

R. Paradise 161

Chapter 161

Eren became a titan successfully but making the roar represented that Eren did not restore his consciousness.

“What the bastard is going to do?”

Mikasa stood up laborious and pressed her chest with one hand. She felt that half of her body was slightly puffed.

“No, I don’t know.”

Armin’s body was shaking, she had just passed by the death.

“Are the members in the Survey Corps all such madmen? He really wanted to kill us. We must report to the military court after the war.”

Mikasa looked at Su Xiao with hatred, but now, it was not the time to think about this, everyone could see that Eren had not recovered his consciousness.

The hook lock of the ‘3D Maneuver Gear’ popped up, Su Xiao fixed the hook lock on Eren’s back neck, the gas on the back waist made him quickly reach Eren’s back neck.

He may feel that there was something in the back neck, Eren’s huge hand did not hesitate to clap the back neck.

Snapped!

A wave of air spread around, Eren was taking a few steps forward by himself.

Su Xiao stood on Eren’s shoulder, if he was hit by this attack, he would definitely become a pile of meat.

The speed and defense of the titan were not too strong, but its strength was something else.

Su Xiao had a precise metal eyeball in his hand, the metal eyeball floated beside him. This was the detection equipment he bought by 5000 paradise coins.

[Havana’s Eye]

Place of Origin: School City

Quality: Green

Genre: Detect equipment

Durability: 30/30

Equipment requirement: 8 points intelligence

Equipment effect: life detection (active): It can detect carbon-based organisms and obtain the thing’s data. The data integrity is determined according to the intellectual properties of both parties.

Hint: Life detection (active) consumes 30 points of mana per second.

Tip: The life detection (active) cooldown is 1 hour.

Rate: 20

Introduction: As long as it is a carbon-based creature, they can't escape from the tracking of Havana's Eye.

Price: 2300 paradise coins.

.....

Havana's eyes floated in the air, red light rushed out wrapped Eren, scanning Eren.

[Comparing the intellectual properties of both parties..., the comparison is completed, our intelligence is 2.125 times of the enemy, 100% of the enemy's information will be obtained.]

The information is as follows:

Name: Eren Yeager (in the use of attack titans)

Life value: 76%.

Mana value: 80

Strength: 40

Agility: 15

Vitality: 31 (6) the data inside of the parentheses for the human form

Intelligence: 8

Charm: 13

Lucky: 4 (The son of fate, temporarily +3)

Skill 1: Attack titan's power (active): After using, you can become 'the attacking titan', which will enter the violent state, and each time to enter the violent state will permanently lose 2% of life value.

Skill 2: The power of the ancestor titan (not activated): The only effect, you can command the brainless titan, the commanding that ancestor titan made brainless titan will unconditionally obey, (the command limit is 3700 brainless titans).

Skill 3: The son of fate (indestructible state): If Eren Yeager is unfortunately dead, the power of the two titans in his body will be randomly passed on to another 'Eldia', the transferred person will become the next the son of fate.

Skill 4: Firm will (passive): Immune all mental control, such as hypnosis, mental induction, etc.

Skill 5: The disaster of the titan (passive): After inheriting the power of the titan, the Hp will drop drastically, the remaining life is 7 years and nine months.

.....

After viewing Eren's information, Su Xiao's eyelids jumped straight, not to mention the 40 points of powerful strength, the state of Eren's 'the son of fate was too strong.

Although Eren was now the protagonist of the plot, the next protagonist would appear immediately after Eren dies. The world's son of fate was not in Eren, but the power of two titans in his body.

This may be nature is unkind, it treats the creation like sacrificial straw-dogs, now Eren was the stray dog, the dead protagonist had no value, the Titan world will immediately generate the next protagonist, there would be no such thing as revenge for Eren.

dead is the loser, you would have no value.

At this time, Su Xiao thought of the blood rose and dust's actions. They seemed to have no intention to kill Eren but wanted to communicate with Eren.

This was a very abnormal situation. Killing protagonist in the world could get a lot of benefits, Eren should be a special case.

Kaneki Ken from the last world was already amazing enough. Now there was a more amazing, the endless 'protagonist' could be killed.

Or Eren was not the protagonist at all, the protagonist was the power of two titans in Eren's body or the power of the ancestor titan.

Thinking of this situation, Su Xiao scowled, he hesitated whether to kill Eren and see what changes will happen.

But now Eren could not die, he hadn't lifted the boulder.

After Su Xiao escaped Eren's several attacks, the frequency for Eren to attack dropped significantly.

Su Xiao was jumping near Eren's head. In less than a minute, Eren hit his face and gave himself a punch and blinded one eye.

The titan that Eren turned into began to stagger, Su Xiao took the opportunity to jump to Eren's back neck.

In the original book, Armin awakened Eren, he said touching nonsense for a long time on Eren's back neck, Su Xiao did not have that talent, he did not have the kind of leisure and elegance as well.

With one hand clenching the dragon flash, the blade of Dragon flash flashed a blue glow, which was the unique light of the blue weapon.

The long sword cut through the flesh of Eren's back neck into a large piece.

Su Xiao looked at the depth, there was still some distance from Eren's body, so he cut again.

Snigger.

A thick piece of meat quickly turned into steam after landing, Eren's back neck was cut for one-third muscles by Su Xiao.

At this time, Su Xiao could already see the back of Eren's body and fixed the hook of the '3D Maneuver Gear' to the side of Eren's body. Su Xiao's body was dragged by the reaction force.

At this point, Eren's sight was dull, most of his body was wrapped in muscle.

Su Xiao grabbed Eren's head and pulled the muscles on Eren's head down.

“Hey, wake up.”

Su Xiao tapped Eren’s cheek. At this point, the titan that Eren turned into was motionless.

Mikasa and Armin on the roof in the distance were both shocked. Eren was directly pulled out in the titan state.

After being touched by Su Xiao, Eren’s pupils vibrated and seemed to be trying to regain consciousness.

Seeing this situation, Su Xiao was happy, it worked, so he gave Eren a punch.

“Ha?”

Eren snorted, and his nose bleed and his pupils began to shine.

“Are you awake?”

“Yes, it seems to be.”

Eren gasped heavily. After seeing Armin in the distance, he relieved. It was originally acting, he almost thought it was true.

In fact, that is true?

“Continue your mission.”

Su Xiao immediately left the titan’s back neck after awakening Eren and jumped to the nearby roof.

Eren looked at the boulder, and he felt that he could now control the body of the titan under him.

Taking a deep breath, the titan’s muscles gradually wrapped Eren, but this time his pupil was very shiny.

Eren was first familiar with the feeling present, taking two steps by the titan and making a fist with both hands.

The fat power in the body surprised Eren, he was so powerful.

Walking to the front of the boulder, Eren held the boulder with his hands.

“Roar!!”

Eren screamed and lifted the boulder on his shoulders.

Boom! Boom! Boom!

Every step that Eren walked would shake the ground with the vicinity of the 100 meters, the titan’s body floated out of a large piece of sparkles, the whole body became black and yellow as if he would be gasified at any time, this boulder was somewhat beyond the range that Eren could bear.

Su Xiao took out a signal gun and launched it to the sky, the yellow smoke signal blown out.

The plan was 90% successful.

Chapter 162

The yellow signal rocket flew to sky attracted the attention of the Survey Corps.

“Eren Yeager lifted the boulder and began to build a defensive line.”

The branch leader of Survey Corps ‘Mike Zacharias’ brought people closed to Eren, Mike, as the branch leader of the Survey Corps, certainly had strong power. He had investigated outside of the wall for 56 times but finally failed to the beast titan. The Titans are under the control of many titans.

After receiving the yellow signal flare, the Survey Corps in the city swarmed, thousands of people quickly jumped on the roof, the scene was spectacular.

According to the previous plan, the Survey Corps was divided into two teams to help Eren form a straight defensive line to the hole.

Su Xiao quickly jumped on the roof next to Eren and watched Eren’s situation.

The situation was very optimistic. The Titans on the path had been cleared up. The force of the Survey Corps was not stationed Corps could compare with. Now Eren progressed smoothly.

Puff.

The jet of the ‘3D Maneuver Gear’ came, a slender figure fell on the roof near Su Xiao.

After seeing the coming person, Su Xiao had pupils constriction, many thoughts flashed in his mind.

“The members of the training Corps step back! Here is the Survey Corps.”

Su Xiao quickly approached the people, Eren, Mikasa, and others gradually walked away.

“I can’t do it, I can’t do it.”

The coming person was a girl with white skin and blond hair. The girl looked at Su Xiao from the side, her eyes were full of helplessness and even some despair.

“Why, why do you block the hole?”

Annie whispered softly, if the hole is blocked, the plan of the ‘Three Groups of Wisdom Titans in the Wall’ would be destroyed.

“New recruit, are you getting some kind of stimulation? Come with me to take rest in the supply point.”

Su Xiao was close stably to Annie, he could not go too fast, it would alarm Annie.

Su Xiao had already guessed what Annie was going to do was. Annie’s current state of mind was very bad. The long desire was about to succeed. She could finally go home, but this was suddenly destroyed. Annie was somewhat desperate. Otherwise, it was impossible to show up publicly.

“You are very strong, so don’t close to me, I’m a weak woman, and I’m very scared.”

Annie’s sights were dull, tears slipped down her cheeks, it seemed that she was making decisions.

“Ok.”

Su Xiao's footsteps stopped, but his body bowed slightly, the tiles under his feet creaked.

The distance was still five meters, he had 40% of chance could cut off Annie's head directly.

"I have been here for three years. I am really stupid. It is really stupid to appear directly in front of other people at this time."

Annie's tears dripped on her chin, she turned to look at Eren who was lifting the big stone.

"As long as you take me away, I don't have to continue this life. What should I do?"

Annie's mental state was even worse, her language was a bit unorganized, the long-term undercover made her live with people inside of the wall. She was only thirteen years old when she sneaked into the wall. It was the most innocent age.

In this most innocent age, Annie was sent to live inside of the wall with those people and find opportunities to break through and kill all the humans inside of the wall.

If she does not execute, her family will die, but if she does, she will kill thousands of innocent people.

'Annie, even if the whole world hates you, even if the whole world is against you, Dad will stand on your side. '

The voice of the father echoed in Annie's ears, Annie finally made up her mind.

Boom! The tiles were broken.

A burst of sound came from Annie's side. Annie's body trembled, she saw the man who was still five meters away from the side which was like a cannonball shoot towards her.

Recalling the man's horrifying sword skills, Annie knew that if he was close to her, she would be killed.

Lifting her arm, Annie immediately bit her index finger.

Snigger.

A slender arm flew up, there was a long wound appeared on Annie's delicate cheek.

Annie was very confused in mind, this man was too horrible, she must wear that immediately.

Just when Annie wanted to become a titan, Su Xiao, who was in the air, had already picked up the dragon flash. The distance was too close, and the sword could not exert its power.

Su Xiao's entire body rushed to Annie's body, his left arm wrapped around Annie's neck, and his right hand held the left fist, choking Annie's neck brutally.

Guillotine!

Su Xiao could let Annie suffocate in two seconds, and within three seconds he could completely break Annie's neck.

Crack, crack, crack?

The horrible sound of bone breaking came, Annie's the white of her eyes were instantly congested, her sights quickly turned black.

Annie forcibly concentrated on mobilizing the titan power in the body. She was different from Eren, that kind of initial learner. She was trained by professional titans when she was a child.

Boom!

Golden lightning fell from the sky, Su Xiao felt his head screaming, Annie his arms swelled suddenly and flew him away.

Boom, Su Xiao fell on a roof and smashed a large piece of terracotta.

"Cough, cough?"

A sweet and bloody smell rushed to the throat, Su Xiao spat some blood.

He cut partially, the tiles he stepped previously were more fragile than imagined.

Dragon flash appeared in his hands, Su Xiao looked at the golden light not far away, Annie was becoming a titan.

The golden light dissipated, the female titan who had some similar resemblance to Annie appeared. The blond hair was most similar.

After Annie became a titan, she stared at Su Xiao with some fear. She just almost died. She always thought that her fighting ability was very strong. But in the man's hand, she had no chance to fight back.

"Do you finally put on, ha? It's a mistake."

Su Xiao spat out bloody saliva and walked slowly to Annie.

"What? Don't you chase?"

Su Xiao licked the blood on his lips, the bloody smell somewhat aroused his fierceness.

Annie showed a fighting stance, not that she didn't want to chase Eren, but she knew exactly what the consequences of pointing her back to this man.

"Byakuya, what is this going on?"

Hange Zoe came to the vicinity and cautiously stared at the female titan. With Eren's incident, Survey Corps would be careful with any suspected titan.

"The other titan that had been turned from a human, let me deal with here, that one is our ultimate goal."

Su Xiao pointed to Eren's direction, Hange Zoe immediately took the team members away after nodding.

"You must capture her."

After talking, Hange Zoe ran away.

After the appearance of the female titan, the Survey Corps immediately responded, Eren was protected by third rows members outside and third rows members inside, they gradually moved toward the hole with Eren's footsteps.

The travel for Eren to lift up the huge stone explain everything. Now they have to fight to protect this titan. The hope of humans to recapture the wall. Rose was here.

There was some worry in titan Annie's sight, but it had some things that happened not far from here at this time.

Boom!

It was golden lightning landed again, a titan body of a full body bone appeared a few seconds later.

The armored titan 'Reiner Braun' also acted. The situation of Reiner Braun and Annie was the same. They joined the training Corps three years ago and came from the same place with Annie, but Reiner Braun hid deeper. In Eren's mind, Reiner Braun was the same role as the elder brother, he was his goal to fight for it.

"Another one."

Su Xiao looked not very pleased, he could still deal with one, but if the female titan and armor titan fight with him together, the situation will be bad.

There were not only titans but also strong humans inside of the wall. A short figure was rushing to the armored titan with high speed.

It was one meter six, no, it is the captain Levi, the strongest soldier of human, and the less remaining family of Mikasa, Levi·Ackerman.

The captain was no problem for dealing with the armored titan, but considering the hard bones of the armored titan, it was more difficult for Levi·Ackerman to kill armor titan.

After Annie noticed Su Xiao's gaze moved, she straightly punched Su Xiao.

The strong wind blew to face, Su Xiao flexibly side jumped.

Hui.

The roof was hit out a large hole in the roof by Annie, the smoke and dust were everywhere. Annie immediately received her fists and put her fists in front to block.

Su Xiao, who jumped in the air, began to judge the overall quality of Annie.

Annie's power was weaker than Eren, but her speed was several times faster. This type of Titan was almost a human killer. With Annie's fighting skills, it would become a nightmare for human soldiers.

Chapter 163

The hook lock of the '3D Maneuver Gear' popped up, Su Xiao relied on the nearby building to move around Annie.

Su Xiao would not nail the hook on Annie's body, it would cause him to die.

After hanging in the air for a long distance, Su Xiao immediately sprayed gas in front of Annie's eyes.

The bright sword light appeared in Annie's sight. One of Annie's sights became bark. She didn't even see how Su Xiao used the sword.

Su Xiao's sword attack stimulated Annie's nerves. Annie held her back neck with one hand, and side kicked Su Xiao who was in the air.

Su Xiao immediately increased the jet volume of the '3D Maneuver Gear', his body rose up to luckily avoid this kick.

Huh? The strong wind blew Su Xiao's clothes and made whistle sounds. If he is kicked by this leg, he will be kicked to fly like a ball, or even fly out of the wall. Rose!

"Luckily, who is this?"

"Yeah, I will kill if I am kicked."

"I don't know who this is. He doesn't wear clothes of any Corps but has a '3D Maneuver Gear', but this guy is so strong."

Some members of the training corps were surrounded by the battlefield of Annie and Su Xiao. These people were all Annie's classmates.

Goddess with blonde hair: Krista, female foodie: Krista Lenz, Crew cut: Connie Springer, Confused man: Jan· kirushutain and so on.

Today was the day of the graduation for 104th Training Corps, so Eren's classmates are on the battlefield.

After graduating, the members of the training corps had the opportunity to get familiar with the situation on the wall, so the 'three Titans' chose to attack the city wall today.

Su Xiao was entangled with the female titan. The recruits seemed to want to come forward to help but being afraid of the female titan's terrible destructive power.

Annie's fighting skill was not weak. After turning into a titan, she was even stronger. If these people dare to go forward, they will definitely become a pile of meat by Annie's fierce attack.

Of course, it would be in the situation that Annie could kill them cruelly.

If these people are now rushing forward, Annie will be likely to escape, Annie cannot kill her classmates.

In the original book, Annie was somewhat desperate after seeing her classmates' bodies that had been spat out after being swallowed by the Titans. She kept whispering 'sorry'. If there are no other people present, Annie would even cry in front of the bodies.

On the battlefield.

Su Xiao used the '3D Maneuver Gear' to glide quickly in the air, occasionally leaving wounds on Annie's body.

Annie's body was too big, the range to attack was very wide, so Su Xiao did not want to be completely close to Annie. Although he could use the '3D Maneuver Gear', this was not his fighting style. Wearing this thing made him feel his combat power was somewhat reduced.

Now he only needs to delay time, Eren was only a dozen meters away from the hole.

Annie also noticed this situation. She immediately controlled the female titan's arms and hugged the bell tower on the side. After breaking the bell tower, she threw the bell tower to Su Xiao with full strength.

Bang.

The smoke and dust arose, the spire of the bell tower inserted into the ground.

Taking this opportunity, Annie turned around and ran, she approached to Eren with very high speed.

Annie's running pose shocked all the witnesses. Annie ran so fast that no Titan had run so fast.

Puff?.

Su Xiao controlled the '3D Maneuver Gear' to fully inject gas, his body almost formed a straight line rushed forward in the air.

Annie ran really fast, but Su Xiao's current speed of gliding was faster, he was directly on the side of Annie.

In the moment of surpassing Annie, Su Xiao's right arm held the dragon flash, and the dragon flash cut through the air and made a horrible sob, the blade cut into Annie's thigh.

Annie also noticed this scene, the surface of the part would be attacked crystallized immediately as if it was covered with a thin layer of ice.

This was the hardening ability of female titan, the swords in the Titan world could not penetrate it.

Did it mean that the dragon flash also cannot penetrate it? Of course not, dragon flash was a blue-quality weapon now, it was a forcible weapon.

Crack.

The sharp slamming sound came, Annie in the titan's body was stunned, she surprisingly felt that the body was leaning forward.

Bang.

The female titan fell into a residential area.

The broken leg flew far away.

Su Xiao's momentum of rushing forward began to slow down. After landing, he used his feet to stop for more than ten meters to stabilize his figure. He even smelled the scorching smell of his sole.

Looking at the female titan who was struggling to get up, Su Xiao breathed a sigh of relief.

Jumping on a roof, Su Xiao saw Eren stood in front of the hole.

"Go, Eren!"

Armin shouted loudly that Su Xiao could even hear in the far distance.

It seemed that in response to Armin, Eren made a roar and tried his best to throw the boulder on his shoulder to the hole.

Boom!

The boulder firmly blocked the hole, the light from the hole and the strong wind were blocked.

The third zone was successfully defended and was far ahead than the other two zones.

Both the members of Lycoris radiata and Fraternity saw this scene, but they could not stop it, or they did not dare to stop it.

There were members of the Survey Corps near Eren. Erwin, the head of the Survey Corps, even appeared in the present. If they dare to stop Eren, they will immediately be judged to be out of the camps inside of the wall by the reincarnation paradise. The consequences that both of the two adventurous groups couldn't afford before they completed the camp task.

The titan world was in a peaceful model. The reincarnation paradise did not encourage the contractors to kill each other but avoided attack and defense in other zones to be more serious. Therefore, the two adventurous groups could only watch this scene but do nothing.

[Main line mission: attack and defense war in Wall. Rose. (completed), yes/no submit task]

Su Xiao certainly chose to submit, the sooner the task was completed would be better.

[You have completed (attack and defense of Wall. Rose), you get 3 points of attribute points, 8000 paradise coins, the reward has been automatically transferred into the reincarnation mark.]

[The hunter's contribution value for defending the third zone is 96%, which rewards 10,000 attack and defense contribution values.]

[Detected that the defense of zone has succeeded, began to settle the current attack and defense contribution value ranking.]

[First place: Byakuya, attack, and defense contribution values are 11650.]

[Second place: Icy Lunar, the attack, and defense contribution values are 2130.]

[Third place: Adam, attack, and defense contribution values are 2019.]

[Fourth place: dust, attack, and defense contribution values are 315.]

[Fifth place: blood rose, attack and defense contribution values are 268.]

.....

[Public announces: The main force of the third zone in the defense war Byakuya has completed the defense, his ranking is the first place.]

[Public announces: Because Byakuya performed very good in the attack and defense task, the reincarnation paradise adds a bonus reward, the random equipment with blue quality.]

.....

[Hint: Rewards will be issued after all battlefield defend successfully. If other zones fail to defend, the hunters will not be able to receive additional rewards.]

A series of prompts appeared, Su Xiao could not help but smile.

His plan had been reached, although there were some unexpected obstacles on the way, he also finished it by personal strength, sure enough, even if he is smart, if there is no matching strength, nothing can be achieved.

The above suggestions meant that Su Xiao was now basically free, and the final 'qualification to return' will appear until the attack and defense task was over.

Su Xiao's position of the first place was now locked, he had also been rewarded for his excellent performance, but he could only get it after the task finished successfully.

.....

In a block inside of the wall/ Rose, there were a large number of contractors gathered here, the contractors without adventurous groups in the third zone were here.

After Su Xiao this 'Head' left, these contractors felt pressure, so they did not separate and began to hunt the Titans inside of the wall to make up for the loss of the mission.

"The attack and defense task surprisingly completed?"

A contractor was shocked.

"Haha, mine was also finished. What is going on? Didn't that hole not break?"

"Look at the hint of the reincarnation park, damn! Our head is really so powerful, this is one person to fight forty-two, I had never heard of this kind of strong person."

The contractors quickly roughly understood the matter, their head completed the task with a powerful record.

.....

The completion of the attack and defense task made Su Xiao breathe a sigh of relief, he used the '3D Maneuver Gear' to jump on the roof to see the surrounding conditions.

"Good, no other contractors."

Su Xiao shook his shoulders, he prepared to kill the female titan in front of him.

Crack, crack...

Su Xiao began to untie the '3D Maneuver Gear'. Annie in the female titan was very confused. Is this guy going to give up the battle?

Annie just guessed, Su Xiao was ready to fight with full strength.

Taking off the shirt, Su Xiao squatted at the corner of the room with a naked upper body and looked at Annie, the surface of the dragon flash wrapped with a light blue arc.

"Don't you run with happiness, why don't you continue running?"

Su Xiao was relaxed and looked at the female titan with some interest.

After seeing Su Xiao in this state, Annie was cold sweating from the back.

He may be the most dangerous enemy she had ever encountered, Annie stood up with alert after her broken leg is reborn.

She no longer considered how to overcome the enemy in front of her, but considered how to escape.

Chapter 164

Su Xiao jumped down the roof and walked to Annie after landing smoothly.

Although using '3D Maneuver Gear' could speed up a speed of moving forward, Su Xiao was not used to fight while he was flying in the air, he was more familiar with stepping on the ground.

There was nowhere to make stronger power by things in midair, he at most could change the direction by the '3D Maneuver Gear', which made Su Xiao's power reduced a lot.

In general, the '3D Maneuver Gear' was good for fleeing. If you want to adapt to the '3D Maneuver Gear' fighting method, it will not only need to learn one skill to adapt, it will take a lot of time to practice.

After discovering that Su Xiao had untied the '3D Maneuver Gear', the female titan who was in front of Su Xiao began to step back slowly, Eren had blocked a hole. She must not let Eren block the other two holes. She should stop it as soon as possible and took Eren away.

Annie controlled the female titan's feet and made powers and looked at Eren in the distance.

Boom!

The dust under the female titan's feet surged after she sided jumped and staggered with Su Xiao's position, then she wanted to flee at full speed.

Annie knew that as long as she ran, the man could not catch up with her. Let's not say that the person had already untied the '3D Maneuver Gear'. The gas inside the '3D Maneuver Gear' was very limited. After there is no more, the '3D Maneuver Gear' will be only a pile of scrap metal.

Annie's side jump was fast, but Su Xiao's speed was faster.

Su Xiao rushed under the feet of the female titan. When the female titan had not yet stood firmly, Su Xiao raised his hand to cut off the female titan's Achilles tendon.

The Achilles tendon of one foot was cut off, the action of female titan just wanted to run changed and almost fell to the ground again.

The female titan ran fast, but the speed of the female titan's movement was not fast before she ran. The huge body must first accumulate inertia of moving forward to accelerate.

Su Xiao was just the opposite. He's instant bursting speed was fast. If he runs with the female titan for the long distance, his speed will absolutely be slower than the female titan's speed.

An embarrassing scene appeared, under Su Xiao's block, the female titan could not run.

Annie in the female titan immediately realized this, if the situation continues, she will die here today.

Annie even suspected whether her final means could defend against the sword. If she cannot defend it, she will be dissected like a mouse finally.

Thinking of that situation, the killing in Annie's sight had obviously surged. Although her remaining life was not much, she still wanted to see her family again and see her father.

The double fists were in front, the toes of one leg were raised, the legs were in tandem. The female titan posed her exclusive fighting posture.

Compared with the female titan's height of 14 meters, Su Xiao, who was only one meter eight tall, was very short.

But tall could not be considered to be powerful, as the current female titan.

The female titan bowed her upper body, her fists aimed to the ground. This fighting posture made Annie in the female titan awkward, the enemy was 'too small'.

After Su Xiao noticed the posture of the female titan, he began to walk sideways and circle around the female titan.

The female titan did not dare go back to Su Xiao, so she began to change direction with Su Xiao's pace.

After turning a semicircle, Su Xiao's footsteps suddenly accelerated, the female titan immediately accelerated the speed of turning her body. At this time, Su Xiao's footsteps suddenly stopped and rushed to the female titan after he sided.

Su Xiao's movement was unpredictable, the female titan wanted to turn around, but it was already late.

Su Xiao rushed to the feet of the female titan in three steps and held dragon flash and swung. Puchi.

The blade passed, and the female titan's entire leg was cut off.

The female titan's body was not resistant under the dragon flash's blade, as long as the angle was correct, there was no position that could not be cut off.

The female titan severely stabilized after her leg was cut, but the body of the titan was too heavy, the female titan uncontrollably fell down.

The female titan did have the ability to prevent. At the same time as the body fell down, the female titan's fists punched from top to bottom at Su Xiao.

Bang!

The dust was flying around. The ground was smashed, and a hole with two and a half meter deep appeared.

Su Xiao was covered with a lot of dust fog, his sight was blocked, and a widespread dust fog was in front of him, but he was not panic but closed his eyes.

Since his sight was blocked, he turned to use the 'heart eyes' to perceive.

Closing eyes to perceive surrounding, the wind was flowing, and grains of dust was flying in the air.

Huh, a stream of air came from the left side.

The attacking position was above the shoulder, Su Xiao immediately made a judgment in his mind.

Su Xiao's body sided, a partially crystallized calf of titan slid against his head, and the accompanying wind pressure blew his hair.

He felt the enemy's attack ahead of time without sight. This feeling made Su Xiao entered a new level.

It turned out as what Sasaki Kojiro said, fighting did not depend solely on the eyes.

The smoke and dust dispersed, Su Xiao still closed his eyes and stood in front of the female titan.

Half of the female titan's body was now paralysed, and the injured part of the calf was full of steam, gradually recovering.

Seeing Su Xiao standing in front of her closed his eyes, Annie in the female titan's body was a bit confused. It was already amazing enough not to use the '3D Maneuver Gear' to fight with the Titans. Now, this guy even closed his eyes?

But this was an opportunity, the female titan squatting on the ground raised a fist to hit Su Xiao.

Huge fist with a wind pressure smashed toward Su Xiao, Su Xiao holding the dragon flash, the tip of the sword pointed to the ground, and did not have the attack.

The left of center on the top, from the attack of the female titan's fist.

The fist of female titan was falling, in Su Xiao's perception, it seemed to be slow motion, Su Xiao had predicted the next trace of female titan's attack.

Two steps sided, the attack of the female titan fell.

Boom!

The slate on the ground was smashed, the broken small stones flew to Su Xiao.

The long knives in the hands smashed incessantly, the small stones were smashed or blocked.

The impact of the fist hitting the ground made Su Xiao's clothes whistle by winds.

Su Xiao had a different understanding of the 'heart eyes' skills, and some conjectures about the skills learned in the reincarnation paradise.

Perhaps the skills which he learned in the reincarnation paradise were like seeds. Upgrading skills in a reincarnation paradise was like watering the seeds and letting it sprout quickly.

After that, the contractor did not fully understand this skill but needed to understand it in battle gradually.

What he had to do was not to use the skills he has learned stiffly, but to have a deeper understanding of the skills in combat.

After the contractor learned the skills, he would have a basic understanding of the skills. He only needed to fully understand the skills in the battle to reach the same level of that the level the skill creators reached in ten or twenty years. This was the powerful part of the reincarnation paradise.

Su Xiao had a general understanding of the 'heart eyes' skills and would fully grasp soon.

However, there were exceptions in the skills. The skill of destroying shadows was not in this way. The skill of destroying shadows was more like an instinct. After learning, he could master it perfectly, and could even develop it.

.....

Two attacks were evaded in succession. Annie in the female titan felt somewhat unbelievable. Her fists began to smash the Su Xiao randomly and quickly.

Boom, Boom, Boom...

The ground in front of the female titan was smashed desperately, Su Xiao easily escaped the attacks of the female titan on the broken ground.

After nearly two minutes of attacking, Annie in the female titan began to pant.

The breeze blew the smoke away, Su Xiao's figure emerged.

His clothes were not damaged at all, he stood in front of the female titan calmly.

"The attack is very strong. I almost can't escape for a few times."

Seeing Su Xiao who was not injured, the female titan's pupil constricted.

The body of the female titan had been completely restored, Annie immediately controlled the female titan to get up and flee.

She could not fight with this kind of monster human, she could not even hit the person.

The bright sword light flashed, the female titan's sole of the foot was cut in half, and the female titan fell into the ground with a bang.

The mouths of the members of the training corps around the roof were slightly open, the handles of some recruits even fell to the ground without notices.

The scene they were witnessing was somewhat unbelievable. They never thought that human beings could be so powerful.

Chapter 165

Thudding, boom.

A compact cluster of houses was crashed, the female titan was ruthlessly destroying the houses in the city.

But the appearance of the female titan was somewhat weird. Her height was very short at this time, she was only about eight meters.

It was not that the eight-meter titan was short, but that the female titan looked very strange now. Her legs were missing, she was crawling forward with her arms.

Annie was desperate at this time, her titan's legs were cut off six times, so far she did not even touch the enemy's clothes.

Annie had a feeling that as long as she could attack the man, the man could not continue to pursue her even if he was not dead.

Su Xiao jumped on the ruins that the female titan destroyed, and followed the female titan without hurry.

He tried to avoid entering the female titan's arm span. If he is attacked by the female titan, the result will be terrible.

When the female titan just wanted to continue to climb forward, Su Xiao went up and attacked a few times, directly smashing the female titan's waist into several large pieces, so that the female titan had only the upper body.

During the battle, Su Xiao discovered that the recovery ability of the titan was not unlimited. Now the recovery rate of the female titan had been very slow.

Moreover, the body of these 'intelligent titans' should have no pain. He opened the Qing Gang Yin to fight for a long time. He did not see that the female titan had any reaction to having severe pain.

In the female titan's body, Annie's body was full of sweat, and her clothes were even wet. She had only one idea, that is, climbing near the wall. Rose and climbing on the wall to escape. She had no strength to fight.

After Su Xiao observed that the female titan's attacks became less, he immediately tried to approach the upper body of the female titan.

After discovering this situation, Annie was shocked and began to control the female titan to wave her arms indiscriminately, intending to kill Su Xiao.

After an arm waved in front of Su Xiao, he slashed his sword and cut the arm.

A huge palm flew out of the distance, Annie wanted to recover her palm quickly, but the break of the wrist was just steaming, the recovery speed of the palm was very slow.

Su Xiao was like an old hunter gradually squeezed the preys' physical strength. Annie had changed from the fierce female wolf to a husky.

After discovering that Annie's physical strength was almost exhausted, Su Xiao quickly stepped forward.

Snigger, snigger...

A lot of blood surged incessantly, the female titan changed from the original 14-meter body to less than four meters, leaving only the head and one arm, and other body tissues scattered on the path of escaping, those had now turned into steam rising.

Annie in the female titan's body was completely desperate, controlling the female titan to make the last action, using that one arm to hold the back neck, but this struggle was too pale and powerless, not more than thirty seconds, Su Xiao could pull Annie from the female titan's body.

The long word in his hand continued to smash, female titan's body gradually broke.

Su Xiao cut opened the back neck of the female titan with a sword, a slender leg came into view.

Just as Su Xiao was ready to smash Annie, there was a sudden white light on Annie's body.

[Warning: Hunter is inside of the energy absorption position, please stay away as soon as possible.]

Without the hint from the reincarnation paradise, Su Xiao had found that his life value is rapidly decreasing.

Stepping on the ground hard, Su Xiao jumped a few meters away from the range of white light covering.

The white light even covered the sun, the body of the female titan quickly melted, a kind of white crystal-like ice wrapped Annie.

After a dozen seconds, the female titan's body disappeared, leaving only a transparent crystal looked like diamond about two meters long on the ground.

The whole piece of crystal was like a crystal coffin wrapped Annie who was sleeping deeply.

This was Annie's last mean. The female titan could crystallize. If Annie opens this ability, she can wrap her body inside.

Su Xiao stepped forward and tapped the crystal with dragon flash. The hardness of the crystal was not low, but he could cut open it.

Taking a deep breath, Su Xiao held the sword in his hands and cut on the diamond-shaped crystal.
Ding.

The crystal fragments splashed, the diamond-shaped crystal was cut, and five centimeters deep crack appeared. The crystal near the gap showed large cracks.

Su Xiao could break this thing in ten minutes.

Annie, who had closed her eyes in the diamond-shaped crystal, was trembling. She was in semi-dormancy. Only after the diamond-shaped crystal was broken, she will react. She clearly felt that the hardened crystal was broken.

Boom, boom, boom...

The heavy footsteps gradually approached Su Xiao, he looked sided and found that the armored titan who had previously fought with Levi was approaching.

The appearance of the armored titan was also very miserable. One of his arms was cut off, and the steam on the body was lingering. It seemed that it was almost impossible for him to hold on.

However, the armor titan's defense was very strong. If it is other 'intelligent titans, it may have been killed by Levi.

At this time, the armored titan had stopped paying attention to Levi but rushed toward Su Xiao at full speed.

The intention of the armored titan was obvious. He came to save Annie.

Although Su Xiao's fight with Annie seemed to be easy, he was like walking on a steel wire. As long as he was hit by Annie, he was declared to be over.

Now, with the armored titan who was more difficult to get rid of came, he could not fight with two intelligent titans in a row.

Su Xiao frowned tightly, if Annie is saved like this, he will lose a lot.

The thoughts in his mind turned sharply. Su Xiao recalled that Annie's mental situation and her two companions, Su Xiao unnoticeably smiled.

“Annie, the life inside of the wall makes you no longer determined. We are the soldiers of the Marley Empire, not the soldiers inside of the wall. Let ‘Reiner Braun’ and ‘Bertolt Hoover’ come to find me after you wake up. You were exposed.

If you still want to see your father, let them come to see me. Your father is in a bad situation and is being held in the ‘isolated area’. ”

Su Xiao was racking his brain to talk these two paragraphs, giving the three people a sense of crisis, and then revealing that he was also the identity of the ‘Marley’, and then taking Annie's father that she cared very much as a threat.

After Su Xiao said this, he suddenly found that the crystal wrapped in Annie gradually melt.

This silly girl definitely believed!

Although Su Xiao looked calm, he was overjoyed in his mind.

Boom!

A huge figure jumped near in the distance, the armored titan arrived.

Su Xiao not only did not stop the armored titan but also let the armored titan grab the diamond-shaped crystals wrapped in Annie on the ground.

The armored titan directly put the crystal into his mouth after grabbing the crystal on the ground.

The armored titan ‘Reiner Braun’ was also fierce, Su Xiao clearly saw the armor titan's throat became thick, this guy forcibly swallowed the diamond-shaped crystal wrapping Annie.

After doing all this, the armored titan rushed to the hold of the second zone.

Su Xiao did not go after him, he was somewhat curious about how would the armor titan break through the defense of the second zone.

Boom!

Golden lightning fell outside the city, the location was near the second zone. The Fraternity might be unlucky.

Chapter 166

Under the wall. Rose, the second zone.

After starting to guard the defense line in the early morning, the Fraternity found that the situation was not right today.

Yesterday, the Titans' attacks were fierce became sparse today. The Fraternity quickly understood the reason. The third zone was broken, and it was the news brought by the dust which just turned back to the group.

After hearing this thing, the head of the group was not surprised. After all, the third zone was a temporary team composed of scattered people. It was normal for the defensive line to be broken.

After dust said the real reason why was the third zone broken, Adam felt not good. The head of the third zone surprisingly ran away. Although he did not bring the girl, this kind of fleeing behavior made Adam very speechless.

However, after understanding the specific situation, Adam was vaguely worried in his mind. The disappearance of the protagonist Eren and the attitude of the character of the plot Mikasa all represented that the head of the third zone might plan something.

Adam had a headache. His team was in peace. He never actively provoked other contractors, but if other contractors come to provoke them, he will not tolerate them.

After considering for a long time, Adam decided not to provoke Su Xiao, but the Fraternity would not only sit and wait.

The fraternity had a member that learned the skill about Fuinnjutsu in the Naruto world, although the level of Fuinnjutsu was not high, as long as they give him two days, the hole on the wall could be completely sealed, so Adam did not pay attention to the third zone which was broken. The reduction of the Titans in the second zone would speed up the process of blocking the entrance of the second zone.

Just when the Fuinnjutsu sealed most of the hole, bad news appeared, the main character of the plot, Eren, held the big stone and went straight to the hole in the third zone.

When Adam saw this scene, he almost spits out the blood. The protagonist of the plot was so obedient, he turned to do the heavy job in less than a morning.

With the roar of the boulder falling on the wall, the first place of the attack and defense war was taken away.

Adam was not a person with a narrow mind. The three zones could complete their task by their own strength, if they can finish faster, that will be their strength.

“Brothers, the hole is about to be sealed, the blue equipment is also a good reward. Everyone has worked hard.”

Adam tried to boost morale.

“The boss is really optimistic.”

“The boss is in second place forever.”

The members of the Fraternity were listless to respond, but the atmosphere in the group was harmonious, there was no complaint. When he saw this scene, Adam smiled bitterly and shook his head.

The hole in the second zone was about three meters in size. Most of the hole was blocked by gravels covered with a black tadpole pattern. After three or four hours, the hole would be completely blocked.

But at this time, Adam heard a loud noise coming from the outside of the city wall, the golden light appeared in the hole.

“What is this?”

Adam just guessed what the golden light was in less than 0.5 seconds.

“Everyone gets away from the city wall!”

Adam screamed though he shouted to ask others away, he rushed to the hole alone.

“Mokuton Jukai Koutan!”

Adam pressed one hand to the ground, a large number of trees grew rapidly in the soil, eventually forming a tree wall.

Compared with Senju Hashirama’s mokuton, Adam’s mokuton skill could only be regarded as the light of the rice, but Adam only mastered several mokuton skills and had strong growth potential.

Boom!

A loud noise came from the side of the members of the Fraternity, the wall they put hard to block was kicked to smash directly from the outside.

Several titan toes with steam appeared in the hole, the colossal titan appeared again.

The stones that were kicked away with huge kinetic energies, spurting outward like bullets. If these stones hit a human, the scene would be like a hammer hitting tomatoes.

The wooden wall made of trees became Fraternity’s life-saving symbol, it blocked all the stones. The dozens of members of the Fraternity were only blown by the powerful impact.

The second zone was broken in less than three seconds, the members of the Fraternity were blown away like the heavenly maid’s scattered blossoms.

A titan with a skeleton in his body rushed to the hole in the second zone, and the armored titan fled out of the hole without any blockage.

The armored titan escaped with Annie, the colossal titan immediately turned into a large piece of steam.

In fact, the third zone was the most ideal breakthrough point for the colossal titan. But there were a large number of the Survey Corps gathered there, armor titan did not dare to escape to that direction.

The ‘Bertolt Hoover (Colossal titan)’, which has been hiding on the wall, discovered this situation, so he chose the second zone which had been blocked with not many Survey Corps.

Compared with the contractors, these three spies who had ‘the power of the titan’ were more afraid of the Survey Corps.

.....

Inside of the wall, in ruins.

Su Xiao picked up the '3D Maneuver Gear' on the ground. This thing was better to use in fleeing, and he was now a member of the Survey Corps.

Now the 'three intelligent titans' in the wall had all escaped to the outside of the wall, the difficulty of the attack and defense task would be much lower.

Standing on the roof to see the miserable situation of the second zone. Su Xiao sighed that the Fraternity was really unlucky, but the sudden appearance of the tree wall made him care a lot, the thing looked familiar.

Su Xiao began to consider the next action, first of all to speed up the progress of the other two areas of the attack and defense task, if the attack and defense task is completed successfully, he can get the blue quality equipment, if the blue equipment is just right for him, his combat power will grow a lot.

However, compared with completing the attack and defense task, Su Xiao looked forward to the 'three Titans' coming to find him.

He was now inside of the wall, the area inside the wall was not too small, it was too small compared to the entire mainland of the titan world.

The titan world was not just a range of three-sided circular walls. It was a very broad and interesting world. It could be regarded as a mixture of technology and micro-magic. According to Su Xiao search for information, the general situation of the titan world was as follows.

A long time ago, on a wide continent (not the location of the wall, but a broader continent), there were two major countries on the continent, namely the 'Marley Empire' and the 'Eldia Empire'.

The 'Eldia Empire' was weaker than the 'Marley Empire'. The two countries in order to rob the territory, the 'Eldia Empire' collapsed and immediately faced the country to perish.

But one day, a woman named Ymir in 'Eldia Empire' gained a kind of power under the coincidence.

This way of gaining power was called signing contracts with 'devil of the ground' by the Marley people.

Ymir was a war orphan, so she hated the Marley people. After gaining strength, Ymir joined her motherland 'Eldia Empire' and helped the 'Eldia Empire' to fight.

Yes, what did Ymir gain was the power of the titan, the most primitive and oldest and the strongest power of the titan.

The body of a hundred meters high, the whole body was covered by the armor, the invincible power, she even could tamper or clear the memory of nearby human beings.

After this terrible monster joined the war, the Marley Empire was defeated. In less than five years, the 'Eldia Empire' ruled the continent and established an empire that was extremely strong.

As the strongest person in the world, Ymir became the queen of the empire, the only person who had power.

Although Queen Ymir had a strong strength, she would also die. On the 117th birthday, Ymir died under the cries of her children.

When Ymir died, she asked her nine children and let her children eat her flesh and blood after she died.

The children of Ymir did it, the power of the ancestor titan was divided into nine, and the nine children of Ymir got one of her ability. Her children gave the names of these powers of the titan's names, respectively attack titans, armor titans, female titans, colossal titans, beastly titans, and jaw titans.

The glory of the 'Eldia Empire' was still continuing, but the children of Ymir quickly found a situation, their lives became short after they got the power of the Titans, they only had thirteen years, Ymir lived for 117 years after it divided to nine copies, it was 13 years.

Not only that, but the royal family of Eldia also found that only the Eldian people could inherit the power of the Titans, the Marley people could not inherit the power of the Titans.

This made the royal family of Eldia care a lot. They enslaved women of other races and forced them to give birth to the blood of the Eldia.

The power of the nine titans could be inherited by swallowing the previous generation of inheritors. If the previous generation passed away without being swallowed, the power of the Titans would appear randomly on a newborn of the Eldian.

This had further consolidated the rule of the 'Eldia Empire', which ruled the wide continent for 1700 years.

The Marley Empire had long perished under the pressure of the Titans, but the Marley people were not willing to be ruled like this.

After facing the rule of the thousand years, there was a genius with a high IQ in the remaining Marley royal family. The genius understood that a positive confrontation would never be able to fight with the 'Eldia Empire', but he thought of another way. Driving the wedge to provoke the relationship between the family of nine Titans.

The empire, which had existed for almost two thousand years, had long since decayed. Under the efforts of several generations of the Marley people, the family of nine Titans turned against each other.

The brutal civil war began, the Marley people took advantage of this opportunity to seize the power of seven titans, almost to turn over their situations.

But there was also a huge mountain in front of the Marley people. One of the nine Titan families was too powerful. The Titan family had the strongest power of the titans among the nine titans. It was very close to the power of the ancestor titan, so the power of titans was also called as the power of the ancestor titan, the power of the Titans could control the secondary titans awakened by the 'Eldian civilians', and the secondary titans were very similar to the current brainless titans.

In the long war, when the ancestor titans passed down the 145th generation, the inheritors of that generation did not know what they suddenly realized. They left the continent with a group of Eldians and settled on a small island next to the mainland.

In order to prevent the Marley people from using the power of titans, the king of the 145th generation used his power of the ancestor titan to control a large number of thirty or forty meters titans standing in a row and ordered those titans to form a circle of walls with secondary hardening ability. It was the wall Maria that was broken at the beginning of the plot.

After that, the king of the 145th generation used the same method to build the two other walls inside the wall Maria, the wall Rose and the wall Sina.

The king of the 145th generation king became the first king in the city wall, murdered the only family of titans who resisted with Marley people. The first king made his subordinates get the titan power of that family, and the titan power of that family could tamper and clean humans' memories.

Under the command of the early king, the memories of the people in the wall were tampered with, and the people forgot the knowledgeable culture of Eldia.

After that, the early king and the reborn 'Marley Empire' signed a treaty of non-violation.

But on one day, the early king discovered that there were many brainless titans outside the wall. The original 'Marley Empire' had already initially found out the secret of the titan, and the brainless titans outside the wall were the experimental products of the Marley Empire.

After the king of the first-generation discovered that the power of the ancestor titan could control these brainless titans, he did not pay attention to these titans. The people in the wall did not dare to go out, just the same as his intention.

In this way, the world inside the wall appeared, and the wall had thus lived a peaceful life for a hundred years.

But the early king did not know that the resources of the mainland not so far away were severely exhausted because of the successive years of wars, so the Marley Empire wanted to rob this vast island.

The Marley Empire did not directly declare war. They were somewhat afraid of the king of the first generation's power of the Titans. Therefore, the Marley Empire sent four spies who mastered the power of the Titans to sneak into the wall and wait times to destroy the cities.

Annie Leonhart (power of the female titan), she sneaked into the world of the wall at 13 years old.

Reiner Braun (the power of the armored titan), he sneaked into the world of the wall at 18 years old.

Bertolt Hoover (power of the colossal titan), he sneaked into the world of the wall at 17 years old.

Maruseru (the power of the jaw titan), he died, was swallowed by the brainless giants on the way.

When the three people arrived outside the wall, 'Bertolt Hoover (colossal titan)' kicked a door of the outside wall, and Reiner Braun (armor titan) smashed the inner door, the story of the titan world officially began.

After that, the three joined the training corps, in the same period as the protagonist of the plot Eren.

Now that the wall Rose was broken, it was the second time that the three men attacked humans in the wall.

Chapter 167

Inside the wall Rose, 10:20 am.

A lot of buildings in the wall were destroyed by titans, the city was broken like ruins, a few black clouds of smoke floated in the wreckage of the building.

The civilians gathered in a panic under the wall Sina, they were ready to withdraw into the old underground town.

Now there was no such need, the third zone was blocked, although the second zone was broken, the Fraternity would soon build the defensive line in the second zone.

Members of the Survey Corps shuttled between the buildings to clear the brainless titans who invaded the walls.

At this time, in front of the hole of the third zone, the titan that Eren turned into sat in front of the boulder, he was exhausted, the whole body was floating with sparkles would vaporize at any time.

Puff.

The jet sound of the '3D Maneuver Gear' came, Su Xiao rushed to the third zone.

"Head, how is the situation?"

Su Xiao looked at Eren, who was sitting on the ground. He wondered if Eren could lift the other two boulders.

"it's not very optimistic, Eren Yeager seems to run out of strength."

Although the Survey Corps' plan proceeded to only one-third, Erwin was calm.

"Eren, Eren."

Mikasa and Armin tried to call Eren, Eren did not react.

"It seems that Eren Yeager can only move the other two boulders after he takes rest."

Erwin sighed.

"What happened to the titan who fought with you before."

Erwin looked at Su Xiao.

"It's unclear, the Titan has mastered fighting skills and has self-conscious."

Su Xiao did not reveal the identity of Annie, his net has been fell, he would not provide any information to the Survey Corps before regaining the net.

"Ok? Then..."

Just as Erwin was preparing to assemble members of the Survey Corps, Eren, who sat on the ground, suddenly moved.

“Roar!!”

Eren screamed unwillingly, looking at the other two boulders in the town.

Eren, who was full of sparkles on his body, stood up and managed to control the titan to walk to the two boulders with struggle.

“Do you want to continue? This Titan has already had a gasification reaction.”

Hange Zoe adjusted the glasses.

“After the war, we will try to train Eren Yeager to master this power. His loyalty seems to have no problem.

Byakuya, continue your mission. ”

Since Eren could still move, the task of blocking the wall would continue, Erwin began to mobilize personnel to protect Eren.

Su Xiao nailed the hook of the ‘3D Maneuver Gear’ on Eren’s shoulder, and the gas spurted. He stood on Eren’s shoulder.

Don, don, don.

Every step that Eren walked was very difficult. In this state, he could not lift the two huge stones.

Five minutes later, Eren manipulated the titan to come to one of the boulders.

“Eren, can you hear me?”

Su Xiao stood on Eren’s shoulder and shouted.

The titan that Eren turned into stopped his action, a big head nodded.

Su Xiao scowled, the speed that Eren grasped the power of the titan was very fast, and now had been able to control the titan soberly.

“It’s better than you can hear, don’t try to lift this stone, you can’t do it now, drag it and push it to the entrance of the second zone, that’s there.”

Su Xiao pointed to the direction of the second zone.

When he heard Su Xiao’s words, Eren was obviously a little surprised. Right, why should I raise the boulder, although the speed would be faster, it would consume more energy?

The Eren beast stood in front of the boulder and pushed the boulder.

Sure enough, under the push of Eren, this round boulder gradually rolled up.

Although the rolling speed was not fast, Eren’s current physical strength could insist on blocking all the holes.

A funny scene appeared, Eren beast dragged the boulder with full strength, and Su Xiao sat leisurely on the shoulders of the titan and smoked.

The boulder rolled on the stone road, crushing a large piece of road, no one cared about it now.

About half an hour later, the people of Fraternity in the second zone found the boulder that was approaching.

“It’s the protagonist of the plot Eren, what’s on his shoulder?”

Many contractors saw Su Xiao with curious sights, but they had not spoken. The situation was a bit strange.

The firepower of the Fraternity was significantly strengthened. After a collective wave to kill the brainless titans in the hole, Eren pushed the boulder and arrived.

Boom, the nearby wall was shocked.

The boulder completely blocked the hole and the second zone was successfully defended.

Adam stood in front of the members and looked at Su Xiao with a smile.

“I didn’t expect that we would meet in the derivative world. It’s a coincidence.”

Adam’s eyes were dropping, he looked listless. It was not easy to use mokuton.

“What a small world.”

After Su Xiao spoke, Eren walked toward the last boulder. Adam hesitated for a few seconds, indicating that members of the Fraternity to keep up.

When the hole was completely blocked, the contractors of the titan world became active, Su Xiao was considering this.

He had not gained any source of the world since he entered the derivative world and had never met this situation before.

Coming to the front of the third boulder, the titan that Eren turned into rested on the boulder for a moment.

“Eren, if you can’t hold it, don’t force it.”

Mikasa had been following said anxiously.

Eren ignored Mikasa’s words, he was some stubborn to control titan to continued to push the boulder.

Eren was surrounded by a large number of members of the Survey Corps and members of the Fraternity. Those scattered contractors did not know when they arrived as well.

At this time, in addition to the members of Lycoris radiata, other contractors were basically present.

Su Xiao stood on Eren’s shoulder and looked around. There were no two violators around. It seemed that the two guys were hiding somewhere inside the wall, but one Su Xiao had already perceived that the distance of one of them was not far away.

The boulder was slowly pushed to a nearby area, Lycoris radiata adventurous group also knew the current situation, so they immediately increased the firepower to solve the Titans in the hole.

Su Xiao gradually approached the first zone.

Three hundred meters, two hundred meters, one hundred meters.

Su Xiao jumped down from Eren's shoulder. He had killed the person of Lycoris radiata adventurous group before, but he would not be close to this adventurous group, but he would not leave, the offender was nearby.

At this time, a red blood flow appeared on the Icy Lunar's body, head of Lycoris radiate.

Seeing this blood-red flow, the other women of Lycoris radiata were somewhat surprised, but they soon had killing intention in their eyes.

[Warning: The bloody mark of Lycoris radiata has been activated, this is the exclusive skill of the permanent adventurous group.]

[Hint: Bloody mark will only be activated once.]

[Hint: The duration of a bloody mark is half an hour. Within half an hour, Lycoris radiata adventurous group can use team skills to track the position of the hunter.]

[The fake number has been activated, Lycoris radiata adventurous group will not be able to track the correct position of the hunter. After the hunter leaves the sight of Lycoris radiata adventurous group, the reincarnation paradise will lock the fake position.]

A series of hints appeared. Su Xiao, standing on a roof, was a little surprised. He understood the meaning of the sentence that black-white said before she died.

After killing the members of the Lycoris radiata adventurous group, being close to the adventure group at a certain distance, he would be traced. Su Xiao knew this kind of thing.

Dragon flash appeared in his hands. Su Xiao was more interested in seeing the other women of Lycoris radiata. There were a lot of beauties there. He even suspected that there was a demand for appearance to enter that adventurous group.

"It's black white, Queen and leaf, we must kill this guy to avenge them."

Icy Lunar tied her long black hair on the shoulders, the women contractors around showed all cold looks.

Adam is not far distance saw this scene was shocked. After seeing Su Xiao, Adam sighed, he thought that Su Xiao will die, there is no hope to win a fight against more than 50 people alone.

Chapter 168

A strong wind blew, the Icy Lunar's sorcerer robe was blown, slightly highlighting the sexy figure, all the contractors were silent, those scattered contractors found out somethings were wrong.

Bang.

Eren dragged the boulder to block the hole, the attack and defense mission was completed.

[Detected that all zones defended successfully, beginning to settle the ranking of the final attack and defense contribution values.]

[First place: Byakuya, the attack and defense contribution values are 11650.]

[Second place: Cold Moon, attack and defense contribution values are 2230.]

[Third place: Adam, the attack and defense contribution values are 2228.]

[Fourth place: dust, the attack, and defense contribution values are 315.]

[5th place: blood rose, the attack and defense contribution values are 268.]

.....

[All notices: The attack and defense tasks have been completed, and the follow-up return qualification tasks have been released. Due to the end of the attack and defense tasks, the contractors have obtained the source of the world.]

.....

[The first place of the hunter's attack and defense ranking will get the soul crystal (small) $\times 5$, a random blue equipment treasure chest.]

Five soul crystals (small) and a blue treasure chest appeared in Su Xiao's storage space, and the subsequent 'return qualification mission' also appeared.

Su Xiao didn't pay attention to this. He felt that the sniper on the towering wall had already aimed at him.

The women of Lycoris radiata stood in a row, staring at Su Xiao, now no one dared to attack first, the people in the Survey Corps were still there.

"The wall Rose is blocked!"

Erwin screamed hundreds of members of the Survey Corps cheered nearby, and some of them even had tears in their eyes.

"All the members gather and cooperate with the Stationed Corps to handle the follow-up issues."

Although the threat of the Titans was relieved, things did not end there, the follow-up things after the war were very troublesome.

Settling the people who lost their homes, dealing with the bodies of soldiers and so on.

Hange Zoe carried Eren who had faint to Su Xiao.

"Byakuya, we will withdraw first, we need to deal with Eren Yeager."

Su Xiao stood in the same place, he had the opportunity to go, but he would not go now because he found the violator in the Lycoris radiata adventurous group.

"I have something to deal with, see you."

Hange Zoe did not doubt anything, just carried Eren and left.

The people of the Survey Corps began to diffuse around, the contractors did not move.

“Is this guy looking for death? he doesn’t even go with the Survey Corps.”

“Who knows, he may be too scared to escape, he surprisingly provokes those crazy women of Lycoris radiata.”

“How about opening a gamble, I bet the head of the team can hold on for five minutes.”

“Hey? Five minutes? Are you kidding? In the face of the siege of more than 50 people, he can’t hold on for five seconds.”

These scattered contractors obviously wanted to rubberneck, they surprisingly began to discuss how Su Xiao will die.

Adam heard their talking and sighed.

“This man is really ‘ladies man’, there are so many women after him.”

Fire aside curled his lips.

“We have also fought against Lycoris radiata once. The strength of these women made me have headaches, especially Icy Lunar. I don’t even know what her position is now. Whoever says she’s a sorcerer, I will kill him.”

The people of the Fraternity began to retreat, they understood some means of Lycoris radiata.

A strong wind blew the flag on the wall whistling, the battle was about to begin.

“Did you kill Queen, black white and leaf?”

Icy Lunar stood in front of the women, the cold eyes stared at Su Xiao, Su Xiao saw that the person was the head of Lycoris radiata directly, this woman was very temperament, she had cold queen spirit.

Su Xiao jumped from the roof, he held the dragon flash and walked toward the other women of Lycoris radiata.

“The two women are called black white and leaf? I almost forgot. If I remember it correctly, black white is a sniper. Is the leaf a very timid sorcerer?”

Although facing more than 50 contractors, Su Xiao had no fear.

He had a vague feeling that these contractors were not terrible, or that he had the ability to deal with these contractors.

This was not Su Xiao’s confidence, but an instinct.

He instinctively felt that comparing with creatures of the plot, he was better at dealing with the contractors.

“It seems? It is indeed you!”

Icy Lunar squeezed a slender staff in her hand tightly and made crack sounds. It was a very beautiful staff. The body was slender with many blue gemstones, and the color was silver.

Large crescent-shaped wind blades emerged around Icy Lunar, those wind blades spiraled around Icy Lunar to protect her.

A wind blade swept over the stones on the ground, the stone was cut instantly, the fracture surface was as smooth as a mirror.

Seeing this scene Su Xiao frowned tightly, is the head of Lycoris radiata a wind sorcerer?

No, this woman was not just as simple as the wind sorcerer.

“Little black, layout enchantment.”

“Glasses sister, you command the sisters for the time being.”

Icy Lunar mobilized the entire team, they were ready to kill Su Xiao.

“Got it.”

The little black was also the ill-intentioned woman closed her eyes, a red glow appeared in her hands.

“Three marks, the cage of death.”

A square enchantment spread out to the surrounding area, wrapping a range of 400 meters. The enchantment prohibited anyone from entering and leaving, and it was extremely strong.

“Sniper delays the target, the controlling department prepares, we will fully set a fire.”

Icy Lunar commanded under the team channel.

On the wall Rose, a sniper in a jungle combat uniform aimed at Su Xiao, the beautiful sniper's lips trembled.

“Go to die, you damn bastard.”

The sniper's name was Bee, Bee's mood was somewhat unstable now. It seemed that she hated Su Xiao extremely.

This was also reasonable. Black white who was killed by Su Xiao was her master and savior.

“We've agreed to leave this damn paradise together, why did you die?”

Bee held her breath after a few quick breaths and began to control the frequency of the heartbeat.

The slight tremor of the sniper mirror disappeared, the green cross was aimed at Su Xiao's head, the index finger which was full of callus was lightly buckled on the trigger.

Boom.

The bullet detached from the bullet cartridge and accelerated through the spiral rifling to escape the muzzle.

There was a wave of air at the muzzle. The smoke and fire produced by the gunpowder rushed out of the muzzle, and the tail of the bullet was dragged with some smoke.

The bullet which was as short as the little finger flew at high speed in the air, breaking through the layers of airwaves in the air, the target pointed directly to Su Xiao's head.

Su Xiao had pupils constriction slightly, the perception of the heart eyes immediately locked the flying bullets.

Thirty meters, ten meters, five meters, taking out of the knife!

The dragon flash cut through a light blue glow, the sharp blade smashed in the middle of the bullet.
Ding.

The bullet was neatly split into two pieces which were screamed across Su Xiao.

Pop, pop.

The bullets fell into the ground, and two holes as big as a fist appeared.

“What is this fucking situation, Cut, cut off the bullets of the sniper rifle?”

A scattered contractor looked at Su Xiao with stun, the other contractors nearby were the same.

After discovering that Su Xiao surprisingly cut the bullet of the sniper rifle, Icy Lunar was very moody.

“Isn't it really like what little black said? This nerve reflection speed was too abnormal, his agility attribute may be close to 20 points.”

Icy Lunar whispered, but now she could not retreat. The moment when the bloody mark was activated, they had to fight until they died. Otherwise, she would not be the head anymore, she would not be able to command the members.

After Su Xiao cut the bullets of the sniper rifle, the sniper on the wall seemed to be stimulated and directly fired three shots.

Su Xiao's body moved to the side, the bullet slid across his shoulder.

“This familiar shooting method.”

After hiding the bullets, Su Xiao immediately remembered a person, black white.

After avoiding the first round of attack on the other side of the Lycoris radiata, Su Xi would not stand in the same place, he stepped on the ground and rushed to the dense position which had most members of Lycoris radiata.

His agility attributes were 17 points, and he ran very fast, especially for this short-term acceleration.

Icy Lunar only felt her sight was a blur, Su Xiao was in 50 meters away from them.

“The controlling department is ready.”

Once Su Xiao was controlled, he was dead. Now, at the most critical moment, whether it was useful that he strengthened the three attributes at the same time, he would know now.

Su Xiao quickly rushed to the crowd of Lycoris radiata, his goal was the row of contractors in the controlling department who stood in front.

He had already simulated the order of the targets he wanted to kill.

Killing these contractors of control department first, then the sorcerers and then cleaned up the firepower in long distance, finally, he would consider those contractors who were good at a close fight.

Can the Lycoris radiata adventurous group be closed in easily? Of course not.

After a few steps, Su Xiao suddenly felt the land under his feet surged.

Boom.

A stone pillar broke out under his feet, Su Xiao's body shook, the terrain changed was fatal when he ran at high speed.

In the air, Su Xiao thorn the dragon flash into the stone pillar, his body focus was placed on the dragon flash.

The long sword shook, Su Xiao, regained his body focus after sliding a short distance in the air.

Su Xiao, who was still gliding in the air, immediately noticed that a black mist entered into the chest.

[You are affected by the 'bewitchment mind' effect, the intelligence attribute is judged..., the judgment is passed, you have been immune to this control.]

Su Xiao's sights returned clear, his feet landed.

Crack, crack, crack.

A thin layer of ice floated on the surface of Su Xiao's body, and his movement was limited again.

Crack.

The thin ice was broken, Su Xiao forcibly broke free at the moment that he was bound.

After continuously avoiding or breaking away three controlling skills, the controlling skills were not over.

A golden energy spear directly penetrated into Su Xiao's chest. The speed of this spear was very fast, but it was energy which did not hurt Su Xiao.

[You are bound by the Holy Spear, you will be fixed for 2 seconds.]

[In the judgment of the strength attribute, the judgment is passed, you are immune to this control.]

Oh, the golden spear was broken.

There were more than 50 people in the Lycoris radiate adventurous group. Several of them mastered controlling skills, so the controlling skills did not finish.

An energy net came to Su Xiao, his body was low, he rowed to the side when he was running to escape the energy net.

A total of five controlling skills, five controlling skills combined together to control Su Xiao for less than a second.

Intensive bullets shoot through the position of Su Xiao's route, there occasionally was a mana skill.

Su Xiao hid as possible as he could, if he cannot escape, he will use dragon flash to block, further, he will use his body to fight back.

He was shot twice. After a mana skill, Su Xiao rushed to the Lycoris radiata adventure group within ten meters.

The women of Lycoris radiata looked at Su Xiao with stun, how could this guy not be controlled?

A short sorcerer in the center of the team was crying. She just saw Su Xiao's cold sight.

"Why do I always get injured? I am only responsible for saving the wounded and dying people. I will not be attacked."

The sorcerer was wearing a white dress, giving a feeling of youthful and beautiful. The various glories of the sorcerer always let people want to solve her first, so the common problem of the sorcerers is that they were timid.

"Sisters, stop her! It's about to come soon."

The sorcerer talked even with a crying tone. She remembered the man with a revolver at this time. Now the man with a sword was more terrible than the man with a revolver.

"The breath of the wind."

The staff in the Icy Lunar's hand pointed to the ground, a green and a strong wind blew around.

This cyan wind gave people a feeling of vitality, but the wind was very strong, Su Xiao was blown backward by two steps.

No judgments appeared, it represented this skill was a control skill of the physical class.

He thrust the dragon flash into the ground, Su Xiao's body was still slowly retreating.

The wind dispersed, there were large cyan spots floated in the air. These spots did not show signs of dissipating. Instead, they were on the bodies of the members of Lycoris radiata and gradually formed a cyan armor with half-length.

Su Xiao continued to rush forward, intensive bullets and skills flew in front.

Seeing this overwhelming attack Su Xiao grit his teeth and kept going on, waving a dragon flash to cut a few bullets, he passed through the gap between bullets and skills.

Puff?.

A bullet entered Su Xiao's shoulder, but he continued to rush forward like he did not notice.

"Don't think about passing here."

A female contractor held a heavy shield blocked in front of Su Xiao. This heavy shield was very technical, and it should be high-tech equipment.

Buzz.

A position spread on the heavy shield, Su Xiao clearly felt his shoulder became heavy.

He could not get there, the surrounding was blocked, if he wants to continue to move forward, he must resolve the person in front.

The dragon flash's surface rushed with the light blue arc, Qing Gang Yin began. The real damage of Qing Gang Yin was very useful against the contractors, the contractors' health points were generally not high.

Su Xiao made power by his body, the arm muscles slightly raised, the two hands held the sword, he screamed out a roar and cut the heavy shield in front.

The female contractor behind the heavy shield was at least one meter nine tall, and the figure was as strong as the male. This is a tough girl.

The tough girl behind the heavy shield saw Su Xiao raising his sword, she smiled coldly. As long as the person was delayed by her, he couldn't hold for five seconds in the firepower of her sister. She only had to delay the person.

The long sword cut through the air and made a horrible whistle. The dragon flash passed a blue shadow in the air and slammed on the shield.

Ding.

The two-meter-high heavy shield was cut off by Su Xiao, the tough girl was shocked.

The attacking power of the dragon flash was not low, and the effect of the edge blade added 4 points of sharpness to the dragon flash.

Now it was not exaggerated to say that dragon flash cut iron as the tofu, so the horrific lethality of this sword to break the shield appeared.

Su Xiao's attack kept going, raising his hand and taking out the second knife. Now time was life.

A layer of light bisque shell appeared on the surface of the tough girl's body.

The tough girl was relieved. This was the attached skill of the blue quality pendant that could block three attacks, as long as the three attacks were not too horrible.

Even if the person has the lethality to break the shield by one attack, he will not be able to smash the shell by one sword.

When the blade fell, the tough girl only heard a crack, the shell around her body broke open and turned into large pieces of bisque fragments.

Although Su Xiao did not have the power to break the shell by one attack, he had several judgments every time he attacked.

The basic damage of cutting + the additional damage of the sword specialization + the real damage of Qing Gang Yin against the energy and so on.

The shell broke like a fragile eggshell, and the tough girl screamed in horror.

“Candy, take care of my Hp!”

The sorcerer who was short in the crowd was stunned, the tough girl was not injured. How could she take care?

But candy still raised staff, preparing to take care of the tough girl.

Su Xiao cut down the third sword after the two sword attacks broke the enemy's defense.

Snigger!

The blood splashed, the tough girl's shoulder was split into two pieces, and the main tank of Lycoris radiata was killed in a second!

Candy raised the staff with stun, her skills had not been used, and her teammates had already died.

Seeing that the main tank was killed in a second, the other women of Lycoris radiata was surrounded by something called fear.

The man with revolver killed the main tank of their team in five shots, this one was more perverted, counting to break shield and defense, he only used three.

“Beware of his real damage, everyone attacks...”

The tough girl left such a sentence on the team channel before she died, which was her final contribution to the team.

After Su Xiao killed the main tank of Lycoris radiata, he immediately jumped to the side. From the beginning to the end, he used less than two seconds, but even then he was almost attacked by their full firepower.

He faced too many enemies, but he did not have fear, just thinking about how to solve these enemies in front of him.

Chapter 170: I refuse!

Boom, boom.

The intensive attacks fell to the position where Su Xiao was before, the smoke was rising.

Huh.

A figure rushed out of the smoke, Su Xiao rushed to the Lycoris radiata adventurous group with his sword.

As long as he was close to these people, he would take advantages, but there was something that made him care a lot, the head of Lycoris radiata had never attacked.

Ten meters, five meters, he would soon rush into the crowd.

At this moment of victory was almost arrived, Su Xiao's figure suddenly stopped, a feeling of making his hair on end appeared.

The staff on Icy Lunar's hand disappeared, it turned to a metal bow which was similar in color to the staff.

The front of the metal bow filled in with a row of milky white gemstones. Icy Lunar's fingers buckled the bowstrings and pulled the metal bow into a full moon.

“Halo.”

Bom.

A silver energy arrow flew, this arrow left a silver ray in the air and shot at Su Xiao.

He could not escape, even if the speed of this arrow is not fast, he could not escape.

This feeling suddenly appeared, Su Xiao immediately made a decision.

Since he couldn't escape, he would not do it. Su Xiao took the sword and slammed it on the energy arrow.

Boom.

An explosion came, and the energy arrow surprisingly burst open.

The arrow's attack was not strong, but it produced very powerful shock waves.

All objects in his sight had double images, at the same time, a lot of attacks came.

Su Xiao rolled sided to avoid a lot of attacks, the dizziness gradually eased.

This was an arrow with three effects of tracking, explosion, and control. The strength of the head of Lycoris radiate was not weak.

The staff and the robe of her made Su Xiao mistakenly thought that Icy Lunar was a sorcerer of wind, but now it seemed that it was definitely not, the person changed from a sorcerer to an archer like becoming a different person.

He stared at Icy Lunar, the things made Su Xiao more unexpected happened. The bow and arrow in Icy Lunar's hand quickly dissolved, they became two rapiers in a sudden. Each hand was held in one rapier, the blue gems were filled in the rapiers.

This woman may have three fighting methods, a sorcerer, an archer, and a warrior.

Icy Lunar rushed to Su Xiao with a pair of high heels, the pair of high heels flashed a blue ray, it was a piece of blue equipment.

The speed of Icy Lunar held rapiers in both hands was not slow, she rushed to the front of Su Xiao in a few steps.

Su Xiao scowled, this woman actually dared to be close to him.

Dragon flash in hand slammed directly with huge momentum, Su Xiao's power attribute was the highest, it had 20 points, Icy Lunar immediately crossed the two rapiers in front to block.

Ding.

The crisp sound of gold and iron collided came, sparkles spurted high, and Icy Lunar's high heels fell into the ground.

“So heavy.”

Icy Lunar obviously could not resist Su Xiao's attack. Her agility attribute in current state was higher, so her whole body bowed.

Su Xiao's left hand pressed on the back of the dragon flash. This was not finished, because the body of Icy Lunar bowed, and dragon flash was about the same height as that of Su Xiao's chest. He directly lifted one foot to step on the back of the dragon flash.

"Huh."

Icy Lunar groaned, the white knees directly down to the ground, her face became pale. Now this woman who was aggressive may be more uncomfortable than death.

Half of her body pressed down hard, the dragon flash's blade kissed on Icy Lunar's collarbone, the blood immediately overflowed, Icy Lunar was in danger.

Su Xiao made another force, the blade continued to cut downwards. Icy Lunar raised her head reluctantly. Although she was in the danger of death, Icy Lunar did not surrender.

Su Xiao knew that he could not kill Icy Lunar now. The other members of t Lycoris radiata were not watching around. A lot of bullets and skills had already come.

"Go to die!"

Guns rushed, the blood rose with a long gun stabbing into Su Xiao's throat.

Head back, Su Xiao stepped on Icy Lunar's shoulder and pulled back.

Boom.

A bullet of a sniper rifle entered Su Xiao's lower abdomen, he retreated two steps.

Blood rushed out in the lower abdomen, Su Xiao just ignored the wound after glancing it. He was used to this pain, the battle made his willpower stronger and stronger.

Su Xiao was heavily injured, but he had already injured the head of Lycoris radiata, the person could not cause him troubles in a short time.

Su Xiao continued to rush to the crowd of Lycoris radiata, aiming at the controlling department of Lycoris radiata.

Those female contractors with controlling skills sweated on their foreheads, and controlling skills were used one by one.

Rolling, jumping and forcibly exempting, Su Xiao incessantly escaped several control skills.

Three meters, he had arrived in front of the crowd of Lycoris radiata.

"Distribute the formation."

One of Icy Lunar's arms softly hung down, blood rose desperately was chasing Su Xiao, but blood rose was good at strength, her speed was much slower than Su Xiao.

The women of Lycoris radiata immediately dispersed, but it was too late, Su Xiao directly rushed into the controlling system of Lycoris radiata.

He killed a frightened female contractor by one attack, the long sword in Su Xiao's hand flew, there was no wave in his eyes. After three seconds, he had six more bodies under his feet.

The people of Lycoris radiate dispersed like running away, Su Xiao took the sword and tried to catch up.

Their main force died under only an attack, not to mention the contractors of these controlling department.

A tiger among a flock of sheep was the most vivid metaphor now.

A contractor fell down in two steps.

Seven seconds later, Su Xiao killed all the exposed contractors of the controlling department, he turned his eyes to the sorcerer who was protected in the center of the team.

Candy's breath suddenly stopped, the girl felt that the whole world was targeting her.

Candy was bitter in her mind, but she shouted out loudly.

"I am not a sorcerer."

This yelling made Su Xiao stun, is the girl insulting his IQ?

"Don't think about hurting my sisters anymore."

Icy Lunar suddenly appeared behind Su Xiao, Su Xiao had pupils constriction.

Did this person teleport?

Su Xiao immediately denied this idea. Blood rose appeared at the position that Icy Lunar stayed before, the two just exchanged positions.

Icy Lunar's rapier entered Su Xiao's back shoulder. This attack was stabbed into his heart. But he escaped. He perceived the attack from behind by heart eyes, and the avoidance was too late, so Su Xiao made a move.

After Icy Lunar's rapier entered Su Xiao's body, a feeling of a cold appeared.

[You are suffering from the erosion of 'cold moon', and you will be implanted with 'the poison of cold moon' three seconds later.]

The situation was not good, the dragon flash in Su Xiao's hand-rolled back, he held the sword by backhand and stabbed to Icy Lunar's throat.

Icy Lunar consciously escaped, the rapier was pulled away from Su Xiao's back.

Su Xiao did not give up only because he did not attack Icy Lunar, his body jumped backward.

Snigger.

Dragon flashes directly stabbed through Icy Lunar's flat belly. Su Xiao's whole person was also in Icy Lunar's arm, he even felt her soft body.

He held the handles of dragon flash by both hands tightly, Su Xiao dragged the dragon flash to aside heavily.

Icy Lunar groaned painfully, a large piece of bloodstained with her white robe.

The feeling of scratching the flesh appeared, but this feeling suddenly disappeared as soon as it appeared.

Su Xiao turned and looked, he found that Icy Lunar was emitting a white moonlight. Icy Lunar seemed to become the goddess of the moon, giving a sense of holiness and inviolability.

After he took out the sword and retreated, Su Xiao breathed somewhat heavily, and his body was full of blood.

Although he injured heavily, he killed all the contractors of the controlling department in the Lycoris radiata adventurous group.

Taking out the [C-type battlefield syringe], Su Xiao put the syringe into the side of his neck, this thing was more effective when it injected into the vein.

He held the sword in right hand and held a metal injection to stab into the neck by left hand, and the whole body was covered with blood, Su Xiao's appearance was now very fierce.

The hatred of between him and Lycoris radiata adventurous group made him very speechless, and this incident was because Queen and others wanted to assassinate him.

Although these female contractors were beautiful, the head Icy Lunar was even unsurpassable, but Su Xiao would still kill them, the woman had no privilege, no genders in the battle, there were only enemies.

Su Xiao gradually calmed down, Icy Lunar and the women of Lycoris radiata gathered together again.

Fighting with Su Xiao, the women of Lycoris radiate were desperate.

He was not controlled at all, and all the skills could be avoided, and the skills could not be avoided; he could forcibly pass by judgment.

And the long sword in his hand was too sharp, except for their head Icy Lunar, no one could resist one attack.

He could not be controlled and could not be attacked, the speed was extremely fast, several mana skills did not affect him, how could this battle continue?

Under the intentional cultivation of the reincarnation paradise, the hunter identity of the Su Xiao had already begun to appear.

The hunter was going to hunt those who violated the rules, it will be ridiculous if his ability to fight the contractors is not strong.

“Go on.”

Su Xiao gradually stepped near the women of Lycoris radiata after his injuries recovered a little.

“Stop, madman.”

Icy Lunar shouted.

Su Xiao looked at Icy Lunar with doubts.

“Do you want to talk about it?”

“Yes, we can forgive that you can kill our members. But you can’t take the initiative to fight with us from now on. If you continue to fight, you can’t get benefits. This is a derivative world with peace mode. There is no scarlet card.”

Icy Lunar made the most reasonable choice. If it continues, even if they kill Su Xiao, the Lycoris radiata group will be almost destroyed.

“Oh? To this extent, you still want to talk about it. It’s really the adventurous group that Queen stayed. Your style is very similar, but...”

Su Xiao wiped the blood on his chin and looked straight at Icy Lunar.

“I refuse!”
