Chapter 7311

If he wants to become an immortal thunder body, he must integrate with the thunder power of ancient Taiyin.

The way of integration is the complementarity of yin and Yang!

So ye Chen is not sure whether the other party can accept this way.

But at this point, things seem to have taken a turn for the better.

Ying Hongyan is in a desperate situation and in urgent need of rescue, and he is considering whether to take action.

The idea flashed in Ye Chen's mind for a moment, even if she made a choice.

"OK! I can save your life, but you have to do something for me."

Ye Chen said to her in a voice that only two people could hear.

Ying Hongyan was overjoyed when she heard the speech, and immediately nodded and agreed.

"Remember, your oath has been certified by the way of heaven. If you don't abide by it, there will be thunder robbery. If you go back now, it's still time!"

Ye Chen reminded him that although he wanted to get the power of the Taiyin thunder, he didn't want to plunder in a despicable way.

In that way, it goes against his heart!

Ying Hongyan nodded without hesitation: "I promise you!"

She has never had contact with Ye Chen, and she doesn't know who he is, but just by virtue of Ye Chen's words, she is a thousand times better than Zhen Xingyu.

Deep in the sky, a thunderbolt flashed, which was the sign of heaven's testimony oath.

The oath of the Lord of reincarnation is more valued by the heaven than the oath of others. Once the other party repents, the heaven will mercilessly punish him.

Ying Hongyan was relieved. She turned back and looked at Zhen Xingyu and others coldly.

Many people around witnessed all this. They were curious and confused.

That person seems to only stay in the selection stage! It's really bold to face Zhen Xingyu without entering the sect door.

Many people gloat over the misfortune and put their hands around their chest, ready to see a good play.

Zhen Xingyu's own strength is not strong, but his background is deep, and he takes a group of thugs everywhere.

In this land, few people dare to do right with him.

Zhen Xingyu seems arrogant, but he never annoys people he can't provoke. For example, those real inner disciples are the pride of heaven. They are all the personal disciples of the supreme elder!

Although his grandfather was the third person of Tailei God, he didn't cover up the sky.

But for ye Chen, a rookie who has not yet started, Zhen Xingyu will not be polite. His eyes are gradually cold.

"Kill him for me, beat him until he is disabled, and then catch him."

Zhen Xingyu waved and ordered, expressionless.

No one dared to stop in the presence.

Those outside disciples sneered. They formed a circle and killed Ye Chen.

The sky is full of thunder and shadow, which is murderous.

Even though ye Chen's talent is outstanding, he has never cultivated to a great level. It's easy for them to grasp it.

These people joined hands, and even tianleizi and Wang Cheng could not escape.

But ye Chen did not shrink back, but let Ying Hongyan retreat.

"You..."

It should be easy to open your red lips and stop talking.

"Don't worry. I'm sure to deal with these minions. You should stand as far away as possible so as not to affect you."

Ye Chen's head didn't turn back, corresponding to Hongyan said.

Ying Hongyan gave a clever hum and then retreated to the distance.

The palms of her hands were sweating!

These people are not small minions!

With a wave of Ye Chen's palm, the disaster Sky Sword appeared.

In order to save Ye Luoer, he used the Longyuan Heavenly Sword, summoned the blood dragon virtual shadow, flew out of the void, and cracked the array of the two elders of the xuanming.

Of course, he had to use it when he extremely urged the reincarnation blood and the situation at that time.

He changed a Heavenly Sword, held the handle tightly and said, "since you want to die, don't blame me for being rude!"

He doesn't intend to deal with these people with Rafah. He just wants to make a quick decision.

As soon as he read this, his sword Qi burst out, and the momentum of disaster roared like thunder.

Deep and bright colors burst out from the sword bones, solemn and filled with the meaning of killing.

The disaster Sky Sword manipulated by Ye Chen has reached the state of the unity of man and sword. Waving and cutting it, it forms a crisscross vertical and horizontal sword Qi, which pervades the world and has an appalling momentum.

In the light of the sword, a disaster dragon roared out, rolled up thousands of rivers and smashed thousands of mountains.

The whole Leifa ashram seemed to be shaky and vulnerable.

Not only the several external disciples flying in the air, but also the spectators were stunned.

However, they have no retreat at this time.

That solemn sword light ran straight through the world.

The other party felt the tremendous energy contained in the sword light, and had no way to retreat. They could only bite their teeth and block.

But the sword Qi suddenly changed, as bright as blood, and almost condensed into a bloody ocean.

WOW!

The startling sound of running water, like a waterfall, shocked the outside disciples!

Their thunder method has no ability to fight back in the face of disaster Tianjian.

But it was too late to avoid.

The sword Qi of the disaster Sky Sword swept over and drowned the two outer disciples who rushed in front.

They didn't even scream in time. Their bodies cracked on the spot, splashed with blood, melted and collapsed in an instant and turned into a wisp of smoke.

Those people in the back suddenly turned pale in horror and quickly retreated. They didn't expect that the boy's sword moves were so strange.

"Get back! He's not an ordinary monk!"

"What way does this boy use? It's impossible to prevent."

In addition to them, the people present were also surprised.

"So this guy is still a sword monk! Isn't it against the rules? Lei Xiu's territory doesn't allow other monks to come in!"

"No, he didn't use the sword technique to break through the pass, just to deal with the people under Zhen Xingyu!"

"I think what the elder brother said in front is reasonable. Even if it is a religious rule, it can't deal with him!"

People in the audience began to talk about it. After all, ye Chen killed two external disciples. Such strength has long met the standard of entering Tailei sect.

The remaining martial artists, look at me and I look at you. They are all at a loss.

That sword light is really terrible.

Let them tremble and tremble, and their teeth tremble up and down.

"There's no need for you to keep helping tyrants and harming innocent people!"

Click!

Ye Chen waved his sword again, and the disaster gas was like a black flood, killing and attacking.

The remaining few people were seriously injured in an instant.

Battles often occur only between lightning and flint.

Ye Chen showed his exquisite Kendo, and the profound meaning formed a strong blow.

He is well versed in Kendo and his sword is exquisite and powerful.

Everything is in the electro-optic flint room!

The remaining people vomited blood wildly, and finally could not escape the fate of death. They were crushed into dust by the sword light.

Chapter 7312

Ye Chen was decisive in killing them and moved a strong heart to kill them.

Since you don't want cause and effect, it's over quickly.

Hesitation is not ye Chen's style.

After killing all these people, he looked directly at Zhen Xingyu. That meaning was very obvious.

Fight if you want!

Zhen Xingyu is stupid. He has never met such a bold challenger.

People watching the war are not calm now.

Several elders came out and stopped the fight. If the fight continues, I'm afraid Zhen Xingyu will also be killed!

"Presumptuous! Tai Lei God sect is a holy land for cultivation. How can you kill at will!"

The famous elder belonged to Grandpa Zhen Xingyu's faction. He immediately became angry.

He clapped the palm of a divine thunder and roared to Ye Chen.

But ye Chen didn't flinch, and went straight to the God's palm, which was mysterious and cracked!

"I'm afraid you're not qualified to judge me!"

Ye Chen snorted and used the method of thunder cultivation to use the cave in his body.

The violent thunder suddenly flashed out, one after another, and immediately gathered thousands of invincible visions.

"What!"

The elder was immediately surprised.

He didn't have time to think about it. He immediately protected himself with thunder and blocked the front with thick thunder armor.

But it doesn't work!

Because ye Chen's thunder is extremely pure and sacred. It was born in Jiulei cave. The rules of the world have no defense against it.

However, when ye Chen's Nine Yang thunder light was about to break through the elder's body, the space law here solidified.

The mysterious Rune appeared and turned into two divine thunder, connecting the thunder Taoist field.

"That's enough. So far, the second round of competition is about to begin. Stop."

The voice was old and powerful. People looked for prestige. They saw xuanlao out of the two xuanming elders coming out of the void.

He is tall, so he looks forward to electricity in his eyebrows and eyes, and the weather is very dignified!

The female elder, the ghost girl, was still as expressionless as an iceberg, like an ice sculpture without any feelings.

The elder who shot Ye Chen was unwilling, but he could only retreat.

At the same time, he winked at Zhen Xingyu.

Zhen Xingyu's eyes were gloomy, but he could only give up for a while. He looked at Ye Chen fiercely and then disappeared.

Seeing xuanlao, the contestants who were watching the excitement also came forward one after another.

A total of 200 people have to pass a round of trial before they can choose the last core inner disciple.

Others will directly recruit external disciples, starting from ordinary disciples.

One can imagine the gap, so the competition will be very fierce.

For Ying Hongyan, her mood is happy and complex.

After ye Chen shot, she did save her life and let her avoid being insulted by Zhen Xingyu.

But at the same time, he also made a vow of heaven, and may not be able to fight ye Chen.

Ye Chen's real opponents are only tianleizi and Wang Cheng, and two leixiu twins. Those two were second only to Wang Cheng in the last round of tests.

Xuanlao lost his hands behind him, with a very noble posture.

He stood in the air, and his hands began to seal. Behind him, a faint thunder came out of the void crack and immediately covered the whole Leifa Taoist field.

"Today's second round of experiment is difficult to say, but it's simple and simple. As long as you can pass the thunder idea I laid, you can stand out! Whoever breaks it first will directly become the inner disciple of our Tailei God sect and enjoy the same privileges as other inner Tianjiao."

Hearing this, the eyes of the 199 contestants, except ye Chen, gradually glowed.

As Lei Xiu, they naturally understand what it means to enter Tailei sect, and this time they are still competing for the top position among the younger generation of Tailei sect.

If it were normal, they might have to practice for thousands of years to reach such a state, but now the opportunity to ascend to the sky is in front of them. How can they not cherish it?

Everyone took a deep breath and felt ready.

After all, the thunder light summoned by xuanlao doesn't seem to be very strong. What if it is cracked.

Xuanlao nodded, and the smile on his face became a little strange.

"In that case, let's start!"

The faint thunder shrouded 200 people in it. It was extremely calm and there was no movement.

But if everything is too calm, things will turn upside down!

Ye Chen didn't do anything. The Nine Yang cave in his body opened automatically, emitting turbulent thunder, protecting his limbs and viscera.

Ye Chen's expression was suddenly chilly. He must have noticed something in Jiuyang cave in his body! Will erupt voluntarily.

Sure enough, the next moment, those dull thunder light had a drastic change.

It seems that a wasteland has the smell of riot and killing, rising and roaring into the sky.

The visions turned into evil demons and spread to the other end of the sky.

The endless fire of thunder landed and buried here.

They stand in the center of this array, very careful, move left and right to avoid the sky fire and thunder. If they touch, they will leave traces on their bodies.

"What's going on? The change is too sudden!" one Lei Xiu was shocked. The pressure came like a mountain. It was difficult for him to escape. He waved his fist directly, interwoven with green light, and went upstream.

But he paid a painful price. The whole person was hit by thunder and fell on the spot!

The bright thunder, surging like auspicious Poria cocos, blocked his retreat.

Chapter 7313

These thunders are like a chain of order, scattered with the brilliance of lightning, across the sky and cut the thunder in two.

Then, there are countless electric lights winding out, frying the rest of the body into powder and solidifying into ashes.

When everyone saw this scene, they all took out defensive weapons and magic weapons.

Now what they are thinking about is not to break the towering thunder array, but how to survive under the thunder robbery.

What xuanlao said about Lei Yi is really not simple!

Ye Chen also summoned the divine lotus armor, which floated on the surface of his body and blocked the thunder of sky fire.

Rao was so, he was also shocked by the violent atmosphere.

Restlessness and restlessness began to spread. Although Lei Xiu had outstanding talent, he didn't sharpen much and lacked experience.

After a while, my heart became uneasy. I didn't even want to participate in the test. I just wanted to escape here.

As time went by, they found that they couldn't escape at all. Even if they asked for help, no one agreed.

Many people have some regrets. They knew that they would not be so heroic and dry clouds. They happily promised xuanlao.

I thought I could come in and take a share, but I almost died.

Ye Chen, Tian Leizi, Wang Cheng and other top Lei Xiu youths stayed where they were and watched the change.

But other practitioners can't control so much.

In a canyon near the cave, seven or eight Lei Xiu rose to the sky and broke through the siege together.

They roared loudly and rushed to the thunder sky fire. When they approached, they quickly separated, with thunder marks on their hands and shining purple between their palms.

The thunder wants to force and break through this barrier to help them escape here.

But in the middle of the thunder and fire, a huge face appeared.

After being identified, the people below were immediately surprised, because the huge face was carved out of xuanlao's appearance!

He integrated a ray of thunder into the array and turned it into bloody thunder.

This practice makes many people gnash their teeth, but dare to be angry and dare not speak.

Soon, there was an obvious strange smile on that face.

He opened his mouth and a thunder breath took shape.

"Get back quickly. He's going to attack!"

The man closest to the big mouth shouted in a very anxious tone.

But it was too late. In an instant, the thunder was flying and bloody, and the God awned and shook the sky.

The thunder was like the falling of heaven's fire. Seven or eight experimenters were beaten to death. Their souls were separated from the body and smashed into the mountain below, breaking a deep pit. Since then, their life and death are unknown.

Many Lei Xiu hurriedly retreated to avoid the shock of Lei Yi.

Among the rest, the weaker part was hit hard by the aftershocks.

When the thunder of xuanlao virtual shadow broke out, their eardrums broke, blood flowed outward, they had a headache and were bleeding all over.

Boom!

More than a dozen people close to each other burst into blood mist.

Blood filled the air, deep into the ear. The scenery was flirtatious and strange.

"It's not thunder at all, but a killing array. Let me out quickly. I won't participate in your broken trial!"

Several Lei Xiu roared angrily and wanted to escape from here, but the next moment, the cry stopped and only bursts of blood scattered.

They were also hit by thunder and turned into a pile of corpse dross.

On the other side, ye Chen stayed where he was and didn't move.

He has been observing this array. When the ghost face appeared, all the burst blood fog seemed to be sucked away by a burst of evil Qi and slowly rose to the sky.

Ye Chen used the reincarnation heavenly eye to see that the blood turned into thin lines and drilled into the pores of the ghost face.

The grimace showed an expression of enjoyment.

This thunder mind array must have some changes before it becomes a crazy array of killing people!

In other words, this array was born to kill people.

Ye Chen doesn't know whether the elders outside have found this abnormality, but he knows that he has to rely on himself to get out of trouble!

Perhaps this is the test they set. Whoever can break this face will become the ultimate winner.

"Let me come!"

Tianleizi finally couldn't restrain himself and launched an attack. He urged a treasure of thunder repair.

That magic weapon, which is similar to the devil subduing pestle, is extremely dark, but when it is launched, it has inexplicable luster, as if it communicated with the silent thunder in the deepest part of the void and built a void thunder Avenue.

"This is the handed down treasure of our Tianlei family: Lei Xiaotian blade! Today I will use this magic weapon to become famous in the first World War and break your thunder intention!"

Tianleizi's tone is very arrogant. It seems that he has this blade in hand, so he can rest easy.

The grimace was answered with a deep smile.

At the next moment, two black hole vortices slowly formed in his bloody pupils.

There, the purple thunder slurry turned into two small rivers, extending down. The momentum is not high, but it makes people feel that death is approaching.

Tianlei Zihua used the power of thunder and the light in his hand flashed. The Lei Xiaotian blade turned into a huge sky pillar and stabbed forward with thousands of thunder light.

Like the Kuafu giants in ancient times, they walk day by day, fearless and want to compete with the Lord!

The crowd only heard a loud bang, and the thunder blade exploded into several pieces.

The ancestral artifact of the Tianlei family was destroyed.

And tianleizi was also backfired, spitting blood at his mouth and declaring that the challenge failed.

Unable to fall, he bit his teeth and returned to the ground with his last strength.

Facts have proved that the strength of both sides is not at the same level!

More than 100 practitioners in the test field felt waves of despair. Even the top three tianleizi couldn't crack this array, and they couldn't.

In this way, three hours later, the blood color on the sky did not subside, but became more and more turbulent, and the ghost face appeared and disappeared from time to time, very arrogant.

During this period, some people tried to break through, but none of them could survive. Almost all of them were killed. No one broke out, so they were very anxious.

The ghost face in the sea of blood seemed to grin, and a divine thought came out faintly. Lei Xiu, who broke through the primary level, could understand the meaning.

The grimace Lei Yi is telling them that no one can leave. They all want to die here and become his nourishment.

Hearing this, everyone looked excited!

This guy is too arrogant. When he opens his mouth, he wants all of them to die.

But they tried a variety of methods, but they could not resist, or even penetrate the sea of blood and hurt them. This is the most desperate place.

"You want to take everyone's life? Is that true? You are just a thunder, not a real bloody creature. I'm afraid you can't do whatever you want!"

Just then, a voice came, calm and indifferent, but it sounded like thunder on the ground.

Chapter 7314

People looked back one after another, and finally their eyes locked on the corner. There was a young man in black, with no waves on his face and no fear at all.

This person is Ye Chen.

Some people are not only worried, but they have not found a way to deal with the ghost face thunder. Ye Chen makes a provocation at this time, isn't it accelerating their pace of death?

The grimace's eyes were cold and locked Ye Chen underground, but ye Chen was not afraid at all. The blood in his pupils was burning like chaos, which was hard to see through!

"Lei Di! With a ray of your chaotic Qi, I want to break the so-called thunder idea!"

"Good!"

In the reincarnation cemetery, the voice of chaotic Leidi came out, accompanied by a very thin blue light.

That's the spirit law of chaotic emperor Lei, which is integrated into ye Chenqi's body.

The momentum of Ye Chen's whole person has undergone earth shaking changes, but from the surface, the momentum has not changed.

Only in a small range, only Ying Hongyan who was closest to him noticed it.

Ying Hongyan's eyes were confused for a moment, and her pupils shook immediately, because she seemed to think of some possibility. Immediately, her eyes looking at Ye Chen became suspicious.

Ye Chen turned his head and nodded at her, motioning with his eyes not to make a sound.

Ying Hongyan's eyes flashed, immediately nodded and showed a relieved smile. Today, they can be saved.

"It's just an evil idea born in a thunder. Who gives you the qualification to kill all living beings and take human lives wantonly?"

At this time, ye Chen's eyes narrowed slightly, and his clothes were windless.

He stepped out step by step, with an incomparably brilliant momentum, just like the road of heaven, which made Lei Xiu who stood in front of him step aside one after another.

When they stepped aside, they suddenly woke up. It was just an unconscious action, and they naturally obeyed.

What kind of strange magic can make them fear from the bottom of their heart?

"Make way for me."

Ye Chen's voice was calm, but it contained the ultimate dignity. At this moment, all things in the world were good and opened a road to the sky, reaching the sky, and this sacred and brilliant momentum also shocked the ghost faces in the sea of blood.

Ye Chen stepped on the avenue to heaven and picked up the steps.

Suddenly the light came, like a mist.

In front of him, an ancient, simple and elegant door was opened, and invisible waves rolled in, condensing a cloak woven by lightning behind him.

It was like the emperor coming, the vigorous wind was mighty, and the waves turned into divine light rushed into the sky.

The golden crown appeared impressively and fell slowly. The people below held their breath and dared not speak a word.

This power is the supreme imperial power, which can't be resisted by secular mortals!

Ye Chen walked into the air. Although he was in the opposite position under the grimace, he felt like an emperor coming and a sense of condescending contempt.

In the palm of his hand, there was a vast ray of thunder, shot forward, carrying irreversible great power

Huge, daunting and irresistible.

The ghost face, for the first time, showed a panic color, and its pupils showed a bloody thunder image in the black hole.

They bite out of the sky with their tusks. They are just aggressive and penetrate the sky.

At this time, the grimace seemed to open the snow-white tusks, flashing a dark light, and ran out at the same time with the metallic murderous spirit to meet the emperor's thunder palm.

But both momentum and power have fallen.

Ye Chen's power comes from the chaotic God Emperor, who was born in a chaotic place and carries the founder's Hongmeng ancestral Qi!

"Chaos thunder!"

The thunder in Ye Chen's body is shining with sacred luster, which is integrated with the chaotic thunder, just like a raging flame!

At this moment, ye Chen felt the power of the real chaotic God thunder. He can think of how the chaotic thunder emperor killed the four sides and became the king in the ancient times.

Because this array of power is really terrible. Just a ray of residual thunder of the spirit is enough to make all sentient beings tremble!

A loud bang!

God thunder collided with the blood light of the ghost face.

The contradiction was sharp, sonorous and sharp. The giant palm hiding divine thunder was safe and sound without any damage.

On the contrary, the blood light emitted by the ghost face stood quietly after being shot down, but then there was a click spread, and endless cracks appeared on it.

The blood light rolled and collapsed like thunder, shaking the whole wasteland. Two lines of blood and tears flowed out of the pupils of the ghost face, which looked terrible.

The people below were shocked. How much power must this golden light God palm have to penetrate the ghost face in the blood light and hurt him!

They have exhausted countless methods and are unable to change.

And ye Chen just clapped a palm and had such divine power.

This guy's thunder repair strength is obviously very low. It's like that he hasn't mastered the complete rules since he just stepped into the realm of thunder repair.

However, on the way of cultivation, we can understand the great opportunity and great fortune, which is vast and endless.

"This guy is too strong! Such strength can seriously hurt xuanlao's thunder idea. If he can practice for a few more years, he can do it!"

"We all underestimated him! The reason why the thunder idea can't be broken is that the law of order contained in it is too huge, and our own understanding has not reached that level, so we can't break it!"

"I see what you mean! The understanding of Ye Tianxia's thunder method has surpassed the ghost face, so it can be suppressed! It has nothing to do with strength, but with talent!"

"Exactly!"

“.....”

Chapter 7315

Among the crowd below, some friars are of average strength, but they have a wide range of knowledge. They have traveled all over the world, experienced many anecdotes and strange things, and read many ancient historical books.

Therefore, it is particularly clear about some leixiu rules and additional competitive means.

Just as everyone was talking, the ghost face seemed to be angry.

He opened his mouth and uttered a roaring laugh. Black runes poured out one after another in his bloody eyes, turned into two thick black thunder, and flew out, almost across the whole space.

Everyone felt a palpitation!

Grimace, this is a dying counterattack!

Two black thunders pierced the void, cut through the sky and came in a fearless manner.

This is the ultimate embodiment of Lei Yi and its killer mace.

In the middle of the sky, the two black thunder gradually changed into a blood red color, quietly and silently.

Grimace wants to take this to cut off Ye Chen's palm God thunder and disintegrate the power of chaos.

But will ye Chen be unprepared?

The blood of reincarnation surged into a river, like a river flowing eastward. All of it poured into Ye Chen's arms, and immediately emitted a brilliant light!

"Do you really think I'm afraid of you?"

Ye Chen couldn't help humming coldly.

His body is flowing with the power of reincarnation, which belongs to the way of heaven, which is the ultimate embodiment of the greatest divine power in the world.

This is also his first time to combine the power of reincarnation with chaotic divine thunder!

In an instant, it produced unexpected results.

I saw that the God thunder in the palm didn't stop. There was a faint blood light in the tumbling. When I slapped it forward, it smashed all the two black thunders, turned them into lonely fragments and disappeared into the void.

Such a terrible black thunder almost penetrated the eight wastelands, but it was broken by that palm.

The ghost's face was shocked and cracked. After being brushed by the golden light, the endless sea of blood in front of it finally broke, and it also flew sideways, hit the thunder prison in the sky, rushed down again, and penetrated the wilderness and mountains.

"Ah!"

The crowd could hear the sad roar of the faces.

Like a continuous metallic trill, it stimulates people's eardrums and makes them have a splitting headache.

"Don't let this thunder run away!"

Someone shouted, rushed up, gathered thunder in front of him, rushed into the mountain forest, faced the deep pit, and wanted to kill the faces that fell into it.

But how do faces exist?

Even if you are seriously injured, these mole ants are not allowed to be easily contaminated!

After the fall, the face became only the size of a grinding plate, but the whole face was still gloomy and ferocious.

When he opened his mouth and vomited, the black air swept out, and several young Lei Xiu running in front of him were caught.

Those Lei Xiu immediately screamed. Under the attack of rotten weapons, their skin and flesh melted rapidly and exposed their bones.

All they heard was a click. Their limbs began to break, their bones were misplaced, and sharp bone spurs were inserted into their bodies, making bursts of screams.

The people behind quickly stopped, looked frightened and woke up immediately.

"You'd better not act rashly! This guy is still arrogant. We have to find a way!"

Someone suggested.

Everyone wants to kill this Lei Yi and get the qualification to enter the sect.

But no one wants to die for recklessness.

Including Tian Leizi, Wang Cheng and Ying Hongyan.

Ying Hongyan hesitated and withdrew from the battlefield.

With her record, she can enter the top ten without worrying about losing the election.

More importantly, she wants to give the position of the core disciple of the inner gate to Ye Chen.

This feeling is wonderful, but it is also very real.

Ye Chen's performance just now has completely conquered Ying Hongyan.

The ghost face was sprayed with black fog around. When he was about to escape here, a sacred threat appeared on his head.

In an instant, the grimace did not want to, and ran away directly.

"Want to escape? I'm afraid it's not that easy!"

Ye Chen's voice was deafening like thunder, blocking all the fields nearby.

The grimace wanted to drill into the ground, but found that he seemed to hit a steel plate and didn't move.

Boom!

A palm God thunder came here, right in the middle of the grimace's eyebrows, and the chaotic Leighton burst into endless swallowing.

The grimace struggled violently, but could not resist after all, and turned into a handful of powder.

The sea of blood also lost its control of the source, faded its bright colors, burst open one after another, landed quietly and fluttered downward, moistening things silently like a light rain.

"Don't think about robbing me. None of you can take what I want."

When ye Chen said this, he didn't look at anyone, but he said it to everyone!

Some of the arrogant Lei Xiu looked angry and wanted to make a sound immediately, but he thought of Ye Chen's amazing means and stifled his words back.

Nearly a hundred people were present, but no one dared to refute!

Such momentum is amazing!

Ye Chen also absorbed the essence of the thunder idea and slowly realized it.

He has obtained the number of core disciples and become a God in one war.

After losing the control of grimace Lei Yi, the space here is gradually weakened. Next, it depends on who can take the lead in breaking the blockade and breaking through the air, so as to win one of the next 12 places.

Ying Hongyan took a deep breath and looked at Ye Chen with her eyes full of energy and water waves.

And ye Chen also had a response for the first time, nodding slightly at her.

Ying Hongyan seemed to get some encouragement and became very happy. Even if she did her best, she flew away in the air.

The next battle is none of Ye Chen's business. He goes to the void on the other side, where a channel dedicated to him has been automatically opened!

.....

In sharp contrast to the atmosphere of the competition site, the Presbyterian conference hall is located in the back mountain of tareisen.

The conference hall here is the gathering place for the supreme elders and sectarian teachers and uncles to discuss important matters.

It is simple and elegant, Zen minded, and ignites a faint sandalwood. This incense is ground from ancient sacred wood. It has a light smell. Take a sip, and you will feel refreshed and relaxed.

Although sandalwood was diffused, the atmosphere in the conference room was slightly dignified.

Xuanming two elders live in the first place. They both control the life and death power of Tianlei Shenfeng.

About two people are the great elder of Tailei God and a surviving shishuzu in ancient times.

These four people are the pinnacle strength of the taileishen sect. They were originally to assist the sect leader and develop the sect.

But not long ago, the patriarch went to the thunder wasteland to refine his flesh in order to break through the last barrier and enter the legendary sacred realm.

That realm can be said to be only one step away from Lei Di Du, which can be called quasi Lei di.

Today's leixiu world has no thunder emperor. In the years after those two thunder emperors, only one quasi thunder emperor has appeared, and finally hid his body and disappeared.

Chapter 7316

If the previous patriarch can really break through, it will enter the realm of quasi Lei emperor from ancient times. At the same time, it will also pull the Tai Lei God sect to a new height and completely establish the status of the Tai Lei God sect as the first Lei Xiu sect in the world of heaven.

Unfortunately, people are not as good as heaven. The last patriarch finally failed to cross the robbery, ended up dead and buried in the thunder wasteland.

According to the estimation before the robbery, the patriarch has made all preparations.

No one knows what happened on the way.

I only know that the patriarch will never return, and he hasn't returned for ten days, and Lei Xiu saw the thunder cloud like the destruction of the world with his own eyes.

Under the bombardment of thunder clouds, no one can survive!

After the fall of the patriarch, the atmosphere of the whole sect became a little strange.

Shishuzu was closed to practice and couldn't come out. The elder was out on business and happened to come back two days ago.

Xuanming's two elders made their own decisions and planned the celebration meeting, the enthronement ceremony and the current selection meeting.

When the elder came back, he found their movements.

"Two elders, before I left, you didn't seem to mention to me about the appointment of the new patriarch and the recruitment meeting?"

The eldest elder has a gentle appearance, but his face is unhappy and his eyes are sharp. He stares at the two elders of xuanming.

He went to thunder wasteland to investigate the accidental fall of the patriarch.

This is half a month. It takes quite a long time.

Who would have thought that the two elders of xuanming made their own decisions and forcibly pushed the only son of the patriarch to a high position!

Although Ye Shiwei's talent is good, his strength is not mature and he can't take the responsibility of the patriarch at all.

Taking advantage of this half month's opportunity, the second elder xuanming took the initiative of thunder, quickly integrated various resources in the sect, controlled several main halls, and became the actual power holder in one fell swoop.

"In my opinion, the elder and shishuzu can't pay attention to the important affairs of the clan at the same time. You're making trouble from it!"

Xuanlao smiled but didn't speak, and the dark woman's face was expressionless.

"You two are so mean!"

The elder pointed to their noses and scolded angrily, but there was still room between his words.

The only remaining Shi Shuzu was impolite. He patted the table and glared at the xuanming two elders, so he had to use the power of thunder.

Previously, the old injury in his body recurred and needed to be closed for half a month, but it was in this half a month that the zongmen changed dramatically.

When he left the customs, he was already in an overhead state and was kicked out of the core power structure of the sect. How can he not be angry?

In the face of their anger, the two old xuanming didn't panic at all, and even showed a strange smile.

"Don't panic! Who do things for is not doing things. What's more, I have a way to cure your heart! In exchange, you can practice comfortably, and I control the sect for mutual benefit. Why not?"

The words of xuanlao immediately made the eyes of the elder and Shi Shuzu twinkle.

"You'd better explain clearly! Otherwise, don't blame my men for being ruthless!"

Shi Shuzu's tone is still tough, but smart people can hear that he is already giving in!

"Shi Shuzu, if I am sure to completely cure the hidden diseases in your body?"

Xuanlao's eyes narrowed slightly and looked at each other and said.

Martial uncle Zudun was surprised

"Is that true?"

The injury in his body was left five thousand years ago.

At that time, he was at his peak. He was powerful and invincible all over the world.

But later, he lost Jingzhou carelessly. In the process of fighting with a fire repair emperor, the other party applied Yin moves and damaged his thunder foundation.

For thousands of years, his strength has declined greatly. If it were not for the strong strength of Tailei God sect, which can provide him with a steady stream of miraculous medicine, I'm afraid he would have fallen out of the realm of Lei Sheng.

Xuanlao looked at him meaningfully and said:

"That wisp of Tianhuo toxin is stored in your body, which will not only affect your strength, but also reduce your life span. Are you sure you don't want to consider the thunder fruit?"

Thunder Daoguo!

Shi Shuzu took a deep breath and looked uncertain.

Seeing that he still had doubts, Xuanlao motioned the dark woman with his eyes.

The latter waved his palm, and there was a pure white fruit floating slowly where his aura brushed.

This fruit is the crystallization of power bred by nine days and ten earth: Thunder Road fruit!

Shi Shuzu hurriedly asked, "this fruit... Can only be produced by the law of thunder at the end of the starry sky. How did you get it?"

Xuanlao replied, "you don't care how you get it. As long as you can stand in our camp, the fruit will belong to you."

Shi Shuzu's eyes became struggling.

On the one hand, he was unwilling to betray the sect and become a puppet in the hands of others.

But on the other hand, he wanted to get the fruit and recover the injury in his body.

It's hard to be beautiful!

He closed his eyes and was lost in thought.

The elder said in a deep voice, "shishuzu, don't fall into the trap of them two! It must be some false promises to deceive us, let us relax our guard and break them one by one."

Xuanlao looked at him faintly. After he finished, he said calmly: "the elder is so bad. What do you mean I set a trap for you? I'm asking you to stop your loss in time."

The elder looked very cold. Today, he saw xuanlao's shamelessness and said angrily: do you want to destroy the sect? I don't agree. "

As soon as he said this, the atmosphere suddenly became tense.

Chapter 7317

The elders of the sect all became sharp eyed, but they wanted to do it. However, Xuan Lao was still in no hurry, but spoke faintly as if nothing had happened:

"Elder, in other words, your grandson's recent situation is not very good."

In a short sentence, the look of the elder changed instantly.

Zhen Xingyu is the flesh of his heart. Since his only son was killed by a monster in a battle, there is only one single seedling left.

Therefore, on weekdays, Zhen Xingyu is domineering and treats others with dignity, which also has the permission of the elder.

Most rebellions are caused by doting.

"What do you want to do? I can warn you not to touch my bottom line, otherwise no one can bear my counterattack."

Zhen Xingyu is his inverse scale. Anyone who dares to touch it will surely suffer his crazy revenge!

The elder is right. He is one of the best experts of the Tailei sect. Although he is not the best, he has the strength to pull anyone to commit suicide.

Xuanlao didn't understand how powerful it was. He immediately shook his head and said, "elder, in the final analysis, our hearts are still on the same line. It's all for the good of the sect. There's only Zhen Xingyu's grandson under your knee. It's natural to spoil him."

"But have you found a way to solve the problem in his body? If you can't solve it, he will still die within twenty years."

A light rhetorical question made the elder feel like a needle in his heart, which was very uncomfortable.

Zhen Xingyu's practice still has defects, which need to be made up by the Yin power, but where can such Yin thunder power be easily found?

It's hard to find such a natural Yin thunder body for thousands of years.

Xuanlao didn't say much, but a little finger condensed a group of memory pictures and sent them to the elder.

The elder was puzzled. When he accepted the memory and saw the scene inside, he was shocked.

This picture only lasted for a few seconds, but it made the elder's breath rush.

The female disciple in this picture cultivates the most Yin thunder power!

What just flashed through his mind was the battle picture of Ying Hongyan.

Judging from the majestic but dark thunder breath, it is indeed the most Yin thunder force.

Xuanlao didn't answer, and his eyes became deep.

"You should also feel that this daughter is a descendant of Ying family abroad. She has strong talent and has the blood of the most Yin thunder. The only thing that can save your grandson is the most Yin thunder."

"This female disciple, Ying Hongyan, has broken into the top five of the experimenters. I can ask the nether daughter to take him as an apprentice and teach him the power of ice thunder. After mastering the operation law of his thunder method, I can freeze him and send him to your grandson to break the wall and blossom and recover his injury. What do you think?"

I have to say that xuanlao's words hit the big elder's pain!

If he could cure the hidden disease in his grandson, he would not hesitate to die.

Xuanlao continued: "don't forget that only the cold thunder power of the nether daughter can eliminate the negative impact of the Yin thunder power and let your grandson survive the disaster safely! If you want to forcibly catch this daughter and heal your grandson, it's not impossible, but you have to think about the consequences."

Xuanlao's words are not threatening, but stating the facts. Although Zhiyin thunder can cure Zhen Xingyu's injury, it may also bring greater damage.

Therefore, the elder needs to seriously consider it.

The elder's face became cloudy and sunny.

He never thought that xuanlao had already made all the preparations to persuade him and Shi Shuzu.

He was concerned about sects, but he paid more attention to the inheritance of blood.

Removing the disease and restoring strength for Zhen Xingyu is what he has always wanted to do, but he can't find a way.

Now the opportunity was in front of him. He closed his eyes and meditated. After a long time, he slowly opened his eyes and vomited a mouthful of turbid Qi.

"OK, I promise you, but on one premise, you must not damage the interests of the God of thunder."

"Of course, I take over the Lord's affairs with the nether daughter. You just need peace of mind and help. We will work together to bring the Tailei God sect to a new height and even break through the field of Lei Xiu! Lei Xiusheng is an ancient force in the world of heaven, and it's time to return to the position of overlord."

Xuanlao's tone contains a faint domineering spirit, which is where his ambition lies!

Lead Lei Xiu, or Tailei Shenzong, to return to the sight of the world of the heavens.

The atmosphere in the meeting room was quiet but strange, and the eyes of the elder and Shi Shuzu flickered.

At this time, a meteor broke the silence, which was the unique way of communication of the two elders of xuanming. They held an important chronicle in the conference room in the back mountain to shield all external interference.

At this time, he read the news from the outside world.

"Ha ha, God has helped me so much! For many years, someone has broken my thunder mind by directly killing me. It's amazing! Let me see what kind of genius it is first!"

The figure of the two elders of xuanming immediately turned into streamers and rushed out of here. Other core elders of Tailei sect also came out one after another.

In the deep forest of zongmen, many contestants have walked out of the bloody wasteland in Leifa dojo.

After ye Chen eliminated the faces, the taboo was weakened a lot.

They summoned the power of thunder one after another and won the corresponding ranking.

But up to now, they still have lingering palpitations.

If ye Chen hadn't smashed the face, I'm afraid they would have been sucked up by the sea of blood and become the nourishment.

As soon as they read this, when they looked at the black robed figure, there was a touch of fear and respect in their eyes.

Before that, no one had looked at Ye Chen.

People in this world will only respect the strong, not pity the weak.

You are strong, you are reasonable, you are weak, you deserve to die.

The law of the jungle is nothing more than this. This is an eternal truth through the ages.

Ye Chen sat in the same place, motionless as a mountain. His whole body formed a small thunder field. Even the law of thunder shock was very vague. At a glance, he knew that he was a Lei Xiu who had just stepped into the realm of Lei Xiu.

But at this time, no one dared to show contempt or ridicule, and they were far away from here.

As soon as they saw Ye Chen, they remembered the scene when he tore his ghost face with his bare hands.

How shocking, how shocking!

What a ghost!

At least they have practiced for so long. They have never seen such demons with low strength and high realm.

In this, only Ying Hongyan dared to approach Ye Chen. She was also amazed at Ye Chen's strength and began to re-examine him.

It seems that in a hurry, I actually held a real thigh.

Ye Chen put that wisp of chaotic thunder into the sea of Qi and thoroughly integrated the residual power it brought into the blood, which ended the cultivation state.

Chapter 7318

"What are you doing looking at me like this?"

Facing Ying Hongyan sitting opposite him, his eyes are full of curiosity, and ye Chen can't help but say.

"It's nothing. I'm just thinking about what you want me to do."

Ying Hongyan smiled. She just looked at Ye Chen and felt a trace of heart.

This guy is talented, powerful, responsible, and handsome.

More importantly, the thunder breath in his body contains the supreme law, which is very attractive.

At that time, Ying Hongyan noticed it at the moment when she was close to Ye Chen. At this time, she determined the idea in her heart.

Ye Chen's talent should be recognized by heaven!

"This thing... In fact, I haven't thought about it. I'll tell you then!"

Ye Chen answered so on the surface, but in his mind, he was asking chaotic Leidi.

"Is there any other way besides that?"

"Hardly."

Chaotic Leidi is directly in power.

Ye Chen can only take back his mind, so he said.

He can't say to Hongyan that saving you is to have a double cultivation of yin and Yang with you.

I'm afraid I won't even agree to such a shameless thing.

Ying Hongyan nodded and followed Ye Chen.

"What do you always do with me?" Ye Chen looked at her and said suspiciously.

Should be the beauty of the eyes, eye waves flow. "Since you saved me, my life will belong to you in the future. No matter where you go, I will follow!"

"....."

Ye Chen immediately felt a headache, but he couldn't persuade Ying Hongyan, so he had to let her go.

Before long, xuanming came and announced the results of the second round of tests.

Almost everyone's eyes stayed on Ye Chen.

The second old xuanming sold a pass first, and told all the people who entered the outer door of Tailei God first, and finally read Ye Chen's name.

When he said Ye Chen's name, a thunder flashed out from the far end of the mountain, shaking the world.

Even the whole sect door is illuminated. It's the thunder of Shinto! It represents the supreme glory of the thunder god sect. Only those who bear the atmosphere can have this thunder.

The Shinto heavenly thunder is embodied and transformed into a purple robe with Taoist thunder patterns embroidered on it. As long as the wearer's mind moves, he can summon the sacred thunder patterns on his clothes for his use.

"Thank you, xuanlao, thank you, mingnv!"

At this time, ye Chen also became more solemn. Although he had been chased and killed by the two before, he had no direct conflict with them.

Now is the time to accept the inheritance. Anyway, first get the title of this core disciple.

Only in this way can we get the xuanbei of reincarnation.

Others looked at the scene with envy.

No one who has participated in the trial is unconvinced!

Only a few people are indignant, especially Zhen Xingyu, who gnash his teeth and hate his eyes.

He also planned to clean up Ye Chen after the game, but he didn't expect that this guy directly pressed many talents and won the first place in the trial conference.

Thus, he changed his position and was even more respected than him. He was directly on an equal footing with several of the strongest Tianjiao in the Tailei sect!

Such talent and potential can be described as shocking and rare.

If you want to be an enemy, I'm afraid you have to consider it. After all, zongmen is not his family. Even if his grandfather is a big elder, he can't do it for him for no reason and erase the top Lei Xiu genius in zongmen.

He still has this self-knowledge, otherwise he can't live until now.

"You should send someone to investigate the relationship between ye Shitian and Ying Hongyan. The clearer the investigation, the better."

Zhen Xingyu said to several lackeys under his opponent.

If the two are from the same clan or have a close relationship, he may have to think of other ways.

If ye Chen only shows off his temporary courage, he is sure to win Ying Hongyan.

He doesn't believe that ye Chen will oppose him completely for a woman.

When ye Chen enters the sect door and knows his identity, he will also worry about one or two.

This is the real reason why Zhen Xingyu can live until now.

.....

With the issuance of the sect's Taoist service, the trial ended.

The final winner was Ye Chen, and he also successfully lived in the holy mountain.

The thunder power contained in this holy mountain is so rich that even ye Chen is surprised.

He stayed here for several days, and some people from the sect sent a lot of cultivation elixirs and Lei FA scripts.

A few days later, the two old xuanming came to his cave in person.

"Ye Shitian, how's your cultivation recently?"

Xuanlao was tall and dignified, but now he was smiling.

Somehow, seeing his smile, ye Chen felt uncomfortable.

Maybe it's because of the bad impression I left before!

"I'd like to inform the two elders that the disciple has been doing well recently. Thanks to the miraculous medicine sent by the second old man, the disciple can recover from his injury."

Ye Chen arched his hand and responded.

"Oh? I recovered so quickly. Let me have a look."

Xuanlao looked strange. He released a silver thunder and hovered over Ye Chen's head.

The thunder can go straight to Ye Chen's sea of Qi and check the injury in his body.

Ye Chen immediately used chaotic thunder to cover the breath of reincarnation.

Chapter 7319

Seeing ye Chen's sea of Qi, Lei Lixiong's soul, the law was complete, and he couldn't help nodding with satisfaction.

"Well, you recover very quickly. In that case, come with me and take you to a good place!"

Xuanlao said and immediately turned around.

And the dark girl was cold and didn't speak all the time, as if she was like this to everyone, and ye Chen didn't feel strange.

He followed the xuanming two elders to the deepest place of zongmen and saw a sea area in it.

"Do you know where this is?"

Xuanlao asked slowly with his hands behind him.

His strength is elusive. He looks like a bold and foolhardy man, but his actual mind is very gloomy.

The ghost girl has always been with him and rarely speaks.

The man who planned the strategy has always been xuanlao.

Ye Chen's eyes were quite surprised. He shook his head and said he didn't know.

Then xuanlao told him the origin of the sea.

This sea area is called Shenglei sea, which has existed since ancient times. Relying on the power of this sea, Tailei God sect has completed the rise of the initial stage.

But then there was a problem with the saint thunder sea, so it was sealed here.

For thousands of years, every person in power has been looking for a solution to revive St. Ray's sea.

The sea of Saint thunder is endless, and the waves are churning. When the thunder turned into thunder slurry surges up, a faint array will appear on the shore to block their invasion.

But ye Chen could not detect a trace of vitality. It was clear that the heat wave was rolling and roaring, but the holy thunder sea was full of the strange atmosphere of death.

Ye Chen doesn't quite understand why the second old xuanming brought himself here.

The huge thunder that destroys the sky and the earth keeps coming out, shaking the sky and frightening the world.

The sky above the holy thunder sea is shrouded in the shadow of death.

Dynamic and static show the extreme difference here! It's too heavy to breathe.

"This is a thunder sea left by the ancient times, which contains the original thunder power between heaven and earth. However, in the end, the infinite vitality is cut off. If you can revitalize this holy thunder sea and extract the thunder power, it will be the most powerful law of thunder between heaven and earth!"

Xuanlao spread out his hands and his eyes were full of desire.

But ye Chen's smell was extremely sharp. He had heard an unusual smell from xuanlao's words.

Xuanlao brought him here alone, not to let him understand the history of this holy thunder sea.

Ye Chen's heart has raised a strong heart of preparedness.

While he was thinking, the chaotic Leidi hiding in the reincarnation cemetery opened his mouth.

"This so-called sea is the last source of my life. I didn't expect to fall here."

Ye Chen was surprised by the chaotic thunder emperor's voice.

"Elder Lei Di, you say this is your original strength, but why is it so silent?"

Ye Chen felt the power of thunder, revealing a strong sense of death, without any vitality.

"There are some differences between the source and the surface. Most of the vitality in it has perished, but I left the last room for myself before my body was damaged. There is a thunder pillar in the sea, which is my spirit, but it seems to be disappearing." chaotic thunder emperor sighed slowly.

"Is there still a chance to revive the sea?"

Ye Chen asked secretly.

Chaotic thunder emperor shook his head: "there is no chance, but if you can refine the last trace of God soul belonging to me in the thunder sea, you can make the thunder god body reach a perfect point and inherit my inheritance completely."

Chaos thunder emperor said, and released a thunder into Ye Chen's body.

In Ye Chen's body, there is a subtle thunder force swimming away, which is released by chaotic thunder emperor!

Lei Li climbed up with his blood and soon injected it into Ye Chen's eyes. With the infusion of Lei Li, ye Chen saw the sky light column located in the deepest part of the thunder sea through layers of shining thunder.

The moment is fleeting.

Ye Chen only saw that under the sea, there was a pillar connecting the sky, dark and deep.

This is the spirit left by chaotic thunder emperor, protecting his last physical strength, immortal and supporting up to now.

Ye Chen had to sigh that the strength of chaotic thunder emperor was far more powerful than he expected.

Only such a remnant of the flesh has such a vast scene. What strength will it have at its peak?

I'm afraid it's almost the same as Ren extraordinary, demon Zu Wutian and others.

From this, we can imagine how overbearing the chaotic thunder emperor was in that ancient age when the demons were rising together!

If it had not been for the peak of independence, pushing everything horizontally, being too lonely and choosing to sleep, and missing the later ancient times, it might not have come to such an end.

Chaos five, all of them!

Ye Chen took back her thoughts, but also secretly relieved.

As long as there is the protection of chaotic Leidi, the Saint Leihai can't hurt him.

At this time, he heard the indifferent voice of xuanlao.

"Your task is to go to this sea and find your own opportunity. Remember, come back when you find it. At that time, you will become the strongest Tianjiao of the whole Tailei God sect, inherit the sect tradition and become the new leader."

Xuanlao's face showed a gentle smile and cheered Ye Chen!

But ye Chen doesn't know the old man's mind!

He experienced a lot of life and death, and was used to the danger of people's hearts. He knew very well that the old thing had no good intentions secretly.

The chaotic thunder emperor in his body said, "he wants you to enter it and reactivate the holy thunder sea with the supreme thunder power in your body."

"Because after you go in, the thunder here will regard you as a taboo and attack madly. If you want to live, you can only resist. With the help of the supreme force of thunder, as long as you can break through the prohibition here again and tear a gap, he can enter it, reap benefits and get my spirit."

Chaotic Leidi has gone through ages. Naturally, he knows what xuanlao is thinking.

As soon as his words came out, ye Chen suddenly realized, and immediately sneered in his heart.

In order to lure him in, xuanlao is to get the divine soul thunder pillar. What do you say when he takes over the position of patriarch? These words are empty!

"Don't worry! We will protect your life!"

Xuanlao said, not giving Ye Chen the chance to refuse, his momentum suddenly became incomparably majestic, and even a round of thunder appeared behind him, emitting a violent and powerful brilliance.

The two elders of xuanming have reached the state of high-level Lei Xiu, and have many powerful means to command the world of heaven and the most sacred Lei Xiu sect.

Chapter 7320

This round of vast breath also slowly opened a hole in the seal of Shenglei overseas.

At the same time, the holy thunder sea also fluctuated, the Tao disappeared, and the thunder swept in, mighty and invincible.

But when these thunders came to xuanlao, they couldn't move any more.

Old Xuan's eyes were cold, and the thunder surged in his body. There were endless thunder lights reflected, which condensed into a shield with full thunder power to block all the attacks of the holy thunder sea.

"Don't worry. I can't do anything about this thunder."

At the same time, the ghost woman also stood up and opened up a channel directly.

The thunder Qi of the dark woman was very cold, but it didn't reach the point of Yin, and she preferred frost Yin cold.

The cold on her body surged out, vigorous and boundless, just like an ancient giant breaking through the ice, stepping square steps and crashing out.

Ye Chen was surprised when she saw the moves she made.

In the palm of her hand, there was a long frost sword, which seemed to go straight to heaven and earth, and even the surrounding void collapsed.

Endless divine power shines through the world!

Is this the strength of xuanming two elders?

Ye Chen thought to himself that he was really very powerful.

I'm afraid he can't hurt one of them with his reincarnation efforts now!

They have at least crossed the intermediate level of Tianjun and Laozu, and may have reached the advanced stage of Tianjun and Laozu.

Even in the world of heaven, such strength can be regarded as a first-class expert.

Boom!

In the sea of St. ray, there was a loud bang!

When the array was opened, a temporary channel appeared on the thunder sea.

"Go in quickly. This passage can't last long!"

Xuanlao turned into a thunder giant and opened a cave. At this time, he was lowering his head to urge him.

The ghost girl holds the sword of frost. She is vast and looks very cold.

If ye Chen hesitates, I'm afraid he will be broken by thunder in an instant!

With their eyes fixed on him, he stepped into the sea area. Before he took a few steps, he heard a noise from behind.

Looking back, it turned out that xuanming two old generals closed the door.

Xuanlao also smiled and nodded to him, indicating that ye Chen didn't have to worry.

Ye Chen glanced over there, looking serious. He knew he might face some danger.

The annihilation thunder of Shenglei sea seemed to be aware of the unknown invaders, and suddenly became violent. All kinds of thunder tore the void and festered, reversing all the laws nearby and even tending to disappear.

These thunders have no self-awareness and naturally have no concept of authority. Anyone who enters here will be regarded as an enemy.

"You don't have to worry. You can release this chaotic thunder force as much as possible. They can recognize it and won't attack, which can ensure your safety."

Chaotic Leidi gave a little power to Ye Chen, and then returned to the reincarnation cemetery again to recuperate.

For him now, every soul power is extremely precious. If he takes one more shot, his breath will be weakened by one point.

So he had to lie down in the graveyard and recover some aura.

Ye Chen said thank you and silently kept this kindness in mind.

From his past experiences, chaotic Leidi is not a philanthropic person. All he has done is to shorten the distance with Ye Chen.

Ye Chen naturally understood the meaning. He released the chaotic thunder force. The roaring silence thunder stopped and fell into the air. It seemed that he was afraid of this small purple thunder.

"Why, do you know you're afraid now? What have you just done? Ye Chen smiled coldly and then ejected the thunder light in his hand. Suddenly, the sky was broken and the earth was missing. The silent thunder dissipated continuously, took away the chaos and got the remaining rules here.

The thunder gathered all over the sky, as if it had been cursed, quickly reduced to extinction, disappeared and disappeared.

When he returned to the sea of St. thunder again, there was only a trace of thunder and fell powerlessly.

The whole saint as like as two peas, the smell of the leaf is very strong and dazzling. What's more, the ray of thunder is just the same as the breath of the sky.

Ye Chen offered the power of reincarnation blood, integrated with the thunder, and immediately sprinkled it in the silent thunder sea. Unexpectedly, it made the long silent thunder sea boil and burst out a burst of white fog.

Then, the smoke dissipated, and thick mist spread all over the whole St. ray sea, blocking all eyes inside and outside.

At the same time, it also blocked the sight of the two old xuanming who were watching the war on the shore.

Xuanlao frowned and opened his soul eyes, but found that he couldn't see through the scene.

His divine eyes, tempered by powerful thunder, can see through ordinary vain things. Unexpectedly, they were blocked in the holy thunder sea.

"How could this happen?"

Xuanlao immediately wondered, and the dark woman beside him also said that he could not see through the white smoke like haze.

"Did the boy get it?"

The ghost girl, who always doesn't like to talk, said at this time.

"He seems to have noticed our intention, but so what? We're just here. When he comes out, we can catch him. With his strength, survival from death is the greatest luck. How can we master this holy thunder sea?"
