

## Primordial 301

### Chapter 301 Refining Blood Chains

Lin Chen needed to break through the array, and like the Black Cloud Sect deploying the Black Cloud Bloody Array, he required at least ten Reverting Void Realm warriors at his command to establish an array that could dismantle the current Black Cloud Bloody Array.

Even if the members of the Jade Cauldron Sect and all the Peak Masters temporarily believed in Lin Chen and followed his arrangements, getting individuals from the Seven Sects to also follow Lin Chen's dispatch was another matter. Not to mention whether those individuals would be willing to do so, but Lin Chen himself was not willing either.

Because to deal with the Black Cloud Bloody Array of the Black Cloud Sect, the array Lin Chen wanted to use with the help of everyone was a Fifth-grade Array. Involving so many people would disclose the array's power, which would certainly invite covetous hearts. Once the trouble with the Black Cloud Sect had been resolved, the other Six Sects would become a new issue.

So naturally, Lin Chen would not resolve the crisis for the other Six Sects.

At that moment, Lin Chen's Second Soul Division once again activated the Divine Fire Army Descent Formation, isolating the external aura. Zhao Yijing and the others, being inside the great formation, immediately felt their whole bodies lighten immensely, no longer affected by the Black Cloud Bloody Array above. They were immediately overjoyed.

However, those like Xu Ma'an on the outside were not so fortunate.

Zhao Rushi, Wang Yilin, and others, under the influence of the Black Cloud Bloody Array, found their cultivation increasingly restricted. Moreover, several blood-colored iron chains appeared in the sky, shooting down towards the direction of the Black Cloud Sect. Seeing this, Xu Ma'an and the others put forth all their effort to counter the magic, managing to fend off the first wave of blood-colored iron chains. However, this significantly increased their spiritual power depletion, and they likely couldn't hold on much longer.

"Lin Chen, is it possible to open a gap in the great formation and let elder brother and the rest come in?"

Watching Xu Ma'an, Zhao Rushi, and the others in dire straits, Yang Yuemin immediately looked toward Lin Chen with hope in her eyes.

After all, the Jade Cauldron Sect was one entity, and Yang Yuemin couldn't bear to watch them die before her eyes.

Hearing this, Lin Chen turned his head towards the Outer Sect disciples of the Jade Cauldron Sect, sighed, and shook his head. Lin Chen's Second Soul Division then gestured with a sweeping motion, opening a corner of the Divine Fire Army Descent Formation.

If it wasn't for Xu Ma'an standing up for Lin Chen during the confrontation with Zhao Zhongtian, which left Lin Chen with a sliver of goodwill towards the Jade Cauldron Sect, he would not have opened the formation's gap to allow others in.

At that moment, from the direction of the other Six Sects and the Great Flame Dynasty's Royal Family, blood-colored iron chains were descending from the sky, locking onto the individuals below.

Warriors below the Reverting Void Realm couldn't withstand the assault of the blood-colored iron chains on their own, and being targeted by these chains meant there was only one outcome: death.

Warriors of the Reverting Void Realm, however, could engage in a struggling fight with the blood-colored iron chains through their formidable strength.

Many warriors thus began huddling together for warmth, combining their powers they were just about able to fend off the blood-colored iron chains coming from above.

Turning to look at the situation of the Black Cloud Sect, blood-colored iron chains had already fallen upon them, about to lock onto Xu Ma'an and the others.

Seeing this, Xu Ma'an, along with Zhao Rushi, Li Xuanming, and the others clenched their teeth, prepared to use secret techniques despite the risk of backlash in order to fight the blood-colored iron chains.

However, just when they were about to begin their cultivation practice, a powerful force came from behind. Lin Chen's Second Soul Division, within the Killing Formation, conjured a colossal grey hand that reached out and grasped the blood-colored iron chains, and then, seemingly effortlessly, pulled it into the formation.

Xu Ma'an, Zhao Rushi, and the others sighed with relief at this spectacle while also feeling immensely shocked within.

The power of these blood chains was formidable; even a Heaven-reaching Realm warrior would be easily slain upon contact.

Containing powerful Yin Sha Force, Lin Chen's Killing Formation dared to directly confront them.

Despite their astonishment, everyone was very curious about what Lin Chen intended to do with the blood chains by pulling them into the Killing Formation.

Could it be that he could actually dissolve them?

Then, under everyone's watchful eyes, something miraculous occurred.

In the Killing Formation, Lin Chen and his Second Soul Division simultaneously cast magic techniques. Within the formation, the ten Stone Sculpture Puppets gathered a massive grey palm and pulled the Blood-Colored Iron Chains, bringing them in front of Lin Chen's actual body.

Following that, Lin Chen slowly extended his hand and touched the Blood-Colored Iron Chain, his face revealing an extremely desirous expression.

"Junior Brother Lin, be careful, those Blood-Colored Iron Chains are extremely lethal."

When Xu Lianyu saw Lin Chen's frenzied actions, a cry of alarm escaped her lips, filled with worry.

The others who witnessed Lin Chen's behavior were also nervously taken aback.

In their eyes, Lin Chen's actions were no different from courting death. After all, those were Demon Locks that could lock on and drain someone's life force completely, similar to Soul-hooking Chains to everyone else.

"Don't worry!"

However, even after Xu Lianyu's advisory, Lin Chen showed no sign of stopping and directly reached for the Blood-Colored Iron Chains with both hands.

"Good heavens, this guy, is he actually planning to grasp those Blood-Colored Iron Chains with his bare hands!?"

"This guy, he's really gone mad, doesn't he care about his life anymore?"

"He must have been scared out of his wits."

All around, everyone felt that Lin Chen had gone insane.

However, the scene that followed completely shattered their perceptions.

As soon as Lin Chen took hold of the Blood-Colored Iron Chains, they started to jerk violently as if encountering a natural enemy, desperately struggling to escape from Lin Chen's grasp.

"Thinking of escaping now? Too late."

A cold smile appeared on Lin Chen's lips, and immediately, the Primordial Transformation Art within his dantian started to operate wildly.

A powerful Refining Power surged toward the Blood-Colored Iron Chains in his hands, which were instantly refined, transforming into Yin Sha Force and entering Lin Chen's body.

As the Primordial Transformation Art operated, the extremely violent Yin Sha Force, which could be fatal to a Warrior of the Heaven-reaching Realm, was refined into exceptionally pure Spiritual Power within Lin Chen.

Immediately, the aura around Lin Chen's body surged drastically.

After refining the Blood-Colored Iron Chain, Lin Chen's cultivation had astonishingly broken through from the Third Layer of the Melding Earth Realm to the Fourth Layer.

"How is this possible, this guy... this guy can actually refine those Blood-Colored Iron Chains."

"Am I going insane, or has the world gone mad? What kind of opportunity did this guy encounter that he possesses such a heaven-defying ability?"

"Damn it, this guy, come and save us. As long as he refines these Blood-Colored Iron Chains, we'll be saved."

"No, he should share the method to refine these Blood-Colored Iron Chains. That way, we can protect ourselves and at the same time strengthen our power to counter the Black Cloud Sect."

The surrounding crowd buzzed with discussions, a cacophony of different opinions, and some even fancifully thought that Lin Chen should share the method to refine the Blood-Colored Iron Chains.
