

Primordial 285

Chapter 285: Selling Treasures and Fourth-Grade Refining Technique

"All these... all these are treasures that Young Master Lin Chen plans to sell?"

Yu Weilian looked at Lin Chen as he took out one treasure after another. In no time, the ground was piled up like a mountain, and she couldn't help but ask in astonishment.

Seeing this, Lin Chen nodded his head, then continued to take out treasures from his space ring and the Primordial Myriad Transformation Cauldron Space.

When they saw Lin Chen was still taking out treasures without end, Yu Weilian and the elders from Wanxing Commerce Association who were appraising the magical treasures were all struck dumb.

By now, Lin Chen had already taken out nearly a hundred magical treasures of varying quality grades, leading them to wonder just how large Lin Chen's space ring was to be able to hold so many treasures.

Upon hearing their words, Lin Chen did not respond but simply continued to take out magical treasures from his space ring and placed them on the ground in categories.

These treasures were all classified by Lin Chen and his senior sisters when they were at Jade Bird Peak. Lin Chen only took out those treasures that were not of high value; to him, they were not considered very expensive items.

But to others, it was different. Even Yu Weilian, who was experienced and knowledgeable, was extremely surprised in her heart at the sheer quantity of treasures she saw.

Among those who came to trade at the Wanxing Commerce Association, Lin Chen was the first to bring out so many treasures at once.

"The combined value of these treasures is quite extraordinary. I wonder, what does Young Master Lin Chen plan to exchange them for?"

An elder from Wanxing Commerce Association, who appraised treasures, recognized the uniqueness of the treasures Lin Chen had brought out and asked him.

"It can be exchanged for some high-grade materials and top-quality spirit stones,"

Lin Chen replied indifferently, looking at the treasures before him.

For future cultivation and the making of talisman inscriptions, elixirs, magical treasures, and setting up spiritual formations, high-grade materials and top-quality spirit stones were necessary.

Zhao Lingxi and Yu Weilian exchanged glances, both harboring the intention to recruit Lin Chen.

Lin Chen was exchanging the treasures for high-grade materials and top-quality spirit stones, which clearly meant he was planning to refine something.

If they could befriend Lin Chen, that value would definitely far exceed that of the treasures before them.

"Wanxing Commerce Association's spirit stone circulation is too large; afraid we can't produce so many top-quality spirit stones all at once today,"

"Lin Chen, my brother, please wait here for a moment,"

Yu Weilian said and immediately had someone fetch the list of high-grade materials from Wanxing Commerce Association.

Lin Chen glanced over the list of materials, a slight smile on his face.

The list contained high-grade cultivation techniques, elixirs, talisman inscriptions, magical treasures, and materials.

Though the cultivation techniques were not Heavenly Top Grade, the highest even included Lower Earth Grade techniques.

All the materials were marked with spirit stone prices. After sweeping through it briefly, Lin Chen found the name of a high-grade material that caught his interest.

"Heavy Magnetic Dust."

Lin Chen stated the name indifferently, prompting Yu Weilian to quickly have someone note it down and fetch it for Lin Chen.

This Heavy Magnetic Dust was indeed an extraordinary high-grade material, boasting gravitational attribute, and was highly sought after by martial artists who practice body refinement.

This batch of Heavy Magnetic Dust was valued at fifty thousand top-quality spirit stones. For many martial artists, even if they spent their entire fortune, they might not be able to afford it, yet Lin Chen didn't even blink an eye before purchasing it.

However, even though Lin Chen made the purchase, he still felt a bit of a pinch inside, considering that the wealth he had at the moment didn't amount to several sets of fifty thousand top-quality spirit stones.

But thinking of his cultivation of the Scorching Sun Divine Fist, if combined with the Heavy Magnetic Dust for cultivation, the effect would be doubled with half the effort.

Therefore, Lin Chen had to purchase it no matter what.

After buying the Heavy Magnetic Dust, Lin Chen continued to look through the list of materials and soon found another treasure that intrigued him.

They were two pieces of Earth-grade defensive magical treasures, one was a Gold Thread Soft Armor worn close to the body, and the other was a set of outer Protective Armor.

With these two pieces of Earth-grade magical treasures for protection, Lin Chen's defensive capability was further strengthened.

At the Soaring Dragon Conference, Lin Chen had revealed his formidable strength, drawing the attention of countless individuals, and surely many would trouble him.

Lin Chen of course needed to add more cards to his hand.

These two pieces of Earth-grade defensive magical treasures once again depleted a significant portion of Lin Chen's fortune.

As Lin Chen looked through the list to the last page, he discovered an Artifice Mastery Secret, and it was even a Fourth-Grade one.

Lin Chen was immediately interested and informed Yu Weilian that he wanted the secret.

Seeing this, Yu Weilian nodded slightly and dispatched someone to get that Artifice Mastery Secret.

It was also Lin Chen's good luck; the Wanxing Commerce Association rarely had a Fourth-Grade Refining Technique available. Most were of lower grades, and a Fourth-Grade Refining Technique like this one was quite rare.

When Yu Weilian and Zhao Lingxi found out that Lin Chen had exchanged for the Fourth-Grade Refining Technique, they were even more astonished, realizing that Lin Chen likely had the confidence to master it.

If Lin Chen truly mastered it, he would become a Fourth-Grade Artifact Refiner.

The status of a Fourth-Grade Artifact Refiner in Scorching Sun State was very respected, welcomed wherever he went.

After all, a Fourth-Grade Artifact Refiner could craft Upper Earth Grade treasures, which many martial artists sought to befriend.

If Lin Chen really had that ability, even Great Flame Dynasty's Royal Family would not dare to offend him lightly.

Because the influence of a Fourth-Grade Artifact Refiner was mighty; with just a word, countless strong individuals would work for him.

Before long, the three treasures Lin Chen had purchased were brought into the room by the maids.

Based on the prices, they directly cost Lin Chen a third of his wealth.

"Brother Lin Chen, the auction of Wanxing Commerce Association is about to start. Why don't you move to a private room first to see if there are any treasures at the auction that catch your eye? Once we have calculated the prices of these magical treasures, I will personally deliver them to you."
