*Chapter 11: This Isn't Right*

Translator: Dragon Boat Translation Editor: Dragon Boat Translation

In the dark room, Lu Ze who was sitting cross-legged opened his eyes. A painful sensation came from his chest covering him in cold sweat.

He didn't really die, but it really did hurt.

He felt his tears were coming out. He died once a day. No, yesterday he died twice. It seemed that from now on, he would die every day.

If this continued, would he be used to death?

Lu Ze felt cold thinking about this. He rolled around on the bed and put the blanket over him.

In this cold world, only his blanket could give him some warmth.

But...

Lu Ze thought about that green wolf and the transparent blades it shot out. That was a wind blade right?

There were even magic beasts. What place was that?

However, no one could answer Lu Ze. He didn't even have a little elf cheat. Wasn't it normal to send a cute, bed warming elf?

This quality of this service was too low, bad review!

Lu Ze sighed. From the looks of that green wolf, Lu Ze was no match for it at all. He should just stay being a rabbit killer.

Although he knew that the wolf would drop great things, his life was more important. Although death wasn't scary, not caring about death is scarier.

That might get addicting!

He would definitely not do that in his entire life! Otherwise, he was a dog!

After making up his mind, Lu Ze didn't think much and tried again. He couldn't sense that dimension indeed. It really did seem to be available once a day?

Lu Ze looked at the time, it was eight. He clearly only stayed in there for an hour or so. Time didn't seem to match.

It seemed he needed to be careful. If he killed a few more rabbits, it would be a few more orbs.

After learning the rule of going into that strange dimension, a small faint red orb appeared in Lu Ze's hands. He put it in his mouth and started cultivation.

The orb carried intense heat as it entered his mouth. Lu Ze frowned and began refining his skin.

Soon, an hour or so later, he finished devouring the light orb. Lu Ze took out another and continued.

After devouring the third light orb, Lu Ze felt that his skin grew very tight. Each skin cell emitted a faint glow. His flesh and blood were completely different from before.

He opened his eyes and looked at himself. He was covered in a thick layer of grime. The disgusting smell made him want to puke. He quickly got up and went to the toilet and took a shower.

Lu Ze finally remembered to shut the door this time, fearing Lu Li would come in again.

After the shower, Lu Ze saw that his skin became very nice.

His mouth spasmed. If he went to school with this skin, people would forcefully watch him.

Those girls would definitely admire his skin right?

He was in despair. Should he cover himself tight before going to school?

But soon, Lu Ze shook his head and stopped thinking about it.

Even Li Erhou who sat next to him didn't notice his skin becoming whiter today. He wasn't even noticed in his class, much less the entire school?

He shouldn't think too much of himself.

He returned to his room and began his cultivation again.

It was only 11, the night was still long. The constant feeling of getting stronger soon mesmerized Lu Ze. After devouring the light orbs, he had a lot of stamina.

After eating another light orb, this time the scorching energy didn't just flow on his skin but towards his blood and muscles.

A light piercing pain with a scorching feeling made Lu Ze frown. He didn't move and kept refining his body.

Light orbs were devoured one after another. The sky outside the window began to light up red. Birds were still chirping.

Lu Ze opened his eyes and spat out clotted air.

It was then 6 am. After he reached perfection for skin refinement, his devouring speed grew faster. In around seven hours, he devoured 12 orbs, but his muscle refinement only reached halfway.

It was just one level higher but the use of light orbs went higher multiple times. He still had 20 or so light orbs left. It seemed he wouldn't be able to finish tendon refinement with that.

His body was once again covered in some grime. This time, there was also yellow oil and fat. It seemed a bit disgusting.

He got up and dashed out of the room into the toilet. He locked the door and began showering. This was done rapidly. Lu Ze was a hygienic kid.

Just when Lu Ze was singing and having a bath, the sound of doorknob turning came. However after realizing the door was locked, a sleepy voice said with some helplessness, "Lu Ze, since when did you love showering that much?"

Lu Ze smiled and said, "Showering can make the skin smooth like milk. It can attract more girls."

"..." the voice at the door fell silent as though shocked at Lu Ze's shamelessness.

Moments later, Lu Li said, "Smooth like milk. That wouldn't be attracting girls, it would be attracting guys. You definitely have some unfathomable intention towards Shen Feiyang."

Lu Ze's mouth spasmed as he said furiously, "My stupid little sister. It seems you don't understand how strong your brother is! Let's fight soon!"

Lu Ze asked to spar as he felt he got much stronger. He might not be able to beat her but he wouldn't be in a bad situation like yesterday.

Lu Li's signature soft voice sounded, "Then, Li will wait and let brother show Li his power."

Lu Ze sneered, "Hmph, no need to talk that much, you just wait!"

He finished the shower and quickly changed clothes before going out. He said to Lu Li, who was still wearing teddy bear pajamas, "Hurry up and shower. I will wait for you at the training grounds!"

Then, Lu Ze left. His steps were smooth and dominant.

Seeing this, Lu Li smirked and narrowed her eyes. "Stupid Lu Ze, confidence overload? It seems little sister needs to let him know he needs to obey his little sister.

Coming to the training ground, Lu Ze's face was serious. He began to warm up. He first practiced the basic fist technique and movement technique.

After more than an hour of fighting, his martial arts technique improved even more. His foundational fist technique was about to reach an experienced level.

His battle with Lu Li soon might bring him to experienced mastery.

Moments later, Lu Li changed clothes and came to the training grounds. Lu Ze stopped his warm-up.

Lu Li smiled, "Brother seems very confident today."

Lu Ze smirked, "I have power, of course, I'm confident."

Lu Li flicked her long hair and smiled, "What a coincidence. Li is very confident today too. I just broke through to level 8 last night."

Hearing this, Lu Ze's face froze: ???

This wasn't right!!

This kid was a year younger than him, but her cultivation level was twice his??

He really didn't belong to this family. The talent difference was huge.

According to Lu Li's speed, she can break through the martial warrior state before her final exams and bring spirit chi into her body and reach spirit martial state. This was reaching the requirement for the application of Federal University.

*Chapter 12: Unbelievable*

Translator: Dragon Boat Translation Editor: Dragon Boat Translation

Just when Lu Ze's smile froze, Lu Li's soft voice said, "Seeing how brother is so confident, Li won't hold back."

"Wait!" Lu Ze quickly called.

Lu Li smiled at Lu Ze. Her crystal eyes showed some confusion, "What's wrong? Li really wants to see brother's manly side."

Lu Ze's mouth spasmed.

He was planning to pretend that he had a stomachache, but now that Lu Li said such, he couldn't use that excuse.

He forcefully brought up his chest, "You're just level eight, I'm not worried at all!"

Since he had decided to fight, Lu Ze didn't think much. His eyes focused and his power emanated. A faint white glow appeared on the surface of his body. He was into battle mode.

Lu Li saw the white light and her eyes opened wide, "You..."

She opened her red lips and pointed at Lu Ze. She couldn't speak.

"What's wrong?" Lu Ze asked in confusion.

"Emitting white light. This is only achieved by reaching a perfect refinement state for a small level!" Lu Li's gentle smile disappeared. "What happened? Don't you know? You're only level four. How is this possible?"

Lu Ze saw her shocked look and immediately his mouth raised up, "How is it? You didn't expect it right? Your brother is a prodigy."

Hearing this, Lu Li took a deep breath. Her chest went up and down. Moments later, she finally collected herself as she put a smile back on and said, "I am a bit shocked. Perhaps, brother really is a prodigy, but..."

She also showed some white light on her body as she smiled, "Li's six bowels have also reached perfect refinement."

Seeing the white light show on Lu Li's body, Lu Ze's smile faded slowly.

Fuck!! Fuck!!

Lu Ze felt despair. Lu Li reached level eight and perfect refinement for six bowels. She completely relied on herself. Lu Ze could only admit defeat to such talent.

At the same time, Lu Ze was thinking that after his graduation trial, he would give some light orbs to Lu Li too. At that time, she would definitely become much stronger with her talent.

But now, Lu Ze felt despair. He thought he was fine, but now, he realized it was all wrong.

Outplays didn't exist!

Your sister was still your sister.

But Lu Ze had his advantage. The perfect refinement for each small state had different effects. Skin refinement greatly increased his defenses while the six bowels brought better stamina, recovery, and immunity. They weren't fighting to the death. At least, Lu Ze felt he would be able to take more of a beating than yesterday.

Such small aspirations. He just wanted to be able to take a beating. Lu Ze wanted to cry.

"Brother, Li is going to attack."

Then, Lu Li dashed. Her black hair danced as her body shot through the air at Lu Ze.

Her white hands brought a chi wave towards Lu Ze's chest. Her power was strong and her speed was faster than yesterday. Clearly, she planned to give him a beating again.

Lu Ze moved his feet, his left elbow struck horizontally towards Lu Li's wrist. Lu Li smiled. Her palm turned to a claw and grabbed Lu Ze's elbow. Then, her wrist shook and Lu Ze felt he was flying.

Dang!

Lu Ze was brought up by Lu Li with one hand and smashed onto the ground heavily.

Lu Ze's chest felt heavy, it was a bit painful. His ribs seemed to have cracked open. His defenses weren't strong enough for such attacks.

"Again!"

Lu Ze got up and grinned at Lu Li who stopped to smile at him.

There were gene serums anyways. He would recover.

He needed to quickly breakthrough to experienced mastery for the fist technique. If his movement technique could break through to completion, it would be even better.

Thud!

Thud!

Thud!

Lu Ze fell to the ground again and again and struggled to get up before throwing himself back into the battle. He focused on learning the foundational fist technique and movement technique.

Gradually, his fist technique got more skilled. His movement technique was more agile. Although he was still smashed on the ground repeatedly, Lu Ze was lasting longer and longer.

Half an hour later, Lu Ze laid on the ground. his chest palpitated rapidly. He didn't even have the power to get up.

There was not a single muscle that didn't ache. Did his ribs really break?

Lu Ze's mouth spasmed. Lu Li really went hard.

"Here, serum, can you drink it?" Lu Li came up to him. Lu Ze turned around. He looked up from two long white legs... It was a tight sports shorts at the top.

Pfft, bad review.

If he went higher, it was that busty chest that blocked her face.

Lu Li squatted down. There was also an aromatic sweat from her face. She frowned, "Lu Ze, I'm asking you a question."

Lu Ze raised his hand, but he found that it was powerless too. After all, she threw him from his arm so many times.

Seeing this, Lu Li brought back her hair showing her white side face. She twisted the bottle open and placed it next to Lu Ze's mouth, "Here, drink."

Lu Ze opened his mouth and the serum was poured gently into his mouth by Lu Li. It was sweet and sour, like strawberry yogurt. It was great.

The serum went down his stomach, and his body felt warm. Gradually, Lu Ze recovered some power.

He gasped, "Lu Li, you were too cruel."

Lu Li showed a gentle smile again, "But brother improved a lot, right? It's all due to Li's work. You need to thank Li."

Lu Ze's mouth spasmed. Every time she had some evil plan, she smiled like this. No matter how pretty her smile was, she was still a demon.

He really didn't understand how she concealed her true self in the school for this long. How did people not see through this?

This was unbelievable!

Half an hour later, Lu Li showered and changed clothes. Lu Ze finally felt he had the strength to walk. He got up slowly and washed before changing clothes and going back home.

Lu Li who came back first was already eating breakfast with their parents. Lu Ze walked over and sat down.

"Good son! I heard Li say that you've made huge progress these two days?" Fu Shuya asked.

Lu Ze got dazed and glanced at Lu Li before nodding, "Yes, some improvements."

Lu Wen's eyes lit up. The middle-aged handsome man showed a sly smile and patted Lu Ze's shoulder. "Good luck, get into Federal University. I'm telling you, it is full of beautiful girls... pff..."

Lu Ze looked at Fu Shuya who instantly subjugated Lu Wen shakily.

Oh my god, that was scary!

"Good boy! Just work hard on your own accord. Don't give yourself too much pressure. Don't listen to your dad. Being happy is the most important." Fu Shuya smiled.

The businesswoman outside was just a spoiling mother at home.

Lu Ze looked at his parents. His eyes flashed as she said, "I will work hard. I will show you that I can get into Federal University."

## *Chapter 13: Huge Loot*

Translator: Dragon Boat Translation Editor: Dragon Boat Translation

After making up his mind to get into Federal University, Lu Ze worked even harder in cultivation. During the day, he would practice martial technique, and at night, he would go into the hunting dimension to kill rabbits for light orbs.

He found that in the hunting dimension, there were many different animals other than rabbits and green wolves. There were huge golden eagles that had wingspans of over ten meters. There were also two-meter tall flaming red lions.

He found sadly that the rabbits were the bottom of the grassy plain food chain. Meanwhile, his level was about the same as the rabbits.

Every time he went into the hunting dimension, he never stayed for more than two hours and would encounter other powerful animals. After some fancy struggling, Lu Ze would die on the spot.

However, his power was steadily increasing in the life and death dangers. In just seven days, his martial warrior level four refinement was perfected.

His muscle refinement was in perfection. His muscles were abnormally lively. They emitted a glow. His tendon refinement was perfected, and his major tendons actually turned golden, emitting a faint golden glow. His bone refinement had reached perfection. All his bones were smooth like jade artifacts.

His foundational fist technique and movement technique had all reached completion. With just one opportunity, he would be able to reach perfection. By then, his control of power would become extremely great. He would be able to use every ounce of power at the tip of the blade.

In the hunting dimension.

It was still the same grassy plain. Although rabbits were completely no match for Lu Ze now, and he could kill the huge white rabbits in one second, other monsters were something he couldn't mess with.

He could only continue being a rabbit hunter.

Lu Ze looked dazedly at the two rabbits that weren't far ahead. One was completely black, and the other one was completely white. The black rabbit was worth three light orbs. The white one was about the same size as the first rabbit he saw.

Most importantly, the two rabbits were stuck together and rubbing against each other.

Lu Ze was completely shocked and felt very hurt.

On this bright sunny day, these two rabbits were publicly displaying affection like this?!

This wasn't right!

Lu Ze was planning to carry out justice.

He suddenly burst up from where he hid. Before the two rabbits could react, they were killed with two punches.

Lu Ze looked mercilessly as the two rabbits' bodies turned to dust as he sneered, "These days, even rabbits dare to do this. They're asking to die!"

He picked up five light orbs. Then, Lu Ze noticed that there was a huge cave not far in the grass.

The cave was one meter wide but Lu Ze could easily go in if he bent down. He looked at the ash on the ground and then the cave while thinking, "Was this the rabbit hole? Should he go and see?"

As his cultivation level grew, Lu Ze needed more and more of the light orbs. Now, he would use ten orbs in just an hour. One night, he would use 80 orbs. Meanwhile, rabbits only gave so much.

If it was a rabbit hole, there should be quite some rabbits, right?

Lu Ze still decided to go in and see. After all, it was very dangerous outside, and he might encounter a powerful animal that would slap him to death. He might as well check out the rabbit hole.

Thinking about this, Lu Ze bent over and went in.

The rabbit hole was very curved and dark. If his cultivation level didn't grow as well as his eyesight, he would probably just have to bump around.

After going in a hundred meters, Lu Ze felt the space before him was getting huge. He held his breath, and he quietly got closer.

In this dark environment, Lu Ze stuck his head out from the tunnel. He saw that there were about a few hundred square meters of space in the hole. Inside were full of huge rabbits. There were more than a hundred of them.

There were still a few other tunnel entrances on the side. Lu Ze guessed it was to other caves or exits.

The cunning rabbit has three holes. The rabbits in here should be smarter than the ones on Earth. They should have this habit too.

Just when Lu Ze popped his head out, a few huge rabbits vigilantly raised their ears. They looked up and stared at Lu Ze with their blood-red eyes.

Lu Ze immediately walked down and held his breath not daring to breathe loudly.

Oh my god. This rabbit was as big as that green wolf. This was scary.

However, he didn't know if they were as strong as that green wolf.

Even now, Lu Ze would still be instantly killed by that green wolf. If the rabbit was that strong, he would be in danger.

At this moment, there was a rustling sound behind Lu Ze. The sound was getting closer and closer.

Lu Ze's heart went cold; there were rabbits coming back.

The tunnel was about 1.5m tall. Lu Ze turned around and saw there were two rabbits happily bouncing over.

When they saw Lu Ze at the end of the tunnel, they immediately stopped and studied this unknown organism with red eyes.

Lu Ze's eyes went cold. He kicked and dashed at the rabbits. He chopped at the front rabbit's neck.

Crack!

The rabbit's neck cracked. Lu Ze didn't stop and kept chopping at the rabbit behind.

"Gu Gu!"

Lu Ze was too fast and the second rabbit was killed without resistance. However, it made a sound before being killed.

Fuck!

Lu Ze's mouth spasmed. He picked up the six light orbs and wanted to run but there was already the sound of furious rabbits from behind him.

At that moment, Lu Ze suddenly stopped.

He checked around. The tunnel was very narrow. The height and width were about 1.5 meters. Only one rabbit could fit through.

Lu Ze's eyes flashed. He retreated a few steps and stopped at a corner.

Soon, a rabbit chased over from the corner. In this dark environment, Lu Ze could no longer see the color of their fur. He could only see their size and their blood-red eyes.

Lu Ze's eyes went cold as he attacked with full power. As soon as the rabbit made the turn, he punched its head killing it.

Next, it was another. Lu Ze did the same and killed in one strike.

Soon, the rabbits couldn't even issue warnings and fell to Lu Ze's punches. The dust on the ground piled up. Lu Ze killed as he collected the light orbs.

3, 5, 10...50... A huge loot!

*Chapter 14: This is a Rabbit Monster*

Translator: Dragon Boat Translation Editor: Dragon Boat Translation

While collecting all the light orbs, Lu Ze raised his lips. This was really a good place.

Soon, Lu Ze got more than a hundred orbs.

At this moment, Lu Ze noticed that it was the turn of the super-sized rabbit at the corner.

This was a rabbit the same size as the green wolf.

At this moment, Lu Ze had no retreat. If it came out, it would remind the rabbits behind it that the rabbits before were killed before getting out.

His eyes flashed, and he bounced off the ground using the momentum to punch with his full power.

This punch actually had some ear-piercing sound. It was extremely powerful!

This rabbit was huge, and the tunnel was just enough to fit it. It couldn't turn around.

It clearly didn't expect that it would be encountering a fist when it turned at the corner.

Thud!

Lu Ze's punch landed firmly on the rabbit's head.

The huge power went from the fist and charged into the huge rabbit, knocking it to the ground.

Lu Ze didn't loosen up. He didn't believe he could kill a rabbit this size with just one punch.

While the rabbit was stunned, he smashed punches on its head.

Thud, thud, thud. The sound came non stop and reverberated through the entire tunnel.

The rabbits inside the cave went crazy hearing this sound, but Lu Ze didn't care. It didn't matter now. He would kill this one first.

Lu Ze didn't hold back his power at all. His entire body was vibrant with the white light. All four body refinement stages had reached perfection. His power was on par with an ordinary level eight martial artists.

Five punches, ten, fifteen punches...

Every time the huge rabbit wanted to get up, it was smashed on the ground again. Gradually, its struggles became weaker. Lu Ze's fists never stopped at all. It was like a jackhammer, consistent and lasting!

When the super huge rabbit stopped moving at all, and its body began turning to ash, Lu Ze finally stopped.

He looked down. The rabbit left behind five faint red orbs and a passionfruit-sized faint purple orbs. There were only five red orbs, but they were many times larger than the ones before.

As for the purple orb, this was Lu Ze's first time seeing it.

It seemed extremely mysterious. This made Lu Ze more and more curious about this dimension. So there was also purple, aside from the red ones?

No wonder that rabbit could take that many of his punches. Just looking at the orbs, one would know it wasn't weak.

But soon Lu Ze found that this rabbit was still much weaker than the green wolf.

After picking up the light orb, Lu Ze noticed that the rabbits inside the cave had calmed down but none dashed out.

Lu Ze thought about it and planned to go check it out.

He looked at the piles of ash and turned over. Before he could even see, a huge rabbit claw attacked his head.

If he didn't defend with all his power at the crucial moment, that claw might've taken his life.

Lu Ze quickly dashed and went back from where he came from, disappearing into the corner. This allowed him to dodge the next attack.

Lu Ze dazed. This rabbit was a monster???

It used his tactic against him.

Lu Ze touched his face. It was covered in blood.

The rabbit's claw was very sharp. Even though his skin, muscle, tendon, and bone had reached perfection, it still left a deep mark.

As soon as Lu Ze retreated, there was the sound of crazy rabbits from the cave.

Lu Ze thought for a moment and frowned. He turned and walked outside of the cave.

It seemed he wouldn't get anything by staying here. He might as well leave.

Just when Lu Ze was planning to leave after coming out of the cave, he heard the familiar rustling of grass. A black and white super huge rabbit dashed towards him.

Lu Ze was surprised.

Lu Ze looked at the two rabbits, and his face changed. These two rabbits wouldn't be trying to block him here, right?

What monsters were they? They were cunning rabbits?

Were the rabbits of the interstellar era this smart? They were all this smart?

When the two rabbits saw Lu Ze, they growled and kicked with their thick legs dashing toward Lu Ze.

Lu Ze's eyes narrowed. He dodged the charge of the two rabbits. His fists turned into palm and struck at their neck like a hand blade.

If it was some other rabbits, they would've exploded but these two waved their claws and blocked the palm. They were just struck back a few meters.

As soon as they landed, they charged at Lu Ze again.

Lu Ze also noticed that two more rabbits similar to such came from the cave behind him.

Four against one. Lu Ze felt he needed to leave behind his will...

The four rabbits surrounded him from all directions.

Lu Ze was very calm being surrounded in the middle. He often encountered dangerous situations these few days. He was used to it.

Although he wouldn't really die, the pain of the death and of not being able to hunt after death were huge problems. He definitely must not die. Lu Ze didn't want to die.

Otherwise, he wouldn't still play tricks against the golden eagle that had ten-meter long wings.

Facing such a situation, Lu Ze could only stay calm.

Soon, the four rabbits charged at Lu Ze at the same time. Lu Ze's eyes went cold. He kicked with his right leg and moved to the left dodging three claw attacks. However, one rabbit claw slashed his back.

Blood flowed, but Lu Ze didn't care. His right punch blasted the air away in an explosion and struck the neck of one white rabbit.

Crack.

This cracking sound of bones came, and this rabbit was struck more than ten meters away as it landed on the ground heavily.

The tunnel before was only 1.5 meters high. Despite him using full power, it wasn't his limit.

Now, he could freely punch!

The rabbit fell to the ground and spasmed, wanting to get up wobbly.

Lu Ze smirked. He finally made an opening. The rabbit was dreaming if it wanted to get up.

Lu Ze dashed and kicked the grass mixed with mud into the air.

Using the reaction force, Lu Ze shot out dodging the three rabbits that charged at him again and landed in front of the white rabbit.

Thud! Thud! Thud!

Three punches were made in an instant.

A shallow ditch of two-meter circumference was made below the rabbit. Meanwhile, the white rabbit's neck was completely broken and its body gradually turned to ash.

Meanwhile, the other three rabbits had pounced behind him.

The wind flew with the sharp claws. Before the claws even touched his skin, his skin felt some light pain.

### *Chapter 15: The End of Lu Li's Good Days*

Translator: Dragon Boat Translation Editor: Dragon Boat Translation

Feeling the force of the attack behind him, Lu Ze knew he couldn't dodge it.

He used all his power and emitted this luminous white glow over his body. He employed all the defenses from the four perfect refinement states, ready to take this hit head-on!

Jiang! Jiang! Jiang!

Three metal clashing sounds came. The three forces broke through the defense of his skin, muscle, tendon, and bones. It struck inside his body, smashing Lu Ze and causing him to fly out.

"Cough!" Lu Ze's eyes went cold as blood came out from his mouth.

The power of the three rabbits injured his internal organs. After all, his internal organs haven't been refined yet.

Before Lu Ze could breathe, there was the sound of wind breaking behind him.

He could only force down his injuries while dashing sideways, avoiding the attacks.

Phewph!

Lu Ze stood and looked at the three huge rabbits that stared ferociously while calming his breathing.

A bit strong!

These three rabbits had the same power as a level eight martial warrior. He was fine to take them on one by one, but one against four was indeed a bit hard.

Lu Ze felt the pain in his organs. His stamina was slipping away.

Looking at the rabbits nearing him, he bit his lips and glanced away.

The dead rabbit had turned to dust, and there were five red huge light orbs and one small purple one.

“Gu Gu!”

The three rabbits pounced over again. Lu Ze dashed with his legs towards the light orbs and took all of them. Then, he kept running away.

He raised his middle finger to the three rabbits. “You bunch of bastard rabbits, just you wait!”

He had harvested quite a lot. He would find a place to recover, and then come back for hunting!

Although he wouldn’t die, time was paused outside when he came in. It was best that he stayed for as long as he could.

Seeing Lu Ze run away shamelessly, the three rabbits lifted their ears and chased angrily.

“Shit!” Lu Ze cursed, seeing the rabbits still chasing him.

Why couldn’t we just laugh and let go of the past?

Give up! There would not be anything between us! Stop chasing me!

The four ran across the grass rapidly. Lu Ze was a bit worried. If the three rabbits didn’t chase him, he would be able to find a place to hide, but now that there was such commotion, none of them would be able to get away if a powerful predator came.

Before Lu Ze could finish thinking, he felt a scorching sensation on his left side. Lu Ze’s heart went cold. He turned around and saw a fireball about two meters in diameter coming up to him.

Instantly, he was devoured.

In his room, Lu Ze opened his eyes. His mouth spasmed out of pain.

He was burned to dust by the extremely high temperature. The smell was sour.

It was the fireball of a red lion. Lu Ze once saw from afar that a lion was surrounded by a pack of black dogs with a height of about 1.5 meters. Then, the lion threw a few fireballs and burned all the dogs.

This time, he felt that feeling personally.

Mhm, it was spicy. He couldn't take it.

Soon, Lu Ze recovered. He looked at the huge bunch of light orbs in his mind dimension, and his lips raised up like crazy.

That was all worth it.

He looked at the group of faint red light orbs, especially the two faint purple orbs. He took out one and then ate it without hesitation.

Lu Ze closed his eyes and started to use chi to cultivate. However, he found that the purple light orb turned into a cool chi that went into his forehead. Then, he felt his mental power grow a little.

This made him open his eyes in shock.

He had never heard of anyone being able to cultivate mental power at a martial warrior state.

His mental power was strong because his soul fused with the previous soul. Even so, he still felt it grow a sliver after using this purple orb. If it was an ordinary person's mental power, it would've grown quite a bit!

And, after this cool chi flowed past, it made his brain very clear.

Lu Ze quickly closed his eyes and thought about the foundational fist technique and movement technique. He kept searching for his inadequacies, trying to improve.

When the cool feeling disappeared, Lu Ze found that his foundational martial technique improved by a huge portion. If this happened again, he would definitely be able to reach perfection!

He resisted the excitement in his heart and took out the other small purple light orb and ate it.

The chi flow came again. Lu Ze didn't waste time and began developing his foundational martial technique again.

Gradually, Lu Ze got up. He started slowly practicing in his room.

At the start, every move was rather awkward, but then, it began to flow smoothly. Eventually, his fists changed naturally like breathing.

Even though he slowly stepped out and slowly punched, his figure became extremely fast. His fists made thunder-like sounds in the air.

When the cool feeling was gone, Lu Ze stopped and opened his eyes. His face was expressionless, but his eyes were gleaming. He looked like a master!

But this look didn't stay on for long before Lu Ze cracked open his mouth smiling.

I'm a bloody genius!

Perfection! His foundational fist technique and movement technique reached perfection!

When he reached perfection, Lu Ze realized that all the moves were just the use of power.

Fist could be palm, palm could be fist. Using the most suitable amount of power at the most suitable time was a state of great freedom.

The use of power was art.

If he continued down this path, perhaps he would be able to create moves that could allow the body to use, multiple or tens of times, the power.

Of course, the body might crumple to such power.

The perfection state allowed Lu Ze to have this astounding control of his body's power. Even if his body's power suddenly grew, he would be able to get used to it soon.

On top of that, he would have great efficiency in learning other martial techniques!

The 30-kilometer building started from the bottom. You would only be able to learn high-level math after learning addition, subtraction, multiplication, and division. It was the same logic!

Although Lu Ze was only a level four martial warrior, all his refinement states were at perfection. With how his foundational fist technique and movement technique were at perfection too, Lu Ze was confident he could beat ordinary level eight martial warriors.

Maybe, he could take on level nine martial warriors!

Lu Ze's eyes flashed. It seemed Lu Li's good days were over!

Every time, he was beaten by her. He had no face.

Tomorrow, it was his turn to beat her up.

But then, Lu Ze got dazed. He felt it wasn't good to beat up his little sister.

What should he do?

Spank her?

As soon as this thought arose, Lu Li's gentle smile appeared in his mind. A coldness rose up from the bottom of his heart.

Nevermind, that would cause death!

I'll think about it tomorrow!

Lu Ze's lip raised. He was in a rather good mood.
