

10 CHAPTER 10

Aella 1

"Alpha found his mate?" Xavier confirmed, voice lowered but with a hint of satisfaction.

"What does it look like?" Kaden shot back.

"That's great news, they both shouted" heads turned to us, "Sorry," Braz said, scratching the back of his head.

"I came to introduce you guys to her, Alpha will introduce her to the pack personally. Let's continue on our tour Luna"

"So soon, I want to spend time with my Luna" Xavier whined.

"Go spend time with your mate mutt" Braz retorted.

"Not my fault no she wolf is willing to mate with you" Xavier stuck out his tongue at him.

They began bickering, "back to normal I see, let's continue Luna" I nodded and followed him as he led me out.

"Will they be alright?"

"Yeah, they bicker a lot but they're also closer to each other than anyone."

"Ohh," I nodded

"The pack house is made up of 4 floors generally and 18 suites, one general dining room, a general lounge which you just saw and a general kitchen." He introduced as we walked towards a stair case.

"Okay, I nodded."

"The omegas and unranked wolves stay on the ground floor, the soldiers take the second floor, the Beta, Delta and Gamma stay on the third floor with our families, it has about 4 different suites. And the Alpha stays on the fourth floor alone—with you now you're here."

"How big is it?"

"Quite big, it has a library, kitchen, lounge, game room, living room, dining room, the Alpha's office and 6 bedrooms."

"That massive?" I gasped

He only chuckled, and led me to what looked like a garden, where a group of ladies sat around each other, chatting and giggling.

"What'sup Kay, who's the newbie?" A beautiful blond asked, her eyes the same shade as Kaden's, she wore a crop top that stopped right below her breast paired with a mini skirt and knee high boots. Her slim waist and figure

made me subconsciously twitch as I looked at my own body.

"Luna, this is Karen my twin sister, Karen this is Eros mate and Luna, Aella" Kaden introduced.

Her kind gaze instantly turned hostile, "Luna?" She through gritted teeth, "yes" Kaden confirmed, oblivious of the change in her demeanour.

"Hi Luna, I'm Karen, Eros childhood friend. Glad to meet you" she stretched her hand, I took her hand, she smiled through her teeth as she squeezed my hands, applying more pressure when I didn't react.

Great, already have an enemy, way to go Aella, I cursed my luck. Having spent years facing Lilith's two-faced attitude, I would be a fool not to be able to tell when there's concealed hostility around me.

"Great, Karen take her to the ladies, take care of her, I'll be back in a jiffy, excuse me Luna" Kaden left before I could reject his offer to leave me in this den of vipers.

"Bye Kay" Karen said sweetly.

Her smile dropped as soon as he left, she sized me up and down before returning to her clique of friends. I followed from behind, not

wanting to be left standing in the middle of a garden.

Getting under the shade where they all sat, they threw me dirty glares, just like I had received from my old pack. Karen sat in between two she-wolves, the other two sat at the other couch, making it five she-wolves.

Ignoring their glares, I decided to sit alone and wait for Kaden to come pick me up, they don't look like they needed an extra friend.

As I tried to seat, a leg kicked the chair out of the way, making me land on my butt, giggles rang out. I grimaced as I stood, rubbing my sore butt.

"Sorry Luna, we just wanted to save the chair from being crushed under you" a sickly sweet voice said.

I glared at them, not wanting any more troubles, I turned to leave, ignoring them "with that weight, she can't even compare to Karen" one of them snickered.

Remembering Abuela's advice about letting people walk all over me, I realized that I had to put an end to it, there's no running away from bullies.

I smiled "I may be fat, but I am still your Luna, last I checked your place is at my feet,

don't make me use you as an example to show your friends over here what it means to respect their Luna" I said in one breath, her face paled visibly, my words shook her to the core.

"You're not worthy of being our Luna, why not crawl back to whatever hole you crawled out from, Karen will be a better Luna than you." The red head beside Karen said,

"That's right, don't think you can threaten us, Karen is Alpha's childhood friend. Who do you think the Alpha will choose between you two, do us all a favour and scram."

Karen watched, sipping a drink, saying nothing, like she was a mere spectator.

I laughed, "Childhood friend, not Luna. She'll always remain a friend, there's nothing romantic about friendship. I'm his Luna, nothing can change that,"

I finally understood why they were hostile without even knowing me, turns out little miss childhood friend has a crush on my mate. One mate has already been stolen, I'd be damned to let another she-wolf take my mate from me.

Karen's face darkened at my words, she rose to my level, "You're not welcome here, scram back to wherever you came from" she growled baring her fangs at me.

"MY MATE brought me back, you have an issue, take it up with him" I replied.

"Shut up" she barked, fury rising in her eyes.

"What? Don't want to hear all about how I met My Mate or how sweet and tender he has been?" I taunted her.

"I said shut up!" Her eyes turned yellow, she wrapped her hands which has elongated to claws round my neck

I held her hand, trying to pry it away from my neck, but that only seemed to infuriate her even more. She flung me into the garden, bile rose up my throat as I crashed hard against the floor.

"Is that all you've got?" I teased, her upper body fully changed now, as she advanced at me.

"Hey, Karen, calm down." One of her friends called out, fear evident in her face

But Karen only advanced towards me, far beyond reason now, I crawled back, cursing my lack of wolf.

"He's Mine, Mine" she growled, leaping into the air she transformed fully as she landed with a thud right on my body.

Was I going to die before I enjoying life with my mate?

"He'll never be yours" I spat out a mouthful of blood as I whispered just enough for her to hear me.

My words seemed to ignite her fury even more as she bared her fangs and attacked.

"Eros!" I screamed internally, shutting my eyes
