

Primordial 137

Chapter 137 Unseal

The place where everyone was fighting was a swampland much like Dragon Pond, and their choice of this location was not only because the two sects were already sworn enemies, but also because of the surging Yin Sha Qi present in the swampland.

At this moment, Lin Chen had just been blasted into the swamp by Xu Qiang's punch, and even if he hadn't died, the formidable Yin Sha Qi would likely corrupt him to death.

Xu Lianyu had been worried about Lin Chen and breathed a sigh of relief when she saw that he appeared unharmed, but she hadn't expected to be met with an accident right after their reunion.

Now, facing Xu Qiang, who was laughing wildly, Xu Lianyu's eyes filled with endless hatred, and her rage erupted completely. She was determined to avenge Lin Chen today, and Wang Yilin shared the same thought, never anticipating that she would so quickly become a widow.

Zheng Yulan collapsed on the ground, tears emerging in her eyes as she looked at the swamp before her. Lin Chen's death had been a result of saving her.

An ordinary person wouldn't last half an incense stick's burning time before dying from the inability to breathe, and while martial artists have significantly better breathing capabilities than ordinary people and could survive half an hour underwater or in a swamp without breathing by using their Spiritual Power, the terror of Yin Sha Qi beneath this swamp was something not even a martial artist could withstand.

Considering Lin Chen's severe injuries upon falling into it, one could only imagine the consequences.

Li Chu, who was engaged in battle with a Black Cloud Sect Disciple a distance away, watched Xu Qiang punch Lin Chen down into the swamp as per his orders, a smile of satisfaction appearing on his lips. The man who had been a constant pressure on him since their time in Desolate Sky City was finally dead.

The only regret for Li Chu might have been that he didn't kill Lin Chen with his own hands.

Mu Qingxue, who was fighting someone else, saw this scene and felt a sense of loss and desolation she couldn't explain. She shouldn't care about Lin Chen's life or death, but the memories of his protection and affection over the past three years involuntarily flashed through her mind.

Perhaps even she didn't realize that deep down, she had already fallen in love with Lin Chen.

At this moment, watching Lin Chen get knocked down into the swamp, Xu Lianyu completely lost control, her eyes turning blood red as she glared at Xu Qiang.

When she learned that Xu Qiang was an undercover agent from Black Cloud Sect infiltrating their Jade Cauldron Sect, her eyes were filled with murderous intent.

"I want you dead!"

Xu Lianyu shouted, then started forming a Seal Decision with her hands. As the Seal Decision took shape, her aura began to skyrocket, and in a blink of an eye, she reached the Melding Earth Realm.

This was her true Cultivation level, previously restricted by the prohibitions of a secret realm. Although she could recover her Cultivation for a while after releasing the restrictions, it would irreversibly damage her body, ruin her foundation, and affect her future Cultivation.

She might even never break through her Cultivation again and remain forever at the Spirit Gathering Realm Ninth Layer, but to avenge Lin Chen, Xu Lianyu didn't hesitate to release the Seal.

"No, don't do it, you're insane!"

Wang Yilin's expression changed when she saw what Xu Lianyu was doing, and she immediately tried to stop her.

Undoing a seal was no trivial matter, and it could destroy one's future path of Cultivation. But despite Wang Yilin's attempts to dissuade her, Xu Lianyu didn't listen and continued with the Seal Decision to fully release the seal.

Buzz—

A powerful aura erupted from Xu Lianyu. She looked at Xu Qiang with eyes full of murderous intent and then raised her hand to summon a Fire Rope, as immense Spiritual Power gathered in her hand, turning her whip into a flaming rope.

"Damn crazy woman, actually willing to unlock her seal, does this guy matter so much to her?"

Xu Qiang retreated several steps, his eyes revealing a color of fear. He had never imagined that his scheme against Lin Chen would elicit such a drastic reaction from Xu Lianyu, to the extent that she would even break her own seal.

At this moment, Xu Qiang even harbored regrets in his mind. Lying low in the Jade Cauldron Sect for many years, he had indeed discovered quite a few promising disciples. However, as Li Chu said, Lin Chen's talent was the most powerful—if he could eliminate this heavenly pride of the Jade Cauldron Sect, he would indeed receive great credit upon returning to his sect.

Yet, if killing Lin Chen meant losing his own life, then it was not worth it at all. No matter how great the credit, one must be alive to enjoy it.

The other martial artists nearby were incredibly shocked to see Xu Lianyu madly breaking her seal.

Gong Xinghui and Bi Futian set their eyes on Xu Lianyu, involuntarily letting out a sigh. They admired Xu Lianyu's action somewhat, but they felt even more that such a course of action was not worthwhile.

Whether it was for love or for the righteousness among sect members, her action of breaking her seal was reckless and ludicrous, sacrificing her own future. They lamented internally, it was a pity—both had originally admired Xu Lianyu's talent, but from now on, her cultivation would no longer be able to advance.

"If that's the case, then this old lady will also go crazy with you once. If you, Xu Lianyu, can do it, Wang Yilin will not be outdone!"

At this moment, Wang Yilin, seeing Xu Lianyu disregard her advice, bit her lip and also executed a technique.

Hum—

Suddenly, the aura around Wang Yilin also surged dramatically, reaching the Melding Earth Realm.

Like Xu Lianyu, she too, disregarding the aftereffects on her body, directly broke her own seal.

"Mad, they're all mad."

Xu Qiang saw that one Xu Lianyu breaking her seal was not enough, and now another had followed suit. Were they trying to crush him to dust?

Two powerful auras pressed in an instant, and Xu Qiang knew that he would probably not escape this calamity today.

"Everyone follow me and strike together, we must not let them harm our fellow sect members!"

Li Chu bellowed loudly, commanding the Black Cloud Sect disciples. He himself used a movement technique to leap out, attempting to fend off the attacks from Wang Yilin and Xu Lianyu for Xu Qiang.

Upon hearing Li Chu's orders, the Black Cloud Sect disciples all sprang into action, protecting Xu Qiang.

The scene suddenly descended into chaos. After Xu Lianyu and Wang Yilin unleashed their Melding Earth Realm cultivation, even martial artists at the Ninth Layer of the Spirit Gathering Realm found it difficult to withstand more than a few moves against them.

In a short span of time, the two had slain more than twenty Black Cloud Sect martial artists, instantly reversing the situation which was originally at a disadvantage.

"Do you really think the Black Cloud Sect has no one else?"

Seeing this, a burly man among the Black Cloud Sect disciples burst forth with a powerful aura, actually demonstrating a Half-step Melding Earth Realm cultivation.

Jia Shaluo and Li Tianyun, who had earlier been robbed of the Yin Sha Bead by Lin Chen, had also arrived at the battlefield. Watching the battle between the two sides, Jia Shaluo did not release his own secret technique.

Although the battle was tilting in favor of the Jade Cauldron Sect, Xu Lianyu and Wang Yilin were beginning to feel the strain, because the time they could maintain their Melding Earth Realm Cultivation after breaking their seals was almost up.
