

Physician 9601

Chapter 9601

If the source body of reincarnation can be cultivated, he can have a powerful and invincible extraordinary physique, and it will be easier to go to Wuwu time and space later.

That night, Ye Chen was in the room first, calmly adjusting his breath.

He had spent a lot of energy in the decisive battle with Wanxu before. Fortunately, after taking charge of the Tianbei, his spiritual energy was added to his body, and his state has almost recovered.

In the early morning of the next day, Ye Chen came to the square of Aoshi Tiangong and summoned all ten reincarnation monuments.

The ten reincarnation mysterious steles, dust stele, wind stele, flame stele, etc., have different attributes. It is not an easy task to completely fuse together to gather the source body of reincarnation.

Ye Chen calmed down, mobilized his spiritual energy, and tried to fuse the reincarnation monument, but found it very difficult.

If he uses strong means and uses the blood of reincarnation as the foundation, he may be able to fuse the dust tablet, wind tablet, flame tablet, etc., but the last piece of heaven tablet has too deep aura and energy, so it cannot be integrated at all.

"Is it really possible to completely fuse these ten reincarnation monuments?"

Ye Chen frowned and muttered secretly, continuing to try to merge.

Time passed bit by bit, and everyone in the reincarnation camp saw that Ye Chen had awakened, so they wanted to hold a ceremony for him to become the overlord and announce it to the world.

However, Ye Chen didn't have this thought.

As for the enthronement ceremony, it won't be too late to do it after he becomes the strongest in all time and space.

It's too early to want to celebrate now, the ancient Emperor Yuhuang is not dead yet.

Three days later, Ye Chen failed to fuse ten reincarnation monuments.

At this time, a spy from the reincarnation camp reported: "My lord, we have found information about Xu Yourong."

Previously, Xu Tianlang, the second tail, entrusted Ye Chen to investigate the whereabouts of Xu Yourong's whereabouts. Ye Chen sent someone to investigate earlier, and now the news finally came.

"Oh? Then Xu Yourong, where is it?"

Ye Chen came alive.

The spy said: "According to our investigation and calculation, that girl Xu Yourong should be in the only safe zone in Wuwu time and space, in Shacheng. She seems to be a descendant of a certain powerful emperor of heaven, and now she is looking for the treasure of her ancestors."

Ye Chen flicked his fingers and said, "Is the news reliable?"

The spy said: "It should be reliable, we are investigating jointly with the Qingyun Chamber of Commerce."

The Qingyun Chamber of Commerce is a force under Yin Suzhen, the God of Thunder, and it can be regarded as an ally of the reincarnation camp. It operates extensively in the infinite time and space. This

time, the investigation of Xu Yourong's whereabouts was mainly done by the Qingyun Chamber of Commerce.

Ye Chen said: "Should?"

The spy said: "Wuwu time and space cause and effect are complicated and intricate, we can only be sure about it, and we can't guarantee it completely."

Ye Chen nodded and said, "Then tell Xu Tianlang that the person he wants to find may be in Shacheng."

The spy said: "Yes." He turned and left, repaired a Feijian letter and sent it to Xu Tianlang.

Not long after the spy left, a man returned from nowhere.

It is Mizuo Kazama dream.

"Ye Chen, have you successfully taken charge of the Tianbei?"

As soon as Kazama Meng came back, seeing Ye Chen in the square, she asked with a smile.

Looking at Ye Chen's gaze, not only has he already taken charge of the Tianbei, but he is also trying to fuse all the ten reincarnation mysterious monuments.

"Barely considered in charge."

Ye Chen put away all the mysterious tablets of reincarnation. Although it was difficult to integrate the mysterious tablets, he was in charge of the Tianbei in front of him, and the process went very smoothly. The stele guard didn't even give him any test, so he handed over the Tianbei to him.

"That's great, Ren Feifei is ready to pick you up."

Kazama Meng laughed.

Ye Chen said: "Oh, what can Senior Ren do?"

He was very curious. He hadn't reached the Immortal Emperor Realm yet, so logically speaking, he wasn't qualified to ascend.

Kazama Meng took out a bell, handed it to Ye Chen and said, "You take this thing first."

Ye Chen saw that the bell was the color of brass, and there were mysterious patterns engraved on the bell. The patterns of these patterns were somewhat similar to those of the Devil's Eye, as if they also had the power of death.

"Is this... the Heartbreaking Bell?"

Ye Chen was stunned for a moment, this bell was the Heartbreaker Bell, and it should be in Ji Siqing's hands.

Kazama Meng said: "Yes, Ren Feifei said that the stele of Tianjun's conferring gods is broken. It's a pity. If he wants to contact you, he needs a new lighthouse."

"This broken heart bell is a new lighthouse. You only need to shake the bell to communicate with Ren Feifei."

Ye Chen took the broken heart bell and wanted to shake it.

Kazama Meng's complexion changed drastically, and he shouted: "Don't move! You can't move now!"

Seeing her reaction so fiercely, Ye Chen smiled and said, "Why, are you afraid of hearing the sound of the broken heart bell?"

This broken heart bell has a huge restraint effect on the tailed beast, and Meng Kazama is obviously afraid of it.

Kazama Meng snorted, and said: "I don't like the sound of this broken heart bell. I have already laid down the law of cause and effect. You cannot use it within seven days. After seven days, you can communicate with Ren Feifei slowly."

Ye Chen said: "Then what is it now, how do I ascend?"

Feng Jianmeng calmed down, and said: "Ren Feifei said that he can set up a large formation, called the Ten Mysterious Tongtian Formation, with ten reincarnation monuments as the cornerstone, to guide you to ascend."

"After you ascend, you will land directly in Shacheng. Ren Feifan will wait for you in Shacheng, and then he will accompany you to Shanghuangtian Palace."

"He said, don't go alone, because there are many people watching in the Shanghuangtian Palace. If you go rashly, you may expose the secret."

Chapter 9602

After Ye Chen went to Nowhere Time and Space, the most important thing was to go to Shanghuangtian Palace and wake up Grandpa.

Now his grandfather fell into a deep sleep, and the line of the Outer God was undercurrent. It is estimated that the position of the grandfather Outer God Tianzun could not be kept, and he would definitely be taken by the ancestor Hongjun.

Losing the position of the Outer God Tianzun, the luck of the reincarnation camp will inevitably decline, and how to make a decision at that time will need to be discussed after waking up Grandpa.

Ye Chen nodded, and asked with some doubts: "Relying on ten reincarnation monuments can make me soar?"

"The Xuanbei of Reincarnation can actually break the so-called supreme rule?"

Feng Jianmeng said: "Normal ascension means that the peak immortal emperor ascends to Wuwu after becoming a god, but someone can overcome the prohibition of becoming a god and directly ascend to Wuwu time and space. This is called forbidden god."

"This Forbidden God's Ascension has already been tried by someone. At that time, it was using the Ten Profound Tongtian Formation."

"The Ten Profound Heaven Formation uses ten top-level magic weapons as sacrifices to gain the power of the Dao's blessing and soar up in the daytime. In this way, you can avoid the pain of the catastrophe, directly obtain the blessing of the Dao, and control the law of cause and effect. The law of fantasy is no different from that of ordinary true gods."

"However, the price is huge, and the magic weapon that needs to be sacrificed must be a top-level existence."

"The person who ascended the forbidden god back then became the Lord God of the Heavenly Emperor, called the Moon God, the Heavenly Emperor."

"During an auction, Ren Feifei got the formation diagram left by the Moon God and Heavenly Emperor, and mastered the Ten Mysteries Reaching Heaven Formation. He wants to use the Ten Profound Reaching Heaven Formation to guide you to ascend."

When it came to the end, Kazama Meng took out a scroll of formation diagram, the scroll slightly exuded the moonlight, and revealed a taboo-like ominous atmosphere.

"Ten Xuan Tongtian Formation, the Moon God Emperor..."

Ye Chen's eyes narrowed slightly, as if he had also heard the name of Moon God and Heavenly Emperor.

Before Banwei begged for mercy, he mentioned the treasure of the Moon God Emperor.

The Moon God Emperor seemed to be a very legendary figure. He was actually a Forbidden God who ascended back then.

However, the Moon God Emperor is definitely not a character in the real world, because the only Ascenders in the real world are Hongjun Patriarch and Martial Ancestor.

She is estimated to be from the second world, or from the wild world.

Kazama Meng said: "Ren Feifan's plan is to make you become

Chapter 9603

oom!

The divine light soared into the sky, piercing the sky. In the blue sky, a large black hole appeared, and then there was a ladder extending down.

At the end of the ladder, there is no time and space!

Ye Chen narrowed his eyes, looked at the ladder that day, and saw layers of thunder and lightning swirling around the ladder, buzzing.

Those lightning currents seemed to be suppressed by an invisible force, unable to wreak havoc.

Ye Chen knew that this was Ren Feifei's suppression.

Without the help of Ren Feifei to suppress it, these lightning currents would wreak havoc and form a catastrophe.

Once the catastrophe is formed, Ye Chen needs to go through the catastrophe before he can ascend to Wuwu time and space.

But now, with Ren Feifei suppressing him, he doesn't have to cross the tribulation, he can go directly.

However, the price of the Ten Mysteries Tongtian Formation is not small.

Ye Chen felt that the energy of his ten reincarnation monuments was rapidly being consumed.

When he successfully ascends, I am afraid that these ten reincarnation monuments will be weak for a period of time, unable to use, and need time to recover.

Ordinary reincarnation monuments cannot be used, and it has little impact on Ye Chen.

But the Tianbei couldn't be used, which made him lose one hole card.

Wuwu Time and Space is not the real world after all, there are too many powerful beings, with the strength of Ye Chen's Boundless Third Heaven, if he doesn't have enough hole cards, others may be able to destroy him with a single thought, which is very dangerous.

In the real world before, because of the restrictions of the laws of heaven and earth, even if he faced Yehan, Tuodi Ancient God and others, he was not in the slightest.

But if you go to Wuwu Time and Space, there will be no legal restrictions anymore. Those great beings, those high heavenly emperors, are fatal enough for Ye Chen.

Fortunately, Wuwu Time and Space is big enough, as long as Ye Chen keeps a low profile and hides his breath, he will not be easily discovered.

"Okay, Ye Chen, you go, Ren Feifei is waiting for you in Shacheng."

Kazama Meng clapped her hands and smiled.

"Um."

Ye Chen nodded and stepped onto the ladder.

The gazes of Xia Ruoxue, Wu Yao, Zhetian Devil Emperor and others were all watching him, full of reluctance and expectation.

They expected that one day, Ye Chen would become the strongest in all time and space, eradicating all enemies.

At that time, the kingdom of reincarnation, the ultimate order, and the perfect world may be truly established.

However, the moment Ye Chen stepped onto the ladder, he stopped in his tracks.

Because, in the dark, he caught a series of dangerous auras.

In the void, there seemed to be countless pairs of eyes staring at him.

Kazama Meng smiled and said: "Don't worry, I will protect you, you are my lighthouse, hehe."

Ye Chen turned around and asked, "Does anyone know that I'm going to ascend?"

Kazama Meng said: "Forbidden God's ascension, such a big cause and effect, cannot be hidden, but I said, I will protect you, if anyone dares to stop, I will kill them all for you."

"Besides, this is the real world after all. Those hostile existences of yours don't dare to take action easily."

Her tone was calm, but there was an extremely determined idea behind her.

This time Ye Chen ascends, she will desperately guard it, because Ye Chen is her lighthouse.

"Then thank you very much."

Ye Chen smiled and stepped onto the ladder.

Kazama Meng said again: "By the way, if there is an enemy blocking you, don't make a move yourself, because you are a forbidden god to ascend, which is taboo in itself, and it is an act of bullying. Once you leak your breath, you may fail to ascend. "

Ye Chen's heart trembled, and he said, "I know."

If he can't make a move, he can only rely on Kazama Meng to solve any accidents.

Fortunately, this woman seems to be reliable at present.

Ye Chen looked at the end of the ladder, which was also the end of the sky. As long as he reached the end, he could truly go to Wuwu Time and Space, and it was not a stowaway, but a dignified step into it.

After he stepped into the infinite time and space, the avenue would send down blessings, and he would control the power of the law of fantasy and the law of causality, which stowaways do not possess.

Buzz buzz!

Ye Chen felt that the ten reincarnation monuments were shaking violently, releasing a more intense aura, making the effect of the Ten Profound Heavenly Formation even more radiant, with a radiant glow.

Ye Chen walked along the ladder step by step towards the end of the sky.

Every time he took a step, he felt that his strength became stronger, as if he had received the help of heaven and earth.

This enhanced power is not force, but the ability to change supernatural powers, and it is the power to control the most original rules of the world, fantasy, cause and effect, fate, reincarnation, life and death, etc.

But the closer he got to the end of the sky, the more dangerous Ye Chen felt.

Behind the sky, there are countless eyes staring at him.

Those people hiding behind obviously sensed that Ye Chen was about to ascend, but many of them had scruples and did not dare to stop them.

Kazama Yume watched nervously, concentrating on it, in case of accidents.

Xia Ruoxue, Wu Yao, and the people from the reincarnation camp watched nervously, fearing that something unexpected would happen.

When they saw Ye Chen's figure, they were getting further and further away, and they had already reached half of the ladder.

The power of the Ten Mysteries Tongtian Formation and the ten Reincarnation Steles all converged on Ye Chen.

Crash, clatter, clatter.

Circles of samsara golden light continuously bloomed, extremely blazing.

Then, it was the appearance of the Seven Stars of Reincarnation, which outlined a star map and appeared above Ye Chen's head.

Ye Chen noticed that his Seven Stars of Reincarnation, Longteng Fate Star, Scorching Sun Fate Star, and Black Night Fate Star were much brighter than before.

This is obviously because he is about to land in No Time and Space, and without the restrictions of the laws of reality, his reincarnation star can explode with more ferocious power.

Even Tianhuo Mingxing was faintly touched.

If there are enough resources, Ye Chen can even light up the Sky Fire Star!

Originally in the real world, even if he exhausted the energy of the whole world, he would not be able to light up the fire star.

Even if he got the tinder back, he couldn't.

After all, the power of the fire star this day is too terrifying. Compared with the previous three life stars, the combined power is even stronger.

One of the sources of power for Yantian Emperor, who almost became the Super Heavenly Emperor, was actually Tianhuo Mingxing.

He was able to become Emperor Yantian and create flames because he obtained a trace of blessing power from watching the fire and life star.

The fire in the real world also comes from the Heavenly Fire Star.

The power of this life star cannot be described in words.

If it was in the real world, it would be impossible for Ye Chen to awaken the Tianhuo star, because there were not so many resources and no such great opportunity to light up the star.

But if you go to Wuwu Time and Space, there are countless opportunities and endless resources. Not to mention the Heavenly Fire Star, even the Heavenly Emperor's Star may be lit.

Ye Chen's mood was also excited, full of longing and anticipation for that infinite time and space.

Chapter 9604

He walked towards the end of the sky step by step, and he could already see the picture at the end of the sky. It was a huge city standing in a desolate desert. It was the only prosperity in this desolate desert world. It could be called a miracle. .

That is obviously the most famous place in Wuwu Time and Space, Shacheng!

Ye Chen's ascension to Wuwu Time and Space this time is to directly arrive at Shacheng, meet Ren Feifei, and then go to Shanghuangtian Palace together to wake up Grandpa.

"No time and space, here I come."

"Shacheng, here I come."

"Senior Ren, we can finally meet again!"

Ye Chen became more and more excited, speeded up and walked along the ladder.

Rumble!

But suddenly, a violent thunderclap exploded in Ye Chen's ears.

His footsteps stopped, and he subconsciously thought that the thunder and thunder had descended.

However, Ren Feifei has already laid down the law of cause and effect to hide the secrets of heaven. His ascension to heaven will not happen today, but will happen in half a year.

The sound of thunder was not made by Heavenly Tribulation, but by the power of the strong, which shook the world and burst into thunder.

A pale, old, wrinkled, covered with corpse spots, full of lifeless big hand, exploded down from the thunder in the sky, tore apart the void, and grabbed Ye Chen directly.

Following the appearance of this monstrous hand, there was a hoarse and angry voice:

"Lord of Reincarnation, it's not that easy for you to ascend to the Forbidden God!"

"Suppress me!"

That was the voice of the ancient God Tuodi.

Ye Chen was surprised when he heard the voice of Ancient God Tuo Di and saw that big hand crushing him.

Previously, the ancient god Tuodi had his power stolen by the ancient emperor Yuhuang, and he even lost the ancient sword of Heavenly Sin. The loss was heavy. Logically speaking, he should have fallen into weakness.

But even so, Ancient God Tuo Di still wanted to make a move to stop Ye Chen from ascending.

Obviously, it was because once Ye Chen ascended, it would pose an extremely serious threat to him, so he wanted to stop Ye Chen at all costs.

If Ye Chen ascended again as the Immortal Emperor, then the Ancient God of Tuo Emperor would not dare to stop him, because Ye Chen at that time had already consummated his merits and virtues.

But now, Ye Chen only has the cultivation base of the third-level heaven of the immeasurable realm, relying on the formation of the Ten Mysterious Heavens, and the ascension of the forbidden gods is taboo in itself, there are many risks, and there are also opportunities for outsiders to take advantage of.

Naturally, Ancient God Tuodi would not give up this opportunity. Even though he was weak, he still took the risk to suppress Ye Chen.

Ye Chen's face darkened, and when he saw the ancient god Tuo Di's big hand, he wanted to fight.

"Don't shoot, I'll protect you!"

Kazama Meng hurriedly stopped, fearing that if Ye Chen made a move, he would leak the secret and cause the ascension to fail.

"Sword!"

She stared at the big hand of Ancient God Tuodi, shouted, and in the void, a sword burst out out of thin air. It was hundreds of feet long and unparalleled in sharpness, beheading the palm of Ancient God Tuodi.

This supernatural power of turning swords into space is naturally a means of fantasy without time and space, and can transform one's own fantasy into a real existence.

Theoretically speaking, if one's cultivation base is strong enough, even supreme artifacts such as the Ancient Sin Sword of Heaven, the Star Sea of Heavenly Demon, the Seal of Emperor Yan, and the Golden Wheel of Heavenly Emperor can all be created in a single thought.

Of course, that's impossible.

Even strong men like Emperor Yuantian and Emperor Huntian couldn't do it.

Scoff.

Kazamameng's huge sword cut through the void with a very violent momentum.

Ancient God Tuodi didn't dare to be careless, immediately withdrew his palm, and said with some anger and surprise:

"Sanwei, you want to protect reincarnation? You are my creation, I am your father, and you want to fight against me? Are you not afraid of being punished by heaven?"

In essence, the three tails are one of the clones of the ten tails, and they were really created by the ancient god Tuodi.

The ancient god Tuodi said that he was the father of Sanwei, which is indeed true.

Disobedience to the emperor's father is equivalent to going against the sky. If you violate the rules of the sky, you may suffer severe punishment from the sky, and you will be struck by lightning.

"Yes, you are Sanwei's father-in-law, but my name is Kazama Yume, what does Sanwei have to do with me? I'm going against you, what can you do to me?"

Feng Jianmeng spoke with certainty, slamming every word, with a confident appearance, completely ignoring the threat of the ancient god Tuodi, and then slashed out with a sword.

Ancient God Tuodi was obviously stunned. He didn't expect Feng Jianmeng to be so unreasonable and unreasonable. The palm of his hand was cut by her sword, blood mixed with chalk and black flowed out, and he let out a scream.

"Three tails, even Nine tails dare not hurt me, how dare you hurt me?"

Ancient God Tuodi was furious and frightened, his voice sounded hysterical.

Although the tailed beast is wild and unruly, no tailed beast has ever dared to hurt him.

But now, Kazama Meng is defying the world's displeasure, killing him with a single sword strike.

Seeing this scene, Ye Chen was also a little stunned, and it was a little funny to see Tuodi Gushen's frantic look.

"Hehe, not only do I want to hurt you, I also want to kill you."

"I heard that you are a corpse with a dead face on your face. You will not die again. I want to see if it is true today."

"The law of karma, destroy the bones!"

Kazama Meng sneered, and suddenly sang a law of cause and effect, the law of heaven and earth was turbulent, nine heavens and ten earths roared, and infinite fierce, violent, evil, and austere aura surged out.

bang.

The palm of Ancient God Tuo Di immediately caught fire.

The flames burned fiercely, as if they were really going to crush him to ashes.

"Ah, Sanwei, if you dare to betray me, the heavens will not tolerate you, and sooner or later you will be punished and die!"

Chapter 9605

In the void, the ancient God Tuodi's fierce and angry screams came out, and his palm quickly disappeared.

Kazama Meng tried his best, and it was obvious that he wanted to kill him, so he didn't dare to go all out.

After all, this is the real world, and it is very irrational to work hard here.

"Lord of reincarnation, you are invincible, and even Sanwei is confused by you."

"However, if you dare to step into Wuwu Time and Space, you are looking for death!"

"I'm really embarrassed now, I can't suppress you, but I will let the Xiongba family take action, Xiongbatian will not let you go, let's wait and see."

Ancient God Tuodi uttered a few more harsh words, his voice was fierce, with infinite exhaustion, and finally all the breath disappeared.

Ye Chen could deeply feel the unwillingness, helplessness, resentment and other emotions of Ancient God Tuodi.

The ancient god Tuodi is not an independent god, he was created by himself, and many causes and effects are involved behind it.

Now that Ancient Emperor Yuhuang has stepped into Wuwu Time and Space, Emperor Tuo Tianzong may abandon him and recommend Ancient Emperor Yuhuang as a god in the future.

Ye Chen smiled, and probably could have foreseen that the ancient god Tuodi was about to decline.

When he goes to Wuwu time and space in the future, the enemy he needs to worry about the most is not the ancient god Tuodi, but the ancestor Hongjun, the Guxingmen Gutiandi and others.

Compared with the ancient god Tuodi, maybe the Xiongbatian of the Xiongba family made Ye Chen feel more threatened.

In the past, Ye Chen offended Xiong Batian.

Xiong Batian even said that if someone from the reincarnation camp ascends, they will kill as many as they come.

Now that Ancient God Tuodi wants to ask Xiong Batian to deal with Ye Chen, the latter must be very happy.

Feng Jianmeng repelled the ancient god Tuodi, but he was very happy, with a smile on his face, and said: "Okay, Ye Chen, what kind of ancient god Tuodi, I killed it for you, it's a pity that he ran fast, otherwise I really crushed him to ashes, hehe, you continue to ascend."

Ye Chen said with a smile: "Fengjianmeng, you are so disobedient to the ancient god Tuodi, are you really not afraid of heaven's punishment?"

Meng Kazama smiled and said: "You are my lighthouse, even if there is any punishment from heaven, you will bear it first."

Ye Chen smiled, and said: "By the way, I remember you said before that if I were your lighthouse, you could ask Nine Tails to take action, cooperate inside and outside, and kill Ye Han?"

Yehan is also a threat, if it can be resolved, it will be a great thing.

Kazama Meng said: "Okay, no problem, but Jiuwei said, your blood dragon likes it very much, if you want to ask it to help, give it the blood dragon as food."

Ye Chen's face darkened, his voice became cold, and he said, "Pretend I didn't say anything." Then he continued to walk towards the end of the sky.

Kazama stuck out her tongue, and seeing Ye Chen's face change so much, she knew that the blood dragon must be his taboo, and it was absolutely impossible to trade it.

"Master, it might be a good thing that you gave me to Nine Tails to swallow. I can swallow Nine Tails back, why don't we try? After all, I have the help of the blood of reincarnation. I don't believe that Nine Tails can swallow the blood of reincarnation." ."

The blood dragon hidden in Ye Chen's body suddenly said.

Ye Chen was taken aback, he didn't expect the blood dragon to be so crazy, and he wanted to swallow Nine Tails back.

Ye Chen has personally experienced the power of Nine Tails.

If Nine Tails broke out with all its strength, it would be even more powerful than the Ninth Grade Heavenly Emperor.

It's not easy for the blood dragon to swallow it back.

"Stop talking silly."

Ye Chen interrupted Xuelong's thoughts, and said: "Let's go to Shacheng first, Senior Ren is waiting for us."

The blood dragon had no choice but to say, "Okay."

Ye Chen collected himself and strode forward, almost reaching the end of the sky.

Looking back, the sky and the earth were separated, surrounded by clouds and mist, and Ye Chen could no longer see the figures of the people from the Star-Moon Realm.

"Ruoxue, Wu Yao, Ji Lin, Fairy Xuanhanyu, I'm one step ahead, I hope we can reunite soon..."

Ye Chen murmured, then passed through the space barrier at the end of the sky, and flew directly to Wuwu Time and Space.

The moment he passed through the curtain of space, those ten reincarnation monuments, as if they had spirituality, flew together into the sky and returned to him.

This time, the Ten Mysteries Tongtian Formation made all the reincarnation monuments consume a huge amount, and it took a period of time for the spiritual energy to recover.

Ye Chen felt a whirl of heaven and earth, as if there was an infinite air storm in space, and infinite thunder roared and roared around him, but the surroundings were pitch black, and he couldn't see anything.

In the dark, it seems that there is another force protecting him and protecting him from all threats of turmoil.

Ye Chen knew that it was Ren Feifei who was protecting him secretly.

Gradually, Ye Chen saw a ray of light in the boundless darkness.

That ray of light contained a list.

The list was created by the power of heaven and earth, and it was in purple-gold color, full of divine light, and full of auspicious mist.

"what is that?"

Ye Chen looked over, and the list was the first thing he saw when he ascended to Wuwu Time and Space, and it seemed to be a harbinger of some kind of avenue.

Under his gaze, Ye Chen saw that there were ten seats on the list, which seemed to be a ranking list with names listed on it.

The top three are Patriarch Hongjun, Sakyamuni Buddha, and Emperor Daotian.

After being caught by the secret, Ye Chen knew that this list was exactly the legendary list of emperors!

The list of heavenly emperors contains the ten most powerful heavenly emperors without time and space.

Ye Chen scanned the list, but did not find the name of the ancient god Tuo Di.

"The ancient god Tuodi has fallen out of the list of heavenly emperors... It seems that the situation is changing much faster than I imagined..."

Ye Chen suddenly realized that the ancient god Tuodi was stolen by the ancient emperor Yuhuang and lost the ancient sword of heavenly sin. He failed to prevent him from ascending and suffered heavy blows. Qualifications are gone.

However, Ye Chen did not let down his vigilance.

Because he knew that in Tuodi Tianzong, there were also the Xiongba family and the Da Zhou family, which were also difficult to deal with.

Moreover, even if Ancient God Tuo Di declined, his pressure did not ease.

The threat posed to him by Patriarch Hongjun was monstrously huge.

It is certain that Ye Chen's most powerful enemy in Wuwu Time and Space is the ancestor Hongjun.

After the ancient god Tuodi fell out of the list, the person who replaced him in the ranking is called Emperor Daotian.

Ye Chen caught a trace of causal connection, this Emperor Daotian is actually related to Han Yan!

After careful calculation, he discovered that Emperor Daotian was actually Han Yan's father and the master of the Tiandao family!

The Tiandao family has the source body of the Tiandao, and their sword skills are very powerful. They have studied the Wuxiang Yidao in the Sword God Art very deeply.

The head of the family, the Heavenly Emperor Dao, is a master of Wuxiang's sword, extremely domineering, but before that he was only an eighth-rank Heavenly Emperor, and was not qualified to be on the list of Heavenly Emperors.

Chapter 9606

His son, Han Yan, was born in the Tiandao family, but he didn't practice swords. He learned swords every day. In one fell swoop, he squeezed out the position of the ancient god Tuodi and became the top three big figures on the list of heavenly emperors.

One can imagine the terrifying power of this sword magic art.

Emperor Daotian was not originally the most powerful person, but after Wuxiang cultivated to the peak state with one sword, he immediately rose up against the sky, and even had the qualification to compete with old-fashioned strongmen such as Hongjun Patriarch and Sakyamuni Buddha.

Ye Chen glimpsed all kinds of secrets and knew the legend of Emperor Dao Tian, and his heart was quite shocked.

His Zhishui sword and Wuxiang sword belong to the God of Sword Art.

Emperor Daotian practiced Wuxiang, and immediately rose against the sky, becoming one of the top powerhouses in Wuwu time and space.

If his Zhishui sword can also be cultivated to the peak level, maybe he can also aspire to the top!

"Han Yan and I are good friends. If we can win his father's support, it will be of great benefit to my reincarnation camp."

Ye Chen thought to himself.

He saw that on the Heavenly Emperor List, the top three rankings fluctuated up and down. It is still uncertain who is the strongest of the three, Hongjun Patriarch, Sakyamuni Buddha, and Dao Tiandi.

But there is no doubt that the top three in strength are the three of them.

Sakyamuni Buddha didn't care about worldly affairs, he only yearned for the other side of the starry sky, and the cooperation with Ye Chen was only for a short period of time.

At the beginning, Ye Chen lent Buddha a page of the Starry Sky Dao book, and only then did he get the opportunity to cooperate.

Now that he has come to Wuwu Time and Space, according to the original agreement, the Buddha will return the Starry Sky Dao Book to him.

Then, the Buddha will terminate the cooperation, go into seclusion again, and stop meddling in the affairs of the world.

If Ye Chen's reincarnation camp wants to grow, it needs to attract other strong people to sit in it.

It would be great if he could win Emperor Daotian over.

But thinking about it carefully, Han Yan was kicked out by the family. He learns swords but does not practice swords every day. The conflict with the family is very huge. It seems that it is not easy for Ye Chen to win Emperor Dao.

Shaking his head, Ye Chen sighed and stopped thinking about it.

How to strengthen the reincarnation camp, these things need to be discussed with Ren Feifei.

On the Heavenly Emperor List, Ye Chen saw the names of Gu Tiandi, Tianqi Zhizun and others, but did not see the names of Ren Feifan and Wu Zu.

Ren Feifei and Martial Ancestor, these two people are extremely special existences, they have not been included in the heaven and earth.

Ren Feifei directly changed the past by relying on the book of reincarnation, ascending to the sky in one step, and becoming the ninth-rank emperor. This method is too heaven-defying, and it is a million times more outrageous than Ye Chen's method of banning the gods.

It is already a miracle that Ren Feifan was not punished by heaven with such a means against the heavens. It is absolutely impossible to be on the list of heavenly emperors, because if he wants to be on this list, he must be recognized by Dao. After being on the list, he will be blessed by Dao. Adding strength to the body has great benefits.

As for Martial Ancestor, what he is strong is martial arts, not supernatural powers, his own Heavenly Emperor Qi is relatively weak, and what is strong is his physique and force, which is the brutal power of punching and punching, not relying on inner aura.

Therefore, Martial Ancestor was not on the list.

But in terms of real combat power, it is estimated that even Patriarch Hongjun and Sakyamuni Buddha would not dare to underestimate him.

In addition to the Heavenly Emperor list, Ye Chen glimpsed other lists.

The Tiandi list presents a purple-gold color, also known as the Zijin list.

In addition, there are Xuan Jin Bang, Xuan Yin Bang, Xuan Bronze Bang, Xuan Tie Bang, etc., which are all lists of good fortune in the world, and include the most powerful people in various realms.

For example, the Xuantie list is the Shinto list, which records the strongest players in the Shinto territory.

Chapter 9607

But it can only survive, if you want to practice and improve, it is absolutely impossible.

Ye Chen could catch the aura of Ren Feifan and Wei Ying in Shacheng.

As long as he landed, he could see Ren Feifei.

Ye Chen also saw that in the desert around the sand city, there were many people running desperately towards the sand city, followed by some pursuers.

Those people were obviously on the run. As long as they fled to Shacheng, they could get safe asylum without worrying about their enemies hunting them down.

But Ye Chen regretted seeing that many fugitives were caught up and killed when they were about to arrive in Shacheng, leaving only resentment in their hearts.

At the gate of Shacheng, many people who came in and out felt sorry for those who failed to escape.

Ye Chen shook his head, calmed down his distracting thoughts, and slowly descended from the sky.

His aura is completely concealed, without exposing the energy fluctuations of reincarnation.

At the same time, Ye Chen felt that there was the blessing power of the Dao surrounding his body, which was the blessing he received after his successful ascension.

The magical law of the law of fantasy and the law of causality, and all kinds of mysteries flooded Ye Chen's heart one by one.

Ye Chen was a little excited, this time the Ascension of Forbidden God was finally a success.

He is not a stowaway, but an upright ascendant, who has received the blessing of the Dao and mastered the power of the law of fantasy and the law of causality.

As for his Ascension Tribulation, due to Ren Feifan's suppression, it will not come until at least half a year later.

In the past six months, Ye Chen can prepare meticulously to meet the catastrophe.

"Look, there's an ascender over there!"

"Tsk ts, descending on Shacheng as soon as I ascended, I was not so timid back then."

"No, how did he ascend to the third heaven of the immeasurable realm?"

"Maybe it's hiding the breath?"

In the sand city, one after another looked up at Ye Chen, and there were many voices of discussion.

Although Ye Chen has tried his best to hide his aura, the aura of Dao's blessing cannot be concealed no matter what. Everyone knows that he is an ascendant.

In the sand city, in an open-air teahouse.

A dashing young man was drinking tea with a woman in white.

It was Ren Feifei and Wei Ying.

"Senior Ren, Ye Chen is here!"

Seeing Ye Chen coming, Wei Ying couldn't sit still on the spot and stood up.

She was one step ahead of Ye Chen and was brought to Shacheng by Feng Jianmeng. Now that Ye Chen finally came, how could she not be excited?

Forbidden God Ascension, this is not an easy task, there is only one successful person in the past, and that is the mysterious Moon God Emperor.

Ye Chen is

Chapter 9608

Seeing this scene, everyone in Shacheng was shocked.

It is very common for people who fled to Shacheng to fail and be killed in the end.

But just now, if everyone read it correctly, the bone spear seemed to come from the hand of Emperor Bone!

Gu Tiandi, but a big figure on the Tiandi list, usually rarely makes a move, and every time he makes a move, it is earth-shattering and bloody.

"Who is that kid? A guy who has just ascended to the ascension can actually be killed by Emperor Gu himself."

"Hehe, you dare to offend the Emperor Gu, you really are not afraid of death."

"It's his bad luck, he was just a little bit short, and he was able to enter the sand city."

There was a commotion in Shacheng, and many people were curious. They didn't know Ye Chen's identity, but he could attract the attack of Emperor Gutian.

"Senior Ren, Ye Chen..."

Wei Ying was completely panicked, her face was pale.

What happened just now was so abrupt and terrifying that her mind went blank for an instant.

Whoosh!

Ren Feifei's figure had disappeared from the spot.

...

Ye Chen felt that he was dead, but he didn't seem to be dead, but his body was in severe pain.

After an unknown amount of time, Ye Chen opened his eyes in a daze,

Chapter 9609

With Ren Feifei protecting him, it is not easy for those high and great beings who want to hurt him.

But this time, Emperor Gu was vicious enough to actually kill Emperor Wu, using her blood to cover up the secrets and avoid Ren Feifan's prying eyes, causing Ye Chen to be almost killed with one blow.

"Twilight of the Gods..."

Holding the bone spear in his hand, Ye Chen activated the Ragnarok spell to destroy the bone spear directly into yellowed bone scum.

He was afraid that Emperor Gu would lock the coordinates, which would be dangerous.

The breath of dusk diffused in the desert, as if something had been alarmed.

Ye Chen heard the sound of footsteps coming from afar.

"somebody is coming."

"I have to be careful."

Ye Chen's heart trembled. At this time, his injuries had recovered a little, and his vitality had also recovered partly. Relying on various trump cards was enough to deal with ordinary people.

There are very few strong men like Gu Tiandi in Wuwu time and space.

In the infinite time and space, there are more than half of the existences in the immeasurable realm. Those who can have true god-level combat power are already above most people. Some of the terrifying strength can even establish sects and cultivate believers.

Therefore, with Ye Chen's fighting power, he is actually considered a strong man in front of most ordinary people, not just an ant.

It's just that the enemies he faced were all too powerful, so it seemed that he was not strong enough.

Tread Tread.

In the distance, a group of people dressed as soldiers came into Ye Chen's eyes.

Braving the wind and sand, they strode forward.

In this desert, the law is so strong that it is difficult to fly against the wind, let alone tear the void.

That team of soldiers, about a dozen people, was in the middle stage of the Boundless Realm, and it was quite difficult to move in the wind and sand, but they walked very calmly and powerfully, showing a strong spirit.

When Ye Chen saw that those soldiers were only in the middle stage of the Boundless Realm, he made up his mind a little.

Although he is currently injured, his remaining combat power is enough to kill people below demigods.

The dozen or so soldiers all wore scimitars around their waists. When they saw Ye Chen from afar, they had ruined the entire oasis, and all the medicinal materials were gone. Their expressions suddenly changed.

"Boy, who are you, dare to destroy the medicinal materials of our Tiandan Sect, you are looking for death! Did the Scarlet King Sect send you here?"

Braving the wind and sand, those soldiers rushed forward, surrounded Ye Chen, and asked questions with anger in their eyes.

On the surface, Ye Chen only had the cultivation base of the third level of the Infinite Realm, and he was still injured, which did not attract the attention of those soldiers.

"My...Chen Ye, I have met all of you."

"I'm not a member of the Scarlet King Sect. The medicinal materials in this oasis were cultivated by you?"

"I was injured and used your medicinal materials. I'm really sorry."

"There is a little gold source jade here, is it enough for compensation?"

Ye Chen sacrificed a small bag of Golden Origin Jade and handed it over.

Previously, he seized the opportunity of the Nine Heavens Fulong Seal, killed the dragon, and harvested a lot of source jade. Yin Suzhen gave him a lot, most of which were used to fill the Qinglian avatar, but he also kept a small part for later use.

Origin jade is a hard currency without time and space, and the value of gold origin jade is even more precious.

Seeing that Ye Chen spoke so politely and offered the golden source jade as compensation, the faces of the dozen or so soldiers immediately softened.

Moreover, they carefully sensed the secrets, and indeed they couldn't catch any hostility from Ye Chen. They expected that it was not an enemy, and they felt a lot more at ease.

"Since your Excellency is not a member of the Scarlet King Sect, how could you use the technique of Ragnarok?"

A soldier changed his attitude and asked politely.

Ye Chen's heart trembled slightly, and he asked: "This Scarlet King Sect is..."

The warrior said: "It's the sect under the Twilight Giant."

Ye Chen let out an "ah" and said, "Sure enough..."

In fact, when he heard the three words Chiwangjiao, he vaguely grasped the cause and effect related to the Twilight Giant.

"I have a lot of grievances and enmities with the Twilight Giant. I am by no means a member of the Scarlet King Sect."

Ye Chen answered truthfully.

When the dozen or so soldiers heard what Ye Chen said, they were horrified.

Because they caught the secret, they could feel that there was indeed a deep conflict and hatred between Ye Chen and the Twilight Giant.

This is simply incredible.

A warrior said tremblingly: "You... you, a third-level heaven of the infinite realm, how did you become enmity with the giant of the dusk? He is the upper god of the nine cauldrons! It is said that he has already cast the nine cauldrons and is about to step into the heaven-reaching realm and become the infinite god. Godless King."

In Wuwu Time and Space, Wuliangjing is the bottommost existence, which constitutes the bottom cornerstone of the entire Wuwu Time and Space, and has the largest number of people, more than half.

The chores that are inconvenient for the high gods to do are handed over to the people of the boundless realm.

Above the immeasurable realm is the divine way realm, which is the realm of true gods. Although it is only a lower god, it is already above many people.

The Divine Dao Realm goes one step further, and it is the Tianyuan Realm, which can absorb the most original power of Wuwu Time and Space.

As for the upper gods above the middle gods, they are the upper gods. The realm is called the Nine Cauldron Realm, which can cast the Nine Cauldrons in the body and absorb a large amount of heaven and earth source energy.

Once the nine cauldrons are cast, and the nine cauldrons are united, they can hit the sky-reaching realm, which is the realm known as the king of gods.

Reaching the Tongtian Realm, it is not far from the highest realm of the Heavenly Emperor and Lord God.

The realm of cultivation without time and space has distinct levels. A higher realm can crush a person to death, and a single thought can obliterate the inferior.

The gap between realms is so large that it is suffocating.

The gap between the Infinite Realm and the Nine Cauldron Realm is unimaginably huge, and the Divine Dao Realm and the Tianyuan Realm are separated in between.

There is almost no possibility of enmity between Wuliang Realm and Nine Cauldron Realm fighters, because the strong man of Nine Cauldron Realm can crush the Immeasurable Realm just by the coercion of the physical body, the aura of thought, and one look.

A martial artist in the limitless realm is not even qualified to offend the upper god of the Jiuding realm.

Therefore, after realizing that there was a direct conflict and hatred between Ye Chen and the Twilight Giant, all the soldiers present were shocked.

Ye Chen smiled wryly, but he didn't know how to explain it, nor could he explain it.

He came from the real world, and because of the restrictions of the laws of reality, he used to fight back and forth with the Twilight Giant.

But that's just the protection of heaven and earth.

Now that there is no time and space and no restrictions, Ye Chen really faced the Twilight Giant, only to be slapped to death.

The Twilight Giant in the Nine Cauldron Realm is the High God.

A high god can already be called a great existence.

But with Ren Feifei guarding the way, Ye Chen doesn't have to worry too much.

As long as he is given a little time to grow, he is confident that he will kill the Twilight Giant in the future.

"Young Master Chen Ye, it seems that you are a great big shot, and please come to our Tiandan Sect for a gathering."

Chapter 9610

Those soldiers bowed their heads respectfully to Ye Chen and extended an invitation.

They felt that Ye Chen's identity was not simple.

Otherwise, it would be impossible to form an enmity with the Twilight Giant.

Being able to form an enmity with a high god is a proof of strength in itself.

Ye Chen said: "Isn't this Shacheng?"

A warrior said: "No, this is the Tiandan Realm, the territory of our Tiandan Sect. It is very far away from Shacheng by light years in the universe."

Ye Chen was stunned for a moment, it seemed that he was shot into the air by Emperor Gu Tiandi's spear, and he actually flew as far away as a light-year in the universe.

The strength of Gu Tiandi is really outrageous. Fortunately, he has a great life, otherwise he would be dead.

"Is this still the main world?"

Ye Chen asked again, he knew that there is no time and space, and there is a division of the main world, the secondary world, and the barren world.

Only the main world is the real time and space, and the secondary world and the barren world belong to the lower realm.

The warrior said: "Yes, my Heavenly Pill Realm belongs to the main world, but we disciples are not good enough, and have never been able to cultivate to the realm of the divine way."

"Furthermore, in my Heavenly Alchemy Realm, I am mainly good at alchemy with medicinal materials, but my martial arts are weak, which makes Master Chen Ye laugh."

Ye Chen nodded and understood.

In the main world, it does not mean that everyone is a god.

Ordinary warriors in the immeasurable realm still occupy the vast majority.

Because people born in the main world also have to cultivate from the lowest level. Although the main world is full of aura and their cultivation speed is much faster than outsiders, it is not easy to become a god.

The gold content of a lower god in the Divine Dao Realm is very sufficient.

The soldier said again: "My Tiandan Realm was originally a world with beautiful mountains and clear waters, but because it was targeted by the Twilight Giant, he sent the Red King Sect to make trouble everywhere, using the magic of the dusk of the gods, so that my territory in the Tiandan Realm fell into a trap. Severe desertification, that's why the desert here is so serious."

Ye Chen said: "So that's the case."

He followed the soldiers, braved the wind and sand all the way, and finally came to a huge oasis.

This oasis is in the center of the Tiandan world, and it is also the mountain gate of the Tiandan sect. It has strange cliffs, strange peaks, green pines and cypresses, green grasses, peach blossoms, aura is very abundant, and medicinal herbs are planted everywhere.

Under the mountain gate, there are many small villages. The villagers are helping to take care of the medicinal materials. The peaceful scene is like a paradise.

The cool medicinal fragrance wafted from the nostrils, which lifted Ye Chen's spirits and made him feel refreshed.

"Master Chen Ye, please."

Those warriors invited Ye Chen to enter the gate of Tiandanzong.

Ye Chen nodded and continued walking, and saw a statue enshrined in various places in the territory of Tiandanzong Mountain Gate.

It was a woman with a graceful posture and an elegant temperament, her whole body seemed to be filled with moonlight, and she was full of immortality.

Ye Chen glanced at it, caught the secret, and recognized it immediately.

That turned out to be the statue of the Moon God and Heavenly Emperor!

God of the Moon, yes
