Chapter 5771

Ye Chen was so surprised that he couldn't see the end of the road for more than ten miles. The place was obviously huge.

Walking a few miles, ye Chen suddenly saw the fluorescence coming in front of him. When he came closer, he saw a deserted city, full of plants with bright light.

"Heaven and earth? Is there a city here? "

Ye Chen is surprised and steps into the underground city.

This underground city has been in ruins for many years. It is full of strange plants, mosses, mottled traces and many collapsed statues.

"This This is the statue of the ancestor of the sword God! This is really the center of the earth

Alsophila spinulosa saw the fallen statues, seemed to recognize something, surprised to call out.

Ye Chen said: "the ancestor of sword God? Geocentric? I'm in the middle of the earth? "

The Alsophila tree said: "yes, Lord, it seems that you have come to the center of heaven and man. This place was called the center of earth at that time. It is a very old world. It can be regarded as the ancestral place of the supreme world at present."

Ye Chen said: "the ancestral place of the world? What does that mean? "

The *Alsophila spinulosa* tree said: "it is said that there is another realm above the heaven and man realm, which is the geocentric realm. A long time ago, ten super powers were born in the geocentric realm, and they joined hands to fly to the supreme world. In fact, they made a large part of the rules of the supreme world today."

"The top ten, rising to the top?"

Ye Chen is stunned, only feel strange.

It's hard for outsiders to rise to the top. Even characters like Xuan Jiyue and Emperor Shitian are far away from the top, let alone ordinary people.

But a long time ago, ten super powers were born in this region. They rose together and even dominated the Supreme Court. They formulated new rules and systems.

"The legendary wanxu temple was actually created by one of the top ten."

Alsophila spinulosa says something more shocking.

"Wanxu temple was created by one of the strong men? Who is that? "

Ye Chen's heart shrank. Unexpectedly, the founder of wanxu temple was one of the top ten in the earth's heart.

That is to say, the source of wanxu temple can be traced back to the inner earth!

No wonder the temple of wanxu attaches so much importance to the outside world. It turns out that this place, strictly speaking, is the ancestral place of wanxu!

In those days, the founder of wanxu Temple rose up from the center of the earth!

The Alsophila tree said: "I don't know who it is. The legend of the top ten is too long. I don't have much inheritance in my blood memory. I only know that one of them is the ancestor of the sword God. Here are the statues in front of you. The legendary eight heavenly Swords were made by the ancestor of the sword God."

The eight heavenly swords are extremely sharp and powerful. They contain great heavenly power, great cause and effect and great fortune.

Ye Chen heard that the eight heavenly swords were all made by the ancestor of the sword God. He was shocked and said, "all the supreme heavenly swords were made by the ancestor of the sword God?"

Shenluo, Huangmo, annihilation and other heavenly swords can cast one, which is already invincible in heaven. However, the ancestor of the sword God has cast eight!

What a terrible way!

Ye Chen has two Heaven swords in his hand. In addition, he also deeply feels the power of Shenluo Heaven Sword and annihilation Heaven Sword. If he wants to forge these weapons, he really doesn't know how much resources it will cost and how powerful magic means it will take to refine them.

The ancestor of the sword God is just one of the ten strong men in the earth's heart.

There are nine more powerful figures like the ancestor of the sword God!

Suddenly, ye Chen was sweating.

The founder of wanxu temple is also one of the top ten. That is to say, the ultimate big man behind the chess game is one of the top ten!

Indistinctly, ye Chen's scalp is numb, and the hairs on his back stand up.

His ultimate enemy is the existence of the ancestor of the sword God, which is indescribable terror!

The ancestor of the sword God can forge eight heavenly swords. The strong man hiding behind the ten thousand ruins will never be inferior to the ancestor of the sword God.

Alsophila spinulosa tree said: "yes, the top ten super powers of the geocentric region in ancient times are known as the" top ten ancestors "by later generations. The ancestor of the sword God is one of them. He personally forged eight heavenly swords, and his strength can be imagined."

"These ten great ancestors are the supreme beings of the heavens. With a flick of their fingers, they can crush the universe with billions of weight. With a single thought shaking, they can create countless worlds. If they want to kill people, they don't need to do anything at all. They can suppress heaven and earth and bury billions of corpses in one thought."

Ye Chen stayed for a long time and said, "is there such a strong man in the world? No wonder It's no wonder that with the supernatural power of Ren's predecessors, they are so afraid of those who are superior. It seems that it's really hard to defeat them. "

The Alsophila tree said: "Lord, you are lucky. The supreme world is restricted by the rules of the road. Those who are superior dare not come at will. Otherwise, how can you live to this day?"Ye Chen nods, indeed so, with his current strength, facing those old monsters, it's still too small.

"Can we go out now?"

Ye Chen looks around. This is the outer world of the earth. Although the aura is very strong, the cause and effect is isolated from the outside world. He can't feel anything and is even worried.

You know, blood god, blood dragon, Ji Siqing, Wei Ying and others may be waiting for him to go back. He doesn't want them to worry too much.

The Alsophila spinulosa tree said: "the entrance of the earth's core has disappeared many years ago, and everything about the earth's core is gone. There are only four domains left outside the domain. It is said that wanxu temple has been looking for the entrance of the earth's core. It's a pity that it can't find it all the time."

Ye Chen is slightly surprised, way: "connect ten thousand ruins Temple all can't find entrance and exit, that we are not to be trapped to die here?"

The Alsophila tree said: "it's not necessary to be trapped to death. The earth's heart is very big. It's as big as the sum of the four realms of star, moon, sun and sky. There are countless natural materials and treasures. There are many ancient relics. Your aura is many times richer than that of the outside world. Lord, you can practice here and go out when you fly up."

Ye Chen is one Zheng, way: "want to soar to just go out?"? Isn't that why we have to be trapped here before

The Alsophila tree gave a wry smile and said, "it's true, but how can we say it's sleepy in such a big place?"

The geocentric domain is the outer geocentric world. The area here is comparable to the sum of the four domains of the stars, the moon, the sun and the sky. Of course, it is extremely vast, and it may not be able to explore it clearly even after a lifetime.

Ye Chen said: "although the place is big, it's strange. All my friends are outside. We have to find a way out."

Chapter 5772

The Alsophila tree said: "Lord, you were sent here because of the explosion of the void by accident, but it's impossible for us to go out. Do you think that you have heard the news about the earth's core outside for so many years?"

Ye Chen's face sank. When you think about it carefully, you have never heard of any news about the earth's heart before. What's more, you didn't expect that countless strong men, even ten strong men, were born here. They joined hands to rise to the Supreme Court and created a new power system.

Since there was no news before, it means that the place has been completely closed since the top ten ancestors ascended. No one can go out and no one can enter.

If people here want to leave, there is no other way, unless they have completed their cultivation and ascended to the supreme world.

"What should we do?"

Ye Chen murmurs in a low voice, if all one's life is trapped here, that can be troublesome.

No matter how big the geocentric region is, it is also a strange place for ye Chen.

The Alsophila tree said: "Lord, let's walk around and see if we can find any clues. Anyway, I think it's impossible for us to go out in our life. The earth's heart is extremely closed. Your cause and effect are isolated from the outside world. Even if the people outside are all in heaven, they can't find out your existence. In the eyes of outsiders, you should be dead."

Ye Chen wry smile for a while, if really is such words, that can be troublesome, the enemy thinks that he dies, that is naturally a good thing, can save a lot of trouble.

But if even the blood god, Ji Siqing, Wei Ying and others thought they were dead, it would be very bad.

Thinking of the terrible ending in the dreamland, ye Chen is extremely worried. The blood dragon in the magic gorge knows his death and is buried on the spot. The blood god also kills himself.

He was too worried about the ending of his friend's death.

But if you think about it carefully, he is only missing, and no remains are left outside. If you don't see the remains, people will hold the last hope, and they won't really be so determined to be buried.

Think of here, leaf Chen in the heart slightly settle down, then lift a step to go forward, search for new clue.

The *Alsophila spinulosa* tree is hidden in the picture of the yellow spring, and is also focusing on the outside world. Ye Chen can ask it if there is anything he doesn't understand.

Although the cultivation of *Alsophila spinulosa* is not strong, it is a divine tree originated from the supreme world after all. The inheritance of blood memory is very old, and we know many secrets.

Ye Chen walks around the ruins of the city and finds that there are many ancient relics in this area. Unfortunately, there are traces of stolen excavation everywhere, and the treasures have long been taken away.

After three or four days of such exploration, ye Chen did not get much. Fortunately, his injury gradually improved, and the pain had disappeared. Although his body and bones were still weak, his strength had recovered to 20 or 30%. He was more than enough to deal with ordinary fierce animals, and he was enough to protect himself.

This day is still aimless exploration, but still did not meet a person, the heart of this land, is too big, territory is too big, search thousands of miles may not be able to see a person, everywhere are ancient ruins and relics.

Ye Chen went out of the dungeon and came to a desolate temple ruins, which covers an area of at least 100000 Li. Such a huge territory is full of countless huge temples. Although all the temples have collapsed, we can still see the magnificent and majestic scene of the past.

Over the temple, is an eternal morning sky, night will never come, the sky has always maintained the clarity of dawn.

In the earth's inner world, there is no sky, but it is easy to open up the void and create independent sky stars by the means of the earth's strong.

Ye Chen was depressed for several days in the underground city. Now when he saw the sky at dawn, he felt relaxed and relaxed.

Hum!

Suddenly at this time, ye Chen felt a sudden change in the map of the yellow spring. When he looked at it carefully, he saw a bead rising up and blooming with dazzling light.

This bead is just the earth's core killing bead!

At the beginning, in order to help him break the dreamland on Yanyu xianzun's Island, the earth core miezhu used up all his energy, but now, this bead is glowing again.

Obviously, the aura of the earth's heart is very rich. Nourished by the aura of the earth's heart, the earth's heart miezhu is restored again.

WOW!

Under the Pearl surge, the figure of the spirit child revives again.

Ye Chen in the heart a joy, way: "work properly son, you are all right?"

Spirit child just revived, look a little trance, way: "brother, where is here, outside good abundant Aura! I thought I was dead, but I didn't expect to wake up again. "

Ye Chen said: "this is the geocentric region, a huge geocentric world..."

Now, I will briefly explain the legend of the ten great ancestors, the legend of the earth's heart.

The spirit child stayed for a while and said, "there is such a wonderful place in the world."

Ye Chen said: "it's wonderful, but it's not a good thing to be trapped here. Can you open a space tunnel like breaking the misty rain dreamland and let me send it out?"The spirit child felt the outside breath, only felt the cause and effect closed very strongly, frowned and said: "I don't know, brother, I need to absorb more energy, if I can really go out, I will try to help you."

Ye Chen's heart is a joy, if the spirit child has a way to break the void and leave here, then it's better, and says: "OK, then I'll arrange a spirit gathering array for you, you can absorb and refine the spirit here."

At present, ye chenbu has developed a simple Qi gathering and spirit gathering array, so that the spirit child can better absorb the aura of the outside world. He just wants to make the spirit child stronger and take him away from here.

"Well, thank you, brother."

The spirit child then sat on the gathering spirit array and began to absorb the aura of the outside world.

The aura of the earth's heart is similar to that of the supreme world, and its breath is very pure.

After the ten great ancestors of that year ascended, their grace extended to this ancestral land, making the aura of heaven and earth here far stronger than that of other places outside the country, and even carrying the mystery of the supreme world. After people absorbed and refined, the hope of ascended was far greater than that of the outside world.

With Ye Chen's natural cultivation, if he takes root here, he can be promoted in 100000 years at most.

However, his cause and effect are all outside, where has the mind to shut down for 100000 years?

What's more, if the old enemies of the outside world are not removed, and the cause and effect are not finished, the sudden rise will leave the hidden danger of demons. Even if you go to the supreme world, it is difficult to become a great weapon.

Hum!

At this time, in addition to the spirit child, ye Chen felt the seal of God on the jade pendant, and there was a change.

The ancient jade pendant with seal of God releases a dense aura. Obviously, the aura of the earth's heart is also suitable for the absorption of seal of God!

Chapter 5773

"Ha ha, it turns out that there is such a magical place in the earth's heart. Good, very good! If I stay here for a year, I can recover all my strength! "

The seal spirit made a very ecstatic sound, and obviously felt the extraordinary of the earth's heart.

When ye Chen heard the words of the seal spirit, he said: "if you restore all your strength, can you take me out?"

The spirit of shenyinqiling pondered for a moment and said, "I don't know yet. The cause and effect closure here is too severe. I'm not sure, but anyway, I'll restore my strength first!"

He was the guardian of the Shenyin clan in the past, and his strength was extremely strong. But even if he recovered to the peak, he did not dare to say that he could break the blockade of the geocentric region and leave. I can imagine how strong the causal closure is in this geocentric region.

Ye Chen frowned lightly. It seems that it's not easy to leave the earth's heart. At the moment, he said to the seal: "well, you can recover as soon as possible."

One more card, one more chance. Without the spirit child and the spirit seal, ye Chen may have a chance to leave here, but he doesn't have to be trapped all his life.

"Boy, try not to disturb me."

With a command from the spirit of the seal, he practiced quietly and absorbed the rich aura around him.

The spirit child also completely entered the state of cultivation, ye Chen nodded slightly, then on his own in this temple ruins, looking for possible valuable clues.

Buzz, buzz!

As ye Chen marches, he suddenly hears a huge buzzing sound coming from the horizon. When he looks carefully, he sees that there are large golden clouds rushing towards him. They are just monsters of gold!

"Lord, be careful! It's the honeybee! It's a very powerful animal with the essence of Geng gold. The tail of a bee can shoot golden needles to kill. A large swarm of bees will come and shoot tens of thousands of golden needles. That is to say, those who are too strong in the real world should be afraid! "

The *Alsophila spinulosa* tree gives out a warning. These golden wasps are the supreme beasts. They are called golden needle bees!

In fact, it's not enough to think that any one practitioner can kill a single golden needle bee. But every time it appears, there are tens of millions of golden needle bees, which are closely linked and block out the sun. Countless golden needle bees are rampant, which is enough to make the scalp numb.

When ye Chen saw the golden clouds pouring in all over the sky, he felt a little numb. Finally he knew why the golden needle bee could be called the supreme beast, because tens of thousands of people came to kill it. The picture was too terrible.

Buzz, buzz, buzz

Countless golden needle bees, aiming at Ye Chen, fly over, tail a swing, a root as thin as cattle hair golden needle, is sweeping toward Ye Chen.

Ye Chen was surprised. These bee needles had a strong penetrating power. Thousands of bee needles came like raindrops. The spirit of Gengjin's killing and cutting was as powerful as a Heavenly Sword. It was frightening.

His body is still very weak. If he is shot by ten million bee needles, he will fall on the spot.

"Wu Tu Yuan Fu, guard!"

In the crisis, ye Chen offered a symbol of the origin of Wutu, and the abundant essence of Wutu was released. It turned into nine huge swords and fell down from the sky around Ye Chen.

These nine huge swords form a sword prison. One sword rotates continuously, and the Qi of the sword is closely connected, just like an iron wall.

This time, ye Chen is actually a prison, with a huge sword Wutu encircle himself.

Clank, clank!

The thousands of bee needles shot on the nine huge swords, and all of them were blocked.

Ye Chen looked at the huge sword, full of gold needle, can't help scalp numbness, if these bee needle, all shot to him, he is afraid to fall here on the spot, let alone looking for the entrance.

Fortunately, after absorbing the core of Genyue peak, the Wutu aura becomes more powerful. Otherwise, ye Chen may not be able to stop so many golden needle bees.

A wave of shooting, can't hurt Ye Chen, the flying bee colony, also issued a restless buzz, it seems that the scene in front of them, beyond their expectations.

Whoa, whoa, whoa!

However, without waiting for ye Chen to gasp, the second wave of bee needle shot, dense and to!

Ye Chen's pupil suddenly shrinks, and his strength only recovers 20% or 30%. If he is a common fierce beast, he can deal with it naturally. However, these ten million Golden Needle bees are obviously not

good or weak. There are so many. I'm afraid that the tail needle's sweeping attack will be endless, and ye Chen can't resist it all the time.

If there is fire of Tao and spirit, Yan xuan'er may have some solutions, but because of the injury, Yan xuan'er is still in deep sleep.

"Damn it

Ye Chen clenched his teeth, glanced around and thought about how to get away.

All of a sudden, he saw a strange Rune wasp. It was huge, much bigger than ordinary wasps. It seemed to be the leader, maybe the queen of the colony.

"Tai Yi Zhen Lei Sha, I suppressed it!" Seeing this, ye Chen's eyes brightened, and immediately threw away his hand to sacrifice Taiyi Zhenlei sand, directly attacking and killing the queen bee.

The queen is hidden in the core of the colony, surrounded by numerous powerful wasps, but ye Chen's Taiyi Zhenlei sand is grains of sand, much smaller than bees.

This hand Taiyi shock thunder sand throw out, those wasps can't stop completely.

Boom!

A grain of Taiyi shock thunder sand, hard blow on the body of the queen bee, direct explosion, countless lightning surge.

The queen bee was blown to pieces by Ye Chen on the spot. Her body became pieces of gold and fell to the ground.

Around the thousands of bees, see the leader died suddenly, suddenly burst the pot, panic scattered, flying away.

"Clear water, magic pearl, holy water all over the sky!"

Ye Chen immediately sacrificed the Pearl of green water, released the endless holy water of the yellow spring, and swept away towards the sky.

These golden needle bees are all of the highest origin animals. There is a very pure essence of Geng gold in their blood, which is of great benefit to cultivation. Ye Chen will not miss it.

The holy water of the yellow spring surged into the sky, turned into a flood, swept wildly, and drowned all the golden needle bees.

In an instant, ye Chen collected millions of golden wasps. Countless golden wasps lay on the huangquan River, and the whole huangquan river became golden.

"Geng Jin spirit, gather me!"

Ye Chen takes a deep breath and uses the six ways of reincarnation to refine the millions of honeybees.

The breath of pure Geng gold suddenly gathered in Ye Chen's body, nourishing every muscle and bone of his body. Even ye Chen's skin showed a touch of light gold, which obviously got great benefits.

Boom!

Chapter 5774

An incomparably bright golden light suddenly shoots out from ye Chen's body, but it is the dust tablet in the reincarnation xuanbei.

The dust stele, unexpectedly, also absorbed the energy of the golden needle bee. The light burst out and seemed to have a transformation.

"Has the stele changed?"

Ye Chen looks at the golden light that the dust stele releases, tiny a Leng.

The origin of the legendary reincarnation stele is very mysterious. But now, ye Chen feels that this stele has something to do with the aura in the relic.

"Those tablets of reincarnation may be related to the ten great ancestors."

Ye Chen brow light wrinkly, in the heart secretly guess.

The earth's heart is the ancestral place of the ten great ancestors. Aura communicates with the supreme world. Now the golden light of the dust tablet is changing. It seems that it has got some "key" to open it, and the strongest breath has burst out.

The aura of this ancestral place seems to be the "key", which can completely stimulate the energy of reincarnation xuanbei.

Just now, the blood aura of those golden needle bees came from their ancestral place, and the dust tablet is also of Geng metal nature. It is connected with them, and it is suddenly stimulated by the "key". It is actually the golden light blooming and the energy bursting to the extreme.

When ye Chen regains his body, he finds that his injury has improved and his strength has returned to the level of 45%.

"Since the dust stele can stimulate, is it the dark stele, poison stele, wind stele and so on, as long as there is appropriate aura stimulation, it can also transform?"

Ye Chen is very happy that the temple remains are so large that there must be other fierce beasts besides the golden needle bee. If you can find the right aura resources, maybe other reincarnation steles will be completely transformed.

Think of here, ye Chen is quite a bit impatient, stride forward to explore.

However, the ruins of this temple are too large, with a total area of 100000 Li. Although there are many fierce beasts dormant in the dark, the number of them is very rare in such a large area.

Ye Chen walked for a long time, but he didn't find anything. He couldn't help but feel a little discouraged.

"Well?"

Just when ye Chen was disappointed, he saw that in the ruins of a temple in front of him, there seemed to be a cyan atmosphere. There seemed to be a special aura of the wind attribute. If he absorbed it, it might make the wind stele degenerate!

Ye Chen suddenly spirit a while, go to that temple ruins.

When ye Chen came to the ruins of the temple, he looked around. The temple was rather dilapidated, covered with moss, dust and cobwebs, and there were many collapsed stone carvings in human form on the ground.

Ye Chen looked at the statue of the human figure, his heart inexplicably hairy, I do not know whether it is an illusion or something, he always felt that the statue's appearance, and Hong Tianjing is somewhat similar!

But a closer look, it seems not.

"Forget it, don't scare yourself."

Ye Chen shook his head, no longer think about it, went to the depth of the temple, just that blue special aura wind trace, it is from there.

Into the depths of the temple, where a gray, scattered on the ground a few ancient bones.

The aura of these skeletons surged up, and the blue atmosphere actually came out of them!

"These bones What an abundant Aura! I don't know who left it. "

Ye Chen sees this, the eye pupil slightly shrinks, but didn't expect that the source of the blue atmosphere is actually several ancient remains.

The owner of the remains must have been a very strong master. I don't know how many years it has been. The bones still have a strong aura.

The Alsophila spinulosa tree in the yellow spring world also saw this skeleton, and was quite surprised and said: "Lord, absorb and refine these bones quickly. Such abundant aura of wind system is enough to make your wind stele complete transformation. Maybe you can even break through your own cultivation!"

Ye Chen shook his head, said: "no, first ancient bones, cause and effect is not clear, or don't move."

The owner of this skeleton, who knows what identity it is, ye Chen doesn't dare to absorb it casually, otherwise he will be in trouble if he is contaminated with some causal sin.

"If I disturb you, I will leave immediately."

Ye Chen bows respectfully to the skeleton, then turns around and leaves, with no intention of taking the bone for refining.

"Unfortunately..."

The Alsophila tree was a little disappointed and sighed. If ye Chen was willing to absorb the skeleton, it would be of great benefit to the cultivation.

But ye Chen doesn't want to do anything against his heart.

"Ha ha, this little friend is calm and admirable. It seems that you are my predestined friend."

Just as ye Chen turned around and wanted to go, a loud voice came from behind him.

Ye Chen was surprised. When he looked back, he saw that the spirit of the skeleton was surging, and the green awn burst out, showing a white haired, immortal figure.

It's coming to light!

"This is..."

Ye Chen see this scene, immediately surprised, really didn't expect that the skeleton actually appeared.

With a faint smile, the old man said, "don't panic. I'm the ninth generation leader of the Hong family. My name is Hong Tianzheng. I've been down for a long time. I've been looking for someone to inherit my legacy. Unfortunately, all the people who break into this temple are greedy and covetous. They are not qualified to touch my orthodoxy..."The old man spoke with a murderous air.

Ye Chen through this murderous, immediately caught the extremely terrible cause and effect.

Once upon a time, there were also intruders in this temple. For thousands of years, there have been many intruders.

But in the end, everyone was killed by this old man named Hong Tianzheng.

It's the kind of real obliteration and vanishing, and there's no residue left.

If ye Chen just had any offense, he will be wiped out now.

But ye Chen, different from those intruders before, has his own heart and has not offended Hong Tianzheng's bones.

Therefore, Hong Tianzheng looked at Ye Chen with appreciation and said with a smile: "this little friend, you are different from them. I want you to inherit my orthodoxy. What do you think?"

Alas, it's very important for me to light a lamp in one breath during my cultivation. I've been suffering from no descendants. I can't get rid of my obsession after falling. I've really suffered too much unnecessary pain. I just hope you can inherit my traditional cause and effect and let me get rid of it. "

Ye Chen was so surprised that he said, "what is your orthodoxy?"

Hong Tianzheng said: "I preach you to destroy the Tao. I see that the foundation of your martial arts seems to have the smell of destroying the Tao seal. As long as you inherit my orthodoxy and destroy the cultivation of the Tao seal, you can reach the tenth level in an instant."

Ye Chen startled: "the tenth weight!"

Hong Tianzheng said: "that's right. I'm the only one who has broken through the heaven and earth and reached the tenth highest level since ancient times. If you inherit my orthodoxy, this cultivation will be yours."

Ye Chen's heart thumping, said: "inherit your orthodoxy, what cause and effect do you need to bear?"

Chapter 5775

Hong Tianzheng said with a smile: "you have a foreign breath. You are not from the earth. But since you can come here, it is fate. In the past, there were ten super strong people in the earth. They were called the ten ancestors by later generations. Do you know that?"

Ye Chen said: "the legend of the top ten ancestors has also been heard by the younger generation."

Hong Tianzheng nodded slightly and said, "if you've heard of it, I don't need to explain it. Every one of the top ten ancestors has a huge family behind him, which is called Tianjun family."

Ye Chen said, "what is the king of heaven?"

Hong Tianzheng said: "if you ascend to the Supreme Court and the king comes to the world, you are the heavenly king, also known as the superior. The heavenly king's family is the eternal family that gave birth to the superior and was blessed by the superior."

Ye Chen's heart is shocked, he naturally knows that the blessing of the superior is very difficult to take, and the non atmospheric operator can't grasp.

At that time, he failed to grasp the love of the heavenly daughter.

There is also henggu Shengdi, who once gave blessing to miewuji, but miewuji couldn't hold it.

If you want to grasp the blessing of the superior, you can't do without the foundation of Qi, personal nature, cause and effect.

The family that gave birth to the superior is not necessarily the emperor's family. Only by getting the blessing of the superior and holding the supreme fortune, can it be called the real emperor's family. It can inherit the world, the sun and the moon will decay but I will never die, the heaven and the earth will fail but I will never die, and reach the eternal realm.

Now, listen to Hong Tianzheng's words, after the rise of the top ten ancestors, all the families behind them have become the family of heavenly kings. They have successfully grasped the lucky fortune given by heaven, and they have never lost it. From then on, the family inheritance will never die. Unless their ancestors died in the past, they will never fall.

Ye Chen said: "the Hong family, where my predecessors lived, is one of the top ten Tianjun families?"

Hong Tianzheng stroked his beard and said proudly, "it's the founder of the Hong family who founded a great power after he ascended to the supreme heaven. The cultivation of Taoism of the Hong family is also very rare. As long as you inherit my Taoism, it will be easy for you to ascend to the supreme heaven in the future, but if not, you will be trapped here all your life and have no chance to go out!"

Ye Chen looks at Hong Tianzheng's face, vaguely feels a little familiar. He finds that Hong Tianzheng's appearance is actually similar to Hong Tianjing's!

Hong Tianjing, Hong Tianzheng, even their names are so close.

Ye Chen is faint between, have a big not clear premonition, sink a voice way: "don't know elder generation recognize a person."

Hong Tianzheng said: "who?"

Ye Chen said, "Hong Tianjing."

Hong Tianzheng was stunned and said, "Hong Tianjing? I haven't heard of it, but I don't know why. When I heard you mention this name, I felt a great shock. This person must have something to do with me, and I reckon it. "

After that, Hong Tianzheng's face became heavy and he pinched his fingers carefully. Then he suddenly changed his face. "Ah," he called out, "Hong Tianjing! He is my descendant! You're his old enemy! "

Speaking of this, Hong Tianzheng's eyes are gloomy, staring at Ye Chen.

In that instant, he had calculated all the causes and effects.

The air of the sky around, violent concussion, even leaf Chen, all felt.

Ye Chen also catches the secrets of heaven. It turns out that Hong Tianjing is the descendant of Tianjun family. When he was weak, he practiced in the earth's heart. Finally, his cultivation was perfect, and he was able to fly to the world.

In other words, this geocentric region is actually the hometown of Hong Tianjing!

Hong Tianjing is rising from here!

Hong Tianzheng is actually the ancestor of Hong Tianjing!

They are so close to each other in appearance, and their blood is obviously homologous, which is the existence of direct blood relatives.

Ye Chenda is terrible. He never thought that he would meet Hong Tianjing's ancestor. Although there is only a wisp of ghost left, he is powerful enough to penetrate the cause and effect blockade of the earth's heart, and find out all the enmity and hatred.

"Your name is Ye Chen, the reincarnation of the Lord of samsara? It turns out that you are the one who the princess of heaven yearns for! Ha ha, Hong Tianzheng is ashamed today. You are guarded by Princess tiannu. Why do you need my blessing? "

Hong Tianzheng was so angry that he looked up at the sky and laughed. He could not hide his resentment and jealousy.

He obviously also heard the prestige of the heavenly daughter, and explored the contact between Ye Chen and her.

Ye Chen is favored by the Empress Dowager. He suddenly feels like a clown. No matter how powerful he is, he can't be compared with the Empress Dowager.

When ye Chen heard this, he was shocked in his heart and thought, "it's said that the heavenly daughter's surname is Ren, and she has the same surname as the elder Ren. Is this Ren's family one of the ten families of heavenly kings?"

His thoughts are still uncertain. In his eyes, Hong Tianzheng's fierce anger has burst out, saying: "I wanted you to inherit my orthodoxy, carry forward the foundation of the Hong family for me, and suppress other aristocratic families, but I didn't expect that you are Ren's family member, and you are also the old enemy of my descendants. What can I do with you?"

With a word, Hong Tianzheng blew up a terrible storm of destruction in his palm. "Ten days of repression, destroy me!"

Hong Tianzheng a violent drink, that terrible destruction storm, is overwhelming toward Ye Chen swept away.

Boom!

The destruction storm was pure black, as black as ink, as if it could destroy everything. As soon as it was released, the heaven and the earth seemed to be occupied, and the whole temple vibrated violently. The sky outside was affected, but it was creaking.

The sky is clearly untouchable. At the moment, it seems like a piece of blue glass. It is cracked by the shock. The sky is smashed and fell down. The blue sky has become a black hole, and the empty air is running wildly. It is a scene of doomsday.

"This is the destruction seal of the peak state?"

Ye Chen's heart is extremely terrified. The road of destruction is printed with ten fold, and ten fold is the peak.

Once it reaches the peak, the power of destroying Daoyin can be comparable to that of Jiutian Shenshu!

And this Hong Tianzheng, obviously, has reached the peak of his cultivation!

This is his tenth destruction seal!

Even if he doesn't have the body, this ten times destroys the road seal to only have a part of strength, but also is not at present of Ye Chen can contend with!

Ye Chen breathes and suffocates. Hong Tianzheng's destruction of Dao Yin is really terrible. He wants to wipe out all existence, not to mention that ye Chen has less than half of his strength. Even at his peak, he can't compete.

"It's impossible. Hong Tianzheng has fallen, leaving only the remains. How can he use such a powerful magic power?"

Ye Chen only feels strange. He must know that destroying Dao Yin and being fierce and overbearing require great aura. If he is not careful, he will bite himself.

The most powerful destruction seal has broken through heaven and earth. It's really unimaginable and terrible. It's hard to display this kind of destruction seal.

However, Hong Tianzheng's hand is light and easy. It is clearly just a wisp of ghost, but it is easy to destroy the storm.

Ye Chen really doesn't know how he did it. It seems that after the destruction of Daoyin reaches the tenth level, there will be an incredible transformation.

This time, the black destruction storm swept, before the storm, ye Chen already had a kind of scalp numbness feeling, as if all the flesh and blood, are to be swallowed up and destroyed, slag will not be left.

He finally knew why the people who broke into the temple didn't even leave any ashes. Under the destruction storm of Hong Tianzheng, no one could survive!

Chapter 5776

Hong Tianzheng's eyes are full of murders, and he is merciless.

He just wants Ye Chen to die!

Ye Chen has the figure of the heavenly daughter behind him, and he is the old enemy of his descendants Hong Tianjing. He must get rid of it!

Before he laughs, he still wants to pass on his orthodoxy to Ye Chen. How can he think that the cause and effect behind Ye Chen is so huge? It's really nature.

"Back up!"

Ye Chen saw the destruction of the storm, at the foot of the floor crash, quickly retreat, to avoid the destruction of the storm.

He knew very well that once he was involved in the storm, he would definitely die. There would be no ashes left and he would be completely wiped out.

In the world, Hong Tianzheng is the only one who can cultivate the seal of destruction to the tenth level, which is comparable to the magic of the nine heavens.

"Reincarnation of the peak period of the Lord, I may be afraid of three points, but you just a mole ant, where can you go?"

Hong Tianzheng snorts. With the palm of his hand moving, the storm of destruction blows from all around, forming a situation of encirclement. He cuts off Ye Chen's way to the center and wants to kill him alive.

"No!"

Ye Chen's face changed greatly. At this critical moment of life and death, he thought of a way to get rid of himself, as if he were blessed to the soul.

"Dust stele, red dust God pulse, open!"

Ye Chen drinks suddenly and immediately sacrifices the dust stele.

Hum!

The dust stele blooms out the striking golden light. The Ancient Runes float and evolve into a set of brilliant golden armor, which covers Ye Chen.

Originally, when the red dust God pulse was opened, there was an iron wall of Geng gold to protect the body. But ye Chen absorbed the essence of Geng gold in the earth's heart, which made the dust stele transform completely. The weather of the red dust God pulse opening also changed.

This time, ye Chen red dust God pulse open, wearing gold armor, just like the God of war from the epic myth, extremely brave.

Hoo Hoo Hoo!

The destruction storm of that layer upon layer, sweep from all directions and come, mercilessly blow to kill on the leaf Chen body.

But ye Chen, with the protection of the dust stele, turns on the red dust God pulse and the gold armor to protect his body. He resists without being killed.

"Ah, how can it be? It's a reincarnation monument! Value surpasses the existence of the eight heavenly swords

When Hong Tianzheng saw this scene, he was absolutely shocked!

The reincarnation stele is related to the secret of the origin of the universe, the chaos of heaven and earth, and the ultimate mystery of Hongmeng universe. Its value is unimaginable and more precious than the eight heavenly swords.

Although on the surface, the eight heavenly swords are extremely powerful, and there seems to be nothing comparable in the world, there is always a limit to the edge of the sword, and the power of reincarnation stele is endless, and there is no upper limit.

The host of the reincarnation stele, if his cultivation is strong, the power of this stele will be strong. The power of the stele is endless, and the power of the stele is endless.

The dust stele suspended around Ye Chen has a vast golden light and a myriad of images. It is obviously a complete existence. The aura of the stone stele has reached a full circle, which is not a defective product. As long as ye Chen's cultivation is strong, the magical effect of the stone stele will be more and more terrible.

For a moment, ye Chen, with the power of the dust stele, stiffly blocked Hong Tianzheng's attack.

"Cough..."

Ye Chen coughs violently for a while, although barely block, but he was not small impact, affect injury, tear pain.

Moreover, in Ye Chen's current state, the red dust God pulse of the stele can only be used once, and he can't use it again.

If Hong Tianzheng attacks again, ye Chen will be in danger.

Fortunately, when Hong Tianzheng saw the dust stele emerge, he was stunned and fell into a huge shock. He couldn't recover for a long time.

"Go

Ye Chen takes advantage of this opportunity and immediately turns around and runs out.

When Hong Tianzheng saw his back, he suddenly woke up and said, "I'll leave you the dust stele. I won't let you die!"

No longer thinking, Hong Tian straight hand flat push out, a terrible destruction storm, toward Ye Chen again.

This time he hastily shot, the power is far less than the last time, but ye Chen's current state is absolutely unbearable.

"No!"

The ear hears behind the strong and urgent storm, the leaf Chen facial expression suddenly changes.

"Brother, be careful!"

Fortunately, at this time, the spirit child feels the wave of destruction outside, knows that ye Chen is in danger, and hastens to sacrifice the earth's heart to destroy the Pearl to protect Ye Chen.

Hoo Hoo Hoo!

The heart of the earth is killing the beads, and the wind is so loud that it absorbs and devours the breath of destruction behind Ye Chen.

"What, the earth's core

Hong Tianzheng was shocked when he saw the appearance of the earth's core killing pearl.

This bead contains a very abundant aura of destruction. It is a very special magic weapon of destruction, which is interlinked with other ways.

If he can get this bead, he can reshape his body, which has great benefits.

"Heaven will destroy, explosion!" Ling'er absorbed the energy of Hong Tianzheng, his eyes suddenly became cold, and his body appeared above the beads, just like the ancient holy baby. There were bright meridians on his skin, just like the veins in the starry sky.

Fingers a pinch Jue, Ling child hit a destruction method ball, bang, in front of Hong Tianzheng burst open.

Hong Tianzheng's corpse drifted back to avoid the impact of the explosion.

Ling'er's explosion is aimed at retreating the enemy, but he doesn't try his best. As soon as he forces Hong Tianzheng to retreat, he immediately takes Ye Chen away.

"The dust stele in the reincarnation xuanbei, the earth's core destroying pearl, the treasure of the reincarnation Lord, is really very important. I don't know if he has any other steles?"

Hong Tianzheng sees that ye Chen leaves completely, and his face is not clear.

There are many reincarnation steles, among which the dust stele is only one. The legendary reincarnation stele, combined with reincarnation blood, can produce the highest power.

In this world, reincarnation represents the supreme. If you master reincarnation, you can take charge of life and death, and set various rules of the world.

"I can't kill the reincarnation Lord today. I won't have another chance in the future. It's a pity, it's a pity..."

Hong Tianzheng sighs with indignation. He only has a wisp of ghost left. He can't leave the temple ruins. He will have no chance to kill Ye Chen later.

The thought that ye Chen's blood will mature and he will kill his descendant Hong Tianjing if he really takes charge of reincarnation. He may even stay with Hong's family, and his heart can't help worrying.

It's not easy to offend the reincarnation Lord!

.....

At this time, ye Chen had already gone outside. The sky in the temple ruins had been shattered, and it became the common appearance of the earth's inner world. The light was dim, the air was stagnant, and the top of his head was the eternal rock, which was quite depressing.

"It's not suitable to stay here long."

Ye Chen's steps are swift, and he goes to the temple ruins. This is Hong Tianzheng's territory. It's hard for him to escape. He doesn't want to make trouble again.

This way, ye Chen sees a lot of aura gathering places, which may be helpful to reincarnation xuanbei. But after all, it is Hong Tianzheng's territory. Ye Chen is afraid, does not stay, and does not make any dangerous investigation, so he leaves quickly.

Chapter 5777

Fortunately, no accident happened again. Ye Chen smoothly left the temple ruins and came to a grotto, a little relieved.

In the center of the earth, there are many kinds of caves, because this is originally the world in the center of the earth.

Unless there is a strong one who opens up the void and casts heaven and earth with great powers, otherwise in the general place of the earth's heart, there is no sun in the sky, showing a dark appearance.

But the darkness is dark, and the aura is very strong, and I don't know where it comes from.

Ye Chen breathed and adjusted for a while, and his state was a little better.

"Lord, I seem to smell the tea."

At this time, in the world of the yellow spring, the Alsophila tree suddenly uttered a voice.

"Heavenly tea?"

Ye Chen is stunned.

The Alsophila tree said: "yes, you know, I'm a big tea tree. Our Alsophila people are full of treasures. The branches of tea can be used as medicine. It seems that someone nearby has made tea for many days. If you can get the nourishment of the tea, you can recover quickly!"

Ye Chen's heart moved, he naturally knew the value of *Alsophila spinulosa*.

At the beginning, the medicinal tea of the God God God had a great effect on healing, but it was the last time that the spirit tea of the God God came to an end.

Pills and potions made from ancient *Alsophila spinulosa* materials can wash muscles and bones, treat injuries, clear the mind and tranquilize, and the effect is very powerful.

The *Alsophila spinulosa* tree under Ye Chen's command is not pure enough. It doesn't really live in the supreme world. The branches and leaves are contaminated with the lower side of the miscellaneous Qi. The treatment effect is not authentic, so it can barely cure the injury of the emperor Shitian, but it can't cure Ye Chen now.

But now, the heavenly tea it mentioned seems to be a pure existence, which is of great benefit to healing.

"Where was the tea that day and how many people were nearby?"

Ye Chen also wants to use Tiancha spa to treat his injury, but he is not in good condition. If he meets the enemy, he may not be easy to deal with.

The Alsophila tree said, "it's only a hundred miles away. It's not too far away. There's no breath of strangers nearby. Maybe it's a deserted relic. It's just right for you to heal. It's a chance from heaven."

Ye Chen eyes a bright, if have the chance that can quickly recover injury, that nature again good.

"OK, show me!"

At the moment, under the guidance of the Alsophila tree, ye Chen quickly went to the place where the tea was that day.

Flying all the way, ye Chen came to a place full of Camellia, where he could see the blue sky, the long wind blowing, the refreshing fragrance of Camellia, washing his heart and soul, very refreshing.

In the center of the earth, all the places where the sky can be seen are made by man, which is by no means natural. Because in the center of the earth, it is impossible to see the sun and the moon in the sky, unless someone opens up the void, picks up the stars and the moon from the outside world, and then operates the magic power to form the cycle of natural principles.

Tea trees all over the mountains, green or white, flowers, bees flying butterfly dance, a beautiful scene, but no one exists, it is particularly quiet.

Ye Chen can see from a distance that there is a pool in the middle of the sea of Camellia. Beside the pool stands a stone tablet engraved with the words "Shencha pool". The handwriting is extremely powerful and sharp. It seems to be carved with the supreme sword. The font structure is full of cutting spirit. If ordinary people look at it more often, they will be killed by the sword spirit.

"Tea pool? What is this place? "

Ye Chen saw that in the pool, the water was dark green and thick, and there were some green leaves floating on the water, green as jade rhizomes, with a strong smell of tea and pills.

It seems to be a medicine pool.

The Alsophila tree said happily: "Lord, this divine tea pool is not simple. The water in the pool is made of the materials of the ancient Alsophila tree. It's really the Alsophila tree in the world. It's not my complicated existence. If you soak the full pool of heavenly tea, you can completely recover in a few days."

Ye Chen doubts a way: "only need a few days time, I can recover completely?"

The Alsophila tree said: "yes, the tea branches of the Alsophila family are top medicinal materials. The water in the magic tea pool is a precious treasure. There is a full pool here. It's just your chance. Lord, you are really lucky."

Ye Chen smiles a little, and a little uneasy. He looks around and says, "is there really no outsider here?"

"There is no one around," said the Alsophila tree. "It seems that this place is really an ancient relic. I don't know who made up a pool of Tiancha, and it hasn't even been used. It's the most effective time."

Ye Chen's brow is slightly wrinkled. He feels that the cause and effect behind the tea pool is not simple. But he is too seriously injured and weak. It's time to nourish and recuperate. He can't miss the chance.

"OK, then I'll go into this tea pool to heal. Alsophila spinulosa will protect my Dharma. If there is any change, please let me know immediately."

Ye Chen made up his mind to enter the tea pool.

The Alsophila tree suddenly cried, "Lord, wait a minute!" Ye Chen said, "what's the matter?"

The Alsophila tree said in a deep voice, "this tea pool cloth is forbidden. Be careful."

"Prohibition?"

Ye Chen was stunned. After a closer look, he found that there was a faint forbidden Rune in the water mist. If it wasn't for the Alsophila tree, he would not have noticed it.

"There are prohibitions. What are the consequences of breaking the meeting by force?"

Ye Chen frowned lightly.

The Alsophila spinulosa tree said, "there's no need to break it. This prohibition is made up of the aura of Tiancha. I have the same origin as Tiancha. You can enter safely with my Fu Zhao."

With that, the Alsophila spinulosa tree runs its aura, condenses into a green imperial edict, and gives it to Ye Chen.

This Fu Zhao is printed with the word "tea".

The pool water in Shenchu pool is made of the oldest Alsophila spinulosa tea tree, which has the same origin as yechen's Alsophila spinulosa tree.

Ye Chen took the imperial edict and entered the tea pool.

Sure enough, with the protection of the imperial edict, ye Chen was not hurt by any prohibition.

As soon as he soaked in the pool water, ye Chen felt that his muscles and bones were relaxed, and every pore of his body seemed to be nourished by the purest and richest aura. His original weak body was recovering rapidly, and his internal injury was also recovering quickly, which was very comfortable.

"Comfortable..."

Ye Chen can't help but praise it. It's three parts of medicine. It may accumulate drug scale and disease by using elixir. But this tea pool is a pool of tea. Tea is the most healthy and has no side effects.

Up to three days, ye Chen estimates that his state will return to the peak.

In the following time, ye Chen was in the tea pool, constantly recuperating and healing, while the Alsophila tree was in the world of the yellow spring, and its roots quietly extended to every corner of the whole Camellia sea, closely watching the surrounding situation and protecting Ye Chen's Dharma.

Chapter 5778

So after a day, ye Chen's injury has recovered more than half, his strength has also recovered 56%, and his mental state is getting fuller.

"In another two days, you will be completely cured!"

Ye Chen's heart is joyful, looking at the Shencha pool, the pool water is still dark green thick appearance, there is no sign of desalination, visible aura of rich.

"Lord, it seems that someone is coming."

At this time, the Alsophila tree gives out a warning.

"What a coincidence?"

Ye Chen is stunned. No one has been to this Camellia relic for many years. He has been recuperating here for three days. Just one day later, he meets someone. It's a coincidence!

Indistinctly, ye Chen feels that things are not simple.

"Lord, to be on the safe side, we'd better leave first."

Alsophila tree path.

"No! If I go, it will be in vain. "

Ye Chen soaked in the pool water, is the critical moment of healing, if you leave, it will be wasted, and may even be backfired.

The Alsophila tree said, "in case the comer is not good, it will be troublesome."

Ye Chen ponders for a while, way: "I hide first, you conceal breath for me."

Then he bent his knees and lurked under the pool.

The tea pool is not big, but it can accommodate more than four or five people. The water is dark green and thick. As soon as ye Chen reaches the bottom of the water, even if someone comes outside, he can't be seen.

Moreover, ye Chen has a talisman from the Alsophila spinulosa tree in his hand. His breath is perfectly integrated with the pool water. Even if outsiders explore the breath, they can't find him.

Out of caution, the Alsophila spinulosa tree even released a few wisps of roots to cover Ye Chen's breath. In this way, even the late masters of taizhenjing could not detect Ye Chen's location.

For a while, ye Chen hears footsteps coming from outside.

"Miss, do you really want to practice in the tea pool? The elder said that it's very dangerous outside. If you run out secretly, it's likely that something will happen. It's better to wait for the situation to stabilize for another hundred years, and it's not too late to come out. "

"I can't wait. I've caught the secret. Today is the best time for me to make a breakthrough. If I miss it, I'll never get another promotion in my life."

Ye Chen hears two clear female voices, but sees two young girls coming.

He was lurking in the bottom of the water and could not see anything, but the roots of Alsophila tree spread to the whole sea of Camellia. With the smell of Alsophila tree, he could clearly see the scene outside, but before the injury was healed, he could only see the nearby area, and could not see from a distance.

Ye Chen clearly saw that the two girls came closer and looked dressed as masters and servants, one as a daughter, and the other as an ordinary maid.

The girl with the appearance of Miss Qian Jin was wearing a tawny dress. She was delicate and delicate, with creamy skin and graceful figure. Her appearance was extremely delicate, but her eyebrows were slightly frowned, and she seemed to have something on her mind.

She said to the maid next to her, "go back first. I'll stay here to practice. Don't tell anyone that I'm out. In a few days, my cultivation will be complete and I will go home naturally."

The maid's face was embarrassed, but she was helpless and said, "yes!"

Then he turned and left.

The girl in tea was relieved. After the maid left, she looked at the magic tea pool with a little expectation and said to herself, "it's said that the magic tea pool of my mo family was built a hundred years ago, but it's a pity that I haven't had the chance to use it because of the sudden attack of the holy hall. Today is the time for me to enjoy it."

Ye Chen in the bottom of the water, hear that girl's words, in the heart slightly move: "originally this God tea pool, is she Mo family make?"

While thinking about it, I suddenly heard a rustling sound, but it was the girl in tea who took off her clothes and showed her white and tender body, walking towards the Shenchu pool step by step.

Ye Chen suddenly saw her naked body, only felt dizzy for a while, the whole person was stunned.

The girl in tea clothes didn't find Ye Chen. She thought there was no one here. After taking off her clothes, she went to the tea pool and soaked it.

"It's so comfortable..."

A bubble to the pool, the girl can't help but praise a, this Yi Mi voice, Hear ye Chen a little blush.

Ye Chen has the talisman of *Alsophila spinulosa* tree, and the breath is completely integrated with the pool water. Even if the girl is soaked in it, she doesn't find Ye Chen.

Ye Chen is afraid of contact with her body, quietly hide to one side, back close to the pool wall.

Tea pool is not big, two people soak together, there is a risk of contact at any time.

Ye Chen smiles bitterly in his heart. He can only be careful. But the girl's naked body is so close to him that he can even feel the other party's fragrant body temperature.

Originally, the ink in the pool was thick and green, so he decided not to see anything. But ye Chen had a sign of *Alsophila spinulosa* tree, and he could see everything. The water in the pool was almost transparent. He could see every corner of the girl very clearly.

"If we live together for a few days, we won't be found out."

Ye Chen thinks in his heart, seeing the girl's appearance, he seems to want to soak in the magic tea pool for several days. In a few days, he will be found easily. Looking at the girl's cultivation, she is about five days in Taizhen. If she is injured, she may not be the opponent of the other party.

"It's just walking."

Chapter 5779

Ye Chen heart helpless, when this juncture, also can't get away, can only act according to circumstances.

"When Mo Hanxi's accomplishments break through, he can fight against the judgment hall and contribute to the family! My mo family is a family of heavenly monarchs. The tradition lasts for thousands of years, but it can't be planted in the hands of my generation! "

The girl absorbed the aura of the tea pool and whispered to herself. Her words were full of vigor.

When ye Chen heard her, he thought, "this girl's name is mo Hanxi. Is she the daughter of Tianjun family? Does she come here to practice in order to enhance her strength and fight against the holy judgment hall? "

But I don't know what kind of power the judgment hall is.

Two people a bright and a dark, soak in the pool water, ye Chen has no danger, spent a day.

By the next morning, ye Chen felt that his injury had recovered a lot, and his strength had also recovered to 80%. At this time, if he fought with Mo Hanxi again, he would win.

However, ye Chen's injury is still far from recovery. This last point is also the key point. At this juncture, he must not use force. Otherwise, he will have a relapse or even leave sequelae.

So, he didn't act rashly, he still remained latent.

As long as today passes smoothly, he will recover completely.

Just lurking, the Alsophila spinulosa tree suddenly said in a deep voice: "Lord, it's not good. Someone's coming again! How murderous

Ye Chen said, "what?"

The girl named Mo Hanxi also seemed to feel a change. Her pretty face changed, and she said to herself, "Damn, it's from the temple! How did they find it? "

WOW!

Mo Hanxi immediately flew out of the pool and put on his clothes.

As soon as she was dressed, four people came running in.

The four men, all in tight white, each armed with swords, were murderous.

At this time, Mo Hanxi just came out of the pool, such as a beauty bathing, wet hair, full of fragrance, very attractive.

But these four people didn't have the appearance of appreciating at all. Their eyes were only murderous. Looking at Mo Hanxi was like looking at the prey.

"Miss Mo, I have found you. You are so brave. You dare to come out and die."

A man gave a grim smile.

Mo Hanxi looked at the man and said in a deep voice, "Lynch, you are a member of the Lin family. You were born in a royal family. How did you join the ruling temple?"

The man named Lynch laughed and said, "the ruler of the verdict is powerful and invincible. In the great calamity of ancient times, he has eradicated several of the top ten Heavenly Kings in the earth. The rest

of the Lin family, Mo family and Hong family are not his enemies. It's better to surrender early and have a chance of survival than to survive."

Mo Hanxi said: "you traitor! I wish you were a member of Tianjun's family. It's a disgrace to my Tianjun's family! "

Lynch said with a laugh: "those who know current affairs are heroes. I'm just choosing trees. I'll ask you today, are you willing to submit to the judge?"

Mo Hanxi said: "it's impossible to submit to the judge! Unless you kill me

Lynch said with a smile, "if you want to die, it will help you!"

Having said that, Lynch winked at the three companions beside him. The three nodded, and then split into four corners with Lynch and surrounded Mo Hanxi.

"Holy hall sword!"

When the four men were in full swing, Lynch cut them off without saying a word.

The holy light of the sword broke out, and the vast white Shenxia billowed. It was fierce and overbearing. It had the great power of the holy hall in the sky.

The remaining three people are the same tricks, the same is "Shengtang Tiandao", infinite sword power, such as the tide, toward Mo Hanxi blast cut away.

"You Huang sky sword, break it for me!"

Mo Hanxi saw the other side's sword was fierce, so he quickly pulled out a long sword and waved it out.

Her long sword is as white as ice and snow. As soon as the power of the sword is aroused, there will be ice and snow chills. The weather of frost chills is full of air, and the cry of Phoenix Qingyue resounds through the sky.

With a sword in her hand, she looks like a snow fairy with thousands of birds flying towards her.

Ding Ding Ding!

With the sound of a dense sword fight, Mo Hanxi's long sword collided with the four of Lynch, and the four of Lynch were shaken back by the roar of the sword.

"You Huang? The remnant sword of Binghuang sky sword? Did the Mo family give you this sword? "

Lynch stares at the sword in Mo Hanxi's hand, looking surprised.

Mo Hanxi took a deep breath for a while, but did not answer. She had just pushed back the four people with one sword. She had already used all her strength. She was shocked by the knife Qi, and her viscera vibrated. Her face turned pale. It was really not easy.

When Ye Chen saw the sword in Mo Hanxi's hand, he was also surprised: "this sword has the breath of supreme Heaven Sword, but the sword spirit is not pure. Is it the remnant sword of Binghuang Heaven Sword?"

Binghuang Sky Sword is a weapon in the hands of the heavenly daughter. When the ancestor of the sword God built this sword, it seemed that there were surplus materials left. In fact, this sword is a weapon made of the leftover materials. Although it can't be compared with the real sword, it has a sharp cutting edge and can be regarded as a "fake sword".

I think the inscription on the stone tablet of Shencha pool is also carved with this youhuang Tianjian.

"Haha, it's a pity that you are weak today. Even if you have a fake Tianjian in your hand, you will die. This youhuang Tianjian belongs to our holy hall!"

Lynch sneered and saw Mo Hanxi's weakness.

If you fight alone, Mo Hanxi may not be able to compete with youhuang Tianjian.

But now, there are four people on his side, and Mo Hanxi has only one. We can see the outcome at a glance.

"End the battle! Use the seventy-two heavenly array to suppress this girl! "

Lynch suddenly drank, his eyes were fierce, and when he stepped on his feet, there was a ray of light.

The other three are doing the same thing.

The four quickly formed an array, which was bright and full of the breath of the world.

This array seems to be able to judge people's life and death. Its momentum is very severe. It is called "ruling 72 heaven array". It needs 72 people to form an array to achieve its maximum power.

There are only four people on Lynch's side. Naturally, he can't play the peak power of Tianzhen, but he is more than enough to deal with Mo Hanxi.

The four men formed a big circle and killed Mo Hanxi.

All of a sudden, Mo Hanxi only felt the tremendous pressure, as if his life and death fate were to be judged, and even it became difficult to look up and breathe.

"Seventy two days? This array is so familiar! Is it the source of justice

Ye Chen looked at the array, and caught a very familiar breath, which was similar to gongyefeng's trial method.

It is said that the source of the breath of taishangdao is probably this divine power of judgment.

"What is the origin of the judge?"

Chapter 5780

Ye Chen guesses in his heart that the big man behind them seems to be the master of the verdict, and even creates the ancient catastrophe to destroy many families of heavenly kings.

You should know that the supreme emperor was born in the Tianjun family. It is protected by great fortune. It is an eternal existence, and it can be wiped out. If this is true, the judge is really powerful.

"You Huang flies to the sky, ten thousand swords belong to the clan!"

Mo Hanxi was besieged by the great array. As soon as he died, all his aura was infused into youhuang's Sky Sword. With a soft drink, youhuang's Sky Sword broke out cold and cold. Under the rolling air of the sword, it turned into thousands of ice and snow youhuang. They flapped their wings and flew into the sky, releasing the terrible cold air, fighting against the tianarray ruled by Lynch and others.

Jianhuang and Dao array collide violently.

All of a sudden, thousands of swords cut each other, and the air roared through the sky.

Mo Hanxi's chest clothes were torn by the knife gas, and he was injured immediately. The blood flowed out, and his face became more and more pale. Looking at her appearance, it was obvious that she would not last long.

"Hahaha, brothers, kill her! She is the daughter of the Mo family. As long as you kill her, you will greatly defeat the spirit of the Mo family! "

Lynch laughs wildly, and his array moves to the extreme. He makes a series of attacks without any pity. He just wants to kill Mo Hanxi immediately.

Mo Hanxi, under the oppression of the four, had reached a very dangerous point of life and death. He could only keep dancing youhuang's sword and barely resist.

With the collision of swords and swords, countless swords and swords were killed everywhere. Every Camellia was destroyed, and even a stream of swords and swords roared into the tea pool.

"No!"

Ye Chen's face suddenly changes, he lurks under the pool water, this innumerable sword air current cuts to kill to fall, can hard he.

"Wu Tu Yuan Fu, Yu!"

Ye Chen has no choice but to use Wu Tu Yuan Fu to resist.

"Well? There's someone in the pool! Somebody, get out of here! "

Lynch's eyes suddenly burst out, staring at the tea pool.

Ye Chen uses Wu Tu Yuan Fu, but it leaks his breath and arouses his vigilance.

The other three disciples were also on guard and immediately stepped back.

Mo Hanxi's pressure suddenly relaxed and breathed a few times. Her beautiful eyes looked to the Shenchu pool and caught a trace of aura.

"Is there someone in the pool? I've been soaking all day. Why didn't I find out? "

Mo Hanxi's hands are full of doubts.

And ye Chen in the pool, seeing that he was found, can't help biting his teeth. At this juncture, he can't hide any more.

WOW!

In desperation, ye Chen flies up, breaks through the water, comes out from the tea pool, and stands beside Mo Hanxi.

"Who are you?"

Mo Hanxi stares big eyes and looks at Ye Chen in amazement. Unexpectedly, a man suddenly runs out of the pool.

She's been in the pool all day, naked and naked. Isn't that the man has seen everything?

At the thought of this, Mo Hanxi's face flushed with shame and his heart pounded with shame.

"It turned out to be a waste from the original place, even with injuries."

When Lynch saw Ye Chen's breath, it turned out that he had only the origin, and even had the injury. He was a mole ant, not afraid.

All of a sudden, his mood relaxed.

Mo Hanxi silver teeth a bite, also don't know who ye Chen is, but see ye Chen's breath so weak, obviously can't help her what.

"Kill them all! Don't let go of one

Lynch stops drinking. He just wants to get rid of the roots. He decides that the sky array will break out again, and the endless sword gas will sweep through the sky and kill Ye Chen and Mo Hanxi.

Mo Hanxi tries to wave youhuang's Sky Sword to resist, but he is already in a terrible predicament. He doesn't know how many wounds he has been torn out.

Ye Chen's face is also rather ugly. His injury has not fully recovered, and now is the most important moment. If he starts at random, he will definitely lead to internal injury. If he doesn't say what he has done before, he will even be killed.

"When the rain against the charm, swamp devour!"

In the crisis, ye Chen can only use some simple magic weapon means to release the rain against the talisman. The light urges him to create a swamp of mud. He wants to drag Lynch and others and then wait for an opportunity to escape.

However, Lynch and others formed a ruling array. In this array, their spirit was extremely sharp. When they noticed Ye Chen's action, they were immediately alert.

At the same time, the four people jumped up to avoid the swamp.

"Hey, hey, a mole ant, do you want to sneak attack with this kind of dirty means?"

With a cold smile and a concussion of aura, Lynch immediately destroys all the swamp mud and cuts Ye Chen's neck.

Ye Chen's situation, suddenly very critical, he clenched his teeth, clenched his fist, is ready to ignore the injury backfire, direct outbreak.

"Boy, don't be impulsive!" "If you make a rash move, you will definitely lead to internal injuries and leave sequelae."

"I can lend it to you!"

At this time, the spirit of Shenyin jade pendant made a sound to communicate with Ye Chen.

Ye Chen heart a joy, way: "elder, you are willing to lend me?"
