Chapter 7071

Ren Feifan collided with him for a moment and then withdrew his mind.

If he breaks through by force, he may be able to lift the ban, but he will also pay a huge price.

Ye Chen nodded. From the beginning, he also felt that the origin of the man on the throne was mysterious. The battlefield of the ancient gods and Demons was beyond the scope of the strength of the present world of heaven.

Perhaps only in the future can we completely solve this secret.

Then ye Chen took out a fruit of Tianze divine tree and gave it to Ren extraordinary.

When he heard that there was such an existence in the forbidden area of xuanhai, Ren extraordinary was also greatly surprised.

"I may have to go to xuanhai again, because I promised the Tianze divine tree to help him seal a demon again. At that time, I'll find a way to get rid of Xuanji moon. Xuanji moon's luck is far more than ordinary people. If she doesn't die several times, it should be completely finished."

Tianze sacred tree had explained before he came out, and ye Chen also made a vow of heaven.

Within one year, we must help him seal Jianjia Shengzi again.

Whether in love or in reason, ye Chen must fulfill his promise.

But now he is worried about the situation of the devil emperor, so he can only go out of the xuanhai first to solve the urgent problem.

"Elder Ren, is there any movement over there?"

Ren Feifan nodded, and immediately a white light burst out between his sleeves and robes, and the pictures were reflected on the wall.

When the picture was moving, ye Chen saw the image on the dark square.

It was recorded by someone using his mind. In the heavily guarded skeleton palace, the demon emperor covering the sky was like a lamb to be slaughtered. He sat alone on the high platform and passively accepted the boundless sacrifice of the demon ancestor.

Next, the demon family ascended the platform and opened the dark prohibition, enveloping them. Outsiders can't see what happened there.

Seeing this, ye Chen could not help clenching his fist.

After about a quarter of an hour, something amazing happened. The dark prohibition like a cobweb broke open and declared that the demon ancestor had failed.

Seeing this scene, ye Chen was surprised and happy, and hurriedly asked Ren Feifan. Ren Feifan smiled calmly: "it's also your friend who saved himself. He had many obsessions in his heart before he was about to give up, which condensed into a heart of Tao."

"The Tao heart formed in the heart cannot be transferred with the will of the host. When it is attacked by a strong divine mind, the Tao heart will resist itself, and the stronger the obsession, the stronger the Tao heart will be."

Hearing this, ye Chen breathed a sigh of relief. Now it seems that the demon emperor can still be saved!

If the body of the ancient gods and Demons had not been damaged at that time, it might be able to exchange with the demon ancestor Wutian now.

It's a pity that after being hit hard by heaven, the body of gods and demons can't become a container.

Ye Chen secretly vowed that he would rescue the demon emperor.

However, this difficulty is tantamount to climbing to heaven. After all, the devil emperor is now imprisoned in the dark forbidden sea and hidden in the depths of the most taboo.

There are not only heavy guards, but also countless secret devices and concealed weapons.

In the center of the palace, there are the top powerful people in the world of heaven, and the demon family is guarded by heaven.

If you don't want to be discovered by him, no method is feasible unless you can quietly and smoothly save the hidden devil emperor.

However, after returning from xuanhai this time, ye Chen had more confidence in the rescue.

Because he got the most complex and diverse crown of thorns in the world.

The crown of thorns is not the highest ranking among the nine heavenly divinities, and its combat effectiveness is not the strongest, but it has a place against the sky.

That's change!

Wearing the crown of thorns, you can become anyone.

One flower, one world, one wood, one reincarnation.

The crown of thorns was born in heaven and earth, nature and all things. There is no way to verify the age of the creator.

But the vast power left behind is drawn from nature and belongs to all things in heaven and earth.

As long as you use the power of the crown of thorns, you can turn into a pretender and sneak into it to save the demon emperor.

Or if you want to save the demon emperor, you have to get through the key.

After all, in those years, the devil emperor covered the sky was to save Yuchi Yao, which agreed to the request put forward by the devil ancestor Wutian.

As long as Yuchi Yao can be rescued, the demon emperor will try his best to escape from the cage, not only death.

He knows his infatuated friend very well and is willing to give everything for his love.

He took out the crown of thorns and placed it in front of Ren extraordinary. The blood was surging, mysterious and profound.

Where the crown of thorns is, the world on this side can automatically disguise and hide from others.

The power of rules born from heaven and earth is enough to erase the existence of this place and make the crown of thorns completely hidden in the void.

This is the magic of the crown of thorns and the embodiment of its supreme power.

But ye Chen encountered a problem in the xuanhai: he could not use the hidden magic power of the thorn crown.

At that time, he just absorbed a trace of power contained in the crown of thorns.

However, some functions have not been studied, such as the instantaneous power to transform time and space, and the omnipotent camouflage.

These are the parts Ye Chen wants to explore.

Ren extraordinary smelled the speech and was also moved.

He also wanted to see the true power of the nine heavenly divinities he had never touched.

They sat cross legged. The crown of thorns was suspended in the middle, and there was an array to press down to prevent the blood contained in the crown from breaking through the cloud.

The crown of thorns floated and sank in the sea of blood without much abnormality.

But when ye Chen poured his reincarnation blood into it, the crown of thorns rioted.

It seems to have produced some kind of resistance. In a trance, a vast divine power rushed out to disperse those blood and Qi.

After ye Chen's mind was broken up, the whole man woke up. He was unwilling. He bit his teeth and continued to reveal a trace of spirit.

Ren extraordinary sat aside and watched carefully.

The more he looked at it, the stronger the interest in his eyes.

"This crown of thorns is a bit interesting. It has a temperament like a person. Maybe you can be more direct and see if you can restrain it, otherwise other methods may not work."

After hearing Ren extraordinary's words, ye Chen changed his strategy and directly mobilized a large number of reincarnation blood vessels. He was no longer careful to test, but the whole army was pressed on and attacked like a roaring sea.

The reincarnation blood and the power of the crown of thorns oppose each other.

But before long, the power of reincarnation was slowly dissipated.

Ye Chen frowned. He stretched out his mind and carefully observed every move of the thorny crown.

Although the crown of thorns has strong repulsion, it does not mean that it can not be completely refined.

Chapter 7072

Ye Chen's eyes flashed a firm color. He pinched out the Dharma seal, and Yan Xuaner, the fire of the Taoist spirit, appeared. At the same time, several red fire talismans burst into bloom, expanding into a different Dharma phase with his spirit.

The towering God's eyes sweep out, just like a God coming. It's towering and huge. You can't look directly at it.

This time, ye Chen directly used tough means to fight with the crown of thorns.

He thought there would be a long entanglement, but he didn't expect that the always proud crown of thorns would be counselled.

Then ye Chen saw that there was an incomplete fragment behind the crown of the thorn crown.

It was this deformity that made the interior of the thorn crown a little chaotic.

Ren extraordinary also saw this. He stretched out his hand and waved it to summon the giant whale divine tree.

A huge whale condensed into the size of a palm and quickly drilled into the deformity exposed by the crown of thorns.

Ye Chen also felt it, summoned the formula of the mother sword of all things on the half, turned into a small sword, and didn't enter it.

The inexplicable luster flows on the crown of thorns, and becomes more and more intense. In an instant, it blooms colorful brilliance.

The giant whale magic and the mother sword formula of all things are repairing the incomplete fragments of the crown of thorns.

After a day and a night, when the light no longer flows, the crown of thorns tends to stagnate.

And ye Chen once again explored his mind. This time, he broke layers of taboos and completely controlled the crown of thorns.

When ye Chen completely integrated his consciousness with the crown of thorns, a faint totem appeared.

It was the blood color mark of the crown of thorns. At the moment of birth, thousands of miles away, the blood gas churned with the thunder of the road.

The rules of heaven here also began to gather actively and become a bloody dragon, overlooking all living beings in the sky.

The warriors in many areas were surprised one after another, and they felt the mighty power of heaven.

It seems to extend from the depths of the starry sky, vast and incomparable.

That is the power of the nine heavenly gods alone. When a person has more than two kinds of nine heavenly gods, such a vision can be triggered.

"What exactly caused that concussion? It's terrible!"

"Yes, I don't know. I don't dare to open my eyes at all. I'm likely to be eaten back."

"Well... If my guess is right, is that nine heaven divination? But it seems that all nine heaven divination have masters! It's not like..."

All beings in the heaven and the world also saw such empty visions and wondered what caused them.

In beimangzu, which is far away from the noise of the world, ye Chen slowly opens her eyes. There is blood flowing in the depths of her pupils, just like a blooming lotus. The supreme rule divine power can penetrate the heaven and earth and reach the ages.

When the crown of thorns was completely integrated into his blood, the mother sword formula of all things also responded.

The two nine heavenly divinities gathered together and produced unprecedented brilliance.

Ye Chen's whole body was surrounded by incomparably bright light and roared, as if there were endless supernatural power shuttling back and forth in his body.

The nine heavenly divinity skill has infinite power. Chaos begins and Hongmeng begins.

Such a supreme divine skill is the same, which is a great opportunity.

It seems that there is a certain connection between all supernatural powers.

At the moment, behind Ye Chen, there are thorns and crowns interspersed. The mother sword formula of all things flies slowly, followed by the endless Buddha light surging out. The kind-hearted Buddha puts his hands together to frighten the world.

In the clouds, a golden palm print fell from the sky, vigorous and vast, almost cutting off the ages and holding the future alone.

4、 The five powerful and unspeakable magical powers emerged one after another around Ye Chen and exploded in turn.

There is some connection between these magical powers and treasures. It seems that they have been arranged for a long time. When they come together, divine power can erupt.

Ye Chen seems to have experienced several reincarnations, and his life is different.

When he opened his eyes, the vicissitudes and changes between heaven and earth flashed by, making it look mysterious and profound and invisible.

"Elder Ren, this change in the crown of thorns puts forward two forms of change, one is the change of reality, the other is the change of invisibility. Who is the root of these two changes and who is the secondary?"

At this time, ye Chen slowly opened his mouth and said his doubts to Ren extraordinary.

He is understanding and seeking advice.

Ren Feifan smiled, then stretched out his hand and drew a white circle at will.

"Do you think my skill is tangible or intangible?"

Ye Chen thought for a long time and replied, "it's invisible."

Although this aura was transformed by Ren extraordinary's aura, when it separated from Ren extraordinary's body, it had become an invisible thing and integrated into the world, so it was invisible.

But when Ren Fanfan heard these answers, he shook his head. He took a deep look at Ye Chen and said:

"No, it's actually tangible."

Ye Chen was puzzled. After the aperture evolved, didn't it become an invisible floating object? What is the form?

Ren Feifan tore a small piece of void again, took the fragments of that space and gently crossed between reality and illusion.

I saw the transparent space-time fragments, transformed into many colors, like the rivers on both sides, one black and one white, which is very amazing.

Chapter 7073

"You see, although this fragment is born out of the invisible, if you put it in another environment and accept the washing of other substances, it can be transformed into tangible things."

Ren extraordinary explained, and slowly repaired the broken void. This time, it gradually became invisible.

"Taught?"

Ye Chen seemed to understand in a trance.

But if you look at it carefully, you don't fully understand it.

These rules are really mysterious and mysterious.

It is both changeable and invariable. It can be changed or not.

Ye Chen murmured to herself, and her eyes became brighter and brighter.

This theory of tangible and intangible is a fallacy to some extent, because tangible and intangible are judged according to the space, time and world.

After getting Ren extraordinary's advice, ye Chen realized something. In a desolate void, he took a deep breath, and the whole person gradually integrated with the stars.

The dismemberment of the body and the disappearance of the spirit are just an illusion on the surface, and the real inside is integrated with the star river.

The stars are the eyes, the Milky way is the blood, and the debris of the universe has become the carrier of Ye Chen's ideas.

Years flow, a flash of time, time passes in a hurry.

Ye Chen immersed himself in it, saw through the essence of the universe, and the power of the divine soul increased.

In his world, thousands of years are fleeting, and he has also experienced many ups and downs, joys and sorrows in the world.

The so-called change and invariance are no longer tenable here.

What changes is all things in the world, and what remains unchanged is your consistent heart of Tao.

Ye Chen seems to have understood this cosmic philosophy, and his body hidden in the void slowly condenses out.

The crown of thorns was worn on his head, looming, carrying an incomparable overbearing breath.

When ye Chen returns to the real world again, Ren extraordinary and others have been waiting here.

Ren Feifan is very clear that ye Chen must go to this rescue. As the top strong man in the world, he is contaminated with too much cause and effect, and all his actions will affect the eyes of the world.

If he goes, I'm afraid it will cause unnecessary trouble to Ye Chen.

But ye Chen was allowed to go alone. Ren Feifan was not at ease, so he transmitted a trace of spiritual thoughts to the world and called Shen Tu Wan'er.

Ye Chen was stunned when she saw Shen Tu Wan'er.

He thought she was going to cut off all the love in the past and never see him again in this life!

Shen Tu Wan'er was as proud and charming as ever. She raised her delicate chin and snorted softly.

"I wouldn't have promised to come and help you if I hadn't been invited by elder Ren!"

Shen Tu Wan'er posed and couldn't help humming coldly.

Shen Tu Wan'er's arrogant appearance makes Ye Chen cry and laugh, but it can also prove from the side that she is sincere to Ye Chen. Otherwise, how can she rush over as soon as she hears that ye Chen is in danger.

Some people's mouth is harder than a knife, but their heart is softer than tofu.

It must be difficult to go to the dark forbidden sea this time, so ye Chen must make a detailed and careful plan to ensure his safe return.

What he has to do is to save the most important thing of the demon emperor. Only in that way can he change his mind.

Yuchi Yao is the most worried thing for Zhetian demon emperor. As long as he can handle Yuchi Yao's affairs well, it is possible for Zhetian demon emperor to escape from the dark forbidden sea with him.

Otherwise, the demon emperor will never leave the old alliance.

Ye Chen and Shen Tu Wan'er form a partnership. With Xiao Huang as the support Army, they can shuttle between reality and dreams and provide support for them.

And this time, Xiao Huang got a secret map from beimangzu land.

It was handed down by an ancestor of the nightmare Protoss. It is said that he once entered a series of forbidden areas in the dark forbidden sea.

And use the talent and skills of the nightmare Protoss to record the mysterious places connected together.

Xiao Huang is the most gifted descendant of the nightmare Protoss, so he can enter the dream space of this ancient picture again and find his way in.

"This time to the dark forbidden sea, we have to take a very dense void channel, cross the storm and thunder sea, and reach the general altar of the old alliance."

Xiao Huang is serious and serious, and lists the road map.

According to the secret location deduced by Ye Chen, Yuchi Yao was detained in a city.

That city, just at the end of these forbidden areas! In the confined space of the old League altar!

They all nodded. Naturally, they knew that the danger was far from the ordinary forbidden area.

In the dark forbidden sea, many territories belong to the old alliance, and their forces are extremely huge. Therefore, it is almost impossible to enter from an ordinary route.

The only way is to pass through those forbidden areas and reach the general altar quietly.

Yuchi Yao was imprisoned by the demon ancestor Wutian and imposed multiple prohibitions. Obviously, she didn't want to give others a chance.

They want to rescue Yuchi Yao unharmed from such dangerous places, and they have not been found by the magic ancestor Wutian.

We can imagine the difficulty here.

"Are we sure we want to cross this sea?" Shen Tu Wan'er frowned and said, "it's very dangerous here. Once taboos were born and left the seeds of demons. It's said that people who go in will be swallowed up by those demons, lose their souls and become insane."

This dark sea is well-known and very scary. Even the strong at Tianjun level have to weigh it carefully.

"So it needs the atmosphere of the Lord of reincarnation to support you through this level. It's hard to say for others."

Ren extraordinary turned his palm and took out a white feather. Although it fell off, it still exuded Yingying luster.

"This is a feather dropped from the ancient blood Phoenix. It can avoid the black hole of the void. Take it well. Don't fall into the void trap at that time. Once you fall into it, it's difficult to get out."

Ren Feifan gave such a treasure to Ye Chen. In addition, with a small yellow belt Road, he can escape into his dream at any time, but he also has some confidence.

Shentu Waner also has Wuwei Heavenly Sword, which can be used at a critical moment to have unexpected effects.

"In any case, first take ensuring our own safety as the premise. After all, we are going to the headquarters of the old alliance this time. We must not be careless!"

Ye chensu said.

Then several people came to the edge of the dark forbidden sea under Ren extraordinary escort.

There is a snow mountain in the direction of the entrance, which used to be the place of punishment in the world of heaven, full of white bones.

Chapter 7074

Up to now, there are still people hanging there, naked, covered with blood and dying.

Seeing this scene, ye Chen just glanced at it and left hand in hand with Shen Tu Wan'er. Xiao Huang led the way in front.

"The wind is blowing, the water is cold, and the strong man will never return once he goes!"

When Xiao Huang saw the thunder and magic clouds all over the sky, he couldn't help thinking of a poem that his master had recited.

It's really a narrow escape for them to go this time.

Ye Chen behind it, listened to this solemn and stirring poem, looked up and rewarded Xiao Huang with a burst of chestnut.

"Crow mouth! These two words mean that the assassination failed and there will be no return."

Xiao Huang suddenly.

"So it is. No wonder it's a little strange to read it."

Xiao Huang muttered a few words and immediately forgot about it.

"Master, when shall we attack?"

Xiao Huang thought for a moment, turned and asked.

Ye Chen and Shen Tu Wan'er looked at the endless void and thunderstorm, all with dignified faces.

If they want to cross from here, they must be fully prepared.

"Come on, let's go!" Ye Chen picked up some clothes and broke into the thunderstorm with a sword in one hand and a Dharma decision in the other.

Shentu Waner followed, and Wuwei Tianjian bloomed a bright brilliance, which brought time and space to a standstill for a moment.

Xiao Huang is also unwilling to fall behind. His body vibrates and the invisible power of nightmare spreads rapidly around several people.

There are not only thunderstorms, but also heavy snow, cold wind and frost.

The strong wind, like the roar of a lion, shook the sky, and in the endless mountains and forests below, the shadow spread and paved a dark line.

The dark clouds, like the coming of the end of the world, almost squashed the heaven and earth, and the endless murderous spirit spread out, outlining the killing intention between the heaven and earth.

Xiao Huang looked at this, and his face became dignified. As the son of the nightmare Protoss, he certainly knew what such changes meant.

"Master, miss Shentu, the thunderstorm in the dark forbidden sea is about to take shape! We can only carry it hard. You hide in my dreamland."

Xiao Huang's speed is getting faster and faster, which leads to space shock and dreamy power, which slowly condenses into shape.

"Let's go in!"

Ye Chen took Shen Tu Wan'er into the misty dreamland and avoided the thunderstorm for the time being.

At that moment, Xiao Huang jumped left and right, and planted more than ten kinds of fairyland in the sea of thunder. They can jump freely.

Ye Chen took Shen Tu Wan'er's hand, moved around in the void, and gave it strength with the blood of reincarnation!

Xiao Huang took them through here like beating chicken blood.

But at the end of the void thunderstorm, they met a figure standing in the thunder.

It turned out to be a demon seed left by the demon ancestor Wutian. It evolved into a human form through the breeding of thunderstorms.

Of course, he should stop threatening things.

Ye Chen was going to use means to kill, but he didn't expect that after the void, someone walked out slowly.

"Lord of reincarnation? I didn't expect you to have the face to come here and try to enter our old alliance from the thunderstorm space. It's just wishful thinking."

The man who came out is one of the 16 devil generals under the command of the devil ancestor Wutian. He is known as the general of thunderstorm. He can pull out the mountain Qi and reach Yin and Yang.

Ye Chen doesn't move. He knows that there are people in all forbidden areas of the dark forbidden sea. It's only a matter of time before he meets man-made resistance.

"Don't think that after Lord Mozu swallowed up the failure, he would fall down! That's impossible."

Another man came out, which was also one of the sixteen magic Generals: Crazy rain Magic general.

He appeared on a mountain peak, dressed in black and filled with awe.

"What's the way to die? Do you really think this place is unguarded? Hehe, Lord of reincarnation, your calculation is wrong."

The third devil will come out, which makes Ye Chen feel that this matter is a little tricky.

Finally, another demon will come out. It is a red haired woman with graceful figure, waist length long hair, heavy makeup and extraordinary demon meaning.

But his eyes were very vicious.

Ye Chen's heart sank. These people are not easy to deal with. Several figures stand at the peak of the thunderstorm. Some people are evil, and others are near the Yuanzhi Pavilion, which is unfathomable.

As if they had been summoned, the four came here together.

Storm, thunder, lightning.

Wind and rain, thunder and lightning, the four magic generals, can be said to have extraordinary strength. They have had a strong tacit understanding under the command of magic ancestor Wutian for many years.

Their strength is already at the level of half a step Tianjun, and they guard this thunderstorm land and connect with heaven and earth.

"Gentlemen, the reincarnation Lord is against our old alliance everywhere. Since he threw himself into the net today, we will work together to eliminate it! What grudges we have between us will be counted later."

Said the wind devil.

"Good! Destroy the foreign enemy first."

"If we let the reincarnation Lord live today, it will be our negligence!"

Several magic generals answered one after another.

Ye Chen snorted coldly and leaned out his palm, very sonorous.

"Just because you want to stop me? Wishful thinking!"

His body suddenly burst into a shocking momentum, which was magnificent and magnificent.

The Qi field belonging to the Lord of reincarnation completely burst out in this place, including six roads, and the eight wastelands rise and fall.

The virtual shadow of the blood dragon loomed behind him.

Chapter 7075

Shen Tu Wan'er on the other side also summoned Wuwei Tianjian, looking indifferent.

She is the saint of Shentu family and the world's top Tianjiao. Although she has not grown so arrogant, several magic generals opposite are really not qualified to make her afraid.

"Just a few mole ants in the lower world. Cut them with a sword."

Shen Tu Wan'er's understatement angered them.

"Speak wildly! Don't beg for mercy when you can't get up on the ground later!"

The thunderstorm devil was very irritable. When he opened his mouth, he had already killed. His body was as fast as thunder.

His goal is Ye Chen!

The Lord of reincarnation has many treasures, all of which are extremely precious. Now the other party has entered their territory, it has become a lamb to be slaughtered.

But someone will be faster than the thunderstorm devil. In silence, he tore open a void crack, and the magic light cut out boldly and fell behind Ye Chen!

This process is so fast that people have no time to respond.

But who is Ye Chen? He had already noticed the change behind the void. He said that sooner or later, he quickly hit it with his backhand. The blood light on the Longyuan Heavenly Sword flashed past and disappeared in the void.

Then, the blood spilled and fell one after another. The man who attacked was cut in half by Ye Chen, and his form and spirit were destroyed.

"If you want to kill me, you can directly use aboveboard means. There is no need to sneak and lose your life."

Ye Chen took back his sword and said faintly.

The other demons came to Ye Chen quickly, looking grim and like a great enemy.

The man who attacked Ye Chen just now is the subordinate of the demon general. He is known as the king of killers and has performed many tasks.

But under Ye Chen's hand, he can't hold up a move. It's really scary!

Ye Chen's demeanor and demeanor do have the posture of an emperor. His cultivation is not very powerful, but his weapons and magical powers are the top in the world.

Everything turned into a vision, very strange and terrible.

The wind devil blew out a powerful blow, mobilized endless hurricanes, made them rotate continuously, swept the world in an instant, and the surrounding empty torrents turned into ashes.

At the same time, the rainstorm devil and the magic electricity devil shot at the same time. The pouring rain condensed into a shining rule of holy light in an instant.

There was a rumble.

As if to completely submerge the thunderstorm void.

In the face of such a shocking attack, Shentu Wan'er took the lead. Wuwei Heavenly Sword is one of the most lethal heavenly swords in the world, and it is also a unique skill on which the ancestors of Shentu family have become famous.

"Wuwei Tiandong!"

The Wuwei Heavenly Sword in Shen Tu Wan'er's hand is as wide as silver, and the instant brilliance is accessible to ancient and modern times, with the style of the ancient god of war.

When she wielded a sword, the terrible Qi machine spread in an instant, carried out like a tide, and couldn't stop at all.

It seems that a peerless martial god is about to break free from the cage and be born in the air. His invincible posture makes the whole world tremble.

Ye Chen looked at all this with a smile on her face and didn't worry at all. It's nothing to deal with these magic generals with Shen Tu Wan'er's strength.

"No!"

Those demons felt the invincible momentum of heaven and earth and retreated one after another, but there were vast flat lands everywhere in the thunderstorm space. Where could they stop it?

They clenched their teeth and took their bodies as shields. The storm and thunder gathered into a golden net at this time.

The big net took the void as the boundary, absorbed the brilliance of the sun, moon and stars, and came out of the sky, with great momentum.

The big net blocked all the attacks left by Wuwei Tianjian. After the fierce collision between the two sides, it ended with the destruction of the sword Qi.

At the next moment, the void seemed to be invisible, and the terrible Qi machine diffused and spread everywhere, which was unmatched!

A loud noise came from the far end, as if to carry out the whole thunderstorm space, deafening and terrible.

That big golden net, I don't know when it came through, suddenly appeared, and almost wanted to completely cover the world.

And its target is Ye Chen and Shen Tu Wan'er!

After several changes, the golden net turned into a huge ship in the depths of the void forbidden area. It braved the wind and waves, and was urged to move forward by the fierce fog. Black holes appeared in all directions.

The four evil generals of wind, rain and lightning have jointly created a killing machine that has blown any strong man who has just stepped into the king of heaven to pieces.

"These guys... Do you really think that releasing such a move can help me?"

Ye Chen sneered in his heart. At the same time, the immovable blood dragon virtual shadow suddenly rose into the sky, and its momentum was very frightening.

Shen Tu Wan'er was holding a powerful Heavenly Sword and was full of energy without any panic.

When she waved the sword, she turned into the Dharma of the mighty God. She was majestic and awe inspiring. When she opened her eyes, thousands of light wheels surged.

Countless stars, rolling and falling, endless galaxy, surging and coming.

This monstrous vision made the manic meaning of the whole thunderstorm space fade away.

I only heard the sound of clattering constantly. It was not the river turning into the sea and the water falling into the river, but the thunder slurry falling from there.

The purple thunder slurry is as thick as blood. It blooms in an instant and talks endlessly. No one can match it at all.

"What did these two guys grow up on? Their strength is so strong."

The gale devil will gnash his teeth. He almost urges all the magic in his body to echo with the thunderstorm space and form a void array.

But under such circumstances, there was nothing to do with them!

Monster, it's really a monster!

The sky rolled up a torrent, shining with gold, and the power of endless rivers came boldly.

The array formed by the golden light net is torn into dust and can't be found.

The four demons also fell out quickly, and their breath was depressed to the extreme.

Storm, storm, thunder and lightning, they gathered all the visions and had incomparably vast natural power.

However, under the combination of the Lord of reincarnation and Wuwei Tianjian, it is still vulnerable.

Is this the power of reincarnation?

"Aren't you... Haven't you reached that level yet? Why..."

The demon electricity devil will fall heavily. If it weren't for a void ripple, he would have been broken to pieces and doomed.

Ye Chen just stood there and looked. The Heavenly Sword in his hand was taken back into its sheath, but it was condensing "potential". As soon as the sword came out of its sheath, it could kill all living beings.

The majestic momentum is surging and thundering, supporting the spirit of reincarnation and constantly tearing the sky.

Chapter 7076

The four demons will all be defeated. Although they are unwilling, they can only accept such results.

Then ye Chen used the power of emptiness, coupled with the blockade of the fire of the Taoist spirit Yan xuan'er, trapped them in this boundary, and could break through at least seven days and nights later.

"This power... Is terrible!"

Several magic generals are all feeling something.

As a whole, they worked together. They needed to suppress their opponents in a specific environment, so they got into the list of sixteen demons.

The other twelve people, all alone, got the position of Magic general with their own skills.

For example, the Golden Snake Lang Jun who died in Ye Chen's hands is a strong presence among the sixteen magic generals.

The original Golden Snake husband thought he could suppress Ye Chen, so he went to the ghost swamp in an attempt to take all the credit for himself.

In the end, stealing chicken can't eat rice.

Now the four demons will still be like this. They have a strong contempt for ye Chen.

Such contempt eventually led to their failure.

Ye Chen and Shen Tu Wan'er passed the first level without much effort and immediately continued to move inside.

If they want to break through such a tiger's den, they must not disturb or stay as fast as possible, otherwise it will be difficult to break through once they are found by the big forces.

Most importantly, at that time, they will also be concerned by the magic ancestor Wutian. It is even more difficult to save Yuchi Yao.

The dream woven by Xiao Huang can temporarily intoxicate people and can't extricate themselves.

Two people and a beast fled here. In the process of crossing the void, Shen Tu Wan'er not only looked at Ye Chen more.

"Your strength seems to have increased greatly."

Shen Tu Wan'er couldn't help asking.

Ye Chen smiled and didn't say much. Instead, he turned around and asked about Shen Tu Wan'er's recent situation.

Shentu Wan'er's mother was detained in the wanxu temple. The whole Shentu family was headless and in a mess. I don't know what the subsequent development is.

Shen Tu Wan'er sighed: "what else can we do? Isn't it like that? Many people escaped from the family and came to my camp, but the traitors there have won the support of the wanxu temple. It's very difficult to destroy them."

Ye Chen was silent for a moment and could only send condolences.

In the final analysis, it started because of him. If Shentu Wan'er hadn't been too close to him, the wanxu Temple wouldn't have dealt with Shentu family.

Shentu Wan'er seemed to see what he thought, glanced lightly, and immediately said, "you don't have to blame yourself. It doesn't have much to do with you. Even without your existence, the wanxu temple will covet the Wuwei Heavenly Sword of our Shentu family and try its best to plant and frame."

Ye Chen knows this very well! All the families in the world are shrouded in clouds and dare to act carefully.

"Let me see the injury in your body."

Ye Chen remembered that Shen Tu Wan'er had suffered some injuries in order to protect him in the previous war, which had caused great damage to her Tao Yun. I'm afraid she hasn't fully recovered yet.

"Don't worry."

Shen Tu Wan'er still wanted to be proud, but ye Chen couldn't help saying at this time and came to her.

"What are you doing?"

Shen Tu Wan'er was immediately surprised. She threw away her hand and wanted to break free, but found that her arm was fixed by pliers and could not move.

Ye Chen is only a finger away from her. Their eyes are opposite. At this time, the atmosphere becomes a little ambiguous.

Shen Tu Wan'er's little face was gradually tinged with a blush, rippling and looking very moving.

But ye Chen's attention was not on this at this time. His eyes were as bright as a candle, penetrating through Shen Tu Wan'er's pupils and reaching deep into the air sea.

There, he saw two terrible sword marks, still creeping slowly, preventing the wound from healing.

"Why don't you tell me such a serious injury?"

Ye Chen took back his eyes and asked, vaguely showing signs of anger.

He thought that Shen Tu Wan'er's injury had all recovered, but he didn't expect that the little girl would hide from herself and not deal with the sword injury in her body.

"What do you care about me? Anyway, there are so many confidants around you, and many of them are me."

Shentu Wan'er said this, which means that her anger has not disappeared.

When ye Chen heard this, he couldn't help smacking his mouth. He seemed to have thrown it out of the sky. He hadn't remembered it for so long, but unexpectedly, Shen Tu Wan'er had been thinking about it in his heart and never forgotten it.

"Come on, don't be angry. If you don't remove this scar, it will greatly affect your future cultivation progress. Anyway, you have to listen to me this time."

Ye Chen couldn't help but say. He pulled him over and sat cross legged in front of him. Then the formula of the mother sword of all things came out, and a shining little sword stood suspended.

The amazing sword Qi fluctuates and slowly emits.

Shen Tu Wan'er noticed the movement. After looking at it for a moment, she was surprised and said, "this is... The legendary formula of the mother sword of all things?"

She has been practicing Kendo since she was a child. She is also very clear about such divine skills. Where can she not understand what the mother sword formula of all things represents.

In addition, ye Chen also took out two magical powers of the treatment system to assist the mother sword formula of all things and repair the wounds in Shen Tu Wan'er's body for Shen Tu Wan'er.

Ye Chen used some original strength to turn into an aperture and fill the scar in Shen Tu Wan'er's body.

"OK! Now you can rest assured to use the sword move. You don't have to worry about other problems."

Shen Tu Wan'er's look became a little complicated. She wanted to stay away from ye Chen and cut off the feelings in her heart, but what ye Chen did made her unable to forget and remember deeply in her heart.

Perhaps this is love without giving up, thinking without giving up.

Ye Chen's body swept up, his sleeve robe waved, and went away from the vastness. In an instant, he passed through thousands of miles. A bright light soared like a meteor, and many runes surrounded him, as if activated.

He used his magic skills, took them to shuttle, and soon reached the depths of the forbidden area.

"Xiao Huang, can you detect the situation ahead?"

Ye Chen asked.

The little yellow, red and blue pupils twinkled with dazzling light. After careful exploration, he shook his head.

"The road ahead seems strange. I can't find it with my strength. I can only know it in the past."

When ye Chen heard this, he became a little surprised. Xiao Huang's red and blue pupil power was extremely terrible, and he had the power to awaken his blood, but it was easy for him to enter this illusion space, especially for a beast with multiple dreams.

There are very few places where its perception can't enter.

Chapter 7077

Before long, an ancient road to heaven appeared in front of them. Only one road was 50000 miles wide, floating and shaking in the endless void.

With the naked eye, you can't see the end at all.

Ye Chen took Xiao Huang and Shen Tu Wan'er, held their hands respectively, and then used the power of Xu Bei and ling'er to tear the space track.

This time, they crossed hundreds of thousands of miles. They finally set foot on an ancient road. The scene here is very strange. There are towering ancient trees, like an ancient jungle, and it is expected to be less than the marginal desert.

In Ye Chen's view, this is like a no man's land.

Strange, what the hell is this place?

"Xiao Huang, is there nothing wrong with the route you provided?"

Ye Chen immediately asked.

Because this road leading to the headquarters of the old Japanese League was provided by the elders of beimangzu and left by Xiao Huang's ancestors.

Xiao Huang shook his head and his face was full of doubts.

Its ancestor once traveled to the heavens and studied the void passage between heaven and man and the dark forbidden sea, as well as the hidden undercurrent outlet.

Before that, it followed the memory route that the ancestor had taken, observed it again, and released a trace of real divine thoughts. It came to such a quiet place and became familiar with the route.

But there is still a difference between God's thought and the arrival of the real body.

Now this place is both a jungle and a desert, which only makes people feel strange.

Ye Chen uses the reincarnation blood to start the reincarnation heavenly eye exploration, but he can't find any results for a while. Instead, he feels the infinite killing intention. In this place, even a leaf and a handful of yellow sand can kill people.

Suddenly, they heard a sad wind, mixed with screams.

"Is there anyone in front?"

Ye Chen first reacted, frowned, stepped out, instantly moved shape and shadow, crossed hundreds of miles, and walked forward close to the land like a light and shadow.

Three hundred miles away, a vision emerged. He found several ancient trees. The scene above was creepy.

On the ancient tree thousands of meters high, the branches lean against the trunk, but there are many people hanging on it.

But those people are dead. To be exact, they are more than a dozen skeletons. They have no human appearance at all.

And it was hung on the tree. It was dense. There was a trace of blood on the skeleton bones. It floated in the wind and looked very seeping.

Those purring screams should be made by the souls who have not completely died.

Ye Chen and Shen Tu Wan'er were stunned and immediately raised their vigilance. From the smell of these skeletons, they didn't die for a long time.

Moreover, they seem to have been skinned and skinned by something, forcibly removed their flesh and blood and died, which is not a normal death.

"I saw this tree in the image handed down by martial uncle's ancestors," said Xiao Huang, who could determine that the road was to the headquarters of the old Japanese League.

But it doesn't know why these skeletons are here.

It seems that there is something strange in it.

Shen Tu Wan'er just wanted to come forward to check, and at this time, ye Chen suddenly flashed and opened her.

Because not far away, there was a grass lying in ambush under the tree, which turned into a sharp sword and ran quickly.

Ye Chen naturally found such changes and reacted quickly.

After the grass took off, it exploded and smashed a mountain not far away into powder, with debris flying.

Ye Chengang wanted to check the situation and used the Longyuan Heavenly Sword, but a voice came into his ears, like a devil's nonsense, which was cold.

The voice was saying something, but it was a language Ye Chen didn't understand.

Although Ye Chen didn't understand what he meant, he was sure that those who came were not good.

There is such a terrible existence on this ancient empty road.

"Be careful. This guy doesn't know where to hide. It must be very dangerous."

Ye Chen looked around, her eyes alert.

Shen Tu Wan'er nodded. She also heard the mysterious old saying and couldn't distinguish its meaning, but she could know that the other party must have bad intentions.

These old and strong trees are in pieces, each thousands of meters high, with crisscross roots and lush branches. Only one becomes an ordinary forest.

Therefore, several ancient trees simply form a huge ancient forest covering an area of more than ten miles, revealing a wild and primitive atmosphere.

Ye Chen is careful to look inside. This place is so quiet that he can only look for it slowly.

Just then he heard a noise.

Unexpectedly, someone intruded here. The man was wearing a black night clothes. He was sneaky. He didn't come to do good.

When he saw Ye Chen, his eyes were filled with cold light, and he immediately came with a sword.

But before he approached, a strange wave burst out in the empty space.

"Ah!"

There was a scream. Ye Chen didn't urge the sword move, but saw the man in black die immediately.

It was like someone dragged his leg, pulled it back, and then attached it to the ancient tree full of skeletons.

The skin and flesh on his body faded quickly and was sucked clean.

The viscera and intestines could not be left. With the blood, they entered the ancient tree behind him.

The skeleton hung on the branches of the ancient tree and swayed in the wind, looking miserable and strange.

Chapter 7078

Another man was killed in such a swift and cruel way.

At this time, ye Chen finally determined the position of the main messenger behind him.

"What the hell is this guy? It's disgusting!"

Shen Tu Wan'er was a little angry. Such a practice of peeling and scraping meat really has the principle of a back warrior!

But ye Chen was very sober. His eyes coagulated and looked dignified.

He knew that such a thing hidden in the dark could not be theorized at all.

For a moment, he felt something in his heart. It seemed that something was spying on him in the dark.

Ye Chen's muscles were tight, and he was extremely vigilant for a moment. His hair stood up. He only felt that he was stared at by a demon in the dark, and the other party's tusks were about to attack.

This feeling of danger came in an instant and made him cut a sword with his backhand.

Although Ye Chen is a little wary, he is far from afraid.

If the other party is really strong enough, it doesn't need to spy in the dark, but just shoot directly.

"What, get out of here!"

Ye Chen's sword cut out the disaster Qi, cut through the endless vanity, and tore a long hole in the space.

At this moment, he saw a faint light in nothingness.

With a faint light, the thing disappeared in an instant.

"See where you can escape!"

Ye Chen attacked again with his sword. His speed was very fast. The flashing runes were materialized and became sparks flying everywhere.

And the target is the faint light.

Ye Chen waved the sword light and was not polite. A piece of brilliant runes intertwined under his feet. At the same time, he shrunk to an inch and moved quickly. Where the sword light went, the ancient trees were turned into pieces of ashes.

The emptiness in front of him was submerged by Ye Chen.

Under the pressure of such pressure, the faint light finally showed its original shape, which turned out to be a truncated palm.

The five fingers are as dark as a column, which seems to have existed for a long time, and in the center of the palm, there is a black eye, which is looking at here, and its eyes are very hostile.

When the eyeball is closed, the whole palm changes into nothingness and disappears in the deep space, so it is difficult to find its trace.

Ye Chen and others were surprised. Where did this inexplicable strange creature come from?

Although the palm was only a small part of the deformity, when the eyes opened, it burst out a bright red light, like magma eruption and lightning surge. It was majestic, as if no one could beat it.

"Boy, I advise you not to mind your own business, or you don't even know how to die!"

The voice of the palm also didn't know where to send out. In short, it clearly fell into Ye Chen's ear. At the next moment, the eyeball suddenly expanded dozens of times.

A dark killing machine rose up into the sky, as if it came from hell and wrapped around Ye Chen.

Even heaven and earth are dyed into the color of Cabernet Sauvignon, and the blood is turbulent, like an endless hell.

"Don't put on airs!"

Ye Chen was suddenly angry. He had never seen such an arrogant sneaker. Raise your hand and the Rune of the avenue will evolve into lightning and spray out quickly.

"Eight step floating Tu Qi, floating Tu Dao!"

Futu's strength surged out, and the golden rainbow was like a long river, carrying the sharp knife Qi and attacking boldly.

The mysterious palm Gulu said a few words, and ye Chen couldn't understand it.

But judging from the tone he expressed, it seemed quite surprised.

Ye Chen snorted coldly and started again. This time, he used the snow to bury the stardust. The snow and ice all over the sky floated over, hiding sharp killing opportunities, cold and storming.

The palm was so angry that it shook, but he was helpless and chattered a lot.

Ye Chen is really bored. What old saying does this thing speak? I can't understand it. I just cut it with a sword, clear and quiet.

"Master, wait, I seem to have heard his words somewhere."

Xiao Huang flew forward with a rune flowing body, looked at the palm of his hand and eyes, and then opened his mouth, which is also an old saying.

But ye Chen didn't expect that this statement was right with the palm of his hand. They chatted directly.

After chatting for a while, the resentment of the palm seemed to subside, and Xiao Huang also flew to Ye Chen.

"What did this guy say?"

Xiao Huang's face became a little strange. He looked back at the strange palm and said, "he said he had a deep hatred with Mo Zu Wutian. When Mo Zu Wutian wanted to kill him, he escaped one eye and one arm and hid in this chaotic space."

"With the boundless strength of the demon ancestor, he can't enter it, but he keeps sending people to kill him. The skeletons hanging on the tree are the invaders killed by it."

After hearing this, ye Chen suddenly realized, but at the same time, he had some doubts and doubts.

What kind of existence is this guy? After fighting with the devil Zu Wutian, he escaped one hand and one eye.

Ye Chen can only continue to let Xiao Huang act as a translator.

This palm originally thought that ye Chen was also sent by the evil ancestor Wutian, so he moved to kill, but he found something wrong.

Most of the subordinates of Mo Zu wudian practiced the martial arts of the old times, but ye Chen obviously did not.

This palm has been hiding here for thousands of years, and he also knows that this road is extremely difficult and dangerous, and ordinary people won't come at all.

Those who want to pass from now on just want to secretly enter the old alliance, and even sneak into the devil ancestor Wutian!

Chapter 7079

This palm of the hand expresses his anger in a timely manner, saying that he can help Ye Chen a helping hand, but ye Chen must help him to do one thing: take out the essence contained in the old tree.

Ye Chen glanced at the ancient trees over there and looked at the bones hanging on the other side, even if he agreed.

"Don't promise him. I'm afraid there's fraud."

Shen Tu Wan'er pulled Ye Chen's clothes and said in a deep voice.

"Don't worry, I know."

"Xiao Huang, if you convey this meaning to him, you say that we are going to kill devil Zu Wutian and avenge our parents."

Xiao Huang was stunned. Aren't they going to save Yuchi Yao? How did it become to kill the devil? Is that the one they can kill?

But ye Chen's eyes, some meaningful, he and Shen Tu Wan'er looked at each other for a few times. Shen Tu Wan'er nodded slightly.

Xiao Huang was a little confused. He turned his head and conveyed Ye Chen's meaning to the palm of his hand.

That blood red eye bead, suddenly solidified, seemed to be a little surprised.

But soon it giggled.

"Since you want to kill it, I can help you."

In front of the eyeball, there was a channel, which, according to him, could lead directly to the interior of the old alliance.

In this way, they can seize the opportunity.

Ye Chen thanked him for his kindness, looked very excited, and then took Shen Tu Wan'er and Xiao Huang.

At the moment they entered the channel, the eyes on their palms suddenly tightened, and countless blood knives came across, directly blocking the entrance of the space.

The eyes gave out a cruel laugh.

But the next moment, it suddenly stopped.

Because not far away, a ray of thunder came and the residual shadow appeared.

The body cut into several parts by the blood light is just a separate body. Ye Chen uses a cover up to make the other party mistakenly think he has entered.

It quickly avoided, suddenly looked, and saw Ye Chen standing on the other side unharmed, while Xiao Huang was chirping and looking very angry.

The eyes could not bear to fall behind. He opened his mouth and roared. In an instant, it was red, like a red river.

The surrounding void is constantly collapsing, tearing and twisting.

But sooner or later, ye Chen summoned the mother sword formula of all things. The power of the nine heavenly divinity can destroy everything in the world.

At that moment, the power of the mother sword formula of all things was reflected incisively and vividly, constantly trembling and bursting out with brilliant light.

Between the lightning and flint, the little sword penetrated into the eyes, and a line of mysterious runes swayed and flickered.

Eyeballs cracked and blood splashed.

This mysterious and terrible eye, a layer of scarlet light, covered it, the light was dazzling, and the severe pain spread rapidly.

On the other side, ye Chen took advantage of the victory and pursued, and the shining runes condensed into a Golden Snake spear hundreds of meters long. In an instant, everything pierced through heaven and earth.

The eyeball roared wildly, and his eyes became extremely cold and fierce. For a moment, he saw only an abyss and hell emerge, opened the bloody door, and burst out a strong attraction.

This adsorption force seemed to suck Ye Chen's whole person in, which was extremely powerful and shocking.

But ye Chen was not afraid. He waved the disaster Heavenly Sword. The light from the sword was incomparably bright, and the endless gas of disaster surged rapidly, with a little magic light.

In that magic gas, the blood gas of the crown of thorns emerged. At this moment, the stars of the universe were eclipsed.

Suddenly, the palm stopped attacking. In his memory, there was a floating crown of thorns, which made him feel uncomfortable.

The black eye showed the color of fear.

"This... This is..."

He seemed to feel some kind of particularly terrible Qi machine. He was immediately surprised and his whole palm quickly retreated.

Ye Chen also found such abnormalities, moved his mind, and then continued to follow up. The light of the disaster Sky Sword won a point. At the same time, he mobilized more power of the thorns crown.

It's like when the enemy advances and retreats, and when the enemy retreats and advances, such an offensive trend is formed between the two.

The palm had changed from fear to fear.

Ye Chen didn't know what he saw. He just looked at him and shouted. The whole palm spontaneously ignited without fire. The flame began to erupt from his eyes and spread to his whole body.

This time, not only Ye Chen, but also Shen Tu Wan'er and Xiao Huang, who were besieging from the side, were stunned.

They have no idea what happened.

The palm shouted wildly, thousands of cracks appeared, and then burst open.

The palm burned out and broke down in an instant. Even completed self Immolation in the void.

Then a wisp of remnant soul rushed out at an incredible speed. In the fog covered by the disaster sky sword, a wisp of blood swept out, firmly binding the remnant soul melted by the palm of the hand.

"Please, let me go. I really don't want to die so early."

The pleading sound of the palm came into Ye Chen's ears.

Ye Chen only wondered how the palm was made? Did the crown of thorns ever have some kind of origin with it?

On the other hand, the eyeball burst into pieces and disappeared, and the huge palm disintegrated and burst into bursts of blood.

Everything came so suddenly that ye Chen almost didn't react.

"Say, why are you afraid of the power of the crown of thorns? What do you have to do with it?"

Ye Chen thought of the nine evil demons and hell demons he met in the void. Their identities were also very mysterious. I don't know where they came from. They were finally sealed by the immortal sword. They can't get away for thousands of lives

The eye you met in the forbidden area is attached to the palm of your hand. It is also powerful and powerful.

In those years, he escaped from Wutian's hands and got rid of Wutian's pursuit. In this void, he didn't know how many targets he had hunted and lived a very moist life.

At this time, the remnant soul was obviously afraid. At this time, they didn't dare to talk, but begged hard.

It turned out that he also came from that mysterious time and space. He used to be the elder of a certain ethnic group, but then time and space collapsed and the world changed dramatically. They had to flee there. Only a few people came to this place through the void.

Hearing this, ye Chen guessed that the mysterious palm should come from the same place as those guys.

What a boundary it is! It was possible to give birth to several such statues.

If the demon in the sword god space had not been suppressed by the immortal sword, I'm afraid it would have caused no small disaster.

In front of them, the combination of palms and eyes is also very powerful. It can fight with the devil ancestor Wutian, and escape part of the residual body. It can be seen that it is powerful to stay here and take root.

Chapter 7080

Ye Chen closed his eyes and meditated. Suddenly, he remembered the scene of black fire when he first arrived at the xuanhai sea.

The monsters attacking xuanhai are full of magic and unpredictable, as if they do not belong to the real world.

This is not one or two cases. Maybe you can go back to the edge of xuanhai to see what the foreign ghosts are!

At this point, ye Chen sealed the remnant soul into the crown of thorns, and the nine heavenly divinity seems to be very useful. He completely took the blood gas burst out of his palm as the absorbed nourishment.

Ye Chen can also feel that the magic power of the crown of thorns has become stronger, which is a change from inside to outside.

In this line of work, they did not find the general forum of the old alliance, but first strengthened their strength to protect their lives.

They continue to move forward, and this time ye Chen speeds up. After two difficulties, they need to cross a snow mountain to reach the world independent altar, where Yuchi Yao is imprisoned.

When ye Chen stepped on the snow mountain, he couldn't help slowing down.

Because the so-called snow mountain is not covered with a large area of pure and elegant snow, but filled with many dead bodies. The blood is red on the edge, which can not be recovered for a long time.

Shen Tu Wan'er had seen many cruel scenes, but Rao was so shocked.

"I once went to the ancient battlefield with my mother. There were two flags that had not fallen. The soldiers on both sides guarded them with their lives, but at that time I saw only a few thousand people. Now, it should be more than a million."

Shen Tu Wan'er said and looked up.

Xiao Huang directly stood outside, deduced the cause and effect, and his face became particularly dignified.

"There should be no enemies, but master, it will be difficult for us to think about the past. There are regular runes everywhere. If we are not careful, they may be cut into pieces."

Ye Chen nodded. Looking into the distance, he seemed to see a blue planet, suspended in the universe, very huge.

It exudes a glittering and translucent luster, like a gem blue.

Every planet is emitting a warm light.

Ye Chen thought of the corpse mountain and blood sea he had just seen. He was suspicious, so he immediately popped up a spiritual thought and entered it. In a moment, the rich blood color suddenly broke out and swallowed the spiritual thought.

Ye Chen quickly cut off the connection between him and himself. When he opened his eyes, he was full of dignity.

Under the ice blue star, there is a sharp killing machine hidden, which can never be underestimated.

"It seems that it has been integrated into a set of arrays. Taking heaven and earth as the array, it spreads tens of thousands of miles. It is a high mountain and uses great magic power!"

Shen Tu Wan'er has lived in the world since she was a child. She has rich resources, respected status and different horizons from ordinary people.

The array she knows is very powerful even in the world.

"Anyway, now that we have come here, we must move on!"

Ye Chen took the lead in stepping forward. Those light blue stars trembled one by one. Streamer after streamer, like grains of sand, splashed down endlessly.

There was a gap in the void. The low sword light, like floating objects, floated up and down, shook and trembled.

Ye Chen used the magic power of the water stop sword. After he understood the two nine heavenly divinities, the meaning of the sword became more and more mellow and transparent, and he could bring out more power from the distant time and space.

Don't underestimate this tiny power. Putting it into the real world may increase Ye Chen's strength several times or even dozens of times.

This sword, like a water stop, cleaved the iceberg and snow field and forcibly opened up a channel.

"A sword of water will reverse heaven and earth! Heaven and earth are limitless, and Tao and heart match each other!"

Ye Chen seems to be an eagle, spreading his wings for nine days, pounding the reality, towering and unpredictable.

Shen Tu Wan'er and Xiao Huang were shocked by the power of Ye Chen and marveled at it one after another.

The next moment, ye Chen took the lead in rushing into the channel split by the sword Qi. Shen Tu Wan'er and Xiao Huang quickly followed.

With Ye Chen here, they don't need to spend much effort, and all the troubles are solved!

The misty fog broke the shackles of the water stop sword and rushed from behind them, surging like a sea monster.

Ye Chen used the power of rapid movement to hold one person and one beast around, shrink the ground into inches, and condense the tracks into clouds.

That layer of fog seemed to emerge from the universe, quickly swallowed everything up and burst into the most powerful unparalleled power.

When the last mist completely engulfed the iceberg and snow field, ye Chen and others just stepped out, full of dangers and excitement.

Xiao Huang sat on the ground, panting, but her big eyes were very excited.

"Master! It was so dangerous just now that we almost couldn't escape!"

He said and danced at the same time, which made Ye Chen cry and laugh.

"Use your red and blue pupils to see how far we are from the old alliance's station!"

Ye Chen hurriedly said that it is urgent now. They must reach the general altar as soon as possible and rescue Yuchi Yao.

Any fluctuation along the way, as long as it comes out a little, will lead to the crazy pursuit of the old alliance!

So now they are racing against time!

Xiao Huang nodded hard, and then flew up. Waves of invisible waves spread outward from it as the origin, cutting open layers of empty folds.

Xiao Huang's body is the nightmare beast. In addition to the previous martial arts, his blood also has the means of loving dreams. Of course, he can also make dreams and cultivate to the peak of the nightmare Protoss. With one thought, he can pull the enemy into the dreams he has made, so that he can't tell what is true and what is false.
