

## R Cultivator 106

Chapter 106: Sect Young Master

One day, in the near future :

"Everyone from the Crimson Blood Sect. Whoever Finds Phantom Blackwood will be my personal Disciple. They don't have to worry about resources until they reach Grandmaster Warrior level." The Sect Master of Crimson Blood Sect screamed. He seems to be very angry.

More than thousands and thousands of disciples of the Crimson Blood Sect and Hundreds of elders are angry.

"You might be thinking how I ended up in this situation." Tyler who is standing among the disciples said. Tyler is Phantom Blackwood, the name he used when he explored the Kun Peng Ruins.

Back to the present

After Tyler won the bet. He immediately hired many chefs and candidates to immediately start the business. The Immortal Bytes is now available in every Island. Yan Xi's Fire Valley Restaurant didn't even try to sabotage them because Lily Gomes has shares in Immortal Bytes.

Meanwhile the White Auction Hall also opened. Tyler auctioned many things he got from the Kun Peng Ruins.

200 Disciples and 20 elders left the sect to investigate the Giant Hand anomaly. Tyler, Omar, Yan Xi, Yi-Han, Mathilda are also included.

Tyler boarded a ship with others. This gigantic Ship has the Crimson Blood Sect flag and logo on the Sail. The Ship moved faster and Tyler doesn't even feel like he was in a ship while staying in his room. The ship is installed with different types of Arrays.

Tyler just stayed in the room and studied arrays. Mathilda visited him once to ask about Alchemy. But Tyler barely knew about the Alchemy so he politely declined. Then she invited him for Tea.

"Ok... There is definitely something wrong. You want to make Yan Xi jealous, so you are pretending to spend time with me." Tyler said.

"As expected Lily Gomes' assistant." Mathilda laughed.

"One doesn't need to be Lily Gomes' assistant to guess this." Tyler sighed.

"Still it is impressive." Mathilda said.

"Girl, you are making more trouble for me." Tyler said.

Mathilda laughed sheepishly. She gave a signal to her maid. The maid understood and moved closer to Tyler. She then slowly placed her palm on his palm.

"Okay? What is this?" Tyler asked in confusion.

"How about this? You can enjoy her. She is one of my toys. She won't dare to resist even if you wanna play hardcore." She offered.

Tyler's mouth twitched. He also noticed the maid is a little scared but doesn't dare to disobey Mathilda.

Tyler grabbed her hand and made her sit on his lap.

His hand slowly reached her. The girl closed her eyes in fright.

"Ahem" Mathilda made a sound like clearing her throat.

The maid opened her eyes immediately when she heard that sound. Tyler hand patted her head.

"You are frightening the little girl." Tyler smiled.

"Ara... I didn't expect you to be a gentle man." She said mockingly.

Tyler coughed and said , "Alright. Just bully your servants." He then patted the maid's head again, "You can go to your master. It seems like you love your master so much."

The maid blushed and looked at Mathilda.

"Come here sweetie." Mathilda called her. She walked towards her. Mathilda dragged her to her lap and kissed her. The Maid also responded. She became intoxicated and melted in Mathilda's hand. Mathilda gave Tyler a wink, like saying that he missed a full meal.

To be honest, Tyler is almost on the verge of losing to Intrusive thoughts. Especially when the Girls kissed.

Suddenly someone knocked on the door. Tyler opened it, and a man was standing there.

"Hello Fellow Disciple." He bowed. The man then looked at Mathilda whose dress was a little messy.

"Sorry for disturbing you. But the Young Sect Master invites Mr. White and Ms. Mathilda for dinner tonight." He informed him and left.

"We have Sect Young Master?" Tyler asked in confusion.

"How could you not know about Sect Young Master?" Mathilda looked surprised.

"I am new." Tyler said.

"Listen carefully. Sect Young Master is going to be our next Sect Master. He is only Grandson of our Sect Master. He is a Master Warrior and... She then whispered, "his story is popular among our sect."

---

Many years ago,

The Crimson Blood Sect issued a trial. Many disciples, even servant disciples, participated in it. Those who complete the trial get many resources and all. Those servant disciples can become official disciples. Because of these rewards , many people joined.

They were sent to a small artificial forest made by an Array master. Almost half of the people died in the Trial. People who completed the trial were waiting for the reward. The servant disciples who completed it are in cloud nine because they are gonna become Official Disciples.

An elderly man with long white hair and a full, flowing white beard that extends down his chest appeared. His face shows signs of age, with wrinkles around his eyes and forehead. He has a serene and gentle expression, with slightly drooping eyes and a faint smile. His eyebrows are thick and white, matching his hair and beard. He is wearing traditional attire, which includes a pinkish robe over what appears to be a purple inner garment. The overall appearance of the man conveys wisdom and tranquillity.

"We greet the Sect Master." All the disciples immediately knelt before him.

The sect master walked towards the disciples, "congratulations, I am happy that many of you survived."

He smiled and looked at them gently.

"Now. It's time for a reward."

Everyone is looking forward to the reward. They were filled with anticipation.

One of the Servant disciples said, "Mom... I did it. I became Official Disciple."

"Your reward is... the chance to pave a path for my new born grandson." He still had that gentle smile while the disciples were confused.

A pregnant maid brought a baby. She gently placed it on an altar that appeared when the sect master waved his hand.

While the disciples were in confusion, an array activated below them. They couldn't even move.

"My daughter and Son-in-law died due to an accident. My Only Grandson was born without any talent to practise Immortality . So I need your Talent, your blood, your meridians to nourish my grandson." The Sect master said with a smile.

"No... Please."

"Don't do this."

"Your Grandson will die a cruel death."

The disciples begged, their begging turned into curses. But the sect master didn't care. He sacrificed all the disciples. Everyone felt like a thousand ants were eating their flesh, as they turned into blood. The blood energy then directly revolved around the baby. The Pregnant Maid who is near the baby also got affected. But she didn't dare to move.

---

"What the- " Tyler was dumbfounded.

"That Young Master is someone who killed hundreds of disciples when he was just a baby." Mathilda finished narrating the story.

Tyler was shocked. It did make sense because only now he felt that this is an unorthodox sect.

"Can I refuse the invitation?" Tyler asked.

"Oh... It will be even more interesting." Mathilda looked at Tyler like she was looking at Dead person.

"Her clothes were messy. Her cheeks were red. Her eyes were watery. I am pretty sure she is at least kissing him in the room." The man who invited Tyler said to Yan Xi.

Yan Xi's face turned red. He is regretting not using his full power to kill Tyler back then.

"I want to kill him and feed him to the fishes." He said while the temperature around him rose.

The man waved his hand and used his Aura to suppress the Heat.

"Don't worry. You can finish him off once we reach the destination. For now, get ready for the Young Master's dinner Party." the man said.

The night arrived. On the way many merchant ships, adventure ships and even Pirate ships took diversion when they saw Crimson Blood Sect Ship.

Tyler entered the venue. He was once again surprised because the venue looked small from outside. But it is large inside.

"Space Shrinking Array?" Tyler mumbled. He wanted to make arrays like this.

He saw many disciples dressed up well and entering one by one.

Tyler also saw many Pleasure Hall disciples. These Girls are the main attraction. They are the ones serving the food and drinks while wearing very short clothes.

There are also some handsome men. They are almost naked showing their whole well built body. They are also serving the disciples. Many female disciples are teasing them. Some are even molesting them. There are even some men who are doing that to them.

Tyler quickly walked in. He found Omar who was getting teased by some senior sister. Omar signalled him to help but Tyler pretended that he didn't notice and walked past him.

He quickly found Mathilda. He only has a few acquaintances. Mathilda is wearing an elegant green dress. She is teasing the girls from the Pleasure Hall. Her maid is nowhere to be seen. She noticed Tyler and waved at him.

Tyler decided not to disturb her either.

Suddenly he got stabbed by a knife. Blood began to flow.

Chapter 107: Arrived at the Destination

Tyler got stabbed by a knife. But he was unfazed. He touched the blood, it didn't reach his hand.

"Nice Illusion." Tyler said as he looked at the side.

"Tsk... Such a mental strength" The man who casted the illusion clicked his tongue and left. He walked straight to a group of people. Tyler saw Yan Xi among them.

"Childish." Tyler murmured. They just wanted to make fun of him and laugh at him.

He then walked to the food section. There is a long buffet with many girls and boys wearing sexy outfits. Tyler's eyes were focused on the food. He quickly grabbed some Adobo, Nasi lemak, Biriyani and some other foods he had never tried before. These are all different types of food popular overseas.

While he was enjoying the food, Tyler saw a drunken man hopping with one foot.

"Wow, cool party trick. Really looks like you are missing a leg." Another drunken man said.

"I lost my leg while escaping a monster." The man with one leg replied.

"Oh... Cool trick though."

"Thank you."

Tyler's mouth twitched hearing their conversation. He just turned around and looked at the girls who were dancing in the centre. There is also a band playing music.

It is more like a party. Soon the crowd became silent. They played suspense like music. All the people who were sitting stood up. A young man with a gentle smile walked in the venue.

"We greet the Young Master Zhou." Everyone greeted him.

"Thank You. Thank you so much." The Young Master smiled.

Zhou Qingchen is the Young Master of the Crimson Blood Sect. He is wearing a traditional dress which resembles his grandfather's style.

Most of the people stood up. Tyler was already standing up while holding the food. He looked around and saw everyone was giving respect to the Sect Young Master. Even people who have High status like Yan Xi, Mathilda and others.

"Thank you for attending this small gathering. I hope you all enjoy the food, alcohol, girls and boys....." He gave a long speech, Tyler felt a little bored. He wanted to move, but he couldn't. He noticed that this young master is also observing everyone's reaction while giving the speech. He doesn't want to have unnecessary trouble with a person of that calibre.

The person who delivered the invitation to Tyler, appeared beside the Young Master after the speech. Beside him is Yan Xi. Tyler had a bad feeling about this.

The man introduced Yan Xi. Yan Xi cupped his hand and bent his body a little. His arrogant gestures are nowhere to be seen.

Soon Yan Xi then talked something and searched the crowd. Tyler and his eyes met. Yan Xi pointed at him, a sinister look flashing across his face.

The young master smiled at Tyler and gestured to him to come there. Tyler walked towards him. He sighed in his mind. He wondered if the rules of not killing the disciple applied to the Sect Young Master. He also checked the dozen explosive charms filled with storage sea shells, just to be safe.

"Greetings Young Master." Tyler nodded.

"Hello. No need to panic." Zhou Qingchen said gently.

Tyler has a deadpan expression. Zhou Qingchen coughed and said, "I heard about you. Really great. He can't kill you even when he besieged you with all his junior brothers. hahaha."

"Well past is past. I don't want people from the same sect to kill each other. Be friends okay." Zhou Qingchen said.

Tyler was dumbfounded even when Yan Xi was shocked. He also didn't expect this.

"Come on, you both shake hands and give a hug." Zhou Qingchen ordered. Suddenly the beautiful girl beside him said something in his ears.

"No need to hug, just shake hands." Zhou Qingchen quickly said.

The Girl reminded him how he did the same thing before. He made peace between the two opposing parties. He told them to shake their hands and give a hug. The problem is one is a man and another one

is Woman. When they hugged each other a spark happened between them. Both of them eloped. Their family is still searching for them. Their family - i.e, their children and spouse are still searching for them.

Tyler and Yan Xi looked at each other. They understood each other's thoughts. Let's just act.

"Don't use your Aura. I will kick your ass." Zhou Qingchen warned them.

Tyler and Zhou Qingchen grabbed the hand. Both of them were smiling.

\*crack crack crack\*

"Who is eating murukku here?" Zhou Qingchen said jokingly. He knows that these two at least won't do anything until he is present. That's all he wants.

"Alright. You can go." He said to Tyler. Tyler smiled and left.

"You shouldn't have broken his bones." Zhou Qingchen said to Yan Xi. But he paused when he saw Yan Xi's hand was shivering and his face turned red. He turned and looked at Tyler who was retreating with an impressed expression.

Tyler shook his hand. It's a little painful.

"Are you okay?" Mathilda asked.

"Yeah. Young Master seems to be gentle and kind." Tyler said. It was the impression he got from him.

"Yeah. Not arrogant and not biased." Mathilda agreed.

The dinner event ended without drama. Tyler was disappointed, he himself doesn't understand why he is disappointed.

Next day the ship arrived at the destination. Tyler walked towards the deck of the ship. He felt a huge pressure. Not only him but all of them including the Young Master and the elders even felt the pressure.

"Immortal Pressure." Tyler mumbled.

"Wow you can identify Immortal Pressure. Have you seen an Immortal closer?" Mathilda, who was beside him, asked curiously.

Zi World Flashback - Stomping an Immortal - Many things flashed in his mind.

"Kind of." Tyler nodded.

"This is an Immortal Pressure." One of the elders said,

Everyone looked at the direction where the ship was heading. They gasped in awe. A huge water pillar in the shape of a hand in the middle of the sea appeared.

"That's not a water pillar, there is something else." Young Master Zhou Qingchen said.

It is like an invisible palm is pressed in the middle of the sea forming a huge space. Imagine a bowl of water and placing the hand on top of the water. Now imagine the hand being invisible. The huge palm print seems similar.

Many ships are surrounding the huge hand. One ship even moved closer to it. When it reached a certain distance it was instantly crushed.

Tyler gulped. Even a hand print left by an Immortal has this much power. He was glad that the immortal who crippled him was restricted a lot.

"Let me test it first." Young Master Zhou Qingchen who is talking to the elder said. A Ghost appeared from his body.

"It's young master Ghost spirit."

"I heard that it's his clone."

Everyone looked at it with interest. Tyler's mouth twitched. So that's how a Ghost spirit works. Like a clone. Tyler felt pain in his back. It was Mana pinching. Her small hand popped out from Tyler and pinched him.

"Mana is different." She pouted.

The Ghost spirit flew. Young Master Zhou Qingchen's eyes were closed, his part of consciousness is inside the Ghost spirit. He, as a Ghost Spirit, flew towards the Huge Palm print. The closer he got the more he struggled.

Suddenly the ghost spirit crushed into pieces. Young Master Zhou Qingchen coughed out blood. His Ghost Spirit was destroyed. His face turned pale. But he doesn't care if it will reform again. It will never get destroyed as long as he is alive.

"Young master, Are you alright?" the elders asked in concern.

The Young Master smiled and told them not to worry. He looked at the girl beside him. She gave him a small vial. The Young Master drank it. His face turned normal again.

"Move the ship a little closer. After that we will try some methods and see if we can get closer." Young Master Qingchen ordered. The elders agreed.

Omar walked towards Tyler with sleepy eyes.

"Seems like you had a pleasant night." Tyler teased him. Omar blushed and said, " Don't tell the boss.

"Don't worry, Trust my character." Tyler said with an upright expression.

Meanwhile Lily Gomes received a letter by a small distance teleportation charm "Omar did snu snu with girls from pleasure Hall in the ship."

"Looks like they reached their Destination. Now it's time." Lily Gomes mumbled. She is the one who asked Tyler to send something as a reminder when they reached the destination. She took a mask. This is the mask she got as a gift from Tyler. She didn't expect Tyler to give her this valuable treasure.

What she didn't know is that - If Tyler wanted, he could freely give away thousands of masks. He gave her a little something as repayment for her help.

Lily Gomes wore the mask. The mask turned into black mask with two bright white eyes. She changed into a black hat and black costume.

She headed towards the Isle of Blood.

#### Chapter 108: Isle of Blood and Immortal Spark

Isle of Blood is a hidden island among the several islands around the Crimson Blood Sect. This Island is where prisoners are held. No one dares to barge in this Island because those who tried before were never able to leave.

Today a woman is wearing black costume and a black mask that has two shining white holes.

A stylized jacket embraces her arms and upper torso and opens under the sternum, where an area exposing her cleavage presents itself. Her jacket has a short frontal length that ends around her ribs section, while the back continues to the length of her calves, with puffy fur accents at the collar and waistline, and a section of exposed skin along the hips stretching into the back region. A large cape settled over her left shoulder.

"Seriously, this guy really has a unique taste." The Woman is Lily Gomes. She requested her assistant White to custom make a costume. She knows that he won't ask any questions. Also told him to keep it a secret.

Lily Gomes entered the Island. Now people are focusing on securing Kun Peng Ruins and investigating the immortal hands. She decided to sneak in.

"Hope you are not dead." She mumbled as she saw the Isle of Blood.

The whole Island is concealed from outside. Blood aura, deadly desert plants and rocky mountains, these are the only things that can be seen from the outside.

But there is a terrifying prison inside the island. Lily Gomes casually walked towards the cactus plants that are grown on top of a rocky mountain. She is checking the cactus one by one.

Suddenly a disciple flew towards her, "Who are you? What are you doing here?"

Lily Gomes' eyes lit up, though the man couldn't see it. She laughed and disappeared and reappeared behind him. The man turned around in confusion but he fell down unconscious. Lily Gomes took a spray bottle and sprayed it on the man's face.

"With this he won't wake up for days. I am a Good Girl" she tied him up and covered him with rocks inside a small place.

"Oops I forgot to ask him where the entrance is." She sighed. Then she checked all the cactus plants. She quickly found a one that is hollow inside. She then saw a small array that needed a fingerprint to enter inside.

"Tsk..." Lily Gomes clicked her tongue. She then came back with a finger. It's the finger of an unconscious man.

She placed the thumb print. The cactus opened and a hole can be seen.

"Oh looks, worked on the first try." She casually threw the ten fingers away. Just to be safe, she brought all of the fingers.

"What a deep hole? That's what he said." Lily Gomes mumbled and looked around, "How lame. That joke was quite good. But no audience."

"At Least no one knows that I am here." She jumped into the hole. Meanwhile inside the prison, an array is showing everything that Lily Gomes was doing. The prison Guards are watching it with dumbfounded expression.

Tyler white was Surprised because he was walking under the Sea. Not only him, but some disciples along with him is walking under the sea. It happened because the Sect Young Master is holding an Umbrella and this umbrella has ability to make the user and few people around him to breath under water, ignore the pressure and walk in water. The only downside is that won't able to swim while using this.

Tyler has a water escape charm. It is Very popular charm which can be used to float on the sea. So he is not afraid even if Sect Young Master suddenly closes the umbrella.

Another group of people is trying to enter the palm from the sky. Everyone is trying different methods to enter the Palm print.

The Immortal Pressure descended but it was lower compared to what they felt on above the sea.

They quickly arrived at the water pillar. The edge of Immortal's palm print.

Tyler and other Disciples touched the water pillar. Without any disturbance, it passed through smoothly. They looked at each other and smiled. They quickly jumped in.

Young Master Zhou Qingchen closed his umbrella after entering. He then looked at the disciples and said, "I want someone to go back and inform our elders."

Everyone hesitated. They don't want to miss the chance to explore.

"I will do it." Tyler said immediately. Zhou Qingchen was satisfied with his response. He looked at others with anger and said, "You all go and bring back the elders."

They took an umbrella from him and quickly left. They don't dare to disobey him. Tyler looked a little regretful because he wanted to make a copy of that umbrella.

"Don't worry. I will protect you. We will just stay here till the elders reach here." Zhou Qingchen said.

Tyler thanked him.

Tyler and Zhou Qingchen looked around. There is only one thing inside the immortal Palm print and it is glowing lightly at the centre. Whatever it is, it is also giving a weak Immortal pressure.

Soon the elders arrived using the Umbrella. Tyler noticed that there were some Disciples present including Yan Xi.

They walked towards the centre. The Palm print is as large as the floating Citadel. Thoughts about water and their properties appeared in his mind. He can also feel that his understanding on Ice elements is also improving.

Tyler looked around in confusion. Some of the disciples were already sitting crossed legs and were in a state of enlightenment.

Tyler also felt if he meditated now, he might enter an enlightenment state. Tyler didn't want to enter an enlightenment state in the middle of the sea. So he decided to control it.

"It's ok. Go on and meditate. The elders will protect you. It's a rare opportunity." The Young Master smiled gently.

Tyler nodded and other Disciples who were hesitant also listened to Young Master and sat down and started to meditate.

Roughly half a day later Tyler opened his eyes. All the disciples opened their eyes at the same time.

"The enlightenment ended. Well it was just an aftermath." The Young Master said which confused the disciples.

"This Giant Palm print is an attack from an Immortal. That Immortal crushed something beneath here. The huge pressure, the enlightenment, everything is just the aftermath of the immortal." The Young Master explained.

Tyler again felt glad that the immortal who tried to make it difficult for him was restricted.

"Now let's move to the centre." He said, The people quickly reached the centre. There is a small sparking thing in walnut size floating emitting a weak Immortal pressure.

"Isn't that -... " Young Master Zhou Qingchen's eyes widened. He looked at the spark with disbelief. Not only him, even the elders were flabbergasted.

Tyler and others were confused.

Young Master Zhou Qingchen didn't even care to explain. He quickly ordered the Elders to secure the spark. The Elders tried to hold it in a sea shell but it broke.

Young Master Zhou Qingchen looked at the Disciple. Tyler has a bad feeling about it. He felt a little uneasy.

"This is called Immortal spark." The Young Master said.

Immortal Sparks - Those are the things that appear when one kills an immortal Practitioner above Elite Stage and it is an easy way to reach a higher level. For example if an Elite warrior ate a Master Level Warrior Spark he would immediately break through Master Level without any bottle neck.

But it is not easy to get a spark. One - it is very rare. Two - the probability of its appearing after a Kill is very low. There are some rumours that say Luck can increase the probability. Three- after consuming the Spark, it is not easier to reach a higher level. Because it takes lots of time to consolidate.

The Young Master generously explained everything. But Tyler's uneasiness didn't leave.

"It is not easy to contain a spark. It needs a special material to contain this. And this one is Immortal level Spark which is called Divine Spark. I need a living container to hold it." He said.

Tyler understood that the living container is probably one of them. He silently retreated.

"Will that person Die?" One of the disciples asked.

"Don't worry, I will take care of your family." Young Master Zhou Qingchen said with a sad face. Everyone retreated at the same time.

"Well.. I was not even asking. Elders capture them and make a blood and flesh container. We should definitely bring this back to grandfather." He said. The Elders nodded and quickly used their aura to suppress them.

Mode Phantom

Everyone including Yan Xi was suppressed. Only disciples joined the Young Master in exploration, most of them were in ships. Omar and Mathilda didn't join.

Young Master Zhou Qingchen looked behind them, "I knew you were special. You also have a ghost spirit."

He was talking to the air. Disciples looked back and Elders also looked in confusion. Tyler appeared in the distance. He looked at Young Master with disbelief. He was still locked by Young Master aura even after turning Invisible.

Chapter 109: I found Something

"Young Master, do you want me to catch him?" An elder asked.

"It's alright. First use these disciples' flesh and blood to make the container. We will catch him later if it doesn't work." Young Master Zhou Qingchen ignored Tyler.

Tyler sighed and retreated silently.

"Young Master. I am Fire Valley's Eldest Disciple." Yan Xi said.

"Tsk... Alright Alright. First use unimportant people to make a container." Young Master said to the elder and looked at Yan Xi, "But if it is not enough, then I have to use your flesh and blood too... That elder from Fire Valley will understand that Sea is a dangerous place and accident happens."

Yan Xi bowed. He can only pray that these people will be enough to make vessels. Yan Xi looked at Tyler. If possible he wants to capture him and give it to the Young Master. But he has already seen his speed once. So he decided not to do it.

"Ah... He escaped?" Yan Xi couldn't find Tyler.

"Don't worry. He cannot leave this Giant Immortal Hand print without my umbrella. Also it doesn't matter if he escapes somehow. I don't hold a grudge with him." Young Master simply said. For him there are two types of people, they can be used or disposed of. Tyler is someone he can use later.

Tyler is now standing on another edge of Immortal's Hand print. He could see the fishes and other creatures swimming peacefully. Tyler is a little confused because these fishes are not affected by Immortal Pressure.

There were many strange things in the depths of the sea, such as the sea monsters that suddenly swam past the fierce beasts with many tentacles.

Tyler looked at the glowing things in the sea.

"That's... " Mana appeared and said something. Tyler's eyes lit up. He walked back.

Tyler went back to the young master. The Young Master is drinking Tea while sitting cross legged. The young master was surprised, he didn't expect him to come back.

"You really gave me a surprise again." Young Master said. Tyler looked around and half of the disciples were missing. And there is a box made of flesh beside the elders. It is also making heartbeat noise.

"The container is finished. So I don't need any more sacrifices. Sit and drink Tea." Young Master said calmly.

Tyler sat before him. Young Master is surprised again because the other Disciples didn't dare to sit with him after what he did.

"This tea is called the Deep Blue Tea. It's a deep-sea tea. Not only is it difficult to grow, but the production is also very small. Only a bit is harvested in over ten years. But it's worth the wait. Please try it." Young Master said

Tyler was a little surprised. From the aroma, he could tell that this tea wasn't inferior to Red Azure Tea at all. From the Energy circulating in the tea, he could tell that it was even more impressive than Red Azure Tea. Red Azure Tea is one of the expensive teas from his previous world.

He picked up the teacup and took a sip. A coolness spread throughout his body. It made him feel as if he was in the endless deep sea. His mind was calm. This tea was extraordinary.

He put down the cup. "This is good tea."

"I'm glad you liked it," said the Young Master with a smile.

"Young Master, I found something." Tyler said.

Isle of Blood

Lily Gomes is walking in the prison. It is a huge underground with many caves. Each caves have bars and behind the bars were prisoners reside.

Many Prisoners took a pickaxe and walked deeper to mine. This whole prison is mine. All the prisoners were shackled by the Essence Constraint cuff which is used to suppress their Strength.

The Guards are searching everywhere for Lily Gomes. The Monitoring Array only works on the outside , not the inside. It is not easy to infiltrate the Isle of Blood. It's just Lily Gomes who did it smoothly.

Even the Guards didn't expect someone would barge in a straightforward way.

Lily Gomes appeared in each cell and looked at each person. Some people begged her to take them away. Some people mocked her. Some people ignored her.

Lily is searching for someone, but she can't find him.

"All it has left is the mining Area." She looked down at the Mining Area. The mining area is like a cylindrical tube, everyone is mining for Floating Stones. Floating Stones are necessary for a Floating Island. These Stones are very rare and mysterious. The Crimson Blood Sect, somehow found a small vein of Floating Stones in an abandoned Island.

Even after mining for many decades they only got one and half tonnes of floating Stone. But still they are very rare. A floating island like Crimson Citadel needs 3 tonnes to make the whole Island float for centuries.

Lily Gomes then became invisible easily. Unlike Tyler, her strength is higher. So she was able to make use of the mask fluidly.

When Lily Gomes entered the mining area. The Warden of the Prison who is sleeping in one of the cells inside the mining area woke up. The prisoners were scared when they saw Warden woke up.

"Find her faster. Make sure she doesn't wake the Warden up." a guard said but suddenly his face turned stiff.

"No need to search for her. The warden is awake." He said with a bitter smile.

A Giant man with 7 foot tall man woke up from his sleep. He scratched his but and made a Yawn. The prison cell which is closed got blasted by the Yawn. He scratched his butt and walked out.

"It's been many decades since a Rat entered my den." He mumbled.

Lily Gomes turned on invisibility and walked slowly. Suddenly a Giant Figure appeared behind her. He slapped Lily Gomes like a bug. She flew away and crashed into a wall. He grabbed her by the head and threw it in a prison. He then locked the prison and went back to sleep.

..... ◆ ● ◆ .....

"Good Good Good." The Young Master said three times. He is now standing with the elders in one the Edge of Immortal's Hand print.

"Young Master, Others are coming." An Elder warned.

"Looks like some people found some other way to enter." The Young Master said.

"Should we - " One of the elders made a throat slitting gesture.

"No need. They all think that they are the chosen ones, and that fate is on their side. It also means that those who enter are either fools or extremely powerful people," Young Master said.

"Alright White. Since you contributed. I can give you a reward when we get back. Don't worry I won't use you as Cannon fodder for now." He guaranteed Tyler.

Tyler's eyes twitched. What do you mean 'for now' ? Then you will definitely use me as Cannon fodder in future, right?

"Thank you for your generosity, Young Master." That's all Tyler could say.

"Here, Take my umbrella and go to the ship. Inform them to bring more people." Young Master said.

Tyler took the umbrella and left. He wanted to copy it immediately but there are many people here. So he just left the immortal Hand print. While holding the umbrella, Tyler can freely walk in the bottom of the sea. The sea water didn't even touch his clothes.

He reached the ship swiftly and activated an umbrella. The umbrella pulled him above. He broke the water and floated in Air and landed on the ship.

The elders arrived before Tyler. Tyler then informed them about the Young Master's order. They didn't even doubt Tyler because he is holding Young Master's umbrella.

"You can give the umbrella back." the elder said.

Tyler gave it back. He sighed he wanted to copy it but he didn't get any chance.

Tyler saw Mathilda and Omar are ready to go with this batch. He walked towards Mathilda and wrapped his hand around her waist. Mathilda was taken back.

"Don't go. I am tired from travelling. Stay with me and help me relieve." He whispered. Some of the Disciples heard him and were also shocked by their intimacy.

"Ok. " She nodded.

"Omar. We can go together in the next batch." Tyler said to Omar. Omar nodded and didn't enter.

Mathilda also called out a few girls and told them to go later. The elders didn't care. The other Disciples quickly filled the spot.

After the elders and disciples left Mathilda asked, "Are you still gonna hold me like this?"

Tyler let go of her.

"What happened?" She asked. She understood Tyler stopped them for a reason.

Tyler told everything that happened.

The disciples were shocked but Omar and Mathilda nodded as they already knew about his character. The girls were a little grateful for Tyler because they don't want to become cannon fodder.

"What did you see at the other end?" Omar asked.

Tyler took a deep breath and said, "I don't know. It was a shiny object and was able to negate the immortal pressure."

Tyler dodged the question with a random answer, he has no intention of sharing it.

Tyler looked back at the giant water pillar.

"It's time for Phantom Blackwood to appear." Tyler murmured.

Chapter 110: A person with phantom mask

"I am gonna gather information." Tyler said as he took a flying paper crane. He rode on it and left.

"Is he using Flying paper crane on the sea? It is going to be dangerous." Mathilda said.

"Don't worry. He has enough to reach the other ship. Probably." Omar replied. He took a boat and also moved to other ships to gather information.

Tyler didn't go to any ship. Instead he jumped off the paper crane and divided into the sea. He then willed, the Phantom Mask appeared. He then removed his dress, he was already wearing a black costume inside. He took a coat from his seashell storage and wore it.

His costume styled like a popped collar overcoat with a dark jacket, shirt, pants, and high boots.

And he changed it under the water. Tyler then turned around and like a jet he quickly appeared under the bottom. He then lunged forward and appeared inside the immortal Palm print.

"I almost lost control." Tyler mumbled.

"I didn't know that you were a good swimmer. Even fishes will unalive themselves if they see you swimming." Mana's voice resonated in his head.

"That was one advantage of getting Kun's inheritance." Tyler said.

"Oh ... Doesn't that mean. That Guy who got Peng inheritance can fly in the air." Mana tilted her head.

"Don't remind me of that. I prefer Peng Inheritance." Tyler said.

"But one can fly after they become Grandmaster. Also, this world is full of sea, so Your ability has more advantages." She tried to comfort him. But she didn't mention that the other guy will be faster than anyone on the same level after reaching Grandmaster.

"What are you going to do?" She asked

"Treasure hunting." Tyler disappeared. He used both the mask and Ghost Mode. Even the Sect Young Master didn't notice him like before.

The Sect Young Master Zhou Qingchen is now confronting some people. They are negotiating terms for the share.

Tyler walked past them and reached the area where something was shining. Tyler appeared before the shining object. It is a small crack that looks like painted gold. The crack is literally floating in the middle of the sea. Tyler touched the crack he got pulled inside. Surprisingly, not even a single sea water entered the crack.

Tyler appeared in an unknown place. He sensed the high temperature.

It seemed like there really was Earth Fire in there.

He observed the surroundings carefully and found that they were all rocks, and they were sealed.

He tried to use force, but it really couldn't be broken.

He then explored the place. According to Mana, the Immortals have a Space inside them. These spaces are called Grotto Heaven. Once they die they will appear in the place they died. If the immortal don't want anyone to have their wealth they can destroy it while dying.

Immortals can also break their Grotto Heaven and make ruins or trial ground. Kun Peng Ruins is also made from a little part of Kun Peng's Grotto Heaven.

Tyler is searching for some Immortal's treasure. As long as he can get a treasure he would leave immediately lest getting caught by others.

"Some Grotto Heaven gives birth to spirit. It will be easier to conquer it. But this one seems to lack spirit. Since there is no spirit, then there is nothing here to guide us to treasures." Mana appeared beside him while wearing a mask.

"Fine I will do it myself." Tyler said.

Tyler walked in the rocky mountains. He couldn't see the sky. Instead it was like a giant cave covering the whole world. Some of the rocks are illuminating and lighting the World.

After an hour of searching, Tyler found a scroll.

'Eyes were indeed the biggest cover-up. They could only see the rice grains on other people's faces, but not the tender green onion leaves on their own teeth.'

"I thought it was some sort of Immortal Practising Method or pill recipe." Tyler's mouth twitched. But he still kept the paper.

"Are you sure, there might be a treasure here?" Tyler asked Mana. Mana is the one who told Tyler about Grotto Heaven. He was filled with expectation. But Tyler's expectation died.

Mana is also a little confused, "Why do I feel like the Grotto Heaven is ignoring us?"

Tyler tilted his head in confusion.

"This world is still a Grotto Heaven. So even though it doesn't have consciousness. It might have a will. This world is ignoring us for some reason." Mana felt that way and explained.

"We should leave. Others already entered." Tyler said.

Treasure is important, but life is more important. So he decided to give up on whatever is inside.

Tyler went back to the rocky place and touched the spatial crack. He was ejected outside.

He slowly went back, changed his costume and walked back to the ship. He took the piece of paper he got from the Grotto Heaven.

He then burned it.

"It's just a Piece of paper." Tyler's mouth twitched what he doesn't know is the moment he burned the piece of paper, the whole Grotto Heaven is burning.

Young Master Zhou Qingchen escaped with all the elders and disciples. He was almost Burned by this world. He didn't understand why this world suddenly self-destructed.

"Uncle. Find out why this happened." He said to one of the elders.

These elder eyes are a little hollow. His eyesight is too poor. The elder touched his pointing finger and middle finger with his thumb and did some divination.

"It happened because someone burned the newly forming Spirit." The elder said. His eyes became even more hollow. Even Mana didn't notice the Spirit forming in a piece of paper.

"Darn it. Who is it?" Young Master asked angrily.

"All I can see is a person with a phantom mask." The elder said.

Tyler sneezed, "Ah... Someone must be talking about me."

After two days, the Ship of Crimson Blood Sect left which made other people sigh of relief. The Sect decided to secure the Divine Immortal Spark first. Even though the container made from flesh and blood can hold it. It can be used for only a short period of time.

"In the end, I didn't get anything at all." Tyler mumbled.

"You have repeated it 20 times." Mana patted his head.

"Say Mana. The term ' Grotto Heaven ' . I have heard this before. That Immortal guy is also from a Grotto Heaven called Feng Grotto Heaven. " Tyler said.

"They are too strong now and we are too weak. If possible, don't talk about them. The Immortals are a scary existence, some can even sense when someone says their name from far away." Mana warned.

Tyler nodded. For Tyler, that Mysterious Boy who saved him seems to be the most powerful being he has ever seen. He didn't exclude any formidable Presence. But his inner gut feeling says that he is the strongest.

Crimson Blood Sect

Ten days later,

There is only one thing that made Tyler panic is Lilly Gomes, his Boss went missing. Lily Gomes has a habit of informing them before leaving. But this time she just left a message saying, [If I am not Present when you guys return, then sorry I might have gotten in trouble. Omar can apply for my position.]

"Are you sure?" Tyler asked.

"Yeah, Last Time Our Boss gathered some records about Isle of Blood. There is a chance she might have been trapped there." Omar said. Their Boss suddenly went missing. So they decided to search for her.

"Also... Be careful. Now that our Boss went missing , when the Fire Valley noticed something amiss. They might target you." Omar warned.

Tyler felt a headache. Seems like his luck is reducing a lot recently.

"I also got news from inside. It said that an intruder wearing a Phantom Mask got caught." Omar said.

Tyler's expression didn't change. But he is pretty sure that the intruder is Lily Gomes.

"I will search the Isle of Blood then. Can you look over my properties till then." Tyler suggested.

"You can enter Isle of Blood?" Omar asked in surprise.

"Alright Mr. white. Now you have been appointed as Guard in Isle of Blood. Congratulations." The Elder in the Work Register Office said. Omar's jaw almost dropped.

"How?" Omar asked.

"I bribed them." Tyler smiled and whispered.

Even though Omar was shocked. Because he can roughly estimate the value of that position.

"Since when did he become so rich?" Omar was confused.

Tyler hired a boat and sailed to the Isle of Blood.

Meanwhile

"We have captured someone wearing a Phantom Mask who tried to break into the Isle of blood." An Elder reported.

"Did you find out any information about this intruder?" Young Master Zhou asked.

"No Young Master. She was captured by the warden in the deep mine. You know, he never cared about anything except sleeping. He only got berserk when he saw people without cuffs trying to escape. He even locked up some guards down there before." The elder explained.

"Let's go to the Isle of Blood. This person must be related to that one who burned the Grotto Heaven. They might have Immortal Treasure." The Young Master said. He boarded a ship and decided to make an official visit to Isle of Blood.
