

# RESTRICTED SUPERSTAR

## Chapter 12: Obscene goal

On Saturday afternoon, the Lucheng No. 3 Middle School football stadium ushered in a heavyweight match. This was the peak duel between the new and old kings of Lucheng No. 3 Middle School.

This time, not only hundreds of students came to watch, but also many teachers, including Mr. Zhou Mingde, the coach of Lucheng No. 3 High School Team.

Zhou Mingde is very aware of the strength of Science Class 3, and it is not an exaggeration to say that this is the majority of the school team. He does not believe that Liberal Arts Class 13 is capable of challenging Class 3.

The fact that Gao Xiaodong was firmly rejected by the monitor that day had already spread throughout the class, and it also aroused the sympathy of many female students, so this time there was no monitor organization, and most of the girls from Class 13 also came to the stadium to cheer for the team.

Most of the female students don't understand football. If there are those who like to watch football games, they also want to watch handsome guys. Only today's game is related to the honor of Class 13. Almost all girls give the ball with the attitude of watching a sports meeting. Come on team.

Zhao Xiyuan and Li Xiu didn't come, originally they could come or not, but because they were angry with Gao Xiaodong, they chose to study in the class.

In the past two days, Wang Dong, the coach of the city's youth team, has given them targeted training based on Sun Haitao and others' description of the science class 3 team. Let them adopt defensive counterattack tactics,

adopt man-marking tactics against the core midfielder Liu Guangfei, forward Yang Ming and Li Heng of Class 3, strive to keep the tie, and use Gao Xiaodong's personal ability to sneak attack one when there is a chance.

During the warm-up before the game, Sun Haitao, the captain of class 13, went to class 3 to greet his school team teammates, Guys, I'm here to learn from you, please be merciful.

Liu Guangfei, the captain of class 3, didn't speak, Yang Ming said in a sly way: Don't dare, now you are the boss of the school, winning 19 consecutive victories, we have to learn from you.

Li Heng said contemptuously: Haitao, you have to defend yourself well, Yang Ming and I will not show mercy.

Sun Haitao was upset when he saw that his teammates were not friendly at all, so he said I'll wait for you and turned away.

The atmosphere before the match was not good, and both sides were anxious to prove that they were the strongest among the three. After the start of the match, both sides did not try and directly attacked. During physical contact, he uses both hands and feet, and his foul movements are very large. Not only are he frequently tackled, but he also has martial arts movements such as sweeping his legs and kicking.

The chief referee on the field is just a student of the student union, and his level of law enforcement is not high. Facing such a fierce scene, he has no control ability, which makes the game more and more popular.

Hit!

shovel!

Fuck them!

...

The boys from Class 13 and Class 3 on the sidelines were loudly fanning the flames on the sidelines for fear of chaos.

The coach of the school team on the sidelines, Mr. Zhou Mingde, was very worried. He felt that if the game continued like this, the two sides would become more and more angry, and there might be an accident. So, less than ten minutes into the match, Zhou Mingde asked the student to referee. , Go up to law enforcement for him.

Zhou Mingde is the coach of the school team, and half of the people on the court train with him. His appearance as a referee has greatly intimidated these student players. In addition, Mr. Zhou Mingde's level of law enforcement is more than one grade higher than that student. , the tyrannical tendency on the court was gradually suppressed, and the game developed towards normalization.

Gao Xiaodong is the 1 in the 451 formation in class 13 today, and he is responsible for the important task of scoring goals, but he, Wang Dong, also assigned him a task, which is to harass the captain of class 3, the midfielder Liu Guangfei.

Since Gao Xiaodong's body still weighs 90 kilograms, Wang Dong told him to allocate his physical strength reasonably, harassing Liu Guangfei is a secondary task, and he must leave enough physical strength to score goals.

Liu Guangfei is a sports student with a tall and thin body. He has practiced football for ten years. His skills are the best among the 22 players in the field. However, his physical fitness is poor and he has not been able to enter the echelon of professional clubs.

Liu Guangfei can intercept in the backcourt, and can also put in assists. He also has a good ability to counterattack with a long pass. He is not only the soul of Class 3, but also

The school team is also the core, but today Liu Guangfei has not had the opportunity to play to the fullest. Class 13 has adopted man-marking tactics against him, and there are always people following him and interfering with him getting the ball.

What Liu Guangfei especially hates is the fat man in class 13. Every time he switches from defense to offense, as long as Liu Guangfei is slow to get in, he will definitely come to block Liu Guangfei's way, hit Liu Guangfei once, and when the referee can't see, he will pull He slaps or trips him, Gao Xiaodong is so wretched, even if he can't beat him, Liu Guangfei has the urge to beat him up.

The two forwards of Class 3, Yang Ming and Li Heng, were also marked. Song Dabo and Song Xiaobo were marking at the midfielder position to assist captain Sun Haitao in defending them. Strong and strong, Gao Ming and Li Heng were entangled by them so that they had almost no chance to get the ball, which greatly reduced the pressure on Sun Haitao's defense.

The connection between Liu Guangfei, Yang Ming, and Li Heng was restricted, and their emotions were unstable, which affected the performance of Class 3. Under Wang Dong's guidance, the tactical awareness of the members of Class 13 has been greatly improved, and their playing style has improved. Targeted, the 13th and 3rd classes, which were originally less powerful, were inseparable.

Gao Xiaodong didn't show much in these 30 minutes. He scored nine consecutive games before, and his performance on the court was too wretched and hated, so he also became a thorn in the side of Class 3. When Gao Xiaodong got the ball, , The players in Class 3 also harassed him by pulling and kicking him, making it difficult for him to perform normally.

In the 30th minute of the game, Gao Xiaodong took the ball with his back, and Liu Guangfei, who was marking him closely, secretly pulled his jersey with one hand, and kicked his calf when he caught the ball.

If it was reversed, this harassment tactic would have been completely successful, but Liu Guangfei was as thin as a telegraph pole, Gao Xiaodong was as strong as a stone shaft, he couldn't pull it, he couldn't kick it down, Gao Xiaodong used a back almost like a basketball. In the movement of hitting, he pushed his butt back and waved his arms, throwing Liu Guangfei aside, and turned around easily.

The midfielder was passed, and a central defender from class 3 immediately rushed forward, trying to steal it immediately.

This choice is a bit reckless, which is normal. The defense of class 3 is not good. They are more like a ball-handling style of play. There is Liu Guangfei, an amateur expert in front of the guard, so they rarely lose the ball. Let them face the forward, They are not much better than the defenders of Class 13.

Gao Xiaodong flicked the ball and easily passed the defender who pounced on him.

Fatty is amazing!

Come on, fat man!

Gao Xiaodong showed his strength just now, and now he showed his skills. The students from Class 13 on the sidelines applauded vigorously for him.

However, Class 3 deserves to be the king of Lucheng No. 3 Middle School. Gao Xiaodong just passed a central defender, and another central defender's shovel came again. Gao Xiaodong passed the ball again. He poked Gao Xiaodong's ball away.

This is because Gao Xiaodong's body is too wide to protect the ball tightly, otherwise Liu Guangfei would steal it.

The marking and harassment from class 3 did not dampen Gao Xiaodong's fighting spirit. For the red envelope rewarded by the system, Gao Xiaodong's desire to score a goal was very strong. He kept running to find opportunities to shoot. It doesn't matter whether teammates can pass it or not, and whether you can hold it or not.

However, in amateur games, the defenders and forwards are all amateurs, and the offense and defense are poor. If the forwards have more chances to get the ball, they will have the chance to score goals.

In the 38th minute of the first half, 2 minutes before the end of the first half, Liu Guangfei made an assist and did not come back. Sun Haitao went straight to Zhong Hao, the midfielder of Class 13. Zhong Hao turned around with the ball and saw Gao Xiaodong between the two defenders. Jian turned sideways to ask for the ball, and it was passed to his feet.

Naturally, it was best to put the ball directly behind the defender, but Chong Hao was worried that the goalkeeper would get it and that Gao Xiaodong was too slow to catch up, so he passed the ball under his feet.

Gao Xiaodong is not picky, as long as he has the ball, he catches the ball, the defender comes up to interfere, Gao Xiaodong flicks his arm, and turns around, the defender is pushed aside, Gao Xiaodong also turns around.

The other central defender didn't dare to come up, stood in front of Gao Xiaodong and retreated, waiting for his teammates to come back to help defend.

Gao Xiaodong flicked the ball to go diagonally, the defender quickly followed up, his body was too disadvantaged, he didn't dare to stick too close, he just wanted to wait for Gao Xiaodong's ball to get bigger and put a shovel.

This gave Gao Xiaodong a chance, he slammed the ball towards the defensive player's inside line and forced forward.

This time the defender had no chance to tackle the ball, so he could only turn around and fight for the ball with Gao Xiaodong.

This was exactly what Gao Xiaodong wanted, he bumped like a bulldozer, knocked down the defender and rushed into the penalty area.

The goalkeeper rushed out to catch the ball at Gao Xiaodong's feet.

An amateur goalkeeper is an amateur, patronizing both sides of the goal, but forgetting his own wicket, Gao Xiaodong watched the goalkeeper's legs wide open, he cunningly pushed the ball into the middle, and scored the ball from between the goalkeeper's legs.

1:0

Gao Xiaodong made the first record for Class 13.

After scoring the goal, Gao Xiaodong didn't have time to congratulate, so he kept shooting and asked the system if there was any reward.

The player breaks the scoring record of 9 consecutive games in Lucheng No. 3 Middle School and gets a red envelope.

Gao Xiaodong almost opened the red envelope, but thinking that he couldn't explain it to outsiders in case he came up with a set of black technology, Gao Xiaodong resisted the impulse, turned around and hugged his teammates who came running to celebrate.

Goal! Another fat man!

Put on the crotch! It's too obscene!

Fatty is shameless!

The fat man is so happy and stupid!

...

There was applause and laughter.

Seeing Gao Xiaodong standing still after scoring a goal, it took about three seconds before he started celebrating. The cheering students on the scene were a little dazed, wondering if this guy was too slow to react, or he was just too happy to be silly.
