

41 CHAPTER 41

Aella's POV 1

"Cels" I called out, she could hear the worry in my voice, everyone could. Eros caressed my hand that was linked to his, his way of letting me know he was here.

"I'm fine, it's just this thing in my family, where at a certain age, our ancestors speak through the head witch to pass messages across. I'm the last survivor, so..."

"Oh, that's understandable. That means the words of your ancestors is most likely trustworthy then"

"Almost everything they say, either comes to pass or makes sense. So I'll say not to take whatever they told you got granted" Cels shrugged.

"And you don't want to know what she or they said?"

"If it's necessary. I will"

"By the way you said something about Zrael being in danger?" I asked the question on my mind

"Yes, about that" she came to the middle, "I had more than enough time to think about what you saw, you said the veiled figure said something about Zrael trusting her, that means they will be making their moves soon."

"It wasn't a mistake that I went to Ursa's hideout, was it?" I asked.

"No" she lowered her head

Eros growled "How dare you"

"She's our friend, the least you could do was warn her" disappointment shone in Brianne's eyes.

"Why?" I croaked

"I'm sorry," she whispered. "It's no excuse, but I swear I had no idea" her eyes were filled with guilt and remorse

"Don't you dare lie to our faces, we trusted you" Eros snarled, pinning her to the wall in the blink of an eye.

Her face turned pale gradually as she clawed at Eros hands, trying to pry it away, her mouth kept opening and closing, but no words came out.

"Eros," I called out, "you'll kill her" I said softly

"She sent you straight to the arms of your enemy and all am doing is pinning her to a wall, that's less than she deserves"

"Please" I held his hands

"Count yourself lucky" he spat

Celeste fell to the ground with a thud, gasping loudly and inhaling greedily, colour gradually returned to her face.

"Why?" I asked,

"I had no idea. I promise, I only found out after you'd already met her. It was fate, there wasn't anything I could do except wish you well" her voice broke as she spoke.

"I only want to know one thing, did you purposely send me to Ursa?"

"No. Cross my heart,"

"Then how do you explain what happened?"

"One of my ancestors might have a hand in it, but it's still speculations"

"They're lucky you aren't joining them right now." Eros snarled.

"She's telling the truth" I heard Ava's voice

"How do you know that?"

"I can tell dummy, we're not all smart like you after all" she said sarcastically, rolling her eyes

"Avalyne" I groaned

"Aella" she shot back

"It's fine, just give me a warning next time"

"There better not be a next time" Eros snarled, baring his fangs

"Calm down big boy" I giggled

"Not funny" he pouted

"Alright. Moving on" I turned to the others who were seemingly enjoying the entertainment, "we'll be setting the plan in motion"

"Since you guys were born in your formal pack, she might still be there. Why not start from there to look for her" Lily reasoned

"Even Lily is smarter than you Kay," Baxter teased.

"Fuck off" he gave him the middle finger

I paled at the words, going back to the pack, that would mean seeing Crux, Lilith,

Andrea and Beta Andrews who may not be my father for all I know"

"You're not alone anymore Aella, We're going back together and this time we'll put anyone who dares disrespect us in their place." Ava said lazily

I smiled at the words, Eros squeezed my hand, reminding me I still had him, my face brightened. I can do this, I have nothing to fear, not when I have my family with me.

"We can't leave that imposter in our pack if we're to be heading to Moonlight Pack," Kaden reasoned.

"We can't exactly get rid of him either, not without getting Braz back" Baxter chirped

"Someone will have to stay back with him then"

"We'll stay," Baxter and Brianne volunteer.

"Good, then that's settled, you both will move on with the plan then, the rest will prepare to pay a visit to old friends" Eros ordered

"Noted Alpha" they echoed and left

"What's wrong?" He turned me to face him, immediately they left

"Nothing"

"Talk to me baby girl, what's wrong, you looked down back there. Is it about going back?"

"I don't know how I feel about it, I mean going back there and all. I want to see Abuela, I have so many questions, but they also hid the truth about my birth from me." I paused, then continued, "I just don't..."

"Hey" Eros cut me off, I looked up to face him, he wiped off a line tear I hadn't noticed with his thumb.

"You're going to be just fine, we'll find your sister and if anyone stands in your path I'll gladly send them to hell." He stared intently at me

"I know. You're my big bad wolf" I pulled his cheeks.

"And big bad wolves bite, be careful baby girl" he nibbled my ear.

I giggled, my chest feeling lighter, "silly" I shook my head.

"I need to train with Aragon, we need to complete my training before I find Zaraqel, he said something about my training with Zaraqel

as well."

"Right, speaking of, I haven't seen him"

"He spends most of his time sleeping,"

"Lazy Dragon" he shook his head

"Oh please, a dragon has got to have his rest. Don't be a spoil sport"

"He doesn't deserve one, asshole that tried to steal my mate" he grumbled.

"Don't be too jealous, I'm yours" I pecked him, "I've got to go"

I waved at him and ran off before he could respond.
