Chapter 7371

The guy didn't want to fight with him at all, but wanted to make him afraid to approach without strength, and then ran away in an instant.

But how did he regain his strength? Normally speaking, it takes a lot of spiritual power to cross the void.

Maybe the girl in red figured out the time and came to the rescue.

No matter how he guessed, xuanlao had no choice but to return to zongmen and clean up the mess.

Only after everything is stable, can we find a way to find the trace of the Lord of reincarnation.

.....

Ye Chen took them through the layers of emptiness and returned to beimangzu.

When he set foot on the psychedelic islands, ye Chen was completely relieved.

This practice has benefited him a lot, but it is also dangerous.

Ye Chen returned to his bed and sat cross legged.

He now needs an extremely high-quality cultivation environment to heal the thunder wound in the body.

In the middle of beimangzu, there is a glazed temple.

The whole palace is made of crystal stones in the depths of cosmic veins. It is warm in winter and cool in summer. It emits glittering and translucent brilliance, and has the special function of storing the spiritual power of heaven and earth.

This area is empty and confused, but it also contains rich material resources.

Spar is one of them.

Ye Chen sat in the Liuli palace for three days and nights, and finally recovered from the injury in his body.

When he left the customs, Ren Feifan had been waiting in the pavilion.

"This trip took a lot of time. How did you get?"

Ren Feifan sits in a chair. He will always look like a handsome child. He is dressed in a white robe and has a mark of Flowing Clouds on his cuffs.

If you look carefully, you will find that Ren extraordinary is not sitting on the chair. He still has half a finger distance from the chair.

So ye Chen told Ren extraordinary about the harvest of this period of time.

Ren extraordinary listened to the story, nodding and looking indifferent.

There are two things ye Chen mainly talks about.

The first is the relics left by chaotic Leidi in the holy thunder sea.

"Oh? At the beginning of chaos? That's what belongs to the origin of heaven and earth! If you can get it, you can also prove that your luck is excellent!"

Ren extraordinary has traveled the universe for many years. Naturally, he is well-informed.

According to him, the beginning of chaos is very far away from this time, and it is very difficult to find complete objects.

Even if it's just a secret script, it takes luck to get it.

Most of the relics of that era have disappeared into the dust of history.

Ren Feifan pokes out a trace of divine soul, enters the sea of Qi of Ye Chen, and confirms the identity of the chaotic divine thunder.

"If this chaotic thunder can grow to its peak, it can become a great help around you, and even turn into a chaotic Thunder Dragon that will condense into an entity in the future."

"Chaotic Thunder Dragon?"

Ye Chen wondered for a moment, which seemed to remind him of something. He couldn't help being surprised.

"Is the chaotic Thunder Dragon mentioned by elder Ren the overlord dragon clan before the ancient times?"

Ren Feifan smiled and nodded: "yes, before the emergence of the four animal kings under Hongjun, chaotic Thunder Dragon has always been a monster at the overlord level, which can be on an equal footing with human friars."

"It's just a pity that later, with changes, the harsh environment of the flood and famine era had a strong impact on the chaotic leilong family! So it decreased year by year and finally disappeared."

Ye Chen felt a little sorry.

If the chaotic Thunder Dragon family can survive, I'm afraid it is at the same level as the sky dragon!

In addition, Ren Feifan also reminded that the chaotic Thunder Dragon bred by chaotic God thunder may be its ancestor.

After all, this thunder has existed since the beginning of the world.

The second thing ye Chen said is the Zhenshen Tower! Also known as the demon Tower!

He sneaked into Tailei God sect, the main purpose is to obtain Lei stele and complete the upgrading of reincarnation blood.

Later, unexpectedly, the whole town god tower was moved over.

In the scope of Zhenshen tower, there are some things.

The thunder stele is hung on the wall of the Zhenshen tower, and the nine hidden magic thunder seems to exist in the Zhenshen tower, which can not be found by the naked eye.

"Oh? The Seven Saints of the famine? They are the level demon saints of the famine period. Although they are not very strong, they are also very not weak. You went there and brought back two top treasures. You are still lucky."

Ren Feifan said with a smile that the more Ye Chen obtains and the stronger his strength, the happier he will be.

Ye Chen said, "elder Ren, what kind of existence was this wild monster in those years?"

Ren Feifan said: "as far as I know, the wild monsters were a big family, and had long-term cooperation with the human race, so they had a good relationship."

Ye Chen said, "what is the level of the Seven Saints?"

Ren Feifan said: "second only to the four beast kings under Hongjun seat, but the Seven Saints of Honghuang were cheated by a small goblin in the end. This matter has been passed down and has become a strange story."

"Oh? Where to start?"

Ye Chen suddenly had curiosity.

It turned out that the Honghuang seven saints were not eliminated because of the survival of the fittest, but were deceived by a goblin.

The goblin's deception was so superb that even the ancestor Hongjun was almost cheated by it.

After the goblins sold the Seven Saints of Honghuang, they got a large number of excellent treasures and disappeared from there.

I'm afraid hundreds of thousands of years have passed.

Judging from the life span of goblins, I'm afraid the liar has already settled down.

Ye Chen no longer paid attention to these, but called the demon emperor to take out the God monument from the tower.

What is suppressed under the tower is the dark magic gas, which still exudes vast power at this time!

After the monument was reduced, it was only the size of a token, but when you touch it carefully, you can still feel the rock patterns depicted on it.

Those lines are a line, winding, straight to the highest place.

Cover your hand on it, close your mind, and you can experience some of the scenes in your brain.

The next thing ye Chen wants to do is to help the demon emperor absorb the nine yous demon thunder.

They found a wide plain, and the demon emperor of Zhetian summoned the nine yous demon thunder with his magic combined with Ye Chen.

The magic thunder is like a trace of black smoke. It floats indefinitely. It can't see half its power at all.

But the moment the magic thunder touched the surface of the body.

It seems that there is an empty divine world, magnificent and boundless, vast and distant.

It's neither hell nor yellow spring. It's as dark and gloomy as them, but hell is countless times wider.

After simply absorbing the thunder, the demon emperor stood up and said goodbye.

He needs to go further and refine it, which is the key!

Ye Chen certainly knew where he was going, but it was the choice of the devil emperor who had no right to interfere.

The nine hell devil thunder, like a dead fish, didn't move. It lay on the shoulder of the devil emperor covering the sky. It didn't have the momentum of penetrating the world, rivers and seas like the legend.

As if waiting for the final judgment.

Chapter 7372

After the demon emperor left, ye Chen called Ji Siqing again.

He planned to tell Ji Siqing about the mother sword formula of all things. After all, Ji Siqing inherited xuanjiyue's master of destiny and should take charge of the other half of the mother sword formula of all things, but he still lacked a guide. Once Ji Siqing completely took charge of the half of the mother sword formula of all things and could let her have the ability to combine with her own double swords.

After hearing this, Ji Siqing was quite surprised. Although he had seen a lot of things in the world, the nine heaven divination is not ordinary. Only those who stand at the top can use it.

However, when she continued to integrate the Lord of fate, she found the formula of the mother sword of all things!

She tried to be in charge, but this extremely obscure Rune wrapped on the surface of the mother sword formula of all things couldn't be opened.

Ye Chen closed his eyes and pointed out that he led out his half of the mother sword formula of all things, which turned into a light and penetrated Ji Siqing's body.

In an ethereal space, ye Chen's half of all things mother sword formula touched the other half of the obscure Rune package!

Instantly tear the rune, and a bright light illuminates the space.

An ancient text appeared in Ji Siqing's eyebrows, and the text disappeared. Ji Siqing was surrounded by a light sword!

It is the other half's mother sword formula of all things!

Wish sky star!

Then, ye Chen summoned the wish star to protect Ji Siqing and let him begin to refine slowly.

Melting and refining treasures is always one's business!

"OK, don't worry! I'll refine it!"

Ji Siqing said with a smile.

.....

After a few words of conversation, ye Chen went out of the cave. He came to a flat and open place. As soon as his palm turned, the Zhenshen tower appeared in it.

"Come out!"

Ye Chen immediately shouted.

After about three breaths, the gate on the first floor of the town god tower flickered slowly, and a middle-aged man in white took the lead to walk out.

He is the head of the Seven Saints: The Unicorn demon saint.

At this time, the Kirin demon saint has been released from the bondage and can breathe the aura of heaven and earth again.

"See Master"

After the unicorn demon Saint came out, he saluted and said.

He had not seen the world outside the town god tower for many years.

"Don't be polite."

Ye Chen smiled.

Then the demon Saint came out.

They are the first demon saints to accept the inheritance and open the baptism of thunder light, so they get more thunder blessing.

And their strength has also recovered 70% or 80%. Although they are still trapped in the Zhenshen tower, they can come out and walk freely.

So for them, this is not a constraint.

The seal of Zhenshen tower has not been completely opened, so ye Chen has to study it carefully.

Then came his play.

Leibei!

Since collecting the reincarnation Xuan stele, ye Chen has owned many Xuan steles, which can be used together with the divine pulse in his body to produce extremely powerful power.

The xuanbei of reincarnation often represents the six ways of reincarnation.

The six ways are heaven, humanity, beast, Asura, hungry ghost and hell.

Whether it is the xuanbei of reincarnation or the previous source symbol, it is of great significance, and even seems to be born for reincarnation!

Heaven humanity, corresponding to Geng Jinyuan symbol, represents the golden light of heaven and man, magnificent and vast.

Humanity, corresponding to the light source symbol, represents the greatness of light and the eternal existence of humanity.

Animal way, corresponding to the dark source symbol, represents animal disaster and dark destruction.

Ashura Road, corresponding to the thunder source symbol, represents the power of the devil Road, such as the destruction of the world by thunder.

The hungry ghost Road, corresponding to the highly toxic source symbol, represents the hungry ghost howling and poisonous forever.

Hell Road, corresponding to wutuyuan symbol, represents the Tibetan world and will never die.

The reincarnation xuanbei in Ye Chen's body is integrated into the six Tao, which is also in line with the six Tao, but it is more special, such as dust stele, wind stele, inflammation stele, spirit stele, poison stele, dark stele and so on!

Surrounded by many mysterious steles, it can burst out extremely powerful power!

This Lei stele is a special existence among many Xuan steles.

Because this leibei belongs to the absorbable category.

It can not only be used to display strength and be used as a sharp weapon, but also to improve the purity of reincarnation blood.

It also infuses a trace of fresh blood for the six samsara method.

Ye Chen closed her eyes, put away her mind, and concentrated her spiritual power on this floating thunder monument.

At the same time, the six reincarnations broke out at the same time, which immediately raised the power of reincarnation blood to the peak.

Darkness, light, thunder, earth, Geng gold, poison and many other Shinto worked together, forming a cycle of weeks in Ye Chen's body.

Every time you turn, you will have a point of contact with leibei.

The power of blood broke out completely, and Lei Bei was involved without hesitation.

Ye Chen's body is released by thunder, and the light blue light rises all the time and swims in the blood.

This process lasted about three days and three nights. Until the thunder in the body gradually subsided, the refining was completed.

At the last moment, chaos God thunder also ran out to join in the fun, surrounded around the thunder monument, and even vaguely resonated with it.

When the last ray of thunder power was absorbed, ye Chen opened her eyes and a light blue color flashed in her eyes, which made the whole person's eyes look deeper.

Now, it may be the last step to revive the divine pulse of leibei.

But it's also the hardest step.

Ji Siqing stared into his eyes for a long time when he said goodbye to Ye Chen.

The more you look, the more you feel as moving as the stars.

Chapter 7373

Ye Chen can't laugh or cry. Isn't it a conversation between him and a beautiful woman?

After completing the test, ye Chen rested in beimangzu for more than ten days.

During this period, the thunder stele was continuously refined, and then it was connected with the demons in the Zhenshen tower.

But ye Chen wondered, where has Xiao Huang gone? I haven't seen that little guy for more than ten days.

According to the elder of the nightmare Protoss, Xiao Huang went out with two people and hasn't returned yet.

It was agreed that he would come back in ten days, but now ten days have passed. Maybe there is a delay on the road!

As soon as they said this, they didn't think any more.

.....

Three days ago, some inexplicable and mysterious place.

This is a desolate land, with yellow sand all over the sky. From time to time, a gust of wind, sand storms and thunder will pass.

This is a remote place of exploration. An ancient building with an inverted triangle stands on this desolate land. Even if there are occasional people coming and going, it still looks small in front of the ancient ruins.

However, there is little spiritual power here, and there are not many natural resources. Naturally, no one is willing to come.

Inside the ancient building, deeper underground, a huge coffin lay there quietly, as if it had been placed for thousands of years without anyone moving.

Suddenly, a golden light flashed on the coffin.

A man was walking towards the coffin quickly, like a shadow walking in the dark.

However, its dress is in sharp contrast to the surrounding dark environment.

The man was wrapped in white cloth and his face was covered, leaving only two pupils outside.

If you look carefully, you can find that the two pupils are actually dark, no eyes, incomparably empty!

He stopped beside the coffin and waited silently, as if he were greeting something.

Finally, a hoarse sound came from the coffin.

"How long does it take to seal the broken crack?"

From the coffin came a hoarse voice of vicissitudes, as if after tens of thousands of years of precipitation, with unspeakable fatigue and coldness in the voice.

The man wrapped in white cloth immediately knelt down and made several gestures on the ground.

"What? The seal has split half?"

This time, the voice without emotional fluctuation was a little surprised.

"OK, OK! The emperor was betrayed and buried here for so long. He can finally escape! I don't know if my people are well. Wait for me to go out and see if those weak humans are still the same as before."

There was a faint light on the coffin. The light seemed to be fighting against the coffin cover. Finally, the coffin cover was slowly opened and a hand stretched out from the coffin.

This is an old and dry palm, with a strange cyan gray.

And the haggard man stood up from the coffin, if he was left alone. I'm afraid it's a little scary to meet at night.

Because it was a skeleton that got up.

However, when the skeleton came out of the coffin and came into contact with the aura between heaven and earth, it automatically absorbed it. It was recovering rapidly, and the thin body was gradually plump.

"It's such a good feeling. I don't know what's going on in the outside world. It's time to find my people back."

His body slowly floated into the air, and with a whiff, he broke through all the obstacles above and went straight to the sky.

Boom!

A fire meteor flashed over the ancient building. It was just a desolate night. Few people saw nothing.

The fire meteor shot up at top speed. Soon came to the void.

With a wave of his hand, the mighty armor automatically covered it, forming a majestic cloak behind it.

Although the man had recovered his human form, his head was still a skeleton. A pair of pupils were empty and could not see any emotional color.

"Has my kingdom... Become like this? It seems that the world has changed a lot over the past tens of thousands of years. Even my kingdom has become a desert land."

The skeleton man talked to himself. Looking down from the top, you can see a large continuous loess desert.

"It doesn't matter if the Kingdom disappears. As long as my millions of soldiers are still there, I will get up immediately."

He touched it gently in the dark, and the ripples spread. Soon, he found three shadows not far away.

"Oh? It seems to be three monsters of the nightmare Protoss. One of them seems to have a special breath... Just now the emperor is short of a mount, so go and have a look."

With a flash of the skeleton man's body, he crossed the dark area and came to the outside of the void.

Just the ability to shuttle through the void is not what ordinary strong people can do.

The skeleton man saw three nightmare Protoss on their way, including two big ones and one small one.

"Oh? This beast has smooth fur and good looks. That's it."

The skeleton man flashed across two layers of emptiness and came to the three beasts.

These three beasts are Xiao Huang and two elders of the clan.

The three of them are on their way home.

When Xiao Huang returned, he didn't use the void to shuttle, but traveled all over the world and set out all the way.

Also to see the scenery on the way!

However, a man suddenly appeared in front of him. He was silent, which really startled Xiao Huang.

"Who is your excellency? What can I do for you?"

A nightmare beast looked suspiciously at the skeleton man and asked.

The skeleton man remained silent and looked at Xiao Huang.

Xiao Huang was staring at his heart with inexplicable eyes.

When the three men saw that the other party didn't speak, they wanted to walk around. At this time, the skeleton man spoke.

"Little beast, come and be my mount. Follow me to sweep the world! Dominate together."

Skeleton man's words stunned the three nightmare beasts, especially Xiao Huang.

Xiao Huang looked left and right and aimed for a long time. Only then did he make sure that what the other party said was himself!

"You said you wanted me to be your mount?"

Xiao Huang's look gradually became cold, and a faint roar came from his throat.

"Yes! You have an enlarged body, which is more appropriate! The key is that your red and blue pupils seem to have some charm..."

The skeleton man was more and more surprised.

Xiao Huang and the two clansmen were cold at this time, and their tusks were exposed. They could rush to fight with him the next moment.

The pride and dignity of the nightmare Protoss can't tolerate these people's insults!

Without saying a word, Xiao Huang showed her fangs and moved with the wind. The dreamy wings behind her suddenly flashed and dazzled.

It wants to let this guy who doesn't know the greatness of heaven and earth see what is a real peerless beast! What is the real archaic heritage!

"Ha ha."

In the face of such a fast Xiao Huang, the skeleton man just smiled and raised his hand. A soft killing intention turned into a rolling torrent.

The yellow sand has strong suction.

Chapter 7374

Xiao Huang also felt the inexplicable power. He immediately fluctuated in the void, changed his direction, and came across the void again. This time, it was a sneak attack on the right side of the skeleton man.

Boom!

But the sand and dust like eyes grew behind the skeleton man and condensed again, forming a slowly creeping vortex.

The two nightmare beasts also knew that Xiao Huang had encountered a hard stubble, so they shook their bodies, left and right, and rushed over.

The two nightmare beasts joined the war, spitting out their mouths and teeth, and all kinds of runes fell one after another like hail.

But the skeleton man was not affected at all, but became more and more interested.

"It seems that the emperor's choice is right! You are really excellent mounts."

The skeleton man shrunk his finger tip and condensed several yellow sand ropes. With a quick thunder, he tied Xiao Huang's body.

Xiao Huang roared at the sky, but found that he couldn't do anything. The power in his body seemed to be blocked.

"Let me go! Let me go!"

The skeleton man grabbed the end of the rope, dragged Xiao Huang back, and condensed several ropes by the way.

The flowing rope made of yellow sand is about to be set. One of the nightmare beasts uses all his strength to tear the void and plug his companions in.

"Eh? The ability is so strong, the flesh is not weak, and the ability to shuttle through the void? The emperor requisitioned this ethnic group."

The skeleton man ignored the two nightmare beasts and turned away directly.

But he set up a dreamland in the yellow sand. The nightmare beast went in and didn't want to come out again!

A few days later, the nightmare beast fled back to beimangzu and told the people about it.

"What? You said Xiao Huang was robbed by others as a mount?"

When ye Chen heard the news, his first reaction was stunned.

In his mind, Xiao Huang's fat, simple and simple appearance could not help but become strange.

"Does the man know that Xiao Huang's body time can't last too long?"

Ye Chen suddenly asked.

The nightmare beast was stunned for a moment and didn't know how to answer.

Ye Chen couldn't help laughing.

He planted a life soul in Xiaohuang's body. If Xiaohuang encounters life danger, he will immediately feel it.

"In that case, go and have a look! Who is it that robbed my companion with me?"

Ji Siqing refined the half and half of the nine heavenly divinities and planned to be eager to try, so he went with him.

Soon, ye Chen passed through the void and came to the desolate land full of sand and dust.

Nightmare beast is here!

"Eh?"

When ye Chen saw the ancient building standing in the desert, he couldn't help but be surprised.

The buildings in the inverted triangle are magnificently built. The buildings below are covered by yellow sand and cannot be seen accurately.

Ye Chen didn't shout, but took out the Longyuan Heavenly Sword and waved it casually. The roar of the blood dragon was frightening above the void.

From the ancient palace in the inverted triangle. Many people wrapped in white cloth came out.

"Eh? Why do they dress so tightly on hot days?"

Not only did ye Chen doubt, but even Ji Siqing was stunned.

Those guys wrapped in white cloth pointed and didn't know what they were talking about. They annoyed Ye Chen and cut down with a sword. Unexpectedly, the sword light fell on a light mask at last.

That light mask emits a faint yellow light, which is almost integrated with the yellow sand here.

The primitive building was attacked, and a skeleton man came out and stared at the people.

"Who are you? Why do you want to make trouble in the emperor's territory!"

Ye Chen said, "give me back Xiao Huang."

"Xiao Huang?"

The skeleton man was stunned and immediately reacted. He shook his head and pointed to the other side of the desert.

"The nightmare beast will become the emperor's Mount in the future, follow the emperor to sweep the heavens and unify the world! Now I'm putting it there for special training."

When ye Chen and others heard the speech, they shuttled away and saw the scene behind the sand dune.

Looking at it, Xiao Huang was practicing in the sand. He was so happy that he completely forgot that he was still a prisoner.

"Xiao Huang!"

Ye Chen shouted.

Xiao Huang looked left and right. Finally, he looked at the position of Ye Chen, grinned and ran over.

"Master, you're here!"

Xiao Huang rushed into Ye Chen's arms and rubbed his clothes.

Ye Chen raised his hand and said, "don't come to me covered with sand next time."

Xiao Huang nodded hard and said quickly, "master, I found a secret!"

"You say."

"Under this dune, there is a huge palace! And it's not ordinary!"

Ye Chen's eyes coagulated: "are you sure?"

Xiao Huang nodded, very sure. He ran to the middle of the sand dune and roared up to the sky.

Suddenly, dragons of the same color as sand rose in all directions!

When the sand on these dragons retreated, ye Chen and others found that they were all skeletons.

Ye Chen and Ji Siqing were planning to go down and have a look, but at this time the skeleton man came.

Wearing a robe and a crown on his head, he said angrily, "who allows you to enter my underground palace without permission? Those who break in will be killed!"

As soon as his voice fell, dozens of skeleton people emerged from the surrounding sand dunes.

Those are skeleton soldiers! One by one, wearing black armor and holding spears and halberds.

Ye Chen used his reincarnation eyes to see through the void and saw the real appearance of these skeleton soldiers.

The belly of these skeleton soldiers will have a light golden array pattern flowing slowly, which is where the life gate is.

No, this array

Ye Chen's eyes suddenly coagulated. If he hadn't been in charge of the array formula, he wouldn't have found it!

But it's too scary behind it!

Chapter 7375

Ye Chen suddenly noticed a familiar look.

But before he studied it carefully, the skeleton soldiers killed them.

Ye Chen didn't want to waste his kung fu on this. He directly took out the Longyuan Heavenly Sword and solved all the skeleton soldiers.

It was this sword that directly cut through the defense mask of the ancient and simple building and opened a deep hole in the thousands of miles of yellow sand.

The skeleton King realized that he had provoked a evil god!

So he immediately shut his mouth and didn't dare to talk any more.

But ye Chen is not interested in him.

Now he is interested in the array patterns on those soldiers.

The skeleton King seemed to hesitate.

His men were swept by the other side's sword, and he had no power to fight back, and he was not sure himself.

"Who the hell are you..."

The skeleton is a little regretful.

It's not good to rob a mount. You have to rob a furry thing.

After Xiao Huang came here, he either practiced in the desert or reached the underground palace. His whereabouts were erratic.

When the skeleton king wants to go out, he can't find a horse.

Ye Chen and others came here, which was just what he wanted.

In this regard, ye Chen and others can't cry or laugh.

The skeleton king is a hereditary king in this area. Before his death, he used special methods to seal himself up with some servants and soldiers.

Ye Chen and others immediately understood that the skeleton king was just the fief king of a small world. After his death, he used some mysterious method to seal himself up.

But ye Chen has some doubts. Although Xiao Huang's strength is not strong, it should be more than enough to deal with the Xiaofeng king among a people.

But why not against him? Instead, he was arrested.

If ye Chen guesses right, it should be related to the refining method!

The skeleton King took them to the underground palace. It turned out that the underground was the real hiding place.

The wide hall almost runs through the whole underground.

On both sides of the hall, there are rows of soldiers in armor and holding long guns and knives.

Skeleton man can only explain part of the situation, because after he wakes up, many memories disappear.

I can't even remember how to refine it!

Deep in the underground palace, ye Chen found many runes of different shapes scattered everywhere, and each bone was engraved with small carvings.

These bones should not be mortal.

"Boy, I know what this is. Maybe it will help you."

"I didn't expect that your luck, the Lord of reincarnation, was so bad!!!"

The voice of Huang Lao suddenly came out.

Ye Chen had some doubts. His eyes coagulated and asked, "elder, how do you say this?"

The old man replied, "can you find the characteristics of these people?"

Ye Chen heard this and looked carefully one by one. In addition to the mysterious lines carried by them, he didn't find any other special places.

"They were all made into skeletons after death, waiting for their resurrection in the future."

Huang Lao explained.

Ye Chen noticed the details. He looked carefully and did not find any signs of death such as assassination, burn or suffocation.

In other words, these people are completely dead and resurrected by secret methods.

If so, this secret method can be described as a peerless treasure.

After all, the skeletons resurrected under the underground palace were ordinary people. It would be particularly cruel to kill them into skeletons.

Just like the skeleton man, he was just a small king before his death, but when he was incarnated as a skeleton and resurrected again, his strength became extremely strong!

Even Xiao Huang in an explosive state was not against him.

There must be some secrets in it.

"Boy, find this secret script and practice it well. You will become an immortal body, which is immortal in the real sense!"

There was a trace of wonder in Huang Lao's words.

The boy is lucky. He will encounter treasures wherever he goes.

According to Huang Lao, this secret script may be unique in the world.

Because it can really bring people back to life!

The ordinary resurrection is based on a certain foundation.

The strong under the Taizhen state can be condensed and reborn as long as there is a drop of blood, even if the body is smashed.

However, the focus of this law is different.

If it is transformed into the reincarnation God body, even if the reincarnation God body is beaten so that there is no blood left, it can be raised from the original place.

And after resurrection, the condensed body will be stronger than before.

Ye Chen was shocked when he heard this. In this way, the effect of this secret script is similar to Phoenix Nirvana.

Ye Chen turned around and even used the reincarnation heavenly eye to observe. These skeletons got nothing.

There are no so-called secret scripts here, not even written records.

Turning, ye Chen suddenly stopped.

"Huang Lao, maybe you and I are wrong."

"Hmm? What do you think?"

Ye Chen smiled and looked around. After sweeping his eyes, he slowly said, "in fact, what made these skeletons come back to life is not a secret script or method, but an array!"

Huang Lao said, "what you said is also reasonable. Various arrays emerge in endlessly between heaven and earth. Some harm people are called Forbidden arts, and some save people are patron saint arrays. I don't know whether these arrays are good or bad!"

"It's good or bad. Just try it."

Ye Chen let go of the hollow spirit and slowly soared into the air. He closed his eyes and used a trace of the power of the array formula to feel the surrounding array with his heart.

In his mind, array lines gradually formed.

When he opened his eyes, his eyes suddenly locked in a place.

It is the central area of the triangular building and the tomb where the skeleton man is located.

Ye Chen seemed to hear a call. Under his guidance, the huge coffin lay quietly, and a stone tablet was set up.

Ye Chen found a chain under the stone tablet, running through the ground.

It seems that this is where the array eye is!

"Unfortunately, the conditions of such a large array are extremely strict and can not be arranged easily."

Ye Chen secretly said it was a pity.

But he sat down and sat in front of the stone tablet.

"Boy, seriously understand the Tao. Even if you don't have array eyes and array symbols, you can understand this array even if you have mastered the array word formula in Brahma's divine skill. In those years, I could become a taboo in the world, relying on my ability of understanding!"

Old Huang said, he has been around Ye Chen for so long, and has already regarded Ye Chen as a younger generation.

If you say something from the bottom of your heart, you will blurt it out.

Ye Chen also remembered all kinds of past events.

But those are the clouds of the past, don't mention it again.

Ye Chen put all his thoughts on the array in front of him. He saw that the light flowed and gradually lit up a faint light where his thoughts went.

Chapter 7376

In this case, after eight hours, ye Chen opened his eyes and had a clear vision in his eyes!

"I see! I see!"

As soon as ye Chen realized this array, he heard Ji Siqing's exclamation not far away.

Looking up, I don't know why the temperature in this cave has dropped a lot, and ice slag has formed at the end of the rock.

The broken ice was flying and falling, and it didn't look abnormal.

However, when it was less than ten meters away from ye Chen, the ice palm fell quickly and patted it fiercely.

Sooner or later, ye Chen's reaction was better.

He turned his hands and patted the ground. He was as light as a swallow and immediately retreated elsewhere.

Ye Chen summoned a spiritual fire, which burned in the cave and evaporated all the ice souls.

And he opened his palm, the violent suction aimed at a certain position, and then the whole mountain forest became shaking.

Even though ye Chen was well-informed, he didn't expect that this array had a sense of self. When he was about to crack the last hidden array pattern, he took the lead in attacking him.

"Hum! Want to turn away from the guest? I'm afraid you're a little tender!"

Ye Chen didn't care about the counterattack of this array. Instead, he accelerated the absorption speed and inhaled all the beads of several round beads into the bag.

After doing this, he slowly spit out a mouthful of turbid gas.

He learned the essence of this array.

After leaving the land boundary with Xiao Huang, the place was quiet again.

But soon, when the skeleton turned around, he saw a face.

The skeleton man's whole body suddenly trembled violently.

"You... You..."

But the skeleton man hasn't finished yet.

Because a hand pinched his neck, the bone lines of his neck suddenly broke.

The crack spread from the neck to the lower abdomen, and the array lines in the abdomen gradually disappeared.

WOW!

The skeleton king turned into a pile of broken bones.

The man who killed him almost hid his whole body in the dark, with only a pair of eyes looming.

"Finally wait until you... Lord of reincarnation..."

The figure laughed twice, then turned around again and disappeared into the darkness.

.....

Ye Chen and others returned to ancestral land with Xiao Huang.

The people of the nightmare Protoss thought that something had happened to Xiao Huang. They were very anxious. Now, they were relieved.

Ye Chen found a cave and closed it again.

It's just that one thing has always been on his mind.

How is yelol now?

But on second thought, the flying Thunder God is still on the Tianlei God peak, which can provide shelter for ye Luoer.

However, after solving the cultivation, ye Chen encountered a new problem.

Ying Hongyan woke up.

At the beginning, he leaned over to kiss and borrowed Ying Hongyan's most Yin thunder force. Although there was no physical pain, Ying Hongyan also slept for a whole half a month before he woke up.

"I'm... where?"

As soon as Ying Hongyan woke up, she thought she was in Tailei God sect, but she didn't want to come to a strange place.

Ye Chen had to tell her what happened in Tianlei Shenfeng.

Hearing the cause and effect of the incident, Ying Hongyan was shocked and speechless.

"In fact... I don't like that sect. Now that I come out, it's a relief."

The beauty should be calm.

Somehow, as long as ye Chen is around, she feels that all places in the world can go.

In the process of his deep sleep, ye Chen combed his body with a green bamboo pool. After Ying Hongyan woke up, he found that he had broken through another realm.

"Elder martial brother ye, I don't know how to thank you."

Ying Hongyan carefully felt the thunder force in her body. Although it was silent, it was much stronger than before.

"Miss ye, since your wound has healed, I'll take you home!"

Ye Chen said to him.

Ying Hongyan had some loss in her heart, but she didn't show it. She just smiled and shook her head.

"You don't have to worry about me. Everything is for home. I just want to go out and have a look. It's rare to have this opportunity."

"Then cherish it!"

"You're welcome."

Ying Hongyan simply cleaned up and set out on her way home.

She doesn't want to go back to her family, and she doesn't want to go home. She might as well wander all over the world and go outside for a visit.

Before leaving, Ying Hongyan suddenly turned back, gathered in Ye Chen's ear and whispered two words.

Ying Hongyan winked at Ye Chen, and then walked away with a smile.

Ye Chen is also quite helpless.

The girl Ying Hongyan had guessed Ye Chen's real purpose, but she didn't point it out.

Sure enough, women are not easy to cheat!

.....

In the cave, ye Chen gradually improved the rules of thunder law in his body, manipulated thunder and tempered his flesh.

On the other hand, the prohibition of Zhenshen tower is becoming wider and wider. Except for Kirin demon saint and zombie demon saint, the remaining seven saints have come out.

For the first time in ten thousand years, they set foot on the land of the heaven and the world again.

Some of them were filled with emotion.

"I didn't expect that after so many years, I could return to the land of the world of heaven. It's really impossible to tell!"

"Ha ha, you should be happy when you get out of trouble! In the final analysis, you should thank the Lord of reincarnation!"

"My life is saved by the Lord of reincarnation! No matter what happens, the Lord of reincarnation can speak!"

The seven demon saints in the wilderness are all the big demons who dominated the party at the beginning. They are extremely powerful and powerful. Although their cultivation has fallen a lot, they can be regarded as a powerful help.

Chapter 7377

There are seven troops in the Zhenshen tower, all of which are the pro guards they led in those years, adding up to hundreds of thousands.

The other part is other scattered demons and big demons, among which there are also big demons with outstanding strength.

Since ye Chen has subdued millions of demon families in the town god tower, he will build a demon army subordinate to reincarnation.

These demon armies are the elite troops brought out by the remote demon sanctuary. They are much stronger than the king demon families in the foreign real world.

In order to train troops, but also to temper themselves.

Ye Chen personally went to battle and fought with those big demons. What he mastered was no sword intention, and the eternal Kendo became more perfect.

Constantly fighting and understanding is indeed the best way to improve your strength.

Compared with the Terran soldiers, the demon soldiers are more forthright and informal, so they don't care so much about winning or losing.

The troops of the seven demon saints have received the support of Ye Chen. They have been training hard since they were depressed and idle at the beginning.

Ye Chen has every reason to believe it! The demon army under their jurisdiction will become more and more powerful.

If we take time to fight against the ancient emperor Yu Huang and the forces of the supreme world, we all have a certain right to speak.

After training for a period of time, ye Chen launched a battlefield confrontation.

The war drums roar like thunder, and the soldiers whose bodies are strong like God's tower are extraordinary and aggressive.

Strong and powerful arms and veins burst up. With each wave, the strong sound of war drums spread all over the sky, shaking people's hearts and minds.

Under the leadership of their respective demon saints, the officers and men of the seven forces turned into a torrent of stars, carrying the potential of steel, like stars burning with flames, vigorous and unstoppable.

In the end, ye Chen simply called Ji Siqing and Xiao Huang over.

Rosefinch nirvana, reborn, Ji Siqing and Xiao Huang even fought with several demon saints.

Ye Chen sat aside, calm and settled, and entered the reincarnation cemetery.

Chaotic thunder emperor and chaotic Yan Emperor are sitting by the river of illusion, drinking tea and chatting.

"Two elders! You are so carefree. Take me with you."

Ye Chen said and sat down by the Qingshui River.

"We just talked about you and were fantasizing about what would happen if you woke up all our five old things?"

Chaotic Leidi joked with a smile.

"If you mix our five old things together, you can gather all the power of chaos! Maybe you can spy on the primitive Hongmeng method!"

Ye Chen heard this and was slightly moved.

"Please give me your advice!"

The chaotic Yan Emperor came slowly.

It turned out that this primitive method of Hongmeng was also born at the beginning of heaven and earth, but it had disappeared at that time.

The five of them later tried to find it together, but there was still no news.

It was not until later that they found that the people born in chaos could not get the original Hongmeng method.

Only later people can have a chance.

Emperor Yan of chaos snapped his fingers and saw a flame leaping out of his fingertips, shaped like a lotus in full bloom.

It's just that the lotus is a flirtatious red,

"You take this fire next. It's called Yilian divine fire. It's not on the divine fire list. It's a flame I specially use to track and search. It can take you to feel the smell of leaving the fire."

Ye Chen carefully took over the gorgeous and blooming lotus fire.

Just touching the lotus fire, it slipped into the skin like an insect and fused with the flesh.

Even Yan Xuaner, the fire of the Taoist spirit, was very excited about it.

Ye Chen only felt a slight burning sensation in the meridians, but then the warm current was full.

"Thank you for your gift!"

Ye Chen bows.

This fire is not particularly powerful, but it is a key to the realm of leaving the fire.

In the realm of leaving the fire, there is a legacy of chaotic Yan Emperor. Once born, it will cause competition from countless people!

At that time, if you have the key, you can take the lead.

"Boy, I expect you to use fire like thunder! Don't let this old thing say that I'm not as good as him!"

"But you have mastered the extremely rare fire of Tao spirit. I'm afraid it's much easier for you than cultivating thunder."

Chaotic Yan Emperor joked.

"Please don't worry, elder! I will cultivate myself well! At that time, I will make the name of chaos resound all over the world!"

Ye Chen naturally knows that chaos thunder emperor and chaos Yan Emperor were born in chaos, which began in the Hongmeng era and originated before heaven and earth.

Although they accidentally fell due to various reasons, leaving only a broken spirit, their experience and knowledge are still there.

Whether in the flood and famine era or in ancient times, they have experienced and understood the morality contained in that era.

But the way of heaven is ruthless. No matter how powerful the strength is, it will gradually disappear with the passage of time.

Even if Hongjun left the real world, he was the first person in the world! But who knows if he has succeeded in preaching?

Or in another dimension of the world, the body died and fell silent.

Every day is higher and higher. The end of the way of heaven is still the way of heaven. People can go against the sky, but it is only in a relative environment and can never dominate the way of heaven.

But even so, the two of them have been brilliant and left immortal legends.

When the dead soul is dying, they can also meet people with such talent as ye Chen. They are naturally very happy.

Chaotic Yan Emperor's temperament is more straightforward and clear about love and hate.

Chaotic thunder emperor is silent. For outsiders, his temperament is colder and more difficult to get along with than the other chaotic five emperors!

Chaotic Yan Emperor floated up, came to the tombstone, stretched out his hand and slowly pulled out a turbulent flame.

The flame was like a wave, fluttering in the wind. When it reached the hand of chaotic Yan Emperor, it turned into a bead.

That flame, surging with thick spiritual power, almost in an instant, burst out incomparably vast power.

For such power, ye Chen can only shock.

"You can call it the spirit of fire! It is somewhat similar to the girl gathered by the fire of your Tao spirit, but it came out of chaos with me. But now, it has lost the moisture from the fire and is almost gone."

This small ball of the flame, although jumping and flashing, has no corresponding intelligence.

Although it is gorgeous, it is actually just an empty shell.

Chaotic Yan Emperor said, stretched out his hand and gently patted on the bead.

"Release the power of a flame. This little guy will sense the chaotic breath on you and enter your body. It can be used by you at that time."

When ye Chen heard the speech, his heart moved.

Chapter 7378

The thin flame flickered out, forming a thin layer of fire spirit.

Ye Chen was wrapped in this layer of flame, and his body slowly rose up. He himself was like a burning Phoenix, with a pair of gorgeous flame wings emerging behind him.

The generated flame power churned in the body, stirring the calm sea of air.

The chaotic God Leisha rushed out of time, like a fierce real dragon.

Thunder and fire can complement each other, but they are opposite to each other.

The chaos God thundered and rushed out of the sea of air. Suddenly, the flashing thunder surged everywhere, like an angry Beast, tightly surrounding the thunder bead of the flame.

The spirit of fire didn't seem to expect that this guy was so irritable. Although he had no wisdom, he was scared back two steps.

Ye Chen is a little surprised. He hasn't seen chaos thunder react like this before.

Today, I met the spirit of fire, and the reaction was so strong that it was unimaginable.

Ye Chen said the changes in his body to the second thunder chaotic God Emperor. When they heard the speech, they immediately laughed.

"Don't panic, my spirit of fire is just a small bead, which is far from his chaotic God thunder. They can live in peace when their strength is similar, but if the gap is too large, such a situation will occur!"

Ye Chen suddenly understood and immediately became thoughtful.

At this time, he seems to be aware of a problem.

That is, you can't completely control the chaotic thunder.

Logically speaking, chaos thunder is now in his body and has his own personality.

This has happened on several occasions.

Chaotic thunder has its own judgment on external objects, like a rebellious demon king.

But ye Chen doesn't need such a personality.

What he wants is absolute obedience!

Therefore, ye Chen's look was suddenly cold. The thunder all over the sky rushed towards the deep air sea and broke the barrier.

The strong domineering spirit is surging and surging in the whole air sea.

The chaotic God thundered for a moment, and immediately manipulated the thunder to rush up, but stopped the blood light released by Ye Chen.

After ye Chen was surprised, he immediately became a little angry.

As expected, this chaotic thunder did not fully obey his instructions and still had self-thought.

In that case, he won't be polite!

"What about chaos thunder? Since it is for my use, you must obey my orders!"

Ye Chen's hands were sealed. The source of his life swam in his body and gathered into two surging waves, wrapped in reincarnation blood and burst into supreme expression.

Several thunder lights of chaos God thunder were swallowed up by them. At this time, chaos God thunder finally realized that ye Chen was angry!

A wail came from the sea of Qi. The chaotic thunder was like a defeated monster and hid back in dismay.

But how can ye Chen let it go easily?

In a twinkling of an eye, incomparable dazzling light ran through the whole meridians!

The surging tide converged into a silent blood, like a sword of dasimosen, hanging above the chaotic thunder, with great majesty and thousands of visions.

Chaotic thunder was too frightened to move, curled up in a corner of the sea of gas, and there was a trace of confusion in fear.

After ye Chen subdued him with blood power, he took back the spirit of fire and contained it in the sea of air.

In addition, he condensed the original power of reincarnation into a ball shape and wrapped it in the appearance of the flame spirit, making it look like a burning little sun.

Bang!

The power of the sun, burning hot, diffused out in an instant, swallowing the space of this sea of Qi.

The thunder force also rises automatically and flashes brilliantly.

Between the two, a unique pattern has gradually formed, falling into a delicate balance.

And ye Chen's appearance also showed an amazing scene. He sat in the void and was very different from the fierce all over.

On the left, it can be said that there is a raging fire, and on the right, it is surrounded by thunder, which is amazing.

At this moment, two distinct and powerful smells merge into one, distinguish from each other, but blend with each other.

When the two chaotic gods saw this scene, they were stunned at first, and then a shocked color appeared in their pupils.

"Good guy! You can integrate the spirit of fire with your chaotic God thunder. You are worthy of being our apprentice. Ha ha, your eyes are finally right!"

Chaos Yan Emperor immediately laughed and was delighted. At the same time, he didn't forget to lose chaos Lei emperor.

Chaos Leidi was unable to laugh or cry, but his eyes to Ye Chen were full of joy.

It is really a gratifying thing that they found their successor at the last minute.

Anyway, I finally have a place in my heart!

"I didn't expect that chaos God thunder will be overwhelmed by others one day. Ha ha, I think this boy is more and more interesting. Let's see what good achievements he can create!"

Chaotic Yan Emperor smiled and said.

His last trace of soul origin is also in the place away from the fire, waiting for ye Chen.

As long as ye Chen can go to the place away from the fire and get what he left behind, his strength can go up another level!

In Ye Chen's sea of Qi, fire and thunder are intertwined, forming a trend of balance and restriction between yin and Yang.

Ye Chen slowly spit out a mouthful of turbid Qi. After collecting the spirit of fire into his body, he can obviously feel that the spiritual power in his body has increased by another point, and the breakthrough is not far away!

And after coming out of the reincarnation cemetery, ye Chen came to the place of nothingness. He wanted to try to recover the thunder monument again.

Chapter 7379

These days, he has been trying to refine leibei, but he has encountered shackles. At the last moment, he can't break through!

After Emperor Yan of chaos passed the spirit of fire to him, ye Chen dug out a connection, so he came here and tried to refine Lei stele again.

In fact, leibei has become a small world.

Ye Chen has now come to the outside of this boundary wall! Just get through and get into it.

Ye Chen sat down and began to break through.

For a moment, the red glow flickered continuously, and the sound of purring captured people's heart and soul.

A stone tablet covered with lightning floated and sank in Ye Chen's body, sometimes rotating and sometimes stopping.

In front of Ye Chen, there was a vast scene of lightning. Behind the countless flashes of lightning, there seemed to be a small world.

That should be the gate of leibei! Only by breaking this door can you enter it.

Immediately, ye Chen's hands were sealed and summoned the dark blue thunder in her body. The lightning in her hands continued to fly, and even condensed into a totem, simple and elegant, containing strong power.

He is creating with thunder and penetrating with lightning.

The real leibei is not so easy to absorb! It contains a strong power of heaven and earth, and has been wandering for many years, and no one knows what happened.

This power is too mysterious. Even ye Chen can't crack it in a short time.

He looked at the thunder tablet in his body, and his eyes penetrated, and the thunder force in his body gradually turned into a frozen ancient tripod.

Buzz!

Behind Ye Chen, the thunder light rises. The God ring formed by it presents the color of dark purple thunder.

At this time, there was a loud noise in the sky, as if some door was about to open.

At the same time, ye Chen also manipulated Lingnian and passed through the thunderous forbidden area!

However, at the last minute, ye Chen was blocked as never before.

At first glance, in that chaotic and confused world, there was a figure standing in front of the door, quiet and peaceful, but the hand was extremely powerful.

Ye Chen was surprised!

He understood that there was a residual thought in the original leibei, which was waiting!

This remnants are the essence of the universe, including the fruits of thunder and lightning.

Perhaps this is just like the stele keeper of the reincarnation xuanbei before.

"Oh? It's so weird! Let me try!"

Ye Chen said, and began to urge the endless thunder force in his body.

After this period of time, his thunder power has increased greatly.

Boom!

Behind him, there is a strong virtual fish beating the waves, and the scale lines on his body are like thunder, flashing constantly, forming a mysterious totem.

The mysterious stele keeper in Lei stele seems to feel the power of this way.

It was not afraid at all, but moved forward slightly, and the invisible power spread rapidly, blocking the frightening attack outside.

The body of the mysterious monument keeper was scattered and turned into dark thunder. A light red luster appeared on the dark surface.

There are twelve dark thunders in total, and the momentum of these thunders is amazing. They seem to be the strongest gateway to guard the heavens.

"Broken!"

Ye Chen frowned and drank softly.

At the center of his eyebrows, there was an arc of thunder, which sent out a dazzling divine light.

The God awn suddenly came, almost in a short moment, breaking through the barrier in the depths of space.

Lei Guang and shenmang confronted each other, and the sound of Zila continued to be heard.

Ye Chen attacked the defense line built by Lei Bei again and again. He was brave in Yuzhan. His body was more and more harmonious with Lei Dao's law.

His whole person seemed to be bathed in thunder, brilliant and sacred, and the weather was dignified.

At this time, thousands of miles away from this empty land.

The demon emperor sat down alone in a dark place.

In front of him, there was a silent thunder.

The thunder shrank together and remained silent, but the fluctuations were amazing.

On the dark thunder, there is an inseparable black fog. It is the power of Jiuyou, which comes from the depths of hell and connects the world with the nether world.

People in the real world almost dare not touch it, because once they touch it, they may be entangled by the power of Jiuyou and fall into the abyss of the devil.

The demon emperor sat quietly, adjusted the breath in his body, and opened his eyes a moment later.

This nine hell devil thunder can promote his strength growth and repair the dark devil trace in his body.

After the body is repaired, it brings a wisp of Jiuyou breath, which can better promote the growth of soul species.

In that way, it was one step closer to the devil's God taking away his body!

It was with this idea that Mo Zu wudian sent Ye Chen to the mysterious and empty thunder land to seize such treasures.

Between restoring strength and curbing soul species, the demon emperor must have a choice.

"In that case... Come on!"

The devil emperor finally made up his mind. His eyes looked forward, firm and determined, as if he had broken through the ages.

The terrible smell of the devil's way swept out and constantly washed away the nine Youlei force!

Again and again, crazy impact.

At this time, Jiuyou magic thunder was obviously provoked, and became manic from the initial silence. The dark magic thunder seemed to be summoned, emerged from the depths of the void, and blasted at the devil emperor covering the sky.

If you are challenged, you must fight back!

Jiuyou magic thunder expanded rapidly, almost as high as the mountains. Almost at this moment, it rushed up and turned into a huge mouth enough to devour the starry sky.

Boundless, ferocious and terrible.

The dark power of the nether world was released and completely dyed the nothingness black.

Poop, poop.

The whole earth can only hear the heartbeat of the demon emperor covering the sky.

But at this time, the demon emperor who was in the endless darkness showed a smile.

Because he sensed that tens of thousands of miles away, there was another person who made a breakthrough with him.

That's Ye Chen's breath!

Since you are accompanied by brothers of life and death, you are not afraid of everything!

.....

In the void boundary near beimangzu, ye Chen's eyes glittered with thunder. He looked far away and looked in another direction.

Naturally, he also sensed the action of the demon emperor and frowned immediately.

In that way, although Jiuyou magic thunder can restore and strong strength, it is also laying the foundation for the magic ancestor Wutian in disguise.

Both he and Zhetian demon emperor knew that once they absorbed this Jiuyou magic thunder, they would fall into a disadvantage and the situation would be unfavorable.

But ye Chen will never influence others' opinions. Since the demon emperor wants to improve his strength with this thunder, he will not block it.

Instead, we will give support with our greatest strength!

At this time, although he was in different places with the devil emperor, they all experienced the same breakthrough.

Chapter 7380

Ye Chen took a deep breath, which was his tenth impact.

This time, there was not only thunder but also flames in the aura he released.

Chaos God thunder and the spirit of fire have a subtle reaction!

The two forces can gradually merge and rise into the sky, like a volcanic eruption, a large area of blood red, and thunder directly submerges here.

This bloody thunder, like the setting sun at dusk, is everywhere.

"Break it for me!"

Ye Chen snorted coldly, and his palm pressed down, releasing a thick thunder.

And this ray of thunder is like a spherical sun.

His five fingers showed a strange shape, just like the sun and stars. When he threw out the thunder force, the chaotic force exploded layer by layer and burst into brilliant sparks.

Suddenly, the void became blood red and the thunder was boiling. The two forces converged into a powerful beam of light and directly penetrated the small world with its own system!

The thunder pillars guarding the gate were also scattered one after another.

At this moment, the monument keeper of Lei Bei was defeated by Ye Chen, and the door of the new world slowly opened.

The pure thunder dissipated like lightning, and ye Chen looked at the small world of leibei filled with thunder light, stood up and stepped into it.

However, just before entering the entrance of the small world of leibei, ye Chen stopped. He closed his eyes and reincarnated the spirit. He had worn it off and crossed thousands of miles of time and space to another place.

At the same time, under the detection of this idea, a figure also moved slowly. It was the demon emperor who was in a state of meditation.

He used his original magic within a few years, and had a strong resonance with the nine hell magic thunder, so he took it for his own use.

It seems that the devil emperor of the sky also felt Ye Chen's warm invitation, so he used the same means to convey information to Ye Chen.

They both took the treasure at the same time.

.....

then.

Ye Chen stepped into the world of leibei, where the thunder flickered constantly and had a very strong authority.

The demon emperor of Zhetian absorbed this ray of Jiuyou magic thunder into his body and obtained a new dark power.

One demon, one thunder, one light and one dark.

The Reiki absorption between the two forms a strong contrast, but echoes each other from a distance.

Almost in a short moment, two powerful breath rose into the sky.

The two breaths run through the sky and into the depths of the void.

They refined their treasures respectively!

Ye Chen refined the thunder tablet and touched the true meaning of the origin of thunder punishment.

The most important thing is that the reincarnation blood in his body is attracted and circulates through the aura formed by the thunder monument.

These thunder forces are the best way to improve the quality of reincarnation blood!

Ye Chen set his mind. He has made a breakthrough. Now he wants to wash the reincarnation blood in his body.

As long as such a great event is completed, he will make a worthwhile trip.

Fortunately, in the end, he completely let the leibei return to his body.

The reincarnation blood in his body surged like a tide, vaguely with a trace of violent thunder.

On the other side, the demon emperor of zhetien is also making the final refining.

He was a demon body, and the demon ancestor Wutian planted a soul in his body, which made his demon talent more powerful.

The extremely dark power seemed to emerge from the incomparably distant underground.

When the demon emperor got up again, the last trace of Jiuyou magic thunder turned into a little light and reflected in his eyebrows.

The breath of the devil emperor was completely complete, and his soul entered a new realm. The mark on his forehead was looming and looked quite dignified.

The two broke through at the same time and realized a new realm. One light and one light are rare visions of heaven and earth since ancient times.

The entanglement of these two intentions triggered a shock in the world of heaven.

In the emptiness of vision, there are two turbulence caused by breakthrough breath.

Especially when ye Chen passed through time and space and came to the place where the demon emperor covered the sky, their breath became one.

Like the stars, the rainbow runs through the sun. A ray of light pierces the world. People from all families have seen it with their own eyes.

The people of the wanxu Temple naturally found such a scene and quickly reported it to the elders in the temple.

After those elders came, they looked carefully and noticed the breath of reincarnation blood!

"No! I'm afraid the reincarnation Lord broke through again, and this time, what he got seems not simple."

A high-ranking elder immediately frowned and fell into thinking.

The others hurriedly confirmed whether this person was Ye Chen.

After all, this matter can be big or small. If you make a mistake, Yu Huang's anger is a capital crime.

But soon they were completely sure.

"Report this matter to your Majesty the feather emperor! The reincarnation Lord... May become stronger again!"

"Yes."

The disciple dared not neglect the order, and immediately reported the matter to the reclusive Emperor Yu Huang.

At this time, the feather emperor was sitting in his cave to practice.

There are green bamboos in the cave, which is the green bamboo fairy pool.

Ye Chen's bamboo pond is far inferior to this one.

His whole body was full of fog and mist, which was as peaceful as a fairyland.

But when he heard the news from his men, the momentum suddenly disappeared.

He had a very transparent eye of heaven and earth. At this time, he also saw what was happening outside through the void.

"That boy... Unexpectedly broke through again! Go and pass my order to convene the Presbyterian hall meeting."

"Yes!"
