

R. Paradise 41

Chapter 41

[Open the Treasure Chest (green): Yes/No]

After agreeing to open the chest, a few items appeared in front of Su Xiao.

[You opened the treasure chest (green) and got the following items.]

[900 paradise coins.]

[kakuhou(S grade).]

[the roar of evil spirits (green).]

....

Kakuhou (S grade)

Quality: Green.

Genre: Ring

Durability: None. (Jewelry equipment has no durability, and no repair is required)

Equipment demands: 10 points or more intelligence.

Equipment effect: Roar (active), after activating this skill, you will ignore the pain in the upcoming 20 seconds, and during the ignoring pain period, increase the attack speed by 5%. (The attack speed could only increase up to 50%. After the roaring effect disappears, this bonus will disappear.)

Tip: Roar (active) cooldown time is 12 hours, forcibly using it continuously might turn you crazy.

Rate: 21 (Note: Green equipment scored 10 to 30, green equipment with a score of 30, will be marked as 'rare', with special attributes attached.)

Introduction: Let me go all out.

Price: 2,700 paradise coins.

....

Holding the ring in his hand, Su Xiao was silent for a while.

Although this ring did not add any attributes, it comes with a superb ability, ignoring the pain for 20 seconds.

This didn't look like special, but the pain was not to be underestimated during a battle. Strong pain could lead to a slow response time and could lead to defeat.

But losing the feeling of pain for a long time is never a good thing. This ability to ignore pain for a short time was similar to a potent stimulant.

This ring could make him burst into full strength when he is almost dead, although it was only a short 20 seconds, it was still precious.

After the life value was below 10%, creatures will enter a weak state. After less than 5%, most of the creatures lose resistance.

If Su Xiao's life value was less than 5% during the fight, he could use this ring to temporarily ignore the body's pain and fight with the enemy.

Wearing the ring directly on his finger, Su Xiao felt the strange energy around the ring, he could activate this strange energy at any time.

Opening the hiding function of the equipment, the ring was hidden, Su Xiao was satisfied as he nodded. He then looked at kakuhou in his hand, this was gecko's kakuhou.

The kakuhou was round and had the size of an egg. The surface was surrounded with some bright red lines while it was entirely dark red.

This thing had a hard texture and was heavy, it didn't appear like an organ. It was more like a hard object.

Su Xiao will not transplant gecko's kakuhou into his body, let alone to the extremely high mortality, a ghoulish itself was not a high-level creature, so it was not worth the risk.

Su Xiao already had a career, he will not choose other bloodlines, if there was conflict between the two, the possibility of death was extremely high.

As for the fusion of the two became the more advanced lineage? It was totally a dream.

It was fortunate being alive. Even if he was lucky to get an infusion, the two unrelated abilities would only give birth to a useless ability.

Just like the combination of tiger and dog, it will never produce an elephant.

Putting kakuhou into the storage space, this thing can be sold even if it had no use, a white material with a 9 rate was very valuable in the reincarnation paradise, in particular, materials could create weapons, many people in the trading market would be willing to buy.

Opening this green treasure Chest, the items obtained were satisfactory, and overall his luck was good.

After opening a few treasure chests, Su Xiao summed up a few things, that is, the creatures that could drop the treasure chests were generally stronger, as some relatively weak creatures will not drop the treasure chest.

But even after getting a treasure chest, it was not known whether he can get a generous reward or not.

After opening the treasure Chest, Su Xiao slept in bed.

CCG will be able to respond to him tomorrow morning. If there is an accident, Su Xiao will need to join the ghouls quickly. Otherwise, the cost of failing the mission will not be affordable.

....

At about 7:00 the next morning, Su Xiao's door was ringing.

“Byakuya, the news of the headquarters has arrived.” It is the voice of Kureo Mado.

Su Xiao had already finished washing up, he opened the door directly and saw Kureo Mado wearing a white robe.

“The CCG General Administration agreed to let me join you?”

“Of course.”

Getting a clear answer, Su Xiao became confident.

“This is your entry document and certificate. I didn't expect your father to be an investigator. This will greatly help you join CCG.”

Su Xiao took over the entry documents, and the reincarnation paradise immediately gave a hint.

[The hunter completed the main mission (1): the camp selection, there is no reward for this mission, and the follow-up mission is started.]

[Main task (2): superior investigator.]

Difficulty level: LV.3.

Mission introduction: Quickly improve your position in the CCG and prepare for follow-up tasks.

Mission information: Use any method to get promoted, eliminate ghouls, bribery and so on.

Mission period: 20 days.

Mission reward: 1 attribute point, 1500 paradise coins.

....

[The hunter successfully joined CCG, and the camp contribution value was turned on.]

[Current position: Third-class investigator, CCG contribution points: 0/50, expelling ghouls can help you obtain contribution points. After you get the necessary points, your position can be upgraded.]

[Contribution points can also be used to purchase items within CCG, or to make Quinke.]

The follow-up mission finally appeared. According to the tips the reincarnation paradise gave before, he had to complete three main tasks in total, then he could return to the reincarnation paradise.

But just after he successfully joined CCG, there was a 'bad news' that came from the reincarnation paradise.

[Announcement: A "contractor" has joined a camp, and the "contractor" is enough to interfere with the balance of the camp. Balance mechanism is open.]

This was an announcement, not just a reminder of Su Xiao, but also a hint of all the contractors in the world.

Except for Su Xiao, the main task (1) of all contractors had changed, from the original choice to join a camp, into joining a ghoulish camp.

This was a balancing mechanism for the reincarnation paradise, so the other camps won't be too weak.

Su Xiao's face was a bit ugly, as he also received a reminder. The current situation was that he was the only person in CCG, and the other contractors could join a group of ghouls.

From this, a doubt he had was cleared, that is, the identity of the hunter. It seemed that he will only receive preferential treatment in the reincarnation paradise, and in the derivative world, the reincarnation paradise treats all contractors the same.

Su Xiao did not complain about anything. This actually made sense. The reincarnation paradise always gave him the feeling that it was cruel, cold and fair.

However, he thought carefully, it was helpful that he was in the CCG camp alone. At least there won't be any other contractors to interfere with him.

"Byakuya, you are assigned to the 14th district where the situation is a bit complicated, and they need your strength."

Kureo Mado showed pity because Su Xiao was not assigned to the 20th district.

"Understood, I have a feeling that I will return to the 20th district after a short time."

Kureo Mado was confused as he saw Su Xiao leave the branch of CCG in the 20th district with his papers.

The 14th district was located next to the 20th district. Sometimes, if the pressure in the 14th district is too great, the branch of CCG in the 20th district will also support them, it could be seen that the 14th district was not safe.

Before leaving the 20th district, Su Xiao suddenly remembered something. He hesitated as he thought whether or not to go to the coffee shop named Antique. After all, there were a lot of ghouls gathered there.

Chapter 42

The noisy streets were bustling, and the whistles of the cars were intertwined along with the pedestrians.

Su Xiao walked on the street and held a map in his hand.

He had already arrived in the 14th district. Although he wanted to go to the coffee shop named Antique, he decided to give up, considering the strength of the manager of Antique.

There was no need to play with the store manager. The manager was different from Takatuki Sen. Although they all were SSS class ghouls, the manager's combat skills were much stronger than Takatuki Sen. However because he was old, the store manager's combat power somewhat decreased.

Instead of going to find the store manager, it was better to expel ghouls in the 14th district.

Soon, Su Xiao found the branch of CCG in the 14th district. He was now a third-class investigator, so he walked directly into the branch.

It was about 9 o'clock in the morning. There were many search officers in the branch, the strange face of Su Xiao had attracted the attention of many search officers. These guys were very sensitive, they belong to the investigators' occupational disease.

"Excuse me, where is Mr. Shinohara Yukinori."

Su Xiao came to the front desk of the branch, and in the front desk was a young female receptionist.

"Are you looking for Mr. Shinohara Yukinori?"

The receptionist showed a professional smile and a mild attitude.

"I am the new third-class investigator, Byakuya, and I am here to report for duty today."

Su Xiao took out the certificate and handed it to the female receptionist.

After confirming the documents, the female receptionist made a call first.

"Mr. Byakuya, hello, Mr. Shinohara Yukinori is in his office on the 12th floor. You should go quickly because Mr. Shinohara Yukinori is going out soon."

Su Xiao took the certificate, took the elevator and went straight to the 12th floor.

The person in charge of the branch of CCG in the 14th district was the special search officer Shinohara Yukinori, Su Xiao had seen him in the original story. He was a flat-headed middle-aged uncle, who was modest and very easy to get along with.

"Dong, dong, dong."

“Please come in.”

Su Xiao pushed the door of the office, and Shinohara Yukinori in the office was sorting out his Quinque, which he prepared to go out.

“It’s very early, Byakuya third-class.”

Shinohara Yukinori put down the Quinque in his hand while sitting at his desk and indicating to Su Xiao to sit. Shinohara Yukinori began to look for through documents.

“Let me see, um.., found it, Shirakawa’s family, 20 years old, started practicing from childhood, combat power SSS +?”

Shinohara Yukinori looked at Su Xiao with amazement and looked at the documents in his hands carefully. He suspected that he was wrong. He had only heard that he had to transfer a very strong third-class search officer, but he did not expect the person’s power was SSS+.

It seemed that the identity of the third-class search officer had induced the judgment of Shinohara Yukinori.

“Hello, Mr. Shinohara Yukinori.”

Shinohara Yukinori’s eyes were still moving between Su Xiao and the files in his hand. He could hardly imagine that Su Xiao’s not so strong figure, actually had the power of SSS+.

“Hello, Byakuya, but before you officially serve, you need to conduct a combat assessment.”

“No problem, when will it starts?”

The main task (2)’s time limit was 20 days which made Su Xiao’s nerves relax.

Judging from the difficulty of the ghoulish world, his current strength was not the strongest, but it was not weak.

Being transmitted to this kind of not-too-difficult world may have a certain intention of the reincarnation paradise.

Reincarnation paradise used the one piece world to test whether he was qualified to become a hunter, and now the ghoulish world was the reward from reincarnation paradise.

After Su Xiao asked, Shinohara Yukinori considered it.

“You can be assessed here.”

After that, Shinohara Yukinori took off his suit and moved his arms.

Su Xiao understood the meaning of Shinohara Yukinori, he wanted to fight with him. He only believed things he sees with his eyes.

“I am ready.”

“Come on.”

Su Xiao's eyes suddenly sharpened, because it was an assessment of strength, Shinohara Yukinori did not use Quinque, Su Xiao did not use [dragon flash] as well.

The office was not big. Su Xiao rushed to the front of Shinohara Yukinori in a few steps, using the 13 points of agility attributes which made his figure somewhat difficult to be detected.

Shinohara Yukinori quickly raised his fists to his front, Su Xiao's current power had already made Shinohara Yukinori secretly scared.

Su Xiao said nothing and punched the arm of Shinohara Yukinori.

“boom.”

Shinohara Yukinori could not help but retreat for two steps, his arm was full of pain.

“What a heavy punch.”

When Shinohara Yukinori retreated, Su Xiao's punched. Shinohara's shoulders and arms were quickly smashed.

However, as a special search officer, Shinohara Yukinori was not a weak person.

After being smashed by Su Xiao for a few rounds, Shinohara Yukinori gave a big sigh, and his thick arm attacked with the intent to make Su Xiao retreat.

The two of them clashed. Su Xiao's style was elegant and flexible, but each shot was very heavy. Shinohara Yukinori was steady, preferring to get a few more laps and not revealing the key points.

“Boom, boom, boom.”

The dull blows spread, and both of them were more and braver. So they couldn't help but be serious when they were fighting.

Su Xiao's foot swept toward Shinohara Yukinori's chest, and the latter moved, he was able to escape this kick.

Shinohara Yukinori had escaped, but Su Xiao's attack hit the corner of the desk next to them.

“Pala.” The table corner was directly kicked, and Shinohara Yukinori's mouth was pumping, but he became more aggressive.

Being a special search officer of CCG, there is no such thing as a weak guy. It took great courage to fight with powerful Ghouls.

After Su Xiao kicked the table corner, there was a sudden cry in the distance.

This voice interrupted the fighting between Su Xiao and Shinohara Yukinori, and both of them looked at the source of sound at the same time.

In Su Xiao's sight was a teenager with white hair.

From the appearance, it was more like a girl, a white face, a petite body, and a neutral dress.

“Suzuya, are you okay?”

Shinohara Yukinori went to the teen and looked at him with concern. There was a bruise on his forehead, which was hit by the table corner kicked by Su Xiao.

“Nothing, Mr. Shinohara, why did you stop, I haven’t seen enough.”

The person named Juuzo Suzuya was a subordinate of Shinohara Yukinori.

In other words, Shinohara Yukinori was not only the boss of Juuzo Suzuya but also his guardian. He is even taking care of Juzo Suzuya’s daily life.

Although Juuzo Suzuya looked like a woman, he is a male, and currently talking about gender was ‘no’ in front of him.

Juuzo Suzuyawas raised by ghouls, and the one raised him was called Big Madam who is an SS-class ghoul.

Big Madam was a pedophile and masochistic. Juuzo Suzuya looked like a girl when he was a child, but as he grew elder, his original feminine face began to change.

This change was not tolerated by the Big Madam, so she cruelly crushed Juzuo Suzuya’s penis, stopping his hormones from transforming him more into a guy.

In a subsequent raid by CCG, they accidentally rescued Juuzo Suzuya, so Juuzo Suzuya became ghouls investigator.

The misfortune of childhood made his personality somewhat weird, lazy, lack of basic cognition, a combination of abuse and sadism.

After looking at his wounds, Shinohara Yukinori found that he was really fine.

“It’s okay, this is a new colleague, Byakuya, say hello.”

Shinohara Yukinori moved sideways, indicating Juuzo Suzuya to say hello to Su Xiao.

“Hello, my name is Juuzo Suzuya, can I cut you?”

The strange greeting of Juuzo Suzuya made Shinohara Yukinori a little helpless. This child is not malicious, but there was no basic common sense.

“Oh, kids.”

Chapter 43

“Hey, hello, everyone is a colleague, you have to get along with each other, Suzuya, you can’t say hello to your colleagues like this.”

Shinohara Yukinori blocked between the two and began to instill basic knowledge to Juuzo Suzuya.

For a person who didn’t even have basic common sense, Su Xiao certainly won’t make something big out of it.

However, if there was a chance, he will definitely clean up this kid in the future.

“Is it, I got it, sorry~.”

Juuzo Suzuya laughed, and he was in a contradictory character compared to before as he apologized to Su Xiao.

“Mr. Shinohara, is the test over?”

Shinohara Yukinori moves numb arms and nodded.

“It’s over, you are now officially a CCG Investigator.”

Shinohara Yukinori looked serious.

“Being an Investigator is a responsibility, protecting ordinary people and expelling those ghouls is our primary responsibility. For this, we may have to sacrifice, but we will not hesitate.”

The heated speech began. Su Xiao did not show impatience despite listening in boredom.

“That’s all. If you are mentally prepared, you can now perform the task, but the third-class Investigator cannot act alone and needs to be protected by the superior Investigator.”

Su Xiao lightly coughed.

“Mr.Shinohara, who do you think can protect me?”

Shinohara Yukinori laughed and shook his head.

“This, it’s the rules.”

“I can do it alone, it is nothing more than ghouls, what matters is completing the task, the process is not important.”

After hesitating for a long time, Shinohara Yukinori nodded. Su Xiao did not need the protection of the superior Investigator. Su Xiao protecting superior Investigators was more reasonable.

“In this case, I will give you clues about the ghouls now.”

Shinohara Yukinori went to his desk and handed Su Xiao a document.

Su Xiao looked at its content which was very trivial. Strange sounds in the sewer, underwear was burned, female students who were prostitutes are missing, and so on.

“This is our daily work, and ghouls are very shrewd, especially in the 14th district which is not stable.”

It was not easy to chase ghouls.

Most of the ghouls in the 14th area were hidden among ordinary people. In addition to predation, they won’t reveal they’re true bodies.

They only need to prey one or two times a month to maintain their body’s needs. To get rid of ghouls, the most important thing to do is to find them.

For Su Xiao, most of the difficulty of killing ghouls was to find them, and things will become simple after finding them.

“Now the information on your hand should be about a ghoul, find him, and kill him.”

Shinohara Yukinori looked serious, and there was a killing intent in his eyes.

“No problem.”

Su Xiao turned away from the office, although there was still plenty of time, he didn't want to waste time.

“Byakuya, remember to go to the logistics department to get some tools, those tools are very useful.”

Su Xiao took a step then nodded and left.

“It's a cold colleague again, hey, what a headache.”

After Shinohara Yukinori sat at his desk, he gently pressed his forehead and looked up to see the smirk of Juuzo Suzuya, his began hurting even more.

Su Xiao came to the logistics department and received many tools after presenting the documents.

An hour later, Su Xiao arrived alone in a park and sat on a bench by the road.

The park was covered with trees, the breeze blew, leaves rustled, and the midday sun was scorching hot...

Because of the hot weather, the people in the park felt very good as the cold breeze passed from time to time, Su Xiao was sitting in the shadow of the trees feeling the cool breeze.

The information given by Shinohara Yukinori was not detailed, but there were general goals. There were more than a dozen cases of disappearance in half a year, it all happened in this park.

CCG has a clear division of labor, and ordinary Investigators were responsible for finding clues, and those Investigators were not good at fighting.

When the clues were fairly clear, it was possible that after encountering the ghouls, the superior Investigators will personally look for them with their subordinates to avoid unnecessary casualties of ordinary Investigators.

Even so, five ordinary Investigators had disappeared in this park.

Shinohara Yukinori was leaving previously to come to this park for inspection.

Su Xiao paid attention to the passing pedestrians, there was no gain for a long time, but he was not in a hurry.

According to the information given by Shinohara Yukinori, there had been no case of disappearances in the park for two weeks.

That ghoul will appear soon because here is the place for the ghoul to prey.

Some of the ghouls' moves were similar to beasts, such as the camp's territories, because of the competition for the territory, two ghouls may also fight.

In less than three days, this ghoul will appear, and this ghoul may not be a low grade one, he won't be lower than A class.

Most of the deaths of ghouls were due to the inability to refrain from eating and were eventually discovered by the Investigators.

Success and patience were inseparable. Su Xiao sat on the bench in the park and silently waited.

Time slipped by in a flash, and it was three o'clock in the afternoon.

A soothing sound of music came from afar.

“School?”

Su Xiao looked at a building in the distance. After half an hour, the number of pedestrians in the park gradually increased. They were some high school students who had just left school.

Most of the species will pray at night, so Su Xiao was going to spend the night here.

“Brother, why do you sit here alone, are you lonely?”

A female high school student in a school uniform sat next to Su Xiao, a female high school student wearing a sexy top, a black short skirt, and black stockings revealing her slender legs.

Su Xiao was stunned, did he meet the legendary prostitute female students? It was an unexpected beginning.

“....”

Silence.

“Oh, what a boring guy.”

She found that Su Xiao ignored her, and the female high school student got up and walked away.

As night fell, the street of the park lighted up.

Su Xiao had been observing for an afternoon, and he was hungry, when he was about to get up and go to have dinner, he suddenly heard a short scream.

The scream was very short, only for a moment, but he sharply captured it.

Su Xiao immediately got up and hurried to the sound source. The sound came from the corner of the park, not far from him.

After rushing to the location of the source of the sound, Su Xiao glanced around, but there was nothing, don't talk about people around, not even a ghost.

He heard a scream earlier, he will never get it wrong, so something must have happened here.

After a careful inspection, Su Xiao found a few drops of blood on the edge of a flower bed, and half of a broken nail.

Some blood stained his fingers. The blood was cold, but it did not solidify yet, which means that the blood was still fresh.

“Kaz, kaz.”

The sound of tearing the flesh came in the forest not far away, Su Xiao quietly entered the forest, and a cruel scene came into his view.

A victim who could not be seen clearly was kneeling on the ground with a ghoul on top.

It should be a good thing to find a ghoul, but Su Xiao frowned.

The ghoul in front of him was not strong, probably only B class, and this barbaric predation method was unlikely to escape the investigation of the ordinary Investigators.

Su Xiao guessed the matter roughly from the appearance of ghoul's eating.

This may not be the territory of this ghoul, but this ghoul was so hungry that it could only choose to take risks.

“Wild dog, who allows you to hunt in my territory, do you want to die?”

A crisp female voice came from the woods, and at the same time, a very thin kagune waved toward the ghoul who was eating.

“Snigger.”

Its head flew up, before the ghoul talked, the ghoul that was eating was beheaded, and his face was full of fear.

The master of the kagune came out of the trees. After Su Xiao saw the appearance of the person, he was shocked. The person was surprisingly the female high school student who he saw in the morning.

She was surprisingly a ghoul.

Chapter 44

Su Xiao stood behind a big tree, the female high school student ghoul began to deal with the bodies on the scene.

He had to say that the female high school student is very skilled. First, she cleaned up the high blood on the ground, and then dragged the two bodies on the ground.

“Snigger.”

The sound of swallowing water came, and the female high school student stared at the human body in front of her, and the hunger in her belly made her feel pain.

“This is the last time, I won't eat raw meat in the future, I am not a beast.”

The female high school student's hand reached the body and blood stained her white hand.

“Are you going to eat in front of me?”

Su Xiao walked out from the trunk.

Didn't know why, the female high school student's body trembled, and her red eyes and the kagune disappeared at the same time. The hands that were stained with blood were hidden behind her, and she wiped it quickly and looked nervous.

“Who are you, why are you here?”

“CCG, third-class Investigator, Byakuya.”

[Dragon flash] appeared in Su Xiao’s hand, and the bright blade flashed a touch of coldness under the moonlight.

“CCG’s Investigator... this day finally arrived.”

Female high school students bowed her head, and her hands hidden behind her hang down, and the blood on the palms were not wiped clean.

Her Kagune and the red-eye reappeared. the kagune of this ghoul is bikaku, which is at the end of the spine, there were two bikaku which were only as thick as a finger.

“Have you seen my face? My name is Chinatsu the person will kill you.”

The delicate face of Chinatsu became distorted. This ghoul was still somewhat human, but she was still a ghoul.

“This park was your territory. With your previous actions, you should have tempted males, what about those missing female students.”

Su Xiao’s problem directly provoked Chinatsu.

“Those sluts sold their bodies for a little money, and they have a human identity. Why don’t they find someone they like and live quietly?”

Yes, I am jealous of them, they are human beings, I always tear them apart every time I see them, then cook them.”

Most of the ghouls because of devouring humans for a long time, their hearts had some distortions. After all, there was only a little difference between humans and ghouls.

Su Xiao understood the cause of the incident. The kind of ghoul he was looking for was Chinatsu in front of him.

“Give you ten seconds to leave your last words.”

Chinatsu was stunned and looked at Su Xiao funnily.

“You are just a third-class Investigator, and you want to let me leave last words? Just relying on the broken sword in your hand? That thing can’t hurt me.”

“What wonderful words.”

After that, Su Xiao took the sword and rushed forward.

Fight, scream, cry...

A minute later, the forest was quiet, and Chinatsu was lying on the ground full of blood, the kagune on her back was cut off, and the two arms disappeared.

“It hurts. I didn’t even know death will be so painful. No wonder those prey will scream very loudly.”

There were tear in her eyes. She was only a ghoul between the A and S classes.

“Are you going to kill me?”

Su Xiao did not make a sound, stood by the side of Chinatsu and raised the [dragon flash] in his hand.

“Living as a ghoul, is it really wrong? Haha, eating raw people will be met with revenge.”

“It has nothing to do with me, this is just a task, goodbye.”

The longsword fell, and the blood splashed.

[You killed the S-class ghoul, Chinatsu.]

[Chinatsu is a common ghoul, gaining 0.5% of the world’s source, and now you have a total of 5.7% of the world’s source.]

[Your talent as a “hunter” is activated, permanently adding 7 points of Mana. You currently have 170 Mana.]

[You got 40 points CCG contribution points.]

Although Chinatsu was an S class ghoul, she did not drop a treasure chest.

This was not surprising. The gap of strength between Chinatsu and Su Xiao was too great. It could be seen from the source of the world, Chinatsu has no influence on the plot.

The reason why gecko could drop the green treasure chest, was not because he was strong, it was because of the close relationship with the original story.

Su Xiao took out the CCG’s special telephone dialing and explained the situation to the branch in the 14th district, then hanged up the phone.

They didn’t need him to deal with the rest, CCG will send someone to deal with the body when the kakuhou of Chinatsu was taken out, he could get some contribution points.

Of course, he could also keep this kakuhou and spend the contribution points to make Chinatsu’s kakuhou into a Quinque.

The Quinque made by S-kakuhou should be only white equipment, so Su Xiao chose to hand over to the kakuhou and get 10 contribution points.

In this way, Su Xiao’s contribution points will allow him to be promoted:

third-class Investigator (contribution value 50/50), Promote to the next class: Yes/No.

Choosing to be promoted, his position did not change, and the reincarnation paradise gave him a hint.

[Waiting for feedback from the CCG General Administration, estimated time, 3 hours.]

Promoting a position could be done not only by choosing to upgrade, but it also needed confirmation from the CCG General Administration.

With the influence of the reincarnation paradise, it was a certain matter that he will be upgraded to the second-class Investigator.

If there was no reincarnation paradise, it might take several years for Su Xiao to be promoted to a superior Investigator.

This had nothing to do with the number of ghouls he kills. It was a matter of qualifications.

Now that there was the influence of the reincarnation paradise, the qualifications issue had been abandoned. Su Xiao only needed to hunt and kill lots amount of ghouls.

Even so, it was not easy to reach the superior Investigator rank.

There were six levels of CCG Investigators, from low to high: third-class Investigator, second-class Investigator, first-class Investigator, superior Investigator, quasi-special Investigator, and special Investigator.

The third-class was the weakest, and the special was the strongest.

When Su Xiao returned to the branch of the 14th district, Shinohara Yukinori took the initiative to find Su Xiao.

“The way things go is like this. In short, the ghoul has been killed. Is there other kinds of things that need to be explained?”

Su Xiao described the passage of the matter, and Shinohara Yukinori nodded.

“You have killed an S-class Ghoul on your own. I have already reported to the General Administration. If there is no accident, you should be able to get promoted to a second-class Investigator. After all, with your ability, the third-class is too weak.

No, second-class is also a bit weak, but if there are no certain merits, the General Administration will not promote you.“

Su Xiao did not say anything, he just wanted to continue finding ghouls.

The current situation was that, except for him, all the contractors were classified into the ghoul’s camp. That was to say, the target 12470 he needed to hunt was also in the ghoul’s camp.

Looking at the two tasks of the main task (1.2), the main task (3) afterward was very likely to be a confrontational task. Otherwise, it was not necessary to divide the two camps and open the balance mechanism.

“Since this is the case, then Shinohara Yukinori, may I ask you to provide me some more places to find ghouls.”

It was definitely a great benefit to complete the main task (2) earlier.

“Well, this is also a solution, but what you need now is rest, it’s already 10 o’clock in the evening. Moreover, I have something to ask you tomorrow morning, or more like that Mr. Kureo has something to do with you.”

Su Xiao had some doubts, but he did not ask more. After saying goodbye to Shinohara Yukinori, he came to the dormitory allocated to him by the CCG branch of the 14th district, and the location was on the 16th floor of the branch.

11th District.

As the old nest of Aogiri trees, the 11th district was now almost a restricted area for human beings.

The Aogiri tree repeatedly attacked the CCG branch of the 11th district, resulting in the weak human’s influence over the 11th district. Only some civilians were scattered and lived in the vicinity of the CCG branch of the 11th district.

These civilians were not able to leave, they were trapped, ghouls in 11th district trapped them there as an emergency “food”, no one can freely enter or exit the 11th district except for the powerful Investigators.

Ghouls lived here, their human flesh supply all depended on ‘import’, showing how dangerous the 11th district is.

At this time, in a rotten building on the suburb of the 11th district, more than 20 humans gathered here.

These 20 people were not one group. They were divided into three groups. Each group had more or less 6 people. These were the contractors of the ghouls camp.

“Cold fish, don’t talk nonsense, the balance mechanism is just because CCG is now stronger than Aogiri tree. As a freaking strong contractor, you don’t need to build an enmity with me here.”

An anxious young man with short red hair and a grumpy look was watching cold fish.

Cold fish smiled coldly and shook his head. If Hot wasn’t a fire sorcerer, he wouldn’t take the initiative to join this group.

“Don’t think that I took the initiative to find you for an alliance, you can’t be arrogant.”

The scepter in the hand of the cold fish was on the ground, and a layer of thin ice under his feet gradually spread out. The cold fish was also a sorcerer, but he was the ice sorcerer. His ability was not strong, but he was good at control.

“If we’re not in the same camp, I will kill you now.”

The short wand in the hands of the fire, a heat wave spread, a large piece of flame appeared around hot’s body.

The hot momentum made cold fish changed his face.

“This feeling , have you found a wand that fits your attribute?”

The cold fish looked at the short wand in hot’s hand.

The short wand was very silly, like a fire stick. At the top position was a red crystal. The red crystal seemed to have a flame burning inside of it.

Hot stared at the scepter of the cold fish.

“This baby, I spent a total of 14,000 paradise coins, which is the total income of the two worlds, but also the cost of bringing people along.”

Hot’s face was full of pain, but there was some excitement as well.

“Lucky guy.”

cold fish was full of envy.

Shaking his head, cold fish took out a small camera from the storage space and threw it at hot.

After catching up the small camera, Hot’s face suddenly changed.

In the small camera, the process of Su Xiao killing gecko and Kamishiro Rize was recorded.

Although hot’s temperament was violent, he was not without brains. Otherwise, it was impossible for him to gather a temporary group with 10 people.

“Let’s be allies, cold fish, we must cooperate in this derivative world. Otherwise, we will be killed by that pervert, killing S-class ghouls, fuck, how can this guy enter the ghouls’ world, this guy should at least be Lv.7 or above.

I will provide information as a show of goodwill. The third part of the main task was a confrontation task. This was the information I bought for 400 paradise coins.”

The cold fish was relieved, and if they were in hot’s group, they might still have a chance.

Chapter 45

Su Xiao didn’t know about this. Although he guessed that the third link of the main mission was a confrontation, it was only based on the speculation of the previous missions. Early in the morning, Su Xiao came to the office of Shinohara Yukinori who said last night that he was needed him today. “Have you had breakfast?” Shinohara Yukinori stood up and greeted Su Xiao with enthusiasm.

Su Xiao was shocked, Shinohara Yukinori’s attitude was too enthusiastic. “Not yet.” “That’s just right, let’s go to a small shop nearby, it’s good, although the breakfast provided by the branch has balanced nutrition, the taste is...” Now Su Xiao could be sure that this person needed his help for something. “It’s my treat.” Shinohara Yukinori said. He was sure of it. Su Xiao nodded, followed Shinohara Yukinori, and came to a small shop.

The shop was not big, but it was very lively. The seats were already taken by a lot of guests. The aroma of the food in the store made Su Xiao’s stomach act, and hunger emerged. “Here.” Shinohara Yukinori found a four-seat table, indicating that Su Xiao should sit opposite to him as he ordered several plats.

While eating, Su Xiao did not move and looked at Shinohara Yukinori. "Shinohara, this breakfast is really unexpected abundant." Shinohara Yukinori found that Su Xiao had no reaction, he chuckled and signaled to Su Xiao that he didn't need to be polite. "We will eat first, she will come soon." Su Xiao didn't make a sound and started to have breakfast. "Byakuya, the ghoul that was killed last night has been sent to the headquarters. The headquarters has made an exception to raise you to a second-class Investigator. This is your new certificate." Su Xiao put down half of the snacks and took the documents. [Hint: The hunter is promoted to second-class Investigator.

Your contribution points till the next promotion is 50/400.] Su Xiao did not need qualifications to upgrade his position but needed to expel more ghouls. The contribution value of 400, probably need to kill 2 to 3 S-class ghouls, the difficulty could be imagined. It was more difficult to get the promotion from the first-class Investigator to a superior one.

According to normal circumstances, the main task (2) should not be so difficult. Mainly because Su Xiao stayed in the CCG camp alone. According to normal circumstances, there will be more than ten ordinary contractors on the CCG side.

If more than ten ordinary contractors share the contribution points, each person only needs to contribute 30 points to increase the value to become the first-class Investigator. But Su Xiao was alone in a camp, so the task of more than ten people must be completed by him, so this kind of difficulty is born. Most of the places in the 14th districts were very peaceful, and it was difficult for Su Xiao to hunt and kill.

If he is assigned to the 1st to 4th districts, the difficulty of the mission will decrease vertically. The density of ghouls in the 1st to the 4th district was very large, and it had reached the point where ordinary people could not survive there. The ghouls there were all dependent on each other to survive, so there are many strong ghouls in the 1st to 4th districts.

According to the normal situation, the S class was the limit of the ghouls, and if they want to continue to become stronger, they can only increase the concentration of Rc cells in their bodies by eating other ghouls. D classes were kind of children to ghouls, and C class could use kagune, but its strength was weak. B classes were common ghouls, hiding within human society.

A class belonged to the elite within the ghouls' forces. S class was a minority of talent. As for those higher than S, they could only rely on eating each other.

The strength of ghouls didn't grow by training, but through eating, constantly consuming other similar species. Thinking of this, Su Xiao bit the snack in his hand. "Sorry, I'm late." When Su Xiao thought, a beautiful woman was sitting next to him. The pale yellow blonde hair was bunched up, and a black female suit made the beauty's skin looked extraordinarily white and delicate.

The black stockings were highlighting her two sexy legs. "Let me introduce, this is Mado Akira, your future subordinates." Shinohara Yukinori looked at Su Xiao with a smile, and the gaze seemed to say, how eloquent he was, to let such a beautiful woman be Su Xiao's subordinate. "I got it, I have no opinion, but..." Su Xiao looked up at Shinohara Yukinori. "She may die soon, and I am currently preparing to enter a high-density location of ghouls, such as West Street district." Hearing that Su Xiao did not refuse, Shinohara Yukinori smiled, but when he heard the West Street District,

and Shinohara's smile disappeared immediately. "West Street District? There is asymmetry area in the 14th district. There are so many S-class ghouls that people can't imagine.

Byakuya, are you sure you want to go?" "Yes." If it is someone else, Shinohara will never agree, but Su Xiao's strength made him have nothing to say. "Akira, it seems that I have to give you another boss." Shinohara Yukinori looked to the side at Mado Akira. "Shinohara, I have no problem, as an Investigator I am already ready for everything, even going to the West Street district." Mado Akira straightened her body, and her tone was very firm. She also glanced at Su Xiao. "Don, don." Shinohara Yukinori tapped the table with his index finger and dialed the phone in his arms. The phone called Mado Kureo, and Shinohara Yukinori only said a few words, and hang up the phone. "Kureo this guy, well, you will follow Byakuya temporarily, although you are also a second-class Investigator, you have to follow the command of Byakuya.

Byakuya, when are you going to West Street? " It seemed that Shinohara Yukinori also intended to let Su Xiao go to the West Street district, where the mutual eating of ghouls was very serious and urgently needed to be cleaned up. "I'm Going now. Let's go, mascot." The mascot in Su Xiao's word was Mado Akira. According to the original information, Mado Akira's strength was ordinary.

As for the life and death of Mado Akira in the West Street district, it depended on God's will. When Mado Akira heard the name mascot, she was really stunned and pointed at herself. Seeing this scene, Shinohara Yukinori had no choice but to smile, indicating that Mado Akira had to follow Su Xiao. ... A black car was driving on the road.

Mado Akira was driving. Su Xiao was in the co-pilot and closed his eyes. They were heading to the West Street district. "What are your plans for going to West Street district, Byakuya?

What do I need to do?" Mado Akira looked seriously, and her chest was up. "After arriving at the West Street district, we kill!" This simple and rude plan, obviously shocked Mado Akira, the big beautiful woman stepped on the gas pedal, almost chasing the front car, quite a female driver's demeanor. "Then, what do I need to do?" After calming down her emotions, Mado Akira asked the second question. "You can just be beautiful." Su Xiao's calm look made Mado Akira angry. "These kinds of ghouls will not covet my beauty!" Su Xiao chuckled and looked at Mado Akira. "Don't worry, you have a 'very important' role. Without you, my 'plan' is unlikely to succeed." Two seconds ago, Su Xiao thought of a plan. Mado Akira was suddenly aware of Su Xiao's gaze, she had the idea of turning around and running. "Then, can you share your plan?" Su Xiao's mouth was lightly picked, and he shook his head. "No, if you understand the situation, it may affect the 'plan'." Mado Akira felt bitter, as she vented it and stepped on the gas pedal.

In the unstable mood of Mado Akira, these two came to the West Street district, this cruel area. ***

Chapter 46

After arriving at the West Street district, Su Xiao did not get off immediately.

“Mado Akira, Do you know the specific information of the West Street district?”

Although there were a variety of ghouls eating each other in the West Street district, there were also some civilians living nearby.

“Of course, after I was assigned to the 14th district, I learned more about this place.”

Mado Akira looked for a while in the car and found a file bag.

“14th district: Nakano district, this area was popular for ghouls eating each other, and most of the ghouls are hidden among ordinary people. Here, there are various kinds of ghouls’ forces, which are social places between ghouls, and there are many kinds of ghouls’ information agents...”

Su Xiao lit a cigarette and listened to Mado Akira quietly.

Opening the window, Su Xiao exhaled the smoke.

“Byakuya, please don’t smoke. There are more than 4,000 kinds of chemicals materials in cigarettes, 60 of them are very harmful to the body: nicotine, tobacco tar, carbon monoxide, irritating compounds.

And second-hand smoke can affect my skin. ”

The smoke smell was lingering, Su Xiao spoke:

“Can you find a bar called ‘Helter Skelter’? It should be nearby.”

Mado Akira sighed helplessly.

“No problem.”

Taking out a small computer, she started looking at the nearby map.

“Found it, just...”

When Mado Akira had not finished her words, Su Xiao suddenly got up and looked at a pedestrian on the street.

“Ghouls.”

Su Xiao’s sharp eyes surprised Mado Akira.

“What?”

Mado Akira was looking at Su Xiao, she did not believe that Su Xiao could distinguish them by sight.

Su Xiao got off the car and walked behind a middle-aged man.

The middle-aged man looked tired. It seemed like an office worker who was not in a good business while carrying a bag in his hand.

“Byakuya wait, wait for me.”

Mado Akira carried a suitcase, she quickly followed Su Xiao.

“Can you tell me how did you judge that man to be a ghoul?”

“Intuition.”

The middle-aged man turned and walked into an alley, and Su Xiao quickly followed.

“Intuition?”

There was some doubt in her eyes. Looking at Su Xiao’s back, her mind was not only confused, but she also questioned whether he was alright or not.

The middle-aged person was still moving slowly in the dark and humid alleys.

“Stop.”

Su Xiao’s voice with chill came from behind the middle-aged man.

“you are?”

The middle-aged man looked at Su Xiao with a confused look and glanced around.

“Don’t pack the human flesh in a bag next time, the blood will leak.”

Su Xiao’s words made the middle-aged man’s face change.

“It’s none of your business, are you really looking for death?”

The expression of the middle-aged man suddenly became fierce, and his red eye appeared, as he quickly rushed to Su Xiao.

The ghoul in front of him was not strong, only about B-class, Su Xiao did not even take [dragon flash] out.

The middle-aged man rushed to Su Xiao in a few steps, punching his head with a fist, his movements were stiff, and his speed was very slow.

This kind of attack, Su Xiao did not have the interest to avoid.

His left leg was lifted up fiercely. Su Xiao kicked on the lower abdomen of the middle-aged man. The middle-aged man suffered because of the pain. The whole body was kicked into a V shape and spit out a large amount of sour water.

The middle-aged man’s posture at this time just put his head into the front of Su Xiao.

Su Xiao used his arms to circle the neck of the middle-aged man, he tightened his arms and reined it.

“Loosen up, loosen up, you...”

Just as Su Xiao reined the middle-aged man’s neck, Mado Akira quickly ran into the alley.

“Kaba.”

The bones were broken, and the crispy sound came, the middle-aged man's body suddenly became soft. Su Xiao released his arm, and the body of the middle-aged man fell to the ground.

“Ask someone to clean up.”

Su Xiao walked by Mado Akira, Mado Akira was surprised to see the dead ghoul.

This made Mado Akira suspect, can people really find out ghouls by instinct?

Su Xiao returned to the car. He didn't know why. After unintentionally seeing the middle-aged man, he suddenly felt that the person was a ghoul.

At that time, the bag in person's hand was bleeding, which was what happened afterwards.

Su Xiao secretly guessed that this may be related to his attributes improvement.

While the attribute was improving, he felt that his body had changed a lot, the body shape had not changed, but the muscles of the whole body were obviously more firm and powerful.

Before entering the reincarnation paradise, Su Xiao practiced the sword skills for a long time every day.

Unscientific training caused him some damage on the wrist of his right hand, and it hurt every day when he trained.

But now, the old wounds on his wrists were basically healed, it did not take a long time to heal completely.

Mado Akira also returned to the car, this time she looked at Su Xiao's eyes differently.

“Byakuya, where are we going?”

“Helter Skelter Bar.”

The car started, and five minutes later, they came to the front of the ‘Helter Skelter’ bar.

“Wait for me in the car.”

Su Xiao got off the car and left Mado Akira alone.

The ‘Helter Skelter’ bar was opened by a woman ghoul named Itori.

Although Su Xiao did not know the specific location here, he knew that it was a small information center.

He did not come to kill Itori but came here to inquire about information

.

Itori was an SS-class ghoul. According to normal conditions, Su Xiao will not let her go, but Itori had more important uses.

An information dealer who knew the ghouls was far more valuable than a treasure case. Su Yi could get more treasure cases through Itori.

Walking into the bar, Su Xiao didn't find any guests because it was daytime.

The bar was retro style, the walls on all sides were not decorated, it looked dark yellow, the whole bar had no windows, but there was a lamp on the bar, so the bar was a little dim.

“Welcome.”

Some lazy female voices came from behind the bar, and Su Xiao sat in front of the bar.

“Guest, what do you want to drink.”

Itori stood behind the bar, her long orange hair looked particularly conspicuous in the dim bar, which was the most vivid color in the whole bar.

Itori seemed to be calm, but in fact, she was very vigilant. As a reporter, Su Xiao’s appearance was immediately recognized by Itori.

Paying attention to her eyes, Su Xiao knew that things were much easier to handle.

“Answer my question, I am not looking for trouble.”

Itori stepped back a few steps and kept a safe distance from Su Xiao.

“The third-class Investigator, Byakuya, and monster-level humans who fought with Eto.”

The bar was in quiet, and neither of them spoke.

The ability of Itori to inquire about information made Su Xiao feel surprised. The person knowing about Takatuki Sen was normal, but the person surprisingly knew that he had joined CCG.

“Say, What do you want to ask?”

Itori sighed and chose to give in.

“Where is the mutual eating zone of 14th district?”

“Just here, West Street.”

Itori picked up the glass around herself, the glass contained half a cup of dark red liquid which looked like red wine. In fact, it was human blood.

The taste bud structure of ghouls was different from that of human beings. After eating human food, they will feel like vomiting.

Even if it was a drink, it was impossible for ghouls to drink it. Apart from water and coffee, all human foods could not be eaten normally.

“The specific location of the West Street district, the more specific will be better.”

Su Xiao had been somewhat impatient.

“Don’t show such a terrible expression.

Ok, well, after 9 pm every night, the central location of the West Street district is the most serious area of mutual eating. ”

Itori did not hesitate too much and sold out other ghouls.

Knowing the specific situation, Su Xiao left the bar, and he already thought of the way to complete the task quickly.

If it goes well, no more than a week, he can complete the main task (2).

“What is the picture of mutual eating, I’m really looking forward to it.”

Chapter 47

At night, the moon was high into the sky.

14th district, the center of the West Street district.

Here was notorious for the whole city of Tokyo, and whenever night fell, it will become a small place for ghouls to gather.

The ghouls that gathered here were all thugs. Their purpose was very simple. They were killing each other and eating each other. They stood out among many other ghouls.

The status between ghouls was nothing but strength.

The current time was around 8:30 in the evening and shadows flashed from time to time on both sides of the street. Most of the ghouls had begun to gather eagerly.

A man and a woman were walking along the street. Compared with those sneaky ghouls, the two didn’t think about hiding.

“Byakuya, is this really not a problem?”

Mado Akira held the suitcase, wearing a black uniform, and glanced around slightly nervous.

“Ha~.” Su Xiao yawned.

“No problem, I will act by the ‘plan’.”

Unlike the nervous Mado Akira, Su Xiao looked casual.

“Byakuya, I always had a question.”

“Ok?”

“Where is your Quinque, we may have to fight with ghouls later...”

Su Xiao did not have Quinque, he preferred to use [dragon flash] compared to Quinque.

“I don’t need Quinque.”

When Mado Akira heard Su Xiao’s words, she suddenly stopped and looked at Su Xiao with confusion.

“You Don’t need a Quinque?”

The voice of Mado Akira was obviously higher, and she even seemed to have some doubt about life.

“Come on, Akira, you can just stand here.”

Su Xiao patted on Mado Akira’s shoulder, then leaped forward in few steps and jumped on the top of a second floor of the street, disappearing in the night.

“Byakuya? Byakuya-sama?”

A Quinque in Mado Akira’s hands almost fell to the ground, she vaguely guessed Su Xiao’s plan. She was now the bait.

As a second-class Investigator, Mado Akira at most can kill B-class to A-class ghouls. If she encounters the A-class ghoul, she may not be able to win.

She felt like being stripped down and thrown into the ice by Su Xiao.

When Mado Akira just wanted to run, several pairs of red blood red eyes appeared in the darkness around.

One, two, three... a total of seven ghouls.

She’s gonna die, if Su Xiao does not save Mado Akira, she will absolutely die.

Mado Akira pressed the button on the handle of the suitcase, and her Quinque appeared. It was a kind of weapon like whip called Amaz.

“Ghouls Investigator!”

“How can an Investigator appear here?”

“It’s okay to kill her. Now is not the mutual eating time yet. I haven’t eaten an Investigator before.”

Didn’t know why, there were no fights amongst these ghouls, and their mutual eating surprisingly had a certain time.

It seemed that the situation in the West Street district was definitely not a spontaneous organization.

There seemed to be a power that maintained the place. Otherwise, these ghouls will never start killing each other until nine o’clock.

This should be a sort of selecting method. After standing out among many ghouls, that ghoul could join a certain force.

“Come, this woman is not strong, she isn’t dangerous.”

The more ghouls gathered from the original few ghouls to more than a dozen ghouls.

Mado Akira’s heart had already become cold, and now she had no chance to escape.

“It seems to work well.”

Su Xiao’s voice came from the roof beside the street.

When Mado Akira heard Su Xiao’s voice, she was really relieved, but she still had no some idea what will happen. Can this new CCG Investigator really handle this amounts of ghouls, although she heard that he was very strong?

“Who are you?”

“Are you an investigator?”

The dozen of ghouls surrounding Mado Akira watched Su Xiao vigilantly.

Su Xiao gave them a different feeling from Mado Akira, it was a feeling of a natural enemy.

Su Xiao had already held [dragon flash] and jumped from the top of a few meters high roofs and landed smoothly.

“Fourteen ghouls can be solved in five minutes.”

Su Xiao walked slowly toward the ghouls, and his footsteps became faster and faster, and eventually turned into a blur.

Two of them were witty, they found something wrong immediately, and they turned around to run. The remaining twelve ghouls were facing Su Xiao.

Ten rinkakus and bikakus hit Su Xiao.

At this moment, Su Xiao was almost wrapped up by kagune.

Seeing this scene, Mado Akira was shocked, she held Quinque rushed to an A-class ghoul.

This was already the best ability of Mado Akira, even if it was an A-class ghoul, she might not be able to cope with it.

Dark red kagune wrapped Su Xiao, and the bright sword light crossed in the night.

Su Xiao opened [Qing Gang Ying], 2 Mana points were consumed per minute.

The ten kagunes were instantly cut off, and the broken kagunes turned into a red mist and dissipated in the air.

The ghouls that had their kagunes cut off made a scream, and some looked at Su Xiao with fear.

Su Xiao quickly rushed to the front of an A-class ghoul, [dragon flash] left a light blue, white line in the air.

A skull rose to the sky.

Just a face-to-face, the ghoul died in Su Xiao's sword, a crisp and clean kill in seconds.

Su Xiao's rapid steps did not stop, and when he moved, he rushed to a nearby ghoul.

Perhaps the partner died too quick, this ghoul was actually stunned in the same place.

After a second, the ghoul turned to run.

“Stupid.”

Su Xiao's black eyes seemed to be shining.

It was undoubtedly the most stupid behavior to escape while fighting and turning your back at the enemy, and it was no different from sending yourself to die.

“Snigger.”

[Dragon flash] cut through the heart of running ghoul, Su Xiao held the handle with both hands, and the strength attribute of 13 points made it easy for him to pick up the ghoul, and then threw it at another ghoul who was running.

With a snigger, the ghoul rolled on the ground.

When the ghoul wanted to get up, a sleek sword light came to its sight.

First, there was a humming sound in his ears, and then the ghoul fell.

The last memory of this ghoul was a headless body that was squirting blood, and a man standing in the moon with a sharp blade, like a god of death.

Twelve ghouls, except for the one who was entangled by Mado Akira, there were still eight remaining.

In less than 20 seconds from opening the war, only eight of the eleven ghouls were left.

The remaining eight ghouls, now only had the idea of escaping, they needed to get away from this god of death.

“That’s impossible, how can such a strong human appear in the mutual eating area, why didn’t the organization do anything?”

After a roar, the ghoul turned around and ran.

Su Xiao’s agile attribute was 13 points, which was the same as the strength attribute. In the world where the power system was not strong, he was considered quite strong.

Su Xiao was not strong because of his attributes which were higher than ordinary people, but because of his Sword and fighting skills.

Of course, the function of the shadow of the law could not be ignored.

There was only one combat skill in the shadow of the law, as the time from when he got the shadow of the law was too short. The power of this profession had not been completely used yet.

Su Xiao ran on the street and killed a ghoul from time to time.

Painful sorrow and pleading around the streets.

They were not stupid, they all ran in different directions.

In the end, from the eight ghouls, Su Xiao killed six, and two lucky guys escaped.

At this time, Mado Akira was still struggling with the A-class ghoul, the A-class ghoul had been almost crying out, he was not afraid of Mado Akira, but afraid of the man that seemed to be a god of death.

Mado Akira was engaged in battle, as the A-level ghoul gave her a lot of pressure. She didn’t have time to check the surrounding situation.

She was still too young, checking the surrounding in battle and looking at the situations was necessary. Otherwise, it was very likely to be sneakily attacked.

“Please, let me go.”

Suddenly, ghouls asked for mercy which made Mado Akira stunned. When the ghouls had the upper hand, why did they start begging for mercy, the battle temporarily stopped?

At this time, Mado Akira just saw the situation around.

Su Xiao was sitting on the body of two ghouls, smoking the cigarette, and the long sword in his hand was still dripping blood.

The pretty eyes of Mado Akira were rounded. She had not solved this single ghouls. The person surprisingly killed the remaining ghouls.

“The one over there, if you dare to run, I will cut slice by slice.”

Su Xiao looked at the last remaining ghouls, and the new bait appeared. After all, it was not too good to use the subordinate as a bait.

Chapter 48

Mado Akira's stopping gave the ghouls an opportunity to escape.

The ghouls just wanted to escape, and he then heard Su Xiao's threat.

The ghouls hesitated for a moment, and immediately turned around and ran, not paying attention to Su Xiao's words.

Or this was the right choice, if he ran he would die, why doesn't he fight for that chance to escape?

When the ghouls just ran a few meters away, a long sword came with a broken wind.

“Snigger.”

The longsword cut through the ghouls's calf and nailed him deeply into the asphalt paved streets.

“Ahhhhh.”

The ghouls screamed and fell to the ground, his face was kissing the asphalt road.

“The wrong choice.”

Su Xiao got up and walked slowly toward the ghouls.

The behavior of the ghouls was normal to him. If he faces the same situation, he will choose to run as well.

If he doesn't escape, he will still die. Why did not he wait for it?

“You, what are you going to do?”

The eyes of the ghouls were flustered as he tried to crawl forward. [Dragon flash] nailed him to the ground and he couldn't move.

Su Xiao took the handle of [dragon flash] and pulled out [dragon flash], the ghouls immediately wanted to get up and escape.

The light of sword swept, and a large piece of blood splattered on the asphalt road.

Four strikes, Su Xiao, broke the limbs of the ghouls and did what he had said.

With the vitality of ghouls, this kind of injury could only be described as a serious injury, but there was no danger to his life.

“What should we do next?”

Mado Akira looked slightly tired. The battle just made her feel a little tired, sweat-drenched her clothes, and the pale yellow hair clung to her forehead.

“Continue, how many ghouls come, we will kill all of them tonight.”

Mado Akira felt cold in her mind, there were hundreds of ghouls in the West Street district, and even more.

“Can we really do it?”

Su Xiao did not make a sound and began to clean up the bodies on the streets.

He was going to put a bait here, and a ghoul with cut off limbs was a good bait.

However, ghouls were not stupid. There were so many bodies here, and it will only scare other ghouls away.

The bodies were piled up in an alley, but the blood on the asphalt road wasn't cleaned, and the bloody smell could also attract ghouls.

The ghoul with cut off the limbs was thrown at the center of the street by Su Xiao.

He did not need to bring other ghouls too close, he just needed them to show up.

With Su Xiao's agility attributes, as long as they show up, they could not escape.

Hunting low-level ghouls, although the chance of dropping the treasure chests was small, he could get the contribution value of CCG.

Not only that, but his talent ability [the psychics] could also increase his Mana.

Now Mana was very important to Su Xiao, and Qing Gang Ying was a big weapon which consumed lots of it.

Su Xiao held the [dragon flash] while standing in the center of the street, and Mado Akira stood aside.

“Will ghouls appear?”

Su Xiao didn't care about Mado Akira. The kind of ghouls that can eat each other were beasts. The bloody smell will not scare them away, it will only lead them.

In just two minutes, the first ghoul appeared.

It was an old ghoul, his body was thin.

After seeing Su Xiao with a sharp sword in his hand, the old man hesitated for a moment and chose to retreat.

But it was too late, Su Xiao has already rushed forward.

A minute later, Su Xia had blood stains on his shirts, and returned to the same position and waited for the next prey.

On a roof of the high building in West Street district.

The night wind blew, and under the moonlight, two people could be seen standing on the roof.

“What do we do, if we do not do anything, all of the ghouls here will be killed.”

Kirishima Ayato, wearing a black rabbit mask, spoke and looked at Su Xiao in the distance with vigilance.

Tatara stood beside Kirishima Ayato without speaking and silently looked at the scene in front of him.

This place was the ‘army’ of the Aogiri trees, and the cadres of Aogiri trees came here often and invited those stronger ghouls.

For example, the Bin brothers were here before they join the Aogiri tree.

“Give up.”

Tatara’s words made Kirishima Ayato a bit unwilling.

“This.....”

When Kirishima Ayato was about to speak, he found that Tatara was staring at him.

“Are you going to stop that monster?”

Kirishima Ayato was stunned and turned his head away. Su Xiao gave a strike made him still remembered it deeply now.

“Then..you want me to go?”

Tatara’s eyes were full of killing.

“No, I mean to assemble members and kill this human.”

It seemed that Kirishima Ayato’s hatred toward Su Xiao was not shallow. After all, Su Xiao almost killed him.

Tatara thought for a while and shook his head.

“The price is too great. Even if we can successfully kill this man, you and I may die in battle.

Going away, I will give up completely in this place, knowing that this monster is in the 14th district is also very important information. “

Although Aogiri tree not only had this ‘army’, it was a big loss to abandon it, they were forced to do so.

Both Tatara and Kirishima Ayato had left, and the ghouls lost their backers.

....

The sun gradually rose and a golden morning glow emerged.

In the center of the West Street district, Su Xiao was sitting on the street with a tired face.

The street within half a kilometer away was full of blood, and the rich bloody smell filled the street.

Su Xiao couldn't remember how many ghouls he killed this night. At the end of the day, not even half a ghoul could be seen in this place.

The unusually rich bloody smell made ghouls alert, and a message was gradually spread between ghouls in the West Street district.

Never come close to the central area, there was a terrifying human there!

Although Su Xiao was covered in blood, he wiped the [dragon flash] clean and put it into his storage space. He loved and cared about his weapons.

Su Xiao started by looking at his contribution points.

[Second-class Investigator, contribution points 390/400.]

In one night, Su Xiao got 340 points, which showed how many ghouls he killed.

Not only was the contribution points, Su Xiao's talent ability [the psychics] had swallowed 68 points of Mana.

His current Mana had become 238 points, and the opening time of Qing Gang Yin had greatly increased.

In the storage space, there were also three white treasure cases.

The number of ghouls he killed was too much. Even if the probability of dropping the treasure chest was small, he still harvested three treasure chests.

“Byakuya, let's go back, I can't do it anymore.”

Mado Akira was lying on the street, and she didn't care about her elegance anymore.

“I am also reaching my limit, let's go back to the branch.”

Su Xiao got up and took a few steps and found that Mado Akira still was lying on the ground.

“That..., I am off.”

The tone of Mado Akira was somewhat unnatural.

Last night, Su Xiao was basically hunting and killing. Mado Akira was responsible for handling the body and was not responsible for the battle. Even so, Mado Akira had already lost her energies.

Su Xiao walked to the side of Mado Akira and put Mado Akira on his shoulders. The full and soft touch came from behind.

“Please do not go back to the branch. I look too shameful now.”

The close contact made Mado Akira's face looked a little red.

“My home is nearby and can be reached by car in a few minutes.”

Su Xiao thought about it, the advice of Mado Akira is good, and he was in urgent need of rest now.

Driving toward Mado Akira's house while she recovered some energy along the way, at least she could walk alone now.

Mado Akira lived in a single apartment. The room was small but very warm. After entering Mado Akira's home, Su Xiao took off his shirt while Mado Akira was horrified as he went straight to the bathroom.

He was now covered by blood, and it was very uncomfortable to sleep like this.

Just as Su Xiao washed his body with warm water, the bathroom door was ringing.

“Byakuya, please be faster, I must take a shower as soon as possible, I.. , I have clean my body, the blood condensing on the skin is a nightmare.”

Chapter 49

In the afternoon, Su Xiao woke up from his deep sleep.

Ample sleep made him feel energetic, he sat up on the sofa in the living room, and the smell of food came.

There were a few delicate foods on the coffee table next to him.

A bowl of rice, a grilled fish, and a bowl of aroma soup.

Next, to these foods, there was a note.

“Byakuya, I went to the branch to deal with the follow-up events of the killing ghouls—Mado Akira. “

Su Xiao was stretching. Although Mado Akira was not strong, she was a good assistant.

After eating the food in front of him, Su Xiao took out the five white treasure chests and opened them separately.

These five treasure chests (white) were all coming from common ghouls, and Su Xiao did not expect too much from them. He obtained the following items respectively.

[1100 paradise coins] (The total amount of paradise coins from all five treasure chests)

[kakuhou(Grade A)] × 2

[kakuhou(Grade B)] × 1

....

Of the five treasure cases, two chests only had paradise coins, and the remaining three were the only kakuhou.

These kakuhou were temporarily useless, and Su Xiao also needed to contribute to the promotion of positions, and could not make a Quinque temporarily.

Fortunately, upgrading his position required only a certain amount of contribution point, and did not consume them.

After he was promoted to the superior investigator, he was able to make a Quinque with the cumulative contribution points.

Even if he does not make Quinque, these kakuhou can also be sold in the reincarnation paradise, which will be significant income.

Acquiring 1,100 paradise coin was generally good.

Su Xiao leaned on the sofa and began to plan his next move.

First of all, he had to complete the main task (2), the punishment of the main task (2) was very serious, which is deducting 3 points for all attributes.

Power, agility, and intelligence attributes were okay, even if it is greatly affected by the deduction of 3 points, it was still not unacceptable.

If the Vitality was deducted by 3 points from the 6 he had, it would be reduced to 3 points. The consequences can be imagined.

As for the charm and luck attributes, they were even more daunting, as they will turn to 0.

Regarding the charm attribute, Su Xiao had a speculation that the charm attribute did not represent the beauty and ugliness of appearance, but about personal temperament.

For example, some people are very friendly, and the charm attribute will be inherently high. For example, those stars in the real world should not be low in charm attributes.

As for Su Xiao's murderous appearance, his charm attributes will definitely be low.

However, this kind of temperament for him was not without benefits. If he joins the evil forces camp, he will be particularly popular.

After being deducted by 3 points, his luck attributes may even be in the negative if that is allowed.

At that time, he will be in danger of losing his life at any time.

Therefore, the main task (2) must be completed, not to mention that completing It would get him 1 point of attributes, and 1500 paradise coins, which was not a small gain.

The second task was to complete the hunting task.

Regarding the hunting mission, the reincarnation paradise did not indicate the reward. Su Xiao had a feeling that the reward for completing the hunting mission should be very good. After all, he was helping the reincarnation to remove hidden dangers.

“So, continue to finding the gathering places of ghouls.”

Last night, the benefits of large-scale hunting made Su Xiao get some benefit, he will not go to find ghouls one by one, it not only wasted time but also could not help him gain a lot.

It was convenient to look for a large-scale gathering place for the species.

It is not easy to find a large gathering place of ghouls. The gathering places on the bright side were too horrible. For example, there were hundreds or thousands of ghouls in the 1st to 4th districts.

Even Su Xiao did not dare to go to the super large gathering places. Thousands of ghouls rushed up at the same time. Even if they were all B-class, they could still kill him.

The population of ghouls in the gathering place was preferably controlled within 100, more than that numbers, Su Xiao will not be able to cope with them.

Last night, he was able to kill dozens of ghouls without pain, mainly because those ghouls did not rush into him together at the same time.

Fighting with one ghoul and fighting with one hundred ghouls were two different things, the so-called two hands would hardly be able to fight four. Su Xiao was also a human. He will also get injuries and will die after that.

In this way, he needed to go to the 'Helter Skelter' bar again, Itori should know this kind of information.

And this time, he would not ask for information in a threatening way. It was not a long-term solution.

The rabbit will bite if it was nervous, not to mention that Itori is an SS-class ghoul.

Picking up the phone from the coffee table, he dialed Mado Akira's number.

"Byakuya, you woke up?"

Mado Akira's voice was crisp, and the tone was pleasant.

"How was the matter handled?"

"I have already finished it, and the headquarters has received bodies of ghouls. If nothing happens, I can get a new Quinque."

Mado Akira's chuckle sounded like a bell from the phone.

"Byakuya, how do we deal with those ghouls' kakuhou, they were all killed by you, you have the right to deal with those kakuhou."

Su Xiao had thought for a while, his current contribution values were [second-class search officer, contribution points: 390/400.], he only needed 10 points of contribution points for the next promotion.

"Hand in two third to the headquarters, and the remaining one-third, help me to change them for a thing from the headquarters."

Su Xiao exchanged the contribution value with two-thirds of kakuhou.

After hearing what Su Xiao wanted, Mado Akira was stunned.

"You want that thing? Ok, I will report it up, but the stock of that thing in headquarters is not much, it will only be used when they're making Quinque."

Now Mado Akira was diligent to work with Su Xiao, because working with Su Xiao, she could not only gain achievements but also develop her combat skills quickly.

The phone hung up, after an hour, Mado Akira returned home.

“I got that thing, there is just one in the branch, but I’m a bit curious, Byakuya, what do you want to do with this thing, it is dangerous for humans, it is highly toxic.”

Mado Akira took a small metal box, and she was very careful as if there was something fragile inside.

“Some things, you better not knowing.”

After receiving the metal box, Su Xiao opened.

“Be careful.”

The metal box was opened, Mado Akira has subconsciously backed up two steps.

After confirming the thing was no problem in the metal box, Su Xiao closed the metal box and placed it in the storage space.

He didn’t avoid Mado Akira, and she was not surprised because the items suddenly disappeared, as if all this was taken for granted.

This was the camouflage mechanism of the reincarnation paradise, allowing various abilities to be integrated into the ghoul’s world.

“Let’s go to that bar again.”

Mado Akira was full of doubts, but she did not ask.

As Su Xiao said, some things were better no known.

Su Xiao could trade with the ghouls, but it impossible for her. This was because of concepts.

Twenty minutes later, the two drove to the ‘Helter Skelter’ bar.

Su Xiao still let Mado Akira waited in the car, and he walked into the bar.

“Welcome...”

Itori used to speak. After seeing Su Xiao, Itori suddenly stopped.

In the eyes of Itori, Su Xiao was simply the existence of evil. One night, the Western Street district was cleared of a large number of ghouls, and Itori was even more vigilant to him.

“Don’t be nervous, I am only going to make a deal with you this time.”

Taking out the metal box, Su Xiao took out a test tube from the metal box.

The test tube looked exquisite, with a length of ten centimeters, a thumb thickness, and a light red half transparent liquid inside with bubbles in it.

After seeing this test tube, Itori swallowed, and her eyes could not move away from it anymore.

Ghouls rarely got the things in Su Xiao’s hands, but almost all of them were eager for this kind of thing.

Chapter 50

The test tube was turning in Su Xiao's fingertips. The test tube left some shadows under the dim light.

After paying attention to the look on Itori's face, Su Xiao smiled.

“Ding.”

The test tube was placed on the bar, and the glass collided with the marble.

The crisp sound made Itori's heart pumped out, she feared that Su Xiao would break the test tube in his hand.

“How about working with me?”

“This was the first time I see this kind of Investigator, you surprisingly want to cooperate with ghouls.”

Itori looked at Su Xiao with surprise, she knew clearly that it was absolutely dangerous to cooperate with Su Xiao, but the liquid in the test tube in Su Xiao's hand had a fatal temptation to her.

It was not a panacea in test tubes. For humans, this was highly toxic.

[Rc Cell Concentration]

Quality: white

Type: Material

Rating: 8 (Note: White items scored from 1 to 10, the higher the value of the item, the higher the value.)

Introduction: The test tube contains a high concentration of Rc cell solution, which is an essential item for CCG to manufacture Quinques and it is used for the activation of Quineque.

....

[Rc cell concentration] is only produced by CCG, and it is unlikely obtained by ghouls.

If this thing is infused by ghouls, the amount of Rc cells in ghouls' body will soar, though the risk is not small, it is much less dangerous than mutual eating.

“You put this thing in front of me, can I refuse?”

Itori was smiling, and her attitude changed a lot.

“Talk about it, what do I need to pay.”

Trade was based on the common interests of both parties. The threat of force may benefit in a short period of time. It was absolutely not a long-term solution.

“I want the location in the 14th district that ghouls gather in, the more, the better.”

Su Xiao threw the test tube to Itori, and the charming smile on Itori's face disappeared.

“You are ready to clear the 14th district?”

There was fear in Itori’s eye.

“Do you have a problem with that?”

Su Xiao looked straight at Itori.

At this moment, Itori felt that the test tube in her hand was a little hot.

“No, no problem, wait a minute.”

Itori took out the pen and paper, and then she wrote and drew on it.

Five minutes later, a simple map appeared in Su Xiao’s hands.

“The locations where I circled are all ghouls’ gathering places, including restaurants, auction houses, information exchange points, etc.”

Although the map is simple, its use was not small.

“If the map is not accurate enough, I will come back.”

Su Xiao looked at Itori with a deep meaning. She was a ghouler. He will not completely believe in her.

After Su Xiao left the bar, the expression of panic on Itori’s face disappeared.

“Hey, come out.”

Itori took a cup of human blood next to her hand and took a light sip, her red lips were even more beautiful after doing this.

A ghouler with a special appearance, he looked quite the smart type.

The name of the ghouler was Uta, he had a mask shop in 4th districts. The mask of Kaneki Ken was made by him.

“He found me.”

Uta sat next to Itori.

“How is it possible, with your hiding skills, how did the man find you?”

Itori felt somewhat unbelievable while there was a drop of blood falling from the corners of her lips.

“It can’t be wrong. I just felt cold in my back, just like being stared at by some kind of beast.

After all, he was a monster that could fight the one-eyed owl. This is not unexpected.”

Uta leaned on the seat and didn’t know what he was thinking.

“Forget it, as long as we don’t provoke him there won’t be a problem, does the organization have any plans recently?”

Itori secretly decided to move! Stay away from that monster! She still wanted to live.

Being stared by Su Xiao was not a good feeling. Although Itori was eager to get more [Rc Cell Concentration], life was more important.

“No plans, I don’t know where Nico and Roma are.”

The organization of Uta and Itori is named ‘Clown’, it’s a mysterious ghouls organization. There were five members:

Furuta (currently the biggest villain, the clown leader.)

Nico (a shemale and a masochist.)

Itori (the owner of the bar in the 14th district, she had provided Kamishiro Rize’s information to Kaneki Ken.)

Roma Hoito (the woman ghoul got into the coffee shop in Antique district in the late stage of the plot became a waitress in Antique district.)

Uta (mask shop owner.)

....

Among the five, except Furuta, the remaining four were all SS-class ghouls, which usually hid their strength and pretend to be harmless to human and animals.

Furuta, his full name was Souta Washuu-Furuta. He was not only the leader of the clown, but also a member of other organizations. This guy was now hiding in the dark, and his strength was on the top.

After Souta Washuu-Furuta transplanted Rize’s kakuhou in the later period, his strength grew dramatically, even reaching the level of easily defeating Takatuki Sen.

It was true that the clowns were powerful, but these people usually did their jobs and rarely gathered.

In other words, the clown organization was staying between Aogiri trees and CCG, not to fight, but to get some benefits when these two organizations were fighting.

....

After Su Xiao got the ghouls’ gathering places in the 14th district, he returned to the car.

“Akira, where is this?”

Su Xiao pointed to a circle on the map, and Mado Akira looked at it closely and frowned for a long time.

“This seems to be the Da Yuan auction.”

“Seems?”

Mado Akira took the map and studied it for a long time with a confused expression.

“Uh, it should not be wrong.”

Su Xiao sighed, the simplicity of this map was far beyond his imagination.

“It can’t be wrong, here is the Da Yuan auction.”

Mado Akira took out the formal map of the 14th district and made a serious comparison.

“At 11pm on Sunday, a large auction is held. What does this mean?”

Mado Akira read the slogan on the map and was puzzled.

“We need to keep working tonight, continue to kill ghouls, let’s go to Dayuan auction.”

Today, it was coincidentally Sunday.

Su Xiao leaned on the seat. He didn’t know what would be auctioned between ghouls. It should not be valuable items.

More than 70% of ghouls were psychologically distorted.

The only food of ghouls was human. The appearance of humans looked exactly the same as ghouls. Ghouls’ would definitely not be healthy because they often devoured creatures that were similar to their own appearance.

And Su Xiao felt that ghouls may not be a living creature originally, otherwise in the long history of evolution, would have already gone extinct.

The ghouls’ world was not strong, but comparing ghouls with ordinary humans, they were much stronger.

If they were normal beings, then the first human would go extinct, and then ghouls would follow suit.

The time limit of the main mission was twenty days. Only two days passed. Su Xiao may be able to understand the secrets of the ghouls’ world deeply.

It was too early to think about these, maybe he should think about it after completing the Main task (2).

At this time, the reincarnation paradise gave a hint.

[A large number of low-level kagune have been sent to CCG headquarters. You obtained 135 points of contribution.]

[Position: Second-class search officer, contribution values 525/400, Get a Promotion: Yes/No.]

Su Xiao twitched his eyebrows, those points he got from the kagune were not bad.

As for why Su Xiao did not leave those kagune, it was because those kagune could not bring out from the derivative world.

Except for the items in the treasure chests, most of the items could not be brought out from the derivative world.

Choosing to get the promotion, the hint of the reincarnation paradise disappeared. If he wants to be a first-class Investigator, he needs CCG’s appointment, but the appointment will come soon.

Now he only needed to continue hunting ghouls. He wanted to clear the entire 14th district.

Su Xiao did not believe that he will not be promoted to Superior Investigator after he kills all ghouls in the 14th district.
