Chapter 192: The Attack of the Black Cloud Sect

"Boss is brilliant!"

The assassins in black watched the elderly man with a cane, and also slowly took their seats.

Although they said this, in their hearts, they felt that their boss was being overly cautious.

Even a martial artist at the peak of the Melding Earth Realm could only extend their Divine Sense to explore within a five-kilometer radius, and the farther the distance, the weaker the perception.

Moreover, even if the Divine Sense detected something, if the cultivation levels were similar, one could also detect the other's presence via the back-tracing of the Divine Sense.

Thus, they believed that if someone was indeed spying on them, as their boss had suggested, they would surely discover it.

Even if the person spying on them was a powerful martial artist capable of sensing them, it was absolutely impossible for them to hear their conversation.

But what they didn't know was that there existed things like the Spiritual Bees refined by Lin Chen in this world.

Hidden in the distance at the ruined temple, Lin Chen thought to himself that this old man with a cane was so meticulous and cautious in his actions, making him a challenging opponent to deal with.

Before long, another assassin dressed in black returned to the temple.

"How did it go, Wang Qi?"

The old man with the cane stood up when he saw the returning assassin and asked.

Upon hearing this, the assassin named Wang Qi nodded heavily toward the old man with the cane.

"Everything is in place, the plan is going successfully without any unforeseen issues," replied Wang Qi.

"Good, Liu Zhu, you and Wang Qi can start acting together with your men now, and you must take down Cloud Sky City," the old man with the cane said cheerfully.

"Yes!"

Upon hearing the order, the two men respectfully acknowledged the command and then left the ruined temple with the other assassins, gathering toward the direction of Cloud Sky City.

Lin Chen, hiding in the distance, had a stern expression on his face. Although he knew that these assassins in black intended to target Cloud Sky City, he had no knowledge of their plan and was completely unable to intervene. Furthermore, with the enemy's overwhelming numbers and strong cultivation, even if Lin Chen knew their conspiracy and plan, he was powerless to reverse the situation on his own, and Cloud Sky City was likely to face difficulty.

There were the Seven Great Families and four major sects within Cloud Sky City.

For these assassins in black to dare make a move on Cloud Sky City, they must have been fully prepared.

Who was the person behind this?

At this moment, at the Jade Cauldron Sect.

Inside the council hall of the main peak, Jade Cauldron Peak, all the Twelve Peak Masters, elders from the inner and outer sects, and Sect Leader Xu Ma'an were gathered.

All of them had solemn expressions on their faces.

"What has gotten into the Black Cloud Sect that they would attack so recklessly at all costs? Are they looking to have a fight to the death with our Jade Cauldron Sect?" vented Zhang Dachu, the Peak Master of the Seventh Peak, angrily slamming his palm on the stone table in front of him, leaving a deep palm print.

It turned out that in the time since Lin Chen had left, the Black Cloud Sect had launched frenzied attacks, ignoring the deaths of their disciples, and sent them to attack the forces around the Great Flame Dynasty, among which the Jade Cauldron Sect was one.

The vassals and forces loyal to the Jade Cauldron Sect were attacked and afflicted one after another, and they all turned to the Jade Cauldron Sect for rescue, hoping that the sect would strike back against the enemy.

The Peak Masters had gathered to discuss a solution to the issue.

Tap-tap—

However, just at that moment, Lian Tianxing rushed into the council hall with a sense of panic.

"Tianxing, what has happened that you are so flustered?" Xu Ma'an frowned and asked. He rarely saw Ren Tianxing behave so anxiously.

"Master, the Black Cloud Sect has attacked again, and this time they have come directly to the gates of our Jade Cauldron Sect, already reaching the foot of our mountain."

"This time, the Black Cloud Sect comes with a ferocious momentum. All of the Eight Great Elders of the Black Cloud Sect have launched an attack, and our junior brothers and sisters can hardly hold on," Ren Tianxing reported the situation outside accurately.

"What!? The Black Cloud Sect is too arrogant, daring to attack the Jade Cauldron Sect directly, showing no regard for us at all. I'm going to crush them," Wang Dachui smacked the stone table again, standing up and storming out of the council hall.

The other Peak Masters also showed their anger, soaring into the air, transforming into streaks of light as they left the council hall, ready to settle accounts with those from the Black Cloud Sect.

The Eight Great Elders of the Black Cloud Sect were quite powerful, and although the individual combat power of each of the Eight Great Elders was slightly inferior to that of any one of the Twelve Peak Masters, at the moment they were joining forces.

The methods of the Black Cloud Sect were notoriously vicious and ruthless, and they were concerned that Wang Dachui might fall into a trap.

Soon, the Peak Masters arrived at the gates of the Jade Cauldron Sect and saw the Eight Great Elders of the Black Cloud Sect leading the disciples of their sect in a massacre against the Jade Cauldron Sect disciples. The Peak Masters couldn't bear to watch any longer, and they immediately flew out, determined to eliminate the Eight Great Elders right there.

Yang Yuemin was naturally among them, but as she was about to take action, she received a message.

Under such circumstances, she was reluctant to be concerned with any Jade Slip. But when she realized that the person who sent the message was Lin Chen, she paused.

Since Lin Chen had joined Jade Bird Peak, he rarely sent her messages.

Although Lin Chen had only been with Jade Bird Peak for just over a year, Yang Yuemin had some understanding of him. If it were not an urgent matter, Lin Chen would definitely not send her a message.

Immediately checking the message in the Jade Slip, Yang Yuemin found out the information inside and was greatly shocked. She hadn't expected the people from Moon Shadow Pavilion to be present within the territory of the Great Flame Dynasty, and they were even planning to make a move on Cloud Sky City, right in their Jade Cauldron Sect's domain.

Whether it was any one of the messages, they were all startling and certainly no small matter.

Had it not been for the current situation, Yang Yuemin would have rushed to Lin Chen's location right away. But the immediate circumstances truly prevented her from leaving. So, she sent a message to her senior disciple, Zhao Yijing, to go find Lin Chen.

Then Yang Yuemin joined the battlefield, fighting alongside her fellow sect members.

The actions of the Black Cloud Sect this time were too sudden and unfathomable.

Although the Eight Great Elders of the Black Cloud Sect were strong, they were bound to meet their match against the Twelve Peak Masters of the Jade Cauldron Sect.

But despite this, why would these individuals dare to launch such a major offensive?
