Chapter 304 This Kid is Strange

Hum—

"What's going on? The blood-colored iron chains have regained their vitality. Has a powerful figure from the Black Cloud Sect taken action?"

Xu Lianyu and the others noticed the moment the blood-colored iron chains in the sky began to stir and immediately exclaimed in shock.

"Everyone, exert your strength together. We can't let them take back the blood-colored iron chains."

Upon hearing Xu Lianyu's words, Lin Chen immediately instructed Yang Yuemin and the others to continue infusing him with Spiritual Power.

Upon hearing this, Yang Yuemin and the others certainly did not refuse, as everyone at this moment knew that the blood-colored iron chains, if refined by Lin Chen, would bring benefits to him.

Now, under the combined force of Yang Yuemin and the others, the blood-colored iron chains were once again pulled into the killing formation by the grey giant palm.

However, due to Qiu Wenxi casting spells to retract the blood-colored iron chains, even with everyone's combined efforts, it was not as easy to pull them back into the Bloody Array as before.

Currently, in the sky outside the Divine Fire Troop Killing Array where Lin Chen and the others were, several blood-colored iron chains interweaved in the air. Some were battling with many martial artists, while others had already been retracted by the Black Cloud Sect.

Xu Ma'an and the others looked at Lin Chen and his group in the killing formation, recalling that Lin Chen had opened the formation earlier to allow them to seek refuge. However, as events changed rapidly

afterward, they escorted the younger generation of their sect into the killing formation where Lin Chen was.

Now, seeing Yang Yuemin and others casting spells to assist Lin Chen, Xu Ma'an, Li Xuanming, and the others exchanged glances and also infused their own Spiritual Power.

"Nephew apprentice Lin Chen, let us also lend you a hand."

With the infusion of Spiritual Power from Xu Ma'an and others into the killing formation, the ten blood-colored puppets blazed with fire and radiance, and the grey giant palm suddenly exerted even greater power, gently pulling the blood-colored iron chains into the killing formation.

...

At the location of the Black Cloud Sect's formation core.

"Damn it, this guy actually has so many helpers, and the power of his killing formation is not to be underestimated. It's really startling; the one deploying this formation seems to be just a kid at the peak of the Melding Earth Realm, not even reaching the Heaven-reaching Realm in cultivation."

"He's actually absorbing these blood-colored iron chains, isn't he afraid of bursting?"

Qiu Wenxi's face was flushed with anger at this moment, partly because his use of Spiritual Power was apparently still no match for Lin Chen and the others, and partly because he had just criticized his subordinates as useless for not being able to retract the blood-colored iron chains, only to find himself in the same predicament, effectively throwing stones at his own feet. Was he calling himself useless too?

And now, with the addition of Spiritual Power from Xu Ma'an and others, the blood-colored iron chains were about to be completely pulled into the killing formation by Lin Chen.

Compared to the preciousness of the blood-colored iron chains, Qiu Wenxi could no longer care about face and immediately directed Wang Mingzhe and others.

"Quickly assist me. The opposition is exerting their force together. We absolutely cannot let this kid refine the blood-colored iron chains anymore."

Wang Mingzhe and the other Black Cloud Sect elders immediately infused Spiritual Power into Qiu Wenxi.

If the blood-colored iron chains were to be pulled into the killing formation and refined by Lin Chen, their Black Cloud Bloody Array would likely become unsustainable.

If the Black Cloud Bloody Array were to collapse, the situation on the battlefield would become one-sided.

Although the Black Cloud Sect was powerful enough to surpass any sect of the Great Flame Dynasty, if all the sects of the Great Flame Dynasty united, the Black Cloud Sect would undoubtedly be unable to contend with them.

As the elders of the Black Cloud Sect also made their move, infusing their Spiritual Power into Qiu Wenxi, the blood-colored iron chains within the Black Cloud Bloody Array were ultimately slowly being pulled back into the sky.

After all, it was the Black Cloud Sect that controlled the formation above the Black Cloud Bloody Array.

Lin Chen's killing formation, while strong, wasn't so simple when it came to snatching food from the jaws of a tiger.

"Damn it, who in the Black Cloud Sect has taken action that they surpass our combined efforts from the Jade Cauldron Sect?"

Lin Chen thought to himself, then stepped on the ground and instantly leaped into the air, directly grasping the blood-colored iron chain that was being pulled into the Divine Fire Troop Killing Formation.

He wanted to refine as much of the Yin Sha Force as possible before the blood-colored iron chain left the killing formation.

At this moment, as Lin Chen was refining the blood-colored iron chains, the chains had reached the top of the Divine Fire Army Descent Formation, and Lin Chen had no choice but to let go.

Because Lin Chen was currently able to contend with the blood-colored iron chains not only because of his cultivation of the Primordial Transformation Art, which left him unaffected by the Yin Sha Qi but also because Yang Yuemin, Xu Ma'an, and others infused Spiritual Power into the formation, giving Lin Chen the power to withstand it within the formation.

Once Lin Chen followed the blood-colored iron chains outside the Divine Fire Army Descent Formation, he would surely not be a match for them.

After all the blood-colored iron chains in the sky were retracted into the Black Cloud Bloody Array, Lin Chen landed on the ground and immediately sat down cross-legged to regulate the Spiritual Power he had gained in his body.

At this moment, inside Lin Chen's dantian, both the Primordial Myriad Transformation Cauldron and the Dragon Fang Dagger were trembling slightly. Ever since they started following Lin Chen, they had never absorbed power so satisfactorily.

Previously, whenever Lin Chen acquired some energy treasures, they were either taken up into the Spatial Ring by Lin Chen or rapidly refined by him, and they never got any benefits.

Now, they finally had a chance, but the absorption time was so short.

"Order down, to be on the safe side, place another seal on the blood-colored iron chains to prevent them from being refined again by anyone."

"Also, instruct everyone to keep away from the Jade Cauldron Sect's area, deal with the other sects and the people from the Great Flame Dynasty's Royal Family first, leaving the Jade Cauldron Sect for last."

"This kid really is enigmatic, able to absorb such vast amounts of Yin Sha Force without a scratch. The cultivation technique brought back by Ma Yuan doesn't have this effect; this kid must have other secrets and treasures on him."

"Whatever it may be, I must unearth it. Such ability is way too heaven-defying."
