

45 CHAPTER 45

Finally it was the D-day we were meant to set out, Eros kept to his word and we set out immediately I was stronger and better. 1

We set out after settling everything in the park leaving Baxter and Brianne in charge.

It was just me, Eros, Celeste and Kaden, we decided to stick to only those who knew about the reason we were going, too much crowd was bound to attract attention, which was the last thing we needed.

I had mixed feelings as we approached, Crux was at the pack borders waiting for us, beside him stood Lilith, looking every bit like the Luna she had always craved to be.

She linked her arm to Cruz's Immediately she saw me, I rolled my eyes at her childishness, "still as silly as always I see" I shook my head.

"Alpha Eros, and Luna" Crux greeted us, the words sounding forced, Eros merely nodded in acknowledgement, I just ignored, not interested in small talks.

"Welcome, to my pack, I'll lead you inside

now" Crux muttered and moved to enter, but Eros stopped in his tracks, glaring at Lilith, "looks like your whore lacks manners"

I gasped at his words, whether brightmoon was higher or not, calling a Luna a whore was prohibited and forbidden even if she was a Luna of the lower packs.

Crux shot Lilith a look, reluctantly she bowed, "welcome Alpha Eros"

"I can tell that you aren't blind to not see my Luna" Eros snarled

"Greetings." She paused, I could tell she was having a hard time acknowledging my status as Luna but I stood, head high waiting for the respect due to me.

"Some people never learn," Celeste sniggered

"Maybe you should teach her how to be respectful. She could still learn a thing or two" Kaden replied

"Greetings Luna Aella" she said forcefully, I nodded and followed Eros in, "I thought she was mated to Crux?" I mind linked Eros

"They didn't seal the bond, something happened, but they have been postponing it

ever since you left" he replied.

I smiled, so my sweet little sister was obviously not Luna yet, it felt like the funniest thing I've heard in a while.

Crux led us down the pack, heads turned, tongues wagged, the pack members were surprised to see me, I didn't blame them, I would be surprised if I saw me too.

He took us to the pack house, the same one I was never allowed into back then, now I was led into it by the very man who rejected me.

"The irony of life" Ava said.

"Tell me about it" I scoffed.

Omega's bowed as we passed by, "isn't that the Beta's illegitimate daughter,"

"Shhh. She's the Luna of Brightmoon pack now"

Their whispers reduced at the warning of one of the omega's.

Eros linked his hand to mine, squeezing gently as we walked forward. I ignored the looks from the crowd and the inconsistent looks Crux kept throwing my way

"This is the suite you'll be staying in during your stay" Crux stopped right in front of a door.

Eros nodded,

"Lilith will lead you to your own room" he gestured towards me

"And what gives you the impression that we'll be staying separately? Eros' gaze darkened.

"Someone just lacks basic courtesy, it's no wonder how he has been ruling his pack, considering how disrespectful his members are" Kaden snarled.

"Watch it mutt" An unfamiliar male beside Crux growled.

"what? He can't talk so he sent his personal dog to do it for him?" Kaden shut back

"You..." the wolf pointed at Kaden but was at a loss of word

"Xander." Crux's voice came out like a warning, "pardon my Beta" he replied.

"Excuse mine too," Eros replied dryly, "not that he was wrong, you insult me greatly by even suggesting that my Luna sleeps in a different room from me" He growled,

Crux froze, something that flashed through his eyes, "I just thought...."

"Well, you thought wrong" I cut him off, leaning into Eros, "I will be staying with my mate. End of discussion" I said with finality.

Lilith opened her mouth to speak but one look from Eros shut her up, Crux looked like he wanted to bury me alive, too bad he can't do anything about it.

"Is there any problem here, Alpha?"
Sarcasm dripped from my voice as I locked eyes with Crux.

"No," he muttered,

"Then, if you don't mind, we will like to freshen up"

"Of course, dinner will be served soon"
Crux nodded, moving out of the way and gesturing for us to head in.

"I trust you can get my companions good accommodations"

"Yes" Crux affirmed, "Xander will handle that"

"But...."

"You will" Crux cut him off

"Yes Alpha." He bowed, "This way" he turned to Kaden and Celeste.

"If there is nothing else, we'll see you at dinner" I said to Crux and slammed the door in his face before he could say anything.

"That's my princess" I turned to see Eros directly behind me, approval and pride shining in his eyes,

"You look like a proud father" I giggled

"Of course, watching my mate out that arrogant ass in his place was so damn satisfying" his hands curled around my waist and pulled me closer to him.

"You just enjoy Violence"

"Only when my baby girl is the one dishing it out"

"Oh please" I rolled my eyes.

His eyes darkened, "darling, what did I say about rolling your eyes at me like that"

"Oops, I forgot" I bit my lips nervously, remembering the feeling of his hands on my ass the last time he punished me for my 'disobedience' as he called it.

"You're talking like you didn't enjoy it" Ava

smirked.

"Shut up"

"You look flushed, are you okay?" his tone did a 360, sounding worried.

"Yeah, just Ava being Ava" I muttered.

"Ohh, don't make me punish you here love, okay?" He pushed my hair back before pressing a kiss on my forehead

"Let's get ready for dinner, I want to see their faces when they realize you're far above their reach"

"Yes" I nodded, "let's show everyone who looked down on me, that I've become someone they could only ever dream of becoming."
