

36 CHAPTER 36

The voices only got louder, almost like an argument, what was happening out there? 1

The door burst open, followed by an angry looking Eros, "Baby girl," he sighed in relief immediately our eyes met, like he had been waiting for a long time.

"Eros" I yelped as he lifted me from where I lay without any words, he looked really furious.

"Alpha I..." a look from Eros shut Celeste up, guilt was written all over her face. What was going on?

Eros carried me all the way to our room, his musky scent washed all over me, I buried my face in his chest, taking it in.

He dropped me gently before leaving to freshen up, he was still in his outfit so it hasn't been long he came back if I'm not mistaken, was he angry?

I lay on the bed waiting for his return. He changed and came out in a fresh outfit, but he still didn't say anything, just moving around the room acting like I didn't exist.

I went to him, hugging him from behind

"I've missed you" I murmured

"What do you want, Aella" his voice sounded gruff

"Are you mad at me?"

"What do you think?"

"I just want to know,"

"Do you know how scared I was when Eden felt you in danger? I thought I lost you again and I wasn't even there to protect you, only to discover that you actually set yourself up for danger" he snarled

"I'm sorry, don't be mad at me. I just— something was wrong with Ava, she wouldn't tell me, I had no idea I would end up meeting Ursa instead.

The air dropped by several degrees, "you met Ursa? What the heck were you thinking? Did she hurt you?"

"Yes. No. Almost did."

"Explain."

"Sigh. You'll need to sit to hear this," I led him to sit on the bed, I sat beside him and began narrating everything I had seen today.

He fell into deep thoughts when I was done

with my story, we sat in silence for a while as he seemingly processed the information I had just passed across.

"Good."

I felt dumbfounded hearing it, "you think it's good?"

"I meant that at least we know Zareal is alive, we just need to find her and take her away from whoever the figure you talked about is. It's most likely that she is being manipulated."

"Yes."

"Good thing Ava pulled you out, but next time try not to put yourself in situations that can get you killed, always talk to Aragon, can we agree on that baby girl?"

"It's not like I deliberately wanted to get myself killed," I muttered.

"What did you say?"

"That I definitely will" I smiled widely

He shook his head and pinched my nose.

"How's your training coming along?"

"Not bad. Aragon says I'm almost ready for our bonding, it shouldn't take time for us to go

on a ride"

"what of the trick I taught you?"

"worked like magic, Antares couldn't believe his eyes when I swooped his ass to the floor"

"Atta girl," pride shone on his eyes, "what do you want as your reward?"

My heart swelled joyfully, I closed my eyes, puckering my lips expectantly, I waited for two minutes and opened my eyes when I didn't feel anything.

He was looking at me with a heated gaze, "kisses are for good girls doll, you've been a bad girl"

"What? No" I whined.

"That's your punishment, no kisses for you, for now."

"That's unfair,"

"Show me what a good girl you are and maybe I would reconsider" his eyes darkened, his gaze heated

"Maybe I don't want to be a good girl" I shot back, biting my lips.

"Fuck, don't do that" he groaned

"Don't do what?" I asked innocently

"You know exactly what you're doing, my mini devil." He nibbled on my lips

I groaned, damn I've missed this feeling.

"Will you be a good girl for me doll?"

"Ye..." my breath hitched, the words stuck in my throats, his hand slipped into my breast, grabbing them and squeezing hard.

A moan left my lips, his scent was driving me insane, I could smell his pheromones, "fuck, you're driving me crazy, he mumbled against my lips"

"Tell me about it" a groan left my lips

"He helped me remove my clothes as his hands moved to my clit and soon I was already a moaning mess, unable to think properly.

"Take me," I blurted out

He froze, "what?"

"I said take me, I'm ready"

"Aella, you..."

I straddled him, planting wet kisses down his neck, sucking on it softly, while rocking myself against his cock, "I know what am

asking, take me"

"Your wish is my command, princess" A sharp glint passed through his eyes.

He lifted me then carried me to the bed.

(Yes they did the boomboyayah)
