

Primordial 149

Chapter 149: Raging Temper? Elder Sister Xu Has Never Feared Anyone

"Damn it, it's the Jade Cauldron Sect, ahh..."

When the Black Cloud Sect disciple sensed the attack from behind, it was already too late to dodge.

In an instant, the entire team from the Black Cloud Sect had been ambushed and killed by the people of the Jade Cauldron Sect.

The victors cleaned up the battlefield and plundered the resources from the bodies of the Black Cloud Sect disciples.

As for the bottles and jars containing Yin Sha Qi, everyone handed them over to Lin Chen to deal with; when they returned to the Sect, the Yin Sha Qi could be exchanged for Sect Contribution Points, but without hesitation, everyone gave them to Lin Chen.

Because in everyone's heart, if it were not for Lin Chen, they wouldn't have had the opportunity to ambush these Black Cloud Sect disciples.

Moreover, they had also collected many cultivation resources and magic treasures from the bodies of the Black Cloud Sect disciples, so naturally, they willingly gave the Yin Sha Qi to Lin Chen.

Of course, Leng Dong was an exception, but although he was dissatisfied, he did not want to be the one to stand out and express his displeasure with Lin Chen at this moment.

Seeing the situation, Lin Chen waved his hand and directly collected the bottles and jars into the space of the Primordial Myriad Transformation Cauldron. Of course, everyone thought Lin Chen was putting them into a Spatial Ring.

"Junior Brother Lin Chen is truly a master tactician, to have predicted these demon cultivators would pass by this area."

Faced with everyone's flattery, Lin Chen gave a faint smile and exchanged a few pleasantries with them.

After cultivating the Primordial Transformation Art, Lin Chen was extremely sensitive to various types of qi.

The reason he could deduce that the Black Cloud Sect disciples would pass through this area was because he had sensed the ominous qi from the Black Cloud Sect disciples and the residual Yin Sha Qi in this region.

These guys from the Black Cloud Sect, not just once, had passed through here, so Lin Chen had picked up on their tracks.

"Alright, let's hurry up and meet up with Elder Brother Huang Liang, so we don't keep him waiting."

Lin Chen said indifferently. Bi Futian and the others nodded, then led the way toward the direction of the main force.

Two hours later, as evening approached, Lin Chen and the others finally arrived at the rendezvous location.

This was a secluded valley with lush vegetation all around. There was also a canyon up ahead, indeed a good spot for monitoring Black Cloud Sect disciples.

Lin Chen looked around, feeling the qi of the surroundings. He guessed that those Black Cloud Sect disciples were likely hiding in the canyon ahead. That canyon was filled with ominous qi and rampant Yin Sha Qi.

Seeing Lin Chen and the others arriving, a young man dressed in white clothes with sword marks all over his outfit approached them, his face wearing some anger.

"Didn't we agree on a rendezvous? Why have you only just arrived, do you know you almost got us wiped out?"

The young man leading them, Huang Liang, angrily questioned Gong Xinghui and Bi Futian. Initially wanting to explain themselves, Gong Xinghui and Bi Futian chose to remain silent after seeing the wounds on the Jade Cauldron Sect disciples behind Huang Liang.

From the little more than eighty remaining Sect members behind Huang Liang, it was evident that before their arrival, the Jade Cauldron Sect disciples had already carried out the plan and had some conflicts with the Black Cloud Sect members.

"We should never have contacted you all. Just arriving now, were you waiting for us to defeat the Black Cloud Sect punks so you could come and claim the credit?"

"For such a short distance, it took you all so long to arrive, a bunch of useless people. I must have been blind to have invited you, hoping you could coordinate with our operations."

After scolding Gong Xinghui and Bi Futian, Huang Liang, seeing that the crowd was rendered speechless, berated them even louder.

"What are you saying, Elder Brother Huang Liang? You clearly agreed to contact us before making a move. Moreover, we hadn't arrived yet when you took it upon yourself to act. Isn't that reckless? You yourself said that Zhao Ye is powerful and needs our joint effort to be taken down, so why didn't you wait for us?"

After being scolded by Huang Liang, Bi Futian couldn't help but speak out his mind.

"You have the nerve to speak, knowing how strong Zhao Ye is, yet you came so late. If you had arrived earlier, we would have broken through the Black Cloud Sect's defenses and made it deep into the canyon."

Huang Liang, seeing Bi Futian dare to retort, immediately yelled back even more fiercely.

"You are wrong. Since it's a joint attack, you should have waited for us. Otherwise, you're responsible for the consequences!"

"Besides, if you want to defeat Zhao Ye, you still need to rely on our strength. Given this, what makes you think you're better than us?"

Lin Chen cast his gaze on Huang Liang and spoke calmly.

He didn't criticize Huang Liang for attacking the Black Cloud Sect people without being certain of victory. He didn't hold it against him that startling the enemy might have been the best outcome, considering this fellow dared to blame their late arrival.

From the intelligence Huang Liang had provided earlier, in a direct confrontation, the disciples of the Jade Cauldron Sect didn't have the strength to crush the Black Cloud Sect.

Even if Lin Chen and his group had arrived earlier, the only difference would have been more casualties among the Jade Cauldron Sect disciples, and their retreat would have been even more embarrassing.

Without any tactics and outnumbered by the enemy, daring to venture into the canyon was nothing but rushing to their deaths.

Hearing Lin Chen's words, Huang Liang immediately furrowed his brow, looking fiercely at Lin Chen.

When he saw that Lin Chen's cultivation was merely at the Sixth Layer of the Spirit Gathering Realm, his anger completely erupted.

"Who the hell do you think you are, talking to me like that?"

Huang Liang shouted furiously at Lin Chen, his voice filled with anger. If it weren't for maintaining his image in front of everyone else, he probably would have lashed out and taught Lin Chen a lesson already.

However, Huang Liang noticed that when he finished speaking, the Jade Cauldron Sect disciples who had just arrived with Lin Chen looked at him with odd glances, as if they were both troubled and amused.

Lin Chen looked at Huang Liang, his brow slightly furrowed, feeling somewhat displeased with Huang Liang's attitude, because everything Lin Chen had just said was true, and what was Huang Liang's attitude at the moment, intending to use his strength to oppress him?

"And what are you supposed to be, speaking to the people of our Jade Bird Peak like that? Do you think Jade Bird Peak is easy to bully?"
