

Physician 7341

Chapter 7341

The scene that happened suddenly surprised many people present.

In the face of Zhen Xingyu's offensive, even if ye Chen is the most powerful among these newcomers, he can't take it down.

It is estimated that Zhen Xingyu wants to end the battle soon.

Many sectarian elders thought so.

Ying Hongyan, Wang Cheng and many other newcomers seem a little anxious at this time.

They looked up at the void without blinking.

There, the power of Lei Guang's giant sword is towering and vast, almost covering the whole sky.

And ye Chen's figure, in front of the huge sword, is particularly small and fragile.

The volume between the two is not proportional at all.

In the depths of another layer, the eyes of Lin Tianxuan and others also became deep.

"It seems that the boy is in some trouble. Zhen Xingyu used the unique thunder skill handed down by his grandfather. Lei Xiu's talent alone can't stop him."

Lin Tianxuan shook his head and said.

The peerless beauty not far away was silent.

.....

Ying Hongyan stared at the battlefield in the void and was very nervous.

Ye Chen can't do anything!

But the thunder light giant sword, even they are aware of the great danger. If ye Chen has no other means, he will be defeated.

Under the gaze of many eyes around, ye Chen was calm and still looked stable.

Looking up, he looked at the overwhelming thunder light giant sword, mixed with countless shining thunder, and had assessed the real strength of the other party in his heart.

He who looks fierce but feels weak has an unstable foundation.

Although the thunder light giant sword roared, in the void, you can see countless thunder light giant swords turning into shadows, and Ling became extremely fierce.

But in Ye Chen's eyes, it is still full of loopholes!

In full view of the public, ye Chen made a surprising move.

He suddenly closed his eyes and caught everyone off guard!

Just when everyone didn't understand what he was going to do, a layer of dark light with light gold appeared on the surface around him.

That strange ray of light spread everywhere, rushed out of his body, flowed like magma, and then wrapped the whole body.

"Thunder ten thousand dharmas: Buddha is the Tao!"

The soft whisper sounded from ye Chen's heart. The dark light suddenly rushed into the sky. The black light swept through, and ye Chen's body disappeared. Instead, it was a mysterious yellow tower of heaven and earth!

The tower is mysterious, suspended in the sky, golden light flows, and thunder clings to it.

It stood silently and silently, allowing the thunder sword to break through the air, mixed with an invincible attack, and finally bombarded the tower.

Boom, boom!

In the void, there is the sound of Buddha's singing, accompanied by the Buddhist scriptures, which is very grand and mysterious!

The sound of bursting resounded, surging in all directions and coming tide in all directions!

Thunder forms patterns, which contain wonderful morality and morality, winding the xuanhuang tower in the world.

The xuanhuang tower in heaven and earth is now integrated with the power of the Taoist ancestors in the thunder ten thousand dharmas, becoming deep and introverted, but emitting crisis!

The brilliant roaring and killing, the amazing smell, even this space shows signs of squeezing, explosion and crack, which makes countless people take a breath when they see it.

The mysterious yellow tower of heaven and earth with flowing light is happy and unafraid at this time. It still emits light brilliance. In the face of such a towering offensive, it is still standing still!

"Go to hell!"

Zhen Xingyu's angry voice roared and urged the giant sword, but something terrible happened!

The thunder giant sword didn't leave the slightest scar on it!

"This is... What's going on?!"

In an instant, even he, who had always been arrogant, found something wrong.

His heart was very surprised, and there was a flash of vibration.

Some uneasiness, like vines, surged out from the depths of my heart and wound around my heart quietly.

He finally began to feel how strange and dangerous the newcomer whom he thought he had been timid to avoid these days.

The thunder torrent swept across the sky with a terrible momentum. Among the surging thunder light, countless thunder light giant swords roared, and all the spectators were amazed.

Thunder light is like a storm swept by a huge sword. The pressure is incomparable terror.

At this time, the thunder was surging in this heaven and earth, and countless eyes were looking at the scene in mid air.

Ye Chen's attack was so fierce that he almost penetrated the whole void.

But Zhen Xingyu's offensive made them tremble. Even Ying Hongyan and others had a look of worry in their eyes.

Zhen Xingyu's giant finger in the sky suddenly filled with thunder and smoke. In a short moment, the whole field collapsed.

In the whole world, it seems that only the xuanhuang tower of heaven and earth is left, still fighting against Lei Zhi.

But sooner or later, ye Chen also launched a fierce attack. Almost silently, the xuanhuang tower in heaven and earth sent out an amazing momentum.

"Leita, broken!"

In a twinkling of an eye, ye Chen drove the aura of this piece of heaven and earth, surging up and continuing.

All they saw was that ye Chen took care of the trace of the thunder field in an instant, and burst out a strong Qi, released from the spire, wound into a snake, and restrained the invincible giant finger of the coming void.

"What!"

Zhen Xingyu looked shocked.

Although the dark blue thunder force is crazy and rampant, it can't stop Ye Chen's extinction force.

The dark yellow tower of heaven and earth glittering with thunder suddenly came. The next moment, it appeared in front of Zhen Xingyu.

The thunder flashed out, turned into a streamer, stopped, and released amazing pressure.

The short film set off endless clouds and clouds.

The dark thunder light broke out in the dark yellow tower of heaven and earth, trapping Zhen Xingyu in it.

Zhen Xingyu wanted to resist, but as soon as the thunder on his body came out, it seemed that he had been bitten by an inexplicable counterattack.

He was hit all over, hurt to spit blood, directly retreated for thousands of kilometers, and the lightning defense on his body surface was broken. The whole person suffered a huge impact and became listless!

The dark light emitted by him dissipated rapidly at a speed visible to the naked eye.

On the xuanhuang tower in heaven and earth, there is a shining Buddha light, sacred and majestic, which is almost irresistible.

The xuanhuang tower of heaven and earth suppressed downward with an incomparably strong posture, and there was no stagnation like clouds and flowing water.

Under the surprised eyes of countless people, when the xuanhuang tower of heaven and earth came, there were two saints walking together. One of them, interwoven by thunder and light, had a dignified face and a tall body like a mountain. He was the sacred figure of the Lei Xiu family: Lei Gong.

The other Saint put his hands across his chest and kneaded them into a Dharma seal. He exuded a faint golden light and looked kind.

Chapter 7342

This is not fighting against Buddha, but another Buddha in the eight Fu Tu Qi: Maitreya Buddha.

Maitreya came out with a gentle momentum, but under the calm surface, there was a turbulent undercurrent and fierce blood.

Thunder light and golden light spread all over the world and swept out, immediately enveloping the whole field, while Zhen Xingyu's defense was completely cracked. The thunder light on the whole person was dim rapidly and was hit hard at last.

After two consecutive rounds of frustration, Zhen Xingyu retreated awkwardly. His throat was sweet and spit out a mouthful of blood.

The xuanhuang tower of heaven and earth was suppressed. With such strength, it occupied an absolute advantage.

On the sidelines, the people who were watching the battle were shocked, and their eyes were full of strong disbelief.

They thought Zhen Xingyu would win easily. Even if ye Chen could exceed his imagination, he just reluctantly resisted and could not defend completely.

At the moment when the xuanhuang tower came, the whole void seemed to tremble fiercely.

Zhen Xingyu's figure fell on the bottom of the tower composed of thunder force. Suddenly, the blue thunder curtain on that side was also scattered by the strong impact force, and the crack spread like a cobweb.

Zhen Xingyu's figure was very embarrassed. His clothes were broken and his whole body was congested. At this time, his face also became very pale.

He looked up at the still standing xuanhuang tower of heaven and earth, and finally changed his face.

The thunder gas from the xuanhuang tower of heaven and earth swept away in an instant, destroying the withered and decadent. He almost had no defense power and was directly pierced through the shield on the body surface.

Many people watching the war also took a breath one after another and were extremely surprised.

Seeing this scene, many people were stunned. For a time, they had not recovered from such war results.

In their opinion, no matter how bad Zhen Xingyu is, he is also one of the top 50 disciples in the inner sect. His strength has reached the later stage and even the peak of baijiaying. How can he be defeated by a monk in taizhenjing?

No way, it's absolutely impossible!

Almost everyone's thoughts are like this, but the victory or defeat has happened in front of us.

Zhen Xingyu's eyes changed indefinitely. In the end, he bit his teeth and asked the two people to do it at the same time.

Those two core disciples are the help he invited this time. He thought he couldn't use them, but now it seems that they still have to do it.

"You're lucky this time, but you can't escape the punishment you have to accept!"

Although he lost, he still couldn't lose face, so he stood up with a stiff head.

The two men understood his meaning in an instant.

"Want to rely on the number of people to suppress me? I'm afraid it's not so easy!" Ye Chen sneered at the speech.

The two people behind Zhen Xingyu took a step forward. Two different colors of thunder swept through and sent out an amazing momentum.

Their strength is more powerful than Zhen Xingyu. At this time, they work together. I don't believe Ye Chen can carry it!

A cruel smile appeared on Zhen Xingyu's face.

He's going to kill this man completely! In whatever way.

Even if he was cursed later, he wouldn't hesitate.

In short, such disasters cannot be left behind.

However, at this time, Ying Hongyan, Wang Cheng and others were not stunned. They came forward one after another and led the newcomers to confront the two core disciples of the inner door.

People watching the war immediately talked about it.

They did not expect that Ye Chen had such a strong appeal that he could twist these new disciples into a rope!

Their individual strength may not be as good as these internal disciples, but the combined momentum soared into the sky at one time, unexpectedly forming a confrontation with them.

"Why, if one can't fight, there will be two wheel fights, right? At least you are too old for Raytheon. Are you so shameless?"

As a woman, Ying Hongyan was naturally not afraid of these people and asked questions in a cold voice for a time.

She really can't see it anymore, so she can say it!

Wang Cheng also nodded and added: "it turns out that you inner disciples treat new disciples in this way. I don't know how they will react if this matter is sent back to the sect elders?"

Even tianleizi also stood up and stood side by side with these people. Although he didn't speak out for support, he had already expressed his attitude with action.

Although he doesn't like Ye Chen, the actions of Zhen Xingyu and others are too much. If he doesn't help them, I'm afraid it's a little unreasonable.

The two men immediately hesitated. Although they wanted to get Zhen Xingyu's support, they didn't want to be the enemy of all new disciples.

Among these people, there will certainly be those who come out in the future. I'm afraid the combined strength is not weak!

Now if we let them have a grudge, I'm afraid the future revenge will be like a storm, endless and pouring in!

Especially the boy in front of him. Looking at his calm appearance, he seems to have defeated Zhen Xingyu before he does his best.

Even if they work together, I'm afraid they can't take advantage in a short time.

So the two sides were at an impasse for a time. You look at me, I look at you and look at each other.

The two inner disciples also seemed very embarrassed. If they quit, wouldn't they admit that they counselled? How to look up in the future.

But if there is a war, they may not be sure to defeat so many people on the other side!

Chapter 7343

The atmosphere between the two sides has become somewhat subtle and tense.

But just then, a figure slowly appeared. He was wearing a purple robe, wearing a crown jade and holding a folding fan. He was handsome and elegant. He just smiled on his face. At a glance, he was like a spring breeze.

"I think you're quite lively here, so I'll come and have a look."

When he spoke, he looked like a smiling man, and his tone was soft. It seemed that he had come to the theatre.

"Senior brother Lin Tianxuan! It's him!"

"Elder martial brother Lin? Shouldn't he enter the sixth floor? Why is he still here?"

Lin Tianxuan is one of the top ten core disciples of the inner sect. He is the real top Tianjiao.

When he came, no one dared to do it again. They all looked at him in surprise and were quite puzzled.

Logically speaking, shouldn't Lin Tianxuan's arrogance strive to hit the seventh floor?

Now we should practice hard on the sixth floor. Why does it appear here?

Even Zhen Xingyu felt a little puzzled.

However, after Lin Tianxuan appeared, another beautiful shadow came out of the void, which immediately made everyone fall through their glasses.

Situ Hujin came too!

She is also one of the top ten inner disciples.

In the whole sect, two Tianjiao, who ranked among the top, came at once, which took them a little off guard.

"They are all disciples of the same clan. Why should they turn against each other? Is there anything you can't say well?"

Situ Hujin's tone was quite soft, but there was a slight coldness in his beautiful eyes.

As soon as the two real top Tianjiao came, even the two dared not be presumptuous. They bowed with respectful gestures.

"What happened here? Can someone tell me?"

Lin Tianxuan pretended that he didn't know, but in fact his heart was like a mirror.

He just wanted to judge the matter from an objective point of view and didn't want to be caught.

Soon, a disciple of the sect repeated the whole story. Anyway, Zhen Xingyu was unreasonable.

A cold sweat had burst out on Zhen Xingyu's forehead.

He knows that these two top Tianjiao have shot today, and he will never take advantage of it.

He may be used by his opponent to challenge him.

After all, this is not the only sect of the great elders among the thunder god sect!

Knowing this, Lin Tianxuan nodded slightly and stood there without talking. After a long time, he raised his head and slowly opened his mouth.

"Let's stop this matter today. Don't pursue it on both sides, otherwise none of you can take advantage of it when it comes to the sect elders!"

Soon Lin Tianxuan said to the new disciples, "I know all the grievances you have suffered! In order to apologize, Zhen Xingyu will take out two Lei Yuan pills and distribute them equally to you."

Hearing the speech, these new disciples still have some doubts about their faces. Most of them don't know what Lei Yuandan is.

But the old disciples of the sect were surprised.

Lei Yuandan is an extremely precious auxiliary pill for cultivation. Even for the top Tianjiao, it should be considered and used.

If you want to get a top-level Lei Yuandan, you need to refine it for thousands of hours!

Without consulting Zhen Xingyu, Lin Tianxuan made his own decision, which changed Zhen Xingyu's face.

He clenched his fist and looked a little angry.

As the grandson of the great elder, when did he suffer such injustice?

At this time, Lin Tianxuan turned back and said expressionless, "why, do you still want to refuse?"

Zhen Xingyu bit his teeth and looked uncertain.

Finally, he sighed, threw two dark blue pills directly from the storage ring and threw them to Lin Tianxuan. Then he threw away without looking.

Lin Tianxuan released a ray of thunder force and scattered the two Lei Yuan pills. In the twinkling of an eye, the pills were scattered into dozens of large and small light groups, which were just distributed to the new people present.

"Please don't worry. If someone comes to trouble you in the future, you can tell me. I'll give it to Lin Tianxuan if others can't give justice."

Those new disciples were very grateful at once. Shout out elder martial brother Lin's power!

After Lin Tianxuan finished all this, his body flashed and came to Ye Chen.

For this Tianjiao, who represents the peak combat power of the young generation, ye Chen is neither humble nor arrogant, smiling and nodding.

"Your strength and temperament are very good. Are you interested in joining my Tianxuan club? I can let you be the vice president. After three years, I entered the zongmen deacon hall, and the xuanhui club will be fully taken care of by you."

Hearing this, ye Chen had no reaction, and the people around him began to envy, envy and hate!

Where is Tianxuan? It was created by Lin Tianxuan!

If he invited him like this, ye Chen's future status must be very superb.

Lin Tianxuan didn't invite in private, but openly publicized his sincerity in front of so many people. He must be able to keep his word, which is equivalent to giving Ye Chen a qualitative commitment.

But ye Chen smiled and didn't promise or refuse.

"Thank you for your kindness, senior brother Lin, but I haven't even finished the test of nine Thor tower. I still want to finish the test here first and then talk about the future!"

Ye Chen will not stay here for a long time. As long as he gets Lei Bei, he will leave without hesitation.

However, from the mouth of chaotic Leidi, the nine Thor towers are extremely important for controlling leibei.

He must participate.

Leibei wants to conquer, perhaps more difficult than other reincarnation xuanbei.

But if you go to heaven on the way of Thunder Road, you may be able to control thunder monument more!

Lin Tianxuan heard the speech and said, "OK! I'll wait for you, ha ha!"

Not far away, Zhen Xingyu looked at the scene and a cold light flashed in his eyes.

The top ten disciples of the two sects came to help, and they were obviously biased towards Ye Chen. Even if he had an opinion, he couldn't show it.

Many people were surprised at this scene.

Ye Chen can have such confidence. Even if he can't defeat those two people, he should also have the ability to protect himself.

Zhen Xingyu's departure also announced the end of the farce.

So ye Chen turned around and looked at the people. What he had swept was also a look of admiration and admiration.

In the past, when they faced the core disciples of the sect, they were respectful and smiling.

But now, many people understand that no matter how respectful it is, it's better to expand their strength,

They have been trapped here for the past two days, which has become a joke of the whole sect. If ye Chen didn't come in time, I'm afraid their cultivation journey of the nine Thor tower would end.

Therefore, their applause and cheers were given to Ye Chen!

Ye Chen stretched out his palm. The dark yellow tower around the world shrank slowly and suspended in his palm.

Chapter 7344

He knows that even if he wins today, he can't take Zhen Xingyu. After all, the other party is the grandson of the sect elder.

But his palm was enough to teach him a profound lesson!

Ying Hongyan, Wang Cheng and others came one after another and thanked Ye Chen. Even after Leizi hesitated for a moment that day, he also said thank you.

"Fellow disciples, you are welcome. Now go to your cultivation. If Zhen Xingyu does it again, just tell me! Senior brother Lin and I will get justice for you!"

Ye Chen said and looked at Lin Tianxuan. They looked at each other and smiled.

Lin Tianxuan must be unhappy with Zhen Xingyu on weekdays, otherwise he wouldn't take action at this juncture and disgusted Zhen Xingyu.

What's more, situ Baojin also came forward. He was on the side of Ye Chen.

The two top Tianjiao come forward together. Even Zhen Xingyu has to weigh up whether it's worth offending them.

"Take these two pieces of Lei Yuandan."

Lin Tianxuan threw the light in his hand and floated in front of Ye Chen.

And ye Chen was not polite and directly swallowed the chaotic light into his body.

The thunder was shrouded, and ye Chen sat quietly in place. Around his body, silver light surrounded his body, and formed round thunder beads, as if condensed into a long white dragon, looked up to the sky and smiled, which made the space of the thunder field produce a little vibration.

After he absorbed the Lei Yuandan, he opened his eyes and found that more and more people were still in place.

"What happened? Why don't you practice?"

Ye Chen had some doubts and immediately asked.

But this time, he heard a lot of cheers, mixed with a lot of thanks.

Ye Chen was stunned and didn't know what had happened.

Ying Hongyan smiled and said, "don't you know? If you don't know, look over there."

Ye Chen looked in the direction pointed by Ying Hongyan. The thunder clouds gathered not far away and jumped wildly, which increased the intensity of thunder light, scattered into Taoist thunder silk and poured into the disciples.

"When you were practicing, you accidentally triggered the thunder force on the second floor of the divine tower here, which virtually expanded several times, so that these new disciples who could not enter the third floor gained double cultivation strength!"

Ying Hongyan explained with a smile.

Ye Chen finally understood why these new disciples looked at him with such fanatical respect.

They are blessed with misfortune!

Who can say clearly about all kinds of life experiences in the world?

Ye Chen carefully felt the breath of the two thunder sources in his body and refined them into his own thunder power.

That faint flash of thunder actually contains a strong original force of thunder, forming a light curtain on the surface of chaotic divine thunder.

At this point, the power of chaotic thunder has been enhanced by another point.

Lin Tianxuan looked at Situ Hujin and came to Ye Chen to talk with him.

Ye Chen naturally treated the two fellow brothers and sisters politely. After all, the other party stood up when they were humiliated.

It is enough to prove that the other party does not exist like falling into a well.

"What floor are you sure to break into?"

Lin Tianxuan suddenly asked.

Ye Chen was stunned. He was not sure what floor he could break into.

"It should be the fourth floor."

Ye Chen thought for a moment and said.

"Is it really the fourth floor?" Lin Tianxuan looked at him with a smile.

"There's really only the fourth floor."

Ye Chen won't talk big.

But few of the people present seemed to believe him.

In this regard, ye Chen is also very helpless.

"I'm waiting for you on the sixth floor."

After Lin Tianxuan finished, he left with situ Hujin. During this period, situ Hujin didn't say a few words, but gave Ye Chen a positive look before leaving.

Time flies, and three days pass in the twinkling of an eye.

With the passage of cultivation time, this thunderstorm space has also become distorted, and many disciples have opened the final breakthrough stage.

A month's time is coming. Many people have broken through the original state in this pagoda and condensed the source of thunder power even more!

Ye Chen can also feel a lot of powerful power. He has returned to the fourth floor during this period of time.

But he was not in a hurry to break through the fifth floor, because he vaguely felt that a voice seemed to be calling him, which was quite impatient.

Wait, wait!

As the cultivation trial entered the white hot stage, there was a huge stone tablet hanging in the space leading to Leita.

No matter from which floor, you can see this stone tablet emitting bright golden light.

The stone tablet is golden, and the black font is in it, tossing and shining, just like thunder.

This stone tablet has become something that everyone pays attention to.

Because it shows everyone's entry records!

When the black awn flickered, there was a cry of surprise.

Ye Chen couldn't help looking over there. On the golden stone tablet, there was a black font wrapped by thunder, which was constantly changing. It looked very majestic and domineering.

He learned from others that this stele is called Ju Lei stele, which records the records of all disciples breaking into the tower.

Whoever goes the farthest is the first.

Ye Chen suddenly realized that his eyes swept the ranking on the Jingguang stone tablet.

The first one is zongmen's well deserved first Tianjiao, Zhang Anxin!

This guy cultivates the holy thunder of the ancient overlord. Whether it's the thunder power of the flesh or the body, he has been trained to the state of perfection.

So he climbed to the eighth floor!

Chapter 7345

However, everyone guessed wrong.

At the moment, Zhang Anxin didn't actually come to the eighth floor.

But only a short distance from the eighth floor, still belongs to the seventh floor.

However, this achievement has been so brilliant that it can even be said to be worthy of the first place.

Because the second is one step away from the seventh floor.

I was left far behind.

The top 24 are all above the sixth floor, including Lin Tianxuan and Situ Hujin.

The numerous names are constantly flashing. Although there are changes behind them, the digital ranking of the top 20 or 30 has not changed much. In particular, Zhang Anxin, who is the first in the row, is extremely stable and can be called a monster.

The more you go up, the more powerful the thunder tower emits, the heavier it is. Every thunder is of great significance to the exercise of the body.

"The sky pride of Thor peak is really not weak that day. It seems that there are still some hidden dragons and crouching tigers who can break into such a situation."

Ye Chen thought so.

On this golden stone tablet, apart from Zhang Anxin, who ranked first, all the others were among Bozhong.

There is no big difference between the top ten and the top ten. Everyone is biting the former and climbing hard.

Such a hot Ranking Competition naturally caused many people to shout.

"It deserves to be the top Tianjiao who has been practicing for a long time. Such strength is really unmatched by others!"

Ye Chen's eyes flickered. Almost in a short moment, he no longer stayed and moved.

"This time I want to see how many floors I can break into with my strength!"

Ye Chen said, his body moved, no longer hesitated, and directly hit the barrier on the fourth floor.

He was so caught off guard that he disappeared without any reaction.

There are good things in the nine Thor towers!

Ye Chen looked up. Lightning surged out of his pupils and wrapped a layer of flashing armor on the surface of his body.

And his black hair stood up and became a thunder god of war.

The entrance of the fifth floor was covered with clouds, forming an extremely thick and terrible thunder prison, emitting a towering sound, which was frightening.

The rumbling thunder reverberated throughout the fourth floor for a long time.

Ye Chen is not the first time to break through the barrier. He has polished his flesh to the extreme on the fourth floor. Everything is natural. He just needs to break through the last thin boundary wall.

Therefore, without hesitation, he stepped out directly with the thunder and shuttled through the void.

Now he has a deeper understanding of the thunder in the tower, and his strength has been greatly improved.

Almost in a short instant, he came to the deepest part of the boundary wall and blew a punch, which immediately shook the sky and the earth. The extremely violent thunder force, like a real dragon, soared up and broke through the clouds, tearing the vast barrier away in the blink of an eye.

Fifth floor, successful breakthrough!

There are fewer people on the fifth floor of Leita, only a few hundred.

As he moved, he went through the crack and went straight to the depth of the fifth floor.

His ranking has also risen to about 150, but not many people pay attention, and everyone's eyes are fixed on the top 20.

The thunder tower space on the fifth floor is even darker. He seems to have come to the netherworld. In the distance, there is a dark green thunder River surging like a river.

An arch bridge was erected in front. On both sides, thunder roared, as if there were countless evil spirits shouting and shouting, which made people's eardrums ache and scalp numb.

Thunder clouds seem to have no end, like gray python, entrenched between heaven and earth, penetrating the void, covering the universe and covering all the light.

Ye Chen stopped and felt the thunder force contained in the heaven and earth, and immediately shook his head.

"There's not enough thunder here!"

He thought for a moment and then looked deep into the fifth floor.

There is an entrance to the sixth floor.

You can try!

He immediately moved his body as fast as the wind. At the same time, the chaotic thunder across the sea of air also sent out strength for him!

Ye Chen clenched her fists and reflected the turbulent world like thunder in her clear eyes.

At this moment, he is the master of heaven and earth.

At this time, on the fourth floor, Ying Hongyan and Wang Cheng moved down and found Ye Chen's ranking.

"Look, ye Shitian must have broken through the fourth layer. His ranking has risen from more than 700 to more than 100!"

Ying Hongyan immediately pointed to the golden stone tablet and said in surprise.

The first time I came to the nine Raytheon tower, I broke through the prohibition of the first five layers. These talents are terrible.

When Ying Hongyan, Wang Cheng and others announced the news to the public, a guy suddenly exclaimed.

"Look, brother Ye's ranking is changing again. This time it has risen to 80. Oh, no, it's 50? No, it's..."

The disciple's voice suddenly stopped because he found that ye Chen was the first to rush into the top 20.

Everyone who came to watch was stunned.

They were silent and looked at each other. Only one idea came to their mind.

If you want to break through the shackles of the top 20, there is only one possibility.

Into the sixth floor!

Newcomers to the sixth floor? That has never happened before.

Even when the gifted Lei Di entered the Pope's gate and came to the nine Thor tower, he only reached the fifth floor.

This boy is the first time to get here. He climbed to the sixth floor.

"This..."

Many people were too shocked to speak.

Those people on the sixth floor are the top Tianjiao. They have been practicing here for three or four days and have never seen anyone else come up from the breakthrough.

When the space barrier between the fifth and sixth floors fluctuated, they leaned over and looked carefully, wondering who would come up again.

The people who stay here are not unknown. They are famous in the sect.

They also want to break through to the seventh floor. Many people even come in for the sixth and seventh time, but they can't get close to that barrier.

But when they saw Ye Chen's strength, they couldn't help being very surprised.

Why didn't the core disciple of the inner door come in, but just a nobody?

And they have never seen this person in the sect. Is it said that they are the last batch of new disciples who have just joined the sect?

No, it's incredible!

But ye Chen turned a blind eye to these eyes.

In his eyes, there was only endless thunder!

After ye Chen came to the sixth floor, he inhaled the thunder here and felt much softer.

But for him, that's not enough!

Deep in Ye Chen's eyes, there was a sudden thunder.

He approached the huge thunder barrier and completely ignored the Tao rhyme rules here.

Boom!

Chapter 7346

Boom!

In the sky, there was a loud explosion, and the thunder barrier suddenly increased, lying between heaven and earth, and the huge thunder arc constantly churned on it, releasing amazing thunder force fluctuations.

The whole space seems to be distorted, endless and unstoppable.

The dozen inner disciples in the state of cultivation were all stunned.

They thought Ye Chen would sit on a stone platform and begin to absorb the vast thunder force here.

But the boy didn't even look at them, so he went straight to the entrance on the seventh floor.

Is it crazy!

"What does he want to do?"

"I don't know. Maybe I want to go deep and accept the most powerful thunder quenching!"

"Why do I think he wants to go to the seventh floor...!"

"Isn't it? It's incredible for a newcomer to break into the sixth floor. Does he still want to ascend to the sky?"

“.....”

The voices of discussion rang out one after another, and ye Chen came to the depths of the sixth floor under great pressure.

Lin Tianxuan and situ Baojin are here. As the top five Tianjiao in the sect, they are only one step away from the seventh floor.

They are now under great thunder pressure and can't be distracted. They can only look at Ye Chen curiously.

And ye Chen walked forward step by step, passing by them. The thunder gathered on his head turned into a thunder seal and hovered around him.

People who saw this scene were amazed.

This guy is really crazy!

In the entanglement of various thoughts, those thunder seals have roared out and turned into substantive pressure.

All of a sudden, the thunder in this space surged wildly. The thunder turned into strong light and burst out, intertwined with each other into a network, forming a natural and powerful array!

This network is almost overwhelming, leaving people nowhere to escape.

The incomparably turbulent thunder force gradually converges into a mass.

Everyone present can see that the thunderbolt Skynet is taking shape.

The rapid buzzing sound suddenly came out, rippling light waves and vertical and horizontal thunder force.

This is the sky array formed at the entrance of the seventh floor!

Many people are defeated by this array. They spend countless energy and time, but they can't break through.

Boom!

The huge thunder array, twisted and shaped, poured down like a Heavenly Sword and hit the heart of the thunder.

The majestic black light scattered and gathered. The next time it came, it became more and more solid.

Hoo!

The wind was strong and roaring.

The violent thunder penetrated the sky and made violent ripples.

Like a tidal current, it flows continuously and rippling rapidly.

The place hit by the thunder earthquake was the blockade, blocking Ye Chen's way of life.

Hiss!

The thunder all over the sky flickered wildly, just like substantive thunder light. There were traces of black-and-white and two-color interweaving.

Ye Chen looked at the thunder and his eyes became extremely dignified.

Because this thunder has exceeded his ability.

Many people sighed when they saw this scene, because they knew that the entrance on the seventh floor was a dead end, and no one could break in at all.

Even Zhang Anxin, who ranks first, has wasted his strength and reached the seventh floor. I'm afraid he has just stepped into the outer door of the seventh floor!

"With this strength, I still want to break into the seventh floor by force. I'm afraid the sixth floor comes in by luck!"

"His strength is so low. According to this situation, maybe he really came up by luck, or he may have exploited others' loopholes."

“.....”

Those sect disciples talked about it one after another, but ye Chen didn't care about it. In his eyes, there was only thunder heaven.

In Ye Chen's eyes, there was only the way of heaven, and he immediately used the chaotic divine thunder in his body to flow into the meridians of his whole body together with his reincarnation blood, and burst out unparalleled power.

The next moment, his body soared into the sky and almost filled the world.

And during this period, countless thunder powers were gathered.

In full view of the public, chaos God thunder broke out, involving a powerful blood force. Ye Chen was like a huge Kunpeng, tossing in the thunder sea and facing the terrible barrier. Everyone thought Ye Chen would lose and dissipate into ashes.

The next moment, something shocking happened. Ye Chen almost walked through the flowing cloud and came into contact with the thunder with a strong attitude.

And made an explosive blow, compressed to the extreme of the thunder, like a crazy flower, suddenly bloomed!

The scope spread to the surrounding hundred miles. Even the talented disciples sitting on the stone platform below were startled and looked at the sky in horror.

When they were still immersed in shock, ye Chen had torn the space barrier and successfully penetrated into the seventh floor.

Silence. On the sixth floor, there was a dead silence. The dozen people were as numb as a chicken. They didn't dare to imagine.

How could they have thought that such a new disciple, who had just started, would break through the seventh floor and become the first person in history under their eyes!

Even Lin Tianxuan and situ Hujin were surprised and looked at each other. They felt that with Ye Chen's talent, they might have a chance to break through to the sixth.

But who can think that the sixth floor is very simple for him. His real goal is the seventh floor!

When he stepped into the seventh floor, the huge thunder and strong wind also slowly recovered, leaving people constantly amazed.

.....

Chapter 7347

.....

Ye Chen's body was submerged by thunder. When he rushed into the seventh floor, the space in front of him suddenly opened up.

The thunder clouds in each layer are different, and the overall trend is getting darker and darker!

The thunder clouds above the sky seem to fall to the ground, covering all the heaven and earth, which is very depressed and uncomfortable.

Bang!

Ye Chen looked up and found that there were fine snowflakes floating on the seventh floor of the God tower, which were hazy and beautiful.

He stretched out his hand and let the broken snow fall into his palm. When he squeezed it tightly, he used some thunder power.

Those snowflakes became tight, like hard needles, pricking the skin a little numb.

Snowflakes are condensed and turned out to be formed by the diffuse thunder force. It can be seen that the thunder force here is deep to a certain extent!

Ye Chen's heart is true. The seventh layer is only the cultivation basis of Lei Li, which has exceeded the sum of the first six layers, and is extremely magnificent.

If you stay here, even if you don't work the sea of Qi in your body, even if you lie down and sleep, your cultivation speed is faster than that below.

"Although the spiritual power of the seventh layer is powerful, it still can't resonate with my reincarnation blood, or it doesn't have much connection with the divine tablet."

Ye Chen shook his head and talked to himself. Obviously, he was not satisfied with the seventh floor, but wanted to move higher.

At this point, ye Chen set out again. His speed was not fast, because the thunder clouds in the sky were very strong and hindered his progress.

He didn't know how long it would take. Anyway, he went all the way and soon came to the middle area of the seventh floor.

There is a figure on a mountain, sweating and trembling. That's Zhang Anxin, who ranks first among the inner disciples.

However, Rao is unable to break through with Zhang Anxin's strength.

So he chose to stay here.

With four days left before the end of the trial, he made sufficient preparations before entering the nine Thor tower and broke through to the seventh floor at one fell swoop.

So he has to practice here to see if he can get some insights about Lei Dao, and maybe he can enter the eighth layer by this method.

He thought that he could not be too hasty at present, so he sat here and meditated. This time, his wish to enter the seventh floor has been achieved. If there is no spare strength, there is no need to hit the eighth floor again.

But suddenly, shrouded in the thunder, he felt a strange smell and was surprised.

Is there a monster on the seventh floor?

His expression could not help but become dignified. He opened a gap between the thunder and looked out.

After a while, he saw a figure on the mountain in the distance.

It's a person!

Zhang Anxin was immediately shocked.

He was not the only one of the whole sect to break into the seventh floor.

Is it Lin Tianxuan? Or some other top Tianjiao.

Zhang Anxin felt a strong threat.

Through the void, his eyes saw the figure, looming, hazy and mysterious.

But the man's breath is very strange. He is neither Lin Tianxuan nor anyone else.

Moreover, Lei Li's cultivation is very weak. He doesn't look like an inner disciple who has been practicing for many years.

He was immersed in the seventh floor. He didn't ask about the world and didn't know what happened below. Therefore, he didn't know much about ye Chen.

When Zhang Anxin was still shocked, ye Chen had come to a towering mountain.

This mountain is purely made of stones, without any green plants, bare, but at the top, there is a huge thunder inducing stone platform.

There are about ten such peaks here.

He sat directly on the thunder platform. Over the mountain, the force of thunder gathered and opened like ink.

Perhaps it was the power of thunder that condensed and formed. It was too vast. On the contrary, it was silent. There was no amazing thunder around, but black clouds like holes, with a little thunder flash, and an extremely terrible momentum broke out.

Ye Chen looked at those black clouds. The thunder flickered. He was not surprised but happy. He immediately calmed down, and a vision of the thunder King appeared behind him.

He took a deep breath and began to manipulate the vision and take the initiative to provoke the thunder here.

Boom! Boom!

The continuous sound of thunder blew up in the sky. Those thunders, like giant beasts, squirmed wildly, revealing their towering heads.

Boom!

The bombardment of thunder, the next moment comes on time.

But when he reached Ye Chen, the thunder cloud scattered a little black awn. When he looked carefully, it turned out to be an overwhelming rain of lightning.

Those lightning raindrops show a deep black, sweeping all over the world. Each drop contains the turbulent thunder power. I don't know how much stronger they are than the thunder in front.

WOW!

This thunderstorm affected a wide range, not only Ye Chen, but also Zhang Anxin.

His eyes shook as he looked at the thunderstorm.

On the other side, ye Chen manipulated the lightning FA Xiang and ran forward. Suddenly, he collided with those raindrops, and the terrible force burst open, blasting out lines on his body surface.

Even ye Chen had to work hard to parry. He didn't expect these raindrops to be so fierce.

The thunder light and rain fell and split layer by layer. They swam on the surface of Ye Chen's body and shuttled along the pores outside.

The creaking sound kept ringing. It was the force of thunder flowing through the surface of the body and intersecting with the force of thunder in the body.

Ye Chen absorbed a lot of vast thunder force from it. After a burst of severe pain, it was accompanied by a faint sense of crisp hemp.

In Ye Chen's body, the chaotic thunder seems to wake up completely. He is particularly interested in these thunder and lightning rain.

The sound of rumbling continued.

Ye Chen was immersed in the thunder rain. He brought up a wisp of blood force and fused it with the chaotic God thunder.

Between the flashes of thunder and light, the chaotic divine thunder is gradually solidifying, and the low thunder ripples and spreads in its body.

Ye Chen raised his hand slowly, as if he had some extreme control. Those thunderstorms listened to his orders and gradually floated up.

Sooner or later, ye Chen and the thunder inducing stone platform were almost integrated, and the thunder force was poured into it, which made the thunder inducing platform pump emit the most brilliant brilliance.

Boom.

The dazzling light burst out, as if it had an explosive effect.

Ye Chen was almost drowned by the light.

With the thunder inducing stone platform being urged to the extreme, thunder roared between heaven and earth, and the sound suddenly sounded, like a sign before the beast launched an attack.

The gloomy black clouds floating in the sky are slowly surging at the moment, all gathered in front of Ye Chen.

The whole world, at this moment, becomes dim.

"In that case... Come on!"

Ye Chen's heart became extremely eager, which was caused by chaotic God thunder.

Chapter 7348

As a chaotic God thunder that has existed since the beginning of the world, it has been following the chaotic thunder emperor in recent years to order the thunder of the heavens.

Later, due to the change of chaotic thunder emperor, chaotic God thunder had to flow here with this remnant soul and be accepted by Ye Chen again.

The power of thunder required by it is vast and magnificent, far beyond Ye Chen's imagination.

Ye Chen simply let go of his mind and let chaos thunder rage in his body.

With the passage of time, the thunder and lightning rain was sucked into Ye Chen's body and gradually lost its power.

Zhang Anxin, who wrapped himself up heavily, was also quite stunned. He also planned to use his unique skills to prevent this light rain!

But who could have thought that the power of lightning rain is gradually weakening, and on Ye Chen's side, it has infinite power and raging madly.

What the hell is this guy?

Such a low level of strength can even lead such a powerful thunder force into its own use.

He has never seen such a strong existence before!

.....

In fact, ye Chen also found the existence of Zhang Anxin, but the well water does not invade the river, and there is no need to say hello.

He focused on the thunderstorm in front of him.

WOW!

When the thunderstorm fell, most of them were guided by some special guidance and roared away towards the place where ye Chen was located.

On the surrounding peaks, if they are hit by thunderstorms, they are like corroded objects, with bursts of depressions.

In such a cruel environment, no wonder there is no vegetation to survive.

The thunder and rain roared, which was earth shaking and frightening.

The momentum was appalling!

But ye Chen stood still under the support of chaotic thunder.

God thunder attaches to its body surface and is washed by thunderstorms. Instead of being eroded, it absorbs the energy of light spots.

Even the thunder was dispersed.

"Boom!"

Such a vision spread all over the seventh floor and even the lower six floors. They looked up one after another, and their eyes were full of surprise.

"What's that? I haven't seen it before!"

Some disciples looked deep into the sky and saw such a scene. Their surprise was indescribable.

"It seems that there is a thunderstorm, but what kind of rain can produce such movement? It's incredible!"

"Let's see, which floor did this fall from? Was it caused by those Tianjiao on the sixth floor?"

"Why does it seem to me that it fell from the seventh floor? As far as I know, Zhang Anxin is now on the seventh floor? It's so powerful! It's worthy of being the first pride of my family in the world."

Exclamations and exclamations are heard one after another.

At this time, someone noticed that Ye Chen's ranking has risen to second.

Ying Hongyan has been staring at this list.

She was not surprised to make a sound, and the king achievement around her had shouted.

Many newcomers are also paying attention to the changes here and can't help being very surprised.

Ye Chen jumped to more than 20 not long ago, which has made them feel very incredible. Now she is the second.

This also means that he has surpassed all the inner disciples on the sixth floor, second only to Zhang Anxin on the seventh floor.

In full view of the public, the thunderstorm rained for two days and nights. The terrible thunder force swept the whole nine Raytheon tower and shocked countless people's eyes.

All the disciples of the sect are discussing that Zhang Anxin is so powerful that he can make the nine thunder god tower explode. He must be the first person of the sect in the future.

Even the sect elders outside also fell into discussion and spoke highly of Zhang Anxin.

They couldn't get into it to spy on Leita.

But they knew that only Zhang Anxin could do it.

Zhang Anxin is one of the three reclusive disciples under xuanlao's seat. Xuanlao is gratified to have made such achievements at this time.

"Not bad! It's a good test to have such a mind and calm down."

Xuanlao stood in front of the conference hall, his hands behind him, and nodded faintly.

Judging from the fluctuation from the nine Thor tower, Zhang Anxin may be able to break through to the eighth floor.

How terrible is the eighth floor? The last person who broke through to the eighth floor has been the only emperor and strong in hundreds of thousands of years.

If there is no accident, breaking through the talent of the eighth layer is enough to let Zhang Anxin enter the realm of Lei di.

At that time, Zhang Anxin will become the leader of the younger generation in the whole Lei Xiu world.

Such achievements make people feel excited!

"Let's see how many surprises Zhang Anxin can bring us!"

In addition, ye Chen, who ranked second, also attracted the attention of many people. As a new disciple, he made such achievements when he boarded the nine Thor tower for the first time, and his potential in the future is immeasurable.

The elders were full of praise to Ye Chen. The two elders of xuanming looked at each other when they heard the speech. Xuanlao frowned and remembered that ye Chen went to the holy thunder sea.

He always felt that the collapse and destruction of Shenglei sea was inseparable from ye Chen.

But don't think about it now!

After Zhang Anxin becomes the top disciple of the sect, his position will be completely stable.

Everyone thought so.

But only one person has a different mind from others.

That is Zhang Anxin on the seventh floor.

He had finished his training and hid far away, because he couldn't bear the pressure brought by the thunderstorm.

Those thunderclouds filled the sky, dark and in groups, as if even this void would be crushed.

Chapter 7349

Zhang Anxin's forehead had already burst out a cold sweat, quite frightened.

Even he can't guarantee that he can survive such an attack!

The boy has too much courage.

In Ye Chen's line of sight, he is also like a great enemy.

However, fortunately, chaotic divine thunder has natural suppression power for these thunders. Even if it is more violent, chaotic divine thunder can be suppressed.

At this time, ye Chen's body seemed to have thundering rivers running and flashing in the meridians. If ordinary people touch it, I'm afraid they will be smashed.

Ye Chen raised his head and looked at the end of the sky.

It's time!

This is the signal sent to him by chaos thunder.

He concentrated for a moment, immediately used the chaotic thunder force, suddenly shot up into the sky, like a meteor across the sky, and ran directly towards the huge thunder gathered in the dark clouds.

This piece of thunder is gathered by thunderstorms in recent days, forming a Pentium river, emitting extremely terrible majesty.

Boom!

The huge sound exploded at this moment, directly penetrating the cloudy and heavy thunderstorm sky, which attracted people's attention.

People on the lower six floors saw this scene and stopped to watch.

Some of them have completed their final cultivation and are in the final stage.

Among the people on the sixth floor, no third disciple broke through the seventh floor.

"Does anyone want to break through to the seventh floor?"

This surprised voice changed the look of many people.

There are only two days left, and the breakthrough has already been completed.

If those who have entered the sixth and seventh floors fail to complete the breakthrough 20 days ago, I'm afraid there is no hope behind them.

Only a super genius can accomplish such amazing feats.

At this time, as the object of discussion among the population of many religious sects, Zhang Anxin, the first inner gate, has been far away from the place of cultivation and hid further.

He never thought that he would be so embarrassed one day.

The cloud of thunder and robbery was unbearable to him!

"Damn..."

Zhang Anxin clenched his fist and looked unwilling. He could expect that this guy would soar to the sky and might become his great enemy in the future.

When the thunder's power was brewing to the extreme, ye Chen suddenly opened his eyes. The chaotic God thunder had condensed to the top and could erupt in an instant.

He wants to break through this thunder cloud and break through to the eighth floor.

Ye Chen stepped out like a giant, majestic and invincible.

If he wants to break through the eighth floor at one stroke, he needs to work hard.

The whole person is like a cloud hanging from the sky and enters the dark thunder. Even if the lightning flashes, he will never move forward.

Boom!

In a short moment, ye Chen touched the boundary wall of the eighth floor, and his body passed through the terrible thunder cloud.

This is the case.

Chaos thunder protected his body and crossed the barrier that seemed impossible to cross.

At this moment, there is a completely different world in front of Ye Chen.

The sky here is clear and there is no thunder.

Those thunders were all entrenched underground, forming a turbulent thunderbolt magma, like a volcanic eruption, all over the whole earth.

It is completely different from the scene on the first six floors.

The thunder visions on the lower floors also slowly disappeared, just when everyone thought it was over.

Suddenly someone exclaimed.

"Look at the ranking on the thunder stone tablet!"

They are wondering why the thunder vision will disappear. Has Zhang Anxin broken through the prohibition of the seventh floor and become the second person in history.

But when their eyes moved to the ranking table, they were surprised to find that Zhang Anxin was squeezed to the second place.

The person who ranked first became Ye Chen.

After seeing this ranking, even if someone rubbed his eyes, he was not sure.

"The first person... Is ye Shitian?"

"Am I wrong?"

“.....”

Several people looked at each other and looked at each other.

They did not expect such a change.

If ye Chen's ranking exceeds Zhang Anxin, he must have entered the depths of the seventh floor.

"The younger generation is terrible!"

Someone couldn't help sighing.

Many people nodded that they would not believe that a new disciple could make such achievements if they were put before the trial,

But now the facts are in front of us.

"Spread the news quickly! Tell the elder of the sect and emphasize that the newcomer's achievements are amazing!"

From the first floor to the fifth floor, they all knew the news and were shocked.

The new disciple cheered and looked shocked, and immediately became very happy.

From being bullied, to being attacked by Jedi, to being proud, it's all because of one person.

Ye Shitian!

It can be said that ye Shitian liberated them, separated Lei Yuandan and handed them over to enhance their strength.

But ye Shitian broke through the eighth floor again. It is conceivable that his strength is incomparable!

In other words, they have found a new backer.

Those who didn't deal with ye Shitian were gloomy and in a terrible mood.

Especially Zhen Xingyu, he finally broke through to the fifth floor and has reached the depth of the fifth floor. His cultivation ranking has increased a lot this time.

It was originally a very pleasant thing, but ye Chen ascended the seventh floor and surpassed Zhang Anxin in one fell swoop, which made him unhappy immediately.

If so, he will only take ye Chen more and more. There is no way.

After all, zongmen can't give up a future peerless genius because of his personal interests.

Even if the backing behind him is that xuanlao no longer pays attention to Ye Chen, it is also when ye Chen has not succeeded in climbing the tower.

The first time I entered the tower, I climbed to the seventh floor. I can imagine such talents.

Those who looked down on Ye Chen and despised him also changed their normal state and were full of envy.

Tianleizi sighed and was completely defeated.

He thought he had entered the fifth floor and became one of the best disciples in history.

But turning around, ye Chen has thrown him away.

Now he is no longer able to catch up with Ye Chen.

Ye Yatian surpassed Zhang Anxin and became the first thing in the test list, which spread rapidly.

One pass ten, ten pass a hundred, and soon it reached the zongmen at a flying speed.

But these things, for ye Chen, were not affected at all.

He was out of the vortex of public opinion, and he had come to the eighth floor of the nine Thor tower.

The scene here is different from the first seven floors.

The sky was gray and there was no half thunder, but the ground was ferocious and terrible, as if it had been smashed by some heavy object.

Huge cracks spread like cobwebs.

Chapter 7350

The thunder flowing through the cracks in the ground is as calm as a river.

But ye Chen knows that it's definitely not as simple as it looks.

Sure enough, when ye Chen approached the thunder, the silent thunder suddenly rose.

Ye Chen hurriedly retreated, and there was a thunder in the place where he was standing. It came out from the ground. It was very terrible and terrible.

He stepped back quickly.

In this short moment, those irritable thunder surged, like a fierce beast, rushing to his face, making people scared into a cold sweat.

Sure enough, those thunders are different from those in the previous layers. They have fine luster and clear texture. Crawling on this cracked earth, they seem to be somewhat contrary to each other.

Ye Chen stepped out, stood on it and looked into the distance. The thunder in his eyes gathered into rivers, lakes and seas, surrounded his position.

The place leading to the depth of the eighth floor contains a boundless ocean, and the thunder force is also very vast.

The sea thunder is boundless and endless. Even if you step on a spirit craft, you can't cross here.

Therefore, ye Chen was very cautious. He separated a trace of divine power and stepped here. He found that with his reincarnation blood, he could not break through this prohibition.

It is worthy of being the eighth floor of the nine thunder tower. It is mysterious and deep. Few people can break into it. However, before ye Chen enters it, the chaotic God thunder entrenched in his body reacted first, like a wandering snake, and quickly entered the thunder deep sea. The originally calm thunder sea suddenly rolled like a tide.

It is the chaotic thunder that absorbs the energy, turns it into its own use, and feeds it back to the host.

Ye Chen felt the energy from the chaotic thunder and was surprised.

He felt that he had really gone to the right place. If he hadn't gone to the saint thunder sea, he couldn't get this ray of chaotic divine thunder. You know this thunder, but he helped himself solve many things.

"Come on! Let this thunder sea see our power."

Without saying a word, ye Chen rushed up like an eagle and went straight to the thunder sea.

However, there was a violent storm in front of him, which was the barrier caused by chaotic thunder, blocked the wind and thunder, absorbed it, turned it into its own use, and became stronger and stronger.

Chaos thunder escorts Ye Chen in front and cuts the wind and waves. This move makes Ye Chen reduce a lot of pressure.

You should know that chaotic divine thunder is the overlord of thunder. This lightning is a piece of cake for him. Therefore, chaotic divine thunder can subdue the demons and ghosts in the world.

Ye Chen felt something, and the outline of Lei Hai on the eighth floor was completely presented in his eyes.

It turns out that the eighth floor is actually an extension of the ladder. All the way up, the last ladder is the channel to the ninth floor!

The chaotic thunder has cleared many obstacles for ye Chen.

Ye Chen came to the eighth floor, but he was unimpeded and made great progress all the way.

When he reached the ninth floor, the pot outside Leita had exploded. The elders were shocked when they knew about this.

Tailei Shenzong, the wind and cloud is rising at this time.

The Presbyterian group came to Leita and held a meeting to discuss the matter in time. After hearing the speech, many Presbyterians were shocked and their world outlook was subverted.

"News came from the tower that the new man named ye Yatian had broken through the seventh floor!"

The three elders of the sect were amazed. For ye Chen, who had practiced for many years and had no mood fluctuation, he was a little excited.

This means that there is a figure comparable to Lei Di in the Tai Lei God sect!

As long as the Pope gives his full support, he can ascend the throne of emperor Lei.

Not only him, but also the other elders of the sect were shining and excited.

But xuanlao and the elder, who were at the highest level, frowned slightly.

The elder knew that his grandson had had conflicts with him, so he could not help worrying that bad things would happen in the future.

Xuanlao was angry about the destruction of Shenglei sea. He knew Ye Chen was a smart man and must understand his intention at that time.

The two people in power looked at each other and understood what was in each other's heart.

Their narrow mind makes it difficult for them to ride a tiger.

After a moment of silence, the elder took the lead in speaking.

"OK! After he comes out, give him the best cultivation resources. Five elders, go down and arrange it."

After the elder commanded, he turned to preach to xuanlao.

Xuanlao pondered for a moment and agreed.

In this world, there is no eternal hatred, only eternal interests.

He believes that as long as he cultivates Ye Chen as a inheritor, ye Chen will certainly stay in Tailei sect wholeheartedly.

"OK! Start action immediately."

Xuanlao also agreed.

It is a crazy plan to train a new disciple as a future leader.

But none of the elders present was surprised.

They all take it for granted.

A genius like Ye Chen has been rare for tens of thousands of years.

Once one comes out, it will rule an era!

.....

this moment.

Ye Chen has come to the deepest part of the eighth floor.

With the help of chaotic thunder, he passed through the thunder cloud. The thunder waves and sea tides surged on both sides of him, but he couldn't hurt him.

The power of chaos thunder is unmatched. It almost suppresses these thunder from its origin and makes it unable to move!
