

Permit Me 2241

Chapter 2241: Mommy will accompany you

after the car left the Lian family, Rong Yan sighed.

Fortunately, the danger this time wasn't great. Otherwise, Rong Yan really wouldn't be able to be so calm.

Rong Yan looked at the big bed. She was used to having someone to sleep with her. Now that half of the bed was empty, she couldn't fall asleep no matter what.

After tossing and turning in bed for half an hour, Rong Yan simply put on a coat, put on slippers, and went to Miaomiao's room.

She liked to sleep with someone. If her husband was not at home, she would carry her daughter. Her son was too young and could not carry anything. It would be worse if he squashed something.

Rong Yan pushed open meowmeowmeowmeow's door and entered. There was a small orange light in the room and her daughter was sleeping soundly in bed.

Rong Yan walked over gently, lay down, and reached out to hug meowmeow.

After holding

Rong Yan immediately got out of bed and ran back to her room to find a thermometer to measure MeowMeow's temperature.

The cool thermometer made MeowMeow shiver and she woke up. She opened her eyes in a daze and saw Rong Yan. mommy, Huahua.

Rong Yan lowered her head and kissed meowmeowmeowmeowmeowmeowmeowmeowmeow's forehead. baby, you're awake? "

Rong Yan hugged her. do you feel uncomfortable anywhere? "

Rong Yan touched "do you feel a little hot?"

"It's not as warm as Xuxu's, it's very comfortable."

Rong Yan thought to herself that the child probably didn't know that there was something wrong with his body.

However, when it was almost time, Rong Yan looked at the thermometer and was stunned. Her temperature was normal, 36.8 degrees, which was completely within the normal range of a human body temperature.

Rong Yan didn't believe it. A normal body temperature should be about the same as her own body temperature, but MeowMeow clearly felt hotter than her body temperature.

Could it be that there was something wrong with the thermometer?

“Baby, wait for mommy. I’ll be back soon.” Rong Yan planned to find a normal thermometer.

“Mom, are you going to sleep with me?”

[illegible]

"Mommy will be back soon." Rong Yan put MeowMeow down and left quietly.

She found two thermometers in the first aid kit at home and hurried back to MeowMeow's room.

Rong Yan measured MeowMeow's temperature with two thermometers, but they were the same. The data was exactly the same as the previous measurements, which surprised Rong Yan.

Why was it like this?

Could it be that

“Mommy, Yingluo, sleep, sleep, Yingluo”

Rong Yan quickly patted her back and said, "Oh, okay. Let's sleep, Yingluo."

Rong Yan placed the thermometer on the coffee table at the head of the bed, feeling that something was wrong.

Her intuition was right. She felt like she was holding a small stove while carrying MeowMeow.

Rong Yan thought about it and wondered if she should take MeowMeow to the hospital tomorrow.

Natsume was not at home. It was indeed a little troublesome to see a doctor.

Chapter 2242-do you miss home?

After

Rong Yan was puzzled. Was
meowmeowmeowmeowmeowmeowmeowmeowmeow?

She then thought of the Liancheng family's bloodline. Their family's bloodline was different from ordinary people's. Was it related to this?

Rong Yan thought of many possibilities, but she still had no clue.

She saw that MeowMeow did not have any adverse reactions and felt a little relieved.

However, Rong Yan still couldn't fall asleep, because her mind was filled with thoughts of Liancheng Yazhi, MeowMeow, and her worry about her younger son.

In short, the more he thought about it, the more confused he became, and the more clueless he became.

It wasn't until the sky was bright that she felt a little sleepy and fell asleep.

On the way, Liancheng Yazhi sat in the car with his eyes closed to rest.

Natsume laughed and said, "oh my, what a hard life. Ran ran was pulled out in the middle of the night. I don't know where she's going.

hey, kid, "Natsume asked the young soldier who was driving the car," how far are we? "

"there's still nearly half of the journey."

half, "Natsume grumbled. ran ran walked for an entire night and only covered half the distance.

"not overnight," the young soldier said. "it's only five in the morning. it's been less than seven hours since we left at ten."

Natsume's mouth twitched.'This little soldier really likes to be stubborn.'

Liancheng Yazhi opened his eyes and looked at the situation outside.

He was still on the highway, but he didn't know which one it was.

After the bumpy ride in the car for half the night, Liancheng Yazhi's spirit did not seem to be bad and he did not seem tired. He asked, " "Do you know about Kang Yu's current situation?"

"sir, i'm not too sure. i've only seen him once, and his eyes were very red."

Natsume suddenly leaned over from the back seat. did you guys do any experiments on him? tell me the truth.

I don't know, " the young soldier shook his head. I'm not sure about this.

Natsume sneered. Hmph, I can guess even if you don't tell me. You must have injected him with some kind of drug to stimulate him. Otherwise, he wouldn't have lost control.

" i'm sorry, " the soldier replied. " i don't know the details. after i tell you, you can ask the base to take responsibility. "

lian Cheng yazhi frowned. the base must have done something to cause kang kun to lose control. but kang kun was still willing to stay there. why?

It was likely that no one in the space-time continuum would be able to stop him.

Lian Cheng Yazhi rubbed his forehead. When would this matter end?

"Are you missing home?" Natsume asked.

"What do you think?" Lian Cheng Yazhi closed his eyes.

Natsume knew that he was probably worried about his family. the journey is short this time, so you don't have to go abroad. You'll be able to go home soon.

"i told rong yan that i'll be exhausted in three days."

"Three days is a bit too short, isn't it?" the soldier driving in front said.

it doesn't matter if I go or not, "Lian Cheng Yazhi said. the key is that Natsume is here.

he only went to check on kang yu's current situation. he asked natsume to stay behind. if there was nothing else, he had to hurry home.

He would never do something like leaving home for a few months again. In his heart, there was nothing more important than his family.

Chapter 2243-ran away from home

Children changed every day. If he left again, his son might not even recognize him as his father when he returned.

Lian Cheng Yazhi glanced at the watch on his wrist. It was exactly six O 'clock in the morning, and the sky outside was basically bright.

" we're going down the highway, " the private who was driving reminded him. " the road will be bumpy in half an hour. "

Natsume's face was filled with pain. ah, I can't leave. I'm going now. I'll get some sleep, then. I haven't slept all night.

he quickly closed his eyes and prepared to fall asleep.

After Natsume fell asleep, Liancheng Yazhi asked, " Natsume didn't bring anything with him. You have a complete laboratory, right? "

" sir, don't worry. everything in the laboratory is perfect. "

As they were talking, they had arrived at the highway exit.

After getting off the highway for half an hour, the road was still bumpy. Even Liancheng Yazhi, who had never known what car sickness was since he was a child, was starting to feel a little dizzy.

"This part of the road isn't easy to walk, but it's not too long. It's only 40 minutes,"

liancheng yazhi was speechless when he heard that. it was only 40 minutes. was she trying to torture him to death?

"Can I not take a car when I come back?" asked Liancheng Yazhi.

I'm afraid this Youyou can't do it, "the private said awkwardly. the area around our base is a no-fly zone. There are no planes inside.

Liancheng Yazhi held his forehead in a daze.

There was one less person at the Lian Cheng family's breakfast table.

Rong Yan told him about Liancheng Yazhi leaving last night, and Tang Zong immediately shouted, " "what? brother-in-law ran away from home at night?"

Rong Yan glared at him. lower your voice. You're scaring MeowMeow.

also, he didn't run away from home. He had something to do and left.

Everyone in the house looked at Tang Zong with disdain. He quickly covered his mouth. no, why did it come so suddenly? did someone come to our house last night? "

Rong Yan briefly explained to them, " "did someone come, or is it about kang yu? he brought natsume with him and said that he would be back in three days. it's good that you know about this, but don't spread it."

Tang Zong hurriedly nodded. don't worry. This will definitely not spread.

"you left in such a hurry. is there a big problem with yingluo?" tang zong asked in a gossipy manner.

Rong Yan rolled her eyes at him. how would I know? you can ask your brother-in-law when he comes back.

"Mommy, daddy won't take too long to come back, will he?" MeowMeow suddenly asked.

Rong Yan reached out to hug MeowMeow. he won't. Daddy will be back soon. Three days. He said he'll be back in three days.

She remembered that meowmeowmeowmeow's body temperature was on the high side last night and asked Gu Hesheng, "Dad, I went to Miaomiao's room last night. I felt that her body was very hot, as if she had a fever. But when I measured her temperature with the thermometer, her body temperature was normal. at first, i thought there was something wrong with the thermometer, but it still didn't work after i changed two more."

Gu Hesheng was surprised,"is that so? I'm here to see Qianqian."

He touched MeowMeow's forehead and said, "The temperature is normal now? If her body temperature is normal, then there's something wrong with you. Did you have a low fever last night?"

Rong Yan was puzzled. low fever? no way, Yingluo. I feel that my body temperature is normal, and I don't feel uncomfortable.

Gu Hesheng was also puzzled, "well, let's see how it goes tonight. Maybe it's because children's body temperature is slightly higher than adults. Don't worry too much.

Chapter 2244: this kid is a smart person

Rong Yan felt a little more at ease when she heard Gu Hesheng say the same.

since liancheng yazhi was not at home, she was very scared when something happened to her child.

Rong Yan lowered her head and stroked

He did not even have to worry about his youngest son's health and appearance. He had already started to soak in a medicinal bath every night.

Moreover, this kid really liked to shower.

He was especially smart. When it was time to take a bath, he knew that he would start to be dishonest. He kept on nuzzling her. If she didn't take off his clothes first, he would start to fake cry. Yes, fake crying. He would open his mouth and howl, the kind that wouldn't shed tears.

In the beginning, Rong Yan thought it was just a coincidence. After a long time, she realized that this kid was simply a smart person.

Usually, he was extremely lazy. He would only grunt twice when he was about to pee. Otherwise, he would not move.

However, when he was about to take a bath, he started to struggle.

Gu Hesheng hugged Lao Ai lovingly and praised him. this grandson of mine will definitely be amazing when he grows up. He's so young, but he's already like a fish in water.

Rong Yan didn't need to worry about her son's health. The only thing she was worried about now was MeowMeow.

Natsume had said before that MeowMeow was young, so her heart disease was not too serious for the time being. The problem of blood agitation was also temporarily under control. When it could no longer be controlled, they would start to think of new solutions.

In the end, when Rong Yan felt that MeowMeow's body temperature was abnormal at night, she was worried that the blood in MeowMeow's body was about to go out of control.

Therefore, she was very anxious.

But

she didn't get much rest last night, so her face was not well. it was a little swollen, and the dark circles under her eyes were very heavy. in addition, she was constantly worried, so she looked very haggard. Gu Hesheng's heart ached as he looked at her. He comforted Rong Yan, "my dear daughter, don't worry too much about this. look at meowmeow, she doesn't seem to have any major problems. don't think too much. go back and rest after breakfast and catch up on some sleep."

"Yes, I understand, dad." Rong Yan nodded.

At 9 am, after 11 hours of travel, they finally arrived at the base.

lian Cheng yazhi, who was about to vomit from the bumpy ride, looked at the base built in the mountains in front of him and could not help but hold his forehead. no wonder this place was listed as a no-fly zone. the jungle was dense and the mountains were stacked. it was not easy to fly.

The base was built in the depths of the mountain. In short, it was to hollow out the mountain and build a highly confidential military base in the mountain.

If a drone flew by, even a radar would not be able to detect anything. If a car passed by, it would not be discovered if one did not look carefully, because their concealment measures were very good.

However, this was not only a no-fly zone, but also a military restricted zone for dozens of miles around. Ordinary people would not be able to advance. The forest Watchmen in the mountains were all members of the team. In this place, once a stranger appeared, they would be immediately captured and interrogated.

Chapter 2245: You don't plan on letting us out?

how dare you bring me here? "Lian Cheng Yazhi asked the soldier. aren't you afraid that I'll tell others about this secret base?"

The secrets of a military base like this could shock the world. Many countries in the world were desperate to know.

"You won't," the private shook his head.

Natsume yawned and asked, "hey, don't tell me that you're not planning to let us out after getting us in here? or that you're going to wait until Kang kun is cured before you execute us in secret?"

"Of course not. We are not a terrorist organization." The private quickly shook his head.

lian Cheng yazhi asked him, "then we'll believe you this once. how do we go in for a walk?"

“My level is not high enough to open the door, I need to contact the people inside,” he said.

After saying that, she raised her hand and pressed a few times on the electronic watch on his left wrist. Then she said, “report, I’ve brought my men back. Please allow me to enter the base.

Liancheng Yazhi and Natsume raised their eyebrows.

The two of them only had one thought in their minds: What the hell, Yingying is so high-end, are you sure it’s not a movie prop?

In less than five minutes, the mountain in front of them opened a huge door with a loud bang, and a white hovering car with a futuristic look came out.

the person who came was not wearing a military uniform but a white coat. he had glasses on and looked refined. he was in his thirties. when he got out of the car and saw liancheng yazhi, he quickly said, “I’m very sorry that the two of you had to travel such a long distance to come here. We really have no other choice.”

“Let’s not talk about anything else. Take me to Kang Yu first,” Liancheng Yazhi said.

“Alright, please get in,” he said hurriedly.

After getting in the car, the car quickly drove through the gate. As soon as it entered, the gate on the mountain closed automatically, and the brightness was much dimmer.

Liancheng Yazhi saw some of the internal structures of the mountain. There was a very high dome above his head, and the top was very bright like a sun. Below it was a floor as smooth as a mirror.

natsume said to the man, “your car is not bad. it’s cool. when can you buy it from a 4S store?”

we’ve only developed a few of these vehicles. They’re used in the base and can’t be mass produced within ten years. It’s still a top secret and can’t be made public.

Liancheng Yazhi looked at the layout inside the car. It was indeed used for combat. He even found a few places to load bullets. Moreover, the operation area in the car was very sophisticated and was completely prepared for combat.

The interior of the mountain was very large. After driving for less than five minutes, a fork appeared in the road. The man drove into a cave on the far left. As soon as he entered, he felt a chill in his face and heard the sound of running water.

liancheng yazhi took a look and saw that they were actually flying in the air above the underground river in the mountain.

“can this car move in the water?” liancheng yazhi asked him.

“of course, this is a three-pronged war chariot. it can sweep through water, land, and air. moreover, it’s very economical in fuel.”

The man kept talking about the car, his face full of pride.

“Did you develop this car?” Natsume asked.

I participated in the research and development, but I didn't develop it alone. This is the hard work of our entire team.

lian Cheng yazhi was silent for a while before suddenly asking, " "Since you guys are so powerful, why did Kang Yu lose control?"

Chapter 2246: Don't want to die in the hands of your own brother

I'm sorry, most of the people here are from physics and mathematics. There aren't many in the medical field, and our main focus isn't on Human Genetics. So, we can't find a way to solve this problem.

"Why was Kang Yu sent here?" Lian Cheng Yazhi asked sternly.

The man looked troubled. It's because Hanhan is a high-risk group. The higher-ups considered that he's very dangerous in other places and can't be controlled. So, they placed him here during the investigation period. But Hanhan ...

Lian Cheng Yazhi didn't say anything more. This was the order of the higher-ups. They were afraid of Kang Yu.

Soon, they arrived at the place and the man took them directly to the medical area.

The man asked the anxious researcher, " "How is it? quickly tell the two of you about Major General Kang's situation."

"we tried to inject him with some drugs to calm him down, but after the injection, we realized that not only did it not have the desired effect, but it also made his condition worse. so, no one dares to approach Yingluo now. if we don't develop a useful drug soon, we won't be able to block that door."

Lian Cheng Yazhi's brows were tightly furrowed. The situation seemed to be worse than he had thought.

"Let's go and see her first," Natsume said.

Hence, they brought Lian Cheng Yazhi and Kang Yu to the prison where Kang Yu was being held.

Kang Zhen was trapped in a transparent cover, like a glass cover, but it was not glass. It was unusually strong. Even with Kang Zhen's strength, he could only make a few small cracks on it.

The door to enter was also made of material, but there was a protruding place on it. From the shape, it was obvious that it was made with a fist.

The assassin was like a wild beast that couldn't find a way to vent the power in his body. He was in danger of losing his human consciousness.

"Let me in," Lian Cheng Yazhi said.

The researchers rejected the idea immediately. no, the heart is in danger. You can't make any progress. Our lives are still in danger.

Lian Cheng Yazhi's eyes were firm and did not change at all. "let me in, i want to talk to him."

“Yingluo won’t listen to anything you say now.”

“Open the door and let me in.” Liancheng Yazhi did not say anything else and still said that.

No matter who tried to persuade him, it was useless. Even Cheng ya Yazhi insisted on going in. He didn’t believe that Kang Zhen would lose his rationality.

Helplessly, they opened the door to let Liancheng Yazhi in. we’ll open this door for you. If you can’t, come out immediately.

that was what they said, but they all knew that if the situation really went out of control, who would be able to escape from kang xi?

Liancheng Yazhi did not leave any words and strode in.

after entering, liancheng yazhi called out, ” “Kang Qianqian.”

Kang Zheng, who was pounding the transparent wall, turned around. His blood-red eyes were devoid of any human emotion. The blood vessels on his skin were protruding, as if they were about to burst.

When he saw Liancheng Yazhi, he growled in a low voice, and the blood-red light in his eyes flashed. He instantly came to Liancheng Yazhi’s side, lifted him up, and intended to throw him to the ground.

The people outside exclaimed in low voices. Some did not even dare to look.

liancheng yazhi was more anxious than anyone else. he didn’t want to die in the hands of his brother. when kang yu lifted him over his head, he shouted, ” “Kang Yu, look carefully. It’s me, Xuanji Liancheng Yazhi.”

Chapter 2247: Don’t do anything that you’ll regret

kang rong seemed to have heard liancheng yazhi’s angry shout, and the hand that was raising him stopped.

Liancheng Yazhi continued. Kang Yu, it’s me. Calm down. I’ve brought Natsume to save you. You’ll be fine soon, sob, sob.

Liancheng Yazhi felt that Kang Yu’s grip on his hand seemed to have loosened a little and was starting to loosen. He quickly jumped down from his hand and stood opposite him. “Kang Zhen, look carefully. I’m sui. Don’t do anything that you’ll regret in the future.”

Kang Yu’s blood-red eyes flickered. His face was filled with pain as he quickly took a few steps back until he was as far away from Liancheng Yazhi as possible. He endured the violent killing intent in his body and gritted his teeth, get out quickly. I, Yingluo, will not be able to control myself very soon.

liancheng yazhi didn’t get any closer. he quickly said to kang rong, take a deep breath and calm down. I’ll ask Natsume to come in. He’ll definitely be able to calm you down quickly. Trust him, and trust me, okay? ”

Kang Zhen clenched his fists. The blood vessels on his head were pulsing. His face was red. After a few deep breaths, he said, "I can only be awake for a short time, you can make him wake up faster."

Natsume, who was outside, heard him and immediately ran in with a suitcase. "Coming, coming, Yingluo."

When he came, he had brought his medicine box with him.

Because he knew that Kang Xi had lost control, he had prepared and developed the medicine in advance.

natsume quickly opened his medicine box and took out an icy-blue syringe. then, he walked to kang kun's side nervously.

He wanted to inject the syringe into Kang Xi's arm, but after trying, he realized that the pillow wouldn't go in. The muscles on Kang Xi's arm were bulging and his whole body was hard. If he didn't relax, the needle wouldn't be able to go in.

Natsume only tried once and did not dare to try again. Every time he stabbed Kang Zheng, it would be another attack on him. The more he stabbed, the more violent he would become.

what should we do? " Natsume asked anxiously. can't we stab it in? "

Liancheng Yazhi was also anxious and said,"Kang Yu, relax. Take a deep breath and relax, Yingluo."

Kang Yu's fists were already trembling. He couldn't hold on any longer. no, I can't. I can't relax, I can't.

natsume gritted his teeth and looked at kang yu's neck. since this was the case, he would take a risk.

He quickly reached out and forcefully inserted the needle into a part of Kang Zhen's neck.

Kang Yu growled in a low voice. His clear eyes instantly turned cloudy. His hand suddenly grabbed Natsume's neck and pulled it back.

natsume opened his mouth wide and tried his best to breathe. in just two seconds, he felt as if his neck was going to break. natsume gritted his teeth and pressed his hand down. the syringe was then injected into kang kun's body.

Liancheng Yazhi rushed over and grabbed Kang Yu's hand. "Kang Yu, let go, let go of Yingluo, let go of Yingluo!"

a few seconds later, kang zheng's hand that was holding natsume's neck started to loosen up. a small patch of skin on natsume's neck started to turn back to its normal color from the injection point and it started to spread out.

After Kang Yu's skin color returned to normal, Liancheng Yazhi pulled his hand away.

But he was the driver, and Kang Xi's 1.9-meter-tall body fell straight to him.

"What about Natsume now?" Liancheng Yazhi quickly caught him.

Chapter 2248: Don't harm others if you don't have the ability

Natsume clutched his neck and coughed violently. He stuttered, "hurry up and settle him down. This medicine was developed by Hanhan in the past. It can only temporarily suppress his condition. I'm not sure how long the effect will last, but I'm sure it won't last more than half an hour. I'm going to give him the medicine.

Natsume gasped for breath several times before he said, "freeze and dormant him.

The base researchers outside saw that Kang Zhen was under control. They came in one after another and lifted him up.

"Carry the person into the cryo-chamber." Natsume said to them.

Those people asked, "cryo-chamber. Why?" His body can take it?"

Natsume packed up his medical kit. I don't have time to explain so much to you. He'll wake up soon. Hurry up and stop dawdling.

Although those people had their doubts, Natsume's one shot was enough to calm Kang Yu down. This really shocked them. Before this, they didn't believe Natsume and had doubts about him. They thought that they were all top researchers. If they couldn't develop something, what could Natsume, a Small Doctor, do?

However, the other party's first move had suppressed all of them, and they couldn't help but admire him.

After carrying Kang Xi into the cryo-chamber. Natsume applied some medicine on the mark that Kang Xi had made on his neck.

He applied the medicine and said, "Kang Yu's condition is worse than I thought. I thought that he would go crazy in waves. I didn't expect him to have lost all his rationality.

Liancheng Yazhi asked those people, "what's his situation?" When did he start going crazy? how long has he been like this?"

Those people looked at each other. Finally, one of the people in charge said, "he started showing signs of going crazy for the first time a week ago, but he was able to calm down after about half an hour to calm us down. We developed some medicine for him, but we didn't expect that after taking the medicine, not only did he not get better, but he went crazy for longer and longer, and the time he was awake in between became shorter and shorter," said Wang Yao.

Liancheng Yazhi was so angry that he almost kicked him to death. "You people want to kill him before looking for us? Why didn't you come to us the first time he went crazy?"

The man knew that it was their fault. They were too confident, which caused Kang Yu's condition to worsen. He said, "I'm sorry, we thought Yingluo we could do it, but we didn't expect Yingluo"

Natsume stood up and shouted angrily, "I didn't expect it, I didn't expect it. Do you know how long it took me to wake him up? do you know that after the human body's genetic recombination, it needs a long period of adjustment before the infinitely developed body's potential can be used for one's own use? since you haven't studied this area, don't be so self-righteous. If you don't have the ability, don't cause trouble for others."

Natsume was really angry. Kang Zhen was one of the masterpieces of his medical career.

He could make an adult who had been injected with a genetic recombination drug succeed in the genetic recombination and make him completely awake, turning him into a qualified, or even an excellent work.

To Natsume, this was his pride. However, the pride that he had spent so much effort to build up was almost destroyed by a group of people. How could he not be angry? How could he not be angry?

Chapter 2249: The situation is very bad

After Natsume's anger subsided, the scene turned silent. Although those people were uncomfortable with being scolded, they remembered that the higher-ups had instructed them not to let anything happen to Kang kun. They suppressed their anger and said, "We didn't expect his condition to be so serious. We're really sorry."

Natsume snorted coldly. Hmph! Ran ran only knows how to apologize. What's the use? "He's still lying in there. If he doesn't get better for the rest of his life, are you going to destroy him?"

Those people quickly explained, "of course not. The higher-ups have always been very concerned about Major General Kang. They have specifically instructed us not to let anything happen to him no matter what.

"But you still haven't done it, have you?" Liancheng Yazhi suddenly said.

our Gong Jie expresses our guilt for this, "those people said. it's our fault. In the future, we'll definitely strengthen our research on human biology.

Liancheng Yazhi was silent for a while before he said to Natsume, "Let's not look into who's responsible for this yet. What do you think about Kang Zhen now?"

Natsume sighed and touched the wound on his neck. I'm not sure now. I have to find out the exact condition of his body and the reason why Hanhan made him lose control all of a sudden.

prepare a laboratory for Natsume, "Liancheng Yazhi said to those people. prepare whatever he wants in there.

"Alright, we'll do our best to cooperate."

there was a lot of pressure from the higher-ups, and they had no other choice. otherwise, why would they take the risk of the base being exposed and bring natsume and kangyu, two people from the outside, here?

Natsume asked his men to prepare the things he needed. He went to take a tube of Kang kun's blood and did a detailed physical examination on him. Then, he analyzed the specific situation of his body based on his heartbeat, brain wave activity, bones, blood, and other data.

by the time he was done, it was already dark.

Liancheng Yazhi looked at the time. He had told Rong Yan that he would be back in three days at the latest.

Given the current situation, he probably wouldn't be able to return tomorrow. What should he do if he didn't want to break the promise in these three days?

“Will Kang Yu wake up soon?” Liancheng Yazhi asked Natsume.

By right, he should be able to leave after sending Natsume here, but he knew that he couldn't do that. He had to at least understand Kang Zhen's physical condition before he could leave. He had to at least see Kang Zhen when he was awake.

natsume shook his head and took off his glasses. no, look, this is his heartbeat. It's twice as fast as a normal person's heartbeat per minute. Look at his blood vessels, they're expanding. The blood is flowing fast and his body temperature is too high. This is consuming his energy. Once it's exhausted, he'll die of exhaustion.

Natsume sighed. if the human body is a manufacturing factory, all of its functions are in complete chaos. It's just like how society has lost its order and become chaotic. It can't be dredged and can't return to its original position. It can't operate normally.

Liancheng Yazhi frowned when he heard that. If Natsume had said so, the situation was really bad.

“What's the reason for him losing control?”

Natsume sighed. I'm still looking for him, but I found some unknown drug residue in his blood. I still have to ask those idiots. If it's because they urged you to drop a bomb here, then just forget it.

Liancheng Yazhi patted his shoulder. continue your research. I'll go ask them.

Chapter 2250: Investigate the reason for the loss of control

Liancheng Yazhi found the person in charge and asked directly, ” “What's the specific reason for Kang Yu's loss of control?”

The person in charge shook his head. we're not sure about that. It suddenly appeared a week ago.

Liancheng Yazhi stared into his eyes, not letting go of any small change in his face. “Did you guys use him as a test subject for research?”

The person-in-charge quickly waved his hand. no, absolutely not. We definitely didn't use Major General Kang as a test subject. We wouldn't dare to do that. Back then, the higher-ups sent Major General Kang here for two reasons. First, it was to shut down the investigation. Second, they wanted us to record all the data of Major General Kang's energy in all aspects. Also, they wanted us to find out how lethal Qianqian was. We only did a basic physical examination, we didn't even take any blood samples.

kang xi's identity was special. the higher-ups had specifically instructed him to be sealed here temporarily. once the review period was over, he would be promoted immediately.

They usually treated Kang Zhen like their ancestor. Not to mention a test subject, even a simple physical examination would require his opinion. If he didn't want to, no one would move.

Liancheng Yazhi asked,”what about life?” For example, the food. Is there a problem with the food?”

The person in charge hesitated for a moment before shaking his head. we ate the same thing, but there's nothing wrong with us. Besides, everything here has been strictly inspected. Nothing that's problematic can be brought in. It's not easy to tamper with the food.

Liancheng Yazhi found it strange. you mean to say that you only started to inject him after Kang Zhen lost control and didn't do it before? ”

The person-in-charge nodded. that's right. There hasn't been any before. We didn't dare to do it either.

Liancheng Yazhi frowned. alright, I got it. Go back and check it again. See which part of it went wrong.

Since Natsume said that there were some drug residues with unknown ingredients, if it wasn't injected after he lost control, then someone must have done something to Kang kun before.

If that was the case, there was only one explanation-someone was trying to harm Kang Yu.

In this case, Liancheng Yazhi could not leave even more. If he did not find that person, how would he dare to leave?

don't worry, “the person-in-charge said. I've been looking for the cause of the problem recently.

Liancheng Yazhi asked him,”by the way, can we contact the outside world here?” I want to call home.”

If he couldn't go back, he had to tell Rong Yan, or she would be very worried.

The person-in-charge shook his head. I'm afraid this Wanwan can't. Our phones here are all connected to our superiors through our own satellite. It's completely impossible to contact our families. Some of us haven't seen our families in two or three years.

When he said this, he was a little sad. It seemed that he had not contacted his family for a long time.

Liancheng Yazhi frowned. I said that I would be back in three days. But I'm afraid I can't do that now. I want to tell my wife.

The person-in-charge thought for a moment. this is not good. Why don't we give a call to the higher-ups and ask them to send someone to your residence to inform you? ”

Liancheng Yazhi nodded after a moment of silence. It seemed like this was the only way now.

“Then I'll make a call. Can you tell the higher-ups directly?”

Liancheng Yazhi nodded.
