

## Primordial 254

### Chapter 254: Robust Physique

Many people found it extremely difficult to take a single step under this gravity, but they never expected that Lin Chen and Xu San would be so crazy as to start competing with each other directly.

Many recognized Xu San, after all, he was quite well-known in the Jade Cauldron Sect, however, they had never even heard of Lin Chen.

And when they discovered Lin Chen's Cultivation was only at the First Layer of the Melding Earth Realm, their hearts were filled with shock.

"This junior only has the Cultivation of the First Layer of the Melding Earth Realm, how can he move forward under this nearly twenty-fold gravity, and his speed is not slower than Xu San's at all."

"It's really bizarre, could this guy be concealing his true Cultivation? Even some Martial Artists at the Eighth Layer of the Melding Earth Realm are finding it tough here, yet this guy is full of vigor."

"No, this kid is indeed at the First Layer of the Melding Earth Realm, right, he's the one who broke through seven levels at the Stone Pillar Plaza, and also defeated twenty batches of Yuan Soldier Puppets in the outer hall."

"So it's him, that abnormal martial artist!"

Many people around recognized Lin Chen's identity and immediately started discussing amongst themselves.

Of course, Lin Chen was unaware of this; in the eyes of the crowd, he was already famous.

Just as Xu San was contending with Lin Chen, a sudden noise came from behind Lin Chen. When he turned to look back, he found that it was Mu Shuier who had collapsed.

Hu hu—

"Third Senior Sister, what's wrong with you?"

Lin Chen flashed to Mu Shuier's side and asked with concern.

He observed that Mu Shuier's complexion was very pale, as if she was weak from a deficiency of Spiritual Power.

"Junior Brother Lin Chen, it seems we can't hold on much longer. It looks like we have no choice but to give up on moving forward. Don't worry about us; just go ahead. We have our own way of getting back."

Mu Shuier was considering retreating.

It wasn't just Mu Shuier, Xu Lianyu and Liang Rou felt the same, with only Zhao Yijing faring slightly better.

At this moment, Xu San did not expect that Lin Chen would turn back to check on Mu Shuier and the others. This allowed him to save face, as he felt he had overtaken Lin Chen, although this was just his own way of regaining some dignity, as Lin Chen had never taken him seriously from the beginning.

After a moment's thought, Lin Chen simply picked up Mu Shuier and carried her on his back.

"Junior Brother, what are you doing? Put me down quickly."

Mu Shuier never expected Lin Chen to take such an action as carrying her on his back, which immediately made her face flush with embarrassment, feeling both shy and flustered. She had never been touched by a man before, not even a hand touch, let alone being carried on the back.

Aside from Xu Lianyu, Lin Chen's other three senior sisters were all voluptuous beauties. Now, with Lin Chen's chest pressed against Mu Shuier's back, it only added to her embarrassment.

"Don't worry, Senior Sister, I won't let you lose here. Trust me."

"First Senior Sister, Second Senior Sister, Fourth Senior Sister, wait here for me. I'll take Third Senior Sister to the finish line, then come back to get you all."

Lin Chen spoke with utmost confidence, although at this moment he did not even know where the end of this path was, yet he made such bold statements.

Not only did he want to reach the finish line himself, but he also intended to bring all four of his senior sisters along.

Hearing his words, Zhao Yijing and the others fell silent. They wanted to say something, but for some reason, they could not speak.

In this moment, Lin Chen seemed to emit a fascinating and unique aura.

Then, with Mu Shuier on his back, Lin Chen moved quickly through the channel.

"Oh my, is this guy even human? Carrying someone on his back, he's still moving so quickly under such heavy gravity."

"Yeah, he's about to surpass Xu San soon; is he completely unaffected by the gravity here?"

Lin Chen's actions once again shocked everyone, as they watched him carrying Mu Shuier with their mouths agape.

And in no time at all, Lin Chen, carrying Mu Shuier, had passed Xu San.

"This guy..."

Watching Lin Chen carry Mu Shuier past him, Xu San's face showed a fierce expression, as Lin Chen's actions had literally dragged his face through the mud.

There were many Elite Disciples from various Sects, including his own Jade Cauldron Sect disciples. After returning to the Sect, the news of him being utterly defeated by Lin Chen would destroy his standing within the Sect.

At this moment, murderous intent rose in Xu San's heart.

In this situation, if he attacked Lin Chen by surprise, Lin Chen might not be able to handle it.

But Xu San did not do so, setting aside the fact that there were so many witnesses, even if he killed Lin Chen, his reputation would still be tarnished, not to mention that Lin Chen belonged to Jade Bird Peak.

Anyone who had been detrimental to Jade Bird Peak had never met a good end, and Xu San certainly did not have the audacity to provoke Yang Yuemin.

Lin Chen's speed kept increasing, and soon he was at the forefront of the group, drawing all eyes to himself. They all commented on how abnormal Lin Chen was to move so fast under such gravity, as if he was unaffected by it at all.

What was even more infuriating was that Lin Chen had only the Cultivation of the First Layer of the Melding Earth Realm, making everyone feel as if their years of Cultivation had been in vain.

At this moment, Ma Yuan took note of Lin Chen's figure and immediately recognized him as the shadow that had snatched his Blue Lotus Divine Flame. Rage filled him, and his fists clenched tight, making a crisp sound.

"Didn't expect you to still dare to show up; you won't be leaving here alive."

Ma Yuan pondered darkly, yet did not rush to attack Lin Chen. At this moment, even he had to focus all his effort on resisting the gravity here, unable to spare any for something else, as every step forward was a considerable challenge for him.

However, Lin Chen swiftly passed everyone, his figure gradually vanishing from the crowd's sight.

After Lin Chen carried Mu Shuier through the Gravity Channel, the light ahead became clear, and they were presented with another huge stone room.
