

## **Pregnant 1461**

### Chapter 1461: Tortured by Nox

All he did was talk about marriage with Zoe and then start preparing for the wedding.

As the two of them kissed passionately, everyone watched them with excitement.

When Shelly came in with another cup of water, she saw the scene and realized how Zoe could easily deceive Nox. It was because everyone here was putting on an act with Zoe.

The two kissed for a long time, and it made Zoe so shy that she leaned against Nox's chest. Her behavior was a world difference compared to when Nox was not around.

Seeing their kiss had ended, Shelly walked over and bent down to put the water in front of Zoe. Then, she picked up two pieces of ice from the coffee table and put them in, turning the water warm.

After that, she stood up respectfully and left to stand at the side obediently, waiting for orders. What she wanted the most now was for them to call it a night as soon as possible. If not, she could not go back.

The men and women in the private room stayed for a while until around 2 a.m., people began to leave. In the end, only Nox was left, drunk on the sofa, while Zoe was nowhere to be found.

The two of them were originally together, but Zoe left with someone after that. Shelly thought she was just going to the washroom and did not expect her not to come back.

It was either she was so drunk that she had forgotten about her husband or...

she deliberately left the drunk Nox behind and went to have fun. However, what Zoe was doing had nothing to do with her.

At that moment, she knew that if Nox did not leave, she would not be able to get off work tonight. It was because the time they got off work was determined by the moment the last customer left.

As such, Shelly forced herself to wait for a while. She wondered whether Zoe

would come back after she cheated but figured the latter should be back soon. Hence, she waited for half an hour, but Zoe was still not back.

Shelly looked at the time. It was 3 a.m. in the morning! In the end, she gritted her teeth and decided not to care.

She walked toward Nox and kneeled in front of him. "Nox, get up. They've all left."

Nox was unconscious and did not seem to hear her.

"Nox!" Shelly called out to him.

Considering how Nox assaulted her the last time he was drunk, this time, she would not touch him. She even kept a distance from him. However, the man in front of her seemed to be asleep and was not moving at all.

Shelly was speechless, but she then wondered if she could leave first. Just as she had that thought, she dismissed it.

If she left the guest alone in the room, her salary would definitely be deducted or she might even be fired. It was not easy for her to work in the VIP area. Not only did she have the opportunity to get tips, but she also earned a lot.

Shelly hesitated for a while. In the end, she gave in and stood up.

She was about to walk to the side and watch Nox sleep when her body suddenly jerked as the person on the sofa pulled her back and thrown onto the sofa. It was so rough that it frightened her.

Having been pinned down by Nox, she could feel that the heat on his body was abnormal. Moreover, the emptiness and desire in his eyes...

Shelly seemed to realize in an instant that Nox had been drugged.

Who drugged him? When was he drugged? Why was Nox drugged? What the hell was Zoe doing...

"Oh." Shelly's lips were suddenly sealed by Nox's.

Shelly twisted her body and resisted with all her might.

It was obvious that Nox was behaving differently from the last time. Last time, he reacted based on his nature as a man and did not go out of control. This time, it was pure desire.

"Let go of me, Nox. Let go of me!" Shelly shouted.

Just as she said that, Nox kissed her again, on the lips and with his tongue. He kissed her so hard that she could not breathe.

Shelly, on the other hand, felt disgusted. She could even recall the scene of Nox kissing Zoe. When she thought of that scene, she was even more disgusted.

She pushed Nox frantically and finally pushed his lips away from hers.

She said hurriedly, "Nox, calm down. Let go of me, and I'll help you find Zoe!"

Anyway, she had Zoe's number..

Chapter 1462: Tortured by Nox

Considering the state Nox was in, Zoe probably would not abandon Nox to have sex with another man, or that was what Shelly thought.

Nevertheless, she used all her strength to kick Nox away, and Nox was pushed down under the sofa by that sudden force.

Shelly did not even have time to tidy up her clothes before ran out of the room. The most important thing now was to escape. Then, she would call Zoe after she escaped.

In no time, Shelly rushed out of the door. She opened the door and was about to leave when the door was slammed shut.

Seeing that, Shelly tugged at the door handle, trying to pull it open. However, at that moment, she felt the man behind her...

The waitress at the nightclub were all dressed in white shirts, black vests, and short skirts, which were really easy to lift.

Before Shelly could react...

'Damn it. That b\*stard.'

Shelly clenched her fists. The only person or man she hated the most in her life was Nox.

How much did she owe him to be abused by him like that?

Late at night, Shelly finally left in a taxi. At that time, dawn had broken.

Ever since she was promoted to the VIP area of the nightclub, she had quit her part-time job of selling breakfast in the morning.

Yet now, she pondered whether she should return to her old lifestyle. Although it was a little tiring, she would not bump into Nox so frequently.

In fact, once she had earned enough money, she wanted to take Bella and leave South Hampton City. Anyway, she did not have any relatives or friends here, nor did she have anything to worry about. If she went to any other city, she would be able to live a good life with Bella.

While Shelly was thinking about those things, the car arrived at Sarah's neighborhood.

In order to save money, she was living with Sarah. She actually did not want to owe anyone a favor, but sometimes, she had to give in to realities.

She returned home and carefully opened the door to the quiet house. Just as Shelly was about to return to her room, Sarah suddenly opened her door.

"Shelly."

Startled, Shelly looked at Sarah.

"It just seems to me that you're coming back later and later, which isn't good." Sarah said seriously, "Bella is so young. Aren't you worried about her?" Shelly remained silent.

"Every night, Bella would wait eagerly for you to come back. Sometimes, she'll even wait until 1 a.m. or 2 a.m. at night. Now that you're coming back later and later, she really can't take it anymore and will fall asleep as soon as she sits on the bed." Sarah could not bear to watch Bella suffer like that any longer.

Therefore, she did not sleep much that night, just so that she could have a good talk with Shelly.

"Tonight is a special occasion. I usually won't get back so late," Shelly explained.

"Usually, you would only get back at 1 a.m. at the earliest. Have you ever thought about how much Bella misses you every night? Give up your job at the nightclub and do something else!" Sarah said, "Why don't I introduce you to a

job at my cousin's pharmaceutical company? Although the income might not be high, it's much better than you living an irregular life. You should think about Bella."

"Alright." Shelly nodded.

She thought Sarah was right. However, as for whether she would follow Sarah's advice or not, she still had to think about it carefully before doing anything.

She knew she could not rely on anyone else in the world except herself, even though she once thought that she could covet the Winters' money.

Later on, after Nox humiliated her, it was not easy for her to know her worth and set up her boundaries, so she did not want to repeat the same mistake again.

"Sigh, go to bed early. You've worked hard." Sarah sighed, feeling sorry for Shelly.

After all, Shelly did not want to do so either. As a single mother with no diploma or skills, it was not easy for her to raise a child on her own. More importantly, Shelly would always refuse the money she gave her.

Sarah did not know how that woman could have such strong self-esteem.

"You should sleep more too. Your skin will only recover if you get enough sleep." Shelly smiled faintly.

It was as if she could accept everything she encountered calmly.

As Sarah nodded and returned to her room, Shelly also entered her room, in which Bella was sleeping soundly on the large bed.

In fact, she could imagine the pitiful look on Bella's face as Bella waited for her to sleep with her every night..

Chapter 1463: Tortured by Nox

However, she had no choice because Bella was different from other normal children. She was born deaf. She could not hear anything at all in one ear and could barely hear with a hearing aid in the other.

She had brought Bella to the various hospitals for a checkup. The doctor said that Bella's condition could be treated with surgery, but the surgery was very expensive. From the initial examination to the surgery to the long-term treatment, the doctor said that it would cost at least 50,000 dollars.

According to the doctor, the sooner Bella's surgery was done, the better. That was why she desperately wanted to earn money. However, no matter how hard she worked or how frugal she was, saving 500,00 dollars was really difficult.

The whole thing discouraged her a little, and she thought, 'Why don't I just let Bella be since one of her ears was barely functional?'

However, the doctor said that it was very likely that during the process of development, Bella's ear might become completely deaf.

Shelly sighed.

The moment she wanted to stroke Bella's little pink face, she gave up for fear that she would dirty Bella. With that, she turned around and went to the bathroom to wash up.

She then took off her clothes, revealing her body that was covered in bruises. Nox did not even feel any pity for her when he was sober, let alone when he was unconscious. Now, her entire body looked as terrifying as it could be.

Shelly did not react much to how her body looked. She just took it as if she had been bitten by a dog that had bitten her many times. In any case, she would be able to leave South Hampton City with Bella one day.

She took a quick shower and then searched for some burn medicine at home.

Although there were many marks on her body, they were all bites, bruises, and hickeys. If she did not touch them, she would not feel any pain. However, she could not ignore the injury on the back of her hand.

Fortunately, Sarah's aunt was really attentive to her. From time to time, she would come over and give Sarah all her daily necessities, so they definitely had medicine for burns.

Shelly gently rubbed it on herself, and the cool feeling made her feel much better. After she was done, she lay back down on the bed.

By then, it was already 6 a.m. in the morning. She could still sleep for two hours, and two hours later, she would have to take Bella for a regular ear checkup.

When Nox woke up, it was already morning, and he sleeping on his own bed.

He could not even remember how he came back or what he did last night. That was the first time he had lost his memory after getting drunk.

"Nox." The woman beside him suddenly called out to him. "Are you awake?"

Nox turned to look at Zoe, who was lying in bed. Somehow, he had a feeling that something was wrong.

"Did you send me home last night?" Nox asked.

"No." Zoe said, "We were both drunk last night, and I don't know how we got back as well. But when I woke up, I was already on your bed. My friend probably sent us back."

"Is that so?" Nox muttered.

It was not that he doubted her, but he found it a little hard to believe that he blanked out.

“Are you feeling unwell?” Zoe looked at him. “Do you have a hangover?”

“No.” Nox shook his head. “Sleep a little while longer. I’m going to take a shower.”

“Alright.”

Nox walked to the bathroom and took off his clothes, which were the same set of clothes he wore last night. It was clear that he had come back unconscious. Otherwise, he would not have gone to bed without taking a shower or changing his clothes.

The moment he took off his clothes that reeked of alcohol, he froze. He looked at the huge mirror and saw terrifying scratch marks all over his body.

What did he do last night?

Just then, some images suddenly appeared in his mind. It was all Shelly!

‘F\*ck! I’ve been raped by Shelly!’

Nox immediately came back to his senses. Last night, he seemed to have done it with Shelly...

It was not a dream. If he was dreaming, how could there be so many marks on his body? It could not be Zoe because Zoe would never treat him like that, so it was definitely Shelly.

As soon as he recalled it, it made him inexplicably angry. To think Shelly had used such a despicable method to scheme against him! It even struck him now that he was drugged. If not, how could he have sex with Shelly, that shameless bitch?

The more Nox thought about it, the angrier he got. He was so angry that he was about to smoke.

Outside the bathroom, Zoe knocked on the door. “Nox, I want to shower with you.”

“No!” Nox hurriedly locked the door.

If Zoe saw the marks on his body, it would be a disaster! Hence, he quickly said, “I’ll be done soon. You can take a shower yourself later.”

“Oh.” Zoe was always very obedient.

No matter what he said, she would agree. That made Nox start to feel guilty toward Zoe, and for that, he really wanted to strangle Shelly.

Nox quickly took a shower, changed into a set of pajamas that fully covered his body, and came out of the bathroom.

Zoe, who was always smiling at him, hugged his arm affectionately, and Nox’s body froze for some reason, like he did not know what to do after doing something bad.

“I’ve made you a cup of tea, and it’ll sober you up. I’m going to take a shower.”

“Alright.”

Zoe kissed his cheek before walking into the bathroom.

Nox felt bad and was wondering if he should tell Zoe. If he told her, Zoe would be sad, but if he did not tell her, he would feel that he was hiding it from Zoe. Hence, he thought about it and gave Finn a call.

Finn had just accompanied Monica to Cardellini Enterprise. To be precise, he was not accompanying but following. Every day, he would follow behind Monica and try to make his presence known.

He looked at Nox's call and picked it up.

"If you had an affair, how would you explain it to Monica?" Nox asked immediately.

...I will never have an affair." Finn enunciated each word.

"Forced to have an affair." "I will never be forced." "Hypothetically."

"It will never happen. "

"Finn!" Nox was about to explode with anger.

"Did you cheat?" Finn knew Nox's personality all too well.

If Nox had not run into trouble, he would not take the initiative to look for him.

"I was drugged."

"By who?"

"A slut."

"So, you cheated on Zoe a month before you're supposed to get married," Finn concluded.

"I'm not asking you to come to a conclusion. I'm asking you, what would you do if you encountered such a situation? Will he confess to Monica?" "I will never encounter such a situation," Finn said stubbornly.

"Alright, now that I've encountered it, how do you think I should deal with it?"

"First of all, you have to figure out why you cheated. Were you really drugged or seduced? If you were drugged and forced, it's understandable. But if you were seduced, even a little bit, I think your marriage is over."

"Of course, I was forced, and I regret it now."

"If you were forced and want your wedding to go ahead, you must do two things. First, find the person who drugged you and cut off your relationship with her, especially anything that can come and bite you back in the in the future. What I'm talking about is pregnancy and whatnot — anything that will tie you back to her."

Nox was stunned. At that moment, he could not help but admire Finn's seriousness in handling matters. However, he never thought Shelly would trick him like that. If she really did that...

Perhaps his parents and grandfather would want him to marry Shelly immediately.

"Once you've done the first thing, you should come clean to Zoe. Hiding something like this is the greatest harm to your relationship. If Zoe understands, you can continue with the wedding. If not, it's best you go your separate ways.."

## Chapter 1464: Nox and Shelly's Past

As Nox quietly listened to Finn's suggestion, he heard Finn say, "This is the least harmful method I can think of for both of you."

Nox stayed silent. In fact, he agreed with Finn's point of view, but doing it was much tougher than agreeing to it.

Ever since he had calmed down and made up his mind not to be a playboy anymore, he had been strict with himself. He had never had any improper relationships with other women except Zoe, but Shelly had broken his vow!

The more Nox thought about it, the angrier he got.

"You can think about it. I'm hanging up." Finn was not someone who liked to talk nonsense.

"Finn, if you could analyze your relationship like how you analyze others' relationships, you would not have ended up like that--"

Finn immediately hung up.

Nox rolled his eyes in response. Seeing how bad of a personality Finn had, he found it no surprise that Monica was still rejecting Finn.

When Nox put down his phone, Zoe came out of the bathroom after a shower.

Zoe, as usual, was intimate with him.

"Nox, did you drink the tea?" Zoe smiled.

Nox did not even dare to look Zoe in the eye as he felt very guilty.

His eyes flickered. "I'm going to get changed and go to work. Since you were drunk last night, you should stay at home and get some rest."

"Are you going to work today?" Zoe was a little disappointed.

She was obviously reluctant to part with him, and Nox felt even more guilty when he saw Zoe's expression.

He had thought it through. After he dealt with Shelly, he would confess everything to Zoe. If she really could not accept it, he would respect her choice.

With that thought in mind, Nox seemed to calm down a little. "I have something to deal with at the company today, so I'll be leaving first."

"Alright." Zoe nodded obediently.

In front of him, she had always presented herself as an obedient girl. However, when she saw Nox going to the closet to get changed, she smiled evilly. Nox should be feeling extremely sorry for her now.

Actually, she did feel a little uncomfortable last night.

Last night, Cody had placed a miniature camera in the private room. Under the dim lighting of the nightclub, ordinary people would not be able to discover it. Then, they left on purpose after Nox's drug took effect, leaving only the waitress and Nox in the room.

Under the effects of the drugs, Nox would definitely go crazy. The effect of the drug was so strong anyone would turn horny at anything they saw. As expected, Nox could not control himself.

Zoe, on the other hand, was watching from the outside the entire time. At first, it was fine as she forced herself not to care and told herself that it was to protect herself. However, as she watched, she started to feel upset.

She knew that Nox was very skilled in bed, but what she was unhappy about was the way Nox looked at the waitress. There was a feeling of urgency and lack of control — it was as if he had been holding it in for a very, very long time.

She could not wait for it to end. Although she knew he had been drugged, it made her feel like Nox could have a good or even a better time with other women.

Nox and the waiter did it many times until she could not stand it anymore. No matter how strong the medicinal properties were, was it so strong that they have to do it five times?

How much did Nox want to sleep with another woman?

She was really worried that Nox's nature would be reignited and he would start to get entangled with countless women again.

Fortunately, when she saw Nox that morning, he seemed to have returned to his original state. Moreover, his guilt toward her was obvious.

What she saw last night was probably an illusion. He was just controlled by the drug and was acting instinctively. There was nothing else.

By the time Nox changed and came out, Zoe had brought the tea to Nox, who looked at her.

"Nox, drink some. You'll feel better." Zoe had always been sensible.

The more gentle and considerate she was, the more Nox felt sorry for her.

He drank the tea, and just as he was about to pass the cup to Zoe, she suddenly stood on tiptoe, hugged his neck, and kissed him.

Nox was stunned. It was normal for him to be intimate with Zoe. However, at that moment, he suddenly did not know how to react to her kiss and stood there stiffly..

#### Chapter 1465: Nox and Shelly's Past

When Zoe took the initiative to stick her tongue in, the scene of him going crazy with Shelly last night popped up in Nox's mind.

After waking up, he started to piece it together bit by bit and finally figured out the whole thing. However, he could not remember how Shelly felt at that time.

All he knew was that last night... he went really crazy, and it had never happened before. What drug did Shelly drug him with?

"Nox?" Zoe called out to him.

At that moment, her lips had left his, and Nox came back to his senses.

"What are you thinking about?" Zoe was a little unhappy.

In the past, when she took the initiative to kiss Nox, Nox would respond enthusiastically. Yet today, he was not reacting to her at all. Where was his mind wandering to?

Were her kissing skills that bad?! The men who had slept with her said she was very skilled and that her kiss made them feel good.

Under normal circumstances, she would not take the initiative to cater to others, but when she kissed Nox just now, she had used all her skills.

Her goal was to let Nox know that kissing her was the best and that he did not have to be hung up on other women.

When she thought about how Nox kissed the waitress so hard last night that the girl almost suffocated or how he rubbed the waiter into his body... She was the one who had planned it, but she was so jealous that she could go crazy.

"I drank too much last night, so my thoughts are scattered," Nox explained reluctantly.

It was also because his mind was filled with Shelly that he felt a little annoyed.

"In that case, don't go to work. Rest at home, and I'll accompany you."

"I'll be fine after I go out and get some fresh air." Nox refused.

Zoe still had something to say, but Nox immediately walked out, not wanting to waste any more time.

Zoe stared at Nox's back and stomped her feet angrily. She would never let Nox escape from her grasp!

At night, at the nightclub, Shelly changed into her work clothes and went to work.

She was actually considering whether she should resign from that job. Not to mention what she experienced yesterday, but the job did take up a lot of her time and she felt sorry for Bella.

Today, she accompanied Bella to the hospital for a checkup. Bella's dependence on her made her feel bad. She really was spending too little time with Bella.

While she was deep in her thoughts, the supervisor walked over. "Shelly, room 999."

"Aren't I serving rooms 666 to 888 today?" Shelly remembered that was the schedule.

"Room 999 needs someone. Just go over, and I'll sort out the rest."

Shelly did not say anything else. In any case, the leader had the final say. With that, she went to room 999.

Thinking that there would be a lot of people in the room, she pushed open the door of the private room but only saw Nox sitting alone inside with his legs crossed. The lights were bright, and he was sitting like a boss.

Shelly turned around and left. In an instant, she could tell that Nox had specially come to look for her, and he was definitely up to no good. He definitely would not pity her for what happened last night either, so there was no need for her to stay and make herself suffer.

“Shelly, if you dare to leave, don’t even think about working here.” Nox threatened her.

Shelly gritted her teeth.

She knew Nox would not let her off easily. However, since she could not make up her mind, Nox could help her with making the decision.

“Shelly!” Seeing that Shelly was not threatened by him, Nox was so angry that he was about to explode.

He had wanted to embarrass Shelly today, but he did not expect to be humiliated by her again. He suddenly stood up from the sofa, grabbed Shelly’s arm at an astonishing speed, and rudely brought her into the private room.

Shelly did not resist. After what happened last night, she knew very well that she could not resist Nox’s brute force, so why should she get herself hurt?

At this moment, Nox’s grip on her arm was really strong, and she was in pain. However, Nox was so angry that he did not notice his strength at all.

At the thought of Shelly giving him a hard time, he really wanted to strangle her. However, when he grabbed Shelly’s arm, he felt a little disgusted.

When had Shelly become so thin?

In his memory, Shelly was still that chubby woman. Yet now, in order to look good, she was willing to do anything..

Chapter 1466: Nox and Shelly’s Past

Nox dragged Shelly into the private room and let go of her arm angrily.

Shelly did not leave either. Anyway, she could not escape. At most, she would just take it as if the dog in front of him had gone crazy.

“Eat this first,” Nox ordered.

Shelly glanced at the medicine and a glass of water on the coffee table.

“Why? You want to marry me by having my son?” Nox raised his eyebrows.

Shelly sneered. Then, she picked up the pill in front of her and swallowed it without hesitation. Even though she had taken a birth control pill early in the morning, she would never bear Nox’s child in her entire life.

Nox felt a little displeased when he saw that Shelly did not hesitate. He was ready for Shelly to find an excuse not to eat the pill, but he did not expect her to eat it in one bite!

He felt like something was stuck in his throat, making him panic.

"Anything else?" Shelly asked him after she ate the pill.

Nox's throat moved, and he said, "Tell me. What do you want for setting me up last night?!"

Did Nox think that she drugged him last night? It really proved how stupid Nox was.

"Shelly, what's with the smile on your face?!" Nox was furious again.

Was she mocking him? What right did she have to laugh at him?

"Do you feel a great sense of accomplishment because you managed to set me up in bed again? Do you feel good that you fooled me?!" Nox was furious. "Nox, did I force you to sleep with me last time?" Shelly suddenly asked him.

Nox was stunned.

Last time, when his legs had yet recovered and Shelly was taking care of him, they had slept together once. He admitted that he had drunk a little that time.

He remembered he had told the boy who liked Shelly to pursue Shelly and had even given him financial assistance. He had thought that if Shelly fell in love with someone else, he could openly break off the engagement with her.

During that period of time, that boy was indeed very close to Shelly, and Nox had also arranged for his men to follow the two of them.

Once, his men gave him a few photos of the boy kissing Shelly, but how did he feel at that time? He felt that Shelly was just like any other girl. She said she liked him and wanted to marry him, yet she still could not resist the temptation of others... and cheated on him.

Even though he had planned everything, he was still so angry that night that he lost his mind. Therefore, he drank some wine to make himself feel better.

He did not know why he wanted to get over it. Anyway, he did not want to dwell too much on Shelly's matter, so he decided to pass the time with alcohol. In fact, he was not drunk but tipsy. Once he was tipsy, it was easy for him to lose control of himself.

That night, when Shelly helped him shower, sleep, and massaged his legs as usual, he had sex with her. After having sex with her, he regretted it so much that he wanted to bang his head against the wall.

Why did he sleep with Shelly?! He did not even dare to think about the scene of him sleeping with her because it was simply humiliating.

Shelly, on the other hand, was very calm about it. "I'll tell Grandpa Winter."

No way! Once she told his grandfather, he would really have to marry Shelly, and he could never marry her. For some reason, there was a voice telling him that he absolutely could not marry her.

As such, before Shelly informed his family, he gave the photo of Shelly kissing the boy to his family. He said that Shelly was an indecent woman who slept with him and was entangled with other men. That way, even if he slept with Shelly, his family would not force him to marry her.

The day he gave his family the photo, Nox's mother came to look for Shelly alone. He did not know what they talked about, but when Nox's mother left, she looked a little helpless.

Nox understood the look in his mum's eyes, that she felt helpless that he and Shelly could not get married.

Due to what he did, he thought Shelly would cause a scene with him. After all, he was a little too petty, so he thought he would let Shelly do whatever she wanted in front of him.

However, Shelly did not react to the situation at all and was studying hard..

Chapter 1467: Nox and Shelly's Past

She treated him the way she usually would, and he actually could not stand it.

Did Shelly not want to marry him?! Now that she could not get married, was she not going to react? Did she feel ashamed?

Shelly was not that thin-skinned. However, Nox was not the kind of person who would care about someone he did not care about. Since Shelly felt ashamed, he did not need to waste time on her.

Later, Nox's legs were recovering well as the days went by. Soon, he could stand up and walk on his own.

Anyway, Nox was having his own fun for a long time, and he drifted further and further away from Shelly. After all, his leg had recovered, so he did not need Shelly to help him with anything.

During that time, Shelly was also busy preparing for the college entrance examination. Although the two of them lived under the same roof, it was rare for them to meet.

When he had cut Shelly off, he fell in love with Zoe at first sight and decided to be with her. At that time, Shelly was still preparing for her college entrance examination.

Two days before the college entrance examination, the school was on holiday, so all the students were allowed to go home and relax for two days before preparing for the exam.

That day, Nox waited for Shelly at home.

He said, "Shelly, my one-year agreement with my family is almost over. After your college entrance examination, move out of my place."

Shelly looked at him but did not agree.

Nox, who had never been patient with Shelly, said, "Why? Do you still think we can be together? Yes, we slept together, and I admit that, but I've slept with too many women. Do I have to be responsible for every one of them?!"

“Am I the same as all the women you’ve slept with?” “Do you think you’re superior?!”

“I didn’t sell my body to you,” Shelly said bluntly.

She knew that all of Nox’s women were bought with money.

“Why? Do you want money?” Nox asked her.

In fact, he knew that Shelly wanted to marry him for money. Otherwise, any woman with such little self-esteem would have given up long ago after he rejected her.

“That’s not what I meant.” Shelly shook her head.

Nox sneered. He could not help but be surprised by Shelly’s coldness.

“I’m just telling you that I’m a little different from your other women,” Shelly murmured.

It was as if she was saying it to herself, and Nox naturally did not take it to heart.

Shelly continued, “Do you like Zoe?”

Nox frowned.

How did she know? He had not announced it to the public yet. Did she follow him? Or did she peek at his phone?!

“Your mother told me.” Shelly did not need to think to know how Nox was maliciously speculating about how she knew.

That morning, Nox’s mother called her and told her about it. However, it was not to make her sad. It was to tell her that Nox really had someone he liked and that she should be prepared so that she would not be sad.

Actually, what else could she be sad about? Ever since Nox brought back the photo of her kissing another boy and showed it to his family, she had nothing to be sad about.

With Nox, she finally understood what it meant to have a cold, dead heart. Of course, she did not love Nox that much, but she was still hurt by his actions.

“You said you like her and want to marry her?” Shelly asked.

“Yes,” Nox admitted. “When I saw her, I thought she was the best candidate to be my wife. When I saw her, I even thought of a name for our child.” “I’ve already thought of the child’s name.” Shelly smiled faintly.

It was just a facial expression and did not mean anything.

“So, after the college entrance examination, you can move out of here. I’ve told my parents and grandfather that you can go back to the Winters’ residence. Other than you not marrying me, your life in the Winters will be the same as before.”

“Don’t I disgust you?” Shelly asked her.

Was he not unhappy that she would be living with the Winters?!

"Of course, but I can't chase you away! If I do this, my grandfather will beat me to death!" Nox spoke bluntly.

"I'll leave by myself," Shelly suddenly said.

Nox looked straight at Shelly and thought she was joking with him.

Did she say she would leave by herself? Leave the Winters? Did she know that a woman from the countryside like her would never be able to enjoy the glory and wealth of the Winters once she left the family?

Chapter 1468: Nox and Shelly's Past

"I came to the Winters to marry you. Now that it's useless, I should leave," Shelly said calmly.

It was as if she had already thought about it.

"Suit yourself." Nox did not care at all.

He even thought that Shelly was playing the emotional card on purpose. Unfortunately, he did not have any sympathy for her.

"I'm going to revise." Shelly turned around and left.

After the two of them talked, she was not reluctant to leave.

Nox naturally was alright with seeing her leave. In fact, he felt good about getting rid of Shelly so easily as he originally thought that Shelly would pester him.

It was rare for Shelly to think so clearly, and his impression of her had also improved a little.

After two days, that impression he had of her disappeared because Shelly got in a car accident on the day of the college entrance examination.

When Nox received the news, he was shocked. He had a feeling that a woman like Shelly could live for many years, so how could she be met with a car accident? He even heard that it was very serious.

He wanted to go straight to the hospital, but his friend reminded him otherwise.

His friend said, "Why, out of all days, did Shelly get into a car accident today?"

Nox, don't you think she's deliberately using a ruse to stop you from being with Zoe so that the Winters would have no choice but to make you take responsibility for her?"

Nox instantly realized that that might be possible. After all, he believed Shelly was capable of anything.

She could watch him sleep with other women, watch indecent videos to learn skills, and even seduce him when she was taking care of him. He even found the conversation they had two days ago a little strange because there was no way Shelly could accept it so calmly. Now that he thought about it, it was indeed a big game of chess.

Shelly was so young. Why was her mind so complicated?! Did she think that by doing that on purpose, he would do as she wished? He would never fall for her trick.

After Shelly's car accident, he had not visited her even once. He pretended not to hear or see the calls and messages from his grandfather and parents.

In any case, he definitely would not let Shelly scheme against him. It was not easy for him to want to get married, and he could not let Shelly ruin it.

Due to Nox's firm and stubborn attitude, his grandfather whipped him ruthlessly. He was beaten until his flesh split open, and he almost died on the bed. Naturally, it pained his mother to see him like that.

In fact, his mother was the first person to compromise and accept that he would not be with Shelly. Now that she saw that he was beaten up so badly, she gave up on matchmaking him and Shelly. She even called Shelly in front of Nox.

Nox did not want to hear Shelly's voice at all. When he thought about how Shelly had set up that trap and made him suffer so much, he gritted his teeth and hated that woman to his core.

"Nox," Shelly called his name over the phone.

"Are you satisfied, Shelly?" Nox sneered.

His grandfather was still forcing him to go to the hospital to see her, but he went on a hunger strike to protest. He would not submit even if he died.

"I'll explain it to Grandpa Winter," Shelly said on the other end of the phone.

Nox's mother had told her to convince Nox to eat something. She said that Nox was on a hunger strike at home and was also seriously injured. Hence, she was worried that his body could not take it.

When Shelly heard the news, she found it a little funny. However, she felt more disappointed. It was just a car accident, yet he was not willing to even visit her.

"Do you think I'll believe you?" Nox asked her coldly.

"It's not worth torturing yourself for me."

Nox was stunned. At that moment, he thought that he was a little stupid. Why was he living like that because of Shelly?

"Shelly, what do I have to do to make you leave me?" Nox could not suppress his anger anymore.

Shelly hesitated before she said, "Why don't you give me a breakup fee?" Nox thought he had misheard Shelly asking him for the breakup fee. "This way, we will have nothing to do with each other anymore."

"Alright." Nox was more afraid that Shelly would go back on her word, so he said, "Take my money and don't appear in front of me again!" It would be best if they did not see each other ever again..

Chapter 1469: Shelly, Whose Child Is It?

"Alright." Shelly agreed.

If he thought it was fine, that would be great.

Nox gave Shelly 200 thousand dollars, which to Shelly, who was still studying at the time, was a huge sum of money. Therefore, he believed it was enough for Shelly to go to university.

In his mind, Shelly would definitely take the college entrance examination again and go to university. However, he did not expect Shelly to take his money and go for plastic surgery.

Did she think she could charm anyone because she had plastic surgery? He, Nox, hated people who went under the knife the most in his life because no matter what, it would affect the next generation.

After that showdown with Shelly, she did not appear in front of him again. There was a short period of time when he felt a little guilty, wondering if he had misunderstood Shelly back then. Perhaps her car accident was an accident, and he had thought too badly of Shelly.

However, because Shelly did not appear in his life again, even if he did feel a little guilty, he gradually forgot about it as time passed.

That was until now, when he finally bumped Shelly again. After disappearing for a few years, she was now trying to seduce him again, and her skills this time were higher than the last.

That woman, Shelly, was getting increasingly disgusting.

He pulled himself back to reality and looked at Shelly coldly.

Shelly could tell what he was thinking from his eyes. Anyway, in Nox's heart, she was a bad person.

In fact, she did not know why Nox looked down on her so much. Thinking about it carefully, it was probably because she insisted on marrying Nox even after pursuing Nox for a period of time and Nox had made it very clear that he would not be with her.

Could she say that she regretted it too?

Back then, she wanted to marry into the Winter family. Although she knew that Nox did not like her and even hated her, she did not care and thought that marrying into the Winter family would give her glory and wealth. Now, she really regretted it.

"Yes, I was the one who drugged you because I wanted to seduce you. I was still eyeing the position of the Winters' eldest young mistress," Shelly suddenly admitted.

In any case, even if she did not admit it, Nox would have thought the same. It was better to do as he wished and send him away as soon as possible. It would save her the trouble of dealing with him.

Nox's expression changed when he heard Shelly's sudden admission. She had denied it at first, but now she suddenly admitted it.

That woman... Was she compromising because she think she could not fool him?

He found it odd but did not want to think too much about it.

“So, what does Young Master Winter intend to do to me?” Shelly asked him. Nox even felt provoked at that moment and secretly cursed in his heart. ‘F\*ck.’

She had done such a terrible thing, yet she could still act so righteously. Did she have no sense of shame?

“Shelly, where did you get the confidence to say such things?” Nox was furious.

He could feel a ball of raging fire in his stomach but could not find a suitable time to vent it. Where did Shelly learn those despicable tricks over the years?

“Didn’t you want me to say this, Young Master Winter? Didn’t you want me to admit I’m dirty and disgusting? Didn’t you want me to make you think that not marrying me was the best choice you made?” Shelly sneered.

Nox could explode at any moment. “I don’t need you to admit anything. You’re not worthy of being my wife. Everyone knows that!”

“Since that’s the case, what do you want from me? Why did you come looking for me? You could’ve ignored me. After all, the best way to stop me from marrying you is to treat me coldly. As long as you ignore me, even if I want to marry you again, I can only watch helplessly and achieve nothing!”

“If I didn’t come, do you think my grandfather would let me off if you got pregnant?” Nox sneered.

“Shelly, do you think I’m stupid?”

“Didn’t I take the medicine in front of you?”

Nox was rendered speechless by Shelly’s words.

“Young Master Winter, do you still think that’s not enough?”

“Since there’s a first time, it’ll happen many more times. If I don’t make it clear to you this time, you’ll treat me like this again, and I don’t have that much time to waste with you. When I think about having sex with you, I feel all kinds of disgusted,” Nox said fiercely..

Chapter 1470: Shelly, Whose Child Is It?

It seemed like he could never tolerate Shelly.

The more unpleasant his words were and the more they could agitate Shelly, the more he wanted to say them. Though, he had never treated anyone like that in his life.

Shelly remained calm when she heard Nox’s words. After all, she and Nox had been at odds for so many years, and it was rare for them to reach an agreement on that matter.

She said, “Why don’t you continue to give me a sum of money to get rid of me?” “Shelly, money is your real goal, huh?!” Nox asked.

Shelly should know very well that he would never marry her, and that was why her biggest goal was to get money from him. For the sake of money, Shelly was willing to do anything.

“Yes,” Shelly admitted.

It was as if she said yes to everything he said about her — like she just wanted to get rid of him.

Nox gritted his teeth. “How much?”

In his opinion, anything that could be solved with money was never a problem.

“50,000 dollars.” Shelly was asking for an exorbitant price.

Nox smiled. It was obvious from his face that he was mocking her.

He said, “Do you still think you’re the Shelly from back then?”

Back then, Shelly was considered a member of the Winters, but the current Shelly was nothing!

However, Shelly thought that since Nox wanted to get rid of her with money, why did she not ask for more? She was short of money anyway, and money was nothing to Nox.

“Last night, we did a total of five times, and it’s 10,000 dollars each. To others, it might be an astronomical price, but to you, it’s nothing,” Shelly said bluntly, as if she was still negotiating seriously.

“Do you think that I’m a sucker just because I have a lot of money? Shelly, let alone 50,000 dollars, even 5000 dollars is too much.”

“Didn’t you come to me today because you were afraid I would tell Zoe about what happened yesterday? I’m not worth 50,000 dollars, but Zoe should be.” Shelly raised her eyebrows.

Nox’s eyes narrowed.

Shelly was never stupid. “So, 50,000 dollars is not much.”

Nox seemed hesitant.

After sending Shelly away, he naturally had to confess to Zoe, so he was not threatened by Shelly. Yet now, he said coldly, “What if you still say it?” “I, Shelly, swear on my life that I will not say it!” Shelly swore.

Nox was stunned as he did not expect Shelly to be so extreme.

“Alright.” Nox did not want to waste any more time with Shelly.

50,000 dollars was not worth it for Shelly, but to him, it was not much at all.

He said, “Give me your account number. I’ll get someone to transfer the money to you tomorrow.”

“Alright.” Shelly nodded.

She did not know what to feel about earning 50,000 dollars in one night. No matter what, she believed she had profited. After all, her body was just a worldly possession. After a while, she would forget about what happened.

“But I have a condition,” Nox said bluntly.

“Tell me.”

“Apart from the fact that you can’t say anything about it, you should resign from your job here immediately. I don’t want to see you in a place like this again.”

“Alright.”

She was about to resign anyway. Although the salary was considerable, in the end, it took up a lot of her time, which was not suitable for her.

Now that she had such a huge sum of money, she did not need to work so much and could treat Bella’s medical condition now. “Don’t play games with me.”

“I just swore an oath,” Shelly said bluntly.

“I’ll trust you one more time.”

“In that case, I’ll be leaving. I don’t want to be an eyesore to you, Young Master Winter.” Shelly even nodded to Nox.

She was so respectful that Nox wondered whether Shelly treated all her sugar daddies like that. However, he really could not understand Shelly’s thoughts.

Could she not stay in the Winters? Why did she have to live such an unsightly life?

Nox did not call for Shelly anymore since he believed the matter had been resolved. All he needed to do now was confess to Zoe. Then, he would wait for her answer and respect her choice.

With that thought in mind, Nox picked up the glass of wine and drank some. Even though he understood what he was supposed to do, he felt a little troubled. After all, he did not even know if he would be accepted or rejected.

He drank a few glasses by himself but found it meaningless. Hence, he got up and left the nightclub.

When he was in the car, it was raining cats and dogs..
