

R. Paradise 191

Chapter 191: Chief's rebel assault.

Contractor No. 13013. (To protect the hunter, this is a false number, and no means can lock the hunter.)

Name: Su Xiao (hunter)

Level: LV.7. (level one). Every 10th level is a stage, the level promotion has no attribute bonus. It is the hunter's authority in the reincarnation paradise, which corresponds to the world difficulty and task difficulty.)

Hp: 100%. (This attribute cannot be fully digitized and changes depending on the degree of injury)

Mana : 473. (Intelligence \times 10, the current mana recovery rate, 9 points every hour.)

Strength: 25

Agility: 24

Vitality: 14

Intelligence: 24

Charm: 3

Luck: 1 (it's related to open items, manufacture, etc., this property is extremely difficult to upgrade, hunter please cherishes the opportunity to improve)

Note: The standard attribute for adult males is 5 points, and luck is 1 point.

.....

[Agility attribute was the close attribute of the shadow of the law, the agility attribute had reached 20 points without wearing arms, the hunter can choose one of the following rewards.]

Agility: Agility + 2. Running star: increasing the running speed by 15%. Electric light and Firestone: Increasing the nerve reaction by 15%. Jumper: increasing the jumping power by a small amount.

.....

Four options just appeared Su Xiao decisively chose the third item. There were few opportunities to increase the 'speed of nerve reaction'. In the close fight, the 'speed of nerve reaction' was very important. He decisively chose it.

Colorless energy flooded into the body to begin an unknown reinforcement.

After the reward of the agility attribute had just been selected, the 20 points of reward for the intelligence attribute also appeared.

[Intelligence attribute is the close attribute of the shadow of the law, the intelligence attribute had reached 20 points without wearing arms, the hunter can choose one of the following rewards.]

The state of mind: intelligence +2. Magic increase: increasing the mana by 30 points. Iron will: increasing resistance to abnormal states such as enchantment, hypnosis, and confusion.

.....

He even did not consider the three choices at all. Su Xiao was most afraid of being controlled, he decisively chose the iron will.

Su Xiao's current immune ability was already strong. Maybe one day he could ignore various controls.

When he thought to this point, Su Xiao became excited. In that case, his ability to fight against other contractors would be extremely strong.

However, if he wants to avoid control completely, he will still have a long way to go. He could resist the control of Lycoris radiata adventurous group because the intelligence or strength attributes of the controlling department of Lycoris radiata were not high.

Icy Lunar had controlled Su Xiao for a while, so he should be cautious in the future.

Leaving the enhanced attribute hall, Su Xiao moved his body which was a lot stronger, the smile appeared on his face.

The sudden increase of the properties that made his body became inharmonious was not obvious. He had experienced this situation twice, now he could master the stronger body with a little adaptation.

Su Xiao returned to the exclusive space and sat in the bed, putting the harvest of the titan world in front, there were:

Soul crystal (small) × 5.

Love shank (green weapon)

Knight king (Honor) 1/8 (Blue bracer)

Bronze honored medal × 2.

Green treasure chest × 2,

Blue treasure chest × 1

.....

Su Xiao prepared to enhance the sword specialization to Lv.10 first. After that, he started to open the treasure chest. After opening the treasure chest, he would go to the trial ground to adapt to the stronger body. He did not want to summon a mirror. Now he did not have many paradise coins.

Su Xiao opened the skill list and picked up five soul crystals and began to improve the sword specialization.

Upgrading each level of sword specialization required one soul crystal (small) and 1000 paradise coins.

[The 'sword specialization' has been upgraded to Lv.6.]

[The 'sword specialization' has been upgraded to Lv.7.]

.....

[The 'sword specialization' has been upgraded to Lv.10!]

The soul crystals in Su Xiao's hand broke, and 5000 paradise coins were consumed.

Closing his eyes, the surrounding became dark, a white light appeared. He saw a figure formed by the fragments of the soul crystals in front of him. The figure was the same as him, no matter height or weight.

The figure was standing in the void, practicing the knife skills. The passing time seemed lost its meaning.

Cutting, traversing, Ryu shosen, multiple movements changed, the movements of the figure was getting faster and faster.

Didn't know how long before the figure finally stopped, the figure raised the sword and cut at Su Xiao.

'All things have rhythm, steel, water and so on, after initially mastering this kind of rhythm, you can cut off the water. After you well mastered it, you can cut iron like cutting mud, you can cut off what you want to cut, keep everything you don't want after you thoroughly mastered.'

Su Xiao suddenly opened his eyes and subconsciously took out the dragon flash.

The bright sword light flashed, there was no sound of wind breaking, this knife was very common, but the lethality increased several times.

Su Xiao's momentum gradually changed, as if he had been practicing the sword for more than ten years, a unique momentum appeared.

Sharp and floating, this was the momentum produced by the upgraded sword specialization.

Su Xiao checked the sword specialization.

sword Specialization: LV.10. (passive)

Skill effect: increasing the close fight's attack power by 28%, and the proficiency of swords.

Lv.10 attached ability

All things have rhythm (primary): This ability cannot be strengthened in the reincarnation paradise, only by the hunter himself.

.....

The change of the sword specialization was not small, and the extra [All things have rhythm] looked very remarkable. It could not be strengthened in the reincarnation paradise, it only could be master by himself.

What made Su Xiao happy was that the knife specialization didn't reach to limit after upgrading to Lv.10, which showed that the route he chose was very promising.

Su Xiao tried to improve the sword specialization again, he just wanted to see whether the conditions for continuing to upgrade the knife specialization were improved.

[Upgrading sword specialization: LV.10 requires soul crystals (middle) and 150,000 paradise coins.]

Soul crystal (middle)? Su Xiao asked the reincarnation paradise, the answer he got made him quite unexpected.

[There are not enough permission to view this information....]

[Hunter needs to reach Lv.10 level to view such information.]

Su Xiao thought something bad. It was so difficult to see the information of the soul crystals (middle), the difficulty to get...

Everything would work out.

He was not only curious about how to obtain the soul crystal (middle), but also the quality of the equipment above the blue quality.

On the level of personal information, Su Xiao's Level was Lv.7 (first-stage), what did the first stage mean?

These things must be explored by himself, he was not in a hurry.

In the reincarnation paradise, there was not only fighting for life and death but exploring the unknown things was interesting. It was also a sad thing to be omniscient and omnipotent which would lose the goal of life.

Just like some rich people who were often depressed.

What did it feel like to be the richest man in the world when you were born? That still useless to say, of course, it was awesome!

Su Xiao took out a cigarette and put it in his mouth, a beautiful lighter appeared in his hand.

He was ready to open the treasure chest!

Because of his unlucky hand, Su Xiao did not have any hope of opening the box before the cool down time of the lucky flame finished. The cooling time of Lucky Flame just ended now.

Consuming 500 points of paradise coins, the cover of the lighter of Lucky Flame automatically sprang open, and a small cyan flame appeared.

He ignited the cigarette and took a deep breath. Su Xiao quickly picked up a green treasure chest, and he was ready to try his luck.

The green treasure chest slowly opened, there was no flash, which made Su Xiao relief, he was afraid of running out of his luck in advance.

[You opened the treasure chest (green) and got the following items]

[Get 1000 paradise coins]

[Get 1200 paradise coins]

[Get 700 [paradise coins]

.....

A good sign, Su Xiao grabbed another green treasure chest.

[You opened the treasure chest (green) and got the following items]

[Get 1400 paradise coins]

[Get hard bone boxing gloves]

.....

Su Xiao just glanced at the equipment, it was a boxing glove with green quality.

The lucky flame effect would end in three seconds, Su Xiao grabbed the blue treasure chest that Eren dropped and opened.

The dazzling blue light shined! Su Xiao's depressed mood of opening blue equipment with 31 scores in the Titan world disappeared.

He earned a lot this time, the flash this time was several times more dazzling than the flash of the last blue treasure chest!

Chapter 192: Mikasa'smind.

The blue light gradually receded, the effect of the lucky flame disappeared, there was an extra pendant in Su Xiao's hand.

[Mikasa's mind] (highest grade)

Origin: Attack on Titan

Quality: blue

Category: Pendant (jewelry equipment is a rare item)

Durability: None. (Jewelry equipment has no durability and no need to repair)

Requirement: strength 15 points, agility 10 points, vitality 10 points.

Equipment effect: Asylum (active): Quickly generating an invisible shield to resist attacks. The shield's durability is equivalent to 70% of the holder's maximum Hp, and the shield lasts for 10 seconds.

Tip: It consumes 10% of the mana values to activate asylum (active).

Tip: The asylum (active)'s cool down time is 24 hours.

Rating: 70 (Note: Blue equipment scores from 31 to 70, blue equipment with a score of 70 will be marked with 'Excellent' and attached special attributes.)

Introduction: The last defense of life, it is much more effective than the restoration.

Price: 14800 paradise coins.

.....

Su Xiao looked at a pendant in his hand, the pendant was for a male, looked exquisite, made of rare metal.

He immediately understood the value of this thing. If he had this thing in the Titan world, he would never be injured when he fought against Lycoris radiata.

Although the shield could only last for 10 seconds, it could defend several fatal attacks for him. If the opening time is appropriate, it will be very likely to turn defeat into victory in a tragic battle.

Su Xiao took off [the dead wife's pendant (white)], the strength attribute decreased by 1, compared to the strength +1 attribute of the [dead wife's pendant (white)], [Mikasa's mind] was much stronger.

Su Xiao, flicking the ashes, was in a good mood. He would not open the treasure chest shortly, his luck had been running out.

Looking at the remaining items, Su Xiao was ready to use the Bronze honored medal.

Going to the front of the honored store, only two items left in the honored store could be redeemed.

[Because the hunter only holds the bronze honored medal, the following could be redeemed.]

[Soul crystal (small)] × 1.

Price: A bronze honored medal.

.....

[Honored restoration]

Effect: Restoring 100% life value after use.

Price: A bronze honored medal.

.....

Su Xiao had two bronze honored medal, the first redeemed a bottle of [honored restoration] to saving his life, he had been coveted this thing for a long time.

With one bronze honored medal left, Su Xiao hesitated for a while and finally chose to redeem the soul crystal (small).

He was going to strengthen the Qing Gang Ying, this ability could be deeply developed after strengthening to advanced level.

Consuming a soul crystal (small) and 1000 paradise coins, Qing Gang Ying increased another level.

['Qing Gang Ying' has been upgraded to Lv.4.]

Qing Gang Ying: LV.4 (active skills)

Conditions of use: After opening (Qing Gang Ying), the hunter consumes 3 points of mana per minute, the skill will stop after the mana drop below 1%.

Skill effect: After opening (Qing Gang Ying), each close attack will destroy the enemy's 19 points of mana points and cause the same amount of true damage, the enemy will bear the strong pain by the burning of his mana.

.....

After upgrading Qing Gang Ying, mana consumption had not improved, but the power had improved a bit. Su Xiao clearly felt that the energy of the Qing Gang Ying in his body was more active.

After doing this, Su Xiao began to plan the actions in the future.

First of all, he went to the [trial field] to adapt to the current body, he did not need to summon the mirror, the manual mode's mechanical dolls would be fine.

There were two modes in the trial field, which were auxiliary mode/manual mode.

The auxiliary mode was to summon the image of various strong people, and the manual mode was to summon the bunch of mechanical dolls.

Su Xiao went out and walked towards the trial field quickly.

After operating skillfully, Su Xiao was already in a desert.

[The manual mode will consume 10 paradise coins per minute, yes/no.]

“Pay.”

[The manual mode is on, the mechanical doll will appear after thirty seconds, please be prepared in advance.]

The strong wind blew the yellow sand, surrounding became dim and yellow, and a silver metal skull emerged from the sand.

The mechanical doll came!

Dragon flash appeared in his hands, Su Xiao perceived sharply around.

A mechanical doll suddenly burst out of the sand, Su Xiao turned to a side to cut, the metal-structured mechanical doll was instantly cut off, the broken part was smooth like a mirror.

.....

After an hour,

Su Xiao walked out of the trial field, sometimes he clenched and let go. He had adapted to his current body.

Nowadays, he adapted to the attribute points very fast. The three main attributes were more than 20 points, which gave him a strong sense.

Because of taking off the pendant which added one point of strength, his current strength, agility, and intelligence were 24 points.

Su Xiao looked at the remaining paradise coins, after spending, there were 4,367 paradise coins left.

These paradise coins could not do anything. Fortunately, Su Xiao had some equipment that had not been sold. After selling them, he would profit.

Su Xiao just had a good meal and had enough sleep. He didn't want to sell equipment now. It was not enough to summon the mirror.

At this time, Su Xiao suddenly remembered the arena that Carl mentioned earlier. He also heard that there was such a facility in the reincarnation paradise, but he had never been there.

There is a reason for it. There was no useless facility in the reincarnation paradise. He was going to see it.

Taking out the map of the reincarnation paradise, Su Xiao looked for the location of the arena.

Half an hour later, Su Xiao arrived in front of an ascend building. This building was even more magnificent than the property enhanced hall. From the appearance, it was impossible to see how big the arena was.

There were many contractors in and out of the arena, there were many booths near the entrance.

“The latest ranking changes in the arena.”

“the guide or if you quickly beat the opponents(remote article).”

“Sarcastic posture book.”

“The release of skills and the theory of actual fights.”

After seeing these goods, Su Xiao felt that he learned some knowledge, some of them he did not understand.

Su Xiao walked into the arena, and the sense of transmission appeared. He subconsciously caught the back of his head.

This time was a transmission of super short distance, there was no feeling of being knocked on the back of his head.

[You have entered the arena, please choose the mode.]

[Athletic mode/watch mode.]

Below was a bunch of annotations.

Watch mode: You could watch other contractors to fight, you needed to spend 2 paradise coins per hour, you could choose to watch the match.

The current match: 17,354 sessions.

If you want to watch the top 100 competitors in the arena, you need to spend 10 paradise coins per hour.

If you want to watch the top 10 competitors in the arena, you need to spend 50 paradise coins per hour.

If you want to watch the top 3 competitors in the arena, you need to spend 100 paradise coins per hour.

.....

Athletic mode: This mode was for the hunter to participate in the competition, the reincarnation paradise would rank hunter according to whether the hunter had participated in the competition in the arena.

The athletic mode is divided into [personal fight] and [group fight].

The personal fight was a 1V1 mode, group fight was 10V10 mode, the two ranking mechanisms would be calculated separately.

.....

Su Xiao felt that this arena was very interesting. The death here was the same as in the trial field, people would not really die.

Also, no recovery items could be used in the arena, except for recovery skills.

Su Xiao was interested in this, this place was good for practicing combat skills.

“I choose the athletic mode: personal fight.”

[Drip..., start checking whether the hunter has participated in the competition, the detection is finished, the hunter has never participated in any form of competition.]

[Starting to assign ranks to the hunter, you're now ranked 165,743 (ranking of the first stage). (This ranking had no relationship with the strength of the hunter, it depends on the numbers and the outcome of the competitions that hunter participated in.)]

[Please actively participate in the arena, the top 10 in the arena would get special rewards.]

Chapter 193: Sport

[The hunter had chosen to participate in the athletic mode: personal fight, you would be transferred into the rest room after three seconds,]

Su Xiao appeared in a rest room after his sight became blurred. There were seats, beds and so on in the rest room. The wall in front was a large display screen with his ranking and the contractors whose ranks near him. There were various situations of the game around.

The top positions on the display screen were ten images of people. These images were strange, and it should be disguised, they lined up from top to bottom. These were the top ten in the arena.

in The rest room not only could he rest but also call the workers in the arena if you need.

[Matching the opponent for the hunter..., the match was complete.]

[Because of the first fight, please choose to change your appearance.]

A lot of appearances appeared. Su Xiao even saw the decoration of the predator's outer shell, there was the costume that required payments. He saw the whole set of Ultraman in the inside.

The ordinary contractors would make changes to their faces, they change their face to become very handsome or super ugly to scare people.

Su Xiao decided to cover his face. The arena had audiences. If he does not hide his face, his fighting style will be exposed to the enemy easily.

Su Xiao chose a metal mask that could cover half of his lower face. The metal mask was all deep red, covering the nose and mouth while not being stuffy.

[The hunter had chosen his clothes, start transmitting.]

Su Xiao sight became clear after it blurred, he observed the situation around him.

He was in a circular field, the terrain was not small, about three or four hundred meters, the floor was solid and antiskid metal ground, the edge of the field was filled with energy cover.

The place was surrounded by an auditorium made by steps. The overall shape of the arena was like a puddle. The middle of the flat circular arena was low, and the surrounding auditorium was high.

This was more convenient to watch the competition, the audience's shouting would also encourage the fighters' fighting wills.

As for Su Xiao now he was ranked [165,743], there were only two or three people in the auditorium.

“Peach brother, cheer up.”

A girl looked delicate stood and shouted in the auditorium.

“Peach, kill him.”

“If you win, i will buy you a drink.”

There was no audience, only a few people who were his opponent's cheerleaders team.

Su Xiao's opponent was a boy seventeen or eighteen years old. The teenager dressed like an anime character and held a Colt M1911 gun. He should be the peach.

[Three, two, one, the fight starts.]

“Very fast, I have already won two games, if I win three games incessantly, the ranking will improve a lot.

Peach used his gun, his sight was full of confidence.

“You can just surrender, the guy with the sword, the terrain of 370 meters, you can't close to me.”

After that, peach showed a standard shooting action, but he did not shoot, the teenager loved to show off.

Su Xiao stood in the same place with a metal mask and looked at the opponent with doubts.

Not the opponent was too strong, but the opponent was too weak.

For this level of opponent, he may not even fight with A class ghoul, how could he be arranged to fight with this kind of weak contractor?

“End early to celebrate.”

Peach held the gun with both hands, boom, boom, boom, shot three times.

“Peach, kill him.”

The cheerleaders of peach in the auditorium began cheering for the peach.

Su Xiao perceived the three bullets flying in front of him, he did not even want to escape.

Ding, ding, ding.

Three bullets were smashed, this scene caused the sound of the audiences to stop.

“What a joke!”

Several people in the auditorium were stunned, and their mouths were slightly open.

They were only contractors with Lv.1 to Lv.2, the sword cut off the bullets were too dreamy.

Peach looked at Su Xiao stunned, he subconsciously wanted to fire a few more bullets.

Huh.

A black shadow flashed through peach’s sight, his dynamic vision could not keep up with Su Xiao’s moving speed.

The bright sword light appeared in peach’s sight when peach regained consciousness, he was already in the rest room.

“I lost?”

Peach sat on the ground stunned, this was unbelievable.

.....

Su Xiao smashed peach into light, his first game ended.

“How is this a match?”

Su Xiao was sitting in the rest room.

His ability to fight against contractors was strong, this arena was simply his paradise.

It was still not obvious. When he encountered a powerful contractor, Su Xiao would fight with the person and he could quickly improve his combat skills. This may be the meaning of the arena.

Let the contractors practice combat skills in the situation that they would not risk their lives.

[Personal fight was ended, victory!]

[The rank of the hunter had increased from 165,743 to 154,703 (first stage).]

[Receiving this opponent’s message, yes/no to check.]

Su Xiao was surprised, there were also opponents’ messages. He opened and checked.

‘You must cheat, cheating garbage.’

He scowled, this opponent was a bit odd, he chose to continue matching opponents.

Because his ranking was low, the speed of matching opponents was very fast, it matched to the next opponent in less than ten seconds.

It was still the same venue, but this time the audiences were a little more, there were probably more than a dozen, after all, his ranking was improved.

[Three, two, one, the fight starts.]

Su Xiao's opponent this time was a tank with a shield.

“The man who took the sword, cheer up, I made a bet on you for 50 paradise coins.”

When he heard the shouting from the audiences, Su Xiao was surprised, they surprisingly could bet.

After asking about the reincarnation paradise, Su Xiao was somewhat disappointed. It was indeed possible to bet on the fighters. However, the fighters themselves could not bet on their own games, they could not bet through their companions as well. If they have such serious behaviors, they may even be forcibly executed.

This was a reincarnation paradise to avoid the ‘fake game’ in the arena, so the executed contractors were a lot.

After the game started, the tank in front of Su Xiao chose to shrink into the turtle shell and tried to use the counter-attack to kill the opponent slowly.

Su Xiao's strength was not very matching with his rankings, the contractors he was matched with were all newcomers.

He still used the old skill, he rushed forward at the speed that the person was stunned, and cut the opponent by a sword held with one hand.

One sword broke the shield and killed the enemy to turn into a light particle bursting open.

[Two-game winning streak!]

A line of gold sentence appeared on the Su Xiao's head, everyone in the auditorium was stunned.

“He..won?”

The corner of the mouth of the contractor who bet Su Xiao winning twitched. Su Xiao's body gradually faded and returned to the rest room.

Su Xiao felt that this situation would continue for a while.

[Personal fight was over, victory, two-game winning streak!]

[The ranking of the hunter had increased from 154,703 to 123,703 (first stage).]

[Receiving the opponent's message, yes/no to check.]

Open the message, this time the message was normal.

‘Do you want to join our adventurous group? The treatment is generous...’

This time, the message was drawing, he stared at the ranking. The two-game winning streak raised about the ranking of roughly 30,000.

Su Xiao chose to continue. After a dozen seconds, he appeared to the arena, he roughly glanced at the audiences, probably more than 100 people.

He suspected that most of these audiences were workers, the contractors should be a minority.

This time the opponent was a new sorcerer. When he appeared, he ran to the distance, and the short legs ran very cheerfully.

Su Xiao calmly took out the broken elf and fired a few shots. The sorcerer fell to the ground.

[Three-game winning streak!]

Su Xiao was sent back to the rest room.

In the next ten minutes, Su Xiao rushed and cut with his sword when he met close fighter. The remote fighter, he would fire for a few shots, if that can't kill the enemy, he will rush and cut.

[Four-game winning streak!]

[Five-game winning streak!]

[Six-game winning streak!]

.....

[17-game winning streak! !]

Sitting in the rest room, Su Xiao looked at the current ranking: 13400!

The seventeen-game winning streak changed his ranking from six digits to five digits, but Su Xiao still had no feeling while fighting with the opponent of this ranking.

He was much stronger than his opponents, so the battle was basically no more than ten seconds, most of the time was waiting for a match.

[The match was successful because the hunter had a 17 winning streak, the arena matched the opponents ranked less than 10,000.]

Su Xiao appeared on the arena.

“Come, the red side is a close fighter, the blue side is a fighting sorcerer, this close fighter is unlucky.”

“The guys whose ranking are less than 10,000 are not weak. I feel that this fight will be awesome.”

“Get started, I can't wait.”

There were thousands of people in the auditorium, the atmosphere was abnormally very warm.

Su Xiao's opponent was a sexy sorcerer wearing a long red skirt. The long skirt had a high split, the white thighs showed vaguely. Unlike other weak sorcerers, this was a poisonous girl with some chest. The amount of chest was not much, but the ability to attack was very strong.

“The little brother over there, if you lose, don't say that I am shameless, you may not be able to accept the style of fighting milk.”

“You too.”

Su Xiao stepped on the ground and rushed toward.

Chapter 194

Su Xiao just rushed to the front of the fighting nurse, the blade in his hand had a cold light on it.

The fighting nurse just raised the staff in her hand.

Snigger.

An arm with a staff flew out, there was no blood splashed out under the protection mechanism of the reincarnation paradise.

“Ah?”

The fighting nurse’s face was stunned and looked at the arm.

“Spirit guard!”

A layer of light film emerged around the fighting nurse. The back of the fighting nurse was full of cold sweat. Although she would not die in the arena, the feeling of being aimed by Su Xiao was not good.

Su Xiao’s footsteps stopped urgently and cut with a backhand.

With a crack, the light film around the fighting nurse broke open.

The audience was in an uproar, and many of them stood up. The fight was unexpected. They thought that the two sides would fight hard, but whoever thought it was a unilateral crush.

After breaking the light film, Su Xiao did not cut anymore. He first met the fighting nurse and wanted to know the way of she fought.

Surprisingly, the fighting nurse surprisingly stood in the same place.

“Don’t you continue? I am very curious about your way of fighting.”

Dragon flash cut a sword flower in his hand, the blade made a crisp sound.

“I must not see almanac today, how can I meet you this kind of monster, how can your ranking be around 10,000.”

The fighting nurse frowned.

“Exactly, my ranking is out of 10,000.”

Su Xiao’s answer made the fighting nurse speechless.

“Holy Shield.”

“The protection of strength.”

“The melody of the wind.”

“Rapid march.”

“Magic increased.”

“Magic super increased.”

“Life recovered.”

The fighting nurses used a bunch of skills in succession and then stood there.

“This is my way of fighting. I use various gaining effects to enhance myself and use the deduct effect to weaken the enemy. Now it’s over. Though I will not die in the arena, it hurts.”

Meeting Su Xiao this kind of close fighter made the nurse speechless, her ranking may decline.

“Ok.”

When she just finished, Su Xiao received a hint.

[Your opponent wants to surrender, yes/no accept the surrender.]

He chose to accept, the body of the fighting nurse in front dissipated.

[17 game winning streak!]

A line of golden sentence appeared on the top of Su Xiao, the audience in the auditorium was even less calm.

“The 18-game winning streak, is that a joke?”

“With this kind of power, the 18-game winning streak is not unexpected, but this record is indeed amazing.”

“I want to take a photo.”

In the crowd’s cheering, Su Xiao exited and returned to the rest room.

[Personal right is over, victory, 18-game winning streak!]

[The ranking in the arena of the hunter has increased from 13,400 to 9710 (first stage).]

After 18 consecutive victories, Su Xiao’s ranking began to have leaping growth, and the growth after the ten-game winning streak was even more exaggerated.

Su Xiao did not know when he could keep winning the game incessantly. After all, there were stronger people in the world.

At this point he was still energetic, so continued to match opponents.

[Matching the opponents for the hunter..., the match is completed, because the hunter has 18 consecutive victories, the arena matches you against an opponents ranked less than 6,000.]

After Su Xiao stood on the arena, he immediately heard shouts coming around.

“Miss, kill him.”

“We support you.”

“The guy with the sword, if you dare to hurt miss, we’ll bake you!”

The shouts incessantly made Su Xiao have some doubts and looked at the auditorium. Some audience in the auditorium on his left side picked up the banner.

[Miss never loses!]

Su Xiao was stunned. He felt that he was not on the arena, but on the stage of a certain star. He was like a staff who had entered the venue by mistake, he was being shouted by a group of fans.

Su Xiao looked at the opponent. It was a four-meter-high pink robot. There was a cockpit in the robot’s trunk. Through the glass of the cockpit, a little girl with pigtails could be seen sitting in there and eating a lollipop.

“When will you finish watching? I have changed the exoskeleton and firepower system. I have to grow my ranking, can’t waste time.”

The little girl with pigtails was also the miss in the crowd’s mouth, her voice was enlarged by the device.

”Gundam? No, a large robot that has been transformed.”

Su Xiao was grateful to participate in the arena. He could meet all kinds of enemies here, which would help him gain great benefit in the future when he went to the derivative world.

“Since you don’t want to fight, I’ll do it, but don’t say I didn’t give you a chance.”

Miss just finished her words, the robot raised the arm, and a six-tube Vulcan gun popped up from the robot’s arm.

Bizz, boom, boom, boom, boom, boom...

Strong firepower came, Su Xiao immediately moved.

Although the six-tube Vulcan was similar to Gatling gun, this thing was not a gun, it was a cannon! The US military even loaded this thing into the helicopter which showed its power.

If Su Xiao is shot in front, he will be absolutely unable to bear, it was fortunate that the flying trace of high-explosive bombs from this thing was not fast.

Su Xiao sided, there were explosions coming from the side.

“Not bad, come again.”

Miss was laughing with a lollipop, two small dimples appeared on her face.

The crazy spraying began, the sound of gunshots and explosions continued to sound, but Miss soon found out that no matter how fierce her firepower was, there was no way to stop the enemy from approaching.

Miss in the cockpit pouted, the two white hands were as fast as lightning to press buttons, the slender fingers even appeared afterimages.

Missy was busy here with joy, but Su Xiao was calm, he was close to the robot in a sudden.

When the robot discovered that Su Xiao was close, the four-meter-high robot quickly retreated. Although the speed was not fast, it was not slow.

Su Xiao caught up with the robot in two steps and cut the sword.

Ding.

A mechanical leg flashed the electric sparks were cut off, and the robot fell to the side.

It was obviously meaningless to continue to attack the robot. Su Xiao jumped up and held the Dragon flash by a backhand to cut into the cockpit.

Crack.

This sword directly pierced the armored glass of the cockpit, the handle entered. Su Xiao just wanted to see whether he hit the enemy, an impact wave rushed out.

Boom.

Su Xiao was defeated it in two steps, the robot took the opportunity to climb up.

Miss in the cockpit was a bit embarrassed, the lollipop in her mouth was missing, and pigtailed on her head were stabbed to snap. The young lady who was spoiled from childhood was never in this dangerous situation.

“Go to die asshole, eat my missile.”

Miss bit her neat white teeth tightly and used the last way.

More than a dozen small missiles were fired, the sound rend the air came, the arena was instantly submerged by the fire.

When the fire retreated, the robot had disappeared, leaving only Su Xiao.

“The body is really weak.”

Su Xiao waved a few broken hairs on his left hand, the short hair gradually turned into light particles.

Su Xiao’s figure had disappeared before the fans had reacted in the auditorium.

“Does Missy lose?”

“It seems to be.”

At this time, these fans no longer asked to kill Su Xiao, they just talked about it.

In the rest room, Miss was sitting on the ground with anger.

“Damn! Bastard, he surprisingly pulled my hair and let me out of the cockpit, I don’t accept it, I don’t accept it, how can he not die under the firepower.”

The chest of Miss rose and fell strongly, but she still lost. What she didn’t know was that Su Xiao did not use his real power.

.....

At this time, Su Xiao was checking his record, he did not make a full effort. Otherwise, the opponent did not have the opportunity to struggle for such a long time, he could not understand the type of that enemy's fighting style.

[Personal fight is over, victory, 19 game winning streak!]

[The arena ranking of the hunter has increased from 9710 to 6701 (first stage).]

[Receiving this opponent's message, yes/no to check.]

Su Xiao hadn't received the message from the opponent for a long time, so he opened it.

‘You cheat, you cheat, you cheat....’

These three words appeared in the full screen, Su Xiao shook his head, how did she survive in the reincarnation paradise with this kind of girl characteristic, and could still grow to the present level.

[Hint: 5304 fighter send you a challenge.]

Chapter 195:

Su Xiao had some doubts and immediately thought of who challenged him.

He looked at the rankings of the challenged, which was a lot better than him.

“Accept the challenge.”

The arena was still the original scene, his opponent was still the robot, this time the audience did not scream.

“I don't believe I can't win.”

Miss's angry voice came.

Su Xiao's muscles slightly tightened, the dragon flash appeared in his hands.

Shh.

He used full speed this time. He rushed to the front of the robot in a few steps.

Dragon flash in his hand flipped, from the originally held sword to the backhand, the tip of the sword flashed the cold light.

Crack.

The armored glass of the cockpit was directly pierced, and the robot gradually disappeared.

Everyone in the auditorium was stunned.

“Mi... Miss is killed in seconds?”

“It seems that Miss encounters a cruel person.”

“This is the fastest athletic battle I have ever seen.”

Su Xiao returned to the restroom, he felt a little tired, he was not going to continue today.

[Personal fight is over, victory, twenty-game winning streak!]

[The arena ranking of the hunter has increased from 6,701 to 2,600 (first stage).]

[Receiving this opponent's message, yes/no to check.]

After the 20-game winning streak, Su Xiao's ranking showed a growth like the jet, his ranking directly entered into the 3,000.

There was still a message this time, Su Xiao opened his hand.

‘Owoo, my ranking falls out of the five thousand, you must be sent by the angel sister to punish me, ask for teaching. ’

Su Xiao smiled and didn't reply to here, it seemed that she just had a spoiled appearance, but not stupid.

Fighting in the arena would consume physical strength, he was now slightly tired.

After leaving the arena, Su Xiao went straight to the trading market, he still had some equipment to sell.

In the trading market, he found the previous booth, there was no one, after paying 10 paradise coins, he got the right to use the booth for three hours.

After sitting behind the booth, Su Xiao began to sort out the equipment to be sold and priced.

Love shank (Green weapon) was priced at 4000 paradise coins.

Iron bone boxing gloves (Green weapon) was priced at 4,600 paradise coins.

The love of the dead wife (white jewelry) was priced at 2,500 paradise coins.

He hesitated for a moment, Su Xiao took the Knight king (honor) 1/8, the price was 100000 paradise coins.

That was right, it was 100,000. The property of this thing was not good, but it was a set.

The single attribute of the set belonged to the person who could not afford it, and the person who could afford it but did not want to buy, only one person would have the intention to buy. Su Xiao was waiting for that kind of person, just trying his luck.

Of course, the high price of 100,000 paradise coins was impossible, but it could still be sold by 40,000 or 50,000 paradise coins.

If it sells as a single attribute, the Knight king (honor) will be up to 3,000, which is also because it's blue equipment.

After pricing was completed, the booth was named 'Boutique booth'. Su Xiao sat behind the booth, he took out the tablet that Xia gave him and started playing puzzle solving games.

In addition to the Knight king (honor), the price of other equipment was very sincere.

From time to time, there were contractors to bargain, Su Xiao just responded with a few sounds casually.

It didn't take long, [the love of the dead wife] and [love shrank] were sold, he obtained 6500 paradise coins.

Su Xiao was not in a hurry, so he was 'fishing' after the booth, after the booth time arrived he then continued for three hours.

He hadn't been so leisure for a long time, his tight mind had gradually relaxed.

"Sister, I find equipment that increases the recovery speed of hp, but it is a set, it is very troublesome."

The crisp voice came, and Su Xiao looked up.

Knight king saber?

The appearance and dress were very similar to Saber, blond hair, and green eyes, but the appearance was slightly different, there was no such saber's grace.

Su Xiao's eyes widen , and he might get the fish, which took 7 hours.

"How much?"

A Shisu came in slowly, she frowned after seeing the price of the Knight King (honor).

"Whatever is treated as a treasure, I'm leaving."

Shisu turned and wanted to leave.

"Don't go, sister, he obviously doesn't know the price. I will talk to him."

The girl who looked like a Sarber lightly coughed.

"Hello, can this equipment be cheaper, even if the set is not as valuable as you think."

The girl's voice was soft, and her face was full of smiles.

"Well, is it?"

Su Xiao paused the puzzle solving the game and turned his mind quickly.

The girl's acting in front was a bit poor, the acting of Shisu was much better.

"How about the 5000 paradise coins? Although it is blue equipment, we only need it to speed up the restoration of hp."

The girl started to perform.

"Well, is it?"

Su Xiao looked a little impatient, the expression was if you do not buy, do not hinder him from playing games.

"How is it? 5000 paradise coins are not too small, right?"

"Well, is it?"

The same answer three times made the girl unable to hold the smile on her face.

“I say... you only can say, ‘Well, is it’ these three words?”

“Of course not.”

This time was four words, the girl was angry in her mind, but she still had to keep a smile on her face.

Su Xiao had already determined that the girl must have other parts of the Knight King, certainly!

The reason why he used this attitude was a test to know whether the person was eager to get this equipment.

If the person only wants a single attribute for this piece of equipment, the person will never endure his current attitude.

Shisu looked at the negotiation between Su Xiao and the girl, she was nervous in her mind and knew that she might pay more than the original price today, but Shisu’s emotion was not revealed on her face.

“Hello, this friend, I am Jasmine from Lycoris radiata adventurous group, and I am responsible for logistic supply.”

After hearing Shisu’s introduction, Su Xiao was very surprised, but he looked as usual.

The person should not know who he is. It seemed that Lycoris radiata did not get his photo.

Only the contractor of Lycoris radiata knew his appearance, this one should be the worker of Lycoris radiata.

There were so many contractors in the reincarnation paradise, he met the member of Lycoris radiata for the third time, what a coincidence.

“The contractor of Lycoris radiata?”

“No, I am a worker, how can logistics supply be a contractor.”

There was a smile in Jasmine’s eyes. She was worried that the person had never heard of Lycoris radiata adventurous group. Now things were much easier to deal with.

“Then?”

Su Xiao looked at Jasmine.

“A straightforward person does not resort to insinuations, we need this suit. This is a member of the God King adventurous group, is my good friend.”

Jasmine successively said the name of the adventurous group and wanted to use the reputation of the adventurous group to lower the price. The general contractors would not offend the adventurous group so the bargaining would be much easier.

“One price....”

Su Xiao looked at the two, the two eyes showed expectation.

“Fifty thousand paradise coins! It can’t be lower, I will continue to stay here for a half hour, if you can find other same suits, then go to other booths to buy.”

Su Xiao no longer spoke. His original price was about 40,000 in his estimate, and her identity made him not lower prices.

“This is looting and burning houses...this is not good, right?”

Jasmine’s voice was a bit cold, the girl’s face on the side was not very good.

“Did I force you to buy?”

Su Xiao did not care about jasmine’s threatening tone.

At the moment, Jasmine was regret in her mind. When she didn’t pay attention, the girl asked for the price first. If it’s she, she has many ways to fool the man in front.

“Up to 30,000 paradise coins, we can’t accept more.”

Su Xiao continued to play the puzzle solving the game. Now it was a competition of the patients. The eight-piece suit had a small chance of appearing in a single piece.

In this way, the two sides deadlocked for ten minutes.

“40,000, this is the highest price I can give, otherwise forget it.”

The girl spoke, and she was the real buyer.

Su Xiao began to close the booth.

“Wait.”

Jasmine’s chest rose and fell strongly, she whispered something to the girl’s ear.

“Fifty thousand, you win today.”

The girl made a request to trade, Su Xiao accepted, after paying the Knight king (honor), he got the 50,000 paradise coins.

This is the windfall of flying, he did not expect this thing could be sold.

“Today’s business, Lycoris radiata, and Gold King will remember.”

Shisu Jasmine was very unhappy about Su Xiao’s behavior of looting the burning house. Looking at Su Xiao coldly, she seemed to want to remember Su Xiao’s appearance.

Just as Jasmine and the girl turned and left, Su Xiao spoke.

“Go back and tell your head Icy Lunar, the next time if I meet her in the derivative world, that will be the time for her to die, she escaped in the Titan world, it will never happen next time.”

The jasmine which was back to Su Xiao, her body suddenly became stiff, a cold air rose from the feet. She seemed to know who Su Xiao was.

“You... you are the man with the sword, Byakuya.”

Jasmine turned to look at Su Xiao stiffly, the cold and anger on her face had long since disappeared.

Chapter 196

Three hours later, Su Xiao left the booth, he had sold the equipment on the booth.

Selling the Knight king was completely unexpected, Su Xiao had prepared to accept that the thing could not be sold in several derivative worlds.

After selling the equipment, Su Xiao had a huge amount of 65,357 paradise coins.

These paradise coins looked like a lot, but they were not enough, he needed a lot more.

Su Xiao began to find something in the trading market, he wanted to buy a sword weapon with blue quality.

Blue quality weapons were already rare, not to mention the certain type.

After shopping around in the trading market, Su Xiao sighed, not to mention blue weapons, even materials or items with blue-quality were rare.

“Should I go find those guys?”

Su Xiao was worried. He had the means to buy sword weapon with blue quality, but he had to pay a higher price.

After wandering in the trading market, Su Xiao gave up, unless he was lucky. Otherwise, he could not buy a sword with blue quality here.

Taking out an old-fashioned mobile phone in the storage space, Su Xiao did not hesitate but ring directly.

Beep, beep...

“Here is the black sails chamber of commerce. Everything that customer wants is here.”

The low male voice came from the phone, Su Xiao directly said what he needed.

“A sword weapon with blue quality.”

“What rates are required?”

“Above 50.”

“Wait for a while.”

Su Xiao lit a cigarette and waited silently.

“We have in stock, when will you need?”

“Now.”

“Ok, wait in the booth No.666 in the trading market, we will arrive within five minutes.”

The phone hung up, Su Xiao walked to booth No. 666, he was ready to pay a high price.

The black sail chamber of commerce was like this. You could find them when you needed any equipment, but the price was a bit high.

Less than five minutes later, a figure with a black hood came in a hurry.

”Are you a guest on the phone?”

The black merchant dressed carefully and even used a variable damper.

“It’s me, take out the thing to see.”

The black merchant nodded and took out a long knife in the scabbard. The length of the long sword was about one meter. The scabbard and the handle were gorgeous.

Su Xiao took over the long sword, the attributes of the long sword appeared.

TC·Jack

Origin: Reincarnation paradise, sword store.

Quality: blue

Category: Weapons

Durability: 56/56

Attack power: 12 to 39

Equipment requirement: 15 points of strength, 20 points of agility

Equipment effect: blood sacrifice rite (passive), after injuring the enemy, a bleeding effect will be applied, the bleeding effect lasts 4 seconds.

Tip: The bleeding effect could be superimposed.

Tip: Blood sacrifice rite (passive) is not valid for machines, undead people, etc.

Rating: 57 (Note: Blue equipment score is between 31 to 70.)

Introduction: What a beautiful scene of blood splashing.

Price: 11400 paradise coins

.....

Su Xiao mainly looked at two points, the first was the score, the second was the attached effect of the equipment.

From these two points, this sword was good, Su Xiao was ready to pay a high price, and sure enough, what went around came around.

“Bid it.”

The black merchant did not immediately offer the price.

“Mr. Byakuya, I heard that the Adventurous Phantom group has sent you an invitation?”

The black merchant's question made Su Xiao somewhat surprised, the person actually recognized him.

"What?"

"Did Mr. Byakuya join?"

"didn't decide yet."

Su Xiao did not give a clear answer.

"Things are like this, Mr. Byakuya. For the members of the Phantom adventurous group, our black sail chamber of commerce recently sold equipment at the original price."

Su Xiao was stunned, when were these black merchants so kind?

"Oh? Can you tell me why?"

"Cough, I'm afraid Mr. Byakuya will laugh, our black sail chamber of commerce was basically not afraid of more than 90% of the adventurous groups in the first stage, 10% of which were like the Phantom adventurous group with perverts and madmen, or those mad believers of the Emperor."

The black merchant's words made Su Xiao quite surprised. He didn't know that Phantom adventurous group was so famous.

But this was also normal, the Phantom adventurous group only invited the strong people to join, a group of people who were not bounded and fought alone, it was not strange that they did anything in the derivative world.

"Mr. Byakuya, how do you see this, this weapon sells 35,000 paradise coins to you. If you join the Phantom adventurous group in the future, please help us to talk about it, let 'Carl' and 'cowboy with revolver' don't target us."

The attitude of the black merchant was very low.

"Ok."

Su Xiao certainly accepted this kind of good thing. Whether he joined Phantom adventurous group or not was unknown.

The transaction was unexpectedly smooth. In Su Xiao's opinion, this black sword merchant would sell for at least 40,000 to 50,000 paradise coins. He did not expect to buy it for more than 30,000.

Su Xiao, who was in a good mood, returned to the exclusive space. He was ready to 'feed' a foodie.

"I will be eaten by you to bankrupt one day."

Using the skill of the Supreme Edge Blade, a group of iron black light appeared in Su Xiao's hand, the iron black light stirred with the swirled shape.

The iron black light was close to the long knife with blue quality, the iron black light was like to be alive to wrap the long knife with blue quality inside.

“Crack, crack, crack.”

The long knife with blue quality was wrapped in iron black light and made rubbing sounds, the long sword with blue quality was being crushed.

After tens of seconds, a hint of light blue crystal floated out of the light and gradually flew to the dragon flash.

Dragon flash directly absorbed those crystal fragments, the surface emitted a cold light, the blue light flashed through the blade were deeper.

The 35,000 paradise coins disappeared like this, the hint of the reincarnation paradise appeared.

[Supreme Edge Blade Effect 2 triggered, please chooses to retain the attached ability.]

[Rc cell rhythm (passive) / blood sacrifice site (passive).]

Su Xiao hesitated, Rc cell rhythm (passive) was to increase physical strength, while blood sacrifice site (passive) was to enhance the bleeding effect.

Su Xiao hesitated for a long time, he did not choose to replace, he will replace it before getting [Mikasa's minds], but now, the physical attributes were also valuable.

Su Xiao checked dragon flash's properties.

Dragon flash(edge blade value 48%)

Origin: the shadow of the law

Quality: blue

Durability: 67/67 (improve 7 points)

Attack power: 20 to 48 (improve between 3 to 8 points)

Equipment needs inheritor of the shadow of the law.

Rating: 60 (improve 8 points)

Supreme Edge Blade Effect 1: Sharpness +4

Supreme Front Blade Effect 2: Rc cell rhythm (passive): physical strength +2. (Attached attributes come from 'Quinque unnamed').

Introduction: Lost, meet, fight, reborn, grow.

Price: Unable to trade.

.....

Dragon flash's various attributes improved, the progress of this extent was not worth 35,000 paradise coins, but this was an investment.

If Su Xiao has equipment that exceeds the blue quality, the first one may be dragon flash.

At most, he needed two weapons of blue quality with a score of 50 or more. The edge blade value of the dragon flash would reach to the limit, dragon flash would not be comparable from today.

Su Xiao had about 30,000 paradise coins left. He pondered for a while, he didn't choose to go to the trial field, but went out and walked in a direction he had never been to.

After understanding the function of the arena, Su Xiao also cared about other facilities in the reincarnation paradise. He was going to go to a place he had never been to.

After the 20 minutes later, Su Xiao arrived in front of a building, the buildings in the reincarnation paradise were generally magnificent.

“Aaaaa.”

Su Xiao heard a heart-wrenching scream from the building in the far distance.

“I'm gonna slam you.”

Boom, boom...

Su Xiao felt that the building he was going to enter was very unfriendly. He saw lines of messages in front of the building.

‘Strengthening will destroy whole life, be cautious to entry.’

‘When you entered the strengthened hall, the equipment would become a passerby.’

‘Everyone, don't stop me, I am going to +7 today.’

Yes, Su Xiao came to the equipment strengthened hall.

Chapter 197

Su Xiao had never been here, but he had some understanding of the equipment strengthened hall.

In this case, the equipment could be strengthened, but the cost of enhancement was high. In addition to the equipment used by the contractor, the other equipment would not be sold after strengthening.

Entering the equipment strengthened hall, it was an empty hall with an area of several thousand square meters. The hall was magnificent and bright. There were precision machines placed next to the wall. These machines were inserted in the wall.

There were a lot of contractors in the equipment strengthened hall. Most of them stared at the machine in front. They looked nervous, and their foreheads were full of sweat.

Su Xiao went to a machine, the appearance of this thing was similar to a vending machine that was several times larger, but it was much more precise, there was no button, the control board was a monitor.

[Welcome to the No. 1876 equipment enhancing machine.]

[Start checking the enhancing record, the strengthened record is empty]

[Start to explain the related information of equipment enhancement.]

[Strengthening equipment is an increase in equipment, the improving effect is determined according to the effect of the equipment itself.]

.....

After Su Xiao read a bunch of equipment enhancement instructions, he had a preliminary understanding of enhanced equipment.

The so-called enhanced equipment was to deepen the equipment and further strengthened it on the origin basis.

If the weapon is strengthened, the attack power will be increased, if the shield is strengthened, the defense will be enhanced.

Su Xiao put his hand on the monitor, and the equipment strengthened machine reacted.

[Remaining 30357 paradise coins, please place equipment that needs to be strengthened.]

Shh, steam sprayed on both sides of the equipment reinforced machine, and a heavy metal tray appeared.

Su Xiao pondered for a few seconds, he put the broken elf on the metal tray in front, the metal tray shrank into the equipment reinforced machine.

[Detecting equipment..., the detection is completed, the fee of each reinforcement cost 1200 paradise coins.]

The corner of Su Xiao's eyes twitched and thought it was so expensive in mind.

Taking the broken elf out, Su Xiao put dragon flash into it.

[Detecting equipment..., the detection is completed, the fee of each reinforcement cost 3000 paradise coins.]

Su Xiao understood what the messages were at the door at this moment, but since he had already come, he needed to try what he would get after strengthening, if there was no benefit, there would no contractors went after another.

“Choose to reinforce.”

[Enhancement start, please wait for five minutes,]

Boom, boom...

The equipment enhanced machine worked, the internal sound was amazing. It seemed that it was carrying out cumbersome operations, he could still hear the sound of current from time to time.

Five minutes passed soon.

Shhhhh.

Steam appeared around the equipment enhanced machine, the metal tray slowly came out.

[Dragon flash +1 succeed]

Su Xiao picked up the dragon flash. He noticed that the blue light flashed by the edge was different from before, obviously deeper than before.

Dragon flash +1 (edge blade value 48%)

Attack power: 22 to 51 (improve 2 to 3)

.....

The attack power of the dragon flash had improved a bit. Su Xiao held dragon flash and found something wrong. The dragon flash was definitely not as simple as improving the attack power.

He tried to cut a knife, Su Xiao frowned and put the dragon flash into the metal tray again.

[Enhanced fee needs 3,000 paradise coins per time, yes/no to strengthen.]

Su Xiao chose yes, equipment enhanced machine operated and finished it in five minutes.

[Dragon flash +2 succeed]

Su Xiao did not take out the dragon flash and chose to continue to strengthen because he found something very interesting.

[Dragon flash +3 succeed]

[Dragon flash +4 succeed]

[Dragon flash +5 failed, it dropped to +3.]

Su Xiao was hurt, but he still chose to continue.

[Dragon flash +4 succeed]

[Dragon flash +5 succeed!]

Su Xiao chooses to stop after dragon flash enhanced to + 5 if it fails after + 5, then the previous enhancement will be in vain, the dragon flash would directly turn back to +0.

Shhh.

The metal tray popped up, the dragon flash was placed on top. A deep blue light flashed through the edge of the dragon flash. The light blue light that flashed from time to time was turned dark blue.

Su Xiao picked up the dragon flash to view the properties.

Dragon flash +5 (edge blade value 48%)

Origin: the shadow of the law

Quality: blue

Durability: 67/67

Attack power: 30 to 63 (improve 8 to 12)

Equipment needs the inheritor of the shadow of the law.

Rating: 60

Supreme Edge Blade Effect 1: Sharpness +4

Supreme Edge Blade Effect 2: Rc cell rhythm (passive): physical strength +3. (Strengthen 1 point)
+5 attached effect: increasing the ability to penetrate.

Introduction: Lost, meet, fight, reborn, grow.

Price: Unable to trade.

.....

Su Xiao touched the edge of the dragon flash with his finger, a blood mark appeared after he only slightly touched it.

Dragon flash which had been white weapon became a powerful weapon by him. The current attribute of dragon flash was more than most blue weapons.

Su Xiao's way of creating a dragon flash was to enhance the sharpness of the sword.

Su Xiao did not need the dragon flash to have too many abilities, but it being sharp would be enough.

Now Su Xiao was not sure how sharp the dragon flash was, let the enemy taste it.

Su Xiao was so happy that dragon flash became stronger, but he could not be happy after seeing the remaining paradise coins.

Did not know when his park coins had changed from 30,357 coins to 9357 coins.

The cost made Su Xiao stunned. If dragon flash failed once again, he would go bankrupt.

But Su Xiao did not intend to stop here, but taking out the Lucky Flame, he was going to strengthen this lighter.

[Detecting equipment..., the detection is completed, the fee of each reinforcement cost 900 paradise coins.]

Lucky Flame was not a weapon, so the cost of strengthening was not too high.

Su Xiao chose to strengthen.

Five minutes later.

[Lucky Flame +1 succeed.]

Su Xiao chose to continue.

[Lucky Flame + 2 failed, strengthen level cleared.]

Su Xiao was stunned, strengthen +2 actually failed? This was somewhat inconsistent with the previous introduction. It said that the enhancement +2 had a 97% chance of success rate.

Continue to enhance. Otherwise, some properties of Lucky Flame were too bad, such as the cooling time was too long.

[Lucky Flame +1 succeed.]

[Lucky Flame + 2 succeed.]

[Lucky Flame +3 succeed.]

[Lucky Flame + 4 succeed.]

[Lucky Flame +5 succeed.]

[Lucky Flame +6 succeed!]

Su Xiao lit a cigarette, did not know when a large group of people gathered behind him.

“Brother, +6 will be fine. If +7 failed, it would be cleared directly. +8 failed, the equipment will even be damaged.”

“Continue, I haven’t seen someone +7 for a long time.”

“Six consecutive successes, what kind of lucky guy.”

Everyone was watching Su Xiao’s next action, the property would change dramatically after the equipment strengthened +7.

Su Xiao looked at the remaining park coins, there were 1257 park coins, which was only enough to strengthen once. He also looked at the recovery products in the storage space. In the titan world, he did not use recovery products. The next derivative world did not need to buy recovery products.

[Yes / No continue to strengthen the Lucky Flame.]

Su Xiao took a deep breath and held his hand in the air.

Continue!

Boom, equipment strengthened machine was operating, dozens of people had gathered behind Su Xiao.

Su Xiao was also nervous at this time. These park coins were exchanged by his life.

Some evil guys behind him began to murmur and wanted him to fail.

A long wait of five minutes began. Strengthening the equipment could not be done in the blink. This was a process of equipment enhancement. The greater the range the enhancement, the higher the chance of failure.

Shh.

A stream rushed out of the machine.

[Lucky Flame +7 succeed!]

The result made dozens of people behind Su Xiao were disappointed.

The metal tray popped up, the lucky flame flashing green light appeared. Although the appearance did not change, the overall feeling was quite different. Su Xiao picked up the lucky flame to view the attributes.

Lucky Flame +7 (boutique)

Origin: Tokyo Ghoul

Quality: Green

Category: Jewelry (Lighter)

Durability: 37/40

Equipment needs: Everyone can wear.

Equipment effect: Lucky Flame (active): After using the lucky flame to ignite the cigarette, it will temporarily add 2 points of luck attribute (the reinforcement has increased by 1 point), the effect lasts 15 seconds (the time has increased by 5 seconds).

Tip: Lucky Flame cooldown is 6 natural days. (time has reduced 4 natural days)

Tip: Using Lucky Flame, you will consume 600 paradise coins. (fee + 100 paradise coins)

Rating: 30+ (green equipment limit)

Introduction: It is beyond the scope of green equipment

Price: 5100 paradise coins.

Chapter 198

Two days later.

The arena, in a stone forest.

Su Xiao squatted on a stone pillar and looked like an eagle glance around.

“East side? You’re good at running.”

Jumping from the stone pillars, Su Xiao walked through the stone forest with complex terrain, he escaped stone pillars from time to time.

The figure, who ran quickly, suddenly stopped, the opponent was ten meters in front of him.

A sorcerer with a broken arm went out behind the stone pillar, the helplessness in his eyes.

“You win.”

The bearded sorcerer surrendered.

“How did you find my location?”

“Intuition.”

Hearing Su Xiao’s answer, the sorcerer was speechless and shook his head and chose to surrender.

[Personal fight is over, fifty-seven-game winning streak!]

[The arena ranking of the hunter has increased from 246 to 163 (first stage).]

Su Xiao closed the record and was ready to continue the next game.

[The time of the hunter to stay reincarnation paradise reached the limit.]

[Going back to the real world, please remember the regulations of reincarnation paradise.]

[You can’t reveal anything in the real world in any kind of forms. Otherwise, you will be warned, if the warning is invalid, you’ll be executed forcibly.]

.....

[Transmission begins, location: the real world.]

Su Xiao was a little surprised. He didn't expect the time to pass so fast. He stayed in the arena for the past few days.

The feeling of transmission appeared, Su Xiao raised his hand subconsciously.

Boom.

He did not know how long it had lasted, Su Xiao appeared on the floor of the living room.

He checked the traps placed in the doors and windows, there were no abnormalities.

These traps were just in case. The actual use was not big. After Su Xiao entered the reincarnation paradise, the people in the real world could not go to the reincarnation paradise to find him. This was just to prevent him from being attacked when he returned from the reincarnation paradise.

Su Xiao sat on the sofa in the living room and turned on the laptop and began searching for information.

“Not here... the climate is too bad, it doesn't work either.”

After looking for a lot of information, Su Xiao began to pack his luggage. His luggage was very simple, a sword, a computer, and some clothes.

Su Xiao left the rental house without hesitations, this was just his temporary shelter.

In the old corridor, Su Xiao suddenly stopped after a few steps.

Crack.

The door opposite his rental room opened, a sunglasses man walked out, but after seeing Su Xiao, the sunglasses men also stopped.

Su Xiao felt sharp that this guy was not an ordinary person. There was a smell of gunpowder on the person's body, which appeared when people contacted with firearms and bullets often.

Su Xiao just looked at the person and continued to go downstairs. The sunglasses man stood in the same place. Su Xiao completely disappeared. The sunglass man closed the security door with a boom and leaned against the security door.

At this point, the sunglass man's forehead was full of cold sweat, the sight when Su Xiao turned made him feel like being stared at by a beast.

On the bustling streets, Su Xiao eyes glanced around subconsciously.

Walking into a remote alley, Su Xiao took out the phone and dialed.

“Who is it?”

A slightly hoarse voice came from the phone.

“I have business with you?”

“What?”

The person on the phone was full of doubts.

“I want some ID papers?”

“Ah, it turned out to be about this, my ‘Umbrella’ fell last month, I don’t do that kind of work anymore.”

Su Xiao frowned, hung up the phone, and dialed another number.

“Can I get some ID papers and the like?”

“No.”

The phone was hung up, Su Xiao was a little surprised, is this kind of business so hard to do recently?

He tried to dial the last call.

“Hello?”

A calm voice came from the phone.

“Can you make help me get some ID papers?”

“What type?”

“Passports or Canada Permanent Resident Card.”

“Passport for 3 million, Canada Permanent Resident Card for 9 million, you need to have the legal status of the country, you need to have more than 20 million assets to apply for Canada Permanent Resident Card, if you agree, we can talk in person.”

“Ok, location.”

After the person said the address, Su Xiao hung up the phone. Of course, he was not going to make a fake certificate. The price of the fake certificate would not be so exaggerated. He was going to get a legal identity.

The so-called money could make people do anything, as long as the amount of the money was enough, most of the things could be done.

The country he wanted to go was not the kind of country that was difficult to immigrate. As long as he was willing to spend money, there was no problem, not to mention that he still had the legal status of his country: Su Xiao smiled.

Su Xiao was preparing to leave the country for a while. Although he did not really want to go abroad, he was wanted by the police.

In a modern society full of monitoring equipment, the police were not easy to get rid of, it was not impossible for the police to find him.

After all, he sneaked into the police station before, he still had to be cautious.

Now Su Xiao was going to take the high-speed train to another city to meet with the person who will make the certificate. Those people did not believe that the transfer money or postal mail, he must pay in person.

This was a very wise choice, the transfer would leave traces, but the cash would not, those people did the business to crush the brains.

Half an hour later, Su Xiao came to a high-speed train station.

“Turn on the function of temporary savings.”

After Su Xiao whispered, the long sword wrapped in the knife bag in his hand disappeared. This was a function of the reincarnation paradise. The items in the real world could be temporarily saved into the savings space by costing 100 paradise coins.

Although this function was convenient, it limited a lot, the weight and length of the stored items were required, and whether it was high explosives and radiation.

The swords were all stored in the edge of the requirement, and he did not even think to put firearms in.

Spending 100 paradise coins did not have the convenience permanently, the time limit was seven days.

Su Xiao took some clothes and the computer to the security check, the people around him moved. After successfully passing the security check, he entered the ground transportation.

Wanting to take a sword to take the high-speed train was simply ridiculous, he used this ability to carry this sword that had been passed for generations.

Sitting in the waiting room, after a while, Su Xiao felt something wrong, there were too few people around.

He glanced at the time, 9:05 am, more people should be present at this time.

Su Xiao got up and walked quickly out of the waiting room.

A group of men with suits gathered around, Su Xiao knew that his identity was exposed. He had prepared.

It was not clear whether their identities were the murderers or the contractors.

Crimson appeared in his hand. This was the name of his family's long sword. This sword was built by a famous craftsman.

Su Xiao calmly untied sword bag of crimson and threw the sword bag on the ground. Crimson appeared.

Crack.

The blade made a crisp sound, the sword in Su Xiao's hand shined cold light at this time. If these people are malign, it will kill them.

Su Xiao's moves grabbed the passengers' attention in the waiting room. These were ordinary people. After seeing Su Xiao hold the long sword, they felt their calves were shaking.

Hundreds of suit men around stopped, several of them began to whisper.

“Head, this guy is very difficult to deal with, he is definitely a powerful person in that place, what should we do?”

A strong man nodded and said:

“Don’t worry, we are not coming to fight with him. Talk to him politely, I may not be able to fight with him. You should be polite while talking.”

“Head, I have period today, I’ll go now.”

A girl seemed to want to run.

The corner of the mouth of the strong man twitched.

“Little leaf, if you dare to run, the welfare of this month will be gone.”

Little leaf sighed.

“We agree in advance, I am only responsible for supporting the scene. After the guy takes out the sword, his actions make my flesh creep.”

The strong man nodded.

“To sparse the people.”

The strong man slowly approached Su Xiao.

“Mr. Su, I have no bad intentions. I am talking to you on behalf of the ‘Cleaning the unstable factors planning bureau’, we are the same people, all from there.”

Chapter 199

The people in the waiting room were gradually diffused, Su Xiao, and the strong men confronted each other.

”“Cleaning the unstable factors planning bureau’? I haven’t heard of it.”

Su Xiao felt that these people had no bad intentions, if they come to kill him, it will be impossible for him not to perceive it.

“Cough, the name is a bit long, we generally call ourselves scavengers, a straightforward person does not resort to insinuations, my name is Wei Dong, I’m mainly responsible for negotiating or fighting with people with the same genre.”

Wei Dong took out the documents directly. After seeing the documents, Su Xiao’s eyes slightly closed. If the documents are true, the person works for the government.

Looking at the situations around, the suit men did not cause a stir when they evacuated people, the people at the station did not show up, the police did not move as well. It seemed that the person was likely to work for the government.

Su Xiao had ‘come back to life’ which was not difficult to judge his contractor’s identity.

And there were so many people in the reincarnation paradise, the country should know about it.

With the existence of a reincarnation paradise, the real world was still so peaceful, indicating that there were secrets in it. After seeing these people in front, Su Xiao understood what was going on. These should be contractors who were hired by the government.

Su Xiao was not clear how to operate concretely, there were two choices for him, fighting or talking.

If he chooses to fight, he'll be wanted all over the country, he still had to go abroad.

"Tell me, why did you come."

Wei Dong smiled as long as they could talk.

"This is the case. For us, the country initially ruled out this kind of people like us, after all, kinds of things happened, and we've been through many negotiations, the 'Cleaning the unstable factors planning bureau' appears.

It was obviously unwise to keep fighting with the people who had been trained to fight, and we could hide in ordinary people, and very difficult to find.

You can see the documents here, as long as you sign it, your previous behavior will be forgiven, as long as you do not do unusual moves in the future, no one will interfere in your normal life. Otherwise, scavengers will keep disturbing you."

After that, Wei Dong through a pile of files, Su Xiao checked it, the contents of the files were acceptable.

The rough meaning was not killing people, not causing social unrest, not raising funds illegally (except for normal means), not making a gang.

These regulations had no restrictions on Su Xiao. In the real world, he belonged to the kind of person that he will not attack others if people don't attack him initially. Although he was powerful, he would not kill people on the street like a madman.

Although Su Xiao needed his revenge, his current strength was not enough, not to mention his enemies were not in the country, the one he killed last time was the last he could find.

He would sign the document. First, other things could be dealt with later, this was not a contract from the reincarnation paradise.

"Give me the pen."

Wei Dong looked happy and threw a pen to Su Xiao. After signing, Su Xiao threw the files to him.

"Mr. Su, are you interested in joining us?"

"Not interested."

This answer, Wei Dong had expected it, he was not disappointed.

"That's it, Mr. Su. If I'm right, I think you're very strong. Our natives generally don't make trouble in our country. Some foreigners occasionally come to make

troubles. Some of them are strong. I don't know if you can at that time... Of course, we will also give you some rewards, such as providing some confidential information."

Su Xiao's eyes widened when he heard Wei Dong's words.

"We can discuss it later, I will consider it according to the situation."

If there's some help from the nation, some information he wanted to find would be less difficult. At most was to help them to kill a few foreigners, he could consider whether he would help at that time.

As for joining the scavengers, it was impossible. Su Xiao did not want to follow other people's order, but cooperation would be OK, joining them would be impossible.

"That's good, I will not disturb you, Mr. Su Xiao. By the way, your original identity has been legalized. You are now a legal resident."

The suit men gradually dispersed, the waiting room was quickly full of people. When he saw this scene, Su Xiao nodded. They were indeed hired by the country. He hesitated and took out the phone to call the person he applied for making cards.

"You have arrived so soon?"

"No, there are some things happen, I don't need the cards for the time being."

"We can cooperate next time, goodbye."

"Goodbye."

There was no exaggerated plot like in movies. The person was very polite. In fact, the people in the 'underground world' were very cautious and generally did not take the initiative to fight with people.

Picking up the sword bag on the ground, Su Xiao continued to wait in the waiting room after putting crimson into the storage space, he did not cancel the ticket.

If Wei Dong didn't lie, he would be now a free man. He wanted to go anywhere in the country. Why should he hide in a rented house sneakily, he was going to perform harmless now, which would make his future actions more convenient.

"I heard that the food there are good, let's try it."

Soon Su Xiao sat on the high-speed rail, all the way was smooth. He did not do too many bad things in the real world other than killing his enemy.

Although he sneaked into the police station, he did not kill any police officer, his purpose was to take back his own things.

And the situation he stayed in the rental house, the danger extent that the government gave him was very low.

Su Xiao was a law-abiding citizen compared to those contractors who were cheeky in the real world after suddenly getting strength.

That's why the scene in the waiting hall appeared. Compared to fighting with contractors, the country chose to use a more peaceful way.

Judging from the stability of the present society, the country's choice was correct, but Su Xiao had a feeling that the contractors who live in such a peaceful life may be very likely to be killed.

.....

Two days later.

In front of a magnificent ancient building.

The ancient building had five floors, with a plaque at the top, the plaque was like dragons flying and phoenixes dancing to have the sentence 'Walnuts and pears you plant for your heirs.

Su Xiao wore a pair of sunglasses and held a few snacks in his hand to eat while walking.

At this time, Su Xiao, carrying a satchel bag, his usual fierce appearance wasn't there. He had not relaxed so much for a long time.

He was in a tourist attraction site, the surrounding scenery was beautiful and magnificent, the day was sunny and bright, but there were too many people.

Looking at the crowd, Su Xiao did not want to get close to the crowd.

"Young man, do you want to buy a mobile power bank?"

A passionate aunt came, Su Xiao touched the sunglasses. When the aunt wanted to get close to Su Xiao, she found that Su Xiao went far away.

When he went to the cool place with fewer people, Su Xiao did not want to go to tourist attractions in the future. There were so many people here.

He planned to wander around the country and taste the local food, which was very suitable to relax.

Su Xiao had a feeling, his sword skills had actually improved slightly after he relaxed. People could not always be nervous.

Su Xiao stayed at a hotel that night, he deliberately used his original identity, he was vigilant in the hotel room.

.....

In a monitoring room full of screens, Wei Dong walked in.

"What's wrong? Is there an abnormality?"

A staff took off the headphones.

"He went to travel, looking from the previous records, he's the harmless one. He is not a silly person that being arrogant after getting power."

Wei Dong nodded.

“Then, don’t watch him anymore. If we’re found, it’ll be easy to cause danger, this person is very strong.

This time we’re lucky. The guy’s momentum when he pulled out the sword scared me. I would’ve needed to ask for help from the military if I fought with him two days ago.”

The screen that monitored Su Xiao was switched, Su Xiao was temporarily arranged in the harmless ones.

If Wei Dong knows how fierce Su Xiao is in the derivative world, he will definitely monitor him all day.

There was still something Wei Dong did not know. Su Xiao’s sensitive perception had already detected that someone was monitoring him.

Chapter 200: Supernatural

Five days later, in a pool on a bright and sunny day.

A slightly salty sea breeze flew by and made people feel the taste of the sea.

The sea waves crashed on the beach, washing some small creatures along from time to time.

The blue water complimented the sky creating a perfect painting.

Some girls wore bikinis ran across the beach, laughter came from time to time. Although the beach was beautiful, there were not many travelers.

Su Xiao leaned on a chair, this was his third stop, a small coastal town.

The environment and food culture here made Su Xiao very satisfied. He decided to stay here for a while.

Su Xiao opened his eyes and yawned.

“The feeling of being watched has disappeared in the past five days, the police did not come to find him. It seems that the scavengers do have some power.”

Folding the deck chair, Su Xiao did not wear a shirt but a short pant and walked to a villa near the beach barefooted, now with legal status, he did not need to keep hiding, he simply bought this villa.

When he executed his revenge, he got a lot of money from the enemy’s house. There was nothing more fun than spending the enemy’s money.

Su Xiao was completely relaxed. What surprised him was that his sword specialization improved by one level.

The current sword specialization had been upgraded to Lv.11, which was completely unexpected.

After Su Xiao walked into the villa, the hint of the reincarnation paradise appeared.

[Hint: The new derivative world is about to open, the hunter will return to the reincarnation paradise, please make sure there are no witnesses around.]

[Transmission...transmission completed.]

The sense of transmission appeared, Su Xiao returned to the exclusive room in the reincarnation paradise.

[Hunter level: Lv.7, can be notified 35 minutes before entering the derivative world, the hunter will enter the derivative world in an hour, please be patient.]

After returning to the exclusive room, Su Xiao's lazy sight gradually disappeared, and the pupils became extremely sharp.

"Is it coming? A new derivative world."

Su Xiao left the exclusive room to go to the trading market. Although he didn't have the paradise coins now, there're often some special items in the trade market, so before entering the derivative world, he decided to go around.

The trade square was crowded, and the workers were abnormally active before entering the derivative world.

"Recovery products all are very cheap prices."

"A variety of rare equipment, no bargain."

"The worker gives 6,000 paradise coins to seek protection, if you're a handsome guy, we can have sex."

In the trading market, there were a lot of different people. When Su Xiao saw the last one, he was stunned, these women workers were quite open.

After going deeper into the trade square, Su Xiao found that there was a lot of people in front of a booth, people were arguing about something.

"What do you mean? 8000 paradise coins is too expensive."

"If you can't accept, then leave."

After hearing the bargain between the booth owner and the customer, Su Xiao was curious about what was sold at the booth.

Su Xiao understood the cause of the incident after going forward, there were only a few bottles of medicine on the booth.

[Magic Juice]

Quality: Green

Type: Restoration

Effect: Instant restore 18% mana values

Rating: 22 (Note: The green scored from 10 to 30.)

Introduction: Luxurious rare items.

.....

[Mental Stimulation medicine]

Quality: Green

Type: Restoration

Effect: Slowly restore 30% mana values

Rating: 27 (Note: The green scored from 10 to 30.)

Introduction: it's slightly harmful to the brain, it cannot be used more than three times.

.....

In addition to these two bottles of medicine, there were other restorations, all of which were the medicines could restore mana values.

Su Xiao first saw the medicines that could restore the mana values. This thing was exceptionally rare, at least he had not obtained it before.

There were many sorcerers in the reincarnation paradise, but the amount of the restoration of mana was not high. This created a situation that medicine was hard to get. The healer in each adventurous group must learn the skills which could restore the mana values, but the healer had limited mana values.

“This guy is so lucky, don't know where did he get so many medicines of restoring mana.”

The surrounding contractors whispered.

Although the price was high, rare things were expensive, that sorcerer or healer could only pay it.

The medicines on the booth were sold out in less than five minutes. The owner flipped his palm, and several bottles of medicines appeared on the booth.

Su Xiao observed for a while, the owner sold the medicines for about 30,000 paradise coins in five minutes, the specific profit was not known.

After leaving the booth, Su Xiao pondered. There was only one possibility for the person to have so many medicines. The owner might have mastered the method of making this medicine.

This gave Su Xiao an inspiration. He could also learn a similar ability. His mana value was high. If it is an item produced by mana, he will be much more efficient than other contractors.

However, there were not many such ways to make them, the price was not low, so he would make it after finding how to do so in the future.

After Su Xiao wandered around the trade market, he received the information of the next derivative world.

[The hunter will enter the derivative world after thirty-five minutes: Akame Ga Kill]

After receiving the news of the derivative world, Su Xiao was shocked. The Akame Ga Kill world was very famous in the reincarnation paradise. This derivative world was extremely dangerous, but the benefits were very high.

A large number of tasks and high-level equipment made the contractors covet this world.

Su Xiao had experience in the ghouls' world and Titans' world, although the power system was slightly a pseudo-science, it was still barely acceptable.

Akame Ga Kill world was different, there were forty-eight Teigus in the Akame Ga Kill world. Those Teigus had a variety of abilities, some of them even were related to space.

Teigu was made of super dangerous body materials, such as some evil dragons and devils with thin blood relationship.

These are materials with a rare metal called Orichalcum, the more important thing was artisan's craftsmanship, a huge empire use the whole country's power to build forty-eight pieces of Teigus.

After creating forty-eight pieces of Teigus, the empire with no power to continue was overtook, those artisans were executed by the empire, the skills were cut off. Finally, the Teigus which passed down to the world was only forty-eight pieces.

In Su Xiao's view, those Teigus were simply the weak version of the devil fruits.

Some Teigus were somewhat stronger than the devil fruits. For example, the female general Esdese's Teigu of blood genre 'demon's extract', which was a kind of Teigu made of dangerous kind of blood. After drinking it, if you take the crazy consciousness inside the blood, you will get the ability to control the ice.

Compared with the owner of the frozen fruit Kuzan in the one piece world, Esdese's physical quality was lower. But one thing that navy general Kuzan could not compare with was that. Esdese could freeze the space.

Su Xiao began to recall the approximate content of the Akame Ga Kill world.

The content of this derivative world was not complicated.

The content was that an empire began to decay after thousands of years. High taxes and tyranny made civilians miserable. Civilians began to resist, and various rebels were consisted by the citizens appeared.

There was one of the strongest and most popular in the rebels. People called it the revolutionary army.

The revolutionary army was getting bigger and bigger, they had constant contradictions with the empire. In large organizations, a group of people needed to hide in the dark to deal with things that could not be known in public. The organization of the revolutionary army was called 'Night Raid' which was commonly known as night attack troops, the short name was Night Raid.

The night raid troop was the dark part of the revolutionary army, helping the revolutionary army to assassinate the enemy's leader, raising money, investigating information. The leader was a woman named Najenda.

The empire also had a similar department, but this type of the department on the empire side was very scattered. In the end, to fight with the night raid troop, the dark part of the empire was totally managed by the female general Esdese.

The Akame Ga Kill world was mainly the change of the empire, the war between the Empire and the revolutionary army, and the cruel confrontation between the two dark organizations.
