

## Primordial 305

### Chapter 305 Brief Safety

"Yes!" Wang Mingzhe and others nodded, then once again manipulated the blood-colored iron chains, avoiding the Jade Cauldron Sect area, and struck against other sects and the Great Flame Dynasty's Royal Family first.

At this moment, in the area where Lin Chen and his companions were, the martial artists who were about to give in and die under the blood-colored iron chains felt a sigh of relief in their hearts upon seeing the chains in the sky being retracted.

Even if they were fools, they knew that the reason why the blood-colored iron chains above had been withdrawn was because of Lin Chen of the Jade Cauldron Sect.

Everyone looked towards the killing formation of the Jade Cauldron Sect. Some had a look of gratitude in their eyes, knowing that if Lin Chen hadn't made a move just now, they would have already died.

While some were filled with jealousy and envy, some coveted Lin Chen's methods and the treasures he possessed. Some foolishly believed that Lin Chen should not be able to keep a life-saving method to himself, that he should have shared it with everyone...

The people of the Great Flame Dynasty's Royal Family had the most complex feelings at the moment.

Their fear of Lin Chen and others had deepened.

Before, the Great Flame Dynasty's Royal Family had been at sword's point with Lin Chen.

After witnessing Lin Chen's power, if the issue with the Black Cloud Sect were to end, the Jade Cauldron Sect would surely not let things rest.

At this moment, Zhao Zhongchuan had already awoken from his unconsciousness. With the help of Zhao Zhongtian's treatment, Zhao Zhongchuan's injuries had somewhat recovered, but there were still signs of severe trauma.

Looking at Lin Chen, and having seen the powerful formation he used that even forced back the Black Cloud Sect's blood-colored iron chains, Zhao Zhongchuan felt a deep hostility. If looks could kill, Lin Chen would have died a thousand times over by now.

In the Great Flame Dynasty, Zhao Zhongchuan had always been recognized as the number one talent.

However, now not only had Lin Chen taken that title from him, but he had also been defeated by him and had almost been brutally killed, which was utterly humiliating.

For Zhao Zhongchuan, this was absolutely unacceptable. If he did not kill Lin Chen, he would never be able to step out of the shadow of defeat and humiliation for the rest of his life.

The young geniuses of the other Six Sects, however, felt a trace of admiration for Lin Chen.

Lin Chen's performance was so outstanding that it made these young geniuses feel inadequate compared to him. If Lin Chen didn't encounter any mishap, he would surely become a formidable existence in the future, even possibly far surpassing them. By then, their past encounters with Lin Chen could become a nostalgic topic of conversation.

At this moment, after the Black Cloud Sect had retracted the blood-colored iron chains, they did not launch another attack, and everyone hurriedly took this opportunity to recover their injuries and Spiritual Power.

Although they had a brief respite, they did not relax, and kept vigilant as they healed.

On the side of the Jade Cauldron Sect, Lin Chen opened a gap, allowing all of the Jade Cauldron Sect's people to enter the Divine Fire Army Descent Formation.

The formation was maintained by Lin Chen's Second Soul Division. As long as there was no attack from above, the formation only required the ten Stone Sculpture Puppets to maintain its structure, which didn't consume much Spiritual Power.

Moreover, at the moment, with everyone's protection, both Lin Chen and his Second Soul Division had ample time to recover in peace.

Now, Xu Ma'an had completely thought it through, determined to do everything in his power to nurture Lin Chen, so that by that time, no one in the Eastern Domain would dare to easily provoke the Jade Cauldron Sect.

Even Hong Yanbing began to yield to Lin Chen, directly smacking Xu San on the head and ordering him to never provoke Lin Chen again, or else, he would not be polite.

After this battle, everyone in the Jade Cauldron Sect recognized Lin Chen's strength and saw him as their pillar. After all, Lin Chen had saved their lives this time.

The members of the Jade Cauldron Sect were very safe within Lin Chen's killing formation. They all sat down cross-legged and began to heal and recuperate.

Xu Ma'an, Li Xuanming, and others were discussing how to escape from the Black Cloud Sect's Black Cloud Bloody Array.

Although the Black Cloud Sect had ceased their attack for the moment, everyone knew that since they had chosen to invade Divine Sun City, they would surely see it through to the end and aim to annihilate the Great Flame Dynasty's Royal Family and the other Seven Sects.

The Black Cloud Sect's ambition had not been a sudden development. It's just that this time, after obtaining the Heavenly Top Grade technique, they had finally made up their minds to act.

"It seems that as the Junior Sister said, behind this matter, there is not just the power of the Black Cloud Sect, but also the Moon Shadow Pavilion and even the Red Soul Hall." Xu Ma'an furrowed his brow tightly, clenching his fists involuntarily.

In the face of first-rate forces like the Moon Shadow Pavilion and the Red Soul Hall, the Jade Cauldron Sect seemed somewhat insignificant.

However, the Seven Sects belonged to the Divine Flame Alliance's jurisdiction, and both the Red Soul Hall and the Moon Shadow Pavilion would not dare to blatantly extend their reach into the Eastern Domain, or else the Divine Flame Alliance would surely take action.

So, behind the scenes, it was likely that only the Moon Shadow Pavilion was giving advice.

If the Red Soul Hall, a powerful force like that, truly wanted to act against the Jade Cauldron Sect, they could just send a super-expert to annihilate the Jade Cauldron Sect directly—there would be no need for such an elaborate scheme.

At this moment, Lin Chen had finished his recovery and upon opening his eyes, he saw that although everyone from the Jade Cauldron Sect was recuperating, the effects were not significant. Many people had suffered serious injuries, including the Peak Masters, who were also severely wounded. Without high-quality elixirs, they wouldn't be able to recover from their injuries nor restore their Spiritual Power in a short time.

If the Black Cloud Sect's demon cultivators were to activate the Black Cloud Bloody Array again and attack them, these people would be in danger.

"Whoosh—" Thinking of how these people had just defended him, Lin Chen couldn't bear to see them suffer, so he took out some of the Fourth-Grade elixirs he had refined and distributed them to everyone.

Before arriving at Divine Sun City, Lin Chen had prepared some Fourth-Grade elixirs. Some of them were obtained from the Descension Ruins. These elixirs were extremely precious, so naturally, Lin Chen would not give them to Xu Ma'an and others to use.
