

Real Daughter 911

Chapter 911: Take Everything Away

Lin Yin suddenly laughed and looked at Yue Han as if she was looking at a fool. She smiled and said, "Yue Han, your brother isn't smart, and you don't seem very smart either!"

Facing Yue Han's cold gaze, Lin Yin continued, "You already said that I'm Lu Ming's little lover and Du Jun is Lu Ming's future father-in-law. In that case, I'm Hou Ning's love rival. Which father would protect his daughter's love rival?"

Mu Ran burst out laughing at the side. He sneered mockingly. "Yue Han, even if you're afraid that your brother will go to jail when they discover that he has broken the law at the police station, you can't talk nonsense like this and say such ridiculous things, right? Do you really think everyone is a fool?"

Lu Ming said coldly, "Yue Han, you were the one who called the police just now. You're the one who refuses to cooperate and is spouting nonsense. Are you playing with me like a monkey?"

Du Jun's eyes turned cold. He did not even look at Yue Han's expression. He did not even give Yue Han a chance to speak. He waved his hand and said, "Take everyone involved in the case away!"

Hearing that he was going to be taken away by Lu Ming's men, panic flashed across Yue Chi's heart and he subconsciously looked at Yue Han.

The blood on Yue Chi's face had been wiped clean, but there was no part of his face that was unscathed. His eyes were swollen, and he looked extremely miserable.

Yue Han stood in front of Yue Chi, his expression so cold that it was about to freeze.

Lin Yin chuckled and said, "Yue Han, the Huaqiang Support Project belongs to the Yue Corporation, so you don't have to be anxious. I think it won't be long before someone looks for you to help with the investigation.

This Huaqiang Support Project had been going on for a few years. Lin Yin did not believe that Yue Han did not know about this.

Just like in her previous life, Yue Han had always known about Yue Chi and how Yue Chi tortured her.

However, Yue Han did not stop him. Some time after she escaped, he even specially came to look for her and tried to use money to shut her up.

It could be said that if Yue Chi was a demon, then Yue Han was the demon king who protected and indulged the demon.

Yue Han's eyes shot towards Lin Yin like cold arrows, but his vision was broken into a few pieces. He saw a few people standing in front of Lin Yin. They were the three Mu brothers, Mu Cheng and his wife, and Lu Ming, who was at the front.

Lu Ming stared at Yue Han sharply and warned, "Yue Han, you'd better consider if some things are feasible. Otherwise, it won't be good if anything happens to the Yue Family."

Yue Han retracted his malice towards Lin Yin unwillingly. He thought that Lin Yin was lucky to have so many backers.

As long as Lin Yin was still the daughter of the Su Family from before, she would not have the right to be arrogant here.

Du Jun's men had already held Yue Chi back. Just as Yue Han's men stepped forward, they were blocked by a few groups of people around them.

Yue Han could only grit his teeth and watch as Yue Chi was taken away by Du Jun's men.

Feng Yu wrapped her sister tightly in her coat, even Feng Rong's face was wrapped tightly. She was afraid that the people outside would see Feng Rong's face.

Feng Yu nodded at Lin Yin and left with her sister and Du Jun's men.

As she watched Feng Yu and her sister leave, guilt attacked Lin Yin's heart again. She wondered if she could have saved these innocent girls if she believed in her suspicion and brought people over to save them, instead of purely coming over to investigate.

Lu Ming followed Lin Yin's gaze and looked at the girl who left. He turned around and saw the obvious guilt on Lin Yin's face. He said gently, "Yinyin, you've done your best."

Lin Yin retracted her gaze from Feng Yu and her sister. She knew, but she would still be vexed.

Ye Wen sighed slightly and said gently, "Yinyin, go back and rest first. You didn't sleep well and your body hasn't recovered. Since Lu Ming is working on the other matters, you can relax."

Lin Yin nodded. Then, she sent a copy of all the information she had to Lu Ming, hoping that Lu Ming could find more evidence from this information and let all the perpetrators receive the punishment they deserved.

"Remember to tell me if there's any progress," Lin Yin instructed Lu Ming.

Lin Yin trusted Lu Ming's strength quite a lot. This trust was reflected on her face, and it seemed to carry a sense of dependence. This made Lu Ming feel a little satisfied and accomplished.

Lu Ming nodded and said, "Yes, I'll report to you at any time. Go back and rest well."

Chapter 912: Second Miss

Lin Yin nodded. When she turned around and saw Yue Chi being carried away, she remembered that she didn't seem to have taken her phone back.

Lin Yin quickly walked up to Yue Chi and said coldly, "Return my cell phone!"

Yue Chi snorted and ignored Lin Yin's words.

Mu Ran was not polite at all. He went forward and touched Yue Chi's body. He even said impolitely, "The dignified Second Young Master of the Yue Family is always doing embarrassing things behind people's backs. Is the Yue Family going bankrupt? You actually stole someone else's cell phone?"

Mu Ran's actions were neither light nor heavy. He even secretly attacked Yue Chi in front of Yue Han, causing Yue Chi to grimace in pain.

Yue Han, who always doted on his brother, was at the side. He had already endured it until his face was as dark as water. Just as he was about to lose control, Mu Ran finally found two cell phones in Yue Chi's obvious pocket.

After returning Lin Yin's phone to her, Mu Ran handed Yue Chi's phone to Du Jun without hesitation and said righteously, "Chief Du, we should cut this suspect's contact with the outside world. It won't be good if they secretly get someone to destroy the evidence."

Du Jun took the phone from Mu Ran and stuffed it back into Yue Chi's pocket. He said without any emotion or bias, "The suspect also has the right to find a lawyer for himself. Moreover, as long as he's guilty, it's useless even if he has a cell phone to contact other people."

Mu Ran pursed her lips. This old man was quite decent.

However, the more righteous a person was, the more troublesome it was for a guilty person. This proved that this person was not flexible and would investigate to the end.

Yue Han's aura darkened. After seeing Yue Chi and the others taken away, he did not even look at the people present and left to save his brother. If this matter was not handled well, Yue Chi would definitely not have a good ending in the hands of someone like Du Jun.

If Du Jun was a nobody, he could still get rid of him secretly. However, Du Jun was a member of the Hou Family, and he was Hou Ning's father. She was doing well in the military. If Du Jun died for no reason, the Hou Family would definitely investigate to the end. When they find out that the Yue Family did it, the enmity between the Yue Family and the Hou Family would be huge.

Lu Ming was clearly doing it on purpose. He knew that if he found someone with no background, this matter would not be investigated at all.

After the crowd slowly dispersed, Shen Lin, who was hiding in the dark, walked out. In front of her was a small figure. It was the little girl who had just joined forces with Yue Chi to scheme against Lin Yin.

Shen Lin looked at the girl in front of her with a constipated expression and asked awkwardly, "Second Miss, why are you here? Does Master Fu know that you're here?"

Fu Bei raised her head slightly and looked at Shen Lin from the corner of her eye. She questioned in a delicate tone, "Why can you come but I can't?"

"I'm on a mission. It's different from you," Shen Lin said.

Fu Bei snorted. "What's different? I'm worried about you coming to carry out the mission. Can't I come out to supervise you? I helped Yue Chi scheme against Lin Yin to cause the Mu and Yue families to be at odds."

"It's a pity. If something had happened to Lin Yin today, the Mu family and the Yue family's hatred would probably be even deeper. They would definitely fight to the death. Coupled with the Lu family, it would be easy for Dad to take over the Yue family."

Shen Lin hurriedly went forward to cover Fu Bei's open mouth and whispered, "Second Miss, lower your voice. We're still in the Yue Family's territory. What if someone's listening?"

Fu Bei slapped Shen Lin's hand angrily. "What are you afraid of? The Yue Family can't even protect themselves now."

Shen Lin restrained her temper and said in a low voice, "Second Miss, this Yue Family is also an aristocratic family. They still have some power regardless. If Yue Han finds out, he will definitely burn all means to deal with you. That's also very dangerous. The final attack for a criminal at their wits end would be mutual destruction."

The corners of Fu Bei's lips curled up in disdain. "That's none of our business. He'll look for Lin Yin. Even without us, when Lin Yin is dealing with Yue Chi, she's dealing with the Yue Family. We're just taking advantage of the situation. What are you afraid of?"

Shen Lin sighed at Fu Bei, feeling like she could not get through to her.

Actually, Fu Bei was right. Lin Yin only wanted to deal with Yue Chi, and they were the ones that were actually dealing with the Yue Family.

If Yue Han found out that his ally, who had been cooperating with him, actually attacked in secret, he would definitely lead everyone to death.

Chapter 913: Information Lost

Seeing that Shen Lin was about to speak, Fu Bei waved her hand impatiently and said, "Stop nagging. It's so annoying."

As soon as she finished speaking, Shen Lin was about to leave when she quickly asked, "Second Miss, where are you going?"

If she did not see Fu Bei, Shen Lin could pretend not to know and do her own thing. But now that she had seen her, she could not ignore her. If this Fu Bei, who was causing trouble everywhere, caused trouble in the country and disrupted Master Fu's plan, she would probably be held accountable.

Shen Lin felt extremely unlucky.

"I'm going to watch the show!" Fu Bei turned around and looked at Shen Lin as if she was looking at a fool. She said, "Since I'm already here, I naturally have to take a look. I'm warning you, don't report me. Otherwise, when I go back to Country D, I'll blow up your laboratory."

Shen Lin's eyes widened. "Second Miss, you can't be like this. If you're like this, I won't care about morals anymore. If you blow up my laboratory, I'll blow up your doll's cloakroom."

"Shen Lin, how dare you!" Fu Bei was so angry that her voice was a few decibels louder.

Shen Lin immediately went forward and covered Fu Bei's big mouth fiercely. She gritted her teeth and whispered, "Second Miss, if you continue to be so loud, I'll really do it!"

Fu Bei glared at Shen Lin hatefully and left angrily.

Shen Lin quickly followed. It was Shen Lin's business to not let Fu Bei get into trouble.

As soon as Yue Han returned to the Yue Family, she went to Yue Xi's study. Seeing that Yue Xi was talking to someone, Yue Han could only sit at the side patiently.

"Yes, destroy all the information. We can't let Du Jun find anything." After Yue Xi said this, he hung up.

However, before Yue Han and Yue Xi could determine how to resolve the matter, Yue Xi's phone rang again.

"All the original data records have been lost." Wei Chuan's voice came from the other end of the phone.

Yue Xi and Yue Han's expressions changed. They recorded this so they could have dirt on those people, and there were also videos recorded to control those girls. Now that they were missing, it was obvious who had obtained the information.

Although they had held back when they recorded it, there was nothing related to the Yue Corporation or Weichuan on it. However, these things happened in schools under the Yue Corporation, so they could not deny responsibility.

Even if they could get the lawyer to say that the students took the initiative to seduce those school sponsors for money, it would probably be difficult to explain clearly. After all, those female students were all students they had led to sponsor.

More importantly, if the information inside was exposed, many people would probably treat the Yue Family as a thorn in their side.

Back then, in order for the Yue Family to stabilize their foundation in the capital, they had used these female students to pull many people down. There were many high-ranking government officials and higher-ups of companies.

If the truth was exposed, the Yue Family would really be the target of public criticism.

Yue Han's eyes surged with ruthlessness as he slowly said, "Then expose this matter to the military. Go up and say that the Mu family plans to expose Li Mu's matter through the media."

Yue Xi suddenly turned to look at Yue Han. "You mean you want the military to come out and stop it?"

Yue Han snorted. "Li Mu is a high-ranking officer of the Military, and there are many people from the Li Family in the Military. Whether it's the Li Family for Li Mu or the Military for their reputation, someone will definitely step up to stop this matter, right?"

"Moreover, the person Lu Ming arranged this time is Du Jun. Du Jun is Hou Ning's father, and Hou Ning is from the military. We can't get rid of Du Jun, but we can use the relationship between Hou Ning, Du Jun, and the military to get the military to change the person in charge of this case to someone easier to talk to."

Yue Xi thought for a moment and realized that there seemed to be no other way. Du Jun was on Lu Ming's side. They could not take him away, so they could only let the military start with Hou Ning.

He believed that with the pressure from the military, Hou Ning would come out to stop Du Jun. Even if Hou Ning was as stubborn as Du Jun, couldn't they just use the military to transfer Du Jun elsewhere?

Yue Xi's eyes darkened. Then, he said, "I'll get someone to expose Li Mu's matter and send the backup information over."

The people from the military knew about Li Mu's matter. At the same time, when they found out that the person who dealt with this matter was Hou Ning's father, they immediately looked for Hou Ning.

Chapter 914: Young Man

Hou Ning frowned at her superior opposite her and said with a puzzled expression, "We'll do what needs to be done. Sir, why are you looking for me?"

Xu Long poured a cup of tea for Hou Ning and said with a gentle expression, "You know that Li Mu is from the military. If this matter gets out, it would be bad for our reputation."

"What I mean is to ask your father to speak up and ask the Lu and Mu families not to spread this matter first. When the matter is investigated, if Li Mu really did something immoral, we'll deal with it secretly."

Hou Ning's expression darkened. "Sir, this matter involves so many students. Even if the Lu and Mu families didn't say anything and didn't leak it, there were so many people present at that time. How can you be sure that no one would leak the news? At that time, if they find out that Li Mu really broke the law and that we deliberately covered it up, we would become an accomplice."

"Hou Ning, what are you saying?" Xu Long's expression darkened. Then, he asked with a probing expression, "Don't tell me you've gotten close to the Li Family's enemy recently, so you plan to use this matter to directly get rid of Li Mu?"

Hou Ning picked up her teacup and smiled. Then, she took a sip of tea unhurriedly and said slowly, "Sir, I'm very hurt by you saying that. Speaking of the people that I'm close to recently, isn't it you Sir?"

"If Li Mu didn't do anything, shouldn't my father investigate to the end to prove Li Mu's innocence and prove that our military doesn't have people who do dirty things? Isn't that good?"

Hou Ning paused for a moment and placed the teacup in her hand on the table. Then, she asked softly, "Is it true that Li Mu was playing with the female students?"

Xu Long was stunned by Hou Ning's question. He didn't know if it was true, but the higher-ups wanted him to talk to Hou Ning. Even if it wasn't true, he was still a little involved.

However, he couldn't say anything at this moment. He immediately pulled a long face and said in a reprimanding tone, "What nonsense are you talking about? This matter isn't clear yet. Do you think it's appropriate for you to speculate about your comrades like this? You don't trust your comrades and the discipline of the military. Hou Ning, there's something wrong with your mind!"

Hou Ning chuckled. "Sir, is it that serious? I was just asking casually. Why are you so agitated? I believe in Li Mu's innocence and the restrictions of military discipline on Li Mu. I also believe that my father is an upright man and he will definitely clear Li Mu's and our name."

Xu Long originally wanted Hou Ning to persuade Du Jun to be flexible, but Hou Ning could not be persuaded no matter what. Xu Long waved at Hou Ning angrily. After Hou Ning left, he reported Hou Ning's attitude.

At this moment, Li Mu, who was at the police station, insisted that he did not participate in the assault of the female students this time. The reason why he participated in this gratitude banquet was to secretly investigate the problems in the support network.

In order to clear his name, Li Mu directly emphasized that the person in the room with him this time was Lin Yin. Lin Yin was not a sponsored student, and nothing had happened between the two of them.

What he did was pretend to be a masochist and touch Lin Yin a few times to make it more believable. He did not do anything overboard.

On the other hand, Lin Yin broke his ribs.

The next morning, when he heard the news from the police station, Mu Ran gritted his teeth in anger and said hatefully, "That old thing actually said that carefully removed Yinyin's makeup and said that a student shouldn't have such thick makeup. He made himself look like a saint. He's too shameless."

Lin Yin recalled the scene at that time. According to what Li Mu said, there didn't seem to be anything wrong. It was just that she was still sure what Li Mu was thinking.

"I used to think that Li Mu was clean and honest. He didn't get married at the age of 40 and was focused on his career. I didn't expect him to be so shameless in private!" Ye Wen was furious as she carefully applied medicine on Lin Yin.

"Mom knows Li Mu?" Lin Yin asked softly.

"We've met a few times. More than 20 years ago, he was a soldier under Fu Xi," Ye Wen said.

Ye Wen only remembered it after she returned. Li Mu had been a soldier in Fu Xi's hands back then. When he first entered the military, Li Mu was only 15 or 16 years old. According to Fu Xi, he was a fair and slender young man.

Chapter 915: Time Saber

Because he was fair and smooth, when the girls gossiped to each other, they even said that Li Mu shouldn't be a boy, he should be a girl. His skin was very clear. It was simply enviable.

Later on, Fu Xi left the military because of her marriage. Ye Wen rarely paid attention to the military, so when she was at the scene last night, she did not remember who Li Mu was.

Now that she suddenly remembered, Ye Wen only wanted to sigh. Time was a knife that would always sculpt people beyond recognition.

Lin Yin did not expect Wei Ji's mother to have joined the army.

"What about Yue Chi and the Yue Corporation? And Wei Chuan?" Lin Yin continued to ask.

She didn't care much about Li Mu. Firstly, she had seen the information and there was no record of Li Mu in it. She also knew from Yue Chi and the others that other than this time, Li Mu had never taken a fancy to any other girl in the past, so she might be the first female student Li Mu had tried to violate.

Secondly, Lin Yin felt that the source of this matter was the Yue Corporation and Wei Chuan, so she wanted to know more about the Yue Corporation and Wei Chuan.

Mu Xiao sighed and said, "There's no evidence to prove that Wei Chuan is related to this matter. That information can at most prove that a few of the girls who were violated were students from schools under Wei Chuan's management."

"At the moment, your evidence can only send those who violated underage female students to jail. As long as the female students are 16 years old, they will probably be said to have seduced them."

Before Mu Xiao could finish speaking, Mu Heng added, "It's the same this time. These people directly insisted that they were innocent. It was those female students who joined forces to plot against them for money. Therefore, it's the same. Only the few who violated underaged girls will be sent to jail, the others..."

Mu Heng sighed and continued, "The worst thing that can happen to an official is that they'll be fired for their behavior, but it won't affect those in the business world. As for the Yue Corporation, there's a high chance that the most serious crime will be mismanagement."

Lin Yin gritted her teeth. She knew that it was not easy to deal with a corporation and some high-ranking people. This was also why she did not bring people to save them openly back then. Instead, she chose to be cautious and investigate the truth first.

If she had really brought someone along back then, the current situation might be that she, Lin Yin, had framed the kind-hearted people who sponsored the students to study.

Even the students who were hurt now would think that she was spouting nonsense and slandering their kind-hearted people. After all, nothing had happened to these female students at that time. In everyone's eyes, these sponsors were all doing good.

Lin Yin recalled the surveillance videos she had seen in every room at the beginning. If she could find all of them, would at least the group of female students who were victims yesterday be able to seek justice?

Lin Yin spent all her energy looking for the surveillance video from that day. She didn't want these innocent girls to be like her in her previous life. They had clearly been harmed, but they couldn't let the wicked receive the punishment they deserved. They even had to be slandered and be charged with such an unbearable crime.

Lu Ming followed Lin Yin's instructions and went to look for the makeup artist, Shen Lin. However, after asking, he found out that the makeup artist of the Yue Corporation was called Ling Fei and not Shen Lin.

Moreover, according to Ling Fei, she was not feeling well at that time and had been in the hospital for a long time. Therefore, the makeup artist who went to the gratitude banquet to do makeup for those female students that day was not her.

Lu Ming sent Ling Fei's photo to Lin Yin to confirm. Lin Yin looked at the person in the photo and was certain that the person in the photo was indeed the makeup artist who called herself Shen Lin.

However, when she saw Lu Ming's message that said that Ling Fei had appeared in the hospital's surveillance footage, Lin Yin was a little stunned.

How could a person appear in two places?

Could they be twins?

Lu Ming refuted this guess. Ling Fei had said firmly that she was the only daughter of her parents and it was impossible for them to be twins.

Shen Lin's superb makeup skills flashed across Lin Yin's mind. Could it be that Shen Lin did her makeup according to Ling Fei's appearance?

When she found out that there was a conflict at the school gate, it was Shen Lin who appeared at the school gate and rushed to where she was with the Mu and Lu families. Lin Yin was even more curious about Shen Lin.

Why did Shen Lin save her? If Shen Lin was a kind person who stood up for injustice, would she be willing to come out and testify for these innocent girls?

After all, Shen Lin knew what Yue Chi had drugged that day and even had an antidote. Then Shen Lin must know a lot about the Huaqiang study network.

Chapter 916: Ridiculous

However, she didn't even know what Shen Lin looked like now. How could she find Shen Lin to testify?

Lin Yin tried to get Lu Ming to ask Ling Fei if she knew about the Yue Corporation's Huaqiang study network. Lu Ming replied that every time the makeup artist finished her makeup, she would leave directly, so she had no idea what happened after that.

Lin Yin was a little disappointed.

Feng Yu only went to the Mu family to look for Lin Yin three days after the incident. The first time she saw Lin Yin in Lin Yin's bedroom, Feng Yu knelt down.

"Yinyin, I beg you. Help my sister." Feng Yu's eyes were red, and her voice was choked. "Those animals threatened to sue my sister for setting them up and send her to jail. I really don't know what to do."

"I don't have any other way now. I can only ask you for help. As long as you're willing to help me, I can do anything in the future. I don't have anything valuable. I only have the 200,000 yuan you helped me get previously. I'll give it all to you. Can you help my sister?"

When Lin Yin heard Feng Yu's words, she was so angry that her chest hurt. How could these people be so shameless?

For the past two days, she had been actively looking for evidence. Lu Ming and the Mu Family were both trying to maintain the situation because someone from the higher-ups had already appeared and tried to replace Du Jun. Things were a little tricky for the time being.

So were those animals who harmed girls planning to bite back like this?

Lin Yin's vision darkened slightly, scaring Mu Ran so much that he hurriedly went forward to support her. He asked worriedly, "Yinyin, are you okay?"

Feng Yu also looked at Lin Yin worriedly. She knew very well that other than Lin Yin, no one could help her sister now.

Including the current director and the people who were rushing around for these innocent girls, it was all because of Lin Yin.

Therefore, nothing must happen to Lin Yin!

Feng Yu had always known that both money and power were good things. They were good things that could make people live with dignity, but she had never been so eager to obtain money and power.

If she had these, she would not have been sued, and her sister would not have been bullied.

Feng Yu's resentment towards the world froze in her eyes, and she clenched his fists tightly.

Lin Yin waved at Mu Ran and said, "Third Brother, I'm fine. I was just angry."

Then, Lin Yin said to Feng Yu, "Don't worry, I'll hold on to this matter. As long as your sister is willing to sue, I'm willing to accompany her to seek justice."

Not only was it to seek justice for these victims, but it was also to seek justice for herself in her previous life. She wanted these scumbags like Yue Chi to receive the punishment they deserved.

After Lin Yin finished speaking, she asked Mu Ran to quickly help Feng Yu up. It was not appropriate for her to kneel like this.

Mu Ran helped Feng Yu up. She was also extremely angry with those people, but if she wanted them to be executed, she had to use evidence. However, they really did not have any evidence now.

Those girls could complain about being violated, and those animals could also complain about being drugged and schemed against.

Initially, he had thought of getting someone to check on those people's bodies to confirm if there were any residual drugs in their bodies. In the end, cold water was poured on them. Even if it was found that there were no residual drugs in their bodies, could it prove that those girls had not drugged them?

Obviously not.

The moment Lu Ming entered, he felt the oppressive atmosphere in the room. He smiled and said, "You don't have to worry. It's all up to fate."

"How's the situation now?" Mu Ran asked.

"In the past two days, I've sent someone to negotiate with the girls from before. I want them to come out and sue the Yue Corporation and Wei Chuan as victims. They can slander a girl, but they can't say that every single girl at every banquet drugged and seduced them. Moreover, some of these girls don't know each other. It's quite ridiculous for them to drug all of them," Lu Ming said.

Mu Ran snorted. "Aren't they just spouting nonsense because they saw that there are too many people involved and the situation is a little chaotic?"

Lu Ming nodded and agreed. "That's true now, because many of the people involved are now in high positions. It's indeed not easy to touch them. Hou Ning also called me just now and said that the military has already talked to her. They probably want her to change Du Jun's mind."

Lu Ming sighed slightly and said in a low voice, "Other than that, the people involved in the case have already gotten someone to warn the girls and their families. So, most of the girls' families are avoiding us. They don't trust us yet. They're afraid that they won't be able to win against those people and will be dealt with."
