Pinnacle 1961

Chapter 1961

Hundreds and thousands of influential and prominent figures from Goldenport Island witnessed how The Annihilator smashed Levi's head!

Blood splattered everywhere.

"No!" Sherrie bellowed in pain.

Not only God of Gamblers was dumbfounded, but Xenotoph and all the other influential figures were also just as stunned.

What's going on?

Is that Levi, the most powerful warrior on Erudia's Gem List? Did someone actually defeat him? How is that even possible?

Yet, they had to believe what they saw before their eyes.

Without a doubt, Levi's enemy had vanquished him!

As of now, everything went by Bruce's plan. He intentionally instructed The Annihilator to remove the wall so that the entire Goldenport Island could witness Levi's humiliating defeat!

He wanted Erudia and the rest of the world to witness Levi's death so that the image would haunt them for the rest of their lives!

Gamblers and the others did not know what happened before that. They believed The

At this moment, everyone was on edge.

Everyone was breathless, almost suffocating.

God of Gamblers, Xenotoph, Sherrie, and the others were waiting for a miracle to happen!

"How cruel! To kill a person and destroy the body!"

They couldn't stand to watch Levi's body torn to bits.

Especially for Sherrie!

For her, it was agonizingly painful to watch!

At that moment, even Bruce was highly strung out for some reason. Both his legs were trembling, and his teeth were chattering.

His instincts told him something wrong would happen when they destroyed Levi's dead body.

But he had to witness the destruction of Levi's body to attest his death. Otherwise, he would not believe that he was dead, and he wouldn't be able to sleep and eat well.

The beam of light condensed on The Annihilator's hands gradually reached Levi.

Zap!

The light beam enveloped Levi, disintegrating his body bit by bit.

Levi's corpse unexpectedly reappeared again.

The bloodstains disappeared, and his corpse manifested.

Jaws would be dropped if anyone were to witness this.

How was it possible?

Was everything that happened fake?

Yes!

It was all fake!

What everyone saw was an illusion conjured by the Half Phantom's magic to tamper with everyone's consciousness!

The scene where Levi was disintegrated was indeed an illusion!

Not only the audience was affected by the illusion, even The Annihilator was affected without exception.

He thought he was disintegrating Levi's corpse, but it was all fake. They were all hallucinations fed into his mind.

However, his mind was too powerful!

To tamper with his consciousness and produce hallucinations, the Half Phantom had to use his most potent spells along with their most significant efforts to deceive him.

Levi couldn't be alive!

It was confirmed by Bruce, The Annihilator, and the Half Phantom!

Now that Levi's corpse disappeared, the only plausible explanation was that his body was collected by someone else.

"Just keep the body safe!" The Half Phantom sighed and left.

In the past few hours. The people of Goldenport Island, including the influential individuals, were shocked to the core. It was as if an earthquake had happened.

Levi, the number one on the Erudia Gem List, had fallen on the island!

He was beaten to death and had his corpse disintegrated in front of the eyes of thousands of people.

The incident was appalling, and everyone was overwhelmed by it!

Not only that, but all parts of Erudia quickly learned about the news.

The Annihilator became Zarain's superhero after appearing in public for the first time, and the one who benefited the most was Bruce!

He received a generous reward for killing Levi.

Initially, he was just a spokesperson for the Lab of Gods, an individual of a lower hierarchy.

But after killing Levi, he was promoted to be one of the core members of the Lab of Gods.

He obtained the right to access multiple training bases of the Lab of Gods and mobilize ninety percent of the equipment and labor of the Lab of Gods.

Bruce had never experienced such excitement.

Because now he could access more fundamental technologies, mysterious secrets and command more powerful people, not just The Annihilator.

He could now make use of individuals stronger than The Annihilator.

Having been rewarded heavily by the Zarain, Bruce was not intrigued by the power and wealth. His goal was to become a crucial member of the Lab of Gods.

Levi died, and his goal was achieved. He killed two birds with one stone!

"You have my eternal gratitude, Levi! I would never have thought that I would one day become the core member of the Lab of Gods!" Bruce looked up at the sky and smiled.

Did a shark eat the corpse? Or did someone save him?

No one knew why Levi's corpse had disappeared.

Other than the Half Phantom, everyone else thought that Levi's corpse had been dissolved.

In that case, where did Levi's corpse go?

Everything had an explanation—it was impossible for his corpse to vanish into thin air.

What Bruce did not realize was that a piece of particular information had been leaked on the global dark web: Levi was not killed by The Annihilator. Instead, he had been killed through the combined forces of multiple skilled fighters and The Annihilator had merely taken advantage of that.

They even published the list of experts who killed Levi.

The details of Levi's battle with them were also specified clearly.

It was clear that Bruce and Raysonia's forces were behind everything.

Bruce was utterly shocked.

Who published that on the dark web? They actually know all the details of the fight!

We've already sealed all information, so how did the informant find out? It's impossible that someone from the Raysonia's forces leaked it. So, who is it?

The person even published a lot of strong evidence, making it irrefutable.

This sudden revelation dropped upon them like a bomb, engulfing them in utter panic.

If news about this got out, the entire world would be in chaos.

A look of disbelief appeared on Death Fiend and the other members of the Eighteen Dark Angels' faces.

How is that possible? Bruce watched his corpse dissolve!

"Wait! It's possible that what everyone saw was nothing but an illusion! Isn't Goldenport Island the hometown of Erudia's master of magical techniques? Perhaps, an extremely powerful master has intervened. What everyone saw was merely an illusion!"

Death Fiend suddenly realized what was going on.

"Even if that's the case, how can he conceal it from so many experts? Someone exposed the details of the battle and confirmed that Levi had been defeated."

The Eighteen Dark Angels started discussing amongst themselves.

They concluded that Levi had definitely died, but a master of magical technique might have rescued his corpse afterward.

The Dark Emperor's stately voice sounded again. "The person I've set my eyes on will never fail. However, what surprised me was…"

He paused mid-sentence.

Everyone was even more confused about what the Dark Emperor was trying to say.

Did Levi do something that went against his expectations? No way! It'd be a miracle if Levi's still alive.

However, judging from the Dark Emperor's tone, it sounds like he won't be surprised if Levi is still alive.

Something else has surprised him…

Although he was lamenting Levi's death just moments before, the person was now right in front of him.

It was definitely not a ghost or a figment of his hallucination.

The person was none other than Levi himself!

He's still alive!

Robed Slayer was so excited that he wanted to let out a roar, but he could not make a single sound.

"I can only come to you."

Levi smiled.

The reasons why he came to look for Robed Slayer were simple.

Firstly, everyone knew that Robed Slayer had been poisoned. Even if he managed to survive, his power would diminish greatly. In reality, however, Levi had cured him already. Despite so, he had already faded from everyone's memory. As he was no different from a dead man, no one paid attention to him.

Secondly, Delano, who was associated with the Raysonia's forces, was Robed Slayer's apprentice.

Thirdly, Robed Slayer was influential enough to help Levi.

"That's great!"

Despite the numerous words Robed Slayer wanted to say, everything was condensed into this single sentence.

That's right! Levi is still alive! He isn't dead!

Chapter 1969

Levi had used the Forbidden Technique to hide all traces of himself.

That step was used especially to target the masters of magical techniques.

If someone pretended to be dead, everything would have stopped, including his heartbeat.

To any modern machine or person, he would seem dead.

No matter how one checked him, his death was certain.

However, masters of magical techniques, who were more commonly known as fortune tellers, could detect the person's traces and existence. It was impossible to hide the truth from them.

For example, when Levi could not find Zoey, he thought that she was dead.

However, Wildefield managed to find out that she was still alive because they had left a mark on her.

Zoey was only dead if the mark was destroyed.

However, as the mark was still intact, it meant that she was alive.

The same principle could be applied here.

The masters of magical techniques and the extremely powerful fighters could still detect someone's existence, and thus, whether the person was dead or not.

When Levi heard Robed Slayer's question, he remained silent.

He rolled his sleeves up and revealed his bloody wounds.

"Oh my…"

Robed Slayer was shocked, having understood what had happened.

The scene of The Annihilator dissolving Levi's corpse was real!

Levi had been severely injured by The Annihilator's beams.

The Half Phantom only deceived the rest at the end.

Because what Bruce witnessed at the start was real, he did not suspect anything.

After all, it was impossible for the surveillance footage to be false.

He had merely not seen what happened afterward.

"Are your wounds alright?" asked Robed Slayer immediately.

"They're fine. I'm a doctor, anyway. These are just superficial injuries, so they'll heal soon."

Levi looked nonchalant.
