

## Quick T 2341

### Chapter 2341: Welcome to the end of the world (Part 8)

She could clearly feel that when she said those words, there was a pair of eyes that were focused on her.

Although she didn't turn around, she could guess that the person looking at her should be the male protagonist with the common appearance!

His name sounded very good, Qian Si Nai.

Right, other than that focused gaze, there was also Bai Lian Xin's piercing shrieks.

Of course, Luo Qing Chen completely ignored them.

Four days, there were still four days before the values and morals of this world would greatly change.

There were many things that she had to do and prepare during this short period of time.

How was there time for class? She didn't even have time to eat, alright!?

It took an hour to get home from school. Luo Qing Chen thought about it and decided not to go home during these three days.

She had to collect more supplies during this limited period of time.

Once the end came, the world would no longer have order.

Stealing would become a natural thing.

The innate evils of human nature will all be revealed.....

But there was still a very big problem before this.

Money!

She didn't have money!

But it was fine that she didn't have money since she had a system!

[The host only has eight thousand exchange points left. After starting the A rank missions, the host no longer receives exchange points.]

I know! It's clearly written on the bronze mirror each time! I can see those large words!

Actually, Luo Qing Chen could understand that the exchange points was just help that was given in the early stages.

Since the A rank missions started, she no longer received exchange points.

This meant that she had to treasure these eight thousand remaining exchange points.

[Does the host want to exchange for money?]

Yes!

[Based on the latest exchange rates of this world, one thousand exchange points can be exchanged for one million yuan.]

It really is cheap!

[The system has already told the host, the value of money is very cheap in this world!]

Then why don't you just offer a hundred million for a thousand exchange points?

[That would distort the world and cause it to collapse.]

Luo Qing Chen knitted her brows and decided to ignore this unpleasant system.

She had a total of eight thousand exchange points. If these were the only exchange points that she had, they couldn't be wasted.

But one million really was far from being enough/

[How much money does the host want to exchange for?] The system's voice rang in her ears again, giving her the urge to beat it.

I want a million!

Although it was far from enough, she wasn't that afraid with her abilities.

This money would be used to buy things. What she needed to do was protect her weak mother and her blind little brother.

What the previous host couldn't do and the people that she couldn't protect in another world, she would do it all here.

[Ding, 1000 exchange points has been taken. Successfully exchanged for one million yuan.]

After the system notification, the system added in another sentence.

[There is a bank card in the host's right pocket, the password is 542222.]

You're a two, all your parts are twos!

Luo Qing Chen bound the card to her phone and after booking a hotel, she went to the biggest mall in A City.

Actually, she had difficulty in transporting the goods since it wasn't like transporting diamonds.

She wanted to buy a lot of water, food, as well as weapons and other things.

There were too many things. Even if she bought a lot, she couldn't move it all back.

Wait, she seemed to have forgotten something!

Wasn't the previous host a dual awakener? Other than her fire power, there was something else!

**Chapter 2342: Welcome to the end of the world (Part 9)**

[Space creation.]

The system used two words to stun her.

As the name suggested, it was no different from her personal storage space. But if the capacity was too small, then it wasn't worth it.

[This is the second ability of the previous host, but her body was too weak to open the portable storage space.]

Then when can I awaken it?

[The host can go to the store and Moonlight Treasure Box to immediately gain the space creation ability. (Only for this world).]

Luo Qing Chen knitted her brows as she quickly opened the store. There really was something called the Moonlight Treasure Box on the final page.

Exchange points: 1000

World: End of the world

This was a treasure box that could only be used in the end of the world, so it didn't feel that great.

Exchange!

She could still accept this amount of exchange points since this was the power that she needed.

If she didn't have a large personal storage space, it was impossible for her to collect all those materials.

[Ding, 1000 exchange points has been taken. Successfully exchanged for Moonlight Treasure Box.]

[The host has gained the space creation ability and a manual has been attached!]

.....

Un! It really was a thoughtful system!

A special power entered her body, but it wasn't a very enjoyable feeling.

After a few minutes, before the end of the world, she was the first person to awaken her space creation ability and obtained a personal storage space.

Capacity: 1000/1000!

As expected, compared to the personal storage space that she worked so hard to get, the ability here was much more powerful.

Luo Qing Chen looked at the time and saw it was two in the afternoon. She first called the number of a large truck rental service and rented a truck.

Since it was before the end of the year, there were many people buying New Years goods in the mall.

Luo Qing Chen first went to the food area and bought a large amount of food as a wholesale supplier. She also hired someone to deliver it all to the truck parked at the entrance of the mall.

There were many things to buy, so she divided the mall into three areas. Other than the necessary food and water, the other supplies were also very important.

In order to avoid attracting too much attention, she went to the manager on duty.

“You.....You’re saying that you need to buy all the rice in the supermarket today?” The manager on duty was very shocked as their eyes swept over Luo Qing Chen.

No matter how they looked at her, this person was a student, so why would they need this much rice?

“Yes!” Luo Qing Chen said with a nod, “Our company wants to reopen a factory at the end of the year and has launched a charity campaign in many mountainous areas, so we need a lot of rice.”

The main thing was.....there was no time.

Otherwise she would have gone to the origin and bought more supplies, she wouldn’t have come to the supermarket.

“So it’s like this!” The manager gave an understanding nod, “No problem. I’ll go and check the inventory. What kind of rice do you need?”

“Yes.” Luo Qing Chen nodded, “It doesn’t matter what kind.”

Other than the rice, Luo Qing Chen also bought many compressed biscuits and a large amount of mineral water.

The water sources weren’t polluted in the beginning of the apocalypse and most water could still be used, but when the water source became polluted in the end, most water would become undrinkable.

At that time, a glass of water would have the same value as diamonds.

Or.....be even more expensive.

In order to avoid attracting attention, once the large truck was filled, she went to the next location.

Of course, after she drove the truck away from the mall, she started putting away each item.

Personal storage space capacity: 950/1000.

### **Chapter 2343: Welcome to the end of the world (Part 10)**

The same kind of thing would take just one space, so in other words, three hundred tons of rice would only use a single space.

Other than this, she also bought tissues, knives, blankets, pen and paper, and a lot of candles and batteries and other things.

In the memories of the previous host, there was no light after the end of the world.

Even during the day, it would be very cloudy and foggy, so visibility was very low.

The zombies developed very quickly and soon the world would lose their dependence on electricity.

Only these primitive things would keep people alive at that time.

She didn't have much time. She went to thirty supermarkets from south to north collecting all the necessary supplies.

Since it was the end of the year, she didn't attract that much attention.

Actually, she felt that she had bought enough for herself, but it was also far from being enough.

[The food is enough for the host to eat for three lifetimes.] The system's voice slowly rang out that caused her to knit her brows.

But these things will expire.

[No. The personal storage space is a static space, so it has nothing to do with the 'time' of any world.]

Nani!

"Ha, ha, ha!" Luo Qing Chen couldn't help laughing three times. For her, this really was a great piece of news.

Then she wouldn't have to worry about the shelf life of the food.

After stopping at the last mall, she started buying clothes and bags. Of course, she didn't buy any designer products or luxury goods.

Rather.....she bought good quality clothes, camouflage bags and hats, and stuff like that.

Although everyone loved beauty, you couldn't just stand in a group of zombies in high heels and a short skirt!

Of course, there were times where thoughts and actions were different. She still bought quite a few beautiful dresses and shoes.

Only she didn't buy any high heels.

Why did she buy it?

Because in the previous host's world, she never had these things!

The end of the world!

After taking care of everything, it was already very late. She called her mother and made up a random reason before heading to the five star hotel that she already booked.

To be honest, even without the powers in this world, she could absolutely survive in the end of the world with her own abilities.

But she had to worry about her weak mother and her blind little brother.

Those two were normal people who were at the lowest of the social food chain, especially in the apocalypse!

Protecting them was the problem.

After washing up at the hotel, Luo Qing Chen laid in bed as she started organizing the things that she bought.

She also had a discussion with the system during this time!

The contents were——

System, can't you help me sort the things in my storage space like you give me notifications?

[If you don't give benefits, the system won't do it.]

Luo Qing Chen looked at the space. It really was a bit messy, there was no basic organization at all!

Just tell me what benefits you want!

[The system wants to eat the dorayaki the host bought!]

What dorayaki can a piece of scrap like you eat?

[The host can organize it yourself then! Look at the system's store and look at the host's personal storage space, this is the difference between heaven and earth!]

Luo Qing Chen gritted her teeth and wanted to angrily curse her system.

But to quickly find things in the future, she had to endure.....

Isn't it just dorayaki? I'll give it all to you!

[Ding, three hundred pieces of dorayaki have been taken from the personal storage space!]

## **Chapter 2344: Welcome to the end of the world (Part 11)**

?!

Three.....three hundred! You're not afraid of eating too much!

[The system likes dorayaki, but I can't eat it, so I'm not afraid of having them.]

.....

The goods have already been delivered, the personal storage space will be left to you!

[Correction: Second personal storage space!]

Ok, ok! You are the boss, you make the decisions!

Luo Qing Chen rolled her eyes at the non-existent system before taking out her phone to call her little brother.

After all, he was in the music conservatory where the population was very dense.

As well as something else, the first hospital to fall was near the music conservatory.

“Ding, ding, ding~Ding, ding, ding~Ding, ding, ding~!” A beautiful piano sound came from the phone, it was Beethoven’s symphony.

It was Luo Qing Mian’s favourite song.....

After ringing for around twenty seconds, Luo Qian Mian finally picked up.

His voice was very beautiful, it was clean and pure with a hint of sadness.

It was like one could imagine what he looked like just by hearing his voice.

Black hair, long lashes, a white racing jacket, clean cloth shoes, and a pair of unfocused eyes that were still beautiful.

Although Luo Qing Chen only remembered his appearance from her memories, she couldn’t help smiling.

“Big sister.” A gentle voice came from the other side.

It was simply.....too smooth!

“That.....” Luo Qing Chen cleared her throat and awkwardly touched her ear as she said, “Mian Mian, take a day off tomorrow and come see your big sister in the city. I have something to discuss with you.”

“Should I go to the school?” Luo Qing Mian’s voice was very soft, but she could hear it clearly.

In Luo Qing Mian’s world, the Royal Academy was something he could never reach.

He looked up to his big sister and wanted to be the same as him, but he knew that he couldn’t because he couldn’t see.

Therefore, the Royal Academy was a place that he wanted to go to.

“No!” Luo Qing Chen shook her head, “Come see me at the Weston Hotel, room 00510.”

“Hotel?” Luo Qing Mian’s voice became a bit nervous as he quickly asked, “Big sister, did something happen to you? I can come find you now.”

“Don’t, don’t, don’t.” Luo Qing Chen quickly stopped him, “If something happened to me, would I still have time to call you?”

“Then why are you at a hotel?” Luo Qing Mian knitted his beautiful brows and said, “Mom said that you would be at school for two days and wouldn’t be back.....”

“Un! Don’t let mom worry.” Luo Qing Chen pursed her lips and said, “Come find me tomorrow. Don’t rush, come slowly.....”

Although she knew that the previous host’s little brother was a genius who was smart to the core, it didn’t hinder him to go anywhere even if he was blind.

He was still her little brother and it would be hard for her not to say something as the big sister.

“Alright, then big sister, wait for me.....”

“Ok, be careful on the way!”

Luo Qing Chen didn't forget to remind her precious little brother again before hanging up.

Lying on the bed, she looked at the balance of her card on her phone! Then she had to sigh over the fact that girls spent money at the same speed as robots.

There was only half a million left and she still had many things to buy.

[The host's second personal storage space has 752/1000 capacity left. The number of food items make up 50% of the stored items.]

Thank you system!

Luo Qing Chen narrowed her eyes and the personal storage space panel appeared in front of her.

As expected of a professional system, this kind of sorting really was troublesome! With just a single call, it was all done for her!

### **Chapter 2345: Welcome to the end of the world (Part 12)**

Luo Qing Chen looked at her phone and saw that it was already eleven.

She closed her eyes and planned on having a good sleep since if she wanted to have a good sleep in four days from now, she wouldn't have that many opportunities.

A night without any dreams.

When the knocking on the door in the morning woke her up, it was still dark when she opened her eyes.

The sky outside was still dark. Luo Qing Chen knitted her brows and was shocked. Could it be that the end of the world came early?

What was happening! There were still many things that she hadn't bought yet, alright?

Because she was in a tense state, she lost all her drowsiness and picked up her phone before preparing to run home.

But when she pressed the touch button, her feet immediately stopped.

December 28th, 2150, 4:10 AM!

God! Who was knocking so early? Weren't they afraid of her reporting them?

Luo Qing Chen knitted her brows as she turned on the lights and opened the door!

“What's going on so early.....”

Before she finished, Luo Qing Chen felt a warm embrace.

This familiar smell that had a trace of mint soap mixed in.

“Mian Mian?” Luo Qing Chen was surprised as she asked this in a tentative voice.

Although Luo Qing Mian was her little brother, she was still strangely nervous receiving this sudden hug. Her heart beat fast and her ears turned a bit red!

Please! This can't be blamed on her, alright? In theory, Luo Qing Mian was a very handsome young man.

"Big sister, are you alright?" He was panting a bit as he said in a nervous voice, "I couldn't sleep, so I wanted to come a bit early....."

For him, it was no difference if it was night or day.

It was even harder to wait in this eternal world of darkness!

"Ke, ke....." Luo Qing Chen coughed twice before saying, "I'm still.....alright! It's just that.....can you not hold me so tightly?"

How could this child not know how to regulate his strength when hugging!

"Sorry." Luo Qing Mian slowly let her go, "It's good that big sister is fine! I've been worried over the past few days, I feel that something is about to happen."

If someone else said this to Luo Qing Chen, she definitely wouldn't have cared.

But before the end of the world, Luo Qing Mian said this to her, it really was hard for her to ignore.

Could it be.....the previous host's little brother would also become a Power User after the end of the world?

It was just that he had died at the mouth of the zombies before becoming a Power User?

"I never thought that our family's little brother would have a sixth sense." Luo Qing Chen chuckled as she pulled him over to the sofa.

Luo Qing Mian slowly sat down before looking up. Although his clean eyes weren't focused, they were still beautiful.

He slightly knitted his brows, "It's not a sixth sense, it's like seeing a strange picture."

"See?" Luo Qing Chen waved her hand in front of his eyes and couldn't sense any reactions from him.

"Big sister, are you waving your hand in front of my eyes....."

Luo Qing Chen blinked in surprise, "You.....It can't be that you've always been able to see, right!"

"Ha, ha!" Luo Qing Mian revealed a smile that was as bright as the sun, "There's wind when you wave your hand."

"Alright!" Luo Qing Chen gave a nod before saying, "Then why can you see strange pictures? What kind of pictures? Can you describe them?"

Luo Qing Mian heard this and closed his eyes. After a while, he slowly said, "These pictures aren't what big sister sees, it's from another world. As for what it is.....blood, there's blood everywhere. The sky is dark and there seems to be a bunch of bodies without souls walking around....."

### Chapter 2346: Welcome to the end of the world (Part 13)

It had to be said, Luo Qing Mian's 'pictures' really scared her.

Wasn't this what happened in the future? Luo Qing Mian could see the scene of the end of the world before the end of the world came!

"Other than this, did you see anything else?" Luo Qing Chen slightly knitted her brows and handed him two tissues along with a cup of hot water.

His face didn't look good, as if seeing these pictures was torture for him.

"It's very vague....." Luo Qing Mian took a deep breath, "I seem to hear a lot of shrill screams....."

Seeing the beads of sweat on his forehead, Luo Qing Chen quickly said, "Stop thinking about it!"

"Big sister, am I sick....." Luo Qing Mian knitted his brows, "Don't tell mom, she'll be worried."

Luo Qing Chen rolled her eyes that was impossible for him to see, "Don't worry, you definitely aren't sick."

She was very certain that if there wasn't a Bai Family, Luo Qing Mian would have been a Power User in the end of the world.

Even if he was blind, he was a blind man with a powerful ability.

"So did something happen for big sister to have me take a day off today?" Luo Qing Mian took two sips of the water before gradually stabilizing his mood.

Luo Qing Chen looked at her phone and saw that it still wasn't five yet. She rubbed her temple and said, "Before speaking, your sister is going to get some more sleep!"

-

She woke up again at eight.

It wasn't an alarm, but rather a delicious breakfast.

"Big sister, I bought your favourite cheese bun." Luo Qing Mian carefully put the juice and bun by her bed, "Actually, I have a concert at school today, so if big sister doesn't have anything else to say, I'll head back to school first."

Go back to school?!

She immediately woke up when she heard these words. She took a few sips of the juice before clearing her mind and looking at Luo Qing Mian to say, "Mian Mian, although this might sound a bit unbelievable, big sister is planning on telling you the truth!"

Luo Qing Mian was surprised before suddenly calming down and looking at her to say, "Big sister.....do you have a boyfriend?"

He suddenly felt like the big sister who always loved him had been stolen away.

He really didn't like this feeling.

.....

How was the little brother in the Bai Family right now? Moreover, was it that unbelievable that she had a boyfriend?

"Of course not!" She immediately denied it and then said, "If big sister told you that the strange pictures that you saw were real, would you believe it?"

"Real.....what does that mean?" Luo Qing Mian knitted his brows, "But the pictures that I saw were of a completely different world, it looked like hell at the end of the world....."

"You're right!" Luo Qing Chen took a deep breath, "The end of the world is coming."

Over the next half an hour, Luo Qing Chen used a powerful voice to describe what would happen over the next few days.

Luo Qing Mian attentively listened during this time. Although he knitted his brows from time to time, Luo Qing Chen knew that he didn't have any doubts about her wild remarks.

Un! As expected of her little brother, his brain was good!

"So what is big sister planning to do?" Luo Qing Mian gave a sigh, "Will I be a burden to you?"

It turned out that what he saw was about to happen. It turned out that the bloody and cruel scenes were all true.

Since it was like this, what he feared the most was that in the end of the world, someone who couldn't see like him would be a burden to his big sister.....

### **Chapter 2347: Welcome to the end of the world (Part 14)**

Actually, he knew for a long time that he had a sixth sense. When he was a child, she saw the scene of Xiao Ming in the next class over being hit by a flower pot and after a few days, Xiao Ming's head was hit by a flower pot.

Or for example, when someone confessed to his big sister and she always rejected them.

If these things appeared once or twice, he wouldn't have been that surprised. However, after they kept appearing again and again and then happening in real life, he slowly believed that this was his ability.

But he couldn't tell anyone about this ability. It wasn't that he didn't have friends, it was just that there was no meaning.

In the eyes of others, it was nothing more than a fantasy tale.

But today his big sister acknowledged his ability, how unbelievable that was.....

But there was no use in just having his ability, he had seen the end of the world more clearly than anyone.

Killing, blood, selfishness, calculations, schemes.....

The evil roots of human nature were completely revealed in the end of the world. Many people had their morals completely collapse just to save their own lives. How terrifying that was.

“You will never be a burden.” Luo Qing Chen focused on his beautiful eyes, “You are big sister’s dearest little brother.”

“Big sister.....” Luo Qing Mian softly said in a voice that trembled slightly.

Luo Qing Chen waved her hand and said, “Let’s not spend time on sentimental words, time is running out. We will act separately.”

“What can I do?”

“Use anything you can to bring mom to this hotel.” Luo Qing Chen handed him a room card, “Then you can wait in this hotel for me.”

The Weston Hotel was A City’s best hotel and it was located in the rich part of town.

If her memories weren’t wrong, the hotel was a safe zone after the virus outbreak. As long as they were guests, they had the right to stay in this hotel at the end of the world.

Although later on, the entire A City might fall, at least it would be safe in the hotel during the early periods!

“Then where are you going?” Luo Qing Mian was a bit nervous. He unconsciously reached his hand out, but Luo Qing Chen gently patted it and said, “Your big sister is going out to buy some stuff!”

“I’ll come with you.....”

“Why do you want to become big sister’s burden before the end of the world?”

“.....I didn’t.”

“Go get mom, we’ll stay in touch. It’s still the normal world, so it’s very safe!”

“Alright!”

-

After leaving the hotel, Luo Qing Chen’s first stop was a pharmacy and it was a big one.

Other than food and water, the most precious thing that would be lacking would be medicine.

Gauze, cotton swabs, disinfectant, fever medicine, and etc.

She had to prepare all kinds of medicine, she even had to prepare things like injections.

God gave her four days, so if she didn’t cherish them, then she didn’t deserve to protect the people who needed to be protected.

Due to how strictly controlled medicine was, she could only buy a limited quantity.

Of course, that was limited to a single pharmacy and didn't mean that she couldn't go to a few more.

Every time she came out, she put the medicine in a big bag and she would hear the notification from the system.

[Ding, sixty kinds of medicine has been put in. The secondary storage space's capacity is 523/1000.]

She suddenly felt that it was worth it to give three hundred pieces of dorayaki for the system!

When it was noon, she had already gone to over sixty pharmacies.

Actually, she was already very quick, but there were still some kinds of medicine that she hadn't bought.

She didn't know why it was, but every pharmacy was out of stock.

### **Chapter 2348: Welcome to the end of the world (Part 15)**

She didn't have time to think it over. After quickly finishing up her lunch, she planned to hit a few large pharmacies in the west of the city.

These pharmacies were close to the factories, so the kinds of medicine she wanted should be there.

At the entrance of the Healthy Pharmacy.

Since it was in a remote place, there were very few people here.

Luo Qing Chen opened the door and felt the warmth coming from the air conditioning.

It really was a beautiful world, but it was a pity.....that this beauty wouldn't exist much longer.....

"Hello, miss, can I help you with something?" The female attendant came forward with a smile.

Luo Qing Chen said with a nod, "Hello, can you help me get several kinds of medicine that I need?"

"Alright! Please."

"Diazepam, aspirin, Ventolin, Zantac, berberine, Flagyl, Yunnan Baiyao, hydrogen peroxide....."

"About that, miss."

Before Luo Qing Chen could finish, the attendant cut her off.

She pointed at a place not far away where there was a man in a black trenchcoat, "The medicine that you're asking for was just purchased by that gentleman."

"They were all bought?" Luo Qing Chen looked at the man standing not far away with a surprised look.

He was wearing a black trenchcoat with his hands in his pocket. He was also wearing a mask and a hat so she couldn't clearly see his face.

But she felt that he was strangely familiar.

“Yes! We will be stocking up on those medicine next Monday, so if this miss can tell us how much you need and leave a phone number, I will call you when the shipment comes.”

“Next Monday?” Luo Qing Chen gave two cold laughs, “It might.....not be fated to come.”

When she said this, she didn’t look at the attendant, but rather the heavily wrapped up man.

His back trembled, but he never looked over.

“Miss, your words are very serious. If you’re in a rush, how about you try the other pharmacies in front?” The attendant said with a smile, “Those medicines are all common and they wouldn’t be out of stock in a normal situation.”

“That normal situation.....” Luo Qing Chen muttered in a low voice before looking at the attendant with a smile, “It’s fine, thanks! I’ll go and ask at the pharmacies.”

As soon as her voice fell, she put her hands in her coat and walked out the other door.

Actually, could have gone out the direction she came in, but she wanted a chance to pass by this man in the trenchcoat!

It wasn’t considered passing by him, it was at best passing behind him.

But that was enough.

Because she already knew who he was.

Although he was tightly wrapped up, the certain black mark behind his ears wouldn’t lie.

Qian Si Nai, her great male lead!

It seemed like she had to re-evaluate this person. The man with the mushroom hair and glasses wasn’t his real form.

The more important thing was that three days before the end of the world, he came to such a remote pharmacy to buy all this essential medicine. Did that mean that.....he knew that something was about to happen?

Could it be.....he knew about the end of the world?

She headed to the next pharmacy as many thoughts passed through her mind.

Assuming that Qian Si Nai knew about the end of the world, it was likely that he knew earlier than she did, so he must be more prepared than her.

She only had less than three hundred thousand left and there were still many things she needed.

She at least needed a car and it was best if it was an off road vehicle.

## **Chapter 2349: Welcome to the end of the world (Part 16)**

At half past two, Luo Qing Chen ran through half of A City and bought the medicines she needed.

Although it wasn't much, it was better than nothing. Adding in the storage of her personal storage space, what she bought was already considered a lot.

After coming out of the pharmacy with a bag filled with stuff, the system secretly put it away.

[Ding, ten kinds of medicine has been put in. The secondary storage space's capacity is 513/1000.]

After the system sorted everything, Luo Qing Chen's bulging bag suddenly deflated.

It was at this time that a cool voice suddenly called out to her.

Un! It wasn't just a normal call, but rather her full name.

"Luo Qing Chen."

Luo Qing Chen knew who was calling her the moment that she stopped.

The winter wind blew and the faint sunlight fell, gradually increasing the length of their shadows.

Three seconds later, she slowly turned with her hands in her pocket to look at the man in the trenchcoat with narrowed eyes.

This was her first time seriously looking into his eyes. They were as dark as ink and as deep as the sea.

If she took a few more looks, she would sink into them.

"Un humph?" She looked up and revealed a faint smile, "What do you need Qian.....Classmate Qian Si Nai?"

The other side was clearly surprised as his eyes filled with disbelief.

How was this possible? Although this girl was in the same class as him, they had never interacted before.

He was always disguised at school, so his current image was completely different. How had she recognized him?

"You....." He was about to speak, but Luo Qing Chen cut him off.

"Since we've already exchanged names, it's better to be open." Luo Qing Chen looked at him with a sparkle in her eyes, "After all, there isn't much time left."

Qian Si Nai narrowed his deep eyes before softly saying, "What do you want to say?"

"How about we make a deal?" Luo Qing Chen seriously looked at Qian Si Nai who was standing in front of her.

"What do you want?" Qian Si Nai coldly replied.

"I want a car, an off road vehicle and it's best if it was bulletproof." She blinked to think before saying, "I also want cash, the more the better!"

“Classmate Luo seems to want a lot.” Qian Si Nai narrowed his cold eyes, but an intrigued smile appeared as he looked at her, “I wonder, what can you take out in exchange?”

It had to be said, even with the hat and mask on, Luo Qing Chen could still feel the aura that he was releasing.

It was like he released an aura just from standing there that was different from everyone else.

“I.....” Luo Qing Chen bit her lip as a bit of uncertainty appeared in her heart.

After all, what kind of identity the other side had, what kind of power, why he knew about the end of the world, and all kinds of other things.

She didn’t know anything about this youth named Qian Si Nai.

Even if she did know, she still didn’t know what the other side needed.

Then it was very hard to make a deal.

But she did need a car.

She took a deep breath and said, “I’m certain that classmate Qian will be interested in what I can trade.”

“For example?”

“.....?” Luo Qing Chen hesitated a bit before saying, “I can keep things for you.”

Without knowing why, even though her ability was amazing, the way she said it made it sound very poor.....

“Carry things?” Qian Si Nai said with a laugh, “I don’t think I need you to carry things for me, especially in three days.”

### **Chapter 2350: Welcome to the end of the world (Part 17)**

If it was said that Luo Qing Chen wasn’t certain if Qian Si Nai knew that the end of the world was coming, she was now certain after he said this.

But his tone really was unpleasant!

“So classmate Qian Si Nai called my name because you found it fun?” Luo Qing Chen slightly knitted her brows in anger, “Since there’s no deal to be made, let’s not waste each other’s time!”

As soon as her voice fell, Luo Qing Chen angrily turned around to leave, but she never expected the system’s notification to ring out in her ears.

[Ding, affection has increased by ten. Mission completion rate is now 10%.]

!

It turned out that her male lead liked to be treated like this!

After the notification finished, Qian Si Nai's cold, but slightly anxious voice came from behind her.

"Alright! I promise you, let's make a deal." His voice sounded very good, like a cello ringing out in a cold spring.

Very special.....

Luo Qing Chen stopped moving and her lips revealed a smile that was hard to conceal.

Without knowing why, she felt that she had hooked a large fish that had chosen to get hooked.

She didn't know a thing about Qian Si Nai, but that didn't mean that she couldn't use her own method to leave a special impression on the other side.

[The host clearly knows that this is wrong!]

You shut up!

After Luo Qing Chen responded to the system, she took a deep breath and relaxed the muscles in her face to reveal a polite smile. She turned around and said, "So what does classmate Qian want to take from me?"

Since it was a deal, it was better to make the terms clear.

After all, she and Qian Si Nai couldn't talk about 'feelings' right now!

Not to mention love, they still hadn't even blooming friendship yet.

So it was unrealistic to get benefits from the other side for free.

"I haven't thought of anything right now." Qian Si Nai looked at her with a faint sparkle in his deep eyes, "But before I can think of it, at least in the near future, I hope that we won't become enemies."

"Deal."

Luo Qing Chen didn't give any other conditions and agreed to Qian Si Nai's condition.

Because she knew that no matter what happened in the end of the world, it was impossible for her to become enemies with Qian Si Nai.

"Other than the car, I think you still need some other things." Qian Si Nai narrowed his eyes and revealed a faint smile.

He had to admit that he admired this girl who was two meters away very much.

They were classmates, but before yesterday, he had never noticed this person.

Of course, this person had never paid attention to him because at the Royal Academy, he had always hidden himself.

The more identifiable a person was, the more they had to learn to hide themselves.

A black Maserati slowly came out of a private underground garage.

Luo Qing Chen decided to go with Qian Si Nai to see the things that he said she needed.

When she saw the Maserati worth tens of millions parked in front of her, the image of the young man with mushroom hair, black rimmed glasses, and acne appeared in her mind.

That face blurred more and gradually disappeared from her memories.

She was frozen in place and didn't open the car door for a while.

It was at that moment that the car window slowly opened. The fragmented sunlight came through the window and landed on Qian Si Nai's face.

That sculpted face with fine features, the white skin, the beautiful eyes, and those.....thin lips.

It was a perfect face that was reflected in her eyes, that Qian Si Nai really was beautiful.

With the soft breeze and the sun, it was just right.
