

## Primordial 315

Chapter 315:

"Not good, this kid actually has such a method, we must retreat quickly!"

Qiu Wenxi's pupils dilated instantly, knowing that this operation was a complete failure.

Making the Jade Cauldron Sect submit again seemed now impossible, the power Lin Chen displayed instilled fear in him, the power of the Great Flame Royal Family's Dragon Vein was something he couldn't contend with.

The two traitors within the Jade Cauldron Sect were also executed by Lin Chen; the power exhibited by his Second Soul Division was on par with him.

At this moment, under the oppression of the golden giant dragon, it seemed no one was his match.

Meanwhile, inside the Wanxing Commerce Association of the Great Flame Royal Family, Jiang Qibai also sensed the anomaly occurring in the sky above the attic outside.

His brows furrowed tightly as if thinking of something, a sense of danger rising from within his heart.

With that thought, he dared not delay any longer and immediately fled from the loft.

And Zhao Zhongtian, who had already flown far away, turned his head back and looked in the direction of Divine Sun City, seeing the phantom of a golden giant dragon rising, which surprised him.

He did not understand. The Dragon Vein Jade Seal had shattered in his hands, so how could the power of the Dragon Vein be summoned now—could it be that the Dragon Vein Jade Seal had been repaired by someone?

With this thought, Zhao Zhongtian spat out a mouthful of fresh blood, feeling extremely stifled inside.

The exotic treasure of the Great Flame Imperial Family had now fallen into the hands of others.

Divine Sun City would also fall into the hands of others.

Divine Sun City had been cultivated by the Great Flame Imperial Family for hundreds of years, and now it had all been destroyed in an instant.

"The person who had the capability to repair the Dragon Vein Jade Seal must be that annoying brat," he thought.

As the image of Lin Chen crossed Zhao Zhongtian's mind, a deep desire for murder appeared at the corners of his mouth.

Naturally, they were now incapable of going back to snatch the Jade Seal. With the Dragon Vein Jade Seal in Lin Chen's hands, the entire power of the Dragon Vein of Divine Sun City could be manipulated by Lin Chen at will; they were naturally no match for him.

However, the Black Cloud Sect will probably gain no advantage either.

Thinking of this, Zhao Zhongtian became even more enraged, as, after a dispute between the Great Flame Imperial Family and the Black Cloud Sect, the one who ultimately benefited was the Jade Cauldron Sect.

"I hope that old guy will remember our past friendship and help the Great Flame Imperial Family rise again," he hoped.

With those words, Zhao Zhongtian and the elders of the Great Flame Imperial Family disappeared.

At this moment, within Divine Sun City, as the golden giant dragon spewed Dragon Breath from its mouth, all Black Cloud Sect martial artists caught in its path were instantly annihilated, its power simply obliterated everything.

Where could Qiu Wenxi dare to linger in Divine Sun City now? He immediately fled with the Black Cloud Sect's people at a rapid pace, managing to escape from the Dragon Breath attack of the golden giant dragon. However, those of the Black Cloud Sect were not so lucky.

This trip brought nearly ten thousand elite disciples and hundreds of elders from the Black Cloud Sect to attack Divine Sun City, representing almost ninety percent of their force, yet now, half were lost.

"Damn it, I thought the plan was flawless, and Divine Sun City was about to fall into our hands."

"The Great Flame Imperial Family had already been overthrown, and the people from other sects are scared off. Taking down Divine Sun City should have been easy. Who would have thought that halfway through, a kid from the Jade Cauldron Sect would emerge."

Despite feeling extremely reluctant, Qiu Wenxi at this moment could only choose to flee the scene, and dared not linger any longer in Divine Sun City.

After all, the power of the Golden Giant Dragon was there for all to see, and if the Dragon Breath condensed by the Power of the Dragon Vein were to fall on him, even he would not be able to escape the fate of death.

"Pfft—"

Just after the assassins from the Black Cloud Sect and the Moon Shadow Pavilion had all fled Divine Sun City, Lin Chen's true body could no longer hold on. He immediately spat out a mouthful of fresh blood, his face extremely pale. His Spiritual Power was incredibly weak, and even his body showed signs of disintegration, as if it was about to fall apart.

"Leave the rest to me."

Lin Chen's Second Soul Division flew to the side of Lin Chen's true body to protect him. With a thought, ten Stone Sculpture Puppets also surrounded him for protection.

Lin Chen's true body beckoned with a large hand, and countless Spirit Stones and elixirs fell beside him. He then immediately began to heal his wounds.

This was the second time Lin Chen had sustained such severe injuries today—the first was from forcibly taking Zhao Zhongchuan's attack, and the second was from using the Dragon Vein Jade Seal to mobilize the Power of the Dragon Vein within Divine Sun City.

Lin Chen hadn't anticipated that harnessing the Power of the Dragon Vein would be so challenging; he had nearly been unable to persevere.

But just now, he absolutely had to appear unruffled. Otherwise, if the Golden Giant Dragon disappeared before the assassins from the Black Cloud Sect and the Moon Shadow Pavilion left, and they returned to fight the Jade Cauldron Sect with all their might, Lin Chen might not really be able to withstand it.

After the great battle, everyone was silent.

Although they had succeeded in repelling both the powers of the Black Cloud Sect and the Great Flame Imperial Family, the Jade Cauldron Sect also lost two Peak Masters. Most importantly, these two Peak Masters turned out to be traitors, who sought to strike down Lin Chen.

Xu Ma'an and the others saw clearly that the Cultivation Techniques used by Lu Feiyun and Bai Shengyi were Demonic Cultivation Techniques, which meant they had long since defected to the Black Cloud Sect.

After all, the two had been in the Jade Cauldron Sect for hundreds of years. Although they were not biological brothers with Xu Ma'an and others, they were closer than such.

Their betrayal and death made it impossible for everyone to feel joy at having repelled the enemy.

"Lin Chen, how did you realize they were the double agents?"

After a long while, Yang Yuemin finally couldn't help but ask Lin Chen's Second Soul Division.

"Ever since Master was afflicted with the Yin Sha Poison, I began to harbor suspicions."

Upon hearing this, Lin Chen didn't conceal a thing, revealing his inner thoughts.

After listening to Lin Chen's words, Xu Ma'an and the others were extremely shocked—they hadn't expected Lin Chen to have had his suspicions so early on.

But how did Lin Chen begin to suspect all this?

"Why! We are fellow disciples; we didn't notice anything wrong with them at all. How did you discover it!?"

Zhao Rushi was extremely curious and couldn't help asking.

"It all started with the Yin Sha Poison. The poison that the master was afflicted with at the time was a very violent toxin that couldn't be cured without the antidote from the Black Cloud Sect."

"Given that the Black Cloud Sect had such an opportunity to poison a Peak Master of our Jade Cauldron Sect, why did they only target Master alone, and not the Third and Tenth Peak Masters?"

"Of course, the act of poisoning could be coincidental, but the Yin Sha Qi from the poison wouldn't dissipate so quickly. That cannot be faked."

As Lin Chen reached this point in his explanation, a faint smile appeared on his lips as he bid farewell and left.
