Chapter 6781

When the figure spoke, he couldn't see his facial expression clearly, but ye Chen could guess that his expression at this time might be like a smile.

"Just one sword, I don't know if you dare to bet."

Ye Chen's words were arrogant and domineering, even with a strong sense of provocation. Sure enough, the figure was also a very proud existence. He immediately snorted coldly and should make the bet.

"Why not?"

"OK, then you and I will make a bet. If you lose, tell me all the secrets you know about the xuanzun gate, and don't disclose them to others."

"What if you lose?" The figure's blue eyes looked at Ye Chen, no longer as casual as before.

"If I lose, I'll give you this sword as the treasure of the town."

Ye Chen summoned the Longyuan Heavenly Sword. Even in the deep cold lake, the Longyuan Heavenly Sword still exudes a chilling cold.

"OK."

The figure stared at Longyuan Tianjian for a long time. He knew that it was one of the eight Tianjian, and the cause and effect on it was extremely terrible. He showed a satisfied smile.

Immediately, the water sword around him trembled violently, as if laughing at Ye Chen's overestimation.

"It seems that we have to rely on the power of burying Stardust with snow."

Ye Chen thought of this in his heart and began to mobilize the snow to bury the stars. The faint light wandered in the water and attached to the bloody Longyuan sky sword. For a moment, the blood red light emitted by the Longyuan Sky Sword became extremely bright. However, because of the protection of the sword array in the water, the people on the lake could not see this scene.

Ye Chen raised the Longyuan Heavenly Sword and pointed to the figure from a distance. He looked serious, and a touch of bright red blood appeared in his pupils.

WOW!

The starlight and the water at the bottom of the lake are integrated, as if they have become an endless galaxy on the other side of the universe. Exaggerated vortices have been formed at the bottom of the lake, bursting out majestic energy. At the same time, a palpating force floats out of the vortex.

That power was very weak, but it was like the most effective Fairy Spirit and evil spirit. All entered the Longyuan Tianjian, and immediately showed the rampant scenes of countless demons and evil ways, crying and howling, which was very tragic.

The figure is still light and clear. Although Ye Chen's attack is powerful and powerful, it is still under control and far from meeting the requirements of breaking the array.

When the figure in the sword array was about to divert his attention, suddenly a strong sword light fell from the sky, and ye Chen was singing gently.

"No time and space, give me strength!"

Countless stars and lakes seemed to be frozen, and then went back along the original track. Such a strange scene made the figure very uneasy.

The mysterious no time and space, where no one has ever been, has cracked an almost invisible crack, overflowing a trace of no breath. Just a little bit is terrible, and enters Ye Chen's body along the specified lines.

Driven by this mysterious powerless force, ye Chen's eyes are like a mirror, and his Avenue breath rises into the sky. Even the sword array under the water can't stop it. It seems that there are demons, ghosts, gods, Buddhas and fairies from all over the world!

The blood dragon felt the extreme power of lawlessness and stopped practicing in the sword. His eyes suddenly became red, roared up to the sky and rose. The burst red light penetrated the sky and tore the void. Countless gods and ghosts cried bitterly.

A sudden vision at the bottom of the lake spread all over the sky, and everyone in the courtyard looked into the lake with consternation.

They all stayed on the shore, but why did such changes happen in the lake?

Several people with fairly good strength just wanted to come forward to check, but they were bounced off by an invisible terrorist force. They suddenly vomited blood and fainted, and the whole person's soul was greatly shocked.

Then, both the people at the bottom of the lake and the people on the shore saw a scene they could not forget in their life.

A sword light came from the sky, where the void disappeared, the avenue disintegrated, and everything turned into dust. It seems that this sword light is not from this world, but from a more powerful time and space.

And the source of this sword outbreak is Ye Chen.

The water stop sword is invincible.

The invisible sword light swept across the sky and went straight to the lake. Under the rolling of the sword light, the 10000 swords, which is known as invincible, suddenly disappeared and became invisible. As the soul of the invincible 10000 swords, they were swallowed up by the sword light and could not resist.

Everything outside collapsed, and nothing in the world could stop this endless sword light.

Wuwu's strength even startled many powerful people. They flew up high to check the situation, and their eyes were full of shock.

The bright light from the invisible sword light swallowed the whole courtyard and the lake together. The people who originally stood by the bridge had long been far away from them and stood far away to watch. Even so, when the light broke out, they still covered their eyes.

When they opened their eyes, the whole person was dumbfounded, because there was still half a drop of water in the lake in front of them, which disappeared without a trace, leaving only a dry land, with cracks everywhere, as if it had been dry for a long time.

"This..." many people took a breath.

The area centered on the lake has become a piece of ruins. To be exact, it is a piece of ruins that people can't get close to. The sky and the earth have collapsed, and all the buildings have turned into dust, sweeping the whole courtyard like chaos.

In other words, it almost caused a sensational effect. If the Lord of the eternal temple had not laid many defensive prohibitions, I'm afraid this terrible storm would spread to the whole Changsheng island.

Even so, the breath of nothingness still spread out and broke the shackles of the forbidden array, which frightened and trembled the whole world. The earth thousands of miles away began to crack, and one crisscross crack after another appeared, emitting endless molten flames.

In the deepest part of the eternal temple, a figure rose into the sky, stared at the direction of the courtyard, waved his hand, and randomly arranged two large arrays to cover up all the breath there to prevent others from noticing.

From now on, the old guys in the deepest conference hall haven't noticed yet.

"The extreme of Kendo... It's like this. I can find the secret at the bottom of the lake. Hehe, it seems that Yaqing won't suffer if she marries you."

Nangong asked Heaven softly, then disappeared and returned to the eternal hall.

.....

.....

At the same time, an area full of darkness and blood, like hell.

Void fluctuations.

A figure came tearing.

His appearance, like a light, shines on this land!

In the dark world, a blood moon appeared on the sky!

Chapter 6782

The scarlet blood moon seems to bring a trace of temperature here.

Ren Feifei seemed to find something in the void. Looking in one direction, he murmured, "this boy has peeped into nothingness again in the eternal void? I don't know whether this is a good thing or a bad thing. Just, let's solve the immediate problem first. "

He glanced around and found that this place had become a ruins. The key was that the ruins were even contaminated with the blood of countless creatures.

Although the world of martial arts is cruel, what happened here seems to be a nightmare.

Ren Feifan has been here many times, even with the Lord of reincarnation of the previous life.

At the beginning, it was warm, peaceful, and guarded one thing. It was a group of well intentioned practitioners.

It is because the outside world is too complex that they choose to stay here forever.

However, some people don't want to stay here all the time. A young warrior broke the rules here and left here regardless of the void and turbulence.

After the young warrior left, Ren Fanfan was asked for help by the people here to find him.

But somehow, the man's news seemed to sink into the sea.

Ren Fanfan knows that there is the same existence as him, masking each other's cause and effect.

No day? Feather emperor? Heavenly daughter? Or other strong people?

Ren extraordinary is not sure, but when he came here today, he knew that something really happened.

I'm afraid it was the young man who left here who revealed the cause and effect of this place that led to the destruction of this world and the loss of life.

Ren Feifan's blood moon was extremely scarlet, which was a sign of his anger.

Although he refined the half of the snow buried stars, the Tao heart is like an ancient well, but this hometown, whether for him or Ye Chen, is an indispensable part of his memory.

Now, this part is destroyed.

Ren Feifan closes his eyes and lets go of his perception, but there is no vitality here.

Even the guard array is broken. Obviously, the presence here is extremely terrible.

"If ye Chen ascends to the top and controls the real mystery of reincarnation, I will let him revive you."

Ren Feifan sighed and finally walked in one direction.

Soon, Ren extraordinary came to a huge altar.

The altar seemed to be cut off by a sword. The huge area was divided into two, and even white bones and blood were everywhere.

Obviously, those people were still guarding here until the end.

But it backfired.

Ren Feifan shook his head, stretched out his hand, pinched his fingers, and his thin lips were talking.

In an instant, the altar, which was divided into two halves, shook. At the same time, a ladder appeared at the bottom of the earth.

Under the stairs, it was very dark. I didn't know where to go.

Ren Feifan felt it and found that even his divine consciousness could not be explored. He no longer hesitated and went to the dark step by step.

"I hope that thing is still there. If it really disappears, I'm afraid Ye Chen will have a headache in the future."

Ren extraordinary's figure completely disappeared into the darkness, and the altar slowly closed and returned to its original appearance.

White bones, blood still exists.

.....

Ren Feifan stepped into the underground stairs, and the blood moon in his pupil flowed rapidly, which seemed to give him a bad hunch.

"Although the Lord of reincarnation and I stepped here many times, we never arrived here."

"I only know that such things are suppressed and guarded here."

"I'm afraid it's also because of this that those people were destroyed."

"I thought the secret here had been opened by the strong man. Now it seems that no one has come here for a long time."

"Is it still there?"

Ren Feifan said faintly in his heart.

At his level, he is rarely interested in some things. For the same thing, he is still looking for the snow buried star in the lost time and space with Ye Chen.

But now, the secret buried underground actually interests Ren extraordinary more than the snow buried stars.

The last step to the bottom of the earth was stepped by Ren Feifan. Ren Feifan found himself in a vast land.

The next second, with a wave of Ren extraordinary's big hand, a red flame rushed into the sky, and the whole world seemed to be lit up.

When Ren Feifan sees everything here, his pupils dilate slightly.

What he saw was a mountain and a river!

Towering peaks, boundless lakes, and pavilions and pavilions are full of eyes.

Ren extraordinary's eyes coagulated and said unexpectedly, "it seems that the secret they have been guarding is buried here."

"Although no one has stepped into it from the outside for many years, there are a lot of vitality here."

"Perhaps this is their last pure land."

"Fortunately, the traitor doesn't know the secret here at all, otherwise it will be directly deprived by the traitor."

"It's just that until the last moment of their life, they still didn't give in and tell the secret here."

"Is this the cause or the effect?"

Ren Feifan sighed, then took out a sword from behind, stepped out in one step, and the void shook. He was suspended on this world!

The fire of the sky that he displayed was also completely extinguished.

Ren extraordinary holds a long sword and cuts it out with one sword!

It's like the beginning of the world!

The dazzling sword light turned into a red sun.

This seems to be the sunrise, as if it adds life to the world!

The sword light and the sun hung in the sky, Ren nodded with great satisfaction, and then came down from a height of 10000 meters and fell on this landscape.

He felt it slightly and found that there was a place in the landscape that had a strong restraining force.

I'm afraid this is the secret.

Chapter 6783

He looked at a place with his hands behind him and said faintly, "I have known each other for hundreds of thousands of years. Today, Ren extraordinary promised you that I would guard this secret and prevent it from falling into the hands of outsiders."

"The world you expect, the Lord of reincarnation and I will build it ourselves."

"Anyone who obstructs will become the soul under my sword."

With that, Ren extraordinary went to the depths.

Although the void rules here did not affect him, he could tear the void to arrive at will, but he did not do so.

But step by step, like a devout mortal, slowly approaching the gods.

Half an hour.

Ren Feifan finally arrived.

A huge stone tablet hung in front of him.

The stone tablet is dark, with a few red words on it.

"Who is the peak at the end of samsara, and the blood moon in the sky is empty."

Blood moon?

Ren extraordinary's eyes are slightly narrowed. He is a little surprised. The cause and effect here seems to be really related to himself.

It also has something to do with Ye Chen.

Ye Chen represents the word samsara, and the blood moon represents itself.

Literally, who is the most dazzling existence at the end of samsara.

This is Ye Chen naturally.

Ren Feifan firmly believes that ye Chen's potential is beyond any era of history, even beyond himself.

He must be the most dazzling existence and eventually become the highest peak in the world.

But why does the latter sentence say that the way of blood moon has become empty?

What does this imply?

Or is your understanding wrong?

Does emptiness mean no world?

Will his blood moon guide him into nothingness?

Like that Hongjun and Wuzu?

Let extraordinary think for a few seconds, but there is still no result.

He no longer hesitated, stretched out his hand and said, "Ren extraordinary, I've seen your predecessors."

He said to the stone tablet. Ren Feifan could feel that the stone tablet existed for a very long time, even far beyond Ren's ancestors.

The stone tablet seemed to hear Ren extraordinary words, vibrated slightly, and emitted a faint blue light.

Then, an ancient and distant voice suddenly sounded: "Ren boy, long time no see."

Ren extraordinary was stunned. He arched his hands and said, "senior, have we met?"

The stone tablet smiled quite heartily: "it's not what you think. My master has seen you and the reincarnation Lord of the previous life somewhere."

"He once told me that there are ten people in this world who can reach the ultimate place of martial arts."

"And you and the Lord of reincarnation are just two of them."

When Ren Feifan heard this sentence, he was calm, but he still had many doubts. He said, "who are the other eight? "Wu Tian, the emperor, the emperor?"

The stone tablet smiled and said, "no, but there are a few people left. There are too many secrets and causes and consequences. If I reveal them, I'm afraid the world will collapse."

Ren Feifan didn't continue to inquire, and said, "elder, what secret are you guarding here?"

"Now the outside world has been destroyed, and those guardians have fallen one after another..."

Before Ren extraordinary words finished, he was interrupted by the stone tablet: "Ren boy, I know what you want to say. There are things that belong to you here, not only those that belong to you, but also those that belong to the Lord of reincarnation."

"In fact, both the people outside and the world are just pieces on a chessboard. Their death can be regarded as the completion of their mission, and your appearance is also the cause and effect of this chessboard."

Ren Feifan was surprised and said faintly, "I don't like to be a chess piece."

The ancient voice of the stone tablet came again: "my words just say that they are chess pieces, and you, and the Lord of reincarnation, are not."

"Your choice determines the future of the world. If you are evil, it is evil. If you are good, it is good. Do you understand?"

Ren Feifan shook his head: "I don't understand."

The stone tablet sighed and said, "don't understand. Since you're here, come with me."

The words fell, and the stone tablet turned into a huge gate.

Ren Feifan didn't say much anymore. His hands were behind him, so he stepped into the big door.

He knows very well that the cause and effect there may be related to the second half of the sentence.

The blood moon in the sky is empty.

.....

The picture turns, the eternal void, the eternal temple.

Outside the courtyard, many talented people and beauties gathered together and stared curiously at the man at the bottom of the lake.

Ye Chen opened his eyes. He had used every sword. When the sky fell apart, his spiritual world suddenly opened up.

Thousands of meters away, Nangong Yaqing retreated to a far place. Her beautiful eyes coagulated slightly. She sensed the movement at the bottom of the lake, but she didn't expect to be so strong.

For several years, no one can crack this sword array, but now just a few days, a boy who didn't even know broke into it and cracked it.

Is this a coincidence, or is it God's will?

Nangong Yaqing's mood fluctuates and her thoughts are uncertain. After all, the eternal temple has already made a commitment. As long as anyone can break the invincible sword array, he is qualified to marry her.

Ye Chen came up from the bottom of the lake. He photographed the water stains. He received the last thought in his mind, which was left to him by the guardian spirit of the sword array.

The location of xuanzun's gate! In the deepest part of the eternal temple.

"The spirit of this sword array is more trustworthy than human beings."

Ye Chen couldn't help sighing. At the same time, he thought of the white bone elder in the temple. He kept his promise and did his best for mankind. In the end, he was overcast by mankind and locked in the temple. He could never surpass life.

When he came to the shore, he arched his hands at the people and said calmly, "please don't be surprised. I just passed by here and saw the sword array at the bottom of the lake. I wanted to explore one or two. I just cracked it inadvertently. I had no other intention."

But he found that those people looked at him very strangely.

Isn't this sword array an extremely secret existence that can't be destroyed? Ye Chen's heart clicked. He wanted to keep a low profile. Unexpectedly, he noticed the smell of xuanzun's door. Without thinking much, he dived into the bottom of the lake.

"The boy's strength has not entered the hundred yoke state, how can he break the sword array? He must have used other cheating means!"

Zhang Taoling was the first to oppose Nangong Yaqing. He was determined to win it and would never allow others to rob it.

Li Wei, who had never dealt with Zhang Taoling, nodded at this time: "I also think there are many strange things about this matter. Although the eternal Temple shows that as long as you can break this array, you can marry Miss Yaqing, but on the premise of fairness and justice, not opportunism."

"My young master also agrees. I don't know where this boy comes from. He actually wants to marry Miss Yaqing."

"....."

A group of eternal and empty young talents opened their mouths to express their dissatisfaction, and their eyes at Ye Chen were extremely unfriendly.

When ye Chen heard their remarks, he was stunned and woke up. It turned out that he had broken the sword array, but he still had such conditions.

Chapter 6784

"No, I think you think too much. The reason why I broke this sword array is not who I came for, nor who I am interested in marrying. "

Ye Chen shook her head and said something that stunned everyone else.

He turned and walked in the other direction, but he didn't want to stay here. Since he had detected the breath of xuanzun's door, the next step was to find a channel into the depths of the eternal temple.

But just as he was about to step out of the courtyard, a beautiful voice sounded behind him.

"Who allowed you to go?"

When he looked back, he was a beautiful woman in a red dress. He looked forward to the city and the country. His eyebrows and eyes had a very beautiful charm. It was not too much to be called a fairy in the world.

Although the woman is beautiful, ye Chen's eyes are very plain. After all, he has seen too many beauties. Not to mention the beautiful and lovely Shen Tu Wan'er and the heroic Ji Siqing, Xuan Hanyu and Xia Ruoxue are fairies in the sky. They are so beautiful that people can't open their eyes.

Even Xuanji moon is actually beautiful.

Nangong Yaqing also noticed Ye Chen's eyes. They were calm and flattered. Seeing themselves, they were very plain. Unlike other child brothers, they showed their crazy eyes at a glance.

"Who are you? Why haven't I seen you before?" Nangong Yaqing asked.

Ye Chen replied, "I'm just a casual practitioner. Follow the elders I met on the road to come here and broaden my horizons."

"Really? Then tell me how you broke the sword array at the bottom of the lake." Nangong Yaqing was very curious. She took the initiative to get close to Ye Chen, and the curling aroma floated over her.

He could feel that the strength of the woman in front of him was not weak. After pondering for a long time, he said, "when I wandered in the eternal void, I accidentally got a sword manual. I can only read it and can't take it away. I wandered along with the sword manual for 77, 49 days and learned a sword move. I didn't expect to succeed in today's experiment."

Nangong Yaqing was quite speechless when she heard the speech. She looked at Ye Chen carefully and couldn't see anything.

"If this girl has nothing else to do, I'll leave first."

Ye Chen hurried away, but Nangong Yaqing flashed and stopped in front of him.

Her father once told her that the person who can break this sword array is not due to luck, but his own sword strength has reached the peak. He is a peak genius once in thousands of years.

Leave it, and the future will be the top giant of the eternal temple.

Nangong Yaqing bit her teeth and opened her red lips: "since you have broken the sword array, you should keep your promise and marry me."

As soon as she said this, the others were not calm, and their faces changed one after another.

"Miss Yaqing, think twice! This boy is a weak chicken. He doesn't deserve you at all. "

"Yes, Miss Yaqing, you must not be confused."

"....."

Facing the noise around, Nangong Yaqing seems very calm.

"This sword array was made by my father. If you refuse me, you will refuse his request."

Nangong Yaqing continued, but soon her look became strange, because ye Chen's expression was still stunned, as if she didn't know who her father was.

"My father is Nangong Wentian, the Lord of the eternal temple." Nangong Yaqing couldn't help saying.

Ye Chen suddenly realized that he looked at Nangong Yaqing more, and immediately thought of what she had said before. The person who broke the sword array was going to marry her.

He didn't come here to get a wife! But to explore the whereabouts of the gate of xuanzun.

Moreover, he had no interest in the daughter of the temple Lord.

He doesn't want to be tainted with the cause and effect of eternal empty women.

"Miss Nangong, you and I have never known each other. Is there anything wrong with mentioning this engagement when you come? I think it's better to think about it first. Goodbye. "

Ye Chen doesn't want to be entangled by women at the critical time, otherwise she will be infected with more right and wrong.

His move made many child brothers present silly. In the eternal void, which young talent did not love Nangong Yaqing?

But when I came to him, I became unable to avoid it for fear of being contaminated with cause and effect.

As soon as Nangong Yaqing heard this, she was unhappy, and her pretty little face sank.

"If you dare to go today, you can't think of this Changsheng island!" Nangong Yaqing has a pretty face and a cold tone. As the supreme Princess of the eternal temple, she was rejected by an unknown boy today.

With her temperament, this is absolutely unbearable.

As soon as Nangong Yaqing's voice fell, several bodyguards in black armor came nearby and blocked Ye Chen's escape route.

Ye Chen almost wants to cry without tears. If he were normal, he would be furious, but the other party is a woman, and breaking the sword array has a promise first, but he doesn't know.

Nangong Yaqing looked at Ye Chen carefully and found that although the face in front of her was indifferent, her spirit was very high, and she was covered with a layer of mist that she couldn't see through.

For many years, no one can break the sword array at the bottom of the lake, but ye Chen has solved it today. This person's strength must be extraordinary.

After Nangong Yaqing made up his mind, he no longer hesitated. Those powerful guards also came and shrouded Ye Chen in it.

Facing this situation, ye Chen had to deal with it temporarily.

Nangong Yaqing's face eased.

Chapter 6785

However, at this time, someone who disagreed stood up. He was a core disciple of the eternal void power. He became famous when he was young and had extraordinary strength. He was also one of the important pursuers of Nangong Yaqing.

"Are you a lowly mole ant who doesn't even know Miss Yaqing's identity worthy of marriage? I'm afraid you broke the sword array by using some invisible means. "

The Tianjiao looked cold and his eyes towards Ye Chen were very unfriendly. When he spoke, his whole body was covered with black light. It is said that the Tianjiao boy had the eternal power of darkness, which was a wisp of meager power from the crack of time and space.

But it was this tiny ray of darkness that made this arrogant father a strong generation of eternal vanity, personally founded a first-class force and awed all sides.

"Let you try my black mountain sword today! A sword will break your disguise as a cheater. "

The dark light in the eyes of this Tianjiao flows, and one deep black hole after another appears beside him. It seems that he has a strange magic to suck all the sun, moon and stars into it and grind them into pieces.

The rest were thrilled.

This Tianjiao's strength has reached seven levels in the hundred yoke realm, which can be regarded as the top talent, none of them.

However, ye Chen was not half alarmed in the face of such a black hole vortex, but a disdainful smile.

His smile made the Tianjiao extremely angry. All the more than ten empty black holes around him entered the pure black sword, and then a black dragon emitting dark light rose into the sky and soared up, as if to pierce the sky.

He must give ye Chen some color to see and let him know what is the real top genius.

The black light on his body surface suddenly flourished, and countless cruel breath rushed out of his heavenly spirit cave, giving birth to the terrible smell of the black dragon.

For a moment, the black dragon tore the sky and broke the void, like entering a no man's land.

In the eyes of others, this man is worthy of being a demon. He is really gifted.

Compared with the black dragon, ye Chen, who formed a strong contrast, yawned impatiently and threw out the Longyuan Heavenly Sword in his hand.

The blood dragon was full of energy at this time. He didn't need Ye Chen to inject the power of reincarnation blood, so he manipulated the Longyuan Heavenly Sword to fly straight up, and the blood gas surged out.

In his eyes, the illusory black dragon is just a superficial one.

The violent blood dragon virtual shadow instantly suppressed the mighty black dragon, and the blood dragon hidden in the Longyuan Sky Sword directly collided with it and cut the black dragon in half.

The Tianjiao vomited blood and retreated wildly, and his eyes were terrified.

In any case, he didn't expect that he would be defeated by an active sword, and it seemed that ye Chen didn't use much strength.

"If you want to fight me, you're a little short of fire."

Ye Chen shook his head and stretched out his hand. Longyuan Tianjian automatically returned to his hand and converged all the sword edges in a moment.

This scene fell into the hands of Nangong Yaqing, which ignited the long-standing surprise and shock in her eyes.

This guy doesn't seem as simple as he looks.

"Childe Zhang and childe Li, you can't blame me. This is my father's promise to stay. Whoever can break it will get a reward."

Nangong Yaqing voiced to the two strongest people present. Her tone was extremely wronged. She decided to add fuel to the fire and see ye Chen's real strength.

Two top-level childe brothers of the eternal void look at each other. They are all smart people. How can they not know that Nangong Yaqing is not too big to watch the excitement. But they have been looking for Nangong Yaqing for so long. How can they give up now.

"Boy, if you can take my sword, I won't say anything."

Li Wei took the lead, his eyes were sharp and sharp, and half of the sword was pulled out. The rippling sword body contained some very mysterious sword potential. At the moment of complete extraction, it seemed to tear everything apart, and the invisible momentum rose into the sky, causing the turbulence of the sun, moon and stars.

The eyes of the people couldn't help but shine.

This son of Li Wei is worthy of being a young leader of Kendo in the eternal void today. His sword skill is superb.

However, after he appeared, his cool and handsome face became chilly. The smoothness and brilliance of the Kendo rose and fell darkly. He carried a fierce killing opportunity and instantly surrounded Ye Chen's position. The sword light was shrouded layer by layer and surging.

After him, Zhang Taoling also made a move. They seemed to have agreed in advance. One before and one after, they formed a joint move in the blink of an eye.

"Take his sword and try my sword again."

He also took out his magic sword and seamlessly connected with Li Wei. The fire phoenix spread its wings again. Countless bear lights and flames filled the world, as if to burn the island.

The childe next to them quickly backed away. They were so burned that they couldn't stand the spirit and felt life and death.

"I'm afraid no young cultivator can take these two swords in the eternal void!"

"Poor fellow, this time I stepped on the iron plate. Childe Zhang Taoling and childe Li Wei obviously wanted to kill him on the spot without leaving any room."

"Hehe, let's just watch a joke. Miss Yaqing will eventually choose one of the two."

“.....”

Everyone talked as if the end had been decided.

Ye Chen has a panoramic view of all this. Their sword moves seem to be deep into the sky and earth, extremely magnificent, but they fall into Ye Chen's eyes, but they are full of loopholes.

"Is this the strength of the sword practitioners of the eternal void?"

Ye Chen's mouth gave a sneer, and the Longyuan Heavenly Sword he took back burst into a holy golden light again.

In the blink of an eye, the Longyuan Heavenly Sword turned into a golden streamer, penetrated the sky with a lightning speed, and smashed the sword moves offered by the two people one after another.

The cold storm broke into pieces, and the fire phoenix was torn apart.

The Longyuan Heavenly Sword was still intact. Looking again, it returned to Ye Chen.

Chapter 6786

The two men's sword moves were broken one after another, and they were even more embarrassed. Their faces were more ugly than pig liver.

Some people didn't react. They looked at Ye Chen in the field and put away his sword.

Then they were startled.

A stone stirs up thousands of waves.

The two child brothers, known as the peerless double pride in the eternal void, were defeated by Ye Chen with a sword, and they still took a very understatement attitude.

How terrible this boy's Kendo should be!

Li Wei leaned against a pavilion, panting. There was a thin blood mark on his arm, which just rubbed the surface of his skin.

But Li Wei knew that death had enveloped him at that moment.

If it hadn't been for the space talisman, I'm afraid he would be a different place now.

The sudden sword light is too terrible and contains the boundless sword potential. It seems to come from another time and space and strongly crush the Kendo rules here.

This man is by no means an eternal void aborigine. Is he from the supreme world?

He knows that although his realm is far beyond Ye Chen, most of his strength comes from kendo. If he meets the existence of Kendo against the sky and his cultivation is lower than his own, he can't fight each other.

On the other side, Zhang Taoling also suffered some scratches.

He looked down at his split tiger mouth, and his eyes glittered with strong hatred.

Since Zhang Jia came out, he hasn't suffered a loss in anyone's hand, but he has fallen on an unknown pawn.

"Boy, in that case, don't blame me for being rude."

Zhang Taoling's arm poured out a strange force to heal the wound on his tiger's mouth and restore it as before. This magical light of light red is the power of the Phoenix.

It was precisely because he understood the power of the Phoenix and refined it that he became the basis for the operation of the nine sky star beads.

He will never lose to Ye Chen.

The Phoenix power suddenly became extremely strong. It wound around the sword along Zhang Taoling's arm and stirred and opened. The hot light burned the air and danced along Zhang Taoling.

Zhang Taoling's sword came out again. This time, the fiery Phoenix's divine power burst out a towering sword spirit and cut away along a straight line. Unexpectedly, it cut out cracks in the thousands of miles of space and even the chaos in the depths of the void.

People were surprised. What Zhang Taoling used was the unique skill of the Zhang family, which only passed on to the future young patriarch: Phoenix divine fire sword.

This is an ancient boundless sword posture. It rolled up a storm that amazed all the sky. The boundless sword Qi locked Ye Chen.

The overwhelming red light, like a flame burning the earth, instantly condensed into a volcano, erupted suddenly, and rushed towards Ye Chen with the killing intention of destroying the sky and the earth.

In the extreme flame light, a fire phoenix close to the condensation shape issued a crow, and the clear voice of the king shocked everyone.

It was another thrill when they saw it.

Zhang Taoling is worthy of being the ultimate genius of the eternal void. Under the extreme anger, he actually realized the true meaning of the Phoenix divine fire sword and condensed a nearly formed Phoenix.

If the Phoenix can be summoned to the size of Kunpeng, it may trigger a vision of heaven and earth and awaken the real Phoenix sleeping in the depths of ancient time and space.

In that way, with the help of the ancient divine beast fire phoenix, Zhangjia can completely become a well deserved overlord of the eternal void.

Zhang Taoling was also extremely excited at this time, and his eyes were burning with war.

He hasn't condensed a complete fire phoenix for many years. He didn't expect to succeed in a try today.

He would like to thank Ye Chen.

Only this amazing Kendo genius can inspire the most terrible power in his body!

The unique boundless breath spread all over the four fields, and even the strong of the temple on Changsheng island felt it.

Even Nangong Yaqing saw it, and a different color flashed in her eyes. She couldn't help frowning.

Zhang Taoling summoned the fire phoenix, which is not a good thing for their eternal temple.

In that way, Zhang Jia, who has been suppressed by the eternal temple, has hope to become the first.

At this time, many childe brothers have cheered. In their eyes, this sword contains the mysterious power of the ancient fire phoenix, which ye Chen can't stop at all.

Some people were afraid of the power of this sword. Their looks changed. They hurried away, or made a seal with their hands, urged the formula, and laid a light array to protect themselves.

In this regard, ye Chen didn't seem too alarmed. He turned his wrist, and the Longyuan Heavenly Sword burst into red light again.

"Do you think this trick is still useful to me?"

Zhang Taoling laughed grimly. From the bright side, his fire phoenix obviously suppressed the sword Qi of Longyuan Tianjian. Ye Chen's move is tantamount to hitting stone with an egg.

However, ye Chen heard a clicking sound all over him.

The sword in his hand was ordinary, and it was only raised. The surrounding space had begun to fragment, as if it had been collided.

The void storm in the black hole surged into a river, and the strong wind sounded, but ye Chen stood still, as calm as an old monk.

The fire phoenix fluttered its wings made of molten slurry and rolled in with sword Qi. Like lightning, it was about to cut Ye Chen in half.

Some people covered their eyes and dared not look again. They felt that ye Chen would be torn apart at the next moment.

Others are in high spirits. They don't leave their eyes for a moment. They love to see this bloody scene.

The breath of the fire phoenix is ancient and boundless, as if it opened up the wilderness of ancient times. Everything in heaven and earth is used for it, and the power of dragons and elephants is endless.

And even Nangong Yaqing and Li Wei looked dignified. They were absorbed in observing Zhang Taoling's sword, but they were shocked to find that they might not be able to take it.

However, between the electro-optic flint, there are sudden changes.

A very strong and terrible breath rushed out of Ye Chen's body. To be exact, it broke out from the Longyuan Heavenly Sword and passed to Ye Chen's body.

In an instant, the wind and cloud suddenly changed. The sky was originally clear, but the next moment it was covered with dark clouds, lightning and thunder, and torrential rain.

This vision not only appeared over Changsheng Island, but also spread to the eternal city.

Many demon families in the city trembled and fell to the ground weakly, afraid to look up at the sky.

They can feel a kind of fear, which comes from the trembling of the soul and the pressure of blood.

That's the holy Longwei!

The dragon has been the supreme representative since ancient times. The sky dragon once followed Hongjun's ancestors and brought the dragon family to an incomparable brilliant height.

Even later, the dragon family was weak, but every dragon was not so easy to deal with.

At this time, the array guarding the courtyard could not withstand the vibration and was about to collapse.

However, it is far from over.

Chapter 6787

Ye Chen's pupils stretched deep, and there was a terrible light.

That's a shining sword.

Before it came out of its sheath, it had been cold for nine days.

"Array word formula, ten thousand swords for the army."

Ye Chen thought silently, and the next moment, the red dazzling light simply blinded the eyes of the surrounding people.

When they opened their eyes again, they were shocked.

Countless red long swords are suspended in the air, dense and magnificent, like thousands of mountains rising from the ground, forming this square sword array.

The faces of the people around changed again and again.

Where did this man come from?

Only the strength of the etheric realm is so terrible to fight with people.

The supreme dragon power is entrenched in the air, showing the king's posture. The head of the dragon is connected to the sky, the body of the dragon is like a mountain, and the claws carry the earth. The whole world is trembling with endless majesty.

The flaming fire phoenix was not as arrogant as before, but had some anxiety and fear.

Since ancient times, the races of divine beasts have fought wars every hundreds of thousands of years. The dragon and Phoenix are always inseparable old enemies, and hatred has accumulated for thousands of years.

However, in every war, the dragon family basically had the upper hand and trampled the Phoenix family under their feet.

Zhang Taoling was also aware of the fear of the Phoenix's divine power and couldn't help but change his look immediately. He wanted to change his means to protect himself, but it was too late.

The Longyuan Heavenly Sword rotates at a high speed, driving the air flow in the space, leading to countless empty turbulent flows, like mighty rivers running and crossing around.

The mighty rivers condensed into a pouring mouth at the intersection, with fangs, sharp edges and supreme ferocity.

At the same time, in the void not far away, the figure in white robe quietly emerged, but no one could find him.

He is the Lord of the eternal temple. The south palace asks the sky.

He looked at the battlefield with flashing eyes and looked at the dragon and Phoenix who were fighting with interest.

However, when the towering blood dragon showed its fangs, the divine fire phoenix was defeated. The unparalleled sword was swallowed up by the bloody mouth, and the divine fire phoenix's cry spread all over the sky.

The crumbling guard array is now fragmented and completely ineffective. Seeing the bloody dragon light, it will sweep out and crack the buildings on Changsheng island.

A gentle force surged out at the right time, established an invisible barrier, and blocked all the blood light and flame inside.

Everything was so hidden that no one could notice it.

When the ripples caused by the collision between blood light and fire disappeared, the people could only see that the battlefield was incomplete, and Zhang Taoling's figure went deep into the ground, and the ground was cracked one after another.

Ye Chen holds the Longyuan Heavenly Sword and stands on the head of the dragon. He is majestic and invincible.

The bloody dragon shadow under his feet gradually disappeared, and the sun was shining again in the sky. The sun was warm, but it still couldn't dispel the horror among the people.

One sword per person can shake the sky and break the earth.

Such strength can be said to be the first person of today's eternal and empty young generation.

Nangong Yaqing's eyes at Ye Chen have completely changed. She always believes in the respect of the strong. For a long time, the reason why she is alone is not lack of interest, but her eyes are higher than the top. She can't look at the so-called young hero of the eternal void.

In her opinion, these people are just complacent, frogs at the bottom of the well, not to mention how excellent they are. She once followed her father to travel around the world and met many young strong people. Those people are the peerless geniuses in the world.

Today, Nangong Yaqing is excited.

The figure stood there calmly, plain and natural, fearless. Such indifference and boldness stem from the strength of its own strength.

Nangong Yaqing sees the battle just now in her eyes. A strong hunch tells her that ye Chen doesn't use his strongest card at all, even half of his strength.

How terrible is his strength?

The whole audience was silent for half a minute, and then someone reacted. Those who usually have a good relationship with Zhang Taoling hurried to see his injury.

When Zhang Taoling was dug out from the ground, his clothes were broken and he was extremely embarrassed. He was completely unconscious and his breath was disordered. It was obvious that he was seriously injured.

"Does anyone want to try my sword now?"

Ye Chen looked around, but no one dared to look at him.

He has absolute confidence in kendo.

At this time, at the other end of the sky, there was a mighty laugh.

"Young man, just look at my sword."

A man came out from the depths of the clouds. He was dressed in white and had a cool temperament. He laughed and waved his palm. A long silver sword suddenly appeared in front of him. Cangshan is ancient and simple, and the Taoist rhyme flows.

The endless mighty Qi came to my face, deep and incomparable, pulling out the torrent in the void. Everything between heaven and earth seemed to condense on this silver white long sword.

At this moment, great changes have taken place in heaven and earth.

The bright light rises from the silver white sword, dazzling, and the sacred and eternal breath spreads out and gathers under the sky, as if above the stars.

With a loud bang, the bright light suddenly fell from the sky and impressively locked Ye Chen.

Nangong Yaqing hurried forward and shouted a few words, but the towering sword completely drowned her voice.

The rest fled in a hurry, as if they had encountered some terrible monster.

Chapter 6788

Ye Chen frowned and was puzzled.

At this time, the killing move came, and he didn't dare to neglect it. He immediately mobilized the reincarnation blood in his body, turned his pupils into red, and poured boiling power from the palm meridians into the Longyuan Heavenly Sword.

The dragon Yuan Heavenly Sword made a thunderous sound, soared up, and collided with the bright light.

The violent shock wave swept thousands of miles high again, making the people around miserable. Even if they were not injured, the spirit had been shocked by kendo.

His sword player obviously used only the power of restraint and stopped at the last minute. Ye Chen tied with him.

Nevertheless, the man in white still laughed, and his eyes showed his appreciation.

"Good! After breaking the sword array I set up, I was able to take over my move, daytime meteor. Where did you come from? Is there any clan inheritance? If not, join my eternal temple! "

The man's voice was like thunder, and he looked up to the sky and laughed. At a glance, he knew that he was a man of bright character.

After hearing what he said, ye Chen immediately determined his identity.

He is the Lord of the eternal temple.

Although his heart was very depressed, ye Chen still didn't lose his courtesy. He bowed his hands and gave him a respectful title.

He didn't want to expose himself too early and attract too much attention, but he had to go on with it.

Nangong Yaqing came over with a small mouth and a strange look in her eyes.

"Dad, your sudden sword move startled me."

"Next time Dad won't scare you so much."

Nangong asked Heaven with a smile. In front of his daughter, he didn't see the momentum of the Lord of the eternal temple.

Ye Chen stood by, quite at a loss.

"Good boy, don't be so outspoken. You'll be the son-in-law of the eternal temple in the future. You have to be nice to my daughter, or I can't spare you."

Nangong asked Heaven, which made Ye Chen cry and laugh. He didn't want to be a son-in-law, let alone have too much entanglement with this woman, but Nangong asked Heaven also made Nangong Yaqin blush. This red is all kinds of customs, which is particularly addictive.

Unfortunately, such scenery already belongs to others.

Many child brothers feel sorry, but they dare not show it on the face, because there is a peerless God of murder standing in front of them.

Although Nangong Wentian seems easygoing and cheerful, he is always known for his determination and ruthlessness.

In the years when the eternal Temple dominated the eternal void, Nangong Wentian's hands were stained with how much blood and stepped on the dead bones of countless enemies to ascend the throne. How could such characters be simple in mind?

"Dad, the eternal ceremony is about to begin. Why did you run out?"

"I came to pick you up. On the way, I found some changes here. Come and have a look. All right, the sword array at the bottom of the lake has been broken. What should be scattered is scattered."

Nangong asked Heaven to speak. Others dared not refuse. Soon the courtyard became desolate and deserted. Nangong asked Heaven to let Ye Chen go with him to the inner hall of the eternal temple.

Ye Chen was surprised at the speech. Because as far as he knows, the inner hall of the eternal temple can only be entered by real strong and giants, symbolizing the identity and status of each invitee.

"You are now the son-in-law of the eternal temple. Why not go home?" Nangong asked Heaven with a smile, in a very friendly and easy-going tone.

But ye Chen won't be confused by his appearance. The old fox doesn't know what's on his mind.

It seems that we can only take one step at a time.

Then Nangong asked Heaven and showed Ye Chen a way to enter the inner hall.

Ye Chen thanked and went straight inside.

Before leaving, he saw that Nangong Yaqing's face changed a little. He opened his mouth, but he wanted to talk and stopped.

Until ye Chen's figure disappeared in the vine winding channel, Nangong Yaqing looked back and was puzzled.

"Dad, since you know that he has a great talent in kendo, why do you put him here? This is not the way to the inner hall! "

Nangong asked Heaven and smiled without saying anything. After a long time, he said leisurely.

"I just want to see if his swordsmanship can be used to the extreme and break the prohibitions inside. If I can, I will betroth you to him. From then on, he is also the new leader of the eternal temple. If he fails... It's like he hasn't appeared."

Nangong Wentian put away his smile and narrowed his eyes slightly. Until then, he took back the sword between his cuffs.

Just now, if ye Chen had half a resistance, he would use coercive means.

In this way, the boy is quite sensible.

.....

At the same time, Ren Feifan stepped into the gate.

He looked dignified. What was this layer after layer of protection guarding?

He guessed, but he wasn't sure.

Wuzhe, at his level, if you want to go further, you need an opportunity against the sky.

Even some secret places in the world are not necessarily suitable for him.

Years of intuition tells Ren Feifan that the things behind this huge door may be made for himself.

What is it?

At the moment, Ren extraordinary found himself in a dark world again. With a big hand, he tried to shine again with a blood moon vision.

But soon, Ren Fanfan found that he couldn't use any spiritual power.

The existence of such a level as him should not be so limited in the world.

When Ren extraordinary was ready to let go of his perception, a light appeared in front of him.

A light was set on the sky, and the light fell to the ground, covering the body of an old man in white.

The muddy and clear eyes of the old man in white stared at Ren extraordinary and smiled at the corners of his mouth.

White eyebrows hang down, giving people a kind of immortal in ancient times.

Ren Feifan stared at each other for a long time and said, "if I guess correctly, you are the owner of the stone tablet."

The old man with white eyebrows still didn't speak, so he smiled and looked at Ren extraordinary.

Ren Feifan didn't continue to speak, his hands were behind him, quietly waiting for the other party's answer.

For a long time, the old man spoke and said, "I'm just a residual thought. Ren's destiny. Do you know why I'm waiting for you here?"

Ren extraordinary's eyes narrowed slightly and said faintly, "you need me."

The old man suddenly laughed, and a pot of wine was condensed in his hand. With another wave of his big hand, the stone table and stone chair appeared.

He found a place to sit down, poured two glasses of wine, and then said to Ren extraordinary, "sit down."

Ren Feifan sat opposite the old man and drank the wine in one gulp.

The old man was quite satisfied and muttered, "well, you need me, but it's not that I need you, but that the world needs you."

"To be exact, it's you. This mysterious world needs you."

Chapter 6789

"You and the Lord of reincarnation boast of being the layout person. The Lord of reincarnation even doesn't hesitate to reincarnate, but also wants to rearrange the layout and go to heaven. This is a great undertaking, and you go to the sky to protect the way of reincarnation. This game of chess is really wonderful!"

"But do you know that the more you go to the back of this chess game, the harder it will be for you?"

"Martial arts is like this. The more you climb to the top of the mountain, you think you touch the top of the world, but you will eventually find yourself a frog at the bottom of the well."

"It's a pity that when the chess game gets to the end, it's a little careless and loses all the games."

The blood moon of Ren extraordinary pupil took it lightly. His thin lips were slightly open and said, "the value of this residual thought is to talk to me?"

The old man touched his beard and shook his head: "this is a warning."

"In those years, my body once gambled with a close friend. I bet all my bets on you two. If I lose, I will lose all the games. If I win, I will be happy."

"Since I want you to win, I naturally have to do something."

"And your purpose here is cause and effect."

"But you are here alone today, Lord of reincarnation... Oh? Why is he in the eternal void? Is it looking for the door of xuanzun? "

Ren extraordinary was stunned. It was just a residual thought. Unexpectedly, it divined Ye Chen's whereabouts and purpose.

If it were noumenon, how terrible would it be?

However, Ren Fanfan thought about it. I'm afraid this noumenon has had countless opportunities, and even went to the world of nothingness. It doesn't exist in reality for a long time.

Such existence can only make them look up to the divination of cause and effect in the world.

"Well, I shouldn't say more. Now that you're here, I'll give it to you."

With that, the old man waved his big hand, and the world seemed to change.

Ren Feifan found that the place he stepped on was in purgatory, and there were ten rounds of blood moon hanging on the sky!

The highest artistic conception and Dharma phase created by Ren Feifan is the nine rounds of blood moon.

And now why ten rounds?

This seems to have a strong impact on Ren extraordinary Tao.

The old man rolled his beard and said faintly, "the sky blood moon is not the key, this sword is the key."

The next second, Ren extraordinary noticed that there was a sword in a hot blood pool behind the old man.

The scarlet blood moon lines on the sword body are everywhere, ferocious, but they give people an extreme beauty.

It seems that it is good.

Moreover, on the fitness of the long sword, it is entangled by dense chains. Each chain goes straight to the sky!

It spread from the ten rounds of blood moon.

Even if there are snow buried stars, the Taoist heart is extremely fluctuating at the moment. He needs this sword!

This sword seems to be tailor-made for him.

If you have this sword, his strength will change tremendously!

However, Ren Feifan knows that the sword is against the sky, and the old man said that the sword belongs to himself, but it will never be so easy to get it.

Every chain is wrapped with strong rules, as if surrounded by lightning from the world of nothingness.

Red, extreme heat.

Ice blue, extreme low temperature.

This kind of sword must have a sword spirit. It's difficult to conquer it.

The old man seemed very satisfied with the expression on Ren extraordinary's face at the moment. He said strangely: "why, do you think you can't hold this sword? Ren Feifan, you are the top ten in the world. "

Ren Feifan shook his head and said faintly, "this sword is very strong."

The old man continued: "this is my own creation. Any material used belongs to dilution treasure in the world."

"Of course, there may be two people in the world who can hold this sword, but there is only one in the end."

Ren Feifei's eyes coagulated: "which two people?"

The old man stared at the sword and said, "you now, or you in the future."

Ren Feifan was slightly moved when he heard this sentence. He no longer thought about it. When he stepped out, his body was suspended on the sword.

He gazed down at the sword, but found that his breathing was a little short, and even he couldn't stand stably.

The rules of this sword are so limited.

Ren Feifan buried the stars with snow and condensed round after round of blood moon behind him.

Then, the void fluctuates.

He crossed the crack of the void, stretched out his hand and shook it with five fingers, so he held it on the hilt of the sword.

In an instant, countless thunder and lightning from the non world conveyed the sword body along the chain and spread to Ren extraordinary's whole body.

Ren extraordinary's pupils are congested, his body's veins burst, and the violent air waves burst out of his body!

The blood moon vision behind it seemed to break up.

It can be seen how much pressure this sword brings to Ren extraordinary.

But any extraordinary eyes, at the moment, only decisive!

This is Ren extraordinary Tao!

Ye Chen has Lingxiao martial intention and Wuzu Taoist heart, and Ren extraordinary also has his own Taoist heart and martial intention!

This is what he created by killing countless strong people across endless years!

The old man on one side was also slightly moved. His perception told him that Ren extraordinary is not the best time to hold a sword.

If you hold the sword by force, you can only hold on for three seconds.

Now, it's past ten interest rates!

The old man hesitated again and again, but he still said, "Ren extraordinary, stop when you click."

However, Ren Feifan totally ignored it, and the meaning of super martial arts broke out all over his body. The heaven and earth changed color, and even the surrounding void was about to break!

If it weren't for the strong rules, restrictions and protection here!

I'm afraid it will turn into an empty turbulence in an instant.

The twentieth breath!

Fifty!

When it was sixty-three, Ren Feifan finally released his hand.

Chapter 6790

At this moment, Ren extraordinary's whole body seems to be full of cracks.

If he doesn't let go, he may die.

However, Ren extraordinary's face was not depressed at all, but excited and hot.

He hasn't felt like this for a long time.

The harder this sword is to conquer, the stronger it represents.

This is the sword belonging to Ren extraordinary!

Ren Feifan no longer thinks much and doesn't care about the old man. He sits cross legged and starts healing.

"Do you want to try?" Asked the old man.

However, Ren extraordinary didn't pay any attention. At the moment, there was a flame burning in his heart!

Crazy burning!

The old man naturally felt Ren extraordinary's state at the moment, and his eyes were meaningful.

This extraordinary Taoist heart is so strong and has amazing potential.

What about the Lord of reincarnation?

The Lord of reincarnation reincarnates with death, arranges big chess, and after restoration, the potential and Qi must be much higher than ever.

Where is the limit of such people?

No one knows.

.....

At the same time, the eternal void.

Ye Chen walked into the boundless darkness. The deeper he went inside, the deeper he couldn't see his five fingers. He seemed to hear the voice from the depths of hell and kept calling him to go forward.

Walking in this boundless darkness, even the road under your feet seems to be vain. Thanks to Ye Chen's firm will and calm mind, he was not unable to move.

"Nangong Wentian is also an old fox. If I don't come in this time, he will force me by force. I don't know what medicine is sold in the gourd."

Ye Chen walked inside and suddenly regretted that he would not break the sword array at the bottom of the lake, which exposed his identity in advance.

Now I'm afraid I was caught by Nangong Wentian as a test tool.

But at this time, his arms suddenly vibrated. Ye Chen took it out and saw that it was a sword light formed by the shadow of the sword array at the bottom of the lake.

The sword array implied the breath of the xuanzun gate, and the figure also told him that the xuanzun gate was in the deepest part of the eternal temple.

Ye Chen's heart moved. He took out the sword light and placed it in the Longyuan Heavenly Sword.

Then he walked on. After a while, the darkness in front of him seemed to be sealed by some mysterious force and became fragile.

Breaking the darkness, he saw a world full of snow and ice.

The cold frost came on my face. The extremely cold world was vast and could not see the end at a glance.

"Little fellow, Nangong Wentian didn't mean well. The world is a unique system. According to my perception, there seems to be a monster hidden in it. These ice and snow seem to be used to suppress it."

The voice of Huang Lao came from ye Chen's mind.

He immediately became alert. Huang Lao had rich experience and had seen great storms. He would not make a mistake in judgment.

But the sword Qi reacted. Can it explain the secret of xuanzun's door?

Just as ye Chen took the first step and entered the vast ice and snow world, a strange laughter suddenly came to his ears.

"Hey, hey, I didn't expect to see living people come in when I was alive. Nangong asked Heaven, when did the yin-yang man take care of me so much?"

The laughter seemed to come from all directions and could not capture the specific source at all.

Ye Chen looked around and saw nothing but snow.

"Go on, come on."

The voice was full of temptation, as if there was an amazing treasure waiting for ye Chen to dig.

Ye Chen opened his legs and walked like the wind. After a while, he saw a towering iceberg and formed a hard ice layer.

In the middle of the iceberg, there is a ferocious head, which looks like a ghost, with green face and tusks, round eyes, fierce eyes, and the fierce light revealed in the eyes is enough to make people scared and scared.

Such a species is rare in his life. Ye Chen is not afraid of its fierce stare. Instead, he looks left and right. From the translucent huge iceberg layer, he sees the faint green.

In this way, he could infer that the monster was sealed in the iceberg.

"Let me out, I can give you supreme power, and then the whole eternal void will be your world!" Said the ghost face.

Ye Chen looked at him and asked, "if you can take down heaven and man and the dark forbidden sea, I can think about it."

The ghost face was immediately speechless, but he was not angry, but continued: "that year..."

After only two words, its mouth could not speak, as if it had been sealed. When ye Chen saw this, he opened the great star sky of Hongmeng and blessed it with the power of reincarnation blood in his eyes to check the situation. No abnormality was found.

Then, the ghost face, whose face was hard to hold, burst into laughter.

"Hahaha, have you been cheated by me? In fact, there is nothing here that can stop me, but I'm waiting for the opportunity. "

Ye Chen nodded, did not refute him, but came to the top of the iceberg and had a panoramic view of the whole ice and snow plain.

Huang Lao is telling him something about the ghost face.

Speaking of it, this ghost face was actually known before Huang Lao. It has survived for a long time.

The ghost face stopped laughing and looked at Ye Chen strangely, and ye Chen's expression was like a smile.

"Shura monster, you've been locked up here for some time, but do you remember where the white bones are?"

Ye Chen's words widened the ghost's eyes and shook his heart. At the same time, he asked, "have you seen him? Where is he? "
