Chapter 7351

A Leihe river runs through the whole nine Raytheon tower from top to bottom.

The water of the river comes up from the sky and flows to the sea. The whole nine Raytheon tower forms a strange landscape.

The disciples on the lower floors were amazed at this scene.

Some of them have learned that ye Chen has climbed the eighth floor!

That's the eighth floor in the legend!

Countless Lei Xiu Tianjiao dream of stepping into the holy land.

To the eighth floor, it means that this person has incomparable qualifications and is destined to shine in the future.

Ying Hongyan stood in the crowd with a smile on her face. She was looking forward to the scene after ye Chen came out of the tower. She should be accepted as a disciple by the elders!

However, at this time, Ying Hongyan suddenly felt some palpitations in her heart. She seemed to be summoned by some force and had a concussion in her head.

She looked a little confused, looked around, but found nothing unusual.

But somehow, my heart beat faster and faster.

"What's the matter with me?..."

Ying Hongyan has some doubts.

At this time, ye Chen, who was far on the tower, was facing the thunder river.

No one expected that his goal was not the eighth floor, but the legendary ninth floor!

The chaotic thunder in his body felt more and more strongly, producing a certain desire to devour.

There must be some secret on the ninth floor!

Ye Chen tore the dark sky and soared up into the thunder sky above the clouds.

Lei Yun and Lei he intertwined into a line, which was terrible, but ye Chen was not afraid at all.

Boom!

He rushed forward and blew up a startling sound, which suddenly rang through the world.

The overwhelming thunder surged out and scattered the dark thunder clouds.

At this time, a kilometer long thunder river appeared, winding out. When the thunder clouds dispersed, ye Chen found that the sky was not without thunder, but hidden in the depths of the sky.

"I see... This should be the barrier to the ninth floor."

Ye Chen raised his head and looked up at the sky. The barrier formed by the thunder could not see the end.

At a glance, it looks like a brilliant galaxy, but in fact, it hides all kinds of dangers.

The terrible level of the thunder barrier, even the chaotic God thunder also felt.

"How powerful is this thing?"

Ye Chen couldn't help asking.

When he practiced in Leita and broke through every barrier, he didn't feel palpitation.

But now, there is some panic in my heart.

At this time, chaotic Leidi also answered.

"This piece of thunder... Is very close to the road thunder in ancient times. It is essentially different from the thunder in the following layers."

After chaos Leidi decided, he said.

"Boy, although I don't know what's on the top of the nine Thor towers, it has nothing to do with the chaotic God thunder in your body! Maybe you can try to hit the barrier with the power of fire and thunder."

Chaotic Yan Emperor also reminded at this time.

They are the spirits of ancient times. Their perception is naturally very strong and they have seen and heard a lot.

"Good!"

Ye Chen simply sat down in the air and adjusted the thunder force in his body.

Above his head, the thunder was as smooth and thorough as a metal surface, with extremely terrible power.

In this state, ye Chen is getting better.

All he has to do is achieve that unprecedented achievement.

The thunder on the sky seemed to feel Ye Chen's killing intention, and there were some ripples.

Then there was the roar of thunder. Those liquid mirrors seemed to be boiling and very violent.

In the twinkling of an eye, thundering liquid fell like a mountain and bombed down, drowning Ye Chen.

But just as the thunder liquid was about to come, rolling thunder waves swept in.

It was a divine thunder that burst out from ye Chen's body, showing a dark blue color, raging like a tide, and breaking out a strong wave.

The two confront each other and fight madly.

And ye Chen is like a nobody, still sitting quietly.

He's gathering strength!

This time only win, not lose.

.....

Beyond countless empty spaces, there is a forbidden area in the dark sea.

The general forum of the old League.

An old man in the forbidden area slowly opened his eyes. There were endless vicissitudes in his eyes, as if he had seen through the ages and reached the end of the universe.

"Someone... Someone is hitting the eighth floor?"

He has suffered a serious injury and is recuperating here to recover from the injury.

There is a connection between him and the nine Thor towers.

But at the next moment, he sat up in shock, and there was a thick shock on his aging face!

"Not on the eighth floor... But on the ninth floor!"

The old man seemed to have discovered the new world and muttered to himself, with more and more light in his eyes.

He talked to himself for a moment, then raised his head and laughed.

"I didn't expect anyone to break through to the ninth floor. OK! Then I'll take a look at these two old things. I don't care!"

The old man's look changed from surprise to cold. He took a deep breath and dragged his broken body back to where he stayed.

Soon, a vague shadow appeared in front of him, which was a figure hiding in the dark.

"What can I do for you?"

The figure opened slowly, deep and mysterious.

Sitting on the skeleton throne, he lit two green candles in front of him, looming, setting off his incomparable body.

"I can exchange with you, but you have to promise me one thing."

The old man said to the virtual shadow in front of him.

This virtual shadow is no one else, but the supreme leader of the old Alliance: Demon Zu Wutian.

Hidden in the darkness, the demon ancestor pondered for a moment, and then agreed to his request.

"Yes, since you ask so, this seat can heal you. It's a great miracle that you can survive the thunder robbery. If you forcibly recover, I'm afraid there will be sequelae. Think about it yourself."

Devil Zu Wutian always speaks frankly.

He saved the old man in front of him in the silence of the thunder, and this man was the last leader of the thunder god sect: ye Jurong.

When ye Jurong heard this, there was a flash of hatred in the bottom of his eyes.

He was framed and trapped before he became what he is now.

In any case, he wants to regain his strength and go back to avenge blood hatred.

"Demon Zu Wutian, as long as you can help me recover my strength, I'm willing to do anything!"

He was originally separated from the sect and came to the thunder field outside to absorb foreign energy and restore his strength.

But I didn't expect to be killed by traitors and driven into the abyss.

Fortunately, at the last moment, Mo Zu wudian helped him and saved his life.

Of course, the devil Zu Wutian didn't save people at will, but thought about it.

Chapter 7352

If he wants to completely recover from his injury, he must borrow the hand of the devil ancestor Wutian to remove the thunder injury in his body and restore his body to its peak state in a short time.

In that way, his body will leave a lot of sequelae, and maybe he will lose all his cultivation and retreat to a low level.

But at this time, all he had left in his mind was revenge and the safety of his descendants.

If he can handle these properly, he will have no regrets!

The body shape of the devil ancestor Wutian slowly disappeared, and then a vortex black hole slowly formed, releasing amazing energy fluctuations at this time.

The black air rolled in and immediately surrounded the old man's body.

For the old man, the thunder injury on his body is gradually recovering, and the old skin is slowly tightening up.

After about two hours, his appearance was much different from that before, and he returned to his thirties and forties.

His actual age was not very big, but after this thunder injury, he became old.

After he completed the transaction with magic ancestor Wutian, the virtual shadow of magic ancestor Wutian gradually disappeared and condensed into a ball as dark as ink.

He put the bead in his mouth and digested it slowly.

In this process, there was an inexplicable color of thunder on his body surface, which disturbed his cultivation progress. That was the damage brought by the thunder dangerous place.

At this time, he was going to use the power given by the demon ancestor Wutian to repair the injury in his body.

When all this was done, the old man sat cross legged slowly.

Here, once again fell into the silent darkness.

In the old League altar and the main hall of the devil ancestor, there was a man standing in the center of the main hall.

Wearing a black robe and handsome face, he closed his eyes and frowned.

It's the demon emperor!

In the sky of this array, a figure floated slowly. The man was the devil ancestor Wutian, and his eyes glittered with a long fire of ghosts and gods.

After a while, the demon emperor opened his eyes, sealed his palm and summoned a dark talisman.

Soon, under his control, the talisman turned into an extremely pure force around him.

If ye Chen saw this scene, he would be very surprised. The devil emperor of Zhetian left not for cultivation, but for the old alliance.

"Your body has buried my soul. After the last World War I, some parts of your body have been changed. You need to adapt again and change my old alliance method, so that you can shape an invincible demon body."

The demon ancestor was suspended in the air, stood with his hands down, and said faintly.

He had already detected such results through the secret of heaven before the demon emperor left.

So at that time, he let the people of the old alliance no longer have to chase, and let them escape. Sure enough, the demon emperor returned to his place and asked for his help.

And he didn't care about the previous things. As long as he could repair the body to its peak, that was what he wanted most.

"Why didn't I notice the change of magic skill?"

The devil emperor could not help but say that after the last World War, he emptied all his strength and had to return to the old alliance to let the devil ancestor take action.

What he practiced was the Jiuyou magic skill of the old alliance. He used the magic power in the dark to repair the flesh and fill the missing part of the law in the body.

But now the spirit around the soul can't be repaired. It seems that it has suffered some kind of big trauma. If it is empty, it makes the inner part of the whole soul look incomplete.

With a wave of Wutian's hand, the faint power of Jiuyou emerged like smoke and wrapped around the body of the demon emperor covering the sky.

"The Jiuyou power I summoned has made up most of your missing spirits, but the rest involves the original soul power, which ordinary Jiuyou power can't make up for."

"What can be done?"

The demon emperor wanted to recover his strength quickly and help Ye Chen.

Devil Zu wudian naturally knew what he was thinking in his heart. After pondering for a moment, he raised his eyes and said with a smile: "I have a way to improve your spirit and soul, and even make your strength to a higher level."

The demon emperor did not speak, but looked at him and waited for him to speak.

"In the endless thunder field, there is a holy land of thunder repair, called Tianlei mountain. Do you know?"

"Know some."

"That day, the most powerful force in the thunder god mountain was called Tailei God sect. There was a tower called Zhenshen tower. Under the tower, the God monument was suppressed, and the creatures under the God monument were what you needed."

What the devil ancestor Wutian said is an evil thing in Jiuyou Wudi. It was suppressed by the first leader of Tailei sect and sealed under the earth. It is also used as one of the sources of strength to feed the people in the sect.

If he wants to repair the spirit in his body, he must find this trace of Jiuyou magic and swallow it, so as to complete the magic rules in his body.

The devil Zu wudian also watched a memory picture of the devil emperor covering the sky.

When the demon emperor saw Ye Chen in it, he couldn't help looking a little changed.

That's the picture of Ye Chen taking part in the competition. He made great progress all the way and successfully broke the records of Tailei God sect.

"The Lord of reincarnation went there to get the God tablet there! Just what you want is there. Why not help it?"

Chapter 7353

The devil Zu said faintly. His look was indifferent, shrouded in the thick darkness, boundless and silent.

The devil Zu has no mind of heaven, and his thoughts are very deep. Ordinary people can't guess. Even the devil emperor can't figure out why he wants to help Ye Chen.

With the boundless strength and status of the devil ancestor, you can look down on them from above.

However, he took the initiative to tell the location of the treasure to help the emperor recover his strength.

There must be a deeper plan.

The emperor of the sky covering devil is uncertain at one time.

"Hehe, I'll take you to meet someone. When you see him, you will know everything."

With a wave of his hand, the whole starry sky shrank into a sharp light, and then came to the general altar of the old alliance.

At the bottom of the altar, an old man was bred in thunder, and his old skin was gradually replaced.

The demon emperor was slightly surprised when he saw him, because he found that the thunder power of the old man was very strong, far more than ordinary Lei Xiu.

The figure of demon Zu Wutian is still looming.

"He is the current leader of the Tai Lei God sect. No, to be exact, he is already the predecessor. He stepped into the thunder sea and was framed and almost died. I saved him and placed him here to restore his strength."

"You can communicate with him and know the origin of the nine quiet magic."

When the devil Zu wudian finished, he hid and didn't know where to go.

At this time, the old man sitting in the thunder also gradually completed his transformation.

When he opened his eyes, the thunder flashed in his eyes, which contained the ancient meaning of the vicissitudes of life.

"The ancient path in your body is very strong. It must have something to do with the magic ancestor Wutian."

As soon as the old man opened his mouth, he took the initiative to say.

The demon emperor did not deny it, but nodded.

What he practices now is the ancient magic skill inherited from the old times. It originated in ancient times and has a very long history.

In the old days, this ancient magic skill was a well deserved top secret skill.

Even now, it is a unique existence.

"Your thunder..."

Through the layers of raging thunder, the demon emperor saw some scenes in the old man's body.

The power of thunder possessed by the old man is vast and extraordinary, but it is like a bottomless sea and rootless wood.

Once the time is long, it will cut off the source and dissipate completely.

The old man himself is very clear about this situation.

"I was killed by a traitor in the sect. When I crossed the endless sea of thunder, I was attacked by magic thunder. It was not long before my life. Fortunately, I used the dark secret method of magic ancestor wudian to temporarily raise my strength to the peak."

The next words, even if he didn't say it, the demon emperor of zhetien understood.

Everything is just for revenge, even if it's broken to pieces!

He was betrayed by the people of the sect. If he can recover his strength and go to revenge, he will not miss this opportunity!

"Tailei mountain is a relic from ancient times. It can also be said that it was separated from the chaotic battlefield! It has an independent field, and later formed endless thunder, which has become a holy land for many thunder cultivation."

From his story, the demon emperor gradually knew the origin of the town god tower and the God monument.

Compared with the God monument, the Zhenshen tower in the zongmen has existed for a longer time.

"If you want to get the things suppressed under the monument, I'm afraid you have to go to the chaotic battlefield first!" said the old man.

That nine hell magic thunder was born in the far netherworld, or from the chaotic battlefield at that time, with extremely powerful magic power.

The old man knew the purpose of the demon emperor, so he came straight to the point and said the premise.

If the demon emperor of Zhetian wants to obtain the nine yours magic thunder, he must first go to the chaotic battlefield and find the source of the same breath! To absorb the nine hell magic thunder with this thing.

"OK! In that case, I'll go to the chaotic battlefield."

The demon emperor had also heard of the existence of chaotic battlefield.

That place is no less dangerous and mysterious than lost time and space.

Even from a certain level, chaotic battlefield is a deserted place left by ancient gods and demons, which contains more dangerous and strange.

Of course, the old man would not refuse. After all, it was the order of Mo Zu wudian himself. In his palm, an ancient seal of vicissitudes slowly emerged. The light red pattern was engraved on the back like a flower petal. The vicissitudes are long, as if it had precipitated the ages.

"This is the thing left by the first ancestor of our Tai Lei God sect. In those years, he urged the God Monument and sealed the nine hell magic thunder with the help of seven ancient decrees!"

A black awn slowly opened, which was the void entrance to the chaotic battlefield.

The demon emperor covered the sky stepped in and gradually disappeared.

Holding the ancient token, he went to the chaotic battlefield to find the origin of the breath of Jiuyou magic thunder.

The chaotic battlefield is located at the intersection of the desolate world and the heavenly world. It is an abandoned place of the heavens, which can be said to be independent of the ten thousand boundaries of the heavens.

There were ancient gods and Demons blood stained the sky, meteorites cracked, star regions broken, and countless ancient relics turned into historical dust and sealed in them.

The demon emperor covered the sky stepped on the golden light, and a chain of order God was paved in front of him. The way of order condensed from the rules of the avenue broke through the void and went straight to the chaotic battlefield.

The momentum of his body melted into heaven and earth, drinking and preparation crisscrossed, time and space revolved, and the boundary wall of the chaotic battlefield was torn by invisible forces.

That's the power that belongs to the devil ancestor.

Jiuyou yellow spring is above the world.

When the devil comes, everything makes way!

In the chaotic battlefield, the void torrent composed of countless meteorites boils again, and they sense the arrival of the invincible strong.

The old man followed him. He raised the thunder in his hand, and his body was like streamer. All things in the heavens made way for it.

The order of heaven and earth and the rules of the main road are sensitive, respecting these two powerful breath.

The demon emperor who covered the sky never looked back to see through the void, but he could know the situation behind him.

The door of chaotic battlefield closes slowly.

"This is the chaotic battlefield!"

The demon emperor looked around.

The universe here is so vast that ordinary people can't enter it, let alone explore its secrets.

The chaotic battlefield in those days was the most shining existence in the universe.

Countless Tianjiao rise together and the heroes compete for hegemony, which deduces the immortal legend of the universe in this battlefield.

Unfortunately, with the passage of time, this place is also like dust in the past, which can not be pursued.

Many divine emperors rose here and gained great fame, but finally dissipated between heaven and earth.

Although their strength is extremely extraordinary, their fame has always drifted between the secular world and has not confirmed the avenue of heaven and earth. Finally, they can only become extremely nameless with the passing of ancient times, ancient times and the flood and famine era!

But there are exceptions.

The legend of immortality existed in the flood era, and Hongjun's ancestor was the first person since the founding of the world.

The ancestor of Hongjun is the ancestor of the universe, also known as Yuanyang God and Pangu Shenghuang.

Chapter 7354

The other two names are rarely mentioned. They were used by Hongjun's ancestors before opening up the era of famine and leaving ancient legends.

He and the flood world have both prospered and suffered losses. Since the rise of the flood, he has made great contributions, and it is not too much to be called the creator God of the post flood era.

This is the only true God!

Heaven and earth are often bad, but the experience of my ancestors is not bad. When heaven and earth first opened, my ancestors were born to help people. The Tao and meaning shine on the earth, and the teaching theory has been handed down from ancient times.

In those days, all living beings in the flood and famine had their own masters. The four saints, the six saints in the flood and famine all established schools. One was to popularize all living beings, and the other was to strive for power and profit.

But in terms of status and belief, Hongjun's ancestor called it the second, and no one dared to take one.

But these are later words!

As the Lord of the thunder hall, the old man is not weak. He can see through the vanity behind the thunder.

"We can't enter the depths of the chaotic battlefield, but it can be detected in the periphery! You and I can protect our lives in the periphery together."

Said the Lord of Tai Lei hall.

Then, the demon emperor and he joined hands to break through the void and enter the chaotic battlefield.

Tai Lei hall took the initiative to use the original power of thunder to release a huge star array and block the four directions of the star sky, which implicitly implies the trend of flood and vain array.

He once entered here to look for opportunities, but in the end he failed.

"The chaotic battlefield is the most brilliant star field in the three ancient times. According to the records of our ancestors, those who could command the chaotic battlefield at that time could control the whole heaven and the world. Their strength could make all sentient beings tremble!"

"It's a pity that with the rise of the famine era, Hongjun's ancestor went against the sky and broke all the Taoist rules in the world. There are countless strong people around Hongjun, all of whom are like heaven and earth!"

The Lord of Tai Lei hall recalled the ancient historical materials in the sect door and couldn't help saying slowly.

The flood and famine were arbitrary for ages, and countless saints competed to create an invincible prosperous age. Hongjun's ancestor was the Lord of the flood and famine, unprecedented and no one came later.

At that time, Wuzu made extraordinary achievements on another road! Just a slight loss to Hongjun!

For that brilliant and bright history, the demon emperor of zhetien also yearned for and worshipped it.

Hongjun's ancestor is so powerful that who dares to disobey his authority?

Then they stepped into the chaos of this chaotic battlefield.

They broke dozens of huge meteorites along the way and spent a lot of effort.

The battle of gods and demons in the chaotic battlefield broke the earth and the stars ran through. Naturally, there were no small deformities left.

In the false chaos, they see a huge virtual shadow.

The huge virtual shadow was left by an ancient god and devil.

Visions emerged behind the ancient gods and demons, and the totems were scattered. The gluttonous giant beast in the depths of the void stretched out tens of thousands of feet, entrenched behind it, and its pupils were as open as the star field, which was awe inspiring.

The demon emperor and the Lord of Tailei hall stepped into a black abyss.

It is shrouded in an extremely huge ancient planet, floating in the eternal void.

In addition to the ancient gods and demons with visions and arrogance in front of us.

Several other visions of famine also took their seats in other directions, summoning powerful ancient beasts of famine, contaminated with the violent atmosphere of chaotic battlefield.

The gods and Demons work together, and the giant beast is powerful in all directions!

The chaotic battlefield is surrounded by star fields one after another. Each broken meteorite is comparable to a single planet, wandering and floating aimlessly in the wasteland of the universe.

In this extremely dangerous battlefield, the strong emperor and ancestor dare not come alone. In case of a torrent of stars, the magic of escaping from heaven to earth will not work.

"There is a chaos forbidden area ahead. Outsiders are forbidden to enter. Please return as soon as possible, or you will be killed."

At the forbidden gate, a figure of a God and devil emerged.

In the palm of his hand, a small snow-white tower appeared. The tower floated up and down, and there were faint dragon Qi winding and iron locks everywhere.

As long as he communicates the power of the universe, he can absorb half of the star fragments in the chaotic battlefield and form the roar of heaven!

Even if the other party can't hold the law, he can't avoid it now in the chaotic battlefield.

But in that deeper place, black thunder came.

The demon emperor's expression was neither sad nor happy. There was always a layer of fog around him, which was the symbol of a natural emperor.

After practicing the ancient Dharma handed down by the old alliance, the power of darkness flows on the surface and hides it.

And the universe is also vast, with tens of thousands of endless chains, just like the doomsday atlas.

"Bold! This is a forbidden place. If you want to continue to step here, God doesn't mind making the so-called you part of the ruins!"

The words of the virtual shadow were like the Sanskrit sound of the great road, enlightening the deaf, and countless rays rose into the sky, as if to confirm the truth of what he said.

The face of Lord Tai Lei changed.

"In that case, no wonder the Buddha."

The giant loosened his hand and let the small tower float.

He is a remnant left by a God and devil in ancient times and is responsible for guarding this land boundary.

But after entering here, the devil's way understood by the demon emperor of Zhetian has made a further breakthrough!

In the center of the chaotic battlefield, hundreds of billions of skeletons burst out from the fragments of meteorites in the sky, ferocious and ferocious, everywhere.

Chapter 7355

The Tao of the limitless arises from the phase, and the Tao of the non phase evolves with demons.

The demon emperor suddenly opened his pupils, like an abyss monster quietly coming.

He used Jiuyou magic.

"What!"

The remnant was holding a huge tower, but it couldn't get close to the demon emperor.

He's just a ghost. I can't figure out why?

In the depths of the chaotic battlefield, there is a light that diffuses and illuminates the nearby star field.

The Lord of Tai Lei hall was shocked when he saw this scene.

He thought he had to go through many hurdles to find the original power of Jiuyou.

But I didn't expect that the talent of the demon emperor was so terrible that he could communicate with the heaven of the chaotic battlefield. And called out the hidden power in the depths of the starry sky!

The demon emperor who covered the sky entered a mysterious realm. It was a nine secluded yellow spring. He was in it and stepped on the Naihe bridge.

Then he rose up in the air, overlooking the Jiuyou earth, and spread around with the netherworld as the center.

The vast territory of Jiuyou is strange, strange, dazzling and shocking.

It was at this point in time, in the chaotic battlefield, that piece of brilliance completely emerged, drowning heaven and earth and devoid of emptiness.

The demon emperor covering the sky is about to accept the original power of the nine yous magic thunder and turn it into his own use.

At this time, the Lord of Tailei hall, who was immersed in shock and did not return to God, suddenly felt something and looked up into the depths of the universe.

He has some inexplicable connection with the nine Raytheon pagoda, so he can detect the changes caused by mixing the nine Raytheon pagoda.

This is someone trying to hit the ninth floor!

This discovery surprised him.

Someone touched the boundary wall!

He was shocked immediately. You know, ordinary people can't enter the nine Thor tower at all.

From ancient times to now, in the long years of the existence of tarrell sect, it has not been. There have been evil characters climbing the ninth floor.

Is it said that the thunder god sect is destined to rise? As soon as I read this, the eyes of the Lord of Tailei hall became brighter and brighter.

.....

At the same time, ye Chen, who is in the middle of the nine Thor tower, has also entered the final breakthrough stage.

Chaos God thunder, turned into armor and armor, protected the vital points of his whole body, and the momentum condensed became an extremely powerful atmosphere.

Such a strange scene is integrated with the towering thunder, but it doesn't seem so abrupt.

Ye Chen has entered a vast white world, which should be between the eighth and ninth floors, some similar to seals.

He looked around, hesitated for a moment, and then went to the depths of the world.

As he walked, the scene around him changed rapidly.

Mountains and rivers appear in turn, and strange scenes continue to dazzle people.

While he was at a loss, a magnificent gap opened in the depths of the clouds.

Then came the endless cold breath.

Blood red light emerged, carrying endless cold waves.

The law energy between heaven and earth seems to be penetrated, rippling and disappearing into dust.

In front of this trend, countless figures rise up, which seems to be integrated with the thunder.

Thunder loomed, blood turned into the sea, and those virtual shadows were not human at all.

But blood people standing in the sea of blood!

Countless screams of despair resounded through the sky, as if to bring the end of heaven and earth.

Blood red spread and life was ruined. At this time, ye Chen seemed to realize the seriousness of the matter.

He saw the taboo figure in the depths of blood through the blood tide surging like the waves.

Looming, illusory and blurred, but it seems to exist again, and exudes an extremely terrible breath.

What's that?

Ye Chen wondered.

And then something more shocking happened.

In the depths of the sea of blood, more than one figure emerged.

But there are several bloody figures.

They seem to be the guardians of the ninth floor.

incorrect! Not a guardian!

When ye Chen's eyes looked again, they penetrated the endless vanity,

His eyes became extremely dignified, and a cold sweat had burst out on his forehead.

These blood seas are not just the power of thunder! But a more terrible existence.

The blood light was turbulent and sticky to the extreme, and turned into evil figures, shuttle roaring, terrible.

That pair of pupils, like cast by scarlet magma, lie across the void. How terrible!

The blood light emitted by the pupil seemed to condense in front of Ye Chen.

"The nine Raytheon pagoda is a sacred thing. Why does this happen?"

Ye Chen frowned and kept thinking. He wanted to know what was between the ninth floor!

The next moment, the picture in front of him kept changing, and a broken world emerged.

The sea of blood inside is not like a sealed volcano, but also like an Optimus giant column, rippling with the power of emptiness everywhere.

At this time, there seemed to be a slight crack in the copper wall and iron wall, and a sea of blood drilled out along it, causing a thunderous shock.

There was a fierce confrontation between the two.

"Is that... The devil?"

Ye Chen's eyes suddenly looked cold.

He seems to see some incredible picture!

Without origin, I thought of the Zhenshen tower in Tailei sect.

There are countless monsters under the town god tower, bound and imprisoned.

Does the ninth floor of the nine Thor towers lead to the Zhenshen tower?

No one had ever climbed the ninth floor before, so no one ever told him what the ninth floor looked like.

It seems that we can only take one step at a time!

Ye Chen looked at the white world and was swallowed up by the black tide in the blink of an eye. There was a strange scene left!

And he came to the deepest part of the land.

Suddenly, countless blood demons came one after another, entrenched around, like an ancient troll, staring at Ye Chen.

Those demons were as motionless as a mountain. Obviously, they had some kind of intelligence.

At this time, ye Chen seemed like a leaf boat in front of the rough waves, facing hundreds of millions of demons.

Those demons looked down at Ye Chen.

Blood red eyes, emitting dark blood light.

In their eyes, ye Chen seemed to be a prey ready to be slaughtered at any time.

Facing this gaze, ye Chen seemed very uncomfortable.

Boom!

In his mind, there was a ray of thunder, which exploded with a thump.

And the thunder light carries a trace of will.

An extremely powerful demon ordered Ye Chen to release them.

Deep in the thunder clouds, a portal slowly appeared at the bottom of the sea.

As long as you open the door, you can open another way out of the Zhenshen tower.

But when ye Chen felt the will, he was shocked all over.

Soon his eyes grew cold.

Because the master of the will made him bow down and submit.

Chapter 7356

He is the Lord of reincarnation, who is above the heavens and in charge of the six paths of reincarnation. What he will do in the future is to subvert the whole real world.

It's just a little demon. What qualifications do you have for him to bow down and be a minister?

Since ancient times, the Lord of reincarnation, he has failed, suffered and despair, but he has never bowed his head!

Even in the face of Hongjun's ancestors, the Lord of reincarnation still communicates with him with an equal attitude.

"I have seen countless gods, demons and creatures in the universe. I have fought for life and death with the feather emperor. Hundreds of thousands of years of reincarnation can't destroy my will. What are you?!"

Every time ye Chen said a word, the vast starry sky shook a minute, and the whole chaotic battlefield was crumbling!

Behind the Lord of reincarnation, the plate of reincarnation suddenly opened.

The magnificent and turbulent reincarnation blood gushes out of the meridians and converges into a sea of blood behind them.

Ye Chen is angry this time!

What are the demons in this town god tower?

Can't you beat him back?

In that case, he let these guys see what strength they have!

The surging breath of samsara is like a surging tide rising into the sky, vast and powerful, with no hiding.

Those demons, originally through a crack in the nine Thor tower, found someone climbing the tower, and immediately became excited.

Among them, the most powerful demon is an ancient fierce beast lion dragon. In terms of its strength, it is also the four animal kings second only to Hongjun.

At its peak, it is in charge of a star field, turning hands into clouds, returning hands to rain, farts against the world.

Even if he was imprisoned under the town god tower, he had not lost his king temperament for millions of years.

It is instinct to give orders.

It is precisely because he acted at will without thinking that triggered Ye Chen's anger.

Around them, those demon generals who are responsible for guarding the four directions look crazy. When have they seen such scenes?

I thought I could handle this human at will, but who could have thought that this guy was so tenacious!

The lion dragon demon saw it, and the two tusks glittered with cold luster.

"How dare you resist me? Doesn't he know that I am the beast king of the wilderness?"

The lion dragon is very old. Its fur is still soft and shiny. It is majestic and thorough. But if you look carefully, you will find that there is some vanity in it!

After all, years are merciless. Unless you practice to break through the void and escape from the realm of other worlds, you will become a handful of loess!

But the lion dragon demon was unwilling to admit that he was old from beginning to end.

"Do you want to enter the ninth floor without your permission? Delusion. Since you don't obey your orders, go to death!"

The lion dragon demon controls the origin of the evil way and uses the lion dragon treasure technique!

That is an ancient treasure technique developed from the famine era. It is extremely powerful!

The lion dragon Dharma phase is endless and explodes like thunder!

The lion dragon Warcraft behind him condensed into a huge virtual shadow, opened its huge mouth, and the exposed black original magic beads condensed endless power.

Ye Chen also found the existence of the magic bead.

He immediately coagulated his mind, and his Qi and blood rushed to the palm of his hand.

"Daqianchonglou palm!"

The blood power of reincarnation is like a scorching sun.

The vast reincarnation force has penetrated this thunder space, and even made a touch of blood appear in the white fog world. The setting sun is like blood, flirtatious and magnificent.

Reincarnation blood light impacted and crushed the magic bead.

Originally, the magic bead had a great momentum, but now it has become bleak, like being suppressed by some mysterious force.

"This... What's going on!"

The lion dragon demon was shocked. His whole body rolled up a Black Whirlwind and wanted to protect the magic bead, but the accident was in a moment.

The original magic bead burst and broke into tens of thousands of pieces.

Near the lion dragon demon, hundreds of powerful demons turned into ashes and even burned flames to illuminate the dead Zhenshen tower.

The whole town god tower had a change, which alerted many people in the sect door.

Originally dead, but now it has become as red as iron.

"Hurry, report this to the elder. I'm afraid the town god tower has changed!"

The people of the God of thunder quickly took action.

And in the Zhenshen tower.

In fact, it is essentially connected with the floor of the nine Thor tower, so the two sides can be connected with each other.

Those demons, whose duty is to maintain the connection with the ninth floor of the nine Raytheon tower, were also destroyed at this time, and their original gods were severely damaged.

The next moment, directly into fly ash.

On the eighth floor of the nine Thor tower, ye Chen stood still and calm from beginning to end.

He cracked the attack of lion dragon demon. At this time, he was calm and relaxed.

The demons in the tower looked at him like a monster.

What the hell is this guy?

The lion dragon demon was also surprised at this moment.

He seems to have forgotten one thing: the nine Raytheon tower is the place where the top Tianjiao can climb.

Are those who can climb here ordinary people?

"It seems that we should tell them the news!"

The lion dragon demon thought, then turned and walked to the deepest part of the town god tower.

In that tower, there are six other wild monsters, all of which are monsters of the beast king level!

In those years, they were called the Seven Saints of famine.

These seven saints refer to the strong ones in the demon family.

Chapter 7357

When the lion dragon demon Saint arrived, the other six saints felt the defeat of the lion dragon demon saint.

The noble lion dragon demon Saint ate it in the hands of a little rabbit.

Taotie demon saint was happy, but he had to carry it and show some regret.

"What a pity! You were only a little short of winning."

When Taotie demon Saint said this, he smiled bitterly.

Taotie holy beast, which originally existed in the form of skeleton, is now locked in the Zhenshen tower and can not disguise itself.

The lion dragon demon saint was too lazy to argue with him and said directly, "the thunder power that the boy has is extremely not simple! Whoever has the ability will meet him! I want to see who can take him!"

"In that case, go and have a look!"

Among the Seven Saints, the most powerful one should belong to the Qilin demon saint.

He also noticed the unusual of the thunder outside, so he immediately got up and came to the junction of Zhenshen tower and jiulei tower.

The inside of the whole Zhenshen tower is boiling!

Several animal kings came here in person. Through the void gap, the animal kings stood everywhere in the flood field, propped up the avenue, shocked the flood and shocked the whole world.

However, those who confront the Seven Saints are not afraid at all.

At the end of samsara, the rules of heaven are intertwined like thunder. They rush out and roll up the fragments of the starry universe. The God refining storm comes uninvited.

The appearance has such a powerful momentum that there is only one person in the world.

Lord of reincarnation!

The first saint of the Seven Saints in the wilderness, the unicorn demon saint, was born at the intersection of the heaven and the earth. It can be called a unique talent, which has never been seen before.

Its strength is innate and its insight is unparalleled.

At this time, it saw the towering power of blood red, the proud head bent down slowly, and the huge animal eyes stared at Ye Chen and didn't move.

After the Qilin demon Saint stared at Ye Chen for a few seconds, suddenly, there was a touch of shock on his indifferent face that had never been sad or happy!

"That's the power of... Reincarnation? There's the smell of heaven demon and Xuan demon! How can this be possible!"

When the unicorn demon saint was shocked, he confirmed it again.

Several other demon saints were stunned. They knew who the Lord of reincarnation was, but why did the Kirin demon Saint show such a surprised look?

Sky demon? Xuan demon? This is not a legendary existence!

Through the void, ye Chen and the Qilin demon Saint see each other.

Even if the threat of the demon Saint penetrates through the layers of emptiness, it can't make ye Chen's spine half bent.

The Lord of reincarnation is an invincible existence born in accordance with the long river of history. He will not surrender to anyone at all!

The key is that the word reincarnation is also contaminated with the extremely terrible existence of those demon families!

The unicorn demon Saint seems to have thought of something.

Its eyes, filled with colorful splendor, soon turned into a clear spring, condensed into colorful thunder in the twinkling of an eye, took a long bridge, crossed layers of emptiness, as if from ancient times!

In this process, the invincible power erupted in an instant.

The unicorn demon Saint represents auspiciousness and auspiciousness. All the demons are filled with blessings.

"If you are really the chosen son of heaven, you will receive this thunder!"

The unicorn demon Saint kept his face unchanged and meditated in his heart at the same time.

Fundamentally speaking, the Seven Saints of Honghuang are also generals under the command of Hongjun's ancestors.

In those days, the ancestor Hongjun once assigned a task to the Qilin demon saint, that is to find the favored son of heaven in the future!

Also known as the chosen man of the times!

If this man is found, the Seven Saints of the famine will submit to him and work for him.

This colorful thunder is the origin of the thunder left by Hongjun's ancestors.

If he is the chosen son, he will be able to carry the thunder.

If not, you should temper your thunder! Take it back and wait for the next person.

The colorful thunder was brought by Hongjun's ancestor. Together with the supreme artifact of the thirty-three days, it has the most powerful hardness in the world.

However, Hongjun's ancestor did not include it in the list of thirty-three days, but gave it to the Qilin demon Saint alone.

Later, the famine era collapsed and new forces rose.

Coupled with the intention of some friars, the Seven Saints of the famine have come to the opposite of mankind.

War is imminent, and the world of the heavens is in chaos.

The seven of them got caught in each other's treachery, escaped wounded, and were finally taken into the town god tower, mainly suppressed by the thunder god monument.

The prophecy of Hongjun's ancestor is printed in its mind and can't be erased.

Next, we'll see if ye Chen can take the colorful thunder!

Boom!

The sky shaking sound hovered over Ye Chen's head.

Ye Chen suddenly looked up and stared.

The colorful thunder tore the void, turned into a big net and landed.

Silent, there is nothing strange except bright colors.

But ye Chen knew that this colorful thunder had gone beyond the scope of ordinary divine thunder and brought the killing intention of the way of heaven.

If he can't carry it, he will be crushed to pieces under the thunder!

The demon Saint opposite is really something!

But ye Chen will never give up until the last minute.

The sea like reincarnation force surged out of his pores and poured into the body surface.

Boo!

The surface of Ye Chen's body glittered with thunder, filled with incomparably dazzling thunder.

Almost all chaotic thunder erupted, prompting the most powerful force, almost without reservation.

Because it is also very clear that when ye Chen is dead, it is difficult for the chaotic God thunder to find a second monk who practices the ten thousand methods of thunder.

Or not at all!

"Open up chaos with my blood!"

Ye Chen bit her fingertips and drew a simple talisman array pattern on the ground.

"Thunder ten thousand methods, shadow thunder sky crack!"

His whole body was surrounded by thunder, and then quickly stimulated the blood force and condensed endless thunder clouds.

The dark thunder cloud covered the whole thunder sky, and a startling electricity flashed from time to time.

The dark blue thunder condensed into a shape, turned into snakes, patted Ye Chen and entered the body along the pores.

But that's not enough!

Even if ye Chen uses chaotic thunder, he can't stop the falling trend of the colorful thunder.

Even chaos thunder trembled.

Ye Chen was very surprised. The chaotic God thunder was born at the beginning of the world. The thunder breath was extremely vast. What else is it to fear?

The colorful thunder was getting lower and lower. Even if ye Chen's body was still standing upright, it was also his death when the thunder fell.

The unicorn demon Saint looked at this scene and sighed.

The chosen son still didn't come!

Looks like it's worried too much.

The other six saints also understood the reason and stood quietly watching.

Seeing such a scene, he executed Ye Chen.

"Let's go! It takes a lot of Demon power to come out."

Lion dragon demon saint, turn back first. Other demon saints also returned one after another.

Chapter 7358

But at this time, the demon saint who had more eyes gave a sound.

"Look over there!"

Hearing the speech, the demon saints looked back.

I saw that the colorful thunder had come to Ye Chen.

But ye Chen was not crushed by it.

A small iron ring appeared in the void, rotating slowly, but emitting boundless power.

The look of the unicorn demon Saint fluctuated greatly.

Because of that breath, it is very familiar.

Hongjun ancestor!

That's what Hongjun's ancestor left behind!

Several other demon saints were also shocked.

In full view of the public, the iron ring stopped Ye Chen and blocked the impact of colorful thunder for him. One side was absorption and the other side was transformation.

The pure thunder force poured into Ye Chen's body, collided with his reincarnation blood, and burst out an amazing reaction.

Ye Chen, on the other hand, runs his reincarnation blood at full speed. With the help of the thunderbolt method, he condenses the pure thunder force into shape and turns it into his own use.

The clear and transparent spirit is sucked into the body and fused with the five zang organs.

The thunder force, as if conscious, was rippling, continuous and madly refined.

The endless thunder gathered above Ye Chen's head and kept creeping. It fell all over the world and mixed with the white fog, as if the thunder of the whole world were mixed into one.

Thunder light mixed with blood light, like pouring rain, splashed down and filled the whole nine Thor tower.

And a powerful force almost detached from the real world also broke out suddenly.

Many people in the nine Raytheon tower were shocked!

This momentum is incomparably strong, as if it is beyond the law and above the rhyme of Taoism.

The momentum of the Lord of reincarnation alone, when the whole Tianlei mountain spread, the two elders of xuanming and many senior leaders of Tailei sect also raised their eyes and looked sideways.

Immediately, they noticed something and looked very shocked.

The two elders of xuanming have the widest knowledge and experience the most.

Their eyes flickered for a moment and then they reacted immediately.

"Lord of reincarnation!"

Hearing the name, the whole top of the sect was shocked.

The Lord of reincarnation is the person who condenses the creation of heaven and earth. He can pass through Hongmeng and down to eternity, which is extremely terrible.

Even the world's top powers have many fears about the Lord of reincarnation.

The scene in the nine Thor tower appeared in the square of zongmen. The xuanming two elders used the authority of the patriarch to forcibly transmit the image of the ninth floor.

Soon there was a picture projected, a little vague. After all, the thunder in the sky was too frightening.

But a figure can shuttle freely in the thunder, which is amazing.

That is the Lord of reincarnation!

Even the disciples in the nine Thor tower woke up one after another from their cultivation.

"What happened? Why did I feel a strong shock?"

"I don't know!"

“.....”

Many freshmen looked at each other, and some unconsciously turned their eyes to the ranking table.

Yeshitian shown above is on the eighth floor!

That is the ranking situation that will appear near the end of the trial, so that the contestants can know what position they are probably in.

Many people stared at the number of the stone tablet and couldn't help getting nervous.

Ye Chen still kept the first place, and there was a flash of light in his name.

"Elder martial brother ye, can't you break through to the ninth floor?"

Someone asked cautiously.

But soon, an old disciple of the sect refuted him.

"Don't talk nonsense! Do you think the ninth floor is ready to enter if you want? Hundreds of thousands of years have passed since the founding of tarrell sect, but no one can successfully climb the ninth floor!"

"Even if you don't climb to the ninth floor, this leaf killing heaven is enough to be recorded in the annals of Tailei God sect! It seems that the record maintained by Lei Di will be broken!"

“.....”

At this time, it was close to the end of the cultivation. Most people completed the trial and waited for the tower door to open.

When they saw the ranking, they couldn't help talking about it and marveled at Ye Chen's strength, which was beyond people's reach.

Ying Hongyan and Wang Cheng were full of joy.

The more dazzling Ye Chen's achievements are, they can follow.

After all, they chose to stand on Ye Chen's side from the beginning. If ye Chen ascends to the top of the sect door in the future, he must take care of them.

How can such a good opportunity be lost!

"I hope elder martial brother ye can successfully break through to the ninth floor. In that way, it will create a legend that has never been before and may also be the legend of the future!"

Wang Cheng couldn't help saying that at this time he was admiring from the bottom of his heart.

Although these newcomers came in at the same time as ye Chen, I'm afraid they will open a chasm after this trial.

Ying Hongyan also sighed.

"I'm afraid elder martial brother Ye is no better than the Lord of reincarnation! But the Lord of reincarnation is not Lei Xiu after all, and can't compete with elder martial brother Ye. So I think elder martial brother ye will be the most shining star in Lei Xiu's world!"

Ying Hongyan almost said in a determined tone.

Her voice just fell. At the next moment, a shocking breath rose from the ground and scattered the clouds. Even countless black clouds in the sky mourned for it and dispersed to make way for it.

What kind of majestic momentum is that?

The five elements and six ways, the eight trigrams, yin and Yang, all circulate among the rules of the Tao of heaven.

The fire was raging, the water hit the sky, the wind was raging, the earth was turbulent, and WanMu made a pilgrimage.

Chapter 7359

The power of the five elements gathered and bloomed the most dazzling vision over Tianlei Shenfeng.

Many sects of Tianlei Shenfeng were shocked and jumped into the air to check.

What a powerful force it is to connect heaven and earth and mobilize the five elements!

Since ancient times, some people have been born kings. Even if they leak a breath, they will be recognized by people.

"Lord of reincarnation! Those who climb the ninth floor are the Lord of reincarnation!"

"It's incredible!"

When ye Chen condensed the origin of colorful thunder, his reincarnation blood burst out and spread all over the Tianlei peak.

This is a last resort!

But ye Chen doesn't regret it.

At the edge of the eighth floor, he has stepped into the ninth floor with one foot.

When he opened his eyes, the thunder and electric arc jumped together, like a vast ocean, which was set off by the fierce storm and immediately turbulent.

And ye Chen also stepped into the ninth floor through this wisp of east wind.

But at the same time, the light touch between the colorful thunder and the chaotic God thunder pulled open a void channel.

In a short moment, a man appeared in that passage.

It's Ying Hongyan!

When she suddenly came here, Ying Hongyan was stunned and surprised.

She had just stayed on the fourth floor and was immersed in shock. As soon as she recovered, she had followed Ye Chen to the ninth floor like a fairyland.

Ye Chen, standing in front of her, smiled gently.

"Don't be surprised! I just invited you to finish one thing."

Ying Hongyan's most Yin thunder force can now play a role.

After absorbing the colorful God thunder, ye Chen also received an idea about the Zhenshen tower.

It was left by Hongjun's ancestor.

"You just need to let go of your mind later. My soul will be integrated with you and break the last prohibition together. Can you do it?"

Ye Chen asked softly, in a soft tone.

Ying Hongyan did not hesitate.

"Good!"

She immediately closed her eyes, emptied her mind, and her soul floated with it, resulting in a huge gap.

At this time, as long as ye Chen exerts some strength, he can occupy her body and capture her soul.

But ye Chen won't do that!

He originally wanted to combine Yin and Yang with Ying Hongyan. Only in the state of double cultivation can he integrate Yin thunder and Yang thunder.

But now that he has absorbed the colorful thunder, he has a more circuitous way.

Detour is good, but you still have to take advantage of each other.

Miss Ying, I'm sorry!

Ye Chen bit his teeth and bowed his head.

Two soft, instant contact!

Ying Hongyan trembled all over and immediately opened her beautiful eyes, full of surprise and amazement.

At this time, a gentle force came out of Ye Chen's mouth and entered Ying Hongyan's body to nourish the soul.

Her eyes widened beyond belief.

But slowly, he accepted the facts in front of him.

The person in front of us is not only Ye killer, but also the Lord of reincarnation!

The person she worships is the Lord of reincarnation. All this happened like a dream.

She should close her eyes again and immerse herself in the pleasure of satisfaction!

The two people closely depend on each other and maintain an ambiguous posture. Above their heads, they are intertwined by two thunder waves, rush to the high altitude, and break through the last barrier on the ninth floor with lightning speed.

Pull away the dark clouds and see the moon!

Ye Chen came to the ninth floor. It is said that no one climbed it!

This place is indeed like a fairyland, with hazy and mysterious beauty everywhere.

And his strength has broken through a small realm. When he enters the ninth floor, everything tends to be perfect and comes naturally.

After taking a panoramic view of the scene on the ninth floor, ye Chen immediately knew it and muttered to himself: "I know, it's actually like this..."

At this time, he found that he was still holding Ying Hongyan in his arms.

Ying Hongyan passively used the Yin thunder force in her body. She was tired physically and mentally. At this time, she had fallen asleep.

"Thank you... Now go and have a rest."

Ye Chen's hand touched her cheek, then opened the picture of the blue falling yellow spring and put it next to the green bamboo pool.

After the time of incense, the trial time of the nine Thor tower is over!

The terrible thunder cloud around the outer edge of the God tower retreated slowly.

When those disciples walked out of Leita, they were startled, because the whole tower was surrounded by many sect experts.

The two old men of xuanming stood in the front and stared at Leita. They didn't say a word and looked solemn.

The world knows that the Lord of reincarnation is powerful, but it also knows that the temple of all needs and the old alliance want to get rid of him.

Of course, xuanlao knows that the Lord of reincarnation is not accepted by the rulers of the world.

He was more worried about the St. ray sea that day.

Since ye Chen is the Lord of reincarnation, the disappearance of the holy thunder sea for no reason must be related to him.

The holy thunder sea is his dependence for dominating the thunder repair world in the future. How can it be easily captured by others!

In any case, he can't let the Lord of reincarnation run away.

The atmosphere of the whole sect became extremely tense and tense.

Say it sooner or later.

The moment before the nine Thor tower was completely closed, the thunder column in Ye Chen's body took shape impressively.

In a short moment, he rose into the sky and pierced the clouds, just like a startling God of war.

Lord of reincarnation, through the clouds.

At the same time, it condenses the original power in the body and stays on the surface of the cloud, which can confuse their sight for a moment.

He's going to the Zhenshen tower now!

Because he has obtained the treasure on the ninth floor, which is the key to open the town god tower.

The seven demon saints of Honghuang are imprisoned here.

As long as it is rescued, it will be used by him.

At this time, in the town god tower, ten thousand demons were boiling.

They have been trapped here for thousands of years.

Now the unicorn demon Saint told them that the young excessive human friar had the key to open the Zhenshen tower in his hand.

It's incredible, incredible!

The Seven Saints in the wilderness look solemn and respect Ye Chen as the king!

The Qilin demon Saint took the lead in saying: "my grandfather once made a heaven oath for us. As long as he receives the colorful thunder, he is our commander! Once we are rescued, we will follow him in this life. Do you remember?"

"Yes!"

"Remember!"

"I will follow!"

Today's World War I, even if they were in the Zhenshen tower, they saw it really.

That is the original life utensil belonging to Hongjun's ancestor!

Only the chosen son, or the atmospheric transporter, can get it.

In other words, Hongjun's ancestors had already laid out the layout.

The Lord of reincarnation is a natural emperor with atmospheric transportation. After reincarnation, one life is stronger than one life. Now, he has stepped into the reincarnation of heaven and built the cause and effect of air transportation for a long time.

More importantly, the reincarnation Lord of this life has a relationship with TIANYAO, Xuanyao and others!

They firmly believe that the Lord of reincarnation can lead them to an incomparable peak.

Chapter 7360

Even the lion dragon demon Saint lowered his arrogant head.

The demon world is very simple. The winner is the king and the loser is the bandit, which is reflected incisively and vividly.

If anyone is strong, he can dominate.

Fist, decide everything!

In the blink of an eye, ye Chen came to the town god tower, like an emperor.

The vigorous Qi carries countless fragments of the starry sky, turns into a torrent, blocks out the sky and the sun, and rolls forward. The Tao Yun rules of the ten thousand boundaries of the heavens are embodied, shining with the sun and the moon, and wearing a starry dream clothes.

Then all of them will be merged into the Zhenshen Tower!

"Wait, are you willing to surrender?" Ye Chen said calmly.

His words are not only aimed at the seven demon saints, but also other powerful beings in the town god tower.

The faint words spread throughout the world of Zhenshen tower. They were understated, but they contained an indisputable sacred majesty.

The demon who witnessed this amazing scene had no luck in his heart. He prostrated on the ground and knelt piously.

"My Gui Xi clan is willing to submit to the Lord of reincarnation!"

"I, the devil bird of heaven and earth, would like to submit to the Lord of reincarnation!"

"I..."

At the top of the starry sky of the thunder world, a figure shrouded in white light came to the world, and no one dared to look directly at its brilliance.

Led by the Seven Saints of Honghuang, millions of demon families in the town god tower are all under Ye Chen's command.

Although the seal of Zhenshen tower has not been completely untied, the demons in it have felt loose!

For years, no one could save them from fire and water.

But now, someone is about to do it.

As a result, their eyes towards the figure on the top of the starry sky became more and more reverent and even fanatical.

Ye Chen was calm on the surface and pleased in her heart.

This time, in addition to finding Lei Bei, he also subdued millions of powerful demon families, which can be regarded as a great harvest.

As an emperor, he should show the momentum of the emperor!

"It's right for you to join our reincarnation camp and become a general under my command. Those who belong to our reincarnation can develop themselves without sacrifice. I will reward those who are loyal."

The divine light of reincarnation shines on the wasteland, with thousands of blessings. The sound of the avenue is like the immortal LV Hongzhong, buzzing constantly, shaking the hearts of the demons in the town god tower.

Ye Chen has opened some seals, which can urge a wisp of spirit into the Zhenshen tower.

"Taotie demon Saint listens to the order."

The gluttonous demon Saint immediately stepped out, flew away like a shuttle, turned into a human shape and bowed with his hands.

"The minister is connected to heaven and listens to the orders of the emperor and God."

The tone and look of Taotie demon saint are very respectful, as if they have been given priority to the Lord of reincarnation.

"I hereby appoint you as the agent of the famine. On behalf of my will, I will manage millions of demon families in this town's God tower, reshape the broken origin of the universe and share the heavy responsibility for me. Are you willing?"

"I will go through fire and water and die forever!" Taotie demon Shengdang immediately took the order.

The mighty heavenly power was heard and attached to him, and the believers under the other six saints also chose to give in.

The demon Saint offered the most precious staff among the ethnic groups and said respectfully, "the minister led the family to welcome the Lord of reincarnation, touch the holy light of reincarnation, and achieve eternal prosperity."

On weekdays, the demon saint who is high above and has a pure heart and few desires has also learned to flatter.

This made the other five saints stunned. They reacted one after another and took out the most precious treasure to Ye Chen.

The lion dragon demon Saint hesitated for a moment and still took out something!

Boom!

The virtual shadow condensed by the thunder finally failed to hide from the thunder god sect.

"Lord of reincarnation, you can't run away!"

The angry voice shook and spread.

The second old xuanming found something wrong.

The seal of the nine Thor tower has been lifted. Why does Ye Chen delay coming out?

When the figure appeared, they launched an attack, but found that it was not ye Chen.

Or it's just a remnant left by Ye Chen.

The real Ye Chen has come to the Zhenshen Tower! Trying to unlock the seal.

The look of xuanming's two elders changed after brushing.

Under the Zhenshen tower, there are eternal demons and sacred power sources sealed. How can they be easily destroyed?

"You want to die!"

Xuanlao suddenly became angry, and a murderous spirit appeared in his eyes, ruthless and surging waves.

A huge thunder palm came from the sky, and its upper ring was surrounded by all kinds of taboo forces.

The mighty pressure swept through, and countless thunders stood in the void!

Countless thunders rolled down and completely surrounded the place.

Xuanlao's strength has stepped into the level of emperor and ancestor. Even if we look at the ruling figures of the major ancient tribes, they are among the best.

As soon as he shot, the wind and thunder surged, as if taboo had come.

Ye Chen was at the edge of the town god tower. He looked at xuanlao and looked awe inspiring.

The strength of the other party is unimaginable. I'm afraid he can't take it for the time being.

Ye Chen's figure retreated rapidly, like lightning. In a twinkling of an eye, he retreated to the clouds.

Xuanlao failed with a blow, but with a cold hum, he immediately took tens of thousands of palms, each containing the seal of Thunder God.

"Divine thunder chemical: the bridge of scourge!"

Ancient seals spread one after another, and the sound of bang bang continued. Xuanlao seemed to be attacking at random, but in fact it was very regular.

After tens of thousands of thunder seals expanded, four ancient bridges were connected around Ye Chen. The thunder light was diffuse and the lightning flashed, just like four long dragons winding out, sealing all the paths of Ye Chen.

Ye Chen wants to get out of trouble. At this time, he can only rely on the power of Lei FA!

"Ba Bu Fu Tu Qi!"

Ye Chen spread his five fingers and bent his palm into claws. Each finger was sonorous and powerful, as sharp as a blade.
