

37 CHAPTER 37

"Ugghhh, close the curtains" I groaned tiredly, rolling over to avoid the bright lights. 1

"Time to wake up Luna" I heard Lily's voice. Did I fail to mention that she was also my hand maid, one that was becoming increasingly annoying now.

"Go away Lily" I threw a pillow at her.

"Nice try, but it's already 2pm, unless you plan to spend the whole day in bed, I suggest you get up"

My ears perked at the words "2pm???" I shot up.

"Yeah," she hummed.

"I've been asleep for twelve hours" I gasped

"Apparently. Alpha said you couldn't be disturbed, so I left you to sleep—is that Alpha's mark?" she gasped, pointing at my neck.

I acted quickly, covering my neck with my hands, "stop spouting nonsense" I shot at her

"Nonsense huh" she giggled suggestively, "don't tell me Alpha kept you up late" she joked.

I felt my cheeks heat up, "don't you have other things to focus on?"

"You're my focus, oh my world you're blushing" she shrieked

"Ughhh, keep it down" I groaned, damn you Eros

She kept mumbling incoherent words to herself, like she always does whenever she wanted to connect dots, I sighed, I knew what was coming.

"You lost your virginity last night" she screamed

"Stop screaming," I mumbled.

"I'm so proud of you, what was it like? No how was it like, are you feeling any pains— gasps, Alpha marked you" she giggled excitedly

I blushed furiously, "stop asking"

"Awwwn, my baby is shy. I need to tell the others. Wait, that means we have to start planning for your official mating ceremony, I'm planning a Luna's ceremony?" She asked herself, unsure

"You need to calm down lily. And no, I don't feel any pain, although my body is aching,"

"Wait here I'll get you some balm"

I nodded then she practically ran off. Trying to stand, I hissed, it wasn't really strange that I couldn't feel the pain from our activities, Ava must have healed me.

"Fuck you Eros," I cursed under breathe, he had refused to let me go until the early hours of the morning, wrenching every bit of orgasm he could from me.

"Like you didn't enjoy it," Ava chirped.

"Good morning to you too," I greeted, she merely rolled her eyes before lying back down lazily.

I shook my head at her insufferable nature.

Mustering the strength I could, I headed to the shower to freshen up. I came out to meet Brianne and Lily engrossed in whatever conversation they were having.

"What are y'all gossiping about?"

Their heads snapped to me "We didn't hear you come—woah you're glowing"

"Figures, I just showered"

"No, literally. You're glowing" Brianne dragged me to stand in front of a mirror, "see

for your self"

I gasped, the figure in the mirror stared at me with ice blue eyes, long silver hair and a glowing neck.

"Ava, why is my neck glowing?" This better not be another one of the weird prophecies cause I'm so done with them.

"I don't know" she replied

"You're meant to know,"

"I'm not all knowing, Aella, sometimes I don't know things either."

A corner of my neck began to itch, followed by a sharp searing pain "Ahhhh" a scream tore through my lips, it felt like thousands of pins were pricking me.

"What's wrong" Brianne and Lily rushed to me

"I don't—Ahhhh" Another scream rippled through me, I clutched my throbbing neck tightly, it felt like something was crawling across my skin.

"Aella, Aella, talk to us, what's going on?" I could hear their worried voices but I could barely make out what they were saying.

"Steady your breath Aella," I heard Ava's voice through the haze, I forced myself to steady my breath, finally the pain stopped, I looked up to see their gazes fixed on my neck, their faces pale like they'd seen a ghost.

"Is there something on my face?" I turned to the mirror wanting to see exactly what was wrong. "There's nothing here, why are you guys looking at me so weirdly"

"Aella, your neck" Brianne said.

I turned back to the mirror, examining my neck, "wow" I mumbled, right beside Eros crescent shaped mark was a tiny star with a fire mark in it.

"Ava what does this mark mean?" I asked

"It represents who you are. The child of prophecy, Zorya" she replied quietly.

"It's beautiful" Lily giggled, "you look quite stylish with it Luna"

"Thank you"

Brianne didn't share in our enthusiasm, she had a serious expression etched on her face, "what's the mark for?" She asked coldly

"Ava says it's a mark of the prophecy, something about my identity and all that.

She nodded "Alright. How are you feeling now? You almost scared us"

"I'm fine. Sorry about that. Where's Eros by the way?"

"He's with Braz, Kaden and the others."

"Braz" I gasped, how had I forgotten the most important discovery from my journey, the current Braz in the pack is an imposter and spy, the real one is locked up by Ursa. I need to inform Eros.

"Take me to Eros"
