and it was no longer possible to enter.

And the sculpture of the devil seems to have no pain at all.

Although Chen Feng's body had been cut in half, he still attacked Chen Feng in a terrifying manner.

Chen Feng let out a cold snort and punched out.

With a bang, it directly shattered.

After these fragments fell to the ground, several fingernail-sized pieces, like red and black stones, rolled out of the stone.

Chen Feng can't control this, he is more concerned about the strength of the demon sculpture.

He was a little shocked in his heart and shouted loudly: "Everyone is careful. These demon sculptures are in the middle of the ninth building of the Divine Gate Realm. They are not flesh and blood, no pain, and extremely powerful defense!"

As he said, he turned his body again, letting go of the sculpture's attack, flashed in shock, came behind it, and slashed out with all his strength.

This time, Chen Feng used all his strength to cut out the sculpture with one knife and cut the sculpture in half.

Then again, within her body, a red light flashed, and it was broken into many pieces.

At this time, Wei Hongxiu, Liang Guangyu and others also handed over the demon sculpture.

Wei Hongxiu looked at the few nail-sized stones that fell on the ground, suddenly his eyes lit up, and he shouted:

"Look, these stones are pitch black, but they are shining with golden light. This is a very rare first-class material, broken star iron."

She became extremely excited.

Chen Feng asked, "Broken Star Iron, what is this?"

Wei Hongxiu explained: "The broken star iron is a very rare first-class material, and its characteristic is that it is extremely sharp!"

"So, the attacks of these demon sculptures are very sharp. I guess that some broken star irons are added to these demon sculptures, but not many. It may be more than a dozen or so mixed."

"Otherwise, it wouldn't be such a strength."

"We pick up these broken pieces, and we can go to the sect to ask the refiner in the sect to extract the broken star iron inside."

"When the time comes to cast a weapon, as long as you add more than one percent to it, you can make the weapon a first-class spirit weapon!"

When everyone heard it, they were shocked.

The first-class spirit weapon far exceeds ordinary weapons.

In the team, except Liang Guangyu, no one else has a spiritual weapon as a weapon.

Chen Fengfeng laughed and said, "Everyone, work harder, kill a few more, and a good magic weapon will come out."

With that, Chen Fengfeng slashed out, directly on the neck of a metal puppet, cutting off its neck.

However, the metal puppet still came to Chen Fengfeng. It seems that losing the head has no effect on it.

Chen Fengfeng frowned, and cut it out again, cutting it into two pieces from the center line with one knife!

When the demon sculpture was cut to the position equivalent to the human pubic area, Chen Fengfeng suddenly felt that there was a clear cut, as if the cut was particularly smooth there.

Chen Fengfeng immediately noticed.

Then when facing the next demon sculpture, Chen Fengfeng stabs its pubic area with a stab.

The devil sculpture is extremely tough. If it is changed to another place, Chen Fengfeng's knife can only penetrate to a depth of about three inches.

But he stabbed the dantian with this knife and directly pierced this demon sculpture!

Then the next moment, the demon sculpture turned into countless pieces and fell to the ground.

On Chen Fengfeng's side, he killed three demon sculptures one after another, and finally determined that the life gate of the demon sculpture was their pubic area!

Here, Chen Fengfeng killed many demon sculptures one after another.

But over there, Wei Hongxiu and others were caught in a hard fight.

Almost each of them was surrounded by three or four demon puppets. The speed of the demon puppets was extremely fast, and their bodies were extremely hard. The weapons hit them on them and they had no effect at all.

Even if it leaves a deep mark, it will not cause much impact.

And the claws of the demon puppets, immediately after they caught them, there was a deep wound.

In a twinkling of an eye, Wei Hongxiu and others are already on display.

When they saw Chen Fengfeng's surroundings, they suddenly took a breath.

Around Chen Fengfeng, countless puppets were killed!

Together, they didn't kill as many as Chen Fengfeng!

At this moment, no one was convinced of Chen Fengfeng, even Chang Hongsheng was no exception.

The most intuitive strength comparison!

Liang Guangyu set off a stormy sea in his heart.

"Just a few days ago, I and his strength were still comparable, and even I, who understood the strength of the sword, was even stronger."

[Chapter 794: Fuck you!](#)

"And now, he is so tough!"

"His current strength has far surpassed me!"

"His upgrade speed is terrible!"

"Ah!" Wei Hongxiu let out a scream. At this time, she pierced with a sword and pierced the chest of a demon puppet.

And on her left and right, there was a demon puppet flanking each other, stretching out its sharp claws, thinking that she was grabbing it fiercely.

Seeing, Wei Hongxiu could no longer resist.

But at this moment, Chen Fengfeng gave a soft drink and cut off the arm of one demon puppet directly with a knife. At the same time, he blasted the other demon puppet out more than ten meters with a palm.

Chen Fengfeng said loudly: "Their pubic area is the key, hit their pubic area!"

"it is good!"

When everyone heard it, they quickly attacked the demon puppet's Dantian.

As a result, they were overjoyed and attacked Dantian very effectively.

Wei Hongxiu laughed and said, "Chen Fengfeng, you are amazing!"

With Chen Fengfeng's guidance, they were basically able to face three or four demon puppets at the same time without falling off the wind, and they were able to kill one demon puppet from time to time!

The number of dead demon puppets on the ground keeps increasing.

Chen Fengfeng's killing speed was very fast, and the demon puppet under his hand was more than the head!

But at this time, Chen Fengfeng also felt that Ziyue Dao was too weak and not sharp enough for people of this level.

If he had a heavy sharp sword in his hand now, his moves were absolutely more powerful!

At this moment, a group of people suddenly came in from the entrance of the ancient tomb. They were wearing uniform costumes and obviously belonged to the same team.

After they entered the tunnel, they looked at the broken star iron falling all over the ground, and their eyes suddenly lighted up.

One of them laughed loudly and shouted: "Haha, brothers, so many broken star irons, hurry up, pick them up quickly!"

They didn't seem to have seen Chen Feng and the others at all. They unscrupulously walked directly to the broken star iron, picked it up, and put it into their mustard bag.

One person laughed loudly and said: "I have made a fortune, so many broken star irons can be exchanged for a lot of spirit stones when you take it back to the sect!"

"Yes." Another person also laughed: "I didn't expect us to be so lucky, haha, we picked up so many broken star irons as soon as we came in!"

Their tone of voice seems to be like these broken star irons.

Turning a blind eye to Chen Feng and others, Chen Feng frowned.

Chen Feng said lightly: "Everyone, these broken star irons belong to us."

"Ha, is it yours?"

"Oh, where did you jump out? What is it? You said this broken star iron belongs to you, what's the evidence?"

"Are your names written on this broken star iron?"

Among these people, a twenty-six-seven-year-old purple-clothed youth walked out and sneered at Chen Feng with disdain.

His attitude is extremely arrogant, looking at Chen Feng with a condescending attitude, with a sneer on his face, he sneered and said:

"You said that the broken star iron belongs to you. Then you say that this ancient tomb belongs to you. Do you want to monopolize this ancient tomb?"

Chen Feng took a deep breath, he wanted to get angry, but forcibly suppressed the fire.

At this time, in the ancient tomb, surrounded by enemies and friends, it is better not to cause trouble.

He said very politely: "You have also seen that these demon puppets were all killed by us."

"After they die, some broken star iron will appear. Of course these things belong to me."

"Oh? Really? How can you prove that these broken star irons were condensed from the demon puppets you killed?"

The purple-robed youth looked denial to the end.

Chen Feng took a deep breath, pierced out with a sword, stabbed a demon puppet's dantian, and directly shook it into pieces.

These fragments fell to the ground, and there appeared broken star iron the size of a finger cap extremely fast.

Chen Feng said: "You see, can this be used as evidence?"

At this moment, the face of the purple-robed youth suddenly showed an extremely joking expression, haha laughed wildly:

"Little bunny, are you stupid? I just fooled you, do you know?"

"Of course I know that these broken star irons fell from the demon puppets, and I also know that you killed these demon puppets."

"Hahahaha, but I just want to take these broken star irons as my own, what can you do about me? I just fooled you!"

He looked at Chen Feng with disdain on his face, extremely joking, haha laughed wildly and said:

"You little bastard, you are really stupid, you actually take it seriously, and you have to prove it to me! Haha, interesting, fun, and fun."

The faces of the people around him also showed jokes.

One of them laughed and said, "This little **** is really stupid. He was played with by our young master between applause."

"Yes, the young master plays him like a monkey, haha, he hasn't noticed it yet."

Hearing these words, the young man they called the Young Master laughed even more.

All of them looked at Chen Feng with very joking and disdainful eyes, full of mockery, and thought it was very fun to play with him.

"Oh? Are you kidding me?" A faint smile appeared at the corner of Chen Feng's mouth, but the smile was full of coldness.

At this time Chen Feng's murderous intent had moved.

But he didn't have an attack right away. In Chen Feng's eyes, these people's strength was not worth mentioning, and it was not worth his action at all.

[Chapter 795: Interest is your life!](#)

He shook his head slightly, and continued to deal with the demon puppets.

But seeing this scene, these people thought that Chen Feng and others were showing weakness, thinking that they did not dare to do anything to themselves.

Suddenly became more arrogant, one of them said loudly: "Young Master, the broken star iron on the ground has been picked up by us, what can we do?"

Another person laughed loudly: "Haha, aren't there still some broken stars and iron fragments next to those people? Let's go pick them up, and we can even deal with these demon puppets directly."

The purple-robed man laughed and said, "Okay, just do it."

They saw that Chen Feng and others dealt with the demon puppets easily, thinking that these demon puppets were too powerful, and wanted to deal with it.

They had already picked up the broken star iron that was far away from Chen Feng and the others, and at this time they walked directly to the side of Chen Feng and the others, wanting to pick up the broken star iron beside them.

Seeing this scene, Chen Feng's expression immediately became cold and stern, his eyes wiped out the intent and no longer pressured.

Chen Feng screamed: "Looking for death!"

As he said, he kicked the demon puppet in front of him directly with a kick, then leaped out of the sky and rushed directly towards the group of people.

The person was in the air, and the Ziyue Dao had already severely cut down: "Dead!"

Seeing Chen Feng slashed down with this knife, a few people below immediately showed disdain on their faces, and snorted coldly: "Little bunny, dare to take the initiative, it's just looking for death?"

With that, the three men unsheathed their weapons at the same time and greeted Chen Feng.

However, after Chen Feng's move, the spiritual energy in the air flashed extremely strongly, and a huge sword aura appeared.

And seeing the appearance of this sword aura and feeling the huge pressure, their faces suddenly showed horror and shocked expressions.

This pressure alone almost made them unable to breathe, let alone resist it.

This is, the three of them seemed to realize that they had kicked the iron plate.

But it was too late, and the huge sword energy passed directly, cutting off their weapons, cutting off their arms, and then cutting their bodies in two.

And this huge moon-shaped sword energy, the remaining force was not exhausted, and it slammed into the crowd behind.

These people waved their weapons to resist, but how could they be able to resist with a slash in the air?

After the knife was cut out, it killed more than a dozen people, and then hit the ground hard.

With a loud bang, a huge pit with a radius of more than ten meters was blown out on the bluestone tunnel, and the person next to him was also affected!

The purple-robed youth and other people shouted in exclamation one after another, with amazed faces, and stepped back.

They looked at Chen Feng as if they were looking at a ghost.

how is this possible? How could this person be so powerful.

With one stab, he only took one stab to look, and he actually killed twenty companions!

Twenty companions died in different parts of their lives!

Some others, who have been cut in the waist, have not died yet, let out a miserable howling on the ground, making people feel cold.

The purple robe youth felt hot on his face, as if he had been slapped in the face.

He thought of his mockery of this young man just now, and he thought he was extremely ridiculous.

It turns out that people are so powerful, but they have never been willing to be familiar with people like themselves. It's ridiculous that I thought he was low-powered and was easy to bully.

Chen Feng turned around and shouted to Wei Hongxiu and the others: "You must deal with these demon puppets first. I will deal with these dog bastards."

Wei Hongxiu and others laughed: "Chen Feng, don't worry."

Then, Chen Feng took the Ziyue Knife and walked to the Zipao Youth and the others.

Seeing Chen Feng coming, the Zipao Youth and others actually backed away.

Chen Feng moved forward alone, and dozens of them retreated together, being suppressed by Chen Feng's momentum!

The purple-robed youth retreated a few steps, swallowed heavily, looked at Chen Feng, and said in a difficult voice, "You, what do you want to do?"

Chen Feng sneered: "What do you say I want to do? A few of us are here to kill the demon puppets, and when you come up, you **** our spoils, and you humiliate and force people too!"

"You, don't you just want these broken star irons? Well, we will give you back." The purple robe youth said unwillingly.

With that, he shook out a part of the broken star iron he had just snatched from the mustard bag.

Then, he looked at Chen Feng, waved his hand, and said impatiently: "Okay, okay, quickly take these broken star irons, we don't need it."

Judging from his expression, it was as if he had given Chen Feng back these broken star irons to give Chen Feng a lot of face!

Chen Feng sneered and said, "Is this over?"

"What do you want?" The purple-clothed youth looked impatient: "Don't shame your face."

Chen Feng said lightly: "These broken star irons were originally ours!"

"I warn you, don't push people too much." The purple-robed youth was still arrogant and very arrogant at this time, and said: "I am, the son of the master of the Chilian Sect, if you dare to move me, Chilian Sect will definitely not be spared. your."

"Even if you escape to the end of the world, you will be broken into pieces."

"Yes, the young master is right, if you dare to touch one of our hairs, Chilian will never spare you."

Behind the purple-robed youth, everyone shouted.

[Chapter 796: Take this as the boundary, pass, kill!](#)

"Oh? Really? I really want to taste the taste of being chased and killed?"

The murderous intent flashed in Chen Feng's eyes, and he laughed:

"These broken stars belong to us. At this time, you are back. It is too late. I have to charge some interest."

A look of panic flashed in the eyes of the purple-robed youth, and he shouted in surprise: "You, what do you want to do? What interest do you want?"

"Interest is your life!" Chen Feng spit out these eight words word by word.

Then, suddenly his body turned into a phantom, started with a startling step, and instantly came to their crowd.

He severely slashed out, directly cut off the head of one person, then turned around and pierced the other person's chest with a knife, exploding that person's heart directly.

At the same time, he kicked out and hit a person's waist and eye, directly breaking the bones of that person's body, and at the same time kicking him into another person, smashing that person's muscles and breaking, and lying on the ground loudly call.

In an instant, Chen Feng shot and killed four people in a row.

At this time, Chen Feng was like a tiger entering a flock, killing wantonly.

The screams kept ringing.

These people desperately resisted, but how could they be Chen Feng's opponent?

And some people, seeing this scene, screamed in panic and turned around to flee.

Chen Feng didn't pay any attention to these people who had fled, and when Chen Feng killed everyone, he let out a long laugh: "I want to run? Can you run?"

Jinghongbu launched, a few flashes, extremely fast, surpassing the number of people, and chasing someone behind them in a blink of an eye.

Kill one by one.

For a time, dozens of corpses were on the ground.

At this time, there was only one young man in the purple robe left in the red practice school.

Until then, he hadn't even reacted, watching the scene blankly.

It took only a dozen breaths from Chen Feng's hand to killing all of them.

But when he saw Chen Feng walking towards him with a cold face, he seemed to realize something, feeling cold all over, and a sense of fear surged in his heart.

He knelt directly on the ground with a bang, kowtow to Chen Feng repeatedly.

He was full of fear and shouted: "You, don't kill me."

Chen Feng walked up to him and said with a smile, "I know you begged me now? I know you don't want to kill you now? Is that right?"

"Then what did you do just now?"

With a ridiculous smile hung at the corner of Chen Feng's mouth, he suddenly cut out with a knife and cut off his left arm directly. The painful purple-robed youth screamed on the ground.

Chen Feng sneered: "Is it fun to play tricks?"

Then Chen Feng cut off his right arm again and asked again: "Is it fun to play with me?"

"It's boring, it's boring, you forgive me, I won't dare anymore." The purple robe youth begged loudly.

Chen Feng laughed and said, "It's late!"

As he said, Chen Feng blasted out a palm directly and printed it on his head.

The purple-robed youth was shocked, his eyes full of regret, and he had lost his vitality.

He was cut off by Chen Feng's palm.

His body fell heavily to the ground.

Chen Feng took out all the mustard bags on the ground, but instead of putting them away, he put them aside.

He said to Wei Hongxiu and others: "Wait until we leave the tomb, and then we will allocate."

Wei Hongxiu and others nodded.

Chen Feng did this very fairly, and did not rely on his own strength to grab more, or want to get more.

Then, Chen Feng joined the battle group again.

At this time, these demon puppets seemed to be attracted here.

There are thousands of demon puppets in the tunnel, and they are surrounded by three layers inside and three layers outside, and Chen Feng and the others are tightly wrapped.

And with the arrival of a large number of demon puppets, Chen Feng and others are also in a bitter battle.

In all directions, all seemed to be demon puppets.

However, with Chen Feng's guidance, they knew where the weaknesses of the demon puppets lie, and Chen Feng was extremely powerful, so their small team had the upper hand.

Among thousands of demon puppets, they are rampant and wanton killing.

At this time, another group of people came over at the entrance of the tomb.

These people also saw the battle between Chen Feng and the demon puppet, and of course they also saw the broken stars on the ground.

These people suddenly opened their eyes, and one of the big guys shouted: "It turned out to be broken star iron, brothers, pick it up."

Before he finished his words, Chen Feng rushed over in the air and cut him in half with a straight cut.

Then Chen Feng stood there, as mighty as a **** of war, with the purple moon knife in front of him, and said with a cold voice: "If you dare to step forward with this as a boundary, kill!"

The voice was full of murderous aura.

These people were all shocked by Chen Feng's knife, and they took a step back.

Soon, two people who seemed to be leaders stood up and said loudly: "This brother, it seems to be too domineering, right? Everyone has a share, why do you monopolize it?"

Chen Feng said lightly: "These broken stars are only obtained by our painstaking efforts to kill the demon puppets. No one except us can take them!"

"Then you mean, don't let this road go?" Another big man in black robe said with a gloomy face.

Chen Feng's face was firm, but he spit out two words gently: "Yes."

"Brothers, stand by your shoulders and kill him! I don't believe it. With so many of us, we can't deal with him?"

[Chapter 797: Beast pill](#)

The black robe man shouted sharply, saying that he would kill him first.

They all saw that they were not Chen Feng's opponents alone, but they believed that Chen Feng could be killed by the number of people.

The black-robed man grinned and said, "Little bastard, your death date has come. With so many of us, you can never be an opponent."

Chen Feng laughed loudly: "A group of roosters, no matter how many people, what's the use? Killing you is as easy as killing a chicken and a dog!"

With that said, volleyed with a stab, and cracked slashed out.

This knife directly killed the dozen people in the front row.

And the black robe man is among them.

Seeing this scene, everyone was shocked, but before they recovered, Chen Feng had already entered the crowd.

After a while, they were all killed.

Standing in this sea of blood, Chen Feng screamed sharply.

Next, Wei Hongxiu and others dealt with these demon puppets inside.

And Chen Feng was standing inside the tomb gate, and as long as it was the person who intended to **** the broken star iron, he would kill him without exception.

In front of him, hundreds of corpses were piled up soon.

The people who came in behind had already been horrified by him, so he didn't dare to make this idea anymore, and hurriedly walked around Chen Feng and the others.

Half an hour later, the last demon puppet was stabbed in the dantian by Wei Hongxiu's sword and broke into pieces.

And when it fell, the entire corridor suddenly became quiet, and all the demon puppets on the stone platform disappeared, all turned into broken star iron on the ground.

Seeing this scene, Wei Hongxiu and others all took a long breath, their legs softened, and everyone sat down on the ground.

They all felt exhausted, and half an hour of high-intensity fighting had almost exhausted all their strength.

However, when they saw the broken star iron all over the ground, there was a thick smile on their faces.

The broken star iron on the ground, I am afraid that there are more than a thousand catties, everyone can be divided into more than a hundred catties, enough to build several first-grade spiritual tools.

After everyone rested for a while, Chen Feng specially received all the broken star irons in a mustard bag and gave them to Wei Hongxiu for safekeeping.

Wei Hongxiu said: "Chen Feng, what are you?"

Chen Feng said with a smile: "I think it's better for you to keep it."

Wei Hongxiu glanced at him deeply, nodded, and said: "Don't worry, even if I lose my life, I have to protect this mustard bag."

Chen Feng smiled: "What this says, your life is much more important than this."

Chen Feng and others continued to move forward.

The corridor was very wide and long, and after another half an hour, the front suddenly opened up.

Here is a hall, the hall is extremely wide, with a radius of more than a thousand meters.

In the hall, there are many small stone tombs with a height of about one person and a radius of four to five meters.

These ones. It's just like a scaled-down version of the ancient tomb.

And above each small dolmen, there is a stone gate.

At this time, some stone gates had been broken open, and some people dragged some large boxes out of them and opened them on the spot.

All the big boxes are filled with spirit grass and elixir, and there are some fist-sized beads of different colors.

Seeing this scene, the people who came to explore the ancient tombs shouted in surprise: "Haha, get rich, get rich."

"There are so many spirit grass and elixir here, there are even beast pills, there are a considerable number of beast pills!"

Seeing this scene, Wei Hongxiu and others also showed excitement on their faces.

Chen Feng asked Wei Hongxiu, "What is a beast pill?"

"Oh, you really don't understand anything."

Wei Hongxiu smiled and lost Chen Feng's sentence, but there was no sarcasm in the words, it was just a joke.

She explained with a smile: "Monsters are not like human beings, they have to be divided into twelve floors and only nine floors."

"Above the Ninth Floor, it's not a monster, but a spirit beast."

"Spirit beasts will produce beast pill instead of crystal nucleus. The beast pill also contains a huge amount of aura, and the total amount of aura contained in a beast pill is equivalent to one hundred times that of a middle-grade spiritual grass."

When Chen Feng heard this, he was immediately excited.

Looking at the beast pill of different colors in those big boxes, his eyes lit up.

Chen Feng immediately shouted: "Let's do it now."

However, they were very disciplined. Did they try to **** others, but found some small tombs that had not been broken open.

Chen Feng walked to the front of a two-person tomb, shot out with a big blow, and hit the stone gate.

But what he didn't expect was that Shimen didn't even move.

A smile appeared at the corner of Chen Feng's mouth: "It's kind of interesting."

He used three points just now, but now, he used 50% of his strength.

With another punch and a bang, a crack appeared on the stone gate.

Chen Feng shot out with a palm and directly blasted Shimen out.

Four huge boxes lay quietly inside Shimen.

After opening the box, Chen Feng saw that in each box, there were two beast pill gleaming with earthy yellow light, other than that, they were all spirit grass.

Chen Feng and others immediately started to pack these things into a mustard bag, put them all in a mustard bag, and then distribute them.

And this mustard bag is still in charge of Wei Hongxiu.

Chen Feng and the others were cleaning up inside, and suddenly there was a violent roar outside: "Little bastards, get out of me, this tomb is ours."

Upon hearing this, Chen Feng frowned immediately and walked out of the tomb.

[Chapter 798: Python](#)

I saw that there were dozens of people standing outside, already surrounding the tomb, and the water blocked at the door.

The leaders are three big men in strong outfits.

These big guys watched Chen Feng come out from inside, and when he saw that his clothes were ordinary and so young, his face suddenly showed disdain.

One of them said carelessly: "Boy, this tomb is ours. Get out and spare your life."

His attitude was very arrogant, as if he had given Chen Feng his life as a reward to Chen Feng and others.

Chen Feng showed a touch of coldness in his eyes, and said lightly: "What if I don't?"

"Oh, little bunny, you're so courageous, you dare not let it?" The big man in black laughed wildly, showing his disdain.

Suddenly, the smile on his face disappeared without a trace, and he said grimly: "If you dare not let me, I will kill you all, and then take the things from you."

"Although the membership fee is a little tricky, it doesn't take much effort to deal with these lowly capable people like you."

Chen Feng said lightly: "If you want to fight, fight, where is so much nonsense?"

The black-clothed Han was furious at once, with a feeling of being despised by Chen Feng.

He grinned grimly: "Little bastard, you are looking for death."

He said, waving the big knife in his hand and killing directly towards Chen Feng.

A sneer of disdain appeared at the corner of Chen Feng's mouth: "This kind of strength, dare to come and show his eyes?"

He slashed out, cut the man with a big knife, and chopped his head to pieces.

Seeing this scene, everyone behind the man was shocked.

And Chen Feng didn't intend to give them a chance to say anything. He directly attacked the crowd, killing them all in a blink of an eye.

Seeing this scene, there were a lot of teams next to Chen Feng and the others, and they wanted to **** things from Chen Feng and the others.

But after seeing this scene, they all flinched, and no one dared to come up again.

Chen Feng laughed wildly: "If you are not afraid of death, come and taste the taste of the knife in my hand! See if it is your head or mine!"

Hearing these words, everyone withdrew back in despair.

Soon, Wei Hongxiu and the others had finished cleaning up.

This grave, and then the next grave.

Wherever he went, Chen Feng stood at the entrance of the tomb, but anyone who came to **** without opening his eyes was directly beheaded by him.

After doing this several times, everyone knew Chen Feng's strength.

Knowing that although he is young, he is extremely powerful, so no one dares to provoke him.

Just as Chen Feng and others were clearing the fourth tomb, he suddenly heard a hissing sound, like the sound of a snake vomiting.

In the air, a light green mist was even more diffused.

Chen Feng smelled it, and immediately felt a very unpleasant sensation in his heart.

He was a little upset and nauseous, and even a little shaky, his head was a little dizzy.

Chen Feng immediately concluded that the green mist must be highly toxic.

He immediately exhaled a suffocating breath, circling the golden body decision, the surface of the body, the light of dark gold was overwhelming, and the whole person was like an angry King Kong.

He closed all the holes on his body, even the pores.

The green mist couldn't seep into his body immediately, and Chen Feng felt refreshed and he had returned to normal.

At this time, he had seen that many people fainted immediately after being exposed to the mist, convulsing all over, and foaming at the mouth.

Then, in just a few breaths, the body turned into a dark color, and then melted into a pool of sewage.

Chen Feng was shocked when he saw this scene.

These warriors are not low in strength, but they poisoned themselves so quickly when they came into contact with the green mist.

How powerful is the poison of this green mist?

He immediately turned around and yelled at Wei Hongxiu and others: "Close the pores, don't breathe."

Wei Hongxiu and others quickly followed suit.

Then, they also saw the tragedy of those people, and they were immediately grateful.

Fortunately, Chen Feng reminded him early, otherwise they would be like this now.

Wei Hongxiu immediately gestured to Chen Feng and said: "We can't support it for long now, at most it only has half an hour. No matter how much it is, I can't help it."

Chen Feng nodded and was about to take them out.

Suddenly, Chen Feng saw it. On the ceiling of the empty tomb, countless vines suddenly appeared.

Then he saw clearly, where is this vine? Obviously it is a giant python.

Each python is the thickness of the water tank and makes a hissing sound.

These giant pythons swam down at a very fast speed, and then, with a big mouth, a strong suction came, directly sucking some people into their mouths.

Chen Feng only heard a scream, and then these people were twisted into a piece of flesh and blood by a giant python and swallowed in their stomachs.

Another giant python fell from the ceiling, then stirred a dozen people in his body, entwining them into a ball.

These people struggled naturally, but they were useless at all.

The power of the giant python seemed to be extremely powerful. Chen Feng heard a puff of puff sound. These people were like persimmons that were stepped on and broke into a piece of blood.

Seeing this scene, Chen Feng was shocked.

These giant pythons have two skills.

One, sucking people into the body, the suction is very strong.

Second, the body is strong and tough, and the strength is very large.

Chen Feng didn't know where these giant pythons came from, and suddenly appeared.

[Chapter 799: Fierce battle](#)

at this time. Two giant pythons seemed to have spotted Chen Feng and the others. They immediately swallowed the snake letter and swam towards Chen Feng and the others. The speed was so fast that they were in front of them in a blink of an eye.

Chen Feng sneered and struck out with a hard punch.

The dragon is in the wild!

Two giant dragons roared out and bombarded the giant python heavily.

However, what surprised Chen Feng slightly was that after these two giant dragons bombarded the python, the python just shook its body and shook its head. Even the offensive was not hindered, and it still kept moving forward. Rushed towards Chen Feng with his attitude!

Long Zhan Yu Ye can't even delay their speed a little bit?

Chen Feng was slightly surprised, and said in his heart: "The defensive power of this evil animal is really strong."

Then, Chen Feng punched again.

This trick used the Six Dragons Maneuver.

This six-dragon maneuver hit the center of the two giant pythons.

Chen Feng's original intention was to change the direction of the two giant pythons through the cyclone of the six dragons' whirling force, so that the two giant pythons collided.

Unexpectedly, the huge suction power of the six dragons whirled in madly, but the two giant pythons only swayed slightly, and they were slightly tilted to a distance of one foot.

Then, he continued to rush towards Chen Feng.

This time, Chen Feng's expression became solemn.

"It seems that the defense power of these two evil animals is really tyrannical, almost equivalent to the sixth level of my golden body decision, not to be underestimated."

"This time, I will use Longxiang Nine Sky."

Chen Feng let out a sharp roar, and Long Xiang burst out in nine days.

In the Xiaocheng realm of Long Xiang for nine days, six giant dragons rushed out frantically, bombarded the two giant pythons heavily, and then exploded.

When the gunpowder cleared, Chen Feng looked again, his brows suddenly wrinkled, his expression became extremely solemn, even a hint of shock.

It turned out that the scales of the two giant pythons were just lifted away, and they were not even slightly injured.

What shocked Chen Feng the most was that their scales were lifted, revealing a turquoise light, like a metal fault.

It's as if their scales are not flesh and blood, but bronze!

And there was no trace of blood flowing out of their wounds.

"It seems that my previous estimation was wrong. Their defensive power is definitely not limited to the sixth level of the golden figure, but I am afraid that it has reached the strength of the seventh level of the golden figure."

"Dajiang Long Shenquan, it has no effect on them."

However, Chen Feng was not discouraged. On the contrary, there was a fighting spirit on his face. He laughed and said, "If you are too weak, it will be meaningless to fight."

"Naughty animal, try my taste of this knife." As he said, the Ziyue knife was unsheathed and cut out in the air.

Slash in the air!

A huge moon shaped grudge slashed fiercely on the bodies of the two giant pythons, this time it finally had results!

After slashing the air, he cut one of the giant pythons in half.

Chen Feng also found that this giant python was definitely not a thing of flesh and blood.

Because, on the half of its body, the light exposed is still the light of bronze!

And the other giant python had a huge wound about one-third of its depth cut by Chen Feng.

However, they still did not lose their combat effectiveness and rushed to the front frantically.

One of the giant pythons opened their mouths and produced huge suction, and attacked Chen Feng.

The other giant python slammed its huge tail at Chen Feng.

Chen Feng sneered: "Naughty animal!"

The dark golden light on his body spreads far, the eighth level of the golden body art, the dark golden body reaches the realm, and it is activated instantly.

In the next instant, the huge tail like a giant steel pillar slammed into Chen Feng's body.

With a loud bang, Wei Hongxiu and others felt that their ears seemed to be deafened, and blood flowed from their ears.

They were so shocked that the sound alone could hurt their ears. How powerful is this blow?

Chen Feng felt like he had been hit by a mountain, and couldn't help but snorted, with blood flowing down his nose.

The dark golden light on his body suddenly faded.

Chen Feng was shocked. These two giant pythons were extremely hard. If it were the seventh-layer self of the Golden Shoujue, this time, I was afraid that the Golden Shoujue would be broken up directly and completely broke the work!

However, Chen Feng is now on the eighth level of the Golden Body Jue.

He shouted sharply: "The evil animal suffers death."

The Purple Moon Knife in his hand slashed down frantically, and it slashed through the air again, standing heavily on the wound of this giant python.

There was a crisp sound, and something seemed to be broken.

This giant python was directly broken in two by Chen Feng, but surprisingly, after being broken in two, it was broken into more than a dozen pieces.

There are also one or two pieces of bronze metal about the size of a thumb!

Chen Feng didn't care about this, and immediately launched a close-to-golden body decision. With the powerful suction from the mouth of another giant python, the whole person was like a dark golden weighing mound, and slammed into the mouth of that giant python.

This time, the mouth of the giant python was directly smashed, and the stomach was also smashed.

The giant python bit his teeth, and was directly destroyed by Chen Feng Jin's eighth layer.

Then, Chen Feng wielded the Purple Moon Knife in the belly of the giant python, cutting frantically.

And he found that the python body was too hard.

Without using the slashing slash, I can only open an inch-deep wound.

[Chapter 800: Qinglingjin](#)

Chen Feng was also fierce, gritted his teeth, and cut out hundreds of knives in an instant.

Finally, he broke open the belly of the giant python and got out of it.

This giant python was also broken into a dozen pieces, and several pieces of bronze metal fell from the body, exuding a noble and cold light.

At this time, the green mist had dispersed, but the python was rampant.

Chen Feng was panting heavily, still a little frightened in his heart.

The giant python's strength far exceeds the previous demon puppet, and its defense is even more abnormal and extremely hard.

It took so much effort to kill them with his own strength.

Almost two-thirds of the gang energy has been consumed, and if there are two more ends, he is definitely not an opponent!

Wei Hongxiu and others ran over and came to Chen Feng. Wei Hongxiu shouted in surprise, "Chen Feng, are you okay?"

Chen Feng shook his head slightly: "Don't worry, I'm fine!"

Wei Hongxiu said sincerely: "Chen Feng, you are really amazing. We can't handle these two giant pythons, whichever one, but you can actually kill two."

Chen Feng smiled bitterly and shook his head: "If I have another one, I can barely handle it. If I have another two, I will run away."

"These giant pythons are too tyrannical."

The others nodded.

They all could see it too. At this time, there were screams in the whole hall, and hundreds of giant pythons wandered around, killing wantonly.

In the hall, there were tens of thousands of people, and at this time, a half had been killed by these giant pythons.

No more than ten giant pythons were beheaded.

Chen Feng saw that there were also a few quite powerful masters who took action to kill the python.

At this moment, Liang Guangyu caught a glimpse of the bronze metal on the ground, hurried forward, took the metal in his hand and took a closer look.

Then, he immediately shouted in surprise: "This is Qinglingjin, with extremely strong defensive power, and it is a first-class material."

"This kind of rare material, if added to the armor, can increase the armor's defense power by ten times, which is extremely powerful."

Chen Feng listened and took a breath.

It turns out that these giant pythons are not flesh and blood, but made by the refiner.

No wonder their defense is so tyrannical, it turned out to have added green spirit gold!

Liang Guangyu collected all the green spirit gold, walked to Chen Feng and handed it to him, smiled and said, "Chen Feng. You deserve these things. We didn't contribute and should not divide them."

Chen Feng took it, but handed it to Wei Hongshou and asked her to put it in a mustard bag.

Chen Feng said in a deep voice, "It's not the time to talk about this, we still think about how we should leave."

He saw Wei Hongxiu behind him, and suddenly slapped Wei Hongxiu with a light palm, directly slapped him out.

Wei Hongxiu screamed, "Chen Feng, what are you doing?"

At this time, she looked back and realized why Chen Feng photographed her.

It turned out that at this time, three more pythons wandered over and rushed towards Chen Feng frantically.

If Chen Feng didn't shoot her away, I'm afraid she would be swallowed directly by the python!

Three giant pythons rushed in madly, two of them surrounded Chen Feng, while the other one was attacking Wei Hongxiu Liang Guangyu and others fiercely.

Liang Guangyu screamed, the long sword pierced out, and the sword power started.

When the sword power brought up the nature, its power suddenly increased several times.

A sword pierced the giant python's forehead, and suddenly the long sword pierced the entire body with great power.

However, the giant python was not affected at all. The huge snake's head flicked and banged directly on Liang Guangyu's body, spitting blood out of his mouth, and flew out more than ten meters, already injured!

The python cast by Qinglingjin is really powerful.

Wei Hongxiu and other five people besieged him, but it took the upper hand. In a blink of an eye, all five of them had suffered minor injuries.

And Chen Feng, dealing with two giant pythons alone, is also extremely difficult!

With a sharp roar, the Ziyue Sword slashed out, and Leak Kong slashed a giant python, leaving a huge wound, and beheading its tail.

And because of this knife, he didn't have time to avoid the attack of the python behind him, and he was directly entangled by the python.

Chen Feng felt that after being entangled by a giant python, a powerful force of himself rushed to him madly from all directions.

Chen Feng quickly launched the eighth level of the Golden Body Decision, a masterpiece of dark golden light, and the whole person was like a dark golden sculpture.

However, under the crazy squeeze of the giant python's incomparably powerful body, Chen Feng saw that the dark golden light became weaker and weaker, shrinking more and more.

Seeing, Chen Feng was about to be unable to resist.

Once the dark golden light has completely dissipated, and the golden body will break the eighth level, Chen Feng will be directly squeezed out of his body.

The whole person is like a trampled tomato!

Chen Feng knew that the situation was already very critical at this time.

He immediately summoned the Xiang Liu Wuhun.

Last time, after swallowing the Wuhun of Alchemist Feng Dongcheng, Xiangliu Wuhun had another evolution, and now it has become more than 40 meters long, as thick as a small house.

The claws and wings on his body were also larger than before, and six heads were produced!

As soon as the Wuhun appeared, four of the big mouths were opened together and let out a scream.

The invisible sound wave hits, it is Wuhun supernatural power: shock.

Although this python was made by a pharmacist, Chen Feng looked at their attack flexibility and reaction speed, and they were not inferior to the real python.

Therefore, Chen Feng judged that they could not be completely dead, and there must still be something like a soul.
