

## Primordial 267

### Chapter 267 Return

As soon as Ma Yuan's words fell, the eyes of the people around them all turned to gaze at Lin Chen.

In their eyes, there was nothing but greed.

Lin Chen had actually obtained the highest inheritance of this relic; if they could get it from Lin Chen, they would be rich.

However, since Lin Chen was from the Jade Cauldron Sect, the crowd did not dare to act rashly.

Seeing that his words had successfully aroused everyone's greed towards Lin Chen, Ma Yuan felt much more comfortable in his heart.

Although he could not kill Lin Chen himself, now that Lin Chen had caught the attention of these sects, it was inevitable that someone would be tempted to strike at him.

Yang Yuemin also noticed the looks on the faces of the people around and, along with Xu Ma'an and the others, quickly moved to protect Lin Chen behind them, their cold gazes falling on the crowd around them.

If anyone wanted to make a move on Lin Chen, they would be the first to disagree.

At the same time, Xu Ma'an and the others were unspeakably thrilled; Lin Chen had actually gotten the highest inheritance of this relic, and their Jade Cauldron Sect was on the rise.

As long as Lin Chen grew up, he would surely be an unparalleled powerhouse one day, after all, that inheritance from the ancient ruins contained cultivation techniques and treasures that were not on the same level as the current ones.

At this moment, a cold smile appeared on Lin Chen's lips. He was well aware of Ma Yuan's purpose, but the other party was miscalculating if they thought they could plan against him.

Ma Yuan wanted to shift the disaster elsewhere, well, he would certainly not be courteous in return.

"Ma Yuan, don't think you can be arrogant just because you obtained a Heavenly Level Superior Cultivation Technique."

"Even if that technique wasn't restricted by a Blood Oath and could be taught to others, allowing your Black Cloud Sect to grow stronger, it will still take some time before your Black Cloud Sect can rise, won't it?"

"This place is within the jurisdiction of the Jade Cauldron Sect. Do you really think that just by obtaining that Heavenly Top Grade technique, it can immediately show its effectiveness!?"

The voice of Lin Chen reached everyone's ears.

The gazes of people from the various sects immediately fell on Ma Yuan.

People were not clear about what inheritance Lin Chen had received, but Ma Yuan had actually obtained a Heavenly Level Superior Cultivation Technique, something that not even the entire Great Flame Dynasty possessed.

And most importantly, that technique wasn't constrained by a Blood Oath, how could they not be envious?

If they got that Heavenly Level Superior Cultivation Technique, their Cultivation would surely increase significantly.

Moreover, if Ma Yuan brought this technique back to the Black Cloud Sect, and the Black Cloud Sect grew stronger with time, given their ambition, they would inevitably attack the Great Flame Dynasty and turn against each sect.

At this moment, the gazes of the various sects turned unfriendly, filled with hostility towards the people of the Black Cloud Sect.

Now they could no longer remain bystanders, they absolutely could not let the Black Cloud Sect become stronger.

Especially the people of the Great Flame Dynasty, whose previously cold expressions had become increasingly uneasy.

The Great Flame Dynasty had never feared the Black Cloud Sect because it possessed Earth Grade Top Tier cultivation techniques, which was also the reason why the Black Cloud Sect did not dare to openly target the Great Flame Dynasty.

But now it was different; if the Black Cloud Sect had that Heavenly Top Grade technique, in time they would no longer have any fear of the Great Flame Dynasty.

"We must leave this place quickly!"

Seeing the gazes of the people around them, the people from the Black Cloud Sect hurriedly left.

Before leaving, they looked deeply at Lin Chen, knowing that this youngster was not to be trifled with, but with the protection of Xu Ma'an and others, they currently couldn't do much to Lin Chen.

But their own situation was not good; Lin Chen's words had turned the martial artists of the various sects against them.

"Chase, we can't let them take Ma Yuan back to the Black Cloud Sect. We must do everything we can to kill him here. Even if we can't get that Heavenly Level Superior Cultivation Technique, we can't let it fall into the hands of the Black Cloud Sect's people."

The leader of the Great Flame Dynasty said to the army behind him with a cold expression.

The other sects had the same idea and chased after the direction where the people from the Black Cloud Sect had left.

"Hmph, what a great opportunity, these old monks are probably going to fall this time; daring to be so arrogant on my Jade Cauldron Sect's territory, I too will follow and find an opportunity to finish them off," Wang Dachui said, delighted in his heart, seeing the demon cultivators from the Black Cloud Sect being jointly attacked by everyone.

If the Great Flame Dynasty had been so united earlier, the Black Cloud Sect would have been eradicated long ago, even if it had been more powerful.

"Don't be reckless. The most important thing now is to safely escort Lin Chen back to the Sect. Those cunning old fellows might just come back halfway to cause trouble for Lin Chen," Xu Ma'an stopped Wang Dachui and immediately explained the seriousness of the situation.

Hearing this, everyone also agreed with Xu Ma'an's words. Since Ma Yuan had obtained a Heavenly Level Superior Cultivation Technique, what kind of exceptional opportunity Lin Chen must have gotten from the highest inheritance of the ruins must be incredible.

At least equally majestic as the Heavenly Level Superior Cultivation Technique, as well as many other treasures, right?

Thinking of this, the hearts of the Nine Peaks Peak Masters of the Jade Cauldron Sect became heated, and they immediately realized that the first and foremost task was to escort Lin Chen back to the Sect.

Otherwise, if Lin Chen caught the eye of other sects, it would be troublesome.

Xu Ma'an and others began arranging tasks, the Nine Peaks Peak Masters decided to take six people to escort Lin Chen away, and Xu Ma'an also followed closely.

The remaining three Peak Masters were tasked with escorting the other disciples back to the Sect, since Lin Chen was important, but the other True Disciples were equally important.

Whoosh whoosh—

Xu Ma'an and the others were most afraid that other sects would have improper thoughts towards Lin Chen and turn to make trouble for him together.

If they were held back, Lin Chen would be in danger.

Fortunately, Xu Ma'an's concerns were superfluous as no martial artists from other sects chased after them as they escorted Lin Chen back to the Sect.

After reaching the Sect, everyone secretly sighed in relief.

Once back at the Jade Cauldron Sect, even if those people still had designs on Lin Chen, at this moment they would not dare to forcefully enter the Jade Cauldron Sect.

The Great Formation of the Jade Cauldron Sect was no joke; even martial artists at the Reverting Void Realm wouldn't dare to barge in rashly.

After returning to the Sect, Yang Yuemin noticed the expression of the various Peak Masters and immediately took Lin Chen back to Jade Bird Peak.
