

Powerful 571

Chapter 571: That's Because Moonlight Is Strong Enough!

As soon as Yang Yan spoke, everyone looked at each other in bewilderment.

Such a reaction was also within his expectations.

He surveyed the whole area, then continued:

"With the deepening of the war, whether in the Hidden World or the present world, many have already sacrificed. If you can't adapt to this world in a short time, the only path left for you is extinction."

"You are all elites, presumably some of you have already been familiarized before coming here. Now what I can tell you is, learn quickly! The front line needs you, our world needs you."

At this moment, Yang Yan seemed like a Celestial God.

When he spoke, you could hear a pin drop in the square, everyone looking at him with fervent eyes.

After he finished speaking, the square immediately erupted with loud cheers.

"Alright, the opening ceremony ends here, everyone go to your class according to your emblem!"

After Yang Yan finished, he waved his hand, and the huge platform and crowd disappeared completely.

"You, guy, are indeed the most suited to be the director!"

In a room at the back of the campus, Metal Knight looked at Yang Yan and said.

"Bah! Suited my ass. If it weren't worrying about those guys attacking here, I wouldn't want to be a director here!"

Yang Yan said discontentedly.

"Come on! Look at how those little fellows worship you; after hearing your words, they couldn't wait to rush to the front and fight those monsters."

Metal Knight said with a smile.

"Alright, let's not talk about those. Things at the campus still need your attention. You know, Lan'Er and I are only responsible for combat."

Yang Yan glanced at the woman beside him and said.

And at this moment, the woman was teasing a Fire Dragon the size of a microphone beside her.

"I really don't understand why I was assigned to be with you?"

"Look at the Academy in the Second War Zone, it has Zodiac Temples!"

"The Academy in the Third War Zone has Six Demon Guides. Why do we only have the three of us here?"

Metal Knight complained discontentedly.

"That's because Moonlight is strong enough."

The Blue Sky Knight smiled:

"Those guys think Moonlight alone here is enough. The two of us are basically just there to make up the numbers."

"Besides, there are ten war zones and ten academies in this world, and if each one is allocated like this, the number of strong ones wouldn't be enough."

Although somewhat reluctant to admit it, with no outsiders present, Metal Knight finally nodded in agreement:

"That's also true! The population of the Hidden World is indeed too large. After the fusion of Hidden World and the present world, their population has basically moved to the academy."

"And also, many people from the present world have integrated, naturally needing many strong people to manage."

"Otherwise, things would get unruly in no time. We absolutely can't mess things up ourselves, or we're done for."

At this point, Metal Knight's eyes suddenly turned solemn, waving his fist as he angrily cursed at Yang Yan:

"Damn it, isn't this a reason for you two to dump everything on me? Do you know how many people are in this academy?"

"Not talking about those in the science department, just talking about the superpower department, because of your concoction, now the number of people with superpowers is skyrocketing. Increasing every moment, every minute, every second!"

"Speaking of which, our academy has hundreds of thousands of people, that's hundreds of thousands!"

"And this number will keep growing. Can I handle it all alone? Can I?"

"If you two keep this up, I'll apply to transfer to another war zone."

Yang Yan raised an eyebrow, quickly accompanying with a smile:

"Hey bro, don't be like that! I also don't have any manpower! The capable ones should do more work."

"Look, I have ten swords under me; only one is by my side now, all others have gone to the front line to monitor the enemy's movements."

"I can handle going to fight on the front line, but teaching..."

Yang Yan didn't continue, instead looking at Metal Knight with a face showing difficulty.

The meaning was only too clear.

"That's enough, no more nonsense, you two have to help me out, or I'll quit."

"Now, let's talk about the issue of the Exotic Realm guys saying they want to hold an academy competition next year!"

Metal Knight said seriously.

"Heh! Academy competition? Those guys really have some nerve! Can't hold their ground on the battlefield, so they want to show off in another way?"

"After we set up the superpower academies here, those guys couldn't sit still and also started setting up a few academies."

At this point, Yang Yan's expression turned serious.

He didn't say it, but those guys from the Exotic Realm were well aware of human movements, and maybe they had inserted spies among humans.

Although there's a tacit consensus at the high levels throughout the world on this matter, nobody takes the initiative to break it.

Otherwise, one careless move and the entire human alliance could face greater internal conflicts due to mutual suspicion, ultimately benefiting those invaders from the Exotic Realm.

"Actually, the guys proposing the academy competition aren't that bad; at least they're closer to us, looking human-like, hoping for normal contact with humans."

"However, the other groups aren't that simple. Each one is a monster, looking disgusting as hell."

"Honestly, just at a glance, I wish I could burn them to ashes. Forget about normal contact."

The Blue Sky Knight, who hadn't spoken up to this point, couldn't help but chime in.

"Those guys aren't a unified force either." Metal Knight said teasingly, "Just like us, they're enemies among themselves, even in the current situation they still guard against each other."

"Otherwise, if they united, we would've been dealt with long ago. Our priority now is to investigate why they've come to our world."

"Also, regarding the academy competition, we also need to prepare thoroughly."

"A year in the outside, which means we have about ten years here, should be enough."

Yang Yan thought for a while, finally making the decision:

"Speed up training for those guys, starting tomorrow, Lan'Er and I will handle things at the superpower academy, the Science Academy will be in your hands."

"Moreover, you can also pick a few promising ones from the science department to train as managers."

"Okay!"

Metal Knight nodded lightly, and said earnestly:

"This can be done, I'll keep an eye on the Science Academy. You both also need to focus on the superpower academy."

"After all, when they go out they'll be warriors, ready to be thrown into the battlefield's furnace."

Chapter 572: Problem Children of the Preparatory Class

Seeing the Metal Knight quickly adjust his attitude, Yang Yan said with satisfaction:

"Alright, let's leave it at that! We'll talk about everything else once the official term starts."

After speaking, he stood up and stretched lazily, then suddenly added:

"Oh, by the way, the Federation has decided on the name of our academy, it's called Silver Moon. Do you two have any opinions on that?"

"Heh!"

The Metal Knight let out a snide laugh and said disdainfully:

"The people at the Arbitration Committee are just as 'efficient' as always! How long has it been, and we've only just now got the academy's name? No idea what they've been doing!"

In the Hidden World, there's basically no one who likes the Arbitration Committee.

However, they are a necessary existence.

Otherwise, some folks would go unchecked, and the Human Alliance might collapse from within.

"It's good enough that we've got it. After all, what's ten years for us is just one year for the outside world."

The Blue Sky Knight said calmly.

"Alright, let's leave it at that!"

The Metal Knight curled his lips and said indifferently:

"I have no opinions on the name or whatever, as long as they don't interfere with the internal operations of our academy, I'd be grateful."

"Hmm! Silver Moon? It actually sounds nice. But is it because of Moonlight?"

After saying that, he had already stepped out and quickly disappeared.

Due to the short time since the blending of the real world and the Hidden World, this academy is extremely lacking in management staff and teachers.

This isn't just an issue on Yang Yan's side; all academies are facing the same problem.

When Yang Yan returned home, a group of women looked at him with strange eyes, as if they were recognizing him anew.

"What's up? Do I have flowers on my face or something?"

Yang Yan asked with a smile.

"Yo! Our esteemed headmaster is back. Welcome, welcome! I really wouldn't have thought it, you've hidden it so well."

Zhou Hanyu sarcastically broke the silence.

"Did you plan for us to study all along? Why couldn't you just tell us straightforwardly?"

Han Ruyu also questioned him with an expression like she'd been deceived, not letting it go.

"Uh... isn't this not a big deal?"

Yang Yan couldn't understand why these women were reacting so strongly.

"Hmph! Forget it. Until he reflects on himself, we won't pay him any attention."

Zhou Hanyu said, then led Dawn and the other three girls upstairs.

The others also returned to their rooms.

Soon, only Yang Yan and Zhou Hanyun were left in the living room.

"Hanyun, did they take the wrong medicine or something?"

Yang Yan asked Zhou Hanyun.

"I'm sorry! This time Hanyu is right, you really shouldn't have kept this from us. Think it over yourself!"

After Zhou Hanyun said this, she too headed upstairs, leaving Yang Yan stunned and bewildered.

What is going on!

Early the next morning, Yang Yan had already prepared breakfast when the women finally got up and dressed.

Today is their first day of school, stepping into the new world, so they were all somewhat expectant.

Of course, that anticipation turned into coldness when they saw Yang Yan.

They needed to eat breakfast.

But while eating, they still didn't talk to Yang Yan.

Watching them chatter with each other but ignoring him made Yang Yan embarrassed.

He had no choice but to turn his sadness into appetite and quickly finished his breakfast.

After all the women were done eating and headed off to school, Yang Yan looked at the messy tableware and let out a bitter smile.

Normally, someone would clean up.

But now it seems, they've reached an understanding to give him a hard time.

He shook his head helplessly, then obediently cleaned up before heading towards the Superpower Academy.

Due to insufficient staff, Yang Yan also had to take on the role of a teacher.

Fortunately, he had previously taught at Huaxia's Imperial Capital University, so he had a bit of experience.

"Hey! Have you heard? A new teacher is coming to our place today! Though, I'm not sure about their level."

Someone in a preparatory class at the Superpower Academy said to their classmates.

These were just kids, none older than fifteen, the new generation born after Yang Yan successfully developed the Life Reversal Liquid.

Precisely because they were the new generation, Yang Yan willingly came to teach them.

To some extent, it was a bit of an experiment.

He wanted to see if they had any side effects after consuming the liquid.

And to find out how much potential they had for growth.

"Whatever, I really hate this place."

A boy said sleepily, resting his head on the desk.

"Hey, Kalu, can't you have a bit more ambition?"

"You are an Adapt, you need to take on the responsibility of protecting our world in the future."

Beside him, a girl said, somewhat frustrated at his lack of motivation.

"Protect the world? I'm not interested. Drinking that liquid was just an accident."

"Actually, I'd rather laze around outside than feel like I'm in prison here."

The boy named Kalu turned his head and mumbled.

"Haha! That's why you lot will end up bowing to the likes of me."

"Judging by your current state, none of you will make it! None of you!"

Suddenly, a boy jumped on the desk and shouted arrogantly.

"Seriously, Jamie, why are you on the desk? Get down, the teacher's about to come."

The girl who first spoke shouted angrily.

"What are you doing on the desk? Are you imitating a monkey? Hmm! If you lost some weight, it might be impressive."

Just when the boy wanted to say something, Yang Yan had unknowingly walked in.

Hearing his words, everyone was stunned.

Especially Jamie on the desk, who got angry hearing the stranger call him a monkey and angrily questioned Yang Yan:

"Who are you? Do you know who I am?"

Yang Yan rubbed his temples and said helplessly:

"Alright, alright, isn't it just a monkey? You play the part well, okay? Sit down, I'm starting the class."

These kids are all troublemakers!

Sigh!

If not for needing to see the effect of the Life Reversal Liquid, I really wouldn't want to teach these troublemakers!

Dealing with them feels a lot like handling that Little Demoness, Miss Zhou Er.

This feeling is really unpleasant.

Chapter 573: Basic Evaluation

Hearing Yang Yan's words, the students realized that he was the new teacher.

Although they were still in their rebellious phase, they had some reservations about teachers.

After all, this was the preparatory class under the Academy of Superpowers.

Anyone who could teach here must have some skills up their sleeve.

Moreover, they understood the saying that a new leader always makes a big impact initially.

Obviously, no one wanted to be caught in Yang Yan's crossfire.

So, including Jamie who had been standing on the desk, everyone obediently returned to their seats.

Once all the students were seated, Yang Yan wrote his name on the blackboard.

"I assume that before attending my class, you all have studied Chinese well?"

"If any of you are still not proficient in Chinese, you need to head to Hongwen Hall for some thorough Chinese lessons after today's class."

Yang Yan looked at the people below and said slowly.

"Tch! It's just Chinese, isn't it? I had already mastered it by the time I came to this war zone."

Having been reprimanded by Yang Yan earlier, Jamie felt his pride was hurt.

As soon as Yang Yan finished his words, Jamie spoke disdainfully.

He kept his voice low, but Yang Yan heard every word clearly.

"Alright then, since you're already proficient, I won't say more. Since you are different from others, my method of educating you will also be different."

"Next, get ready. We're heading to the Martial Arts Arena for today's lesson. You have ten minutes to prepare. I'll head over there first and wait for you."

Yang Yan finished speaking and walked straight out the door.

When he reached the doorway, he suddenly stopped, turned around, and said to the students inside:

"Oh! By the way, later I will teach you some abilities, so make sure to wear as much clothing as you can."

After Yang Yan left, the classroom full of students exchanged confused glances.

"Hey! Jamie, my Chinese isn't great. What did the teacher mean by 'wear as much clothing as you can'? Are we supposed to wear more or less?"

Hearing the classmate's question, Jamie was also momentarily stunned.

He couldn't understand what that phrase meant either.

What does 'wear as much as you can' even mean?

Does it mean wearing more or less?

Meanwhile, Yang Yan was at the Martial Arts Arena, preparing neither too fast nor too slow.

With him were quite a few people.

They were some assistants from the Science Academy.

They were there to help Yang Yan measure the basic conditions of the preparatory students.

"Lord Moonlight, please take a look at how many levels of testing we should prepare for?"

An assistant looked at Yang Yan with excitement.

It was his first time being so close to a legendary figure, so he couldn't help but be excited.

Yang Yan thought for a moment and said:

"Prepare for level three! After all, they have consumed the Life Reversal Liquid for a short time, and its effects may not be fully realized yet."

Someone beside Yang Yan looked at him and hesitated before speaking:

"Lord Moonlight, I actually think level two should suffice."

"Explain your reasoning!"

Yang Yan encouraged him.

Upon hearing this, the person felt honored and hurriedly organized his thoughts, taking a few seconds before speaking again:

"Here's my thinking. After you successfully developed the Life Reversal Liquid, the Hidden World no longer uses the previous ability classification system."

"Level three is equivalent to the former B-level Ability User. I believe these preparatory students have no real foundation and have not reached that stage yet."

Yang Yan chuckled softly:

"Haha! I forgot to tell you that these students are different from those you've interacted with. They are very special. Very special indeed!"

The people around exchanged looks of confusion, apparently not understanding Yang Yan's implications.

By their academic status, these preparatory students were not formal students of the Superpower Academy and weren't even qualified for the newcomer's ceremony.

In the eyes of these assistants, this group of preparatory students was equivalent to being academic trash.

They were here only because of connections or background, giving them eligibility as pre-students.

Only by passing assessments could they possibly gain the status of formal students.

So when Yang Yan suddenly made such remarks, everyone found it difficult to comprehend for a moment.

Yang Yan paused and then added:

"These students are about to awaken their own superpowers, but we've suppressed them in their bodies through special means."

"Before their superpowers awaken, they were given the Life Reversal Liquid to maximize their potential."

"Therefore, it's incorrect to evaluate them by normal data standards."

"Is that so? I understand now!"

The assistant nodded immediately after hearing Yang Yan's words and quickly went to make preparations.

When they were ready, the preparatory students crowded in.

Someone couldn't help but ask in amazement when seeing the massive Martial Arts Arena and the water-like barriers surrounding it:

"Teacher, are we doing combat training today?"

In this academy, whether in the Superpower Academy or the Science Academy, practical combat training is essential.

This academy exists for the sake of war.

Hence, the Martial Arts Arena is indispensable for practical combat training.

"Not exactly combat," Yang Yan chuckled softly, "I need to test your superpower strengths and conduct some data analysis."

"Only by doing so can I provide you with the most accurate guidance based on your individual situations, fully unleashing your potential for rapid growth."

Seeing everyone wide-eyed, Yang Yan lightly clapped his hands:

"Alright, you can start the testing now."

Suddenly, as if recalling something, he slapped his forehead and continued:

"Oh! By the way, I don't even know your names yet. When you're being tested, please also state your names."

Hearing Yang Yan's words, the students couldn't help but feel exasperated.

They initially thought Yang Yan would have learned their names upon arrival, but he actually didn't know them at all.

This teacher was unbelievably unreliable!

Having such a teacher to guide them made them wonder what the academy was thinking.

It seemed the talk about nurturing elites was all a pack of lies, and they were academic trash no matter where they went.

However, the guy named Jamie had become excited.

He burst into laughter and then started boasting:

"Since it's about testing superpower strength, I won't be holding back."

"Hey! You guys better remember well, I am Jamie, Jamie Green! I'm destined to become a powerhouse like Lord Moonlight one day.

"Haha! You trash can just tremble under my glory!"

Having said this, Jamie swaggered into the center of the arena.

Chapter 574: Surprise

In the middle of the room, there was an object resembling a crystal ball.

This is the superpower testing crystal invented by the Science Department.

As soon as someone uses a superpower to attack this crystal, it can completely display relevant data about the superpower's attributes on the computer beside it.

This invention is considered one of the most practical creations by the Science Department in recent years.

When Jamie stood before this crystal, his hand suddenly lit up with black lightning.

Yang Yan, who was standing nearby, frowned as he saw the black lightning on Jamie's hand.

This guy keeps bragging, but he indeed has reasons to be proud.

"Thunder Roar Cannon!"

Jamie shouted, holding his hands together like a cannon muzzle aimed at the crystal.

Boom!

A black lightning bolt roared out like a laser cannon and shot toward the crystal.

A deafening explosion resounded as the guy blasted a huge crater in the ground.

"Haha! I'm indeed the strongest. Will this crystal be destroyed by me?"

Amidst the rising smoke, Jamie laughed out loud.

"You're overthinking it. This crystal was developed under the full supervision of Lord Metal Knight. Even he can't destroy it, let alone you."

A teaching assistant, unable to tolerate it any longer, glanced at an unresponsive Yang Yan before speaking calmly.

"Oh?"

Hearing the assistant's words, Jamie was momentarily stunned, opened his mouth, and finally stepped aside without a word.

After all, considering their current situation, they were far from reaching the level of a powerhouse like Metal Knight.

"Even Lord Metal Knight can't destroy it? Doesn't this mean basically no one can break it?"

"If we used this material to build houses, wouldn't it be the safest place in the world?"

A female student couldn't help but whisper.

"It depends on who's trying to break it."

The assistant laughed as he explained, all the while checking the computer for various data being collected:

"Lord Metal Knight is a superpower user with physical abilities, and the main feature of this material is its ability to absorb all kinds of physical attacks. So it's normal that even Lord Metal Knight can't break it."

Saying this, he subconsciously glanced again at Yang Yan.

"Okay, the test results are out. Two thousand eight hundred and nine, approaching the strength of a Level 3 superpower user."

Upon seeing this result, the teaching assistants, who were about to have the next preparatory student tested, were somewhat amazed.

You know, this kid is only in his teens!

He's already equivalent to a Level 3 Ability User?

What will be his potential for future development...

Especially being guided by such a legendary mentor.

"Huh? Over two thousand! Is this strong or extremely strong?"

Seeing the reaction of the group of teaching assistants, Jamie regained his composure, asking narcissistically.

"Alright, once you've finished the test, stand aside. What's the point of talking nonsense here!"

Yang Yan raised his eyebrows, coldly said.

Jamie wanted to say something, but for some reason, he finally backed down.

Even though he didn't feel any superpower presence from Yang Yan, that indifferent gaze inexplicably filled him with dread, making him lose the urge to continue causing trouble.

As the tests continued, none of the following preparatory students reached a score of two thousand again.

The best among them was only over one thousand eight hundred.

"Um, my... my name is Qiye."

A girl timidly stood in front of the testing crystal and cautiously said.

"Yes! Understood, start! Try not to be nervous."

The assistant gently said while entering the girl's name into the computer.

"All things turn to ashes! Burn, Flame of Sinram!"

Upon hearing the assistant's words, the girl immediately calmed her mind and began her chant.

With her incantation, a fierce flame suddenly ignited, enveloping the crystal ball like a pillar of fire.

"Whoa! This woman looks so fragile, how can she be so fierce? Did she take some kind of drug?"

Jamie looked at the blazing pillar of fire in astonishment and mumbled to himself.

"Three... three thousand two..."

Beside him, the assistant was in shock as he stood up and said with some difficulty.

"Increase the test level by one more level."

Yang Yan glanced at the ground that had already melted, his eyes flashed with joy, and immediately ordered.

The assistant didn't dare hesitate and quickly manually adjusted the evaluated level.

"My name is Kalu. Can we skip this test? It seems so troublesome!"

Behind Qiye, a seemingly still sleepy boy rubbed his eyes and lazily said.

"If you think it's troublesome, hurry up and finish the test. Then it won't be troublesome."

The assistant looked at Kalu with some disdain.

Compared to the stunning Qiye earlier, this guy was definitely hard to like.

"Sigh... it's indeed troublesome!"

Kalu sighed, then suddenly got a serious look on his face.

Bang!

With a sound like a supersonic jet breaking through the sound barrier, the student named Kalu already stood before the testing crystal.

Boom!

His whole aura surged violently, as if centered around him a massive storm was quickly brewing.

His right hand was clenched into a fist and placed on the crystal, the test data on the computer beside him climbed steadily.

"Three... three thousand one..."

The assistant stared at Kalu in shock, his tone mirrored when he saw Qiye's score.

This guy didn't look like someone with natural talent no matter how you saw it.

Eh?

Why isn't an attribute displayed?

What's going on!

Is there a malfunction?

The previous students all had attributes displayed no matter who they were.

For example, Jamie's lightning, Qiye's fire.

"Um, Lord Yang Yan, this one doesn't have an attribute..."

The assistant spoke embarrassedly.

"This guy originally exists without an attribute. If his superpower were to be classified into a category, it would be speed and an absolutely resilient body."

Yang Yan was also somewhat surprised as he looked at this sleepy-looking boy.

The surprise he brought was even greater than the girl named Qiye just now.

"Is everyone done testing? If so, we'll call it a day."

Nearby, a higher-ranking assistant, seeing Yang Yan not speaking for a while, lightly coughed and said awkwardly.

"Um... I haven't tested yet."

Just as the assistant was about to pack up the tools, a weak voice came from the back.

"If you haven't tested, hurry up and come over!"

The head assistant was obviously a little displeased.

Chapter 575: Promising Seedlings

I've already been waiting here for half a day, and no one has come.

I thought the testing was over, only to announce its end, and suddenly another straggler appeared.

Is this a joke?

"Okay... alright!"

This time, it was a blonde girl who came running over. She looked very sweet, especially with her skin that seemed as if it could break with just a puff, exuding a jade-like lustre, which was extremely rare among Caucasians.

However, this wasn't the most striking aspect.

What was unforgettable at first sight was that the girl held an extraordinarily exaggerated long sword in her hand.

Oh?

This is...

Upon seeing this girl, Yang Yan's eyes lit up immediately.

His face showed a subtle, meaningful smile, watching with interest as she was about to begin her performance.

"Um, may I start?"

The girl stood cautiously in front of the testing crystal and asked.

Her cautious nature formed a stark contrast with the exaggerated long sword in her hand.

"Yes! You may begin."

The assistant, having learned from previous experiences, dared not underestimate this girl in any way and nodded after carefully checking the equipment.

"Um! My name is Lei Ming."

As soon as the girl finished speaking, her expression became serious.

Once Lei Ming drew the long sword from her hand, a golden ring of light appeared around her.

This halo, formed by thunder light, rendered the girl as holy as a saint.

"Slash!"

Lei Ming uttered a low shout, and the long sword in her hand cut through the testing crystal like a flash of lightning.

"..."

The assistant didn't know what to say, as they stared speechlessly at the numbers on the computer.

"Lord Yang Yan, this number is a bit, a bit..."

The assistant hesitated for a long while, but still couldn't finish the sentence.

"Four thousand nine, right?"

Yang Yan took a glance at the number and then fell into silence.

This number was already equivalent to the S-class powerhouses of the past.

How old was the girl?

She still had a lot of room for development in the future!

"Alright, now you can have some free time, then select a class leader among yourselves. I'll be back in half an hour."

Yang Yan glanced around at the people and said.

The leading assistant followed Yang Yan out and spoke in a lowered voice:

"Lord Moonlight, there are quite a few promising talents among those students!"

"Especially Jamie, Qiye, Kalu, and that girl Lei Ming, they are worth the academy's full efforts to cultivate."

"Maybe in the future, one of them could become a powerhouse like the Ten Holy Knights."

He said this with great excitement.

Understandably so.

Although he was just an assistant, if a top-tier powerhouse emerged from his students, it would be a proud moment for him.

Moreover, given the pressure from the Exotic Realm, academies had never been stingy with rewards for teachers or assistants.

The performances of these students were linked to their achievements, so every promising talent was highly sought after by them.

"Yes! There are indeed many promising talents in this class. Particularly those four stand out. By the way, have you got their detailed records ready? Send me a copy later."

Yang Yan stood aside, watching the outstanding students from earlier, nodding gently, his eyes full of approval.

"Yes! We've completed both video and other data records."

The leading assistant replied immediately.

"Then also note down what I'm going to say next."

Yang Yan suddenly said seriously.

Hearing this, the assistant's previously excited face became serious instantly.

After all, the man before him was a legend of legends.

Given his expression, the matter at hand must be extremely important and needed to be documented word for word.

Fortunately, thanks to the enhancements from the potion, his memory was impeccable, so he pricked up his ears to record every word Yang Yan uttered.

"First is Jamie. His thunder is not the ordinary kind, and he shouldn't be a simple Thunder Attribute, but it's mixed with the Annihilation Attribute!"

"This needs special attention in future teachings. According to my evaluation, his Potential Value is at least eight stars."

Hearing this, the assistant was visibly stunned, then nodded seriously for Yang Yan to continue.

Yang Yan smiled gently and continued:

"Then there's the girl called Qiye. Her flame may be ordinary, but her affinity for fire is maxed out!"

"This means that if we could find special flames for her to merge with in the future, her potential would be limitless. By my standards, her Potential Value is also at least eight stars!"

The assistant rubbed his temples and then nodded heavily.

"Kalu!"

Yang Yan's gaze instinctively fell on Kalu:

"Very fast, at this age, he has already surpassed sonic speed, which is commendable! He can be developed from this aspect in the future."

"However, this isn't the most important thing! Most importantly, this guy's physical body is extremely tough, suitable to be trained as an assassin or a powerful warrior."

"As for potential, he is better than the previous two, scoring around eight and a half stars."

After hearing Yang Yan's words, the assistant felt a little dizzy.

He looked at Yang Yan in astonishment.

Receiving such high evaluations was truly unbelievable.

Though similar evaluations hadn't been unheard of before, meeting Yang Yan's five-star standard was already incredibly rare.

And now, several talents with more than eight stars appeared all at once.

They had been working as assistants for a long time and encountered various geniuses.

But it was the first time they had ever seen someone with a Potential Value of eight and a half stars.

"Lord Moonlight, isn't eight and a half stars too much? After all, close combat in future battles can be quite disadvantageous and the mortality rate alarmingly high."

The assistant furrowed his brow and said hesitantly.

"Trust me, there's a god dwelling within that guy's body, he's definitely worth our full investment."

Yang Yan said with a smile.

A god dwelling within?

The assistant couldn't determine if Yang Yan was joking or speaking the truth and looked at him with a troubled expression.

"Alright, let's talk about the last one! First, read her information to me."

Yang Yan chuckled lightly, deftly changing the topic.

The assistant hesitated for a moment before adjusting his emotions and said slowly:

"Lei Ming, sixteen years old, an illegitimate daughter of the ancient Lei Family in Huaxia. Her talent accidentally awakened half a year after the integration of the Hidden World and the current world."

"Then, her family sent her over to us here. She's been here for three years. But she's only starting school now because she was waiting for the Life Reversal Potion to take effect."

Chapter 576: Thunder Element Domain, Invincible Among Peers

Yang Yan nodded slowly, calmly saying:

"On the surface, her ability belongs to the Thunder Element. However, it's not just the ordinary Thunder Element ability, it's a mutation, a Thunder Element Domain!"

"Thunder Element Domain? What...what kind of ability is that?"

Hearing Yang Yan's words, the assistant instructor was stunned.

It was the first time he had heard this term.

Although he could vaguely guess some aspects, firstly, he wasn't very sure, and secondly, it was too unbelievable.

"A gift bestowed by the heavens."

Yang Yan nodded with a smile, and said meaningfully:

"Within her domain, she is the absolute ruler. Facing someone with this ability, unless your strength is far superior to hers, she is invincible at the same level."

"Invincible at the same level?"

Upon hearing Yang Yan's words, the assistant instructor's mouth fell open.

Three seconds later, he suddenly exclaimed with excitement:

"Does that mean she's another dragon born from Huaxia? Oh, no, a phoenix!"

Yang Yan glanced at this black-haired, yellow-skinned assistant instructor and immediately laughed as well.

Although cultivating these powerful superpower users is a global matter now, if such a powerful person appears in one's country, it would be excellent.

"Lei Ming, Potential Value of Nine Stars, has a Thunder Element Domain. From today, I will take her as a direct disciple and cultivate her with all my effort."

Yang Yan spoke with a slightly heavy tone, slowly.

Hearing these words, the assistant instructor exclaimed, thinking he heard it wrong.

He never expected that the legendary Moonlight would take such importance in this girl named Lei Ming.

Not only did she receive a Nine Star evaluation, but she was directly accepted as a direct disciple.

One must know that the person in front of him is one of the strongest in the world!

However, thinking about Yang Yan's evaluation of her, he quickly understood.

His eyes were filled with surprise and envy.

To become Moonlight Yang Yan's direct disciple, this young girl is really lucky.

"Alright, everything we discussed today is top secret. Have the people below immediately sign the contract!"

"Also, all the children's information must be sealed. Without my command, no one is allowed to access it."

Yang Yan suddenly became serious.

Every world has traitors who would sell their own people.

Especially during such a war between two worlds, even more caution is needed.

In fact, there is considerable evidence that there are such existences among the higher ranks of humanity.

To prevent the emergence of such betrayal, the Soul Contract is indispensable.

Once signed, it must be adhered to.

Otherwise, one would face complete annihilation.

Moreover, it would activate as soon as you have the thought of breaching the contract, making life worse than death.

Once put into action, your soul would immediately burn and vanish into nothingness.

After several assistant instructors signed the Soul Contract, Yang Yan went directly towards the Martial Arts Arena.

As expected, these children's abilities are indeed excellent.

However, they still require training and proper guidance.

"Hey! I say, the class leader position surely belongs to me."

Jamie said loudly while looking at the others.

"Why?"

Someone dissatisfied asked.

"Why? Because I scored over two thousand just now, and what did you score? If I remember correctly, it should only be over a thousand?"

Jamie disdainfully said to the boy daring to oppose him.

"Hmph! It's true I'm not as high as you, but those scores don't necessarily represent future achievements."

"Moreover, aren't you not the highest? If we choose the class leader based on scores, I recommend Qiye."

The boy rebuking Jamie fearlessly glared at him and said loudly.

"Right! I recommend Lei Ming, as she scored the highest after all."

Someone else expressed their opinion.

"I recommend Kalu."

"I recommend Jamie."

Once someone took the lead, all sorts of different opinions erupted in the crowd.

The individuals involved looked at each other from the side.

"Ah! Count me out, being the class leader is too troublesome. I'd rather get some more sleep."

Kalu scratched his head and said.

"Alright, since everyone has different opinions, I suggest we decide the class leader through battle. Whoever is the strongest becomes the class leader. Any objections?"

Jamie said to the other three.

"Well...if we battle without informing the teacher, wouldn't that be impolite? We might even make the teacher angry."

Lei Ming said softly, frowning.

Thinking of the seemingly gentle, yet incredibly powerful teacher, even Jamie felt a bit nervous.

Others might not know just how formidable the teacher is, but he knew very well.

Since childhood, he had the ability to sense the magnetic field of surrounding life forms, but when the teacher stood before him, he couldn't feel a thing.

Not even the old monsters at home could do that!

"Alright then, we shall wait for the teacher to arrive and then apply to the teacher."

Jamie glanced at the others and said coldly.

"Apply to me for what?"

Yang Yan had leisurely walked over from the side without anyone noticing.

"Teacher, we have differences, and everyone has their own opinions, unable to choose a class leader."

"Now, we want to decide who the class leader is through battle, hoping to get the teacher's approval."

Jamie said, looking at Yang Yan.

"Oh? Choosing the class leader through battle, huh?"

Yang Yan cast a meaningful glance at several of the most powerful preparatory class students.

Qiye stood by indifferently, while Lei Ming looked at him somewhat shyly.

As for Kalu, he had already found a comfortable place to snore away.

"Alright! I will open the Healing Barrier here, so you can battle without worries."

Yang Yan nodded lightly, squinting as he spoke.

Upon receiving Yang Yan's approval, Jamie became excited.

He was eager to have a try now.

"It's not just those few. You all can do the same. If anyone wants to be the class leader, then win this battle!"

Yang Yan encouraged the other students with an encouraging tone.

As everyone began to prepare, Yang Yan casually opened the Healing Barrier in the Martial Arts Arena.

This barrier was specially created to train these superpower users to battle.

Once anyone is injured inside, they would immediately be teleported aside.

With Yang Yan's word to start, the battle commenced here.

Jamie took the first move.

He launched a Thunder Roar Cannon, unleashing an indiscriminate attack towards the others.

Everyone's face changed drastically, and they scrambled to evade using their Body Technique.

This is how the battle among these talented young individuals began.

Chapter 577: We'll Build You a Great Business Empire

The final battle went as Yang Yan predicted and assessed, with Lei Ming emerging victorious.

Moreover, it was essentially a foregone conclusion.

From start to finish, no matter how hard everyone tried, no one could enter her domain.

One force crushes ten skills.

Others exhausted themselves to no avail, while she could strike lethally at any time, and naturally, Lei Ming stood undefeated.

"Alright, the result is out: Lei Ming wins the final victory. Qiye comes second, followed by Kalu, and lastly Jamie. You all should have no objections to these results, right?"

Yang Yan looked at the group and spoke calmly.

"A bet is a bet. Since I lost, I have nothing to say, but next time, I will win for sure."

Jamie, apart from liking to show off, wasn't too bad otherwise.

"Alright, though your battle has ended, you still can't be the class leader!"

Yang Yan said with a smile.

"What's going on? Isn't Lei Ming the class leader?"

Someone looked at Yang Yan, unable to help but ask curiously.

"Flowers in a greenhouse cannot withstand wind and rain. Next, I will take you all out for some training, aiming to help you grow the most in the shortest time."

Yang Yan looked at them, filled with anticipation.

With Yang Yan's word of dismissal, the students also returned to their dormitories.

Yang Yan himself ended his day's work.

Upon arriving home, Zhou Hanyun and a few other women had also returned.

He glanced at them with a smile and asked:

"How do you ladies feel? Starting as students anew, must be quite a feeling, huh!"

"It's alright!"

Zhou Hanyu responded first.

Wuyan simply nodded lightly.

Zhou Hanyun and Han Ruyu fell into silence.

Actually, the Science Academy merely combines modern science with the superpowers from the Hidden World, and there's nothing particularly novel beyond that.

For them, who've been involved with the Hidden World for two years, it's not difficult to understand.

"It feels good, but... I feel these things can't help us assist you."

Zhou Hanyun suddenly spoke softly.

"What's wrong?"

Yang Yan asked with a smile.

"We initially thought we could learn things to assist you inside, but..."

Zhou Hanyun didn't continue, instead, she and Han Ruyu exchanged a bitter smile.

"Haha! Both of you, the things taught here merely reflect the future trend of development in the coming world."

"As for helping me, the stuff learned here definitely won't help."

Yang Yan said with a smile.

He clearly understood what the two women were thinking.

Yet, wanting to help him regarding the Hidden World was likely something they couldn't achieve.

"There's a way to help!"

Zhou Hanyun suddenly said:

"Actually, we've discussed it, and we've decided to stop attending classes. Tomorrow, we'll return to the real world of Huaxia."

As she said this, Zhou Hanyun gazed intently at Yang Yan, as if she had made a significant decision.

Yang Yan was stunned for a moment, then nodded with a smile:

"Okay! No matter what decisions you make, I'll support you."

"Thank you!"

Zhou Hanyun said softly.

To say there's no emotion now would be false.

However, she and Yang Yan maintained the same state as before.

They wouldn't take any steps beyond the line until their relationship was clearly defined.

Han Ruyu, on the other hand, was different.

She already had a relationship with Yang Yan.

So, she directly came to Yang Yan's side and gave him a deep kiss.

"Thank you! But rest assured, when we return, we won't be idle. We'll build a massive business empire for you."

Upon hearing Zhou Hanyun's decision, Zhou Hanyu fell silent too.

She knew her sister felt she couldn't provide any help to Yang Yan on this side.

Hence, although she wanted to stay, she ultimately decided to leave and help Yang Yan in another way.

But she herself felt she could learn a lot by staying.

At the very least, she felt she could help Yang Yan.

"What about you? Hanyu, have you made your decision?"

Zhou Hanyun turned to her sister and asked.

"I want to stay here and learn. I feel the things here are quite useful."

Zhou Hanyu thought for a moment and said.

This was not only her decision, but also Wuyan's.

"Alright!"

Zhou Hanyun nodded.

Just as Yang Yan supported her decision, Zhou Hanyun also supported her sister's decision.

"Oh dear! We're going to be apart here, huh? Really don't want to!"

Han Ruyu said somewhat sadly.

After all, in these two years, they had built a strong bond.

"There's another issue: the time inside here isn't equal to outside. Could it be that while we're outside for a year, Hanyu and the others become older than us?"

Han Ruyu asked with a vivid imagination, worried.

"Who told you that? How could it be like that!"

Yang Yan glared at Han Ruyu, responding irritably.

"Isn't it what you said?"

Zhou Hanyu frowned slightly and said speechlessly:

"You said inside here ten days equals just one day outside!"

Actually, Han Ruyu wasn't the only one worried; Zhou Hanyu and the others shared similar concerns.

"Rest assured," Yang Yan rubbed his temples and explained, "the Law of time's flow isn't entirely like that. This world can't sustain such consumption."

"The time flow only affects the academy and primarily targets the Superpower Academy over there."

"As for the Science Academy here, very few places require tenfold speed. So you needn't worry about this left."

Surely, it's not Yang Yan's fault for not explaining clearly.

After all, it's truly complex to articulate this matter.

The control of time flow is actually to grant Superpower Users ample time for growth.

Moreover, it's also aimed at facilitating the integration of Hidden World-like Asgard and snatching some time for adaptation.

Not as ordinary as people imagine, nor is it ten times speed for the whole region.

"Alright, then we'll leave tomorrow. Since Hidden World has begun merging with the real world, numerous things outside have changed too. I want to see if I can become a merchant between two worlds."

Zhou Hanyun expressed her purpose.

"Yes! If successful, it would indeed be an exciting thing."

Han Ruyu, beside her, smiled and said.

Seeing their eager appearance, Yang Yan also smiled.

This was the Zhou Hanyun he met.

This was the Han Ruyu he met.

Two women daring enough to struggle for their happiness.

"Alright! Let me arrange things here for you. After all, if you want to deal with the Hidden World's people, at least safety must be guaranteed."

After saying this, Yang Yan walked straight into his room.

Chapter 578: Loch Ness Monster, a Unique Domain

Present time, by Loch Ness in England.

Yang Yan stood on the top of a giant fir tree with Lei Ming.

"Teacher, we've been here for two months. Are we going to keep waiting like this?"

Whether due to family reasons or something else, Lei Ming gave the impression of being a girl who was weak both inside and out.

"Just wait! Because of your own constitution, a place like the academy cannot bring you greater growth."

"What you need now is experience. With your talent, if you want to continue to improve, then I must first enhance your perspective."

Yang Yan looked at Lei Ming and said with a smile.

After Zhou Hanyun and Han Ruyu left the academy, he also took Lei Ming out.

As for the academy, it was completely left to the Metal Knight and the Blue Sky Knight.

In his words, he wanted to train Lei Ming to become the Thunder Emperor!

Regarding Yang Yan's words, the Blue Sky Knight was fine with it, but the Metal Knight wouldn't believe a single punctuation mark.

Although he also admitted that Lei Ming indeed had a lot of potential.

But so did others!

Why did this guy take only Lei Ming out?

If it wasn't for Yang Yan being lazy and afraid of trouble, finding a seemingly grand reason to fool himself, he wouldn't believe it no matter what.

And two months ago, after Yang Yan informed him, he didn't even seek his opinion and directly took Lei Ming to England.

"Is there really a water monster in this lake?"

Lei Ming looked at the emerald lake water and asked skeptically.

"Yes! There is!"

Yang Yan said with a smile.

Loch Ness, located in a deep canyon on the backside of the Scottish Highlands in England.

The lake is over thirty kilometers long and more than two kilometers wide at its widest point.

In terms of area, it's not particularly large, but the lake is exceptionally deep.

The average depth is astonishingly two hundred meters!

Moreover, the lake never freezes throughout the year, with steep shores and dense forests.

The northern end of the lake connects to rivers leading to the North Sea, traversing the entire northern part of the highlands, making it the third largest freshwater lake in England.

Of course, these are not the most important things.

The most important is that there has always been a legend of a strange creature here—the Loch Ness Monster.

As early as over fifteen hundred years ago, this legend already existed here.

Back then, stories circulated about a giant beast in Loch Ness frequently emerging to devour people and livestock.

In ancient times, some even claimed to have sighted such monsters.

Some said it had a long trunk like an elephant, with a soft and shiny body.

Others described it as having a long neck and round head.

There were even more exaggerated claims that when the monster appeared, foam would gather, and it would breathe smoke.

Anyway, the stories varied, leading the legend of the Loch Ness Monster to spread increasingly far and wide, becoming more mystical.

However, Yang Yan knew that many of those things were fake.

Of course, the existence of the water monster is real.

It's just that it never resides in this lake; it just occasionally comes here to get some food.

"Teacher, are we going to attack this water monster?"

Lei Ming asked worriedly.

Despite her strong inherent strength, this little girl was still somewhat lacking in confidence.

Yang Yan chuckled lightly:

"Why attack it? I brought you here just to let you see some of the abilities this guy possesses. This will greatly help you in mastering your own domain."

"Besides, I might be able to attack it. You'd probably be doomed before you even catch a glimpse of it."

Lei Ming was quite convinced of Yang Yan's words.

This had already been proven when Yang Yan first made a move in front of her two months ago.

Now, all she needed to do was to keep advancing under Yang Yan's guidance.

"Ah! That's not right?"

After waiting for a long while, Yang Yan couldn't help but mutter in confusion:

"Why hasn't this guy come out yet? The fish in here should have grown quite big by now..."

Hearing his words, Lei Ming just obediently stood by.

Although she didn't quite understand, she didn't ask more questions.

After about half a minute, the calm lake surface began to ripple with waves.

"Te-teacher—"

Lei Ming looked at the waves on the lake surface, grabbed Yang Yan's arm, and stammered.

"Shhh—"

Yang Yan quickly made a gesture to be silent and used soul communication to say:

"Quietly, very quietly! Just observe yourself, don't startle it. Although it's not weak, it's just as timid as you are."

The two waited for about ten seconds, and suddenly a huge black shadow emerged in the center of the lake.

This black shadow seemed to be searching for something, continually swimming back and forth in the water.

"Notice anything?"

Yang Yan looked at Lei Ming and continued to use soul communication to ask.

"Yes, I noticed. That monster seems to have some kind of power separating itself from the lake water."

"So, we can't see its appearance; we can only see a black shadow."

Lei Ming said seriously.

Yang Yan said with satisfaction:

"Haha! You can be taught. Keep watching! The power on it is also a type of domain."

"Moreover, it's a very unique spatial domain. So, when people here claim to have seen its true form, they're all lying!"

"With its character of loving to hide itself, how could it possibly let anyone see its true form?"

The Loch Ness Monster came quickly and went just as fast.

In no time, it completely vanished without a trace, and the lake surface quickly returned to calm.

"Alright, let's go! Getting you to see this guy means these two months weren't wasted."

"As for what you can learn from it, that will depend on you."

Yang Yan stretched lazily and spoke normally.

And Lei Ming, as if she hadn't heard Yang Yan, just stood there foolishly.

About half an hour later, Lei Ming finally came to her senses.

She looked at Yang Yan somewhat confusedly, hesitantly saying:

"Teacher, I think I've understood something. But... upon thinking carefully, it seems like I don't understand anything."

Yang Yan just laughed:

"Haha! That's fine, having some insight is quite good, leave the rest to ponder later!"

After saying this, Yang Yan suddenly leapt up and jumped directly towards the deep water area of Loch Ness below.

"Teacher, wait for me!"

Lei Ming called out, then almost without hesitation, jumped down following Yang Yan.

In June, a refreshing summer breeze swept across the entire lake.

Yang Yan and Lei Ming walked on the water surface of Loch Ness as if it were solid ground.

"Alright, these two months of waiting were just for you to see the domain on it. As for the rest, you'll have to go back to the academy and think it over.";

Yang Yan looked at Lei Ming and said seriously.

...

Chapter 579: Shifting Business Course

"Understood. It's been tough for you, teacher, these past two months."

Lei Ming said, bowing deeply to Yang Yan.

Soon, her figure started to gradually distort and then slowly turned into nothingness.

In just the blink of an eye, she disappeared without a trace.

"Hmm, at this stage, I've taught this girl everything I can, from now on it's up to her own understanding, and then..."

Yang Yan paused for a moment and continued muttering to himself:

"Next, it's personal time."

His figure disappeared into thin air along with the last syllable.

Yang Yan was never a diligent person.

In his view, life is too short, it should be used to enjoy rather than wasted on those so-called proper matters.

Especially when he has the ability to do things his own way and make his life better.

Yang Yan has always found the relationship between England and Scotland difficult to understand over the years.

Also, since he rarely visits here, his understanding of the area is very shallow, let alone knowing what the situation between them is.

Bear in mind, Scotland also has a kingdom.

Yet, it's formed a union with England to become the United Kingdom of Great Britain.

This, to Yang Yan, is a quite complicated circumstance.

"Hey! Hanyun, where are you right now?"

Yang Yan walked across the lake's surface while making a phone call to Zhou Hanyun.

Two months ago, Zhou Hanyun also came over to explore the local jewelry industry to see if there was anything in this Hidden World she could get involved with.

After receiving Zhou Hanyun's exact reply, Yang Yan vanished from his original spot.

More than a year ago, the line between the Hidden World and the current world had already become quite blurred.

This has made using abilities in the current world much more convenient than before.

At least there's no worry about issues like unstable space anymore.

When Yang Yan appeared once again, he was already on Oxford Street in England.

And Zhou Hanyun and Han Ruyu were nearby shopping, inspecting various stores in the area.

"Did you two see anything you liked?"

Yang Yan walked over to them, glanced at the bags in their hands, and asked.

"We just bought some clothes for now. The rest of the stuff, our side has it too, so we didn't buy any more."

Zhou Hanyun said with a smile.

Oxford Street is one of England's most famous pedestrian streets and the shopping center of the west area of England's Imperial Capital.

Every year, it attracts around thirty million tourists from all over the world to enjoy shopping.

This three-kilometer-long street is home to over three hundred large malls.

"No way! You two have spent half the day here and only bought this little stuff? That's not like you guys!"

Yang Yan said with a smile.

"Mainly because there isn't much worth buying." Zhou Hanyun explained with a smile, "Stuff here seems almost no different from our Huaxia."

"We have most of the brands back in Huaxia, and a lot of them are even manufactured there. I don't want to buy things here and then sell them back at home at a loss."

Han Ruyu looked at Yang Yan, curiously asking:

"Anyway, is your business done? You've basically been here every day for the last two months, haven't you?"

"Yup! It's done now."

Yang Yan nodded and replied.

"Are things really okay at the Academy? I noticed you haven't been back for a while. After all, you're the director of the Academy!"

Zhou Hanyun furrowed her brows, speaking with some concern.

Yang Yan smiled lightly:

"The Academy is already on track. As long as it's not a significant matter, those guys can handle it without me taking care of everything."

"Besides, when I agreed to be the director, I already mentioned I wouldn't always stay at the Academy."

Han Ruyu suddenly looked around and said puzzledly:

"By the way, have you noticed? You can hardly see any float cars on these streets!"

"That's normal! It's still a short period after all, although they're convenient, they can't be widely used yet."

"Moreover, the Academy in Europe isn't located here, float cars are most concentrated only in the city where the Academy is."

"Though this place seems bustling, the mindset remains conservative, even a bit deeply rooted. It'll likely take quite a long time for widespread adoption."

Yang Yan said with a smile.

"That's a real shame! Otherwise, those cars are convenient and stable, most importantly no gasoline smell."

Han Ruyu said with a bit of regret.

"Don't worry! In larger cities in our Huaxia, there definitely won't be an issue. The higher-ups are starting to plan widespread adoption of these vehicles and have decided to push it strongly, providing considerable policy support."

"Furthermore, construction in major cities around the world is starting to be prioritized on the agenda. Spending a decade or two, these places will surely be like Huaxia's Imperial Capital."

Yang Yan said with a smile.

"You know, after getting used to seeing all those high-tech stuff in the Imperial Capital, coming to this traditional city is quite an adjustment."

Zhou Hanyun laughed as well.

"No way around it, resources are limited. It's already quite good to supply ten cities and academies."

"The rest still needs some time to accumulate, that's why I suggest you two start getting into new materials now."

Back when Zhou Hanyun and Han Ruyu left the Academy, Yang Yan suggested future business directions for them.

Now, because the current world and the Hidden World started merging, new types of materials have appeared that were only found in the Hidden World.

The uses of these materials are vast, ranging from raw materials for various high-tech weapons to everyday needs like clothing, food, and housing.

"Yep! The jewelry store is pretty much handed over to Hu, and I've brought Yunyun and Zheng Feng over to handle these matters."

"These materials, after all, belong to the Hidden World, we're still quite unfamiliar with them. Also, there are some currency exchange issues."

"For example, in Huaxia, people basically only recognize premium jade stones. They completely disregard Huaxia Coin!"

Zhou Hanyun said with some frustration.

"That's normal!"

Yang Yan said nonchalantly with a smile:

"After all, those folks don't want for money. Money, whether more or less, doesn't significantly matter to them; certainly not compared to a fine jade."

Including Yang Yan, people in the Hidden World mostly aren't short on money.

Of course, not all of them, this excludes those with lower abilities in the Hidden World.

Because ordinary people still possess some resources that people from the Hidden World need to some extent.

Chapter 580: Dead Human-Demon

"That's not even the hardest part. The biggest headache is that they don't have a standard measure for the things they use for trading. So, every transaction becomes really difficult."

Han Ruyu said with some frustration.

Yang Yan laughed and comforted him:

"Hang in there! If it's not absolutely necessary, let's hold off on trading for a while during this period."

"Both Hidden World and the real world are already starting to research this trading issue."

"I've heard they're initially planning to use real-world money in exchange for Hidden World's points to overcome this problem."

"As for the exchange rate, there's still debate among everyone, and no solution has been proposed yet."

Regarding this issue, Yang Yan was actually somewhat troubled too.

In the past, Hidden World always remained in the shadows; ordinary people wouldn't know much less come into contact with it.

And things from Hidden World would basically never appear in the real world.

However, now the two different worlds are beginning to try to merge, bringing all kinds of problems with them that urgently need resolution.

"Yeah! We haven't engaged in any trades during this time. Let's wait until the reforms here are completed before making any further moves!"

"Sigh!"

Zhou Hanyun sighed lightly and said sincerely:

"I have to admit, the changes in this world are really immense. How long has it been? Just two years, and everything's already transformed beyond recognition."

"And even being part of it, I always feel totally unable to keep up with the pace of these changes!"

As she spoke, she shook her head helplessly, a bittersweet smile on her face.

At this point, the three of them tacitly dropped the topic, without delving deeper.

You have to admit, the topic on world reform is indeed a bit heavy.

Since the tide of history cannot be stopped, you can only adapt passively.

"This is nice! Hanyun, what do you think?"

Han Ruyu looked at a Chanel handbag with delight and walked over.

"Hmm! It looks very nice. However, isn't this price a bit insane? Eighty thousand Pounds?"

Zhou Hanyun looked at the ladies' handbag in front of her and said with a bitter smile.

"Asians! If you don't understand, don't talk nonsense! This bag is made of materials unique to Hidden World."

"Especially the handle, even in the coldest weather you'll never feel cold holding it."

Beside them, an oddly dressed East Asian man suddenly chimed in with a sarcastic tone.

The reason his outfit was considered strange was because the man, despite being clearly male, was dressed in stockings and a long dress.

He even had a pink backpack slung over his shoulder.

"Holy crap! Where did this remarkable creature come from? Really startled me!"

Yang Yan exaggeratedly asked, looking at the man.

"Kid, watch your mouth! But, considering you're quite good-looking, I'll forgive you this time."

After the man spoke, he tossed his head with arrogance in a sassy motion.

"Um..."

Yang Yan really had nothing to say about this bizarre character.

After all, no matter how someone dresses, even if they don't wear anything, it's their freedom; he couldn't control it nor did he want to.

Of course, the most important thing is, this guy didn't latch onto him; otherwise, Yang Yan wouldn't hesitate to throw a punch.

You freak Human-Demon!

Yang Yan cursed fiercely in his heart, then decided he couldn't bother with this disgusting guy any longer.

"Boss, wrap up this bag for me, I'll take it."

The man said before turning around and throwing another flirtatious wink at Yang Yan.

"Holy crap!"

Yang Yan was directly disgusted by this guy, blurting out.

What kind of person is this?

Completely testing his patience!

He instinctively clenched his fist, but eventually relaxed it.

"Let's go!"

It wasn't just Yang Yan; even Zhou Hanyun and Han Ruyu couldn't stand it anymore.

Noticing Yang Yan's odd expression, Han Ruyu immediately linked her arm around his, ready to leave.

"Such a waste of a handsome guy, all the good cabbages have been trampled by pigs."

After glaring at Zhou Hanyun and Han Ruyu, who were holding Yang Yan on both sides, the man directly walked into the shop.

Moreover, as he entered, he didn't forget to throw another big flirtatious wink at Yang Yan.

"Dammit! You two, let go of me quickly! Let me go rid the world of this plague, it's incredibly disgusting."

Yang Yan said and prepared to free himself from the embrace of the two ladies, rolling up his sleeves, ready to be a hero.

"Forget it, the guy just threw a flirtatious wink at you, didn't really do anything. Let it go, let it go! Who told you to have such charm? Even men like you."

Han Ruyu joked while pulling Yang Yan away alongside Zhou Hanyun.

"Is that guy even a man?"

Yang Yan argued angrily.

"Seems our Moonlight Emperor hopes for a beautiful lady then. Sorry to disappoint you!"

Han Ruyu said mischievously.

Upon hearing this, Yang Yan was at a loss, having no choice but to give up.

Though he gave up, he couldn't help but rant:

"Should've checked the almanac when I left today!"

He was utterly disgusted by the encounter.

Even though they had left, he kept muttering about wanting to eliminate the guy.

"Heehee!"

Naturally, Han Ruyu and Zhou Hanyun knew Yang Yan was just venting and wasn't actually about to cause trouble for that man.

After all, as the Moonlight Emperor, he wasn't that capricious.

After leaving Oxford Commercial Street, Yang Yan took the two beauties, Han Ruyu and Zhou Hanyun, elsewhere.

Notably, due to the previous incident, Han Ruyu and Zhou Hanyun kept their arms hooked through Yang Yan's.

Han Ruyu was understandable, but it was quite incredible that Zhou Hanyun did so too!

Yang Yan had never enjoyed such treatment before!

As the three reveled in this leisurely time, Yang Yan suddenly stopped in his tracks, abruptly looking towards the distance.

"What's wrong?"

Zhou Hanyun noticed Yang Yan's altered complexion and asked worriedly.

"We have guests."

Yang Yan said lightly.

"Excuse me, are you Lord Moonlight?"

A man dressed in a tailcoat appeared from the Void, stepped forward, and asked Yang Yan politely.

"Who are you? Why are you looking for me?"

Yang Yan asked.

"I am Kael, the chief steward of the Bis Clan."

The man named Kael bowed respectfully to Yang Yan and said with a smile.

His actions, aura, and even tone were impeccable, displaying the exceptionally professional demeanor of a traditional English butler.
