Chapter 1941

At the scene, thousands had focused their attention on Levi.

When they saw him taking off his mask, their heart pounded furiously as they held their breath in suspense.

That isn't his true face?

At that moment, Sherrie's heart skipped a beat while she broke out in cold sweat.

She was desperate to see the face beneath the mask.

More than anyone else there, she was anxious to know Levi's true identity.

Xenotoph didn't blink as he stared at Levi.

When the mask was taken off, Levi's face was revealed.

Gasp!

At that moment, everyone's gasps could be heard.

Forgetting to breath, the crowd fell silent and froze.

All of them looked as if they had turned into zombies.

Johannes was dumbfounded when he saw that it was Levi.

So were Terrell, Sherrie, and Xenotoph.

Even Jefferson of the Cryptic Stream Corporation was equally dumbstruck.

Their expressions were filled with shock and awe.

Xenotoph was already more than a hundred years old.
Nevertheless, he bowed cordially at Levi to accord him the respect he deserved.
Without a care, he knew that he had to beg for Levi's forgiveness. Or else, Levi could kill him at a whim.
Isn't Robed Slayer a good example of what could happen?
"The Beckette family of Goldenport Island is honored to meet Mr. Garrison!"
"The Fowler family of Goldenport Island is honored to meet Mr. Garrison!"
Many of the elites of Goldenport Island realized the gravity of the situation. One by one, they bowed toward Levi in submission.
Only Johannes and those from Cryptic Stream Corporation remained at a loss.
After all, they were in direct conflict with Levi, unlike the rest who could get away with just an apology.

“I-I-I...”

Blinking anxiously, Johannes was trembling all over.

Realizing that he had underestimated the enemy, he didn't know what else to say.

Chapter 1943

Wiping the sweat off his brow, Johannes explained that the Half Phantom's powers were so extraordinary that they bordered upon the divine.

Unlike Xenotoph's magical powers, his was based on geomancy.

He would use it to read the fortunes and change their fate.

Hence, he was considered a legend in his field.

Back then, Johannes was just a nobody who ventured to the south and built his business from scratch.

He had relied heavily on the Half Phantom to read his fortune and change his fate.

His skills were especially useful when it came to gambling.

Therefore, the Half Phantom had played a crucial role in Johannes building his financial empire.

In fact, Johannes wasn't the only one who relied on the Half Phantom's services. Many of the elites on Goldenport Island did the same.

Their success had elevated the Half Phantom's reputation to the divine being.

Johannes' explanation was consistent with a deity-like master of magical techniques Levi had read in his reports.

Consequently, Johannes and the elites treated the Half Phantom like a king.

They had assumed that everything would go smoothly given how well they collaborated.

However, those that relied on the Half Phantom to change their fate would gradually receive their retribution.

Levi smiled at the knowledge that there was hope.

However, the Half Phantom remarked, “Be forewarned that you will have to pay a price. Are you willing to do so?”

“You...”

Johannes was infuriated when he heard it.

The Half Phantom obviously knew all that.

As long as he used his powers, one would need to suffer the equivalent retribution.

However, he didn’t tell them beforehand, causing all of them to play into his hands.

If Johannes knew that he would have to pay a price for whatever he wanted, he would have chosen differently.

And yet, the Half Phantom was forthright with Levi about the cost of using his powers.

Levi replied calmly, “No problem. As long as she is cured, no price is too big to pay.”

Levi didn’t want Zoey to see him as her enemy their entire lives.

Therefore, he was willing to accept the cost.

“I wonder if he is all right.”

It suddenly crossed Levi’s mind that something might have happened to the Half Phantom.

He didn't expect himself to be the one in danger.

Feeling anxious, he could no longer sit still.

"Hmm? What are you doing here?"

Levi was surprised to see Sherrie approaching him.

"I..."

Sherrie lowered her head and didn't know what to say.

"Hmm?" Levi was baffled.

What's wrong with her?

Before Sherrie could finish, something suddenly happened.

Boom!

A beam shot down from the sky.

Levi pulled Sherrie aside at once.

Boom! Boom!

After the earth-shattering rumble was heard, a crater was blown out from the ground.

“We’re under attack!”

Levi led Sherrie, who had turned pale, to take cover.

Even though she was a martial artist, she was cognizant that she would have been killed if Levi hadn’t saved her.

“I’m sorry to have gotten you involved. These men are targeting me.”

Sherrie was apologetic about it.

Levi responded with a grim voice, “No, they’re here for me. You aren’t that important yet!”

By then, Levi could sense the presence of the formidable fighters in the surroundings.

Every one of them was capable of destroying Goldenport Island and was more powerful than Xenotoph.

Hence, there was no reason for such powerful fighters to be looking for Sherrie.

In fact, the samurais' skills were on par with Robed Slayer.
Together with the elites from the Lab of Gods, they formed a formidable death squad.
Moreover, Levi could still feel that there were other Raysonians watching him.
He wasn't just faced with formidable opponents in front of him, he had to also contend with the
assassins hiding in the shadows.
It was a terrifying situation.

As a matter of fact, Levi had sensed that one of the two hiding in the shadows was Ghost Samurai who was extremely strong.

The other one was The Dark Archer from the Lab of Gods.

His arrows were known to be able to pierce through anything.

No matter how powerful one was, one would be killed if struck by his arrow.

Both of them were master assassins.

In other words, the warriors who were in front of Levi were just a distraction.

Chapter 1948

The warriors that the Lab of Gods had sent glared intently at Levi.

They were filled with animosity for him.

In fact, Levi was the enemy of everyone in Zarain.

Back then, he had humiliated all of them.

Therefore, everyone in Zarain hated him by default and couldn't resist tearing him apart.

"Hmm?"

Levi had noticed that The Death Swordsman was holding a broken sword in one hand.

It was the same sword that he had stabbed into the ground at Zarain's border.

The message Levi wanted to convey then was simple. He wanted to leave his mark to show them that they were powerless to stop him from entering their territory.

Bruce forbade the sword from being pulled out so that it would remind everyone of the humiliation.

But on that day, they brought the sword along to be returned to Levi.

They also wanted to demonstrate that they were there to redeem their pride after being disgraced.

"We're here to return the favor by taking your life!" The Death Swordsman proclaimed as he hurled the broken sword at Levi.

Boom!

The sword tore through the air, forming a shockwave behind it.

It was launched with such power that it broke the sound barrier, resulting in a sonic boom.

Chapter 1949

Smiling at Levi, Undead Warrior stood up and dusted the dirt off his body.

"You're fine? Interesting!" Levi laughed.

It seems it's not going to be easy to kill him. He has managed to survive my punch unscathed. He is extraordinary! Even Xenotoph would be grievously injured by it.

"Die!"

Undead Warrior charged at Levi again.

"I think Undead Warrior alone is enough. No matter how badly injured he is, he doesn't feel a thing. Furthermore, his self-healing ability is really powerful!

"The most terrifying part is that he can still fight even if half his body is dismembered. As his pain receptors have been removed, he doesn't feel anything at all.

"Until his body is beaten to mush, he can still continue to fight, not to mention he is able to heal himself speedily."

Bruce let out a smug smile.

That's Undead Warrior for you!

Even if Undead Warrior couldn't kill Levi, he was able to wear Levi down significantly.

The Raysonians were filled with delight.

We now stand a chance given how strong the first person is. Will Levi be able to survive this time?

A fight among elites was usually decided in a split second.

By disrupting Levi's mind, the witch caused him to freeze.

Furthermore, Levi had to be mindful of the assassins in the dark as they were the ones who posed a real threat to him.

However, it was too late.

He had missed the window of opportunity to save Sherrie.

The dwarf samurai and The Death Swordsman were the first to strike.

A samurai sword and two beam swords were about to slash Sherrie into pieces.

By then, Sherrie was close to death and had fallen unconscious, as if she was already dead.

"No!" Levi bellowed all of a sudden.

All of a sudden, his body disappeared in a flash and reappeared right beside Sherrie.

Ugh!

Ugh!

Ugh!

Levi had managed to block the dwarf samurai and The Death Swordsman's three slashes with his own body.

Due to the interference from the witch, his only choice was to shield Sherrie from the attacks.

He hadn't been disorientated by the witch, he would have managed to save Sherrie while successfully blocking the attacks.
