

Primordial 124

Chapter 124 Trapped in the Poison Array

"This is the Mire Dragon Marsh Secret Realm, the price of talisman inscriptions naturally cannot be compared to those outside. If you think it's too expensive, return the talisman inscriptions to me, and I can give you the equivalent value in spirit stones,"

Lin Chen's words made Leng Dong and the others stiffen their expressions. Return the talisman inscriptions?

What a joke, when everyone was escaping for their lives, they had all used them. Where could they possibly find them to give back?

Lin Chen was simply being unreasonable, not wanting to give the others any advantage.

Even if everyone still had those talisman inscriptions, it would be absolutely impossible to hand them over. They were divine artifacts that could save lives at critical moments, having them was like having an extra life.

Leng Dong clenched his fists, today it seemed impossible to get Lin Chen to take action voluntarily.

Shoo, shoo—

Suddenly, just as Leng Dong was considering how to deal with Lin Chen in the future, the sound of covert arrows piercing the air arose, and a rain of arrows emerged from the dense forest, shooting towards the group.

"Not good, this is the Black Cloud Sect's Poisonous Snake Arrow Formation, the poison is extremely powerful, if you get even a little on you, you'll be poisoned and your spiritual power will deplete,"

Liu Changfeng, seeing the arrows raining down like droplets, urgently warned everyone to be careful. He had already experienced the power of these poison arrows before.

Hearing his warning, everyone quickly wielded their weapons, trying to fend off the poison arrows falling from the sky.

However, to everyone's shock, these poison arrows bounced back to life after hitting the ground, like small snakes launching a second attack. The arrowheads even turned into snake heads, constantly sticking out their tongues.

"Be careful, everyone. Those snakes are also poisonous, don't get bitten,"

Gong Ziwen said, looking at the transformed poison arrows.

Nobody had ever seen arrows that could turn into poisonous snakes; they were shaken and frantically swung their swords to kill the poisonous snakes.

The snakes were not strong, but there were too many of them.

Hum—

Lin Chen released his spiritual power, swinging a palm out, and the arrows flying toward them were blasted away by his palm. The blasted arrows emitted a hissing sound and were instantly burned, not turning into snakes.

Seeing this, Lin Chen was surprised. Could his spiritual power actually suppress these poison arrows?

Perhaps it was due to the Scorching Sun Fire formed within his body by the Primordial Transformation Art, which naturally was the bane of yin and filthy things.

Everyone's gaze fell on Lin Chen, and they couldn't help but be amazed.

Xu Lianyu was secretly shocked. She was increasingly unable to see through her junior brother, wondering if their master had been teaching him an extraordinary technique on the sly.

"Awesome, Brother Lin Chen, these poisonous snakes are the hardest to deal with. Yet, under your hand, they're like well-behaved grandsons, you are truly their nemesis,"

The most surprised people at the moment were none other than Liu Changfeng and Gong Ziwen. The injuries on their bodies were caused by these snakes, and if it hadn't been for buying some of Lin Chen's talisman inscriptions in Wanyuan Town, they would have never made it out.

Boom—

Lin Chen moved swiftly to Zheng Yulan's side, once again using his palm to eradicate a large number of snakes.

"Thank you, Junior Brother Lin Chen!"

Zheng Yulan looked at Lin Chen fondly. He had saved her life again. Without Lin Chen, she would have probably been bitten by now.

"There are too many poisonous snakes, everyone move back. There must be a range to this poison arrow formation,"

"Fellow senior sisters, quickly use the Space Compression Talisman to flee two miles back,"

Hearing what Lin Chen said, Lu Feishuang and the others nodded, swiftly using the Space Compression Talisman to escape.

Following that, Lin Chen, Wang Yilin, and Xu Lianyu also used the talisman to flee.

Leng Dong and the others watched as Lin Chen and his companions disappeared from sight in an instant while they were still struggling against the barrage of arrows, retreating slowly.

They were full of longing for the "Ground Shrink" talisman, which allowed for instant movement, and they deeply realized the power of such a talisman and its lifesaving role at crucial moments.

"Snake Lady Jia Shaluo!"

After the group had retreated, a seductive woman wrapped in numerous tiny snakes slowly emerged from the dense forest.

Leng Dong recognized the voluptuous woman; it was Jia Shaluo, known as the Snake Lady of the Black Cloud Sect.

At that moment, Jia Shaluo looked after the fleeing figures of Lin Chen and the others with a strange smile on her lips.

Leng Dong grew more uneasy and hurriedly led the people to meet up with Lin Chen and the others.

However, they had not retreated far when they ran into Lin Chen and the others, and behind them, a blood-red light barrier. It seemed that Lin Chen and the others were stopped by this barrier.

"This place has been set with a formation that can actually block the effect of the Space Compression Talisman,"

Lin Chen said in surprise as he looked at the barrier in front of him.

Probably only a third-grade or higher Space Compression Talisman would be immune to the effects of this formation and be able to escape.

"Last time you managed to escape using talismans, this time I spared no essence blood to set up the Ten Thousand Snakes Poison Formation. Where do you think you can flee? Quickly hand over the Spirit Crystal Stone,"

Jia Shaluo slowly approached with a group of Black Cloud Sect disciples, mocking Lin Chen and his companions.

Hearing Jia Shaluo's words, Leng Dong and Li Caixia were shocked. They looked towards Liu Changfeng and Gong Ziwen, wondering what kind of luck they had stumbled upon to find a Spirit Crystal Stone in the secret realm.

"This woman is not simple, be careful,"

Lin Chen said, sensing that Jia Shaluo's aura was very powerful.

Everyone already felt a strong pressure emanating from Jia Shaluo, without Lin Chen mentioning it.

"Hehe, still thinking of struggling? By the time you were trapped by my poison array, you were already poisoned. Haven't you noticed a dizziness, a stuffiness in the chest, and an inability to exert your spiritual power at full strength?"

Jia Shaluo said, laughing while she observed the group.

On hearing her words, Leng Dong and the others indeed found that they were showing the symptoms Jia Shaluo had described. Wang Yilin and Xu Lianyu were no exception.

"Have we all been poisoned?"
