

## Primordial 271

Chapter 271: Supreme Grade Elixir with Fivefold Effects

As everyone took out the treasures they had obtained from the ruins, the inventory piled up, filling more than half of the treasury.

All of the magical treasures were of Profound Level or above. Zhao Yijing took out one hundred and thirty pieces, Liang Rou brought out one hundred and ten pieces, Mu Shuier contributed one hundred pieces, and Xu Lianyu had ninety-eight pieces.

Mu Qingxuan was so shocked that she was left staring dumbfounded at the sight of so many treasures being presented.

Her mind was in complete disarray. When she was in White Phoenix Hall, she had heard from its disciples that Jade Bird Peak was the poorest among the Nine Peaks.

However, what she was seeing now suggested that what others had been saying about the Sect was purely rumor.

The combined value of these treasures could possibly exceed even the Sect's main peak treasure vault.

When Mu Qingxuan shifted her gaze to the pile of treasures in front of Lin Chen, she was shocked and dumbfounded once more.

So were Zhao Yijing and the others.

"Junior Brother Lin Chen, when... when did you obtain so many treasures?"

Zhao Yijing and the others asked in astonishment.

Looking in the direction of their gaze, in front of Lin Chen was a veritable mountain of treasures. There were probably more than five hundred pieces, and Lin Chen was still continuously taking out more from his Spatial Ring.

"Eight hundred ProFound Grade Low-Level magical treasures, three hundred ProFound Middle Grade magical treasures, one hundred and thirty ProFound High-Grade magical treasures, forty Supreme Grade ProFound treasures, and fifteen Earth-grade Low Quality magical treasures."

"In addition, there are over a thousand various kinds of Spiritual Medicines, ores, Rare Treasures, and elixirs."

"Alright, let's start sorting. Later, I can pick some to refine even more powerful magical treasures and elixirs for everyone."

After Lin Chen took out the resources he had obtained from the ruins, he began to distribute them among everyone.

Lin Chen had no reservations about Jade Bird Peak because they all treated each other like family. If these resources could help his senior sisters in their cultivation and improve their strength, Lin Chen certainly wouldn't be stingy.

Seeing Lin Chen take out so many treasures, Zhao Yijing and the others also knew that Lin Chen did not regard them as outsiders, feeling incredibly moved.

For any ordinary person, such a plethora of treasures could easily have been kept hidden for oneself. Who would take them all out and share with their fellow disciples?

It seemed that only the bond within Jade Bird Peak could reach this extent.

Before long, everyone had sorted all of the materials.

At that moment, the doors of the treasury were pushed open, and a beautiful figure walked in.

"You... you have so many treasures!?"

Wang Yilin had been in seclusion ever since she returned from Mire Dragon Marsh Secret Realm last time, so she had not participated in the recent expedition to the Descension Ruins.

Today, after she came out of seclusion, she learned from her master Zhao Rushi that Lin Chen had gone to an Ancient Ruin this time and had obtained the highest inheritance of the ruins. Zhao Rushi kept telling her to visit Jade Bird Peak and see if she could get some treasures from Lin Chen that she could use.

After all, in the eyes of Zhao Rushi, the relationship between Wang Yilin and Lin Chen was somewhat ambiguous, a special kind of closeness. Zhao Rushi believed Lin Chen wouldn't be too stingy.

Looking at the countless treasures in front of her, Wang Yilin was completely dumbfounded.

She had visited the Sect Treasure Vault, but the spectacle before her eyes was probably not much different.

She now deeply regretted why she had entered seclusion, otherwise, going into the ruins, she could have surely obtained some treasures to bring back.

However, Wang Yilin was not willing to give up the chance to acquire treasures and immediately approached Lin Chen.

"You ungrateful thing, hiding here and dividing treasures with your senior sisters, huh? I am your rightful wife, and even if you take in your senior sisters, they can only be concubines, while I should be the main wife. Don't you plan to share some of these treasures with me?"

Wang Yilin stepped in front of Lin Chen and twisted her voluptuous figure, which immediately sent a wave of fragrance towards Lin Chen. She batted her eyes, looking affectionately at Lin Chen.

Seeing this, Lin Chen felt a headache coming on; the last thing he wanted was for a woman to pull this kind of act on him.

Despite Wang Yilin's pitiful appearance, Lin Chen felt no sympathy. Ever since he had known Wang Yilin, Lin Chen had never felt he owed her anything.

Although Wang Yilin's initiatives had made her relationship with Lin Chen somewhat unusual in the past.

But in Lin Chen's heart, Wang Yilin was ultimately an outsider, a member of Crimson Dawn Peak, entirely different from his senior sisters. Lin Chen had no intention of giving away treasures to her for nothing.

"Wow, this is a Third-grade Solid Foundation Elixir, perfect for my recent breakthrough in cultivation, I'll eat one of yours, haha."

Wang Yilin's eyes lit up as she grabbed a jade vial and quickly downed an elixir.

"No!"

Lin Chen wanted to stop her, but it was already too late; Wang Yilin was quick and had already eaten the Solid Foundation Elixir.

Whirr—

In an instant, a violent energy erupted within Wang Yilin's body, rushing through her meridians. Her face turned bright red all at once.

"Ah..."

Wang Yilin let out a soft groan and almost collapsed to the ground.

Lin Chen quickly caught her, then gently laid Wang Yilin down and placed a palm on her back, pouring spiritual power into her to neutralize the effects of the Solid Foundation Elixir.

As Lin Chen's power worked inside Wang Yilin, he finally managed to help her neutralize the massive potency of the elixir.

"This isn't a Third-grade Solid Foundation Elixir; why is the effect so strong!?"

Wang Yilin opened her eyes, slowly coming to, her back drenched in sweat. If not for Lin Chen helping her open her meridians and digest the power within her body, she probably would have exploded and died.

"You still have the nerve to say that, who told you to eat recklessly."

"This is a top-grade elixir brought back from the ancient ruins, its potency is more than five times that of ordinary elixirs. If not for me, you might have lost your life here today."

Lin Chen lectured Wang Yilin, not dwelling on the incident with the Solid Foundation Elixir.

To Lin Chen, an elixir didn't really matter all that much.

"Five times the potency?"

Upon hearing Lin Chen's words, Wang Yilin was shocked. Then, withdrawing her divine sense, she indeed found the spiritual power within her had greatly increased. She had just broken through to the Eighth Layer of the Melding Earth Realm, and there already seemed to be a sign of another breakthrough.
