

Primordial 273

Chapter 273: Transmitting Skills, Sealing the Life-or-Death Pass

The reason was very simple, Lin Chen had obtained the highest inheritance from the Descension Ruins this time, and everyone outside coveted it.

Although people also knew that the Black Cloud Sect had acquired a Heavenly Grade top-quality technique, Jade Cauldron Sect still couldn't escape from becoming a target for public censure.

After all, the highest inheritance of the ancient ruins was too tempting.

This temptation completely drove people to disregard the consequences of offending Jade Cauldron Sect.

Furthermore, even though a Heavenly Level Superior Cultivation Technique was extremely attractive, Black Cloud Sect was much harder to deal with than Jade Cauldron Sect.

Many preferred to confront Jade Cauldron Sect rather than risk trying to snatch the technique from the hands of demon cultivators of Black Cloud Sect, because the chance of death was simply too high, and the likelihood of success was next to nil.

Additionally, Black Cloud Sect already had irreconcilable differences with Jade Cauldron Sect, and while Lin Chen was in the ruins, he had completely enraged them, especially Ma Yuan, from whom Lin Chen had also snatched the Blue Lotus Divine Flame.

Therefore, it wouldn't be long before Black Cloud Sect inevitably attacked Jade Cauldron Sect.

What Lin Chen was most concerned about was the Moon Shadow Pavilion behind Black Cloud Sect, whose assassins were far more formidable than Black Cloud Sect.

The inheritance was obtained by Lin Chen, but whether it was Black Cloud Sect, Moon Shadow Pavilion, or other forces, they would inevitably target Jade Cauldron Sect first, and by then, Yang Yuemin and others would inevitably be involved.

So it wasn't just essential for Lin Chen to enhance his own strength, but he also needed to find a way to help his master and senior sisters improve their strength as quickly as possible to withstand the impending storm.

Thinking this, Lin Chen had already arrived outside Yang Yuemin's residence.

"Master, your disciple Lin Chen has important matters to discuss with you,"

Lin Chen said respectfully as the door opened.

"Come in."

Lin Chen entered the courtyard and headed to the room where Zhao Yijing was in seclusion.

Lin Chen directly stated his purpose for being there.

When Yang Yuemin heard that Lin Chen possessed a Heavenly Grade top-quality technique and was not restricted by the Blood Oath, she was incredibly shocked.

She had not expected that the highest inheritance Lin Chen received not only enhanced his Divine Soul but also granted him such a powerful technique.

Moreover, Lin Chen now even intended to impart it to her and Zhao Yijing among others.

After listening to Lin Chen, Yang Yuemin was so shocked that she was speechless for a long time.

Seeing Yang Yuemin remain silent, Lin Chen thought she was unwilling to put down the dignity of a master and accept his teaching because Yang Yuemin was the master and Lin Chen was the disciple; a disciple teaching a master was indeed somewhat inappropriate.

Therefore, Lin Chen reiterated the importance of the matter and disclosed everything about Moon Shadow Pavilion once more.

After some thought, Yang Yuemin also understood Lin Chen's concerns and no longer refused.

"Since Master has come to understand, let's begin,"

Lin Chen said, extending his arm and touching Yang Yuemin's forehead with a finger, immediately channeling Spiritual Power into her forehead, followed by a surge of powerful Divine Soul Power.

"Please hold your breath and concentrate, Master, to accept the technique from within this Divine Soul,"

Lin Chen spoke calmly as the information of the Divine Soul continuously transmitted into Yang Yuemin's Soul Sea.

If someone unfamiliar attempted this, it would be impossible for them to hold their breath and concentrate while opening their Soul Sea to outsiders, allowing someone else's Divine Soul information to pass into their own Soul Sea.

For a moment's carelessness could easily damage their Divine Soul and turn them into an idiot.

However, upon hearing Lin Chen's words, Yang Yuemin immediately held her breath and concentrated, beginning to receive the cultivation technique imparted from Lin Chen's Divine Soul.

Yang Yuemin was inwardly shocked, for she had not expected Lin Chen's method of imparting a cultivation technique to be like this.

This direct transmission of a technique through the Divine Soul was something only Reverting Void Realm powerhouses could achieve, requiring immense Divine Soul Power. Otherwise, errors were bound to occur, such as insufficient Divine Soul strength to maintain the connection, leading to damage to both parties' Divine Souls.

However, when Lin Chen displayed the Divine Soul technique transmission, Yang Yuemin then remembered that Lin Chen's own Divine Soul was now formidable enough to contend with Hong Yanbing.

Transmission through the Divine Soul is an extremely efficient method, but it is very draining on the Divine Soul.

Yet for Lin Chen at this moment, this wasn't really an issue at all.

Before long, Lin Chen had finished transmitting the technique, and Yang Yuemin closed her eyes and pondered deeply, feeling the power of the Blazing Fire Divine Decree.

This cultivation technique was much more powerful than the "Illuminating Cold Moon Decree" of their Jade Bird Peak. As long as she personally cultivated it, her cultivation was certain to breakthrough, and she might even reach the Heavenly Human Realm.

This was a realm Yang Yuemin had never even dreamed of before. With her talents as well as the cultivation resources and techniques she had access to, she felt she would remain in the Reverting Void Realm for life, reaching the Peak Reverting Void Realm at most.

But now with the Blazing Fire Divine Decree, Yang Yuemin was very confident that she could eventually break through to the Heavenly Human Realm.

By then, she might look down upon the entire Great Flame Dynasty.

After all, the gap between the Heavenly Human Realm and Reverting Void Realm was entirely different.

Even dozens of Reverting Void Realm martial artists might not be a match for a Heavenly Human Realm power.

After receiving the Blazing Fire Divine Decree from Lin Chen, Yang Yuemin's gaze lingered on him for a long time without uttering a single word.

At this moment, no number of words could express her inner feelings.

But what was certain was that Lin Chen's future was not limited to a mere Jade Cauldron Sect, nor was it within the Great Flame Dynasty or Tianyu Empire.

In the future, Lin Chen was inevitably going to be a powerhouse stepping across the entire Mysterious Heaven World.

And the Jade Cauldron Sect would rise because of Lin Chen, becoming a major power.

Having imparted the techniques to Yang Yuemin, Lin Chen then went to the residences of his four senior martial sisters.

Zhao Yijing and the other three treated Lin Chen in a similar manner to Zhao Yijing, speechlessly shocked.

After all, it was a Heavenly Top Grade technique.

Seeing their utterly astonished looks, Lin Chen merely smiled faintly and shook his head.

Had they known that the technique Lin Chen cultivated was countless times more powerful than the Blazing Fire Divine Decree, one could only wonder what expressions would appear on their faces.

After Lin Chen finished imparting the Blazing Fire Divine Decree, all five of them went into seclusion once more, and this time it was a determined seclusion, the kind where they would not easily emerge until they had achieved a breakthrough in their cultivation.

After completing these tasks, Lin Chen finally let out a sigh of relief, having not only imparted techniques to his master and martial sisters but also provided them with elixirs for their seclusion.

The rest was up to them.
