

## Primordial 165

Chapter 165 Master's Temper is Really Big

"Quick, we're almost there, everyone pay attention to wrapping up your efforts, don't let the poison erode your spiritual power,"

Xu Ma'an sensed that Yang Yuemin's poison was being expelled and urgently reminded everyone.

Zhao Rushi even took out a cyan jade vial containing some kind of medicinal liquid, and after casting a spell, she collected all the black poisonous fog expelled from Yang Yuemin's body into the jade vial.

Hum—

Just as all the poison was expelled from her body, Yang Yuemin's complexion instantly turned from pale to rosy, and a powerful aura once again recovered from her.

"Master!"

Yang Yuemin sprang up, her white dress clinging to her, her physical state and internal spiritual power instantly some recovered, transforming back into the enchanting and beautiful witch akin to a fairy.

Seeing her master awaken, Xu Lianyu immediately rushed over with tears wetting her eyes and began to sob.

"Good disciple, I've worried you,"

Yang Yuemin comforted, touching Xu Lianyu's small head.

She then approached Xu Ma'an and the others, bowing slightly.

"Thank you, senior brothers and sisters, for saving me."

Yang Yuemin expressed her heartfelt gratitude; having cultivated for so many years, this was the first time she had encountered such a dangerous situation, one that nearly cost her life. If not for the treatment from Zhao Rushi and the others, she might not have survived.

"Sigh, Junior Sister, you're too polite. The poison that struck you was during the sect's investigation into the Black Cloud Sect. As Sect Leader, it's my negligence that your life was endangered."

Xu Ma'an waved his hand, indicating that Yang Yuemin need not be polite, and his complexion also turned grim as he clenched his fists tightly and looked towards the west, where the Black Cloud Sect was located.

"Yes, Little Junior Sister, we're all brothers and sisters of the sect, there's no need for formalities. You should really thank this little disciple of yours. It was he who entered the Mire Dragon Marsh Secret Realm and retrieved the Dragon Whisker Polygonum for you; otherwise, we truly would have been at a loss."

Zhao Rushi's face revealed a smile upon seeing Yang Yuemin's recovery, glancing toward Lin Chen, her eyes conveyed a different sentiment.

She was now one hundred percent certain that before they began expelling the poison from Yang Yuemin, Lin Chen had used some method to weaken the toxins within her body.

Hearing Zhao Rushi's words, Yang Yuemin looked surprised as she turned to Lin Chen.

She had not expected that the herbal material used to save her was actually collected by Lin Chen from the secret realm.

Knowing the dangers within the Mire Dragon Marsh Secret Realm, Yang Yuemin didn't expect this junior disciple, who had been inducted into the sect for only half a year, would risk his life to enter the realm and gather herbs for her, and she couldn't help but feel moved.

And seeing Lin Chen's aura actually reaching the Seventh Layer of the Spirit Gathering Realm, Yang Yuemin was even more astonished.

Her little disciple, truly possessing an Ancient Divine Body, cultivated at such an astonishing speed. However, the fact that he was able to come out from the Mire Dragon Marsh safe and sound must also be due to some fortuitous opportunities he found.

"Alright, the poison afflicting your master has finally been expelled. Now it's time to distribute the rewards for both of you,"

Xu Ma'an said indifferently.

Previously, Lin Chen had been concerned about Yang Yuemin's health. While other Jade Cauldron Sect disciples had received their sect rewards, Lin Chen had said his should be delayed. He wanted to wait until his master's poison was completely cured before he would be in the right frame of mind to accept his reward.

This statement wasn't something Lin Chen uttered just to feign concern for his master. It was indeed what he thought at the time.

The rewards for Lin Chen and Xu Lianyu were to be five hundred thousand sect contribution points each, which could be exchanged for cultivation resources and cultivation techniques within the sect. Additionally, both of them were granted a chance to enter the sect's Martial Arts Pavilion once and select one martial arts skill of the Profound Grade High-Grade.

Upon hearing that it was a Profound Grade High-Grade martial arts skill, Lin Chen's eyes lit up with excitement.

"Stingy ghost, it's another Profound Grade High-Grade martial arts skill. I've already mastered more than a dozen of these. Why can't they open up the Earth-grade martial arts skills at the bottom of the sect's chest for us?"

"This time, junior Brother Lin Chen led us to slay many demon cultivators from the Black Cloud Sect, and also destroyed their Yin Sha Qi harvesting and those Yin Sha Puppets they were refining."

Xu Lianyu pouted and complained directly to Xu Ma'an.

The others present felt embarrassed at her words, as probably only Xu Lianyu in the entire Jade Cauldron Sect dared to talk to Xu Ma'an like that.

"Nonsense, Earth-grade martial arts skills are extremely precious. Even the elders of the sect don't have the privilege to browse them at will. The credit you two established this time is indeed significant, but still not enough to warrant access Earth-grade martial arts skills," Xu Ma'an said.

"If I were to open it up just because of what you said, how would I convince everyone else?"

"Lin Chen, if you want to learn Earth-grade martial arts skills, then show your worth properly. There will be opportunities in the future," Xu Ma'an said, extinguishing the flames of hope that had arisen in Lin Chen's heart.

"Yes, Sect Leader, I will definitely work hard," Lin Chen replied, secretly thinking that the old man was actually luring him with false promises.

Although he didn't get access to Earth-grade martial arts skills, Lin Chen was quite content with the Profound Grade High-Grade martial arts skills.

One should know that Lin Chen's most proficient martial arts skill was the Fiery Flame Palm, which he had acquired from the auction at the Wanxing Commerce Association. It was only a lower-grade spirit level martial arts skill. Although when all nine palms were executed together, their combined power could be compared to that of a Spirit Grade Top Quality martial arts skill, it was still ultimately of a lower grade.

If he could possess a Spirit Grade Top Quality martial arts skill with a stacking power effect, exhibiting it would be comparable to an Earth-grade one.

Hence the grading of martial arts skills was indeed very important.

As for the sword techniques Lin Chen knew, such as the High Mountain Flowing Water Sword Technique, although it was an Earth-grade Low Quality swordsmanship, Lin Chen had yet to fully master it.

There's an old saying that a man can never have too many skills, and Lin Chen naturally wanted to learn more advanced martial arts skills.

Afterward, Lin Chen and Xu Lianyu followed Xu Ma'an to the Treasure Pavilion to receive their rewards.

However, before they had even taken two steps, Yang Yuemin's gaze fell upon Lin Chen and Xu Lianyu.

"Don't think that just because you have brought back the antidote this time, I will let you off lightly. What did I tell you before? Once your cultivation reaches the Melding Earth Realm, you must absolutely not suppress your cultivation to enter the secret realm. Have you disregarded the words of your master as just wind passing by your ears?"

"You even took your junior brother with you. What if something had happened to you both?"

"Starting today, you are to be confined to Jade Bird Peak for one year, not to set foot down the mountain," Yang Yuemin decreed.
