

## Primordial 309

### Chapter 309: Breaking the Formation

"As long as one is alive, there is still hope; if a person dies, then the Great Flame Dragon Vein is nothing but a gift to someone else,"

Although Zhao Zhongtian was in a state of extreme frenzy at the moment, his mind was clearer than ever. After biting his finger and squeezing out essence blood, he continuously infused his spiritual power into the Dragon Vein Jade Seal in his hand.

Once a person dies, what use is there for treasures left behind?

Furthermore, what mattered most was that the Great Flame Imperial Family had been breached by the Black Cloud Sect, and the Royal Family was on the verge of destruction. He was about to become a laughingstock to the world, and this indignity was naturally hard for him to swallow.

"If that's the case, we must support Your Majesty with all our strength,"

Seeing that Zhao Zhongtian was resolute, the members of the Great Flame Imperial Family began to mobilize their spiritual power and injected it into Zhao Zhongtian.

Countless streams of spiritual power flowed into Zhao Zhongtian's body, and then he guided them into the Dragon Vein Jade Seal in his hand. Immediately after, the Jade Seal emitted a dazzling golden light.

The ground began to tremble, and an incredibly powerful aura rose suddenly from inside Divine Sun City, transforming into an immense golden dragon.

That was the power of the Great Flame Imperial Family's Dragon Vein condensed into a golden giant dragon.

"Damn it, wasn't the Great Flame Imperial Family's formation sealed? How could they still activate the Divine Sun Protection City Formation?"

"No, this is wrong; it's not the Divine Flame Protective City Great Formation, but the power of the Great Flame Imperial Family's Dragon Vein."

"I didn't expect Zhao Zhongtian to be driven to desperation, disregarding the future of the Great Flame Imperial Family and mobilizing the Power of the Dragon Vein. But he's right to do so. If the Imperial Family is gone, what's the point of preserving the Power of the Dragon Vein?"

"Everyone, switch the Great Formation to defensive stance, spare no effort. The Power of the Dragon Vein of the Great Flame Imperial Family must not be underestimated, but Zhao Zhongtian can only use one round of Dragon Vein power at most,"

Upon hearing this, Qiu Wenxi commanded the elders of the Black Cloud Sect, and they, surprised yet not taking chances, promptly exerted their power to switch the Great Formation to defensive mode.

Immediately, blood-colored iron chains retracted to the sky, and scenes of scarlet emerged above the Great Formation enveloping Divine Sun City.

"Damn it, what kind of method has the Great Flame Imperial Family employed? Such a formidable aura, it's definitely not something we can withstand."

"If they had such a technique, why didn't they use it earlier?"

Noticing the giant golden dragon that appeared, Xu Ma'an was immediately shaken and uttered in astonishment.

Seeing this, Li Xuanming and the others were also taken aback.

From that golden dragon, they felt an incredibly powerful force.

Roar——

At that moment, the golden dragon let out a roar to the heavens, and a colossal energy wave, centered on it, crashed toward the Black Cloud Bloody Array above in the sky.

"Such a powerful secret technique, Divine Troops Defense Formation, activate!"

Seeing the Dragon Vein Great Formation deployed by Zhao Zhongtian in the distance, Lin Chen's expression changed immediately, and he did not dare to take anything lightly. With the Magic Technique in the hands of his Second Soul Division in motion, he too converted the Divine Fire Troop Killing Array into a defensive formation.

One could see that upon the ten Stone Sculpture Puppets, resplendent light flickered, and all ten thrust their giant swords into the ground in unison. A tremendous energy wave then emanated from the center of these puppets, spreading throughout the Killing Formation and forming a blue energy shield.

Boom— —

Following the roar of the golden dragon, a massive energy wave spread out in all directions.

The golden energy collided with the energy shield of Lin Chen and the others, countless spiritual lights fluttering and dancing, the defensive shield looking like it was going to shatter at any moment.

In the formation, Xu Ma'an and the others felt an unparalleled terror in their hearts.

Everyone mobilized all their Spiritual Power, condensing it into a shield around their bodies.

Although they were currently shielded by the Defensive Shield executed by Lin Chen's Second Soul Division, who knew whether the great formation would burst the next moment, at that time, Xu Ma'an and the others might still rely on their formidable strength to withstand the energy assault from the golden giant dragon.

But it would be very difficult for the True Disciples to resist.

Luckily, until the energy wave from the golden giant dragon dissipated, the Divine Fire Army Descent Formation's defense did not break, which secretly relieved everyone.

The hearts of everyone from the Jade Cauldron Sect filled with gratitude towards Lin Chen, who had helped them survive since their arrival in Divine Sun City through several deadly dangers.

Without Lin Chen, they probably would have died countless times by now.

At this moment, outside the Divine Fire General Troops Great Formation, disciples from other sects were not as fortunate as the Jade Cauldron Sect.

Many of those with lower cultivation levels died in the energy assaults from the golden giant dragon.

Those with profound cultivation managed to preserve their lives using high-level magic treasures, but aside from the Sect Leaders, they also sustained serious injuries, unable to recover their combat strength in the short term.

"Zhao Zhongtian, we fully support your rebellion against the Black Cloud Sect, but why did you act without warning, launching a killing move that does not differentiate between friend and foe, causing widespread damage? Even a heads up would have allowed us to prepare."

"Now you have caused us heavy casualties as well; do you intend to make enemies with all of us?"

The Lean Mountain Sect, Sword Qi Sect, and other sects had suffered heavy losses, many elite disciples perished under the ravages of Zhao Zhongtian; this immediately made the Sect Leaders' eyes turn red, as if they were ready to fight Zhao Zhongtian to the death.

"Heh, aren't you all unwilling to join forces with my Great Flame Imperial Family against the Black Cloud Sect?"

"Since we are not allies on the same front, why does my Great Flame Imperial Family need to inform you in advance about our actions?"

"If your disciples were harmed, it wasn't my intention; it's merely that you are too weak. If you are dissatisfied, feel free to challenge me."

At this moment, Zhao Zhongtian's expression was icy cold as he looked at everyone with disdain.

Confronted with the furious rebukes, he was not the least bit flustered.

Now that the Great Flame Imperial Family had suffered heavy casualties and the city walls had been breached, even the Power of the Dragon Vein had been used, he had nothing left to fear. At this moment, he decided to take a firm stand with the Power of the Dragon Vein from the golden giant dragon, no longer regarding the various sects and factions.

At this moment, Zhao Zhongtian was extremely arrogant.

The phantom of the golden giant dragon still hovered above the heads of Zhao Zhongtian and the Royal Family, tearing through the Black Cloud Bloody Array in the sky with formidable might.

Facing the golden giant dragon, a sense of fear arose in everyone's hearts; they knew they were no match for the Great Flame Imperial Family at this moment.

With their sect disciples dead, rage burned within them, but now they could only forcefully suppress it.

Crackle—

At this moment, as the golden giant dragon tore apart the sky, cracks appeared in the Black Cloud Bloody Array, and it seemed on the verge of breaking.

"Damn it, the Power of the Dragon Vein of the Great Flame Imperial Family is so strong that even the Black Cloud Bloody Array is being breached."
