

Permit Me 1921

Chapter 1921: Every minute and second of suffering

“young master ya, will mo zhongkai ask you to send his sister back?” secretary Zhou asked the question in her heart.

Liancheng Yazhi laughed. why not? not only will he let me send him off, but he will also ask me to send someone to send mo xunxun off.

MO zhongkai had always been cautious. He wanted his family to leave the capital that night. There was so much luggage at home, if they were to transport it to the airport, it would definitely attract attention.

Also, that night, Madam mo would definitely have gone to pick up her husband. If mo xunxun had gone with them, and their luggage had been transported out in a big fanfare, wouldn't it be obvious that there was a problem with their family?

Only mo Wen's mother would go to pick up her husband and leave mo xunxun at home to dispel the suspicions of the outside world.

Therefore, mo zhongkai would ask Liancheng Yazhi to help him transport the mo family's luggage to the airport quietly, and also bring mo xunxun along.

After Secretary Zhou thought it through, he said, “okay, young master ya. I will arrange for miss mo and young master Jian to meet. However, Zhenzhen must not let mo zhongkai know about this, right?”

“What do you think?” Liancheng Yazhi said coldly.

secretary Zhou shivered and quickly said, ” hehe, I was just joking. Of course, we can't let her brother know. Otherwise, we'll be done for.

After hanging up the phone, Secretary Zhou muttered to himself, ” “young master jian, mo xunxun, you two are really unrelated.”

The time to rescue them was getting shorter and shorter. Everyone was waiting, and every minute and second was tormented.

It was only a few short days, but it felt like five years had passed, and every second felt so long.

However, no matter how long the time was, it would eventually end. Finally, it was time for mo zhongkai to set the time for the rescue.

Early in the morning, the sky was already gloomy and gloomy.

Every once in a while, Rong Yan would have difficulty breathing. Her chest felt tight as if there was a stone pressing on it, making it difficult for her to breathe.

Liancheng Yazhi was very worried about Rong Yan and stayed by his side.

Rong Yan saw that his worried mind was tense and comforted him. it's fine. It's

Probably because of the weather. It'll be fine when the rain comes.

Another reason was that she was nervous.

After so many days of waiting, Mo Zhongkai's rescue plan would officially begin on Memorial Day night. Of course, Rong Yan was worried.

The day he had been waiting for had finally arrived. How could he not be nervous?

She was not the only one who was nervous. Liancheng Yazhi was also very nervous. It was just that he looked very calm, but in fact, his heart was probably already boiling.

If it wasn't because Rong Yan was pregnant and afraid of an accident, Liancheng Yazhi might not even stay at home today.

Liancheng Yazhi glanced at the gloomy sky outside and nodded. "Yeah, it'll be fine when the rain comes down."

However, this rain seemed to be competing with people and was not willing to fall.

The sky cleared up a little at noon, but it was covered by dark clouds again in less than two hours. Noon was supposed to be the time of the day with the most sunlight, but today, it looked like evening.

Gu Hesheng stood under the roof and looked for a while, "Looking at the sky, a storm is inevitable today. Tell the people at home that it's best not to go out after the rain to avoid any accidents.

Liancheng Yazhi smiled. Okay, but when do you think the rain will come down? It's been cloudy for the whole day, but it hasn't started yet..

Chapter 1922: How could a man be so gentle?

Gu Hesheng was a knowledgeable master. He was well-versed in appraising, history, geography, and astronomy.

He was also quite familiar with the weather, so he said to Liancheng Yazhi, "The longer it takes to prepare, the stronger it will be when it explodes. I think it will only fall at seven or eight o'clock. The clouds are so thick, there will definitely be lightning at night. You must close the windows tightly when you sleep."

"You're right, father-in-law." Liancheng Yazhi nodded.

As Gu Hesheng said, the Liancheng family had dinner at this restaurant as usual at around 7 p.m. In the evening.

Suddenly, they heard a muffled thunder from outside. After a few muffled thunders, there was a loud bang. It was as if a layer of cloth covering the surface had been removed, letting the sound be completely released. It was as if a bomb had exploded on their roof, giving people the illusion that their house had been destroyed.

Meowmeowmeow's face turned pale and she almost cried out.

Liancheng Yazhi quickly carried MeowMeow onto his lap and coaxed her gently. “Be good, don’t be afraid. It’s Thunder outside, do you know that? It’s just going to rain, it’s fine. It’s just a natural phenomenon, it won’t hurt you.”

“But Yingluo sounds so scary, Yingluo.”

The Thunder outside was still rumbling, and each sound was louder than the last. Not to mention the children, even the adults would be shocked and worried when they heard it.

Liancheng Yazhi covered MeowMeow’s ears a little and said to him, ” it’s not scary, not scary at all. His voice is just a little loud. Look, you, mom, and

Grandpa are still sitting here, perfectly fine. The thunder in the sky is telling you children that it’s going to rain. Good children should not go out and get wet from the rain.

Liancheng Yazhi gently wiped away the tears on Miaomiao’s face. “There are so many people in this world. If the Thunder is too soft, many people won’t be able to hear it. That’s why it’s so loud. It’s to inform everyone.” it’s like when you’re playing, mommy calls you to eat, but you don’t hear. So, you can only hear mommy when mommy shouts very loudly, right, baby? ‘

MeowMeow thought for a moment and nodded. yes. If no one heard the Thunder, they would be drenched by the rain when they went out. They would catch a cold if they were drenched in the rain. Huahua needs an injection. It’s very painful.

Liancheng Yazhi lowered his head and kissed MeowMeow’s little face.”That’s right, our MeowMeow is so smart.”

The other people at the table looked at Liancheng Yazhi and sighed. how could a man be so gentle?

Even they couldn’t bear to disturb her. The scene was too heartwarming and beautiful.

Looking at the way Liancheng Yazhi was talking to MeowMeow, not only did it not make people feel that he was too gentle and not like a man, but it also made people feel that it was really enviable for a father to be able to do this!

a gentle man was charming, and a gentle father was even more charming.

Rong Yan sighed silently at the side, ‘ever since the child’s father took over, it seems that I have less and less use as a mother.’ no, it wasn’t too little.

Rong Yan glanced at her bulging stomach. Her youngest son moved a little inside. He was telling Rong Yan, ” Mother, you are very useful.. Without you, how can I come out?

Chapter 1923: He was destined to be unable to sleep tonight

Rong Yan’s lips curled up and she smiled.

Although he was a little disappointed, he felt happy. It was a good thing that his daughter and his father had a good relationship.

after the meal, rong yan said to liancheng yazhi, ” “The Thunder is so loud tonight. Don’t let MeowMeow sleep alone. Let her sleep with us.”

Liancheng Yazhi nodded. This was what he wanted to say. They couldn't bear to let MeowMeow sleep alone in such a world.

However ,

I definitely can't let MeowMeow sleep alone tonight, but I'm probably very busy the whole night, and I might have to go out in a few hours, so I'm sorry, Yingluo.

Rong Yan leaned on Liancheng Yazhi's shoulder. don't worry, I'll take MeowMeow with me. You can go and do what you need to do. Tonight is such an important night. We've waited so long for it. There can't be any accidents.

"if everything goes well, i won't go out," liancheng yazhi said as he hugged rong yan.

Rong Yan raised her head and said, " you'd better go. You should at least meet him briefly. This time, he's in trouble because of our family. You should go and see how he's doing.

Rong Yan's thoughtfulness made Liancheng Yazhi feel warm inside. She was afraid that this incident would affect their friendship, so she wanted him to go.

Actually, Liancheng Yazhi knew very well that there would be no problems between them.

However, he really wanted to see how simple it was. After being locked up there for so long, it would be a lie if Liancheng Yazhi said that he was not worried.

He nodded. alright, Zhenzhen. I'll see him. I'll be back soon.

Although Rong Yan was worried, her body was very prone to fatigue now. She couldn't control herself and fell asleep before 10 0 'clock. MeowMeow was lying in her arms, and the big and small heads were leaning against each other. The scene was warm and beautiful.

liancheng yazhi walked by the bed and watched. he was destined to be unable to sleep that night.

No matter how simple it was, before he was rescued and before he safely reached the border of his territory, Liancheng Yazhi could not be at ease.

At this time, before mo zhongkai's actions had even begun, the rain outside had already fallen. It seemed to be getting heavier and heavier and would not stop for a short time. It was also accompanied by strong winds, Thunder, and lightning. In a short time, the ground was filled with water.

A bolt of lightning flashed past, and there was a flash outside the window. Liancheng Yazhi looked at the window and walked over to check if it was closed properly. He also pulled the curtains back.

Hearing the sound of the dense raindrops hitting the glass like steel beads, Liancheng Yazhi felt a little uneasy.

In the rainy season of previous years, such weather would usually cause short-term flooding. With such heavy rain, if it continued for a few hours, the flooding in the city would increase. As a result, it would be more difficult to send the packages out.

Liancheng Yazhi now hoped that when they rescued Jian Yi, the water would not drown the wheels.

Not only did Liancheng Yazhi think so, mo zhongkai, who was sitting in the car and waiting for the operation to start, also thought so. He was more worried about how his family would leave on such a rainy day. The plane at the airport would definitely be able to take off.

It seemed that he still had to ask Liancheng Yazhi for help.

MO zhongkai sighed. He was now in the same boat as Liancheng Yazhi. If he let Liancheng Yazhi help his family leave, he would have no chance to turn back.

The rain outside was getting heavier and heavier. MO zhongkai quietly lay dormant in this Night of Thunder and lightning. He was going to do something that would change the trajectory of his life..

Chapter 1924: Greedy for the feeling of being alive

MO zhongkai knew that after tonight, he would either be on the road of exile, or he might not see the sun tomorrow.

MO zhongkai sat in the car, leaving at 8 p.m. And waiting at the door until dawn.

he had thought a lot in four hours. it was enough for him to recall his past 30 years and roughly look forward to the future.

when he looked into the future, he couldn't help but laugh at himself. did he still have a future?

He looked out of the car window. The rain had not stopped, nor did it seem to be getting any lighter. The lightning and thunder were still rumbling, and bolts of lightning flashed in front of his eyes.

When mo zhongkai looked at lightning, he thought that what he was doing now could be considered as betraying his declaration after he joined the Army.

Then, would Qianqian be struck by lightning?

However, it was clear that the probability of being struck by lightning was very small. He had been in the car for so long and nothing had happened.

MO zhongkai looked at the watch on his wrist. It was 30 in the morning, more than an hour away from the best time he had expected.

However, mo zhongkai looked at the rain outside and guessed that he would not be able to wait until then.

At this time, the water on the ground was almost as thick as a car's wheels. If they waited any longer, when the flood in the city increased, Yingying would probably not be able to get out even if she was rescued.

MO zhongkai took out a lighter, took out a cigarette and lit it.

He told himself that after he finished smoking this cigarette, he would have to take action in advance.

MO zhongkai took a deep puff of his cigarette, the burning smell of nicotine instantly filled his breath. He took a deep breath, listening to the pitter-patter of the rain.

When there was only a cigarette butt left, he rolled down the window to reveal a gap just wide enough for a hand to stretch out. The cold wind mixed with the rain instantly blew in and MO zhongkai flicked the cigarette butt out.

He wanted to close the window immediately, but after waiting for a while, mo zhongkai rolled down the window and stretched out his hand. The rain almost instantly wet his palm.

Who said that the rain in summer wasn't cold? he could feel the stone-like raindrops falling on his hands, and it was bone-chilling.

MO zhongkai felt the cold wind blowing on his hands, so cold that all the hair on his body stood up. It was uncomfortable, but it was the feeling of being alive.

MO zhongkai was even a little greedy, because he did not know if he could come back alive.

MO zhongkai trembled, gritted his teeth and retracted his palm. Then, he closed the window and took a deep breath, not caring about his wet arm and palm.

he twisted the car key and released the clutch. he slowly stepped on the accelerator and the car started.

On such a stormy night, he didn't even turn on the lights, and the roads he chose were all dark.

MO zhongkai was very calm. The speed of the car gradually increased from the slow start. Driving on such a road with water that had accumulated to more than half a wheel, the degree of danger was needless to say, but his eyes were very calm.

There was no fear, no worry, and no nervousness.

MO zhongkai called Secretary Zhou when he was about to reach the place.

"Hello, Secretary Zhou. Due to the water on the road, our operation has been brought forward. I'm almost there. In 15 minutes, please cut off the electricity in the city so that I can take action."

Secretary Zhou's expression was solemn. okay, young master ya has also informed me. He told me to make all the preparations in advance. Mr. MO asked you to be careful..

Chapter 1925 -attending a dangerous feast

When mo zhongkai heard Secretary Zhou's words, he actually smiled, "it's useless to be careful at this time. The braver you are, the more successful you will be in your lessons.

things had already come to this point, there was no point in being overcautious.

mo zhongkai no longer had any way out. he could only brace himself and face the bullets in front of him. he rushed forward and forward. as long as he could bring the luggage out, his family, liancheng yazhi, would protect them.

At that time, even if he really died, he would have no regrets.

Secretary Zhou's mouth twitched as if he wanted to say something, but in the end, he said, "I wish you success. The people I arranged to pick you up have all arrived. The car is amphibious. As long as master Jian comes out, he can be sent out.

Liancheng yazhi had been a little worried when he saw the thunderstorm today. If the rain really got heavy and the water level rose to a certain height, ordinary cars would not be able to drive at all.

Therefore, after thinking about it, Liancheng Yazhi spent a high price to get a few cars just in case. He didn't expect to really use them today.

"Mr. Lian Cheng, you're really well-prepared," Mo Zhongkai praised.

Secretary Zhou remembered another thing. Mr. Mo, our young master ya asked me to tell you something. After we bring master Jian out, we can send you abroad to reunite with your family.

Mo Zhongkai was very surprised. He did not expect that Liancheng Yazhi would take the initiative to send him abroad in the end. Mo Zhongkai was silent for a while and said, "Qianqian, please thank Mr. Lian for his good intentions. I'll take a look when the time comes.

Secretary Zhou was not surprised that Mo Zhongkai did not agree immediately. He knew that Mo Zhongkai had betrayed his loyal belief in him and would not let it go so easily.

"Alright, we'll talk about it when we meet. I wish you success."

"Thanks for your kind words."

"See you later."

"See you later."

The two of them said their goodbyes very calmly, as if Mo Zhongkai was only going to a very ordinary banquet and they would see each other very soon.

After 10 minutes, Mo Zhongkai arrived. He looked at the time and it was almost time.

Therefore, he pushed open the door and got out directly. As soon as he got out, Mo Zhongkai was almost instantly drenched. The rain had reached his calves and he had to walk through the cold water with every step he took. However, he did not care about this at all, as if he did not see the rain at all.

He was carrying a black bag in his hand, which contained the things he had prepared these days.

Mo Zhongkai walked straight into the building. He swiped his work card on the door and entered the palm print. The door made of special materials opened automatically and Mo Zhongkai walked in calmly.

As soon as she entered, she met an internal staff member who was on the night shift. This was the person in charge of checking the first floor.

The person who worked the night shift also knew Mo Zhongkai. He was very surprised to see him and exclaimed, "Lieutenant Colonel Mo, it's already so late and it's raining heavily. Why are you here? You didn't bring an umbrella?"

Mo Zhongkai wiped the rain from his face and walked over. He put on an anxious look and said, "Oh, I was too anxious. I just received a very reliable piece of information. Tonight, the simplified

accomplice count is going to help him escape from prison, so Qianqian, I rushed here to take a look. I don't want any accidents to happen.

The man was shocked when he heard that.. How is this possible? how could they take someone out of here?"

Chapter 1926: Going to a dangerous feast (2)

MO zhongkai calculated the time of the power outage in his heart and said, "I'd rather believe it than not. What if something really happened? simple isn't an ordinary person, and his accomplices aren't easy to deal with either. since they have the ability to find out about this place, it proves that they weren't lying."

when mo zhongkai said this, the person was a little scared, "Now that you mention it, it's quite scary. I'll quickly inform everyone to be on high alert.' MO zhongkai nodded,"then you inform everyone, I'll go in and take a look."

That person quickly stopped mo zhongkai, "hey, Lieutenant Colonel mo, wait a moment. What's that Zhenzhen you're carrying in your hand?" Although it's late, let's follow the rules and check first."

mo zhongkai's eyes turned around and stopped, "Oh, these are just some things from home. If you want to check, then go ahead. But you might be disappointed.

He slowly placed the black bag in his hand on the table.

The man was a little puzzled. Disappointed? What was there for him to be disappointed about? however, he did not ask and instead said, "I'm sorry, Yingluo"

MO zhongkai watched as he deftly unzipped his bag and silently counted down in his heart.

The moment the person was about to open the bag, the light in front of him suddenly disappeared, and he was instantly plunged into darkness.

At the same second of the power failure, mo zhongkai quietly took out a small thing from his bag and stuck it under the table. This was a signal interference equipment that could destroy a small area around it.

The man was anxious, his hand fumbling around the table. why is there a power outage? it's all because of this damn weather. What's wrong with the power department? they even dare to cause trouble here.

As he was complaining, his voice suddenly stopped, and then he heard a muffled bang.

mo zhongkai picked up his bag and immediately went inside in the dark. he had already studied the terrain very thoroughly and simulated it many times at home with his eyes closed, so even in the dark, his speed could not be stopped.

As mo zhongkai walked, he placed a signal jammer. Even if it couldn't be seen, the place he placed it in was very tricky and wouldn't be found in a short time.

MO zhongkai walked very fast. In the dark, everyone in the base was in a panic. When mo zhongkai passed by places with people, he took out a smoke bomb mixed with knockout powder

and threw it inside. As for those top-secret laboratories that even he could not enter, he could only hope that he was fast enough to quickly meet up with the simple ones before the power was restored.

However, this was not any other place and the place was too big. When mo zhongkai had walked two-thirds of the way, the lights had already started to flash, indicating that the electricity was about to come back. MO zhongkai quickly took out a remote control and pressed the switch.

this was an electromagnetic device that he had placed on the top floor that could absorb lightning, hoping to delay the speed of the electricity supply.

After mo zhongkai finished doing all this, he rushed to the simple cell at the fastest speed. He didn't know what he had hit on the way, but he didn't care that his arm was in so much pain that it seemed to be broken.

When they arrived, mo zhongkai opened the door and called out in a low voice, simple"

There was no sound in the room, and there was no one on the bed.

mo zhongkai's heart trembled fiercely and he instantly broke out in a cold sweat of resentment. could it be that he was too late? he quickly ran out to find her.

Suddenly, a deep voice came from behind him, " "I'm here,"

Chapter 1927: stop your foolish and wrong actions

MO zhongkai was shocked and immediately turned around. In the dark, he could vaguely see a thin and tall figure, as well as Qianqian's pair of eyes that still exuded determination and sharpness even in the dark night.

MO zhongkai was surprised, " how did you get out of there? forget it, let's not ask about this first. Let's get out quickly. We have enough time. We only have half a minute. When the power is restored, it will be difficult for us to get out again.

Now was not the time to talk and Exchange pleasantries. MO zhongkai was so anxious that his hair was about to smoke. He had to hurry out with the Jian. Jian Jie nodded and followed behind mo zhongkai without saying anything. mo zhongkai walked very quickly. on the way, he still asked out of curiosity, " "How did you get out just now? that door can't be opened from the inside at all,"

Jian Jie said in a low voice,"of course I have my own way. Let's go, someone's coming over ..."

His simple physical strength had recovered by now. Although he was very thin and weak at the moment, and he had not trained for many days, he could not return to his previous peak state for the time being. However, this was a world of difference compared to those days when it was difficult to sit up.

Even though he had only recovered 50 – 60% of his fighting strength, he was still much more powerful than ordinary people.

He was simple, he was the most powerful King of Mercenaries.

“How come I didn’t hear anyone?” mo zhongkai was shocked. he was surprised at the simple ability and surprised at the same time. it was dark at the moment and he had interfered with all the signals. how could he be discovered?

He adjusted his breathing and footsteps to the lightest possible and said, “By the time you hear it, we’ll have already been caught.”

Although these words seemed to belittle mo zhongkai, it was the truth.

Because the footsteps behind them were getting closer and closer, and they were already very close.

Jian Yi said,”quick, run, run, run, run, run!”

Just as he finished speaking, a few beams of light shone from behind. Although the light was a little far away, it was enough to tell mo zhongkai that what he said was right.

MO zhongkai did not have time to say anything else and only said three words, Follow me closely, Yingluo.”

They were racing against time, racing for their own lives.

If they ran over, they could live. If they failed, there would only be one outcome.

The two of them ran with all their might in front, and the people behind them had already seen them. They only heard someone shout, ” they’re right in front. Hurry up and chase after ran ran. We can’t let them escape. Inform the first and second bureaus to block them in front. We can’t let them go out for a run.

mo zhongkai had heard their words clearly. the first and second divisions were special services, and each of them was very powerful. they only selected the king soldiers from the major military regions, and then picked the top talents from the king soldiers.

These people were all terrifying weapons.

MO zhongkai felt his scalp go numb just thinking about it, ” “the two of us definitely can’t win against the first or second bureau. we have to go out for a walk before they do.”

the people chasing behind them followed closely, shouting as they chased, ‘ stop! Don’t run! Stop your stupid actions! If you keep running, we’ll shoot! !!

Of course, the two of them wouldn’t stop. Whoever stopped at this time would be a f * cking fool.

Without them stopping, the people behind them naturally opened fire.

however, this shot did not make any sound. instead, it shot out a piercing light, and the white light instantly swept past the simple man..

Chapter 1928: The only way out is to surrender

It landed on the wall, leaving a small hole that was a few millimeters in the wall.

After mo zhongkai saw it, he was shocked and his face turned pale. He cursed in a low voice, ” “damn it, he’s actually using this kind of gun.”

MO zhongkai had been drenched by the rain previously. He was sweating all over due to running and being nervous. He was hot and humid and very uncomfortable.

however, when he saw this shot, he instantly shivered and felt that his bones were about to freeze into dregs.

MO zhongkai said to Jian Yi in a hurry, " don't get shot by their guns. Otherwise, it'll be useless even if you go out.

Although Jian Jie was also surprised by the shot just now, he did not understand."Why?"

MO zhongkai wiped the sweat off his face, " that's right. The photon gun that was first developed shot out lasers that would penetrate the body directly. The wounds would never heal, " said another.

MO zhongkai gritted his teeth. I didn't expect that they would use this gun to catch you. Your face is really big.

This was a secret weapon that had not yet been announced to the public, and it could not be equipped on a large scale to the Army, at least not for the time being.

This was because just the fact that it would never heal was enough to terrify everyone who heard it.

This would be criticized by the global public as inhumane.

Therefore, this weapon was only used in a small area.

Jian Yi was very surprised after hearing that. He did not expect the gun to be so powerful. He turned back to look as he ran, but the beam of the flashlight shone in his eyes, making him unable to see anything.

Jian Jie immediately turned his head and covered his eyes, saying, "It's not just me, isn't it? you have a share too, don't you?"

mo zhongkai said as he ran, " don't say it now. that shot was just a warning.

next, it's time to get serious.

Just as he finished speaking, the light above his head suddenly flashed. MO zhongkai was about to light up, and there was a door in front of him. MO zhongkai's heart trembled. Without time to think. he grabbed the simple

and then pounced forward.

The two of them jumped over the door and fell to the ground. The moment they fell to the ground, the lights lit up. The arrival of light meant that the most fatal danger was coming.

MO zhongkai felt that the pain was even more intense than the arm that he had hit. He gritted his teeth and endured the pain. He rolled on the ground and immediately came to the door and quickly pressed a few buttons.

Then, the door closed automatically, and the people who were chasing after him were shut out of the door in anger.

MO zhongkai gasped in pain. He lowered his head and saw that his arm was already swollen. The bones inside might have been injured.

But now, as long as they were not dead, they had to run out.

He said to Jian Yi, "let's go quickly, ran ran. I just reset the password on the door. They can't come in for the time being, but this won't last long. They'll crack it soon.

"Are you okay?" Jian Jie frowned and looked at his arm.

"I'm fine." MO zhongkai shook his head.

The two of them continued to walk forward. Suddenly, they heard a sound above their heads.

Lieutenant Colonel mo, I didn't expect you to be a traitor. You are a soldier that the country has spent many years to train. Don't forget the oath you made to the flag of the Army. What you have done will make you and your family bear the crime of being a traitor. The only way out for you now is to immediately stop what you are doing and surrender with a simple surrender..

Chapter 1929: I can't regret choosing this path

MO zhongkai gritted his teeth. How could he not know about this? he knew it better than anyone else. However, he had already done what Qianqian did. No matter what he said, it was useless.

In exchange for a life on the brink of death, he simply surrendered himself, so he had to fight it out.

The expression on mo zhongkai's face became more and more determined. Since he had chosen this path, no matter what the future was, he had to continue.

MO zhongkai said to Jian Yi,"let's go."

Jian Jie looked at mo zhongkai. From him, there was no regret and no retreat. This was not something that anyone could do.

Jian Jie suddenly felt that mo zhongkai seemed to have something similar to him, but he could not say what it was.

Jian Jie suddenly remembered the girl he had met at Feng nongtang's one-month-old party. He remembered that Yingluo was his sister.

"I will definitely bring you out of here alive," Jian Jie said to mo zhongkai.

MO zhongkai's eyes had been looking at both sides. When he heard the simple words, he said, "let's talk about it after you get out of here alive. Don't touch the wall, there's a strong current on it.

also, there are lasers installed in many corners of the wall, just like the one fired from the gun just now. If you're hit, you're dead.

MO zhongkai covered his arm, he was already in cold sweat from the pain, ' they haven't started yet. Once they think we're about to escape and can't be caught, they'll start.

Jian Jie frowned.

If he couldn't get out, he would definitely die Here with him.

He simply looked around. This was not the worst situation he had ever experienced. Since it was not the worst, he would not let himself die Here, nor would he let mo zhongkai die Here.

Such a challenge ignited the fighting spirit in Jian Jie's heart. He was never someone who would admit defeat. He would never despair or lose hope.

Simply put, this person was a beast that was always fighting. Even if he was covered in wounds and on the verge of death, he would not give up fighting.

He simply walked past mo zhongkai and was in front of him, which made him a little surprised.

mo zhongkai looked at jian yi's thin back and felt a sense of security. this made mo zhongkai's slightly flustered heart calm down slowly.

MO zhongkai said to Jian Yi, " I have a device on the top floor that is specially designed to prevent attracting lightning. You can adjust Tian Tian's power to the maximum. I hope that it can help us.

Previously, mo zhongkai had only adjusted it to a medium frequency. He was afraid that if it really attracted a strong current, it would cause casualties.

But now, he had no other choice. He didn't want to die, so Yingying couldn't care about others.

Jian Jie nodded, took the remote control, and pressed the 'increase button' a few times until the number on it stopped increasing.

MO zhongkai hurriedly said, "hurry up, the remaining road is not long. We just need to rush out of the outermost door, sob sob."

however, the remaining road was also the most difficult to walk, because two special task forces from the first and second bureaus were waiting for them in front. it was still unknown if they could escape.

Perhaps it was because the lightning outside was too strong, mo zhongkai prevented the machines on the roof from working. The lights flickered continuously and there was a sizzling sound coming from the wall.

this was due to the strong electromagnetic interference from the outside world and the current was unstable, so it flickered. this was of some help to mo zhongkai's escape..

Chapter 1930: He didn't plan to leave alive

At the very least, it would not be easy to activate the laser beams on the wall.

This way, the damage to them would be minimized.

the voice above her head sounded again, but this time, the power was unstable, so the sound was intermittent.

Lieutenant Colonel mo, I'll give you the best chance. If you continue to be stubborn, we'll shoot lasers at you. I'll give you five seconds to consider!

Some of the words in the middle couldn't be heard because of the intermittent speech, but the meaning was still very clear.

They gave mo zhongkai a simple five seconds to consider. If he did not surrender, they would turn on the laser.

MO zhongkai anxiously said to Jian Yi, " run! Run faster than the laser. This is the last section of the road with laser equipment. We just have to run out.

Five seconds was really too short. They were not 100 meters away, so they would not make it in time no matter how fast they were.

Fortunately, due to the power problem, some of the laser devices couldn't fire, so the beams weren't dense.

jian yi and mo zhongkai managed to avoid a few.

as jian jie was too thin, his clothes were very wide, and one of them went straight through the clothes on his left waist.

MO zhongkai gasped after seeing it, " fortunately, you've lost a lot of weight. Otherwise, you'd be dead.

Jian Jie broke out in a cold sweat. let's not talk about this anymore. Let's go.

It took time for the laser to start, but there was no regular pattern. They could only rely on luck.

The path of the laser was getting shorter and shorter, and neither of them dared to relax. In this situation, being careless would only lead to death.

MO zhongkai took a look at the hidden symbol in front and said, " "Three to four meters, run over quickly."

The two of them wanted to run forward together, but they were in front of mo zhongkai.

When there was only one meter left, mo zhongkai saw a light spot flashing on the left wall, which was the precursor of laser shooting, and the light spot was facing the wall.

MO zhongkai didn't even have time to think, almost subconsciously, he immediately reached out and pushed the luggage away.

However, before he could pull back his hand, the laser shot out and the dazzling white light passed through his arm.

The burning pain spread to his brain in an instant. At that moment, mo zhongkai seemed to smell his own skin burning. His wound seemed to be burned by a Red Hot iron. That kind of pain was completely unimaginable.

The simplicity had already been pushed out of the danger line by mo zhongkai. He suddenly turned his head and saw mo zhongkai's facial features twisted from pain.

Only then did Jian Jie understand that the 'whoosh' just now was 'whoosh'.

He immediately brought mo zhongkai out, " "Your arm ..."

One of his arms was swollen from the collision, and there was a problem with the bones inside. The other arm had been shot through by the laser.

Now, both of his arms could not move. The moment he was shot by the laser, mo zhongkai had already lost all hope.

He was in so much pain that he almost couldn't make a sound. He used all his strength to say, " "I don't need Yingluo to care about me, you can go Yingluo." The wound caused by the laser could never be healed, and he could only wait for death. In that case, he didn't need to be a burden anymore. It would be easier for him to go out alone.

“After you go out, help me tell Liancheng Yazhi that I must send my family abroad safely.”

He didn't plan to leave this place alive, so it might be better this way. Jian Jie frowned and lifted his chin up. You can say this to him when you get out..
